Folks and Things ABOUT TOWN

—By Ben

Happy New Year, Readers! And may the year bring you all the happiness and contentment that you hope for. May each of the 365 days bring you new friendships, love, and a desire to help your fellowman. May each day break to find you a better man or woman, boy or girl, and next New Year may you be able to look back over 1954 and say that it was a good year.

Congratulations to Raymond P. Sims on his appointment. We're very glad for he and Lois. Both have meant a great deal to Clanton and Chilton County, and we are sure his work in his new position will be as ably done as has been his work in local affairs here in the past. Our best wishes go with them.

A Santa Claus in plumber's clothing. "Get the picture? We can't. Anyway, that's the way it was for the week before Christmas here. Gene Gore went down to the post office each day and whenever there were any Christmas Cards without stamps in the dead letter box, Gene would have the postmaster count them, stamp them, and send them on their way. Now the reason we're writing this paragraph is to prove our point—you will find Santa Claus in any kind of clothing, anywhere, if you but have faith in your fellowman. The fellow who dressed Santa up in all the white whiskers and red suits was wrong. There is no special costume for the real Santa Claus.

Did you hear about the teacher who was telling her young pupils about all the different kinds of railroad cars. She asked Johnny what kind of a car did they carry cattle in. Quick-y Johnny answered: "Cattleacs."

We don't believe that tale that T. E. Easterling was telling us about Pig" Headley. J. E. said that's why was born out here on Route and brought in to Pig's Grocery where they were going to weigh it. When placed on the scales the young baby weighed 24 pounds. No kidding, we think J. E. is pulling Pig's" leg.

An Englishman was once invited by a New Yorker to accompany him on a hunting trip to Long Island.

"Large or small game?" queried the Britisher, who had hunted in every quarter of the globe.

"You don't expect to find lions and tigers on Long Island, do you?" "Hardly, but I like a spice of danger in my hunting."

"In that case," answered the New Yorker, "I'm your man all right. The last time I went out I shot my brother in the leg."

Now to call it a day we'll tell you about the tight rope walker in the circus who had an accident. It seems that the rope wasn't tight, but he was.

NOTICE TO NON-RESIDENT

The Chilton County Law And Equity Court, In Equity No. 592
The State of Alabama, Chilton County.

In Equity December 1953

Myrtilene Culp, Comp. Anant, vs. James Harmon Culp, Defendant.

In this cause it is made to appear to the Register by the affidavit of B. Atkinson, Attorney of record for Huntilene Culp that the Defendant is a non-resident, and that his place of residence and post office address is unknown, and that such address cannot be ascertained after reasonable effort; and, further, that, to the belief of said affiant, the Defendant is of the age of twenty-one years;

It is therefore, ordered by the Register that publication be made in the Chilton County News, a newspaper published in the County of Chilton, once a week for four consecutive weeks, requiring him, the said James Harmon Culp to plead, answer, or demur to the bill of complaint in this cause by the 1st day of February, 1954, or, in thirty days there after, a decree pro confesso may be taken against him.

Done at office in Clanton, Ala., this 30th day of December, 1953.

January is a good time to buy nitrate fertilizers, so they will be on hand for top-dressing small grains from February 15 to March 1.

Apply 500 pounds of 6-8-4 fertilizer per acre on strawberries about January 1 in South Alabama and a month later in North Alabama.

On Being a Good Neighbor

We all pridé ourselves on being neighborly. Within the circle of our community, the helping hand is extended to those in distress. But being a good neighbor in just our own community is not enough. There are many mutual problems facing all of us that can be solved only on a national level. Some of these are health and welfare problems that are much better solved voluntarily—through all our own efforts—than by a paternalistic all-embracing government.

The scourge of polio is one problem that cannot be solved locally. Victory can be won only if every community voluntarily supports a coordinated national attack against the disease. This requires a national organization to lead the fight. Fortunately we have a battle-tested leader in the National Foundation for Infantile Paralysis.

For 16 years the National Foundation and its county chapters have spear-headed the attack against polio. It is a purely voluntary organization financed solely by the March of Dimes. It grew out of the recognition of millions of people that polio could be conquered only through an expensive and expansive effort.

This is the American way of doing things, as opposed to the totalitarian way in which government does it all and people must simply accept what is done.

Some people believe that neighborliness should stop at the borders of their own community. They would have the government take over all large health and welfare programs. We don't believe these people realize what this kind of government program would involve.

As President Eisenhower recently said when talking about voluntary agencies: "The slogan of a true democracy is not—Let the Government do it. The true slogan is—Let's do it Ourselves."

Robert T. Lansdale, New York State Welfare Commissioner, recently said this: "Without the facilities and services of voluntary agencies, vast sums would have to be spent by the State to build plants and institute programs" and "while public and private agencies complement each other, it is the voluntary groups which have explored, pioneered, and developed techniques of assistance and set the pace for all programs. Government and voluntary agencies do not conflict; both have found a sound basis for their existence in the American social structure."

We think this is sound reasoning. We hope that such voluntary organizations will continue to be an integral part of the American way of life. They provide a bulwark against regimentation and totalitarian tendencies.

The 16th March of Dimes is just starting. It may well be the most significant one ever held. The announcement of a new program—POLIO PREVENTION—with a trial vaccine to be tested this year—may mean a grim and expensive battle soon won. Victory seems close, but it can only be reached if we all dig down and give more than ever before.

Here is our chance to be good neighbors on a national scale and prove that the spirit of voluntary cooperation is a mighty weapon against disease and disaster.

A Proclamation By The Governor

WHEREAS infantile paralysis, in 1953, hit our nation with tragic force, and more than 35,000 boys and girls and men and women were stricken by this cruel disease, and,

WHEREAS, the National Foundation for Infantile Paralysis speedily came to the aid of the afflicted, assuming costs of patient care, and providing for the recruitment of professional personnel, as well as supplying thousands of vitally-needed pieces of equipment, and,

WHEREAS, we of the sovereign State of Alabama have witnessed the brutal impact of polio as attested by 290 cases in 1952 and 444 cases in 1953, and

WHEREAS, since the establishment of the National Foundation, Alabamians have contributed $1,304,448, and received in return that amount plus an additional $1,750,478 in epidemic aid, professional education grants and assistance to hospitals, and

WHEREAS, in 1953, 33,000 children of the State of Alabama received injections of gamma globulin, the only known protective available at that time, and

WHEREAS, the National Foundation for Infantile Paralysis is now ready to mass-test a trial vaccine, in the hope of preventing infantile paralysis, and,

WHEREAS, during the 1954 March of Dimes, January 2-31, volunteers throughout the State of Alabama and the nation will call upon the American people to join the fight against polio as never before,

THEREFORE, I, Gordon Persons, Governor of the State of Alabama, do HEREBY PROCLAIM the month of January as "March of Dimes Month," and urge every resident of our great State to give, and give again for this truly humanitarian cause, in the knowledge that what we do for our fellowman shall likewise be rendered unto us in full measure in our time of need.

Signed: GORDON PERSONS,
(SEAL) Governor.

The 1953 sericea seed crop of 6,336,000 pounds is two and one-third million pounds less than the short crop of 1952.

MARCH OF DIMES CAMPAIGN MEETING

All those interested in taking an active part in the March of Dimes Drive, please attend the meeting to be held Friday, January 2, 7:30 p.m. in the Ianton Presbyterian Church.

We hope to set our goal this year at $6,000.00 because of the great discovery of a new drug which will combat the dreaded disease polio. Vast sums of money is needed to produce Gamma Globulin in order to give every child the chance for future security and happiness.

We are calling on every citizen in Chilton County to give generously to the March of Dimes as the campaign opens January 2 through January 30th. — Rev. Don R. Esty, County Director.

NOTICE STOCKHOLDERS ANNUAL MEETING OF BANK OF THORSBY, THORSBY, ALABAMA.

To Stockholders of the Bank of Thorsby:

The annual meeting of the stockholders of the Bank of Thorsby for the election of directors and the transaction of any other business that may come before the meeting will be held at the Town Hall, Thorsby, Ala., on Tuesday, January 19th, 1954, at 2:00 p.m.

Next month prune and top shade trees because there is less chance for decay to enter the wounds in January.

Per capita beef consumption increased from about 61 pounds in 1952 to around 75 pounds in 1953; pork consumption dropped from about 72 pounds to about 61 pounds per capita.

To get a big crop of high-priced fall calves, turn bulls back in with the cow herd now.

Until they reach 50 pounds, baby pigs can make a pound of gain on one and one-half pounds of feed.

TAX COLLECTOR EXPLAINS NEW POLL TAX LAWS

M. C. (Jack) Hayes stated this week that the most anyone can pay for the privilege of voting is $3. According to Hayes who was quoting from an opinion by the Attorney General, persons who have reached the age of 47 or over will owe no poll tax at all.

All would-be voters who register and pay their poll tax before the first of February will owe only three dollars regardless of how long they have neglected to pay their poll tax. Those voters who keep their poll tax current will owe only the usual $1.50. This tax becomes delinquent February 27th.

The Chilton County Board of Registrars will be in session at the courthouse for the purpose of purging the voting list the week of January 4th. There will be no registrations during this time. However, the Board will be in session for the purpose of registering voters for ten days beginning the third Monday in January.

Union Grove Resident Robbed Of Life Savings

More than $2,400.00 was taken from a Union Grove resident shortly after noon Thursday by what is reported to be "a carload of gypsys." Victim of the robbery was Albert Wilson. According to Wilson's story three gypsys drove up to his home about one o'clock Thursday and called him to ask some questions. They claimed to be looking for some negroes who lived near there.

Wilson not being able to understand what the people wanted came close to the car to see if he could be of some help. A man was driving the car and two women were with him. They talked some time trying to make themselves understood, according to Wilson"s story. It was after they had left that he discovered his pocketbook containing $2,400.00 missing.

The Sheriff's office was not notified until seven o'clock Thursday night and Sheriff Kendrick and a deputy rushed to the scene to see if any clues could be uncovered to help catch the thieves who took Wilson's money. A description of the car and occupants was broadcast immediately by the Sheriff, but chances of apprehension was slim as too much time between the robbery and the report to the Sheriff's office had lapsed enabling the thieves to make their getaway.

STELLA TULIP DESIGN DIED

The cow so much admired with type and production by the people of Chilton County, died last week. She was 10 times the Grand Champion at the County shows. She was 20 years, 1 month and 4 days old. No doubt, Stella Tulip will be missed at the home of Mr. and Mrs. J. G. Heida, Thorsby, Alabama.

MISSION CHAIRMAN SAYS: LETS' WAKE UP, WOMEN

If you want your dreams to come true, wake up! Who among us has not dreamed of a community whose people love the Lord and seek to follow him in all their living?

Dreaming will not make it so. Let us wake up and go to work to help our communities become what Christ would have them be. The Community Mission Program gives us an avenue through which to work to achieve this purpose.

There will be a very special feature on Community Missions at Thorsby Baptist Church January 6. All WMU Community Chairmen please be at this WMU quarterly meeting and learn what you can do to make Chilton County a better place to live. If your WMU does not have a Community Chairman, send someone to represent your WMU.

Chilton-Unity WMU Community Mission Chairman,
Mrs. Billy B. Dykes.

PRUNE TIMBER STAND NOW, SAYS FORESTER

Timber owners can prune their trees now with little danger of insects and disease attacking freshly cut surfaces.

Remove limbs only from crop trees tall enough to be pruned at least 17 feet, advises API Extension Forester I. R. Martin. This practice assures one clean 16-foot log sometime in the future.

January is a good time to prune and top those yard shade trees, he adds, because there's less chance for decay to enter the wounds.

CHILTON COUNTY 4-H COUNCIL ELECTS OFFICERS

Saturday, December 19th, sixty-four 4-H Club members representing twenty-six clubs, met at the City Hall in Clanton to elect officers for 1954.

The meeting opened with the singing of several Christmas carols and then the following officers were elected:

President, Patsy Young, Clanton, Ala.; First Vice-President, Jimmy Kincaid, Thorsby, Ala.; Second Vice-President, Carolyn Cox, Thomas Jr.; Third Vice-President, Tommy Smith, Thomas Jr.; Secretary-Treasurer, Patsy Boles, Isabella; Reporter, Geraldine Miller; Thomas Jr.; Song Leaders, Lucille Blalock, Thomas Jr.; Ann Logan, Mt. Pleasant; Willie Scott, Jemison; and Herman Kendrick, Mt. Pleasant.

These officers and the other 4-H'ers present also discussed and helped plan the following activities to be included in the County 4-H program during 1954: Conduct six 4-H Council meetings; County 4-H Rally April 23rd; observe National 4-H Week, March 6-14th; observe National 4-H Sunday, May 23rd; organize older 4-H groups; have training meetings for 4-H Neighboraide Leaders in May; hold Neighboraide summer meetings; send delegates to State 4-H Camp; participate in District Shows and Contests; have dairy maid contest, baking contest, dress and skirt revue, and dairy foods demonstration contests for girls; continue to sponsor mail box improvement; hold summer recreational meetings; and find and use 4-H talent. Each of these activities, as well as others, will be included in the 1954 Plan of Work and will be carried out during the year.

As the 4-H'ers arrived at the meeting, each one signed his name and during the meeting names were drawn and prizes of candy were awarded to the following boys and girls: Sharon Hubert, Bonnie Sue Knight, Tommy Warren, Martha Sue Miller, Charles Burgess, Lou Jetta Maddox, Jimmy Maddox, Willie Scott, Patsy Young, Doris Robinson, Herman Kendrick, Thomas Minor and Gene Ellison.

After the business meeting a picture of the group was made by Scott's Studio and will appear in the paper at a later date.

Each of the newly elected officers were interviewed on a radio tape which was made for the 4-H program and broadcasted over the local radio station.

A total of 72 were present at the meeting including sixty-four 4-H'ers, three agents and five visitors. After the meeting was adjourned the group went to a local drug store where they enjoyed ice cream.

WHY NOT CREATE OUR OWN INDUSTRY?

Elsewhere in this issue of the News you will find a report from the president of the State Chamber of Commerce stating that eighty-three new industries moved into the State of Alabama during the year, 1953. Of these, as you doubtless know, Chilton County attracted none.

While it is quite commendable to invite industries to locate in our county, is it intelligent to finance their ventures?

If we must buy the real estate, construct the plants, cancel the taxes and then shoulder the entire risk of the undertaking, then why not make the entire venture our own? After all, the people who give a business its financial backing should likewise share in the direct profits thereof.

Since 1938 your Chilton County News has stressed the need and advocated the construction of a commercial canning plan in Chilton County. While we do not profess to know anything of the technical procedure for building or operating a plant of this type, we do, however, know that it would have many advantages for the people of this area.

It seems that industry is mainly an attraction because it brings added income into a given area: A canning plant would surely do that. Secondly, we want an industry to employ our surplus labor: This would be solved by a canning plant. Thirdly, we want to boost our "Garden Spot of the World": A canning plant is the most logical method of achieving this end. And, as the main asset of a commercial canning plant, over any other type of industry, it would be a gain for agriculture in our county and it stands to reason that agriculture will always outrank industry here.

The business man would realize an immediate and constant gain through the added capital coming into this area. The farmer would have all the advantages of a ready market for his products, plus having an interest in the market, hereby eliminating the profit-consuming middle-man. The laboring man would have a new field open for him right here at home. The county, as a whole, would gain in many other ways, too numerous to mention. We propose that this commercial canning plant could, and should, be financed on a share basis, giving the grower, business man, laborer, and investor an equal opportunity to benefit himself as well as his county. But we also propose that it be done on an open basis, giving the people an idea of what is going on, instead of whispering about it.

After all, nearly everyone knows Chilton County for her peaches, berries and other produce. Why let someone else reap the benefit thereof.

JANUARY BLIZZARD

Eighty-Three New Industries Moved Into Alabama In 1953

". . . And when you make the last payment we the last piston . . . fair enough?"

Montgomery, Dec. 31—Eighty-three new industries moved into 43 different Alabama cities in 30 seperate counties in 1953, Thomas D. Russell, president of the Alabama State Chamber of Commerce, said in Montgomery in releasing the annual year-end industrial report for the state.

"This total of 83 industries, Russel continued, "is an average of more than one new industry for every county in Alabama, and that's a fine average."

Representing an investment of more than thirty million dollars ($30,991,000), the 83 new industries will furnish employment to an additional 7,074 persons in Alabama, Russell said. The State Chamber president said the investment figure and the employment figure did not include several large industrial firms who have located in the State during the year, since the companies did not include such statistics in announcing new plants.

Russell's report also said that 64 existing plants in Alabama have expansion plans underway which will total more than 92 million dollars ($92,709,000). These expansions, Russell explained, will require the additional employment of nearly 3,000 workers (2,939), and reflect the confidence existing firms have in the future of Alabama and the south.

A wide variety of products will be manufactured in these new plants, which are scattered from the Tennessee Valley to the Gulf of Mexico. A giant air conditioning manufacturer, Worthington in Decatur, brings the first operation of its kind to Alabama. Some of the products these firms make include such items as mattress covers, shuttle blocks, strip steel, various textile products, cigars, movie screens, gloves, pipe coating, TV antennas, bottle caps, welding rods, baby clothes, raincoats, screws.

In addition to Alabama's progress industrially during 1953, Russell said, agriculture has also continued to improve. Hogs brought Alabama producers 20 percent more than in 1952, egg prices have been higher, and lower feed costs made the production of broilers and turkeys more profitable. Corn production is nearly double 1952, the cotton crop nearly a 100,000 bales more, wheat yields have doubled, along with oats, and substantial gains have been made in other crops, the State Chamber president said.

John M. Ward, executive vice president of the State Chamber, said prospects for increased industrial activity in Alabama looks good for 1954. "We have 24 active prospects in our files now," Ward added, "and local chambers of commerce, railroads, the Alabama Power Co., TVA, and others also have active prospect lists. We'll certainly get some of these next year."

SCANNING THE NEWS

THE BIG problem for Congress is finding a way to get the Government out of the red, as well as to get the Red out of government. Faced with a budget gap mounting into millions of dollars, the Eisenhower administration must have some action in 1954 that will bring in more revenue.

Whatever is done to bring in more revenue will one way or another reach most American pocketbooks. Key congressmen and veteran observers, however, feel that no outstanding tax proposals probably won't be enacted in 1954 —a national sales tax or manufacturers excise tax. These are but two of many revenue and economy measures under study to secure additional income. Enactment of one of these methods of taxing would offer the Administration its best chance to "recoup" and to offset the fact that expiring tax levies and high defense costs make substantial revenue losses almost certain in 1954.

Just what the Administration will do is a matter of speculation. President Eisenhower several months ago told a GOP rally at Boston that "no sacrifice—no labor, no tax, no service (is)—too hard for us to bear to support a logical and necessary defense of our freedom." A few days later, at a press conference, he said the Administration has no plans to ask Congress for a retail sales tax, but admitted that he was not ruling out a manufacturers excise tax.

For much less than a nickel, one can get plenty of arguments around Capitol Hill as to the merits and demerits of this type of taxation. These arguments are based upon political and economic reasoning. Those who favor some taxation do not even agree on whether the tax should be imposed at the retail or the factory level.

The prime argument for a uniform retail sales tax is that it would produce more revenue than a manufacturer's excise tax of the same rate. (The catch, as far as John Q., is concerned, is that the tax would be tacked onto the retail price of an item and would be paid directly by the consumer.) Proponents of a manufacturers sales tax stress the point that such a tax would be much easier to collect, since there are some two million retail outlets in the country, compared with about 250,000 manufacturers.

Another argument for this cause, supporters say, is that such a tax, applied at the factory level on virtually all goods, (except, probably, food and food products) would eliminate discrimination through excises on "luxury" items.

Those opposed to any federal sales tax argue that such would be an invasion of the states' sales tax field, pointing out that in fiscal 1953, 31 states realized 36.3 per cent of their total tax collections—about $2.4 billion overall — from their general sales taxes.

The arguments listed here, and the battle for and against sales tax might well explode on Capitol Hill during 1954. Rep. Noah M. Mason (R Ill.) has said he will sponsor a bill to provide a five per cent tax on all manufactured goods except food and clothing—with a separate tax for liquor and tobacco. Both House Speaker Joseph W. Martin, Jr., (R Mass.) and House Majority Leader Charles A. Halleck (R Ind.) have expressed personal doubts that Congress will pass either a sales or manufacturers excise in 1954.

ACROSS the DESK
ideas from other editors

From the Eufala Tribune, Eufala, Alabama: The latest Commerce Department figures show Federal income taxes, in 1950, took eight per cent of the income in the $7,500 to $10,000 class family. Families and non-dependent individuals with incomes over $10,000 paid nineteen per cent of their income to the Federal government as income tax.

An interesting part of the report is that which shows the national family income, before taxes, to have been about $4,460 in 1950. The report shows that family income is up considerably but the average Federal income tax is not as high as many assume.

From the Dearborn Independent, Dearborn, Michigan: Governor Hugh Gregg of New Hampshire recently said, "Remember this: No government, federal or state, can give you anything which it has not first taken from you."

It might seem that so undeniable a proposition would be known to everyone. But it is plain that a great many of us still cherish the illusion that government can give us all kinds of services and benefits at little or no cost to us.

Actually, of course, we get back from government much less than it takes from us. Waste and extravagance are the great depreciators of our tax dollars.

From the Southern Standard, Arkadelphis, Arkansas: It has been said that "accepting government aid is like taking drugs—pleasant at first, habit-forming later, damning at last."

Dependence on government, like dependence on drugs, saps the moral and ethical fiber of the people. It makes government the master, not the servant. And, far enough, it can bankrupt us.

* * *

From the Page News and Courier, Luray, Virginia: Many a citizen who thought days ago he was getting along all right finds himself with a hole in his pocket now. But that is the way it will forever be. No one is ever ready for the tax collector.

There is consolation in the knowledge that in this and other Virginia counties we are getting a lot for our tax dollar. We may criticize and scorn, berate the supervisors and school board, and all the officials, but everything said and done it's not too bad when we consider what we get for our money. For instance there is police protection, welfare aid, health services, schools, good roads and numerous public benefits such as access to a library and aid to volunteer fire companies and a lot of other things. Without these public benefits, it would be a sorry place in which to live.

CONGRESSIONAL Quiz

Q—What has the government done to sell its war-time-built synthetic rubber facilities?

A—On Nov. 20, the federal government began advertising for the auction sale of the 28 government-owned plants and facilities. Under terms of P L 205, a three-man commission is slated to report to Congress on proposed sale contracts by Jan. 31, 1955. Congress may reject the proposed sale, either in part or in toto.

Q—Who are the oldest and youngest members of Congress?

A—The oldest Senator is Theodore F. Green (D R. I.), who is 86, the youngest, Russell B. Long (D La.), 35. The honors for age in the House are held jointly by Reps. Brent Spence (D Ky.) and Robert Crosser (D Ohio), at 79. Youngest Representative is William C. Wampler (R Va.), 27.

Q—Are private contractors working for the federal government allowed to practice racial or religious discrimination against employees or job applicants?

A—Not according to law. Most federal contracts contain a provision forbidding discrimination. Agencies letting the contracts are responsible for enforcement, using contract cancellation as a weapon. The Committee on Government Contract Compliance reported that enforcement has been ineffective. President Eisenhower Aug. 13 established the new Government Contract Committee to help the agencies enforce non-discrimination provisions.

Q—What are the chances for a national sales tax in 1954?

A—Not good, according to recent statements by Reps. Daniel A. Reed (R N. Y.), Chairman, and Wilbur D. Mills (D Ark.), of the House Ways and Means Committee, which originates tax legislation. House Speaker Joseph W. Martin, Jr. (R Mass.) and majority leader Charles A. Halleck (R Ind.) also have been quoted as saying the chances for enactment of a sales tax or a manufacturers excise tax are slim. President Eisenhower said Sept. 30 he opposed a tax at the retail level, but declined to rule out the possibility of recommending an impost on manufactured products at the source. Some legislators believe that levying any new tax in an election year would be politically unwise.

Mulberry Church—

There was a good congregation at Mulberry Sunday. A good many were absent due to having company.

Bro. Jones delivered a fine message Sunday morning and Bro. Charlie Haggard delivered a very inspirational message Sunday night. Sunday morning visitors were Hudson Calfee, Frank Tucker, Betty Willis, Mrs. C. P. Jones and Judy Ann, Rev. and Mrs. C. P. Haggard and Jimmie Jones. We welcome all visitors.

The church remembered the shut-ins with baskets for Christmas.

Wednesday, January 6th, will be the regular family night at Mulberry. Everyone has a place there. We will be looking for you.

The three circles visited and carried baskets and love gifts to the shut-ins of this community last week.

Mrs. L. S. Calfee and her Intermediate girls visited the shut-ins on Monday night. They sang Christmas carols.

The Intermediate G.A.'s and their counselor, Miss Fay Bonds, visited the Indians and presented them with Christmas Gifts on Wednesday afternoon.

SIMPLE, day-to-day care will keep your appliances in good order and cut down a great deal on repair bills.

Keep a small paint brush handy for brushing crumbs from your toaster every day after it's used. Wipe the outside of the toaster with a slightly damp cloth to keep it shiny.

If waffle batter spills on the outside of the waffle baker, let it "bake" before removing. Then wipe off with a damp cloth and polish dry with a soft dry cloth.

Grids on a waffle baker can be cleaned with a stiff wire brush.

RECIPE OF THE WEEK
Orange-Cranberry Punch
(Makes 1½ quarts)

¼ cup sugar
¾ cup water
¾ cup concentrated, quick-frozen orange juice.
2 tablespoons lemon juice
1 bottle (½ pint) sparkling water

Combine sugar and ¾ cup water in saucepan. Place over heat and bring to a boil. Stir until sugar is dissolved. Cool. Add remaining ingredients. Mix well. Serve with ice cubes or cracked ice.

Never wash the grids with water as this will damage the pre-treatment which has been given to them.

Keep coffee makers of any type well cleaned and sweet if you want every batch of coffee to taste good. Oils permitted to remain in them become rancid and spoil the freshly made coffee.

Filter cloths should be rinsed with cold water after each use. Change them when they become too stained or well used.

Never let cords rub against appliances when they're in use. Heat and friction may cause the insulation of the cord to wear off.

No thermostat control on your iron? Don't let it get too warm. Switch off the iron frequently and let it cool before using when it gets too warm.

4-H'ers Enjoy Christmas Party

Four-H girls of the Thomas Jr. 4-H Club were invited to a Christmas party Saturday afternoon, December 19th, at the home of Mrs. Charlie Sandlin. The group enjoyed playing bingo and several other games. Small prizes were awarded to the winners of each game. Names were drawn and Christmas gifts were exchanged by the girls.

The hostess served hot chocolate, cookies and candy to the following: Martha Sue Miller, Mary and Annette Jones, Lucille Blalock, Carolyn Cox, Mrs. Clara Sandlin and Mrs. Johnnie M. Lane.

Wastebaskets and living room screens covered with discarded road maps are very unique and attractive.

G. L. Griffins Celebrate Fiftieth Anniversary

Mr. and Mrs. G. L. Griffin celebrated their 50th wedding anniversary on Dec. 24, 1953. Mr. and Mrs. Griffin were married in Clanton in 1903 and have lived in Chilton County all of their married life. They have thirteen children, all of whom are living; eighteen grandchildren; and three great grandchildren.

Eleven of the children and their famalies helped to celebrate the memorable occasion on Dec. 25th, when they visited their mother and father. They were as follows: Mr. and Mrs. J. C. Griffin and family, Mr. and Mrs. J. B. Thomas and son, Mr. and Mrs. Martin Stevens and son, all from Birmingham; Mr. and Mrs. T. E. Griffin and children of Bessemer; Mr. and Mrs. A. L. Pierce and family, Mr. and Mrs. O. O. Martin and children, Mr. and Mrs. D. C. Griffin and family, Mr. and Mrs. E. A. Neely and family, Mr. and Mrs. Blackie Griffin, all of Montgomery; Mr. and Mrs. B. V. Griffin and daughter of Clanton; and Mr. Elbert Griffin of Miami, Fla.

Student Night At Christmas Presented At First Baptist

The First Baptist Church was honored at the evening service Sunday when the college students presented the annual "Student Night at Christmas" program. It is a custom that the students home from the different colleges for the holidays present the original and the very inspirational program.

The theme of this year's program was, "This is the Life," and was directed under the leadership of Miss Jettie Faye Ellison. Those who participated in the program were: Glennis Askins, Joe Blair, Judith Ann Williams, Donna Klinner, Joanne Scott, Rebecca Popwell, and Buddy Burdette. Two talks were given: "Meaning of BSU," by Bobbie Gray, and "What BSU Means to My Life," by Jettie Faye Ellison. The music was directed by Miss Nanette Nivens.

Mrs. R. C. Williams Hostess To Music Appreciation Club

One of the loveliest affairs of the holiday season was the Music Appreciation Club's December meeting, which was held at the home of Mrs. R. C. Williams.

The spacious living room was decorated with potted poinsettias and greenery; the mantel had two massive red candles at each end, and in the center was a little white church with little red and white choir boys. The pier mirror, in the hall, was a point of interest, with a lovely white Madonna, English holly and three red tapers, arranged at the base of the mirror.

The dining room table was spread with a chartreuse linen cloth, with two wide streamers of green satin ribbon, running down each side, and centered with two gold mesh hurrican lamps, holding green candles. Little golden Christmas balls and greenery completed the arrangements.

On the buffet was two gold mesh cornucopias, with golden balls, and on each end was a brass imported Angel chime, each with four white candles, and as the candles burned, the angel chimes played softly.

The large Christmas tree stood in all it's traditional beauty, in the sun parlor, at the picture window, it's glitter and glamour being visible through all the reception rooms.

Mrs. Dyer Shackelford, program chairman, introduced the guest artists from Wetumpka, Ala., who brought a program of Alabama music. Mrs. Florence Golson Bateman, Composer, spoke on "American Music"; Mrs. A. R. Kelly, Soprano, and Mr. Edward S. Gray, Baritone, gave several selections. Mrs. Gray and Miss Nancy Kelly were accompanists.

After the program, the members and guests were invited into the dining room for party refreshments, in the holiday motif. Mrs. W. A. Willis, president of the club, poured coffee from a silver service. Cohostesses for this delightful occasion were Mrs. Claud Craig, Mrs. Reid Mullins and Mrs. W. A. Willis. Each club member invited a guest and there were 60 enjoying the program and the hospitality.

MISS BARBARA MARIANNO BECOMES BRIDE OF S-SGT. JAMES HARGROVE

More than 375 persons gathered at Holy Spirit Catholic Church Sunday afternoon, December 13, 1953, to witness the marriage of Miss Barbara Marianno to Staff Sgt. James Maxwell Hargrove.

The Rev. Father Joseph Pier read the solemn rites before an altar banked with white stock, chrysanthemums and pompon chrysanthemums.

The bride, who was given in marriage by her father, Ben Marianno, was radiant in a gown of white imported lace, tulle and satin, made by her mother in a design she, herself, had fashioned. Her veil, of finger tip length, cascaded from a crown of rhinestone and she carried a spray of flora de amor and lilies of the valley on a white lace-covered prayer book.

Miss Janet Adler, maid of honor, wore a yellow gown of net and taffeta, with a large picture hat. The bridesmaids Miss Judy Clark and Miss Hazel Alomida were dressed like the maid of honor, except Miss Clark was gowned in baby blue and Miss Alomeda, in violet. All three classmates of the bride at Armigo Union High School carried nosegays of red pompon chrysanthemums.

Miss Kathlene Rodler, niece of the bride, was flower girl. Her ensemble was of pink net and taffeta and she carried a basket of pink pompon chrysanthemums. The ringbearer, Charles Santos, Jr., a cousin of the bride, wore a white linen jacket and black trousers. The ring rested on a white lace pillow.

Best man was Tech. Sgt. Russell Sawyer and ushers were Ben Lake, Airman First Class, and Hank Christiansen, Airman First Class, all of whom serve with the bridegroom in the 5th A & E at Travis Air Force Base, Fairfield, California.

Organist, Agnes Jacobsen, played the wedding prelude and the processional and recessional marches for the afternoon rites.

The reception followed in Holy Spirit Hall after the ceremony. There Mrs. Marianno, mother of the bride, greeted guests in an ensemble of navy blue and pink. Her corsage was of salmon pink carnations.

When the couple left for their Sacramento honeymoon, the bride changed into a gold and brown suit with brown suede shoes and bag and carried a fur muff. After December 20th, the couple will be at their new home at 1971 Utah Street, Fernwood Gardens, Calif.

The bride, who is a senior at Armigo Union High School, is employed at Hyde Co. The bridegroom, son of Mr. and Mrs. Leo Hargrove of Clanton, Ala., recently returned from overseas service and now is stationed at Travis Air Force, Fairfield, Calif.

Around OUR HOUSE

by Kathryn Tucker Windham

The house looks almost indecently bare with the tree down, the silvered evergreens tossed into the garbage and the colorful cards taken down from their ribbon hangings.

As the seven-year-old observed just before she fell asleep Christmas night (she postponed bedtime as long as possible trying to cling to the happiness of the day), "This has been a very, very satisfactory Christmas. Just right."

Santa Claus' choice of gifts made the youngsters happy—from 4:00 a.m. on through the day. The four-year-old was delighted with his Roy Rogers ranch set, the seven-year-old had a moist but completely contented time attending to the needs of her Tiny Tears baby doll, and the one-year-old busied herself snatching all toys left unguarded.

Most of the Christmas candy has been eaten now, thank goodness, and I have hopes that the children will settle back to normal diets again soon.

It was a wonderful Christmas, probably the last one with all three children absolutely certain of the existence of the fat man with the white whiskers. Somehow though I can't quite agree with the four-year-old who thinks a year is entirely too long to wait for another Christmas to come!

* * *

Now comes the writing of thank-you notes. Our neighbor around the corner always takes snapshots of her children playing with the toys sent them and sends the pictures along with her notes.

* * *

Every time I think of thank-you notes, I'm reminded of the little girl who wrote:

"Thank you for the present you sent me. It was just what I wanted though not very much."

* * *

One of the nicest parts of this Christmas was getting cards and notes from readers of Around Our House. Many thanks for taking time to send greetings to us!

* * *

Our next door neighbor was packing her Christmas Decorations when we stopped by to see her yesterday, doing it as carefully as she does all things.

She packed all her small tree ornaments in empty egg cartons which make perfect containers. She has used some of the same ornaments for 25 years—but she doesn't have children!

* * *

Our neighbors down the street always have a living Christmas tree, a young evergreen with roots carefully wrapped and put in a big tub. After the holiday, they plant the tree on their lawn. Now they have the trees from five Christmases growing around their home.

* * *

Here's a meal on toast for a busy day: Put buttered slices of toast in a shallow baking pan. Put slices of cold turkey (or cold chicken) on each piece. Place canned asparagus tips on the turkey, pour cream sauce over the whole thing, sprinkle with grated cheese and place under the broiler about eight minutes.

Happy New Year! The Very Happiest Ever!

My PET PEEVE

By W. Scott Boyd

IT'S NICE to spend so much leisure time as will be allowed by a wife who wants so much . . . dishes washed, the broken chair arm mended, the kitchen set painted, etcetera and so on . . . in the wonderful and blissful pastime of ad-wishin' through the pages of the daily blab. I always wish I hadn't read the fine print or the explanation hidden besides the asterisk at the bottom of the page.

I see that some big company is selling 54 Fordolet automobiles for $100 down and $5 per week. WOW! But, somewhere down in the small print, is the explanation: "Yes sir! we just received them—54 of them — clean, city-driven 1930 Fordets."

I also see that the Hugh Owns Finance Company has set up a new lending plan. No co-signers, no collateral, no security — just phone us and we'll have the money waiting for you.

On page 21, I see where I can buy what I have always needed to hide away and save as a present for one of those unexpected evenings (when I'm later than I ought to be in getting home and need a little gift to get me back into good graces). A left-handed food chopper. That ought to do it. And, it would cost me only 50 cents a day for 36 months.

The classified page has its wonders, too. Let's see, there in big bold letters — $10,000 OPENING . . . EXPERIENCE NOT NECESSARY. Ought to be worth my time . . . opening for alert, aggressive . . . as consultant to large advertising firm . . . advancements . . . Deee . . . no experience as consultant . . .

Yes, dear, I'm coming. No, wash or dry. You take your preference.

SAMARIA NEWS

Since we didn't have any gas to heat the Church Sunday morning we didn't have preaching, but we did have Sunday School. We had a large crowd out for Church Sunday and we were very sorry the Church was not warm in the morning but, thanks to the gas man the Church was very warm Sunday nite.

Sunday morning everyone was so happy to walk into the church and see Mr. and Mrs. Ed Goodgame and Marsha back. We were all glad to see them, but we were sorry they had come at a time when the church couldn't be warmed. We welcome them back at any time that they can be with us.

We were also glad to have Mr. J. W. Popwell with us Sunday. We also welcome him back at any time.

Many missed church Sunday night, thinking the building would be cold, and they really missed a blessing.

Our pastor brought a wonderful message Sunday night. We were all very glad to have Rev. E. C. Hand's nephew, Rev. Lenard Hand, and his mother of Tennessee with us. We welcome them back at any time they can be with us. After our pastor brought his message, Rev. Lenard Hand also made us a little talk which all of us enjoyed very much.

We are sorry that we still have a good bit of sickness in our community. We hope they all will be well very soon and back at church.

We hope that each of you will have a prosperous New Year and that you will be back at Church Suday. Let's start the New Year off right by haying a perfect attendance Sunday.

Rev. and Mrs. Cecil Little and Mary Ellen visited Mr. and Mrs. Edward Little, Kathryn and Ruth Friday.

Mr. and Mrs. T. V. McDowell and Mr. and Mrs. Earl Thomas and children visited Mr. and Mrs. Edward Little and family Sunday.

It's a real pleasure for all associated with this firm, to extend to our many, many friends — Our Best Wishes for Luck in '54!

MINUTES OF THE BOARD OF REVENUE AND CONTROL OF CHILTON COUNTY, ALABAMA, OF DECEMBER 21, 1953

Board Meeting
December 21, 1953

The Board of Revenue and Control of Chilton County, Alabama, met in adjourned regular session at the county courthouse at Clanton, Alabama, on December 21, 1953, at 8:15 a.m. in adjournment and continuation of the regular meeting held on December 14, 1953. The following were present: M. D. Tingle, Judge of Probate and Chairman of said Board, and the following Associate Members of said Board: V. O. Lenoir, A. H. Smith, Sherman Motley and J. M. Dunlap. Judge Tingle presided as Chairman of the meeting and, a quorum being present, declared the meeting open for the transaction of business.

Mr. Dunlap offered the following resolution for adoption; which was duly seconded by Mr. Motley:

BE IT RESOLVED AND ORDERED: That the reading of the minutes of the Board meeting of December 14, 1953, be postponed until the next regular meeting.

The above stated resolution was adopted by a unanimous vote of all the members present.

WHEREUPON, the Clerk of the Board presented to the Board a list of claims and accounts filed with him against the County. Whereupon the Board proceeded to audit all such claims, and it appearing to the Board that each of the following claims are itemized and sworn to, as provided by law, with evidence of delivery of each item to the county, as provided by law, that the materials, machinery, equipment, supplies and services purchased by the county for use on public roads, bridges and ferries were inspected and approved by the County Engineer, as provided by law. And it further appearing to the Board that all said claims are just, due, correct and unpaid and that no part thereof has been previously paid. Whereupon Mr. Lenoir offered the following resolution for adoption; which was duly seconded by Mr. Smith; and unanimously adopted by the vote of the Chairman and all the members of the Board:

BE IT RESOLVED AND ORDERED: That said claims are hereby audited, allowed, passed and approved by the Board. And be it further ordered by the Board that each of the claims, payable to the respective parties, as hereinafter set out, for the materials or services, as hereinafter set out, and in the amounts, as hereinafter set out, be allowed.

AND BE IT FURTHER RESOLVED AND ORDERED: That the Chairman of the Board is hereby directed and authorized to draw a proper county warrant on the county treasury for the correct amount in the payment of each of said claims, in favor of the person, firm or corporation to whom it is due, from the funds listed:

ANOTHER year of substantial progress in Alabama has passed.

Responsible for this progress are many in the fields of religion, education, agriculture, commerce, industry, labor; and in federal, state, county and municipal governments, science, health and other activities.

Some have been directly active as individuals; others through strong support of organizations of which they are members and which have been active in the common effort of helping develop Alabama.

It has been our pleasure to work with many of them toward the achievement of goals which will make Alabama a still better place in which to live and work.

To them, and to the many citizens whose enthusiasm and support help make their effort successful, we extend our congratulations and reaffirm our policy of supporting worthwhile movements for the further development of Alabama.

Mr. and Mrs. Lonzo Oaks and son were our Sunday visitors. They have been living in Detroit, Mich., and returned for the holidays. We were happy to see them. Come again, folks.

Happy New Year to one and all!

MT. PISGAH NEWS

Our Sunday School was well attended Sunday. We had several visitors who are always welcome to come worship with us. Our M.Y.F. was off in attendance Sunday night. We had a very inspiring program. You missed a blessing if you were absent.

Let's pray much for our sick that they will soon be well and back with us.

Lt. William Yeargan of the Marines left Saturday, Dec. 26th, for California where he is stationed. From there he will leave for overseas duty. Our prayers go with Billy, always.

Mr. Joe Headley is in Jackson's Hospital in Mohtgomery. We pray for him a speedy recovery. Hope he will soon be home again.

Let's all remember next Sunday is our Building Fund Day. Come and help us to have a large collection for this badly needed building. We plan to start when we get the blue prints. Everybody pray for us to go forward with our new church building.

Mr. Reuben DeVaughn, our Sunday School superintendent, would be very happy to see you out for Sunday School; you would be happy that you came. That way everybody would be happy, so please come. The same goes for Donald Yeargan and Brady Brown, presidents of our MYF.

Mt. Pisgah WSCS—

Our WSCS met at the home of Mrs. Odell Jones. There were several absent for different reasons. We pray that they will make every effort to meet with us at our next meeting, the first one of the new year. We will meet at the home of Mrs. J. C. Brown Jan. 19th, at 1:30 p.m. Please come.

At our meeting with Mrs. Jones we planned to have a supper at the home of Mr. and Mrs. Elijah Chadwick Saturday night, Jan. 16th. We will have a nice door prize. Please remember this date and come enjoy a delicious supper with us.

Our WSCS made up a nice box for a needy family for Christmas. Also we sent ten dollars to our children's home in Selma.

POPLAR SPRINGS NEWS

Well, Christmas has come and gone and we trust everyone has celebrated it in the right way and that everyone has had a wonderful time.

We had our Christmas program last Friday night. There was a good crowd present and we think it was enjoyed by all. The name of our play was "Aunt Sabriny's Christmas." We want to thank everyone that helped to get it up. After the children recited their poems and the play was presented, Rev. N. E. Cook brought a great message about Jesus and his love.

Our attendance was off some Sunday for Sunday School. We missed those that were absent and we trust that they and everyone will be back next Sunday and start off the new year right, by attending Sunday School regularly. We had some visitors and we were glad to have them. We love them back at any time and any others who wish to come.

We are sure that everyone who was present enjoyed the good message brought to us by Rev. W. S. Cox Sunday and Sunday night.

Mr. and Mrs. Austin Easterling and Sherry, and Mr. and Mrs. Marlon Chandler and Mike visited Mr. and Mrs. Sylvan Easterling over the week end.

Little Misses Judy and Myra Smith are visiting Mrs. John Cox this week.

Mr. and Mrs. Lanton McDowell of Birmingham and Mr. and Mrs. Syer Ford and Dianna of Phenix City visited Mrs. Anna Wells during the Christmas holidays.

Mr. Wallace Cox visited his mother, Mrs. John Cox, some during the Christmas holidays and we were glad to have him at church last Friday night.

We were also glad to have Mr. and Mrs. Hollis Thornton at church Friday night and also any other visitors that were there.

Miss Lena Downs, Mrs. Pearl Parrish and Mr. Roy D. Downs visited relatives in New Orleans during the Christmas holidays.

Mr. and Mrs. T. J. Stewart and Tommy visited relatives in Bessemer over the week end.

Miss Mary Wells and Mr. Jimmy Patterson were married by Rev. W. S. Cox in his home Christmas Day. We wish for them a long and happy married life.

Everyone remember Sunday School and Training Union next Sunday and Sunday night and start the new year right by being present the first Sunday in the new year.

Also remember prayer meeting each Wednesday night.

Let's all strive to do more for the Lord in the new year and keep the Christmas spirit throughout the year.

Things we See and Hear

The height of improvement in the television industry is going to be when they are able to sell the products on commercials right in your living room. May be something on the order of feelavision.

I really goofed off and made a fella very mad at me the other day. I'm afraid I was guilty of including him in on a practical joke that turned out to be just a little unpractical. It seems when I asked this fella a big favor he went all out and spent a little money. Now just what he bought isn't exactly a necessity of mine at the present, but it looks like I might have to buy it to renew an old friendship which would indeed by my loss if it were not renewed or at least mended.

A sadder sight I've never seen as the one Monday morning of all the knowledge hungry (?) students going back to school. A most reluctant bunch it was. What with all these holidays out of the way they don't look forward to anything but only for a while and from what I see and hear they aren't happy at all. They will be, though.

There is nothing harder to keep than a New Year's resolution. That's more it's even more difficult to find the will power to make one that you intend to keep. To start off the year with a good intention and make it a good habit is one of the very best things about the New Year. If you haven't made some kind of promise to yourself this year, no matter how large or small, from going to church regularly to remembering your wife's birthday, it still isn't too late to get on the better things of life and living right.

I see where the government is beginning to outline their goals for '54. I've just been wondering what they intend to do about those unfinished '53 goals. No doubt they'll get to them. Some of them would've been good.

I guess there's been some very unusual grounds for marriage before, but I came across one the other day that just about took the cake. As far as any I had ever heard, I don't believe the fella was actually serious about what he said because he didn't sound like what you'd call a very sound basis for a happy marriage. Guess that depends on how you are though. It seems he had two girls with him and claimed he couldn't make up his mind which he wanted to marry. Finally, just to settle any argument or delay of course, he said, and I quote another quoter: "I guess I'll take the one, she can play a guitar and can play a fiddle and this other one can't play nothing." Suppose that's what you'd call being musically inclined and declined to music in the same deal.

Mrs. Mary H. Nicholson, age 84, died at her home in Clanton Sunday, January 3rd. Funeral services were held Monday afternoon at 2 o'clock at Union Grove. Martin's Funeral Home directing.

She is survived by four sons: Benjamin and William of Bessemer, Leslie of Fayetteville, Tenn., and Noah Nicholson. Two daughters also survive: Frances Cabiness of Carrollton, Ala., and Vicie Skidmore of Clanton.

More Information On Poll Tax Change

Montgomery, Ala. — Alabama Attorney General Si Garrett has ruled that citizens who were 45 on or before October 1 last year don't have to pay any poll taxes to vote.

Garrett said that under the newly-adopted constitutional amendment trimming the levy's back pay feature to two years they won't be required to pay anything to qualify voters.

As the Constitution was previously worded, they would have had to pay up all poll taxes due between age 21 and 45. Garrett's advisory opinion was issued at the request of Governor Gordon Persons.

He ruled further that qualified citizens who become 45 after October 1, 1952, but on or before October 1, 1953 would have to pay only one year's poll tax of $1.50.

Those who became 45 after October 1 this year must pay poll taxes for 1952 and 1953, the maximum under the constitutional amendment.

CALL SESSION ANNUAL CONFERENCE METHODIST CHURCH

There will be a call session of the Alabama Conference of the Methodist Church at the City Auditorjum at Montgomery, Alabama, on January 12th, beginning at 10:00 a.m.

All members and visitors to the Conference will be luncheon guests of Huntingdon College. Lunch will be served at the Whitley and the Jefferson Davis Hotels.

Good Market Is Still Available For Pecans

Despite heavy holiday sales, there is still an abundant supply of pecans in Alabama, reports Austin Ezzell, API Extension distributor marketing specialist.

And he reminds growers that food retailers have learned in past years of plentiful supply that Mrs. Consumer is always attracted by a well arranged pecan display, regardless of the season. Pecans promoted alone or in an eye-catching exhibit with other nuts and dried fruits will sell—and sell well.

Ezzell urges producers to seek the help of retailers in moving their 1953 pecans to clear the deck for another possible big nut crop in 1954.

Keep An Eye On Those Ewes At Lambing Time

Auburn, Ala.—At lambing time keep an eagle eye on your ewes, advises API Extension Assistant Livestockman R. C. Farquhar.

If weather is favorable, turn the animals on a small pasture during the day. If weather is bad, house the ewes during lambing time.

"It's important that each lamb get on its feet and eat a hearty meal as soon as possible after birth," says Farquhar. "And make sure that ewes with twins claim both lambs. Also, lambs should be docked and casterated when a week to 10 days old.

"Remember, a quality lamb will be worth about $25 in 1954—so keep your profits up with good management practices."

Pines May Be Hidden Under Scrub Hardwood

During January walk over your woods and take a close look at the scrub hardwood stands.

You may discover a fair number of pine seedlings that up to now have been concealed by hardwood leaves, says API Extension Forester J. R. Martin. If so, make plans to release the young pines. This is one of the easiest and most productive of all timber jobs.

Select the most profitable looking pine areas, and then girdle or poison the scrub hardwoods. If not freed, the pines will be shaded out and eventually will die.

"Remember, however," adds Martin, "that some areas will produce hardwoods as profitably as pines. So don't sacrifice quality hardwoods for either pines or scrub hardwood trees."

Raise Farm Income Plant Only Good Seed

Auburn, Ala.—Alabama farmers can boost the state's total farm income in 1954 by as much as 20 per cent if they plant only seed of known performance and quality.

In making this statement, Ralph Jones, API Extension seed crops specialist, reminds producers that the seed of the right variety cost only little, if any, more than inferior grades. And he urges growers to follow these steps in securing the best seed for 1954 crops.

Check with county agents for recommended varieties. Buy or arrange for seed early. Trade only with reliable seedsmen. Demand to see an analysis of the seed—and read it carefully. Don't buy seed with low germination or high weed seed content.

FEB. 1ST LAST DAY TO PAY POLL TAX

M. C. (Jack) Hayes announced this week that poll tax payments are delinquent after February 1st. Hayes made this statement because of a misprint in dates in the last issue of the News. He also urged all who have not registered and paid their poll tax to do so at the earliest possible time to avoid the last minute rush and the chance of being too late.

Miss American Reigns As Queen Of The Azalea Trail

Mobile, Ala. — Evelyn Margaret Ay, Miss America for 1954, will reign as queen of the Silver Anniversary celebration of the Mobile Azalea Trail.

The beautiful, 20-year-old blonde mile Azalea Trail, a mass of brilliant Ephtata, Pennsylvania will be crowned queen of the floral festival on Sunday, March 7, at Ladd Memorial Stadium.

The 1954 Azelea Trail Festival, scheduled February 7 through March 31, is being planned as the most gala celebration of its kind ever staged in Mobile, and well over 500,000 persons are expected in this historic Gulf Coast City during the eight week period of festivities.

The big attraction will be the 35-liant blossoms that has been described as "America's most fabulous outdoor floral show."

A part of the Azalea Trail Festival each year is the gay, colorful observance of Mardis Gras. The carnival celebration will get underway about February 16 and continue, through March 2, Mardi Gras Day.

A new feature for this Azalea Trail program this year will be a huge two-day square dance jamboree presented by the Mobile Squares, a group of avid square dancers expecting participation by a thousand or more out-of-state participants.

Other features of the Azalea Trail Festival include: Outdoor art exhibits, tours of magnificient gardens in the area including world-famous Bellingrath Gardens, "Charm Spot of the Deep South," old homes tours, sports events, music and dramatic presentations and, according to Fred Holder, Azalea Trail president, "something to appeal to every taste and interest."

Despite Speed Law State Hiway Deaths Greater In 1953

Montgomery, Ala. — Alabama's hopes of holding 1953's traffic toll under its 1952 record died this week (Dec. 31) when the Alabama Department of Public Safety logged the 776th traffic fatality of the year.

The state's 1952 total score was 782 dead. That this year's toll would be higher "is now a certainty," Public Safety Director L. B. Sullivan said, but he expressed confidence the final score will be "below our 1953 'normal' of 849 dead."

Sullivan said a brutal surge of deaths during mid-December quickly closed a narrow gap which had existed between comparative 1953-vs.-1952 scores for several months. This margin had ranged from 15 to 25 on weekly tabulations.

As the official score stood at 776, Sullivan said perhaps 15 deaths have not been logged yet, including urban December scores which won't be known by Public Safety for perhaps a month.

The "1953 'normal' of 849 dead" to which Sullivan referred is the 1952 toll of 782 increased by 8.55 per cent, to cover that percentage of increase in the use of motor vehicles in Alabama during 1953 over 1952.

"In trying to hold our 1553 score below 1952's, we were working actually toward an improvement of at least nine per cent in a single years," Sullivan said. "We had scored an approximately 13 per cent improvement in 1952 over 1951, and wanted badly to contine that rate of improvement."

A 1953 toll of 739 would have represented that 13 per cent improvement. The 739-mark was passed early in December.

Local Dairymen Meet To Study Sileage Feeding Tomorrow

Cutting grain sorghum with binder in preparation for silage storage on C. A. Mims' dairy operation in Beat 3 near Isabella School.

Chopping grain sorghum and blowing chopped green forage and grain into temporary silo. Mr. C. A. Mims constructed and filled two silos. Material cost of silos was approximately $62.50. Mr. Mims stores approximately forty tons of quality dairy cattle feed in the two silos.

Chilton County's processing milk producers are to meet on Mr. C. A. Mims' dairy farm ½ mile southwest of Isabella School, Wednesday, January 6th, at 1:30 p.m., to study results of silage feeding.

Last fall Mr. Mims cut and stored in temporary silos approximately 40 tons of grain sorghum silage. The temporary silos were constructed of welded wire and sisal-Kraft paper. The material cost for constructing silos proved to be quite economical. Wire and paper necessary to adequately store the forty tons of feed cost Mr. Mims only $62.50. The wire can be re-used for several years.

The above field scenes show Mr. Mims, Carnation Company Fieldmen, and Assistant County Agents in the silage cutting operation. Grain Sorghum was cut from the stump with a binder and hauled to nearby area to stationary chopper. Entire stalks, including grain, were cut and blown into the silo. This method of storing cattle feed is probably much more economical and has produced a more palatable product than could have been produced from the grain sorghum by other methods

Formerly, Mr. Mims had planned to cut, dry, haul to feed mill and grind, and syrup his dry grain sorghum. This would have required a great deal more labor in the handling than has been necessary in this silage program.

Mr. Mims had an eight-acre field of grain sorghum. Six acres were cut and stored in the silos. The remaining two acres were harvested by other methods.

Chilton County dairymen will have an opportunity to meet with Mr. Mims and study feeding of both methods of cattle forage feeding. All other cattlemen are welcome and encouraged to attend this result demonstration Wednesday, January 6th, near Isabella School.

Winter weather Add To Traffic Hazards

Montgomery, Ala. — Keep your wits and your windshield clear.

Alabama Public Safety Director L. B. Sullivan this week gave this advice for safe winter driving to Alabama motorists, speaking in connection with the Winter Traffic Hazards program being conducted this month by the Alabama Safety Council.

"Winter weather conditions add three important hazards to driving," Sullivan said, "and it takes a clear head and a clear windshield to overcome them." He named the hazard trio as reduced visibility, inadequate traction and temperature changes.

Reduced visibility, Sullivan said, results from many factors. More hours of darkness than daylight during January means more cars on the road after sundown. Bad weather often coats windshields with steam, ice or frost, and in North Alabama, sometimes snow and sleet. Rain and snow sometimes almost completely destroy visibility.

Inadequate traction makes control of a vehicle extremely difficult, Sullivan said. Muddy roads, wet pavements, or snow, sleet or ice cause severe traction.

Temperature changes are especially hazardous because they can suddenly fog a windshield, or even a driver's glasses. At high speed, this often is tragic, as the driver wrecks while blinded, or loses control of his vehicle while remedying the blindness.

Sullivan reminded drivers of the January slogan of the Alabama and National Safety Council program, "Stay Alert — Stay Alive in Winter Weather."

Towns Vie for Record Per Capita Contributions To March of Dimes with Auctions and Socials

The money to fight polio through the March of Dimes comes from all over the country—from small towns and counties as well as the big cities. While several of the largest cities contribute over a million dollars each, it is the small communities that set the records for per capita contributions. With the national contribution averaging 34 cents a person, here are some outstanding achievements of the last March of Dimes.

Melba, Idaho, with a population of less than 200, claimed the national record by raising almost $50 for every man, woman and child in the community. A day-long auction of contributed items ranging from cakes to calves enabled Melba to raise this high amount.

Oregon Town Beat Melba

The spur that aroused Melba to new heights also worked in Izee, Ore.—population 43—when this village beat Melba's 1952 March of Dimes record of $27 per capita by raising $34 apiece at a basket social held Jan. 10, 1953. Basket socials used to be a way of courting or raising funds to hire a teacher for a new rural school. Now they have joined the fight against polio.

As small towns and villages set community records in the March of Dimes, sparsely populated counties also made per capita contribution records.

Mineral County, Nev. won the national title with a per capita contribution rate of $2.53 a person. Over $14,000 was raised among her 5,560 inhabitants. Jeff Davis County, Texas came in second with contributions averaging $2.21 a person.

Other Leaders

Other counties in the 10,000-and-under population class that made outstanding records were: Kiowa, Colo. with $1.75 per person; Mono, Calif. with $1.61; Sioux, Neb. with $1.53; Cameron, Pa. with $1.49, and Ida, Iowa with $1.46.

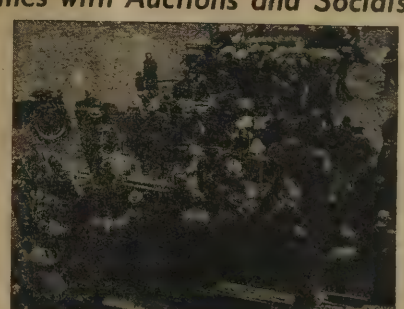
These are just a few of the small counties that raised over a dollar per person to aid in the fight against polio. Whether small communities have bigger hearts or more intimate knowledge of the disaster of polio is not measurable. But their high per capita contributions are vital weapons in the battle to wipe out the disease.

During the 1954 March of Dimes it is a sheer necessity for the National Foundation for Infantile Paralysis to raise 50 per cent more than last year. This increase can come only from greater contributions from everyone, in small communities and big cities alike.

New Prevention Program

In stressing the need for a bigger March of Dimes than ever before, Basil O'Connor, president of the National Foundation said: "The new polio prevention program will be the hardest blow against polio we have ever struck. Wide-scale validity tests of a trial polio vaccine this year and the expanded use of gamma globulin as a stopgap protective measure in 1954 mark a dramatic advance. Like all advances, it is expensive, but the fight dare not be weakened when victory seems almost in sight."

Mr. O'Connor added, "No one knows just which community and county will wind up as 1954 March of Dimes champions in size of per capita contributions. But judging from past heartwarming performances, I predict it will be a town or village under a thousand and a county under ten thousand."



The March of Dimes was $7,600 richer as a result of this Melba, Idaho auction featuring everything from sacks of corn to the kitchen sink.

Cold Weather Hints For Poultry Growers

Auburn, Ala.—Now that winter has set in, poultrymen using built-up or compost litter should make sure it is at least six inches deep.

According to API Extension Poultryman John Weeks, many poultry houses are subjected to periods of high humidity during cold months. Deep, loose litter that is stirred frequently to keep it from caking will hold up well during these wet times.

"Wet areas around feeders and water fountains are especially troublesome," continues the poultry expert. "Fork all wet heavy material away and replace it with fresh litter or with lighter material from another part of the pen. Proper litter management will provide warmer and drier pen floors, pay dividends in improved flock health, and make your poultry house more pleasant to work in."

Weeks also reminds growers that ventilation is often a problem at this time of year in laying houses.

"Chickens forced to sleep in drafts and cold winds are susceptible to colds and respiratory diseases," he warns. "So make sure your birds are comfortable, both during the day and at night.

"At the same time laying hens need plenty of fresh air—even during cold weather. To insure sufficient air, don't close the laying house up tight. Keep front windows partially open, and eliminate cross drafts by keeping the back and end walls tightly closed.

"Every poultry house presents its own individual problems," concludes Weeks. "Watch your flock closely, and keep the birds comfortable."

WILLIAM MAROLD DECLARED DEAD

William E. Marold, who was reported missing in action on November 28, 1950, has been declared legally dead by the war department. The widow, Mrs. Imogene Marold, was notified that her husband was declared dead on December 31. He was the son of Mr. and Mrs. Bill Marold of Calera, Ala.

DR. TERRY SUPPORTS MARCH OF DIMES

Dr. W. A. Terry, State Superintendent of Education, has gone on record as urging support of the 1954 March of Dimes Campaign. In his statement, Dr. Terry said, "Since Alabama has fallen short in the matter of contributions over the years, we must make this a March of dimes AND dollars. We must raise at least 100% over what we raised last year," Dr. Terry stated.

We in Alabama should be grateful to those who have helped so generously in our patient aid program. We can show that gratitude by giving as we have never done before to the 1954 March of Dimes. The March of Dimes, held every January, is the only source of funds for the National Foundation for Infantile Paralysis, which has over the years conducted the three programs vital to care and treatment of polio: Patient aid, education, and research. Now the fourth program, POLIO PREVENTION, will cost an estimated $7,500,000. That, added to the extra cost of gamma globulin (due to an increased supply) means that the four programs this year will cost some $75,000,000. A small sum to pay for a life or a crippled limb. FLAME - PROOFING CHILDREN'S CLOTHES

The National Board of Fire Underwriters has recommended a solution that can be made by every housewife which will prevent the ignition of children's clothes or costumes. It is especially needed at Christmas time when children are so often taking part in Christmas pageants and plays and wearing costumes.

The danger is, of course, that the costumes will be ignited by a light bulb, a match or some other part of stage equipment. After a child is painfully burned in an accident, it is too late to regain the spirit the pageant was supposed to have presented.

The solution is prepared with nine ounces of borax, four ounces boric acid, and a gallon of warm water. Stir this solution thoroughly and any washable fabric to be used may be dipped in it without any detrimental effect to the material. The costume, or fabric, can be ironed after it dries without affecting the fire-proof quality of the clothes.

The only catch to it is that the material will lose its flame-proofed quality as soon as it is washed again. However, since Christmas plays and pageants usually are one-performance events, one dipping usually suffices.

REPULSE AND PRINCE OF WALES

A Japanese salvage company recently had some ideas about salvaging two famous British men-of-war, sunk in the black days of World War II. The warships were none other than the Repulse and Prince of Wales—the largest British warships in the Far East when the Japanese attacked Americans and British possessions in the Pacific.

The two warships were ordered into northern waters off the eastern coast of Malaya to stop Japanese landing which was taking place in strength on the coast. Air cover was supposed to have been provided, but wasn't with the two British warships as they approached the area where the landings were being made.

Despite this great handicap and danger, the British commander kept his ships headed for the landing beaches, but Japanese torpedo and high level bombers attacked the two ships in broad daylight and sunk both in a matter of hours. Their loss stunned the world and sealed the fate of Malaya and Burma.

And, like the Norway campaign, the loss of these ships proved to the still unconvinced that air power had to be reckoned with by surface ships, and limited their operations. The sinkings were costly disasters. Over a thousand men lost their lives on the two ships.

So, when a Jap company recently suggested it could raise the two valiant men-of-war, British naval officers and veteran organizations objected strongly. The Japs would have sold the metal for scrap. The British says the ships are the grave of magnificent companies. They should stay where they are always, say the British—a tribute to the fight against tyranny. It's good to know there are some who remember those who didn't come back.

PERSHING MEMORIAL PLAN IS ANNOUNCED

Plans for a living memorial to General John J. Pershing have been announced by the John J. Pershing Memorial Foundation, Inc. The group has revealed a program for raising a three-million-dollar memorial fund. The earnings would be used "for teaching and dissemination of American democracy as contrasted with the fundamentals of communism."

Founders and officers of the organization are: Arthur A Dobson, Lincoln, president; John B. Brain, Jr., vice-president; Elmer E. Magee, Lincoln, treasurer; M. A. Hyde, Lincoln, secretary; Robert W. Devoe, Lincoln, general counsel; and Harry R. Follmer, Oak, executive director.

The earnings from the fund will be used:

1. To advance the appreciation of free institutions of government.

2. To establish scholarships for students majoring or specializing in American history, constitutional law, civil government or political science.

3. To establish professional chairs in colleges and universities for teaching American democracy as contrasted with communism or similar political ideologies.

4. To provide textbooks which "analytically and impartially state the conflict between the ideologies of communism and the ideologies of American democracy."

The tentative plans for raising the money calls for the issuance of six million 50-cent coins in commemeration of General Pershing. The coins with a par value of a half dollar would be sold for $1. Returns would boost the Pershing Memorial Fund. In addition sustaining membership certificates ranging from $2.50 for a "youth certificate" to one thousand dollars will be made available.

YOUR Health

"Your Health" is presented by the physicians of a health service of the Medical Association of the State of Alabama.

THE OBESE CHILD

Inadequately functioning glands as a cause of obesity in children is quite a common misconception. While it is true that a glandular involvement may be responsible in certain cases, the excessive intake of food and emotional maladjustment are most frequently the cause of obesity.

The child who eats and assimilates more food than he needs will gain weight; and, conversely, regardless of the cause of obesity, loss of weight will result if the intake of calories is less than the output of energy.

Certain children, as they approach adolescence, tend to appear overweight as other changes in the body occur. With maturity, the growth pattern changes with the increase in growth and development of the bones and muscles.

In other children, however, there is progressive and excessive overweight long before the changes of adolescence; while some youngsters show marked increase at times of emotional crises during or after adolescence. These children are likely to be unhappy and are probably poorly adjusted at home and at school. They feel insecure both with their elders and with their own age group. To these children, eating is not a means of satisfying hunger in itself but, instead, a principal source of satisfaction in their own environment.

Such children lack the ability to obtain enjoyment from the normal experiences about them. They use food excessively as a substitute. These children also have the tendency to exclude themselves from the normal activities of their companions. Immaturely, they use their obesity as an excuse for refusing to take part in social and athletic activities such as dancing, swimming, baseball and hiking.

Withholding food is not the solution to the problem nor are threats of punishment or taking away privileges. The basic emotional disturbances of the child must be corrected but, in other words, the problems of the child as a whole must be understood to analyze the role they play in the initiation and persistence of the obesity.

LETTERS TO THE EDITOR

MARCH OF DIMES CAMPAIGN MEETING

All those interested in taking an active part in the March of Dimes Drive, please attend the meeting to be held Friday, January 8th, at 7:30 p.m. in the Clanton Presbyterian Church.

We hope to set our goal this year at $6,000.00 because of the great discovery of a new drug which will combat the dreaded disease polio. Vast sums of money is needed to produce Gamma Globulin in order to give every child the chance for future security and happiness.

We are calling on every citizen in Chilton County to give generously to the March of Dimes

NOW! 5 Ford engines offer the mightiest concentration of power per cubic inch ever in any truck line! V-8 and SIX!

For the power they develop, the engines in the 1954 Ford Truck line have *less cubic inch displacement* than engines in other make lines. For example, Ford's 239 cu. in. *Power King* V-8 develops its 130 h.p. on as much as 43 cu. in. *less* displacement. Smaller-displacement engines normally need less gas! That's one big reason why Ford *concentrated* power offers greater economy!

FORD TAKES THE LEAD IN *ALL* 3 VITAL FACTORS THAT MAKE FOR LOWER COST TRUCKING!

1. Now, only in Ford Trucks—gas-saving, LOW-FRICTION, high-compression, overhead-valve, deep-block engines in *all* truck models! 115- to 170-h.p.!

2. New Driverized Cabs, *Master-Guide* Power Steering, Power Brakes, *Fordomatic* Drive for faster control!

Your Farm Problem

(By ERZA TAFT BENSON)
Secretary of Agriculture

Any effective solution of today's farm problem must provide methods for reducing our huge stockpile of agricultural commodities and at the same time prevent further burdensome accumulations.

Getting rid of these surpluses is only half of our problem. Even if we were able to bring them down to manageable proportions, we would soon acquire new boards of wheat, corn, cotton and butter under the existing system of price supports.

We already have approximately $2.5 billions tied up in loans on farm commodities, in addition to an equal amount invested in goods which we own outright — $5 billions in all.

Our present program does not encourage the production shifts which are required to meet the changing market demands for various commodities.

Of course, we could destroy some of our surpluses. Remember the government's potato fiasco of a few years ago?

Or we might plow under every third row of cotton and kill little pigs. Remember the mid-1930's?

Actually, we would not even consider such wasteful practices.

We are attempting to move surplus food and fiber into foreign markets. World prices, however, are well below the figures at which we acquired these commodities under our price support operations. This means that we will be forced to take substantial losses on whatever we sell abroad.

At the same time, we must avoid outright dumping, which would disrupt normal trade channels and bring down upon us the wrath of other friendly countries.

There are these other alternatives: We can make a real effort to move surpluses out of warehouses and into stomachs by promoting greater public consumption of some commodities. We can push forward in our research programs to uncover new uses for farm goods. We can throw our entire weight behind plans for expanding present foreign markets and finding new outlets overseas.

Such methods, while they will not produce results as quickly as dumping or destroying food, offer a far sounder approach to our basic problems.

Along those lines, I can report that our promotional campaign, undertaken with the meat industry and food stores, is producing real results. We are consuming beef this year at the rate of 75 pounds per person, the highest in our history.

Farm exports have turned upward since July 1, reflecting our emphasis upon expanding trade. Continued high employment at home, with national income at record levels, means a strong demand for farm goods in the United States.

Our population is growing at a rate of more than 2,000,000 per year, which means that by 1975 there will be 200,000,000 Americans. Our future farm problems may involve questions of shortages, rather than surpluses.

We cannot wait for an expanding population to solve our immediate troubles, however. We need an interim program to encourage shifts to other crops. We must halt further build-ups of government stockpiles now.

Our urgent need is for a price support program which can be adjusted in terms of production and demand. One which will effectively reduce surpluses, with a minimum of government controls.

That is our immediate goal. Such a program will be offered to Congress by this Administration in January.

COOSA RIVER NEWSPRINT CO. HELD OPEN HOUSE

From as far north as Chattanooga, as far south as Dothan, and from all the cities and communities surrounding the plant, visitors came to Coosa Pines the week of December 13th to help Coosa River Newsprint Company celebrate its fourth anniversary of production. In Friday's issue of the News were three typical scenes at the newsprint plant as visitors were conducted through an Open House Tour.

The many varied manufacturing processes created much interest among the visitors. From the Woodyard where the wood is sorted for use either as bleached sulphate pulp or groundwood pulp, to the Finishing Floor where newsprint rolls off the machines and is wrapped, weighed and prepared for shipment, the visitors were able to observe all stages in an operation which turns southern pine into your daily newspaper. Explanatory signs aided the guests in understanding the manufacturing flow. In addition, Superintendents and Foreman were available in their departments to answer questions and explain the various processing steps.

Special exhibits and displays could be seen at various points throughout the tour. The "Life Cycle of a Pine Tree," a display prepared by the Woodlands Department, attracted much attention from woodlot owners and farmers. The display traced the life of pine trees from seedbearing pine cones to trees ready for field planting.

Exhibits portraying various stages in the manufacturing process were prepared to tell the visitor what operations took place in each department. In the Recovery Section, a flow chart board depicted for the visitor how the "Chemical Recovery and Liquor Making" cycle operates to recover for reuse, most of the chemicals used to cook and bleach the pulp. A bit further in the tour the visitor saw another flow chart, "Cooking and Washing of Sulphate Pulp," which explained how the tons of pine chips are steam cooked to seperate the fibres, and then washed preparatory to the bleaching stage.

Two eye-catching displays attracted the visitor near the end of the tour. At the paper machines most visitors were startled by a sign which told them that since they began their tour (one hour and a half previous) the machines had made enough newsprint the width of your daily newspaper to reach from Coosa Pines to Chicago. On exhibit also at the paper machines were front pages of newspapers which use Coosa River newsprint.

Having been served Cokes and cookies by the attractive Coosa River hostesses, the visitor could leisurely examine one of the most attractive exhibits prepared for Open House. This consisted of a display of many different products made from the 160 tons of bleached sulphate pulp shipped daily from Coosa River Newsprint Company to Kimberly-Clark Corporation plants in other sections of the country. The products displayed in this exhibit ranged from cleansing tissue to fine book papers and filters for gas masks. And from beautifully designed wallpaper to "do-it-yourself" building board and insulation.

As each guest completed the tour and left the plant he was given a number of Open House souvenirs and booklets. Included was a current copy of the Childersburg News printed entirely on Coosa River newsprint; a tour booklet telling in simple language and showing in modern art how newsprint is made; and a copy of "Newsprint Pete"—a booklet describing the employee benefit program in effect at Coosa River.

Letters of appreciation and congratulations from many of the Open House visitors have been received by Mr. Wakeman, President of Coosa River Newsprint Company. He, and other officials of the Company, expressed satisfaction with the entire Open House event. "We enjoyed having these friends visit us," said Mr. Wakeman, "and we hope their trip through the plant was both pleasant and interesting."

Clear and prepare land now for early spring seeding; get lime, fertilizer, and seed no later than January or early February and be ready to plant on time.

Pruning forest trees can be done now with little danger of insects or disease attacking the freshly cut surfaces.

PROSPECTS GOOD FOR AMPLE FOOD IN 1954 A&P PRESIDENT SAYS

New York, N. Y., Dec. 29—If America is to maintain and improve its high standard of living the entire food industry must continue its efforts in 1954 to narrow the spread between farm and retail prices, according to Ralph W. Burger, president of the Great Atlantic & Pacific Tea Company.

"Prices are lower now than they were at the beginning of the year," Mr. Burger said, "in our own stores we have been able to reduce overall food prices 3½ per cent since December, 1952. Major reductions occured during this period in fresh fruit and vegetable prices, which are down 15 per cent and meat prices which are down 7 per cent.

"There are many variables in the food picture that make it difficult to predict what 1954 will bring. At the moment, however, the outlook for adequate supplies of food in 1954 is good; and unless some unforeseen changes take place in the basic markets, there is no reason to anticipate any great change in the general retail price level."

Mr. Burger said that despite the gains of recent years, the food industry is still struggling with various factors which tend to push distributors' costs and retail prices up, including higher labor and transport costs and increased 'convenience' services designed to save the housewives' time.

"The food industry should also guard against the danger that longer store hours, non-food merchandising and the revival of discarded promotional devices, while temporarily building sales volume, can greatly increase costs of operation and prices to the consuming public," he said. "If we are to insure fair prices to consumers and adequate returns to producers, we must concentrate on efficient practices that will bring operating costs down rather than push them up."

Mr. Burger cited several major areas where improvements might be sought:

1. Development of better ways to balance production of quantities, qualities and varieties of foods with local and national demand.

2. Reduction of waste and spoilage though better handling; utilization of improved shipping, refrigeration and warehousing facilities; pre-packaging of perishables closer to production areas.

3. Proper use of manpower by adjusting store hours to those that serve consumers' food needs best, and avoiding excessively long hours that add to the already high costs of operation.

4. Extreme caution in considering the merchandising of wearing apparel and similar new non-food lines; and other competitive practices intended to attract customers but which might decrease the efficiency of retail operations and eventually raise food prices.

"Farmers have proved time and again they can produce adequate supplies of food for the growing population," the A&P head said. "Distributors have worked hard to keep pace with the ever-increasing demand for more and better food, to keep operating costs down and to improve their facilities for handling greater quantities, better qualities and increased varieties of food.

"As a result, our people are eating more and better food. The average American is now consuming 12 per cent more food than he did in the pre-war years of 1935-39. Some of these increases were: Meats, 20 percent; eggs 34 percent; chickens, 72 per cent; turkeys, 100 per cent; cheese, 40 per cent; canned vegetables, 40 per cent; canned fruit juices, 218 per cent.

"Any further improvements that can be made in production, processing, handling and retailing of food," Mr. Burger said, "will not only help maintain this improved diet, but will leave more money for consumers to buy other commodities. This, in turn, creates increased demands for products of industry and a better standard of living for all."

Pointing out that the retail food industry operates on an extremely low profit rate, Mr. Burger cited A&P's net profit of less than one cent on each dollar of sales as an outstanding example "of the pattern that has built our high American standard of eating in the past and should guide us in our efforts to maintain it in the future.

"There are many people living today in the generations of A&P families who can recall food stores of yesteryear," he said. "They were filled with premiums and many commodities that were not food. Business was done to a large extent with coupons and trading stamps. The percentage of the consumer's dollar that went to cover distribution costs was almost twice as high as it it today.

"Our company pioneered in bringing wages up and food costs down by concentrating on the food business, cutting out 'frills' and giveaways, and eliminating unnecessary costs and handling operations. We found we could render the greatest public service by providing the most food for the least possible cost. We dispensed with extraneous merchandise in order to more efficiently use our store areas and serve our customers with the products in greatest demand that we were best equipped to handle.

"In our own plans for 1954, we are looking forward to the kind of volume which generates sound markets and greater service to consumers," Mr. Burger concluded.

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the payment of the indebtedness secured by that certain mortgage executed by Morris Wright and his wife, Earnestine Wright to J. Lee Smith, on the 16th day of May, 1951, which mortgage is recorded in the office of the Judge of Probate of Chilton County, Alabama in Book 389 of Mortgages, at page 119 and said default continuing, notice is hereby given that the said J. Lee Smith, as mortgagee of said mortgage, will, on Monday, January 25, 1954, during the legal hours of sale, in front of the Courthouse door of Chilton County, Alabama, sell to the highest and best bidder for cash, the following described real estate conveyed in said mortgage, to-wit:

Lot No. 23 in Block "C" of Liberty Town Addition to the City of Clanton, Alabama, as shown by map or plat of said Addition on file in the office of the Judge of Probate of Chilton County, Alabama, situated in Chilton County, Alabama.

The proceeds of said sale will be applied, first, to the costs and expenses of making this sale, including a reasonable attorney's fee; second, to the payment of the principal indebtedness secured by said mortgage, and the surplus, if any, to be turned over to the mortgagors in said mortgage.

Dated this the 29th day of December, 1953.

Dimes, Friends Aid 4 in Family

A Kansas farmer has discovered that a good neighbor in time of need is more valuable than silver and gold.

Robert Stahl and his family were saved from heartache and tragedy by the action of good neighbors.

Stahl, his wife and four children were busy on their 127-acre farm near Wichita, Kans. last summer—getting set for the fall harvesting when polio struck.

First, little 3-year-old Troy came down with the disease. Then Ronald, who is 10, contracted polio. A few days later, Charles, 12, and Patsey, 14, also went on the sick list.

Finally, Mrs. Stahl herself was afflicted.

The whole family was moved to St. Francis hospital, Wichita, leaving Stahl alone on his farm.

For a while, he didn't know what to do. The financial burden had been lifted through March of Dimes funds but the burden of work remained.

Then his neighbors volunteered to take over his farm until the family was out of danger.

These neighbors pitched in and Stahl went to town. For days, he kept a vigil at the bedsides of his wife and children.

With the continued help of that other good neighbor, the National Foundation for Infantile Paralysis, the family began to improve.

Stahl went back to his farm comforted by the knowledge that his family was being cared for. His neighbors had done a wonderful job of keeping things going on the farm. So he was able to carry on.

Today Mrs. Stahl and three of the children are fully recovered. Charles, the 12-year-old, still has one partially paralyzed leg but Mrs. Stahl hopes he too will soon be well.

"Then maybe," she said, "it'll all seem like just a bad dream."

The National Foundation hopes so, too. That's why it has launched a huge polio prevention program involving gamma globulin and a trial vaccine. If the program succeeds, families like the Stahls may be free of the polio threat forever.

A SENSE OF VALUES

By Helen Baker Adams

THE kitchen was warm and gleaming as Emily Gaston stood polishing the new automatic teapot that she hadn't needed any more than she needed another head.

When did you get that?" her Aunt Tillie asked sharply. "It seems to me, Emily, that you are quite gadget-mad."

Emily set the teapot in the cupboard and closed the door on it.

"Sorry, Aunt Tillie. I wondered how soon you would say something. I didn't really need it—but."

"You needn't have used my coming as an excuse, Emily. You know I can brew my tea in a pint jar and like it to the last drop."

"But it was my time to get something for the house," Emily defended herself. "Elmer has some new farm equipment."

"I don't see what that has to do with it," Aunt Tillie went on. "Surely you have a normal sense of values. Where will this contest end up?"

It was Elmer's idea," Emily's head began to ache again. "He decided that when he bought something new for the farm work I was to have something new."

Emily turned away. She went into the den and brought back the waste-paper basket from the desk. She turned it up to empty it over a large paper sack which she would turn later. A sheet of stamps fell to the floor—seals for aid to crippled children.

Emily looked up. Aunt Tillie was standing with her mouth wide open in pure disgust but she didn't say a word. Emily fished out the envelope that had come with them and laid both on the desk.

The conversation was somewhat strained during lunch. Elmer talked about his fine line of equipment, his fine purebred cattle and his new pick-up truck.

"I'll get a new car come Spring," he said matter-of-factly. Then he looked at Emily with interest. "I suppose you will have something in mind for the house."

Emily didn't meet his eyes. Instead she looked at Aunt Tillie and wished there was a gadget that could convey what she was thinking to her aunt.

"You're a surface skimmer, Elmer!"

"Huh?" Elmer laid down his fork.

"Were you ever sick, Elmer?"

"Not me," he boasted. "No sir!"

"Then you take it for granted that everybody is as fortunate as you are. That's surface thinking. Were you ever hungry, Elmer?"

"Gosh, Aunt Tillie. What you driving at?" Elmer began to look a little ill-at-ease. "Have I done something wrong?"

"Only that you take for granted the good things of life without assuming any of the responsibilities. You are your brother's keeper."

"You know I don't have a brother, Aunt Tillie. Hey, Emily, what's the matter with you?"

Emily knew that she couldn't stand another minute of this. She felt sorry for Elmer—big, good, unthinking guy that he was. He had never yet been slapped down by life. But she knew Aunt Tillie was right. And she knew for sure that she was going—to—faint.

When Emily came to her senses she was lying on the floor, her feet in Elmer's lap. The look on his face was so funny that she had to laugh.

"You're in for a rough time ahead, little man," she whispered. "Dr. Jenkins is almost certain you're going to be a father."

"A boy!" Joy shown in Elmer's round young face. "Aunt Tillie did you hear that?"

"It could well be a girl, Elmer. But whatever it is, I hope you will have something to think about besides fancy equipment."

"Sa-ay, there's a new kind of perambulator-high chair-play pen combination—"

"NO!" Emily sat up and raised her voice threateningly. "Nothing doing. We will get down that old walnut cradle that was my grandmother's and from now on the new things for this house will be little brothers and sisters!"

1954 FORD TO APPEAR IN SHOW ROOMS TOMORROW

The 1954 Ford passenger cars, to be introduced to the public in Ford dealers' showrooms all over the nation Wednesday, January 6, will feature the following Ford exclusives in the high volume field:

*An entirely new 130-hp Y-block V-8 engine with overhead valves.

*An new 115-hp I-block Mileage Maker Six engine, noted for economy.

*New ball-joint front suspension which Ford engineers call the greatest advance in front suspension in 20 years.

*The Skyliner—an entirely new hardtop model with tinted, transparent plastic roof over the driving compartment.

*A smart new Ford Sunliner convertible with an unusual transparent plastic panel inserted in the top over the front seat to provide overhead visibility.

*Four new power-operated driving assists: Power brakes, power steering, 4-way power seat, power-lift windows.

*Fordomatic transmission.

"The two new Ford engines for 1954—the Y-block V-8 and the I-block Mileage Maker Six—were designed expressly to lead their respective fields and have been under development for the past six years," L. D. Crusoe, vice-president, Ford Motor Company and general manager of Ford Division, said.

Ford First to Offer V-8—

"It always has been Ford's policy to design and build engines that set the pace for years ahead. Ford was the first to offer a V-8 engine in the low-price field, and although the majority of expensive cars joined the V-8 parade, Ford today is still the only car in its price class to have V-8 power.

"For 1954 Ford has perfected two new engines that are as far ahead in their fields as the original V-8 was in its day. They represent the greatest power advances since the original Ford V-8. And they have the benefit of Ford 'know-how' gained in building more than 16 million V-8 engines during the past 22 years."

L. W. Smead, Ford Division general sales manager, pointed out that Ford's new overhead valve Y-block V-8 engine, with its deep-block construction, is of modern, short-stroke, low-friction, high-compression design. It has a compression ratio of 7.2 to 1 and is smoother, quiter and gives more responsive power with greater economy and longer life than last year's engine. It rates 130 brake horsepower, up 20 horsepower over the 1953 L-head V-8.

The new I-block 115-hp Mileage Maker Six is a completely modern high-compression, low-friction engine. It rates 14 horsepower more than the 1953 Ford Six and, like the Y-block V-8, it is on "over-square" engine—that is the diameter of the cylinder is greater than the stroke of the piston.

According to Mr. Smead, the new ball-joint suspension makes the 1954 Ford the most comfortable and easiest handling Ford ever built. Exclusive to Ford in the high volume field, the ball-joint suspension replaces the older type king-pin suspension. This new system permits up and down movement of the front wheels through the ball-joints as the wheels travel over rough spots or directional movement as wheels turn right or left in steering.

Choice of Two Engines—

The ball joints have specially shaped seats so they will not bind or get out of line an dthey are completely sealed against water and dirt. Spring-loaded, the compensate automatically for any wear and they retain the "new car feel" much longer than the older type.

In its 1954 passenger cars, Ford again is offering three lines—Mainline, Customline and Crestline—with 14 body styles. Three new body types added this year are: the Crestline Skyliner with the transparent roof and a Crestline Fordor Sedan, featuring luxurious interior trim formerly found only in costly limousines. A new Customline two-door station wagon similar to the four-door Country Sedan in trim and interior appointments has been added to the three Ford station wagons previously available. This is called the Customline Ranch Wagon.

Mr. Smead said that this year, for the first time, Ford is offering buyers a choice of either its V-8 or 6-cylinder engines in all models—a total of 28 models for 1954.

To maintain Ford's modern style leadership, the 1954 Fords are coming off the assembly lines in 156 exterior and interior color combinations with 13 single-tone body colors, 10 of which are available in 13 two-tone combinations. Twenty-three tasteful upholstery patterns, selected for their charm as well as durability, have been chosen by Ford stylists to assure harmonious interiors.

The 1954 Ford passenger cars are readily distinguishable by their new grille with its characteristic Ford

An exhilarating open-air feeling with overhead visibility entirely new to a hardtop is found in this new 1954 Ford Crestline Skyliner—a Ford exclusive in the high volume field. The illusion of riding in a convertible is given by the transparent, molded plastic top, tinted blue-green, which covers the entire driving compartment. Like all 1954 Fords, it is available with a completely new 130-h.p. Y-block V-8 engine or a new 115-h.p. I-block Six.

center spinner, recessed parking lights and jet-type air scoop. There is a new Delta-wing type hood ornament; an increase of half an inch in the hight of the crown of the front fenders, and a new diagonal slant to the headlamps. Combined with the single strip of chrome running the length of the car, these give the new Fords a longer, speedier look.

Skyliner Popular—

Destined to be one of the most popular models in the Crestline, the all-new Skyliner has a transparent molded plastic top tinted blue-green which covers the entire driving compartment. This new model has post-free sides and its unusual overhead visibility gives the illusion of riding in the open air.

Set in a weather-tight rubber seal and framed by bright metal molding, the plastic top blocks out 60 per cent of the sun's heat rays and 72 per cent of the glare. Under extreme heat, a sunshade, which matches the headining can be snapped into place beneath the plastic section. Thus Ford's new Skyliner offers the comfort and weather protection of the conventionally roofed hard-top, plus the overhead visibility of a convertible with top down. An unusual feature has been added to the 1954 Crestline Sunliner convertible top. A transparent plastic insert, similar to the Breezeway rear window, has been placed in the top over the driving compartment. Extending from the windshield header to the first bow and across the width of the car inside the side rails, the plastic insert is tinted green to reduce sun glare. A sunshade to match the underside of the top lining can be snapped in place if needed. This plastic insert is optional equipment available with black tops only.

Ford, which leads all cars in convertible sales, offers interiors of new two-toned pleated vinyl upholstery over foam-rubber padded seats in its 1954 Sunliners.

Ford still retains its distinctive jet-tube tail lights but they have been given a new treatment with black rectangles set into the molding. The circular red lens has a star-like inset and tail lights, brake lights and turn signal lights are all within the one lens unit.

Four Power Assists—

Matching in beauty the new interior trim, the 1954 Fords have a new astra-dial speedometer mounted on top of a new control panel almost at eye level and easily seen through the steering wheel. The semi-circular glass dial of the speedometer has numerals which are illuminated in the daytime by light passing through the transparent hood at the back of the speedometer. At night the dial face is illuminated from beneath by hidden lights.

At each side of the base of the speedometer are jewel-type turn indicator signal lights and in between these lights is a high-beam headlamp indicator.

The control panel itself is ornamented with an engine-turned finish and contains the instrument controls plus lighter, radio dial and clock. This year the ammeter and oil pressure gages are replaced by red warning lights which flash on when the generator is not charging or the oil pressure is low.

By adding four new power-operated driving assists as extra-cost optional equipment on its 1954 cars, Ford is bringing to the high volume field all the driving aids once found only in the high-priced cars.

These include Master-Guide power steering of the hydraulic, steering-linkage type which reduces steering effort up to 75 per cent; Ford's Swift Sure power brakes which reduce pedal pressure effort up to one-third; 4-way power front seat which raises or lowers 1 3-4 in. and moves back or forth 4 1-4 inches by means of two powerful electric motors and power-lift windows, which open and close automatically a tthe touch of a button. Fordomatic fully automatic transmission, which Ford calls the most versatile automatic drive ever built and Ford overdrive, which reduces engine speed 30 per cent while road speed is unchanged, also will be available in the 1954 Ford models.

Good time to look both ways!

Along about now Southern Bell folks like to look back at the year's record of telephone growth, and ahead toward our job of providing more and better service for Alabama.

1953

More than 25,000 new telephones were added, making a total of about 454,000 in the state. Large amounts of cable, central office and other equipment were provided.

1954

Wherever you look, Alabama is moving ahead. This means another year of heavy demands for telephone service.

To get investors to supply the money to continue expanding and improving telephone service requires a fair profit on the money already invested in telephone equipment.

GMC's HUSKY NEW STANDARD PICKUP, powered with 125-horsepower engine—most powerful standard six in the field. A de luxe model with chrome grille and trim, two-tone exterior paint and cab rear corner windows is available at extra cost.

HERE is the most extraordinary light-duty truck ever built.

It has the smart styling of a fine passenger car to give its owners distinction and prestige.

A sweeping grille of modern design—a panoramic one-piece windshield—two-tone interiors with harmonizing upholstery—these are some of the luxury features that will make you proud to be seen in it.

But its practical side—its capacity for work—is even more exceptional.

It hasn't just more power than any truck in its class. *It has a whopping 125-horsepower engine—more powerful than many trucks with a two-ton rating.*

The Pickup—one of 19 models—has a box that holds up to 11 more cubic feet than last year's capacious model. Its tail gate is grain-tight—and *sand*-tight.

The dials on its handsome instrument panel are clustered. They can be read at one swift glance through the open top-half of a smart tri-spoke wheel.

And—a truck feature pioneered by GMC—it offers the driversaving, moneysaving advantages of Truck Hydra-Matic Drive*.

One final and surprising point. The *price* of the GMC, value for value, *is unsurpassed anywhere on the truck market.*

Folks and Things ABOUT TOWN

—By Ben

Looks like Miss Hope White of Uniontown, Alabama's Maid of Cotton, was Alabama's "White Hope" at the Memphis Festival.

We'll never be able to thank personally all the friends who have called about Myrtle, and are concerned about her health. She is in a Memphis Clinic at present and will be there for the next week or ten days. We deeply appreciate your concern and thoughtfulness and we'll keep you posted as to her progress.

"Big Jim" Folsom stopped by today on his way to Montgomery where he has opened headquarters at the Greystone Hotel. He'll be there each Thursday and Friday for appointments. Said to give all his Chilton County friends his best regards and as soon as the time permitted he would stop and shake hands with as many as possible. Reports are that "Big Jim" Folsom has a number of friends here and over the state.

The gate-keeper was testifying in the case of the train demolishing an automobile at the crossing he guarded. He swore to the court that he had waved his lantern vigorously. The jury believed him and awarded the verdict to the railroad.

Later the railroad attorney said to him, "See, Tom, you weren't nervous on the stand after all, were you?"

"Only once," confessed the gatekeeper. "If that fellow had asked me if the lantern was lit, we wouldn't have had a chance."

Hated to see Mrs. Amy Murrah who has been with the News for more than two years resign her position last week. She is now with the Cottie Auto Service. The new auto parts concern is located in the Minshew Building on North 7th Street. Mrs. Murrah is a very efficient young lady and we hope she enjoys her new work. Our best wishes go with her in her new position.

We think this paragraph is appropriate this time of year. It must be for it seems to bob up annually about this time:

An angry little man bounced into the postmaster's office and complained that, for some time, he has been pestered by threatening letters.

"I'm sure we can help," soothed the postmaster. "That's a Federal offense. Have you any idea who is sending you these letters?"

"I certainly have," snapped the little man. "They are coming from those pesky income tax people."

Well, with this, we'll say, goodnight:

The country boy, doing a hauling job, was told that he couldn't get his money until he submitted a statement. After much meditation, he produced the following bill:

Three comes and three goes, at four bits a went, $3."

Polio Patients Still in Need Of 'Dimes' Aid Sets Record

A new and tragic record was set when 1954 started with the largest number of polio patients ever reported who still required March of Dimes aid in paying treatment costs. On Jan. 1, some 66,000 polio victims stricken in 1953 or previous years were receiving such help from March of Dimes funds. This is the longest list of carry-over patients in history.

Continued high polio incidence rates year after year have resulted in each year starting with a greater number of "old" cases than the year before. At the beginning of 1953, there were 60,000 cases from earlier years, while 1952 started with a patient load of 45,000 "old" cases.

Long-term 'Lung' Patients

Some of these are longtime iron lung patients; others still require regular physical therapy while some need orthopedic surgery to restore use of their crippled limbs. A survey made in March of last year revealed that 98 per cent of ongterm respirator patients had polio before January of 1953.

No polio patient who can benefit from further treatment ever is refused aid by the National Foundation, regardless of when the disease struck. Four patients who received March of Dimes assistance in 1953 had had polio back in the 1890's. Also, 17 per cent had had the initial onset of the disease at least five years before.

However, new techniques of treatment are constantly being developed through March of Dimes research and training programs, so new hope often can be given to "old" cases. Patients once considered hopelessly crippled have been enabled to work again. This is one extra dividend of the dimes you give.

No 'Forgotten Men'

The National Foundation and its 3,100 chapters have pledged that there will be no "forgotten men" on the roster of polio victims. As a result, the March of Dimes pays more hospital bills than any other voluntary health organization supported by public contributions.

Since the patient aid program started, the National Foundation has spent $174,000,000 for this purpose alone. This is 68 per cent of all the funds used by the March of Dimes since it began. The money has provided necessary aid to 270,000 polio patients.

While it is hoped the new polio prevention program will spell ultimate victory over polio, the tens of thousands of past victims of this crippling disease cannot be forgotten. More dimes than ever before will be needed this year to insure that there are no forgotten men among past and present polio sufferers while prevention techniques are worked out.

The 1954 March of Dimes is now under way and will continue till the end of January. More of your dimes and dollars are needed now—they are the ammunition in this crucial battle affecting us all. Make January the month of real giving.

Dr. Fred Cummings of Seattle, Wash., is back in business as a veterinarian after being paralyzed by polio in 1948. Still forced to depend on a chest respirator to breathe, and having only the use of the fingers on his right hand, Dr. Cummings fought a 20-month battle just to get out of an iron lung. The March of Dimes has spent almost $30,000 aiding his 7-year fight for health. Now he is self-supporting through his re-opened practice.

Legislative Council To Study Segregation In Public Schools

Montgomery, Ala. — The Alabama Legislative Council, meeting here January 8, will join with a special six-man legislative committee to study some of the advisory letters sent to Governor Gordon Persons on the problem of segregation in the public schools.

Persons said he had received a large number of replies to a circular letter he had sent to news and radio men and county education officials asking their opinions on what Alabama should do if the U. S. Supreme Court abolishes school segregation.

The governor said that the joint meeting will handle the report on the letters informally.

At the same meeting the Alabama Legislative Council is expected to receive a report from Charles M. Cooper, director of the Legislative Reference Service, on what other states have done, or are doing, as a preparation for the awaited high court ruling.

TRANSCONTINENTAL STATION RECEIVES SAFETY AWARD

Campbell White reports that the Transcontinental Gas Pipe Line Corporation has received its Safety Achievement Award for its excellent safety record in 1953. Jess McGraw, Vice-President in charge of operations, stated that the presentation ceremonies will be held in the spring when the weather permits.

Transcontinental Gas Pipe Line Corporation, Houston, announced that the personnel of nine compressor stations, two pipe line districts, as well as the Engineering and Measurement Departments completed the year 1953 without an employee disabling injury.

The company employee injuries showed a 13% reduction from the previous year. Two compressor stations, No. 11 at Wadley, Ala., and No. 14 at Spartanburg, South Carolina; and Pipe Line District No. 9 at Malvern, Pennsylvania, are each entering their third year without an employee disabling injury; Station No. 14 having completed 1038 consecutive days.

In addition, the 1953 through-put of the Transcontinental system (which extends across 12 states from the Rio Grande in Texas to the Hudson Aiver in New York) was in excess of 190 billion cu. ft. of natural gas without resulting in any injuries to the public or damages to any public property along the entire 2240 mile right-of-way.

This shows a marked improvement over the previous year's outstanding safety record which won for Transcontinental the American Gas Association Accident Prevention Award.

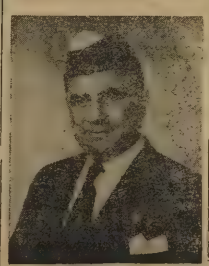
Gov. Proclaims Jan. March Of Dimes Month

Montgomery, Ala. — Gov. Gordon Persons has proclaimed January as "March of Dimes Month in Alabama."

The governor said Alabama has received almost two million dollars more from the March of Dimes than it has contributed.

There were 290 Alabama cases of polio in 1952, and 444 in 1953. Some 33,000 Montgomery youngsters received injections of gamma globulin from the National Foundation for Infantile Paralysis last summer.

R. L. FULLEN TAKES OVER DUTIES OF VETERANS ERVICE OFFICER



R. L. (Bob) FULLEN

R. L. (Bob) Fullen, former National Service Officer for the Disabled American Veterans, who has taken over the duties of Veterans Service Officer, Chilton County, is no newcomer to most veterans in this county. He was assigned to the Montgomery Veterans Administration Regional Office in July, 1949, where he worked after completing a two-year course preparing him for the profession of National Service Officer. The course comprised of six months study of VA laws and regulations at the American University, Washington, D.C., and eighteen months at three different VA offices which comprised of six months at the Regional Office, Montgomery, three months each at the VA District and Regional Offices, Dallas, Texas, and six months at the VA Regional Office, Lubbock, Texas.

Fullen's most recent assignment before returning home was in the Regional Office, Milwaukee, Wis. His office is located over the Upchurch Drug Store, formerly occupied by Raymond Mims. His Office Telephone Number is 392 and his residence telephone number is 564-W3, and he says that the weather does not get too bad nor the nights too dark for him to go to the aid or assistance of a veteran.

Very Encouraging-
Peach Dormancy Time Now Ahead Of 8-Year Average

The accumulated peach chilling hours (hours below 45 degrees since first killing frost last fall) is slightly ahead of the past eight-year average. According to a report received from the U. S. Weather Station at Fort Valley, Ga., the accumulated chilling hours totalled 577 through December 31st. The average number of hours for the same date from 1946 through 1952 was only 565. The 1953-54 accumulation is also slightly greater than that of 1952-1953. In Chilton County we can normally expect our weather chart to show substantially more chilling time than that reported at the Fort Valley, Ga., Station.

The Weather Bureau's Chilling Hour Report is watched with interest by Chilton's six hundred peach producers. The amount of "chill" that peach trees endure prior to mid-February largely determines whether or not many Chilton County varieties of peaches will come through with a normal bloom and leaf development. A lack of chill will react unfavorably and will prevent buds from forming. In rare cases, fruit buds may receive required chill and leaf buds on the same tree fail to receive requirements. This results in a starving of the young fruit before leaves appear. A severe case of lack of "chill" will cause trees to die.

On the other extreme, a rapid accumulation of chill may cause the fruit and leaf buds to open before spring frosts are past and a crop may be lost from frost damage.

Peach trees vary by varieties in their chill requirements. A careful tabulation of the amount of dormant hours required for fruit and leaf bud development of most of the southern varieties of peaches has been made and published. This factor is being carefully considered by Chilton County peach producers in selecting new varieties to be set this planting season.

It is encouraging to note that to date Chilton County weather records seems to be near ideal for normal peach bud development. Peach growers have their "fingers crossed" and a hopeful trust in the future.

1954 March of Dimes Poster Boy

Meet 4-year-old Debby Dains of Gooding, Idaho, the 1954 March of Dimes Poster Boy. Stricken by polio when he was four months old, he has been making slow but steady progress. His care, which cost more than $15,000, was paid for with funds from the March of Dimes.

REV. APLIN RESIGNS AT ASSEMBLY OF GOD

The Rev. J. H. Aplin has resigned as pastor of the Assembly of God Church where he and Mrs. Aplin have served for four years. During that time much has been accomplished by the Aplins and the Lord has blessed their ministery here.

A new parsonage has been built, the church redone inside, gas installed in every department, a new piano bought, a children's department added and a brick front with beautiful double-doors built. A bulietin board has also been added at the front of the church.

Several new families have been added during the Aplins ministry and two of the best revivals in the history of the church have been held.

Rev. and Mrs. Aplin are moving to Mobile, Ala., where the Rev. Aplin is entering the evangelistic field. His first meeting will be held at Foley, Alabama, opening January 15th.

TOLL ROADS NOT THE ANSWER

In the past year a number of proposals have been made for toll roads and turnpikes, as the answer to crowded highway conditions confronting the nation. Several new toll roads have been opened and are apparently highly successful.

The consensus of opinion at the National Chamber of Commerce's National Conference on Highway Financing, however, was that toll roads are the solution on only about 8,000 miles of the most heavily-traveled roads in the country. For other roads, another solution will have to be found to current over-crowding.

One of the most interesting ideas discussed at the National Conference was the proposal of the Conference of State Governors that the Federal Government get out of the gasoline taxation field. The idea would be that this source of revenue would be left to the states, which would gain increased revenue to finance highway improvements. Under this proposal, Federal highway aid would also be withdrawn.

Objections were voiced to the proposal on the theory that the end of Federal taxation might not always be followed by increased state taxes on gasoline, in which case there would actually be less revenue for highways in some areas than before.

The proper solution to the nation's over-crowded highways is going to be a painful one and probably lies in increased state and Federal expenditures. The proposal made by Connecticut's highway commissioner—that metropolitan areas look into the possibility of new taxes like payroll or sales taxes, to finance highway improvements—may be close to the solution, although such new taxes would constitute a highly irritating method of obtaining new funds. Probably the best solution is to be found in an increase in both state and Federal expenditures, painful as that solution may be.

The number of automobiles and trucks using the highways is increasing far more rapidly than improvements to our highways, and experts predict that unless the states, aided by the Federal Government, act to provide for expected heavy increases in traffic in the next ten years, the current situation will become acute.

Increased Federal aid can be provided through economies effected in the next few years, although the state may have to raise some taxes for their new revenue. Since the answer to this situation requires big money, relatively soon, the voter might as well face the facts and be prepared to shell out.

AROUND THE WORLD IN 91 HOURS

Pamela Martin, 23-year-old advertising artist, recently flew around the world in ninety hours and fifty-nine minutes. Pamela is not a pilot, nor was she flying in a private plane. She covered the route on scheduled airliners.

It is a new record for a scheduled-airliner around the world trip, breaking the old record of Major Horace Boren by some eight or nine hours. Pamela boarded a plane in Chicago on a Friday and circled the globe by early Tuesday morning.

She called the trip the nicest weekend trip she ever experienced. The trip was the idea of a travel agency, which footed the bill, and cost about $1700 in fares.

Prospects for round-the-trip flights are even better than Pamela's trip indicates. The air lines have agreed to cut costs considerably from the $1700 average and schedules will also be increased as faster air liners go into operation. It is possible that in a year or two U. S. travelers will be able to circle the world in a week end at a cost of just over $1,000.

Report from Washington

BY

ARMISTEAD SELDEN

Congressman, Sixth District

During the first session of the 83rd Congress, this column was carried each week in the newspapers of the Sixth District. The response I have received from every corner of the District has been most gratifying. As the second session of the 83rd Congress convenes this week, I am resuming this means of reporting to you.

With the exception of a period of about two weeks when I was on committee business, I have spent the past five months in the Sixth District. My office in Tuscaloosa has been open six days a week since August, and I had visits from hundreds of my constituents during that period. At the same time, I traveled more than 16,000 miles in visiting throughout the District, and I talked with hundreds of people from each of the eight counties. Yet I realize, and I am sure you do also, the physical impossibility of seeing each of you. For that reason, I would like to re-emphasize my desire to represent well the people of our District, and to again urge each of you to write me your views on any issues that the members of Congress may be confronted with during the session now underway.

* * *

Outlook For 1954—

The first session of the 83rd Congress postponed final decisions on many matters, pending further study. This leaves a heavy agenda facing the present session. Among the major issues which will probably confront the House and Senate are taxes, the new budget, farm price supports, foreign trade, revision of the Taft-Hartley labor law, Social Security, the defense program and foreign aid.

In addition, there are the questions of statehood for Hawaii, Congressional probes, further governmental reorganization, public power policies and countless other matters which may come before Congress this year.

* * *

Party Line-Ups—

As for the party line-up during the 1954 session, the Republicans will continue to control both the House and the Senate. But the narrow majority they held during the last session has become even smaller in the past few months, due to resignations and deaths which were followed by special elections. In the House the Republicans now hold 219 seats; the Democrats 215 seats; and there is one Independent member. The Republicans hold only one seat more than the number necessary for the slimmest possible majority in the House.

In the Senate, the Republicans now hold nominal control, but the Democrats have a one-vote edge. A breakdown of the membership shows that 47 seats are held by Republicans, 48 by Democrats, and one seat is held by an Independent. Until the death of Sen. Robert A. Taft last July, Republicans held numerical control of the Senate by one vote. Governor Frank J. Lausche of Ohio appointed a Democrat, Mayor Thomas A. Burke of Cleveland, to fill the vacancy caused by Sen. Taft's death. Both Lausche and Burke made it plain, however, that the appointment was not calculated to upset GOP control of the Senate, and Burke has already stated publicly that he will vote to continue Republican control if the issue comes up. Sen. Wayne Morse, Independent of Oregon, has also stated publicly that he will vote with the Republicans, whom he deserted in 1952, to organize the Senate. Then, too, the Republicans have the vote of Vice President Nixon in reserve in case of a tie to insure continued GOP control of the Senate. Yet the majority of the Republicans in the Senate is so thin that deaths or resignations could easily cause a shift.

Because of the slim Congressional majority of the party in power in both Houses, this session of Congress will undoubtedly be an interesting one to observe.

SUNDAY'S SERMON

Rev. Robert H. Harper

Jesus Uses His Authority.
Lesson for January 10: John 2: 13-25
Golden Text: John 4: 24.

The temple that stood on the time of Christ, like the buildings that had formerly stood on the sacred spot, was one of the magnificent structures of all time. It was to be house of prayer of Jesus found it the den of thieves.

Everything, to be sure, had been arranged for the convenience of those who came to worship. They did not need to bring sacrificial animals a long distance—such animals were offered for sale within the temple enclosure, in the Court of the Gentiles. It was made to resemble the present-day stock markets. And, as offerings made money had to be in the sacred shekels of the sanctuary, there were money-changers at their tables, ready to exchange the money of pilgrims brought into the sacred shekels, at a good rate. "Concessions" were made to the stock men and the exchangers. And a rich sum was received, as the temple authorities thus traded on the piety of the worshippers. The soul of Jesus burned within him as he saw the traffic, the din and confusion, and he drove animals both the lower and the human out of the temple, and he overturned the tables of the money changers, scattering the money on the pavement. The marvel is that no force was employed to resist him, as he attacked the combined of special privilege and swept the temple clean. But none resisted him, and many people believed in him. But Jesus saw the motives of many who professed faith, and he did not trust them. He was welcome Jesus into the secrets of our souls to cleanse them.

MRS. SUSIE R. CATES

Mrs. Susie Rebecca Cates, age 82, died at her home on Route 1, Maplesville, Monday afternoon. She was a life-long resident of Chilton County, being the daughter of George Armstrong and Martha Gibson Armstrong.

She is survived by two sons, M. J. Davenport of Jemison and M. C. Cates of Selma, Alabama; one sister, Mrs. Sallie Armstrong of Maplesville and 11 grandchildren and 14 great-grandchildren.

Funeral services were held Wednesday morning at 11 o'clock at Macedonia with the Rev. Lewis Mastar of Selma officiating.

MR. GENEROSITY

"And Joses, who by the apostles was surnamed Barnabas. . . having land, sold it, and brought the money, and laid it at the apostles' feet." Act. 4:36-37.

The closing paragraph of the fourth chapter of Acts introduces us to a modest farmer, Joses)Joseph) by name, who had moved from his native island of Cyprus, Palestine, and had become a devoted member of the then infant church.

Joseph was no gifted public speaker, nor a master of assemblies, nor did he have any ambition for prominence in the company of believers. A plain, blunt man was he, and yet beloved of all.

The secret of the influence of that quiet, sturdy, Cyprian gentleman lay in his being a wise counsellor, profoundly concerned for the underprivileged, wholly dedicated to the cause of his Lord. Because of his consecrated benevolence to the poor, even to the selling of a part of his farm for their relief, he was given another name, expressive of the confidence and love of his fellow Christians. They began to call him "Barnabas," a name synonymous with our English word "encouragement." If he were living today, he would probably be called "Generosity."

To praise the pattern set by Barnabas is that of a worthy member of a worthy church — we remind that he was a voluntary giver. Because some would-be interpreters it has been maintained that the early church was socialistic, or even communistic in its functioning. The law in radical socialism, however, is coercion. Every member of such a community is compelled to surrender all personal claim to his property, the management of which is left in the hands of the organization. But the argument is baseless. For example, in the case of Barnabas, there is no suggestion that he had been compelled to sell his farm. The revised translation is that he sold "a piece of land." That is, that he dug into his capital investment in order to help feed the hungry. The Christian rule was, "Every man, according as he purposeth in his heart, so let him give; not grudgingly, or of necessity: for God loveth a cheerful giver." II Corinthians 9:7. Therefore, it is easily seen that from Christian practice communism has no leg to stand on.

Again, we are told that the body of believers, Barnabas included of course, recognized the Church as the prime agency for Christian benevolence. The record is that he "brought the money, and laid it at the apostles' feet." A free-lance believer is not a cooperating believer. Again, a so-called benevolence agency, apart from the Church, may perform effective service to the needy; but it must not be forgotten that, were it not for the Church the spirit of constructive charity would die in our country. Givers for the glory of God should not forget that, Mr. Generosity has a message for the Christianity of our day, and offers as well a complete answer to any radical interpretation of the Scripture. May the Lord prosper the Barnabas type.

DALE CARNEGIE

★ "AUTHOR OF "HOW TO STOP WORRYING AND START LIVING" ★

M. E. HEARN, 203 S. Ham, Pratt, Kansas, was raised on a farm and as a young man had some small success selling life insurance to relatives and close friends. Then he decided that the city was the place for him to make his fortune. After a few weeks of fruitless work, and being kicked out of what seemed to be all the offices in Kansas City, he became discouraged—and hungry. He answered a salesman's advertisement in the Kansas City Star to call on the grocery trade. He got the job, which consisted of selling a kitchen cleaning compound.

CARNEGIE

He made his clients the small stores in Kansas City, thinking that they would be easier to sell. After several days of riding street cars and lots of foot work, he had not made a single sale of even a minimum order, which was three cases. He was so afraid of a store manager that he just couldn't call on any more stores. One day he stopped in front of a large grocery store and went in to buy a package of cigarettes. He was carrying his sample case, but he had not the slightest intention of asking anyone to buy anything.

The manager happened to be walking past; thinking Mr. Hearn was waiting to see him, told him to come to his office. So frightened that he couldn't present his sales talk, the manager sensed his fright and embarrassment, looked over his samples—and ordered twenty cases. Then he gave this fearful salesman some good advice—never to be afraid to call on anyone, and curtly dismissed him. To this day Mr. Hearn doesn't know that manager's name. But twenty years later he still thinks of that incident and he has never since been afraid to call on any man.

When applying liquid floor wax, use a sponge instead of a cloth; the sponge spreads the wax more easily in cracks, and you can also get at those corners much better.

Christmas Party For GA's—

The Junior GA's met at the home of Mrs. Bonnie Willis, December 21st, for the regular meeting and Christmas party. Yuletide motifs were used in the decorations and refreshments.

The hostess, the counselor, Mrs. Teen Cost, and young people's leader, Miss Mary Clements served the group upon arrival of all the members. Sandwiches, toasted nuts, colorful Jello. Favors were Santa heads filled with candy.

The meeting was called to order by the president, Willie Lee Blackman.

A story about the gifts of Abel and Cain was told by Miss Clements in an entertaining manner.

Martha Jo Willis, the hostess' daughter, played Santa to the group and all learned who their sunflower of the year was.

Those attending this delightful affair were: Willie Lee Blackmon, Rena Mae Blackmon, Doris and Rosa Emma Cofer, Jackie Morgan, Betty Watson, Norma Jean Collins, Della Cost, Lois Ann Woodley, Martha Jo Willis, a visitor, Michael Woodley, Miss Mary Clements and Mrs. Tom Cost.

Mulberry News—

There was a good congregation for both services at Mulberry Sunday. A short business meeting was held between Sunday School and preaching. The treasurer's report was given by the treasurer, Casey Cumings. Recommendations of the deacons were given by Lewis McGee. The young men of the church will be the ushers on Sunday night. The church will be used for the Commencement Sermon of Isabella High School on Sunday afternoon in May.

Bro. Jones preached two very good sermons. The Communion Service was held immediately after worship service Sunday morning.

We had a number of visitors for both services.

Did you make a resolution that you will attend Sunday School and Worship service and Training Union every Sunday? That is possible. We hope you will not break it. Oh, yes, another resolution: the librarian hopes you will read a good number of books from our church library.

Mr. And Mrs. J. Watts Moore Celebrated 50th Wedding Anniversary

Celebrating their golden wedding anniversary on December 29th were Mr. and Mrs. J. Watts Moore. Mrs. Moore is the former Emma Mullins, daughter of the late Mr. W. J. Mullins. The wedding ceremony took place 50 years ago in the home of Dr. and Mrs. P. I. Hopkins, now of Dothan.

Mr. and Mrs. Moore were honored by their children with a golden wedding anniversary reception in the home of Mr. and Mrs. Charles Lee Patterson. The children are Mr. and Mrs. Charles Lee Patterson, Dr. and Mrs. Charles R. Moore and Dr. and Mrs. Joe W. Moore.

At the entrance hall hung a golden bell which was used at the golden wedding anniversary of Mrs. Moore's parents. Arrangements of yellow and gold roses, chrysanthemums, carnations and snapdragons were placed throughout the lovely new home with yellow tapers completing the decorations.

The table was covered with an imported maderia cloth and centered with a silver bowl containing a beautiful arrangement of 50 yellow, golden roses.

Carrying out the golden wedding anniversary theme further were the individual cakes and ice cream embossed with a golden bell.

Pouring the coffee were Mrs. Amzie Gowan and Mrs. John Deramus, sisters of Mrs. Moore.

Assisting in serving were the nieces, grand nieces and grandchildren. They were Misses Mary Elizabeth Mullins, Joanne Scott, Martha Mullins, Nell Richardson, Alice Deramus, Susan Elsevier and Josephine Moore.

Mrs. J. Renfroe Mullins greeted the guests at the door. Mrs. F. N. Scott registered the guests and assisting her were Mrs. W. R. Mullins, Mrs. Frank Mullins, Mrs. Maurice Brigance, Mrs. Travis Richardson, Mrs. Joe Moore, Mrs. Charles Moore and Mrs. T. Harold Lawrence.

The grandchildren present were Charlie Patterson, Jack Moore, Josephine Moore, Susan Elsevier and Richard Moore.

The out-of-town guests were as follows: Mr. and Mrs. W. K. Mullins of Mobile and their son, Mr. Edward Mullins, and grandson, Edward, Jr., of Birmingham; Mr. and Mrs. Frank Mullins and son, Frank, Jr., and daughter, Miss Martha Mullins of Mobile; Mrs. Amzie Gowan and daughters, Miss Sara Frances Gowan, Mrs. Travis Richardson, and granddaughter, Miss Nell Richardson, all of Brewton; Mr. and Mrs. Maurice Brigance of Mobile; Dr. and Mrs. P. I. Hopkins of Dothan; Mrs. Will Strock, a cousin of Mrs. Moore, and who is 98 years old, and daughter, Mrs. Phil Mitchell and husband and children of Montgomery; Mr. and Mrs. J. B. Varnell of Birmingham; and Mrs. Charlie Strock of Verbena.

Approximately 150 guests called during the afternoon.

Mrs. John Deramus entertained the out-of-town guests with a buffet luncheon at her home prior to the reception.

The regular monthly meeting of the Woman's Society of Christian Service was held Monday evening at 7:30 p.m. in the M.Y.F. room.

The president, Mrs. Marvin Vickers, presided over a short business session. The deep appreciation was expressed for excellent work done by the large number of workers in packing the community chest Christmas bundles. The Circle meetings for January 11th were announced as follows: Circle One with Mrs. Mark Tucker, Circle II with Mrs. W. E. Huddleston, Circle III, church office, Mon., 3:00 p.m., Circle IV with Mrs. Joe Edgar, Circle V with Mrs. W. F. Haywood, Circle VI with Mrs. E. H. Waldrup.

A topic of "Christian Discipleship" was developed by Mrs. Ervin Dalley who made use of an illustrative chart showing the world influenced by a widening fellowship of Christian disciples. An Epiphany Service was observed. Gifts of new members were recognized with a cordial welcome from the membership chairman, Mrs. Omar Reynolds.

Those who assisted the program leader were Mrs. B. G. Godwin, Mrs. Cecil Carter, Mrs. E. H. Walker, and Mrs. W. F. Haywood.

P-TA Will Hold Panel Discussion

Parents! Teachers! You have a chance to hear your fellow associates voice their own opinions on "Opportunities for Moral and Spiritual Education" at the next P.-T.A. meeting. Mrs. W. C. Golden, who is serving as program chairman, is organizing a most interesting and inspiring panel discussion on that subject. Be there and help boost your fellow companions.

The meeting is next Tuesday, January 12th, at the Chilton County High School at 2:45 p.m. Don't forget it!

New Year's Parties Enjoyed

A group of young people at the First Methodist Church enjoyed a New Year's party. Betty Robertson directed the game-playing in the basement of the church.

After refreshments were served the group of young people as well as several adults met in the Sanctuary for a New Year's program, under the direction of Rev. Marvin Vickers. A film about one young person who lost faith in his church and who found his way back to the church, proved very inspiring. It was entitled "Crossroads" and helped each one present to face the New Year with courage.

Miss Louise Golden entertained a group of friends with a New Year's party at her home. Those who enjoyed the games and waited up to see the New Year in were: Janice Young, Martha Bell, Judith Ann Williams, Donna Kilnore, Ann Fiquette, Ann Jester, Rusty Shelton, Bill Reid and Glennis Askins.

Watch ewes very carefully during lambing period; a good lamb should be worth about $25 in 1954.

Dane-Barnett Vows Are Told

The marriage of Miss Martha Caroline Dane, daughter of Colonel and Mrs. T. C. Dane, and Nathan Thomas Barnett, son of Mrs. M. N. Barnett and the late Mr. Barnett, took place at the Capitol Heights Presbyterian Church on December 31, with the Rev. Murry Howe officiating.

The church was decorated with palms, white candles burning in candelabra and standards of white gladiola and chrysanthemums.

Before the ceremony Mrs. Eugene W. Nic Colliem played "At Dawning," "I Love You Truly" and "Oh, Promise Me."

Michael Haywood sang, "Because." The traditional wedding marches were used.

The bride was given in marriage by her father. She wore a winter suit of corded faille.

Mrs. W. F. D. Mueller was Matron of Honor. Her dress was of wine iridescent taffeta. Her flower was a white orchid.

Serving Mr. Barnett was Mr. J. C. Sebberry as best man. M-Sgt. W. W. Slay and B. M. Bryant were ushers. A reception in the church parlor followed the ceremony. The bride's table was beautifully decorated in carnations and silver candelabra holding white candles.

Serving were Mrs. J. C. Sebberry and Mrs. W. W. Slay.

The mother of the groom wore an aqua crepe with an orchid.

Among the out-of-town guests were William Dane of Memphis, Tenn., Col. and Mrs. T. G. Dane of Memphis, Tenn, and Mrs. Walter Haywood, of Clanton.

Mt. Pisgah News

We had a good start for the New Year at church Sunday morning and Sunday night. May we all try a bit harder to come every Sunday and Sunday night in 1954.

We were glad to have Mr. and Mrs. Herbert Yeargan and children with us for Sunday School Sunday.

Misses Alma Faye Chadwick and Jeanette Duren spent Sunday with Miss Helen Edwards.

We were, as always, glad to have Mr. and Mrs. Elbert Baker of Birmingham with us Sunday.

There were several from here enjoyed the Sub-District Fellowship at Mt. Nebo Monday night.

There is still lots of sickness in our community. Keep praying for them.

We hope to see you next Sunday at church. If you have been staying away, please come next Sunday. — Reporter.

Around OUR HOUSE

by Kathryn Tucker Windham

Right now we're beseiged by measles around our house. The seven-year-old looks hopefully in the mirror every morning to see if her red spots are fading, and I look fearfully at the four-year-old and the one-year-old every morning to see if red spots have appeared.

When the seven-year-old first got sick, we didn't even suspect that she might have measles, and we wanted our doctor to see her. His office was closed for the holidays, and he asked that she come to the hospital where he would check her in the operating room.

The seven-year-old walked hesitatingly into the operating room. She looked at the cases of sterile instruments, the stark whiteness of the entire room, the oxygen tanks, the huge overhead light with its many mirrors and other unfamiliar equipment.

"I wish our doctor's office was open," she said. "This place looks so drastic!"

* * *

When children are really sick, keeping them entertained is no problem — they don't feel like playing. But once they start getting well, it takes almost all a mother's time to keep them both quiet and happy.

The next door neighbor came over to see the seven-year-old and brought her a big box of old hats. I propped her up on pillows, put a mirror where she could see herself in it and got a lot of work done while she indulged in the feminine delight of trying on hats.

None of the hats was very becoming though, not with red splotches all over her face. Only the hats with veils looked nice at all. They were her favorites.

* * *

I was wishing for a bed table when the neighbor down the street, the one with the big family, stopped by to check on our patient.

"The lid of a drop-head sewing machine makes a fine bed table," she said. "Just put the machine close to the bed and open the lid so that it extends across the patient's lap. Then you'll have a steady surface for holding a tray, coloring or playing games."

I the machine is used as a bed table for a child, it's a good idea to remove the needle so there can't possibly be a painful accident.

* * *

Of course small girls, like the seven-year-old, enjoy playing dolls in bed. Her whole doll family suffered through the measles with her and had to take medicine every time she did. They all made good recoveries.

* * *

A redio right beside the bed where they can reach it and select their own programs pleases most children. Warning: Some of their program selections will be horrible!

* * *

Most sick children will be more willing to have their mothers leave the rooms for a little while if they have a bell or a whistle to use to call them back.

* * *

It may look terrible to you, but some convalescent children like their milk better tinted pale, pink or green. Try it.

Mr. Motley offered the following preamble and resolution for adoption; which were duly seconded by Mr. Dunlap:

WHEREAS, the Board of Revenue and Control of Chilton County, Alabama, is desirous of constructing or improving, by force account, by contract or both under the provisions of the "Farm to Market Road Act of 1943," a section of road included in the Chilton County Road System, approved by the Alabama Highway Director under date of _____, 19____, and described as follows:

F.A.S. Route 677 from Sprott via Thoe, Mt. Gilead Church, Oakmulgee, to a point on Federal-Aid Road Number 30 near Pleasant Hill Cemetery, 5.4 miles in Chilton County, Alabama.

WHEREAS, the County agrees to conform to all the provisions of the said "Farm to Market Road Act of 1943," and to Section 14 of said Act in particular, which provides that "the County shall make provision for the maintenance of such road thereafter in accordance with standards established by the Bureau of County Aid, and enter into contract with the State therefor," with the full understanding that failure on the part of the County to satisfactorily maintain any section of road that may be constructed in this County under the provisions of said Act, shall be sufficient cause for the suspension of any further benefits to this County from the operation of such act until such roads or section thereon, shall be again placed in a state of maintenance satisfactory to the State Highway Department.

NOW, THEREFORE, BE IT RESOLVED, that application be made to the Bureau of County Aid, of the Alabama State Highway Department, to investigate the proposed improvement, and if it be found to conform to the eligibility requirements of the "Farm to Market Road Act of 1943" that the provisions of said Act be invoked to accomplish the said improvement at the earliest practicable date.

The above stated preamble and resolution were adopted by a unanimous vote of all the members present.

Mr. Motley offered the following resolution for adoption; which was duly seconded by Mr. Dunlap:

BE IT RESOLVED AND ORDERED: There being no further business to come before the meeting, that said Board adjourn.

The above stated resolution was adopted by a unanimous vote of all the members present.

I, Harold H. Smyer, Clerk of The Board of Revenue and Control of Chilton County, Alabama, hereby certify that the foregoing minutes of the proceedings of said Board meeting held on December 28, 1953, were entered and recorded in this minute book, reproduced and a sufficient number of copies of same were filed in the office of the Probate Judge, a copy of same furnished to the Chilton County News, a newspaper published in Chilton County, for publication, and a copy of the same was posted in a conspicuous place in the courthouse on the 4th day of January, 1954.

MOUNT NEST BOX . . . An easy way to mount nesting boxes on the wall of your poultry house is with large screw eyes on slotted cleats. To remove simply turn the heads of the screw eyes to a vertical position and lift off box. This method of mounting makes it easy to remove the nests to be cleaned and disinfected.

Chestnut Creek Baptist Church—
Rev. Hyman Atcheson, pastor.
Sunday School, 10:00 a.m.
Morning Worship, 11:00 a.m.
Training Union, 6:00 p.m.
Evening Worship, 7:00 p.m.

Our attendance Sunday was very good. We had 180 for Sunday School. I think everyone enjoyed the lesson, "God Revealed in Christ," John 1:20; 30-31. We had 18 visitors and we invite them back to worship with us. Our attendance for B.T.U. was also good. Mr. John Robinson, our B.T.U. director, gives everyone a special invitation to come study with us. Bro. Atcheson brought two very good messages.

Everyone who missed our Watch Night service missed a wonderful time and a great blessing. We heard some of the best preachers. There were good singing and praise service. About 10:30 everyone enjoyed sandwiches, cookies and coffee served by the ladies. We adjourned about 12:30 and everyone went home feeling they had received a great blessing.

Circle I of the W.M.U. met Monday evening at the church with Mrs. Lee J. Grant presiding in the absence of the president, Mrs. Hugh Taylor. They had their regular program from the Royal Service. The program was "The World At Our Door Step." There: "A Sinful World—A Sufficient Saviour." They also made plans for Focus Week.

The G.A.'s and R.A.'s had their regular meeting last Wednesday at the church. They had their programs from their magazines, "Tell" and "Royal Ambassador."

Circle Two of the W.M.U. will meet in the home of Mrs. John Robinson Friday night, January 8. All you ladies keep this in mind and attend.

'54 FORD the "worth more" car declares a dividend

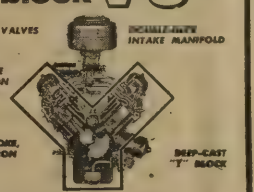
STYLE DIVIDEND

3 distinctive lines
—14 brilliant bod

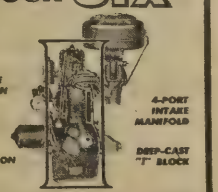
You'll find that each new ... in the '54 Ford is an extra dividend in driv... ...yment . . . establishes Ford, even more in '54, as the "Worth More" car. You get a special dividend in ...ling with Ford's distinctive new appearance ... sparkling new interiors, too, that are a dividend ... themselves. And each of the new Fords gives you ...ecial dividends in ride and performance . . . with ...ew Ball-Joint Front Suspension, the greatest advance in chassis design in 20 years . . . with your choice of Ford's new low-friction Y-block V-8 or I-block Six, the most modern engines in any car today! With 28 brilliant new models to choose from, you'll find the exact car to suit your tastes and requirements. Come in . . . See and Test Drive the '54 Ford.

PERFORMANCE DIVIDENDS

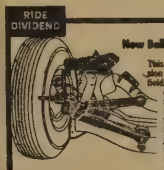
The new 130-h.p. Y-block V-8



The new 115-h.p. I-block SIX



RIDE DIVIDEND



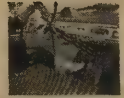
New Ball-Joint Front Suspension
This revolutionary new suspension is exclusive to Ford in its field. It allows greater up and down wheel travel for a smoother ride. And it helps keep wheels in true alignment for consistently easy handling. Movement of wheels is on ball joints, whether in up and down motion or in steering motion—right or left.

The greatest engine advances since the original FORD V-8

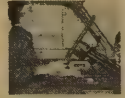
Both new 1954 Ford engines . . . the Y-block V-8 and the I-block Six . . . have overhead valves for most efficient high-compression operation on today's fuels. Valves are free-breathing to give you the most GO . . . free-turning to seat tightly and maintain high compression. Both engines have a deep-cast block with skirt that extends well below the crankshaft for greater strength and rigidity . . . smoother, quieter performance and extra-long engine life. Their modern short-stroke, low-friction design cuts friction losses . . . gives you more usable horsepower, more miles per gallon of gasoline. New high-turbulence combustion chambers assure a more thorough mixing of fuel and air for faster, more efficient combustion. Plan to Test Drive a '54 Ford. You'll find these new Ford power plants are the greatest engine advances since the original Ford V-8.

Plus five optional power assists* you might find only in America's costliest cars

Master-Guide Power Steering
It does up to 75% of your steering work for you, makes parking a pleasure, leaves you with the normal feel of steering on the straightaways.



Swift Sure Power Brakes
Power does up to one-third of the work of stopping for you! You are less fatigued, more relaxed, in the stop and go driving of congested traffic.



Power-Lift Windows
Windows open or close at the touch of a button under each window or on left front door. Driver may operate any of the four Power-Lift Windows.

4-Way Power Seat
Push one of two controls and the front seat goes up or down . . . push the other and it goes front or back. It's a real convenience and comfort feature.

Fordomatic Drive
You get the smoothness of a fluid torque converter plus the instant "go" of an automatic intermediate gear. Ford also offers gas saving Overdrive.

See where they allow $50 for advertising on a certain make of car and add it in the cost. We heard a fella remark the other day that when he bought his new car he'd just tell them to knock off the $50 and he'd advertise it himself.

Speaking of cars reminds me; all this talk about safety on the highways. Someone oughta start a campaign for "Safety in The Alley" or "Safety Behind the Shop". I was just parked in the usual traffic jam behind my job the other day and some tom fool idjit, to quote another corny fellow, bashed in my fender. I'll have to admit that "Ole Betsy" ain't much but she's my only means of transportation and she doesn't take a shine to any bends or bruises. Hasn't run the same since. Next time if I'm asked or even demanded to move I assure you, you'll be obliged, without so much as endangering your bumper or my fender.

If you haven't passed by Judge Smith's future home you've missed something. At night the place looks like the Old South back in Civil War Days. With a little imagination of course.

A guy who knows he is lucky or fortunate and doesn't say anything about it usually gets condemned for not realizing what he's got. Where if he does recognize the fact openly he gets criticized for being boastful or conceited. Humans are cruel animals.

ADVENTIST CHURCH

"God is love", is written upon every opening bud, upon every spire of springing grass. The lovely birds makking the air vocal with their happy songs, the delicately tinted flowers in their perfection perfuming the air, the lofty trees of the forest with their foilage of living green, - all testify to the tender, fatherly care of God and His desire to make His children happy. The Sabbath day stems from creation and testifies that God is the Creator of all the beauties of nature.

Battle To Oppose Sparkman In Race For Senate Place

Laurie C. Battle

An announcement that throws the doors wide open for the office of Congressman from Jefferson County (Ninth District) was made this week when Laurie C. Battle stated that he would be a candidate for the U. S. Senate. He stated he would qualify at the proper time.

Here is Mr. Battle's statement:

I, Laurie C. Battle, a life-long loyal southern Democrat hereby declare my intentions to qualify at the proper time to run for the U. S. Senate subject to the Democratic primary this spring.

I will run a clean, hard campaign as I have done in my four previous campaigns for the U. S. Congress.

This decision was made by me and my immediate family alone, after carefully weighing several thousand requests to run for the Senate. These requests have come from people in every walk of life, in every part of Alabama. Otherwise, I certainly would not give up my present job as Congressman which I will hold until January of next year.

I enter this campaign with faith and determination and without commitments of any description to anybody except to serve the State of Alabama to the utmost of my capacity at all times.

My wholehearted allegiance is to the Democratic party, but I never have and never will be a rubber stamp. I have always fought policies which I believed to be detrimental to America and to our beloved Southland.

I have no professional political machine, so I hereby request "Volunteers for Battle" to help me form an amateur organization on a statewide basis in order to win this election decisively. This I am confident we can do. Please write Congressman Laurie C. Battle's campaign headquarters, Bell Building, Birmingham, Alabama. Your assistance will be deeply appreciated.

Biography of Congressman Laurie C. Battle, Ninth District, Alabama

Laurie C. Battle, Congressman from Jefferson County for the past seven years (four terms) was elected immediately after coming out of the service. He entered military service as a private and came out as a Major four years later. He spent sixteen months overseas in the Pacific theatre where he received several citations and the Bronze Star.

He is author of the "Battle Act." which embargos the shipment of war materials and strategic materials from the United States and from our allies to the Communists. Recently Congressman Battle was selected by the Congressional Quarterly as one of the three outstanding Democrats in the U. S. House of Representatives. He is currently serving on the President's Bi-Partisan Foreign Economic Policy Commission, which will report its suggestions on tariffs, trades, foreign investments, etc., to the Congress and to the President soon.

These and other outstanding services in the United States Congress has brought him both national and international recognition.

Congressman Battle has lived in many places in Alabama as the son of the late Rev. W. R. Battle who was a Methodist minister for over forty years. There are eight children in the family. Laurie was born at Wilsonville in 1912 and lived at Tuscumbia, Athens, Jonesboro, Albertville, Guntersville, Alexander City, Inglenook, LaFayette, Ensley, Piedmont, Talladega, Sylacauga, Crumley Westwood and Birmingham. Rev. W. R. Battle also lived at Notasulga, Dadeville, Vincent, Harpersville and other places. In his early days he was bank cashier and then started his ministerial duties as a "circuit rider." Immediate members of the family have lived and taught school at Bridgeport, Boaz, Ashland and Haleyville. Congressman Battle's mother was Le-Merle Allen of LaFayette, Alabama. He is married and has three children.

VFW PLANS FOR A BUSY YEAR

Montgomery—Local Posts of the Alabama Department, Veterans of Foreign Wars, of which W. B. Crowe is the Commander, will take a more active part in programs and activities to improve their communities during 1954, Telfair J. Mashburn, state commander said today.

"In the future," the Commander stated, "the VFW will strive to render a more extensive service to the areas in which it operates, in such projects that we believe will make our towns a better place to live and rear our families. In the past, our principal objectives were to look after our own disabled comrades, and their families who were in need."

He pointed out that the VFW theme on a state and national level during recent years has been to undertake many civic endeavors, in addition to the veteran rehabilitation and similar objectives for deserving and needy veterans and their dependents. During the past year more than 311,000 different community service projects were recorded by the 10,000 posts.

The Alabama Department finished 1953 with the largest membership ever recorded, and in preparing to observe National VFW Week from January 24-30, which marks the 55th anniversary, Mashburn said his group is currently seeking a substantial increase in membership from eligible veterans in order to give the organization greater strength on all levels.

ALABAMA AUDITION WINNER APPEARS WITH THE BIRMINGHAM SYMPHONY

Jerrie Cadek Lucktenberg, violinist, is winner of the auditions sponsored by the Birmingham Symphony Orchestra and Birmingham News in cooperation with the Alabama Federation of Music Clubs. She was selected by the judges on January 5th. She will recieve $200 cash award and will appear as guest soloist with the Birmingham Symphony Orchestra at the Municipal Auditorium January 20th. Judges were Emerson Vandeleve, director of music, State Department of Education; Hugh Thomas, director of the Birmingham Conservatory of Music of Birmingham Southern College, and Robert H. De[illegible] assistant professor music, [illegible] College.

Mrs. Lutenberg will play the movement's of Lalo's Symphonie Espagnole when she plays with the orchestra here.

Daughter of Ottkar Cadek, former concert master of the Birmingham Symphony Orchestra, now head of the string department at the University of Alabama, Jerrie spent much of her childhood in Birmingham. Her first public appearance, at the age of 6, was in this city, under the sponsorship of the Alabama Federation of Music Clubs. She was concertmaster for her grade school orchestra the same year. She attended the University of Alabama for two years, later receiving her bachelor of music degree at Curtis Institute of Music, where she studied for four years under Ivan Galamian. For the past year she has been a graduate student on fellowship grant at the University of Illinois, where she studied with Paul Rolland and Max Rostal, and earned her master of music degree with honors. She served as concertmaster of the University of Illinois Symphony of 90 members with Leopold Stokowski as conductor and was presented on three occassions as soloist with the orchestra.

Miss Alabama Helps

Miss Alabama, Virginia McDavid of Birmingham, adds her contribution to the 1954 March of Dimes. More support than ever before is needed in the current drive because of the costs of the new Polio Prevention Program of stepped-up gamma globulin supplies and massive testing of a polio vaccine during this year.

Sod Waterways Help Reduce Soil Erosion

Even where good terraces, contour farming, and crop rotations are used, more water than can be absorbed falls on cropland during heavy rains.

"This surplus water must flow off through some kind of waterway," says S. R. Doughty, API Extension soil conservationist. "Unless a safe waterway is provided, serious damage from erosion will result. Generally, it is easiest and cheapest to use bottoms of natural draws or depressions for sod waterways. The sod may be grass, perennial legumes, or grass-legume mixtures."

Doughty adds that sod waterways must be designed to take care of any amount of rainfall, must receive annual applications of fertilizer, and must be mowed and grazed when needed.

CAROLYN JONES INJURED IN WRECK SATURDAY AFTERNOON

Carolyn Jones, 16 year old daughter of Moody Jones, was seriously injured Saturday afternoon at 3:00 o'clock, when their automobile collided with one driven by Julius Williams. The accident occured at the city limits on the Maplesville Highway. Moody Jones was driving the Jones car.

It was reported Monday that Carolyn was much improved. She suffered a fractured skull. State Highway Patrol officer Fred Steen investigated. Spigener Funeral Home ambulance brought Miss Jones to Central Alabama Hospital.

Freeze Eggs For Six Months, Even Longer

Auburn, Ala. — Eggs can be stored in a freezer locker for six months or more and still be as tasty as fresh eggs, according to Lavada Curtis, API Extension food preservation specialist.

"First," she explains, "break fresh, clean eggs into a clean bowl. Dirt from dirty shells may spoil the keeping qualities. Mix thoroughly but do not whip in air. Fill moisture-vapor-proof containers with the egg mixture.

"When yolks are separated from whites and frozen separately," warns the home leader, "the yolks must be treated with corn syrup, sugar, or salt to prevent a gummy condition. For each cup of yolks add one tablespoon of syrup or sugar or one teaspoon of salt. Mix thoroughly and fill into moisture-vapor-proof containers. Whites frozen separately need nothing added and no mixing."

Mary Texas Hurt Will Seek Post Of State Secretary

Miss Mary Texas Hurt

Miss Mary Texas Hurt, a native of Scottsboro, Jackson County, has announced her intentions to qualify as a candidate for Secretary of State in the May Primary. Young Miss Hurt received her B.A. and L.L.B. Degrees from the George Washington University and passed the Alabama Bar Examination in 1952 Since that time she has practiced law in Scottsboro and has recently worked in the attorney general's office.

Before entering law school, Miss Hurt was the manager for the Bocanita Theatre in Scottsboro and at the age of 12 was credited with being "the world's youngest theatre manager."

While soliciting support throughout the state, she plans to reopen her law office in Scottsboro.

Push Your Pigs Along With Daily Vitamins

Auburn, Ala.—For thrifty growth, pigs need daily vitamins.

"Fortunately," says G. B. Phillips, API Extension animal industry specialist, "they don't require 'drug store' vitamins. Pigs can get all the necessary growth vitamins from tender legume grazing. If grazing is not available, give pigs and hogs a small amount of leafy, green legume hay.

"And if shotes are being finished in the pen or dry lot, include a little hay in their protein supplement. A good protein supplement for use in dry lot feeding can be made by mixing equal parts of tankage, cottonseed meal, finely ground legume hay, and either peanut or soybean meal."

More Service From Your Ironing Board

An ironing board should be the correct height for comfort and should be padded to give it a smooth, hard, even surface.

Stella Mitchell, API Extension home management specialist, suggests that the padding be made of cotton flannel, foam rubber, old blankets, or sheets without wrinkles. Each ironing board should have several extra covers. They will give better service if laundered as often as necessary.

A piece of asbestos cut to fit the broad end of the ironing board and fastened with thumb tacks will prevent scorching the cover.

ATTORNEY GENERAL ISSUES STATEMENT IN REGARD TO POLL TAXES

Attorney General Si Garrett today issued the following statement in regard to the payment of poll taxes and registration:

February 1, 1954, is the last day for the payment of poll taxes to entitle a person to vote in any election held during the period February 2, 1954—February 1, 1955 (inclusive).

The only poll taxes required to be paid by that date are the tax of $1.50 which became due on October 1, 1952, and the tax of $1.50 which became due on October 1, 1953.

If a person, not exempt by law from the payment of poll taxes, was over 21 and under 45 years of age on both those dates, he must have paid the tax which became due on both dates not later than February 1, 1954.

If a person, not exempt by law from the payment of poll taxes, was over 21 and under 45 years of age on one of those dates only, he must have paid the tax due on that date only not later than February 1, 1954.

If a person was 45 years of age or over on October 1, 1952, he does not have to pay any poll taxes now or at any future date.

Payment or nonpayment of any poll taxes which became due on October 1, 1951, or earlier, is not material and has no bearing whatsoever.

In addition to the payment of such poll taxes as may be required of him, if any, a person must also be registered as an elector before he is entitled to vote. owever, the payment of poll taxes and registration are seperate and independent acts. A person may pay poll taxes before registration, or he may register before paying poll taxes.

A person who is in doubt as to either his poll tax or registration status should consult the judge of probate of his county, who is the custodian of the permanent poll tax and registration records. If he is required to pay the poll tax which became due on either October 1, 1952, or October 1, 1953, or both, the same should be paid to the tax collector of his county on or before February 1, 1954. If he is not on the list of registered electors, he should make application for registration to the board of registrars of his county on any date the board is in session

Most Beautiful Gardens To Be Shown At Festival

Mobile, Ala. — Several of the South's most beautiful gardens will be open to the public during the 1954 Azalea Trail Festival, February 7 through March 31.

Mobile, "The Azalea Capital of the World," is internationally-famed for its magnificent gardens and particularly for the sixty-acre Bellingrath Gardens which is at the peak of its beauty during February and March. Located some 20 miles south of Mobile, Bellingrath Gardens is open the year 'round but has its greatest inilux of visitors during the time of the festival when azaleas and camellias are at their best.

There are more than 250,000 azalea plants in the gardens, ranging from dwaft Kurume to the giant plants of the Indica species, many of which are over 150 years old and range in size from 12 to 18 feet in height and 20 to 30 feet in diameter.

Blackshear Garden, a smaller garden but one of great beauty, is located on oak-shaded Government St. (U. S. 90) in the western section of town and is a great attraction with many azaleas and camellias, green lawns and sweeping vistas.

Also open during the festival will be nine other private gardens noted for their horticultural charm. These gardens are an additional attraction to the magnificent 35-mile Azalea Trail ablaze with mass blooms. And the entire city of Mobile during the Trail season presents an amazing show of azaleas, dogwood, redbud and other Spring flowers.

The Azalea Trail Festival is an annual project of the Mobile Junior Chamber of Commerce.

SCANNING THE NEWS

A RECENT SURVEY made to determine U. S. attitudes toward the great issues of U. S. participation in international organizations, war and peace, and our relations with the rest of the world, brought announcement of the fact that nearly three-quarters of the people in the United States feel that the surest and wisest way to strive for peace is either to work along with the United Nations or to strengthen it. A scant nine per cent of those polled believe we should pursue a strict isolationist course.

The study was underwritten by an anonymous manufacturer of defense products who did so in the express hope of "finding out, if it is possible to do so, what the American people can and will do that will help to put me out of the armaments business."

Of the 73 per cent who favor the United Nations in its present or strengthened form, 21 per cent feel we should continue to work with all international organizations in the present vein; 35 per cent feel our best chance for peace lies in a stronger United Nations; 11 per cent feel we should work for a form of world government such as a federation of all nations to constitute a single government. The nine per cent who favor isolationism feel we have already gone too far, should pull out of all international alliances and commitments.

• American people are not completely pessimistic, but 53 per cent of the people feel that another war is certain—at least within the next 25 to 30 years. Our chances of becoming involved in another world conflict vary according to where the war begins. If it comes in Europe, 81 per cent believe we cannot possibly avoid joining in. If it comes in Asia, 61 per cent feel we must get involved.

In general, most Americans feel we have made three constructive moves to avoid World War III: our programs of foreign aid; our efforts to support international organization; and our rearmament program. However, 28 per cent say we are not to be successful in our efforts to avert war by "giving away too much to other peoples," "cutting military strength" "Too much appeasement to Russia," etc.

Where the atom bomb is concerned, 82 per cent agree that another war will bring the United States serious destruction from atom bombing. About 34 per cent feel that the Russians have enough atom power to launch an attack; 35 per cent feel they do not.

• But, does Russia want war? Most observers and writers feel that Russia does not. The principal reason, they say, is that the Soviet will never risk a war she is not certain to win.

And, military weapons and troops are not the entire reason for this attitude. Russia is afraid of her own people. Millions of Red soldiers either deserted or allowed themselves to be captured by the Nazis in World War II. Two million of these refused repatriation after the war, although many were forcibly returned.

The Soviet cannot afford war at this time. Too many citizens might sympathize with the enemy and only during time of war could a successful people's revolt be carried out behind the iron curtain.

This is good, except for the fact that the Advertiser takes the position that if you think different to her you are wrong. This isn't necessarily so. However, if you think they stirred up a hornet's nest with the preachers on the liquor report by Allen Rankin, wait until the weekly newspaper editors get stirred up. You'll think they stepped in a hornet's nest.

PLAY IT SAFE

Although drivers are making wide use of Scotchlite tape on their automobiles, many others could make good use of this relatively new safety device.

For instance, bicycles, tractors and especially wagons which sometimes are used on highways or roads after dark. It would be a very simple job to apply it to any of them and would act as an extra precaution, since a light is still the best protection for traveling safely on the road in the dark.

The cost of a few feet of it is a small amount to pay for the added safety you will gain by its use.

JOIN THE MARCH OF DIMES

The first collection in behalf of the annual March of Dimes for the National Foundation for Infantile Paralysis this year was made by a four-year-old boy 19,000 feet up in the air. Delbert Dains, this year's March of Dimes poster boy, opened the year's polio fund drive with a collection of $30 on a flight from New Orleans to New York.

Passengers on the plane contributed $30 as the kick-off contribution of this year's March of Dimes campaign, which continues throughout the month.

Of all the fund drives dedicated to the task of reducing human misery and suffering, none has more appeal than the March of Dimes, which is an effort to eradicate a disease which usually attacks children, It is also true that of all the major diseases, progress in checking the ravages of polio seem nearer at hand than with any other major killer.

It might well be that 1954 marks the first year in which a fully effective vaccine is made available to large numbers of children. If that turns out to be the case, the March of Dimes fund drive might eventually curtailed.

Therefore the need this year is greater than ever before, in a drive which may not be necessary in another five or ten years. This newspaper urges its readers to start 1954 off right by contributing to a great cause in behalf of this community's, and the nation's, children.

THE FARMERS' FUTURE

T. K. Cowden, Agriculture Economics head at Michigan State College, says the American farmer has one good reason for optimism about the future. The educator points out that the rapidly increasing U. S. population guarantees an ever-enlarging market for the farmer's food and fiber products.

Pointing out that the population of the United States increases at a rate of about 2,500,000 a year, Cowden says it is estimated that the consumption of food and fiber in 1960 will be up ten per cent over current demands. He says if the American standard of living is maintained, and a fair degree of business activity continues, the farmer will probably have good markets for his products in future years because of the population increase.

Cowden expresses the belief, shared by many farm experts, that changes in agriculture in coming years will be as widespread as in the past. Research workers are just beginning to scratch the surface in finding more productive methods, better insecticides, more productive methods of preserving, harvesting and shipping food and fiber products.

We point this out because of present circumstances which seem sometimes discouraging to farmers. While the present market may not be what farmers would hope for, there is no reason to believe that industrious farmers cannot engage in profitable operations and expansion in the years to come. As long as the population is expanding at such a rapid rate, and as long as the population trend away from the farm continues, the market for goods and fibers should increase both in total volume and proportionately for each farmer.

Report from Washington

BY

ARMISTEAD SELDEN

Congressman, Sixth District

Congress reconvened last Wednesday and the President delivered his State-of-the-Union message the following day. I am sure many of you either heard or have read the President's speech.

President Eisenhower received a very friendly reception from Democrats and Republicans alike as he delivered his State-of-the-Union message to members of the House and Senate. The President's speech was a general analysis of the problems facing the United States and the various programs which the Administration will sponsor this year. However, because the speech was more general than specific, many members of Congress are withholding comment until the President has sent down positive details of his program. These will be forthcoming within the next several weeks in a series of special messages to Congress. At the time this column is printed, the first messages in the series will have been received by Congress. They will deal with labor and with the farm program.

Others To Follow—

Other special messages are scheduled to follow about a week apart and will be concerned with the Administration's health program, the budget recommendations (which will also deal with taxes), the housing program, and the annual economic report. In addition to the five specific messages already scheduled, the President says he expects to send other recommendations to Congress on such subjects as foreign aid, Social Security, mutual security treaty with Korea, and general economic preparedness against any business recession or depression.

Cotton Acreage Allotment—

Before we adjourned last August, the House of Representatives passed legislation setting the 1954 cotton acreage allotment at 22,672,000 acres. The Senate did not act on this legislation before adjournment and the House measure is still pending in that body.

In the meantime, and under existing legislation, the Secretary of Agriculture set the 1954 allotment at 17,910,448 acres which compares with a 1952 cotton acreage of 27,805,730 acres and a 1953 acreage of 25,284,600. This heavy cut in total cotton acreage has been reflected in large acreage cuts to individual producers and has naturally caused concern among the cotton producers of our district and our state.

In talking with cotton farmers throughout the Sixth District, I find the majority are dissatisfied with the method of allocating acreage on a statewide and countywide basis and feel these methods should be revised. Realizing time may be too short to enact any legislation to improve this situation before the 1954 crop has been planted, it has been suggested to me by many that the 1954 acreage be increased with the recommendation that a more equitable allocation method be devised for future years. It has been stressed by almost everyone with whom I have talked, however, that if Congress is to take action at all this year, it should do so as quickly as possible so that any acreage increase will be available before the 1954 crop is planted.

Committee Approves Bill—

Evidently the reaction has been the same in all cotton producing sections, for on the day we reconvened the Senate Agriculture Committee approved a bill fixing the 1954 cotton acreage allotment at 21,379,342 acres. This bill is scheduled to reach the Senate this week and will be substituted on the floor of the Senate for the measure passed last year by the House. Should this measure pass the Senate, it will then be sent to the House-Senate conference committee where a final compromise will be reached.

In discussing the Senate measure with reporters, Senator Aiken, Chairman of the Senate Agriculture Committee, said, "This is a fairly good bill. It won't reduce the cotton surplus any, although it will keep it from getting worse until we have time to enact more permanent legislation."

The Southern members of the House Agriculture Committee with whom I have talked do not feel the Senate Bill is as favorable to Southern cotton producers as the bill passed by the House last year. Yet they realize some compromise must be reached.

In any event, the action of the Senate Agriculture Committee indicates to me that this or similar legislation will be enacted in the near future and that the acreage allotment for 1954 will be raised from 17.9 million to approximately 21.5 million acres. If this happens, the outlook for the cotton farmers of our district for 1954 will be improved.

V.F.W. To Support Civil Defense Says Comdr. Edgar

An adequate military and civil defense program to protect the nation from any foreign aggressor, will be supported in the second session of the 83rd Congress, by the V.F.W. according to information received here by local Post Commander, Dr. J. E. Edgar.

State Commander Telfair J. Mashburn, Jr., Bay Minette, informed local V. F. W. leaders that "Our organization has long been a champion of these programs for national security, and we will reiterate our stand during January when the lawmakers reconvene in the nation's capitol."

The Veterans of Foreign Wars is celebrating National V.F.W. Week from January 24-30, and Commander Mashburn took the opportunity to cite the need for an all-round military and civil defense program, and Senators of their views on these important issues.

Mashburn pointed out that his organization believes a strong military establishment, with special empsasis on a strong Air Force, will be one of the most essential plans to thwart the threat of an attack by Russia and other belligent nations.

New Ford Boasts New "Fine Car" Riding

FORD'S NEW "FINE CAR" RIDE RESULTS FROM ITS BALL-JORNT SUSPENSION

The 1954 Ford's greatly improved, new "fine car" ride is the result of the new ball-joint front suspension—the greatest advance in chassis design in 20 years— combined with the new frame, shock absorbers, rear springs, engine mounts and a new front stabilizer.

"Only Ford in the high volume field has this modern ball-joint suspension which provides a better ride, makes the steering easier, reduces road noise and retains the "new car" feel longer than the old-fashioned king-pin type of front suspension," L. W. Smead, general sales manager of Ford Division, explained.

Benefits of the new ball-joint suspension, listed by Ford engineers, include:

Easier steering, caused by reduced friction on sealed anti-friction ball joints.

Smoother, quiter running on rough roads with less road shock because the front wheels travel up and down farther on free-action ball bearing joints. Greater directional stability with the spring-loaded ball joints reducing wear and maintaining uniform steering control.

Lower maintenance costs resulting from the wheels staying in alignment, with less tire wear and only 4 lubrication points instead of 16.

Working with the ball-joint suspension to make steering easier at all speeds and with greater stability and improved over-all handling is a new steering system employing a new symmetrical linkage. This combines with the all anti-friction-bearing type steering gear assembly and gives a lower over-all steering ratio of 25.3 to 1.

Mr. Smead said the new link-type stabilizer is a three-piece design which reduces car tilt on turns and helps keep the car on an even keel on all roads.

Ford engineers point out that there has been no basic change in the king-pin suspension design for the past 20 years and it still is used in most cars today. In the 1954 Ford this old type of suspension has been replaced with a simple, ball-joint system. The ball-joints at each end of a one-piece spindle-support arm are attached to an upper and lower control arm. The distance between ball-joints is greater than the distance between king-pin bearings in the older-type suspensions and the result is reduced bearing loads and decreased friction, making steering easier.

The ball-joints have specially shaped seats so they can't bind and are completely sealed so water and dirt cannot get in. Spring-loaded, they compensate automatically for any wear and give the right amount of friction to make handling easier.

Large rubber bushings in the upper and lower arm bearings eliminate wear and help insulate the car frame from road shock. The front wheels can be accurately aligned by the use of shims at the mounting bolts of the upper control arms--a much simpler method than in older suspensions.

Another feature of the ball-joint suspension is that longer life is assured by the elimination of 12 wearing points--six on each side of the suspension--and the elimination of 12 lubrication fittings in the ball-joint suspension system, reducing the number of fittings from 16 to only 4 points.

Other factors contributing to the 1954 Ford's greatly improved ride include: New shock absorbers, both front and rear, which give more complete control, especially on rough roads.

New 5-leaf rear springs have inserts between the tips of all leaves to control friction for smooth, uniform riding quality on smooth streets or backroads. These inserts, together with rubber bushings at the shackles and brackets eliminate the need for any lubrication at the rear suspension.

New engine mounts which include an unusual "steady rest" through which the engine is attached to the front cross-member in a rubber mounting. This contributes to a smoother ride with reduced engine vibration.

And the new front stabilizer which is atached far out on the lower control arms of the front suspension where its action is more effective. It contributes to easier handling of the car on rough roads and sharp turns.

The new 1954 Fords also have a new frame with five cross members, including the K-bar, which provides extra twist resistance. Improved brakes have stronger mountings and new heavier shoes, making stops smoother and brakes last longer than in previous models.

Unadapted hybrid corn seed result in lower yields and poor quality.

Fewer Spring Pigs Higher Hog Prices

Auburn, Ala. — Contrary to many expectations, the coming spring will see fewer pigs and higher hog prices.

In making this statement, A. W. Jones, API Extension marketing specialist, points out that hog numbers are lower after a two-year decline in farrowings. Consequently, during most of 1953 hog prices were up in response to those smaller numbers and in answer to increased demand.

"In view of this," continues the farm leader, "many had expected this year's spring crop to rise sharply because of smaller numbers and higher prices. However, if the present plans of farmers materialize, spring farrowings will bring a total of 52 million pigs—four per cent larger than the small crop of 1953 but 10 per cent lower than the average spring crop of the last 10 years."

Rarely, if ever, do producers receive as favorable prices for hogs in the heavy December marketing period as they do in August when good market hogs are scarce, adds Jones. But that's just what happened in 1953. Late in August top hogs were bringing $24 per 100 pounds. Then in the last week of December, prices again soared to the August figure. And the 1953 December price was a third higher than the $1 paid for top hogs at the end of 1952.

"All these facts add up to one thing," concludes Jones. "Increased demand and the expected small 1954 spring crop are setting up an ideal marketing situation for hog growers. With good breeding and feeding programs farmers should be able to market profitably all the quality hogs they can turn out."

Plea Made To Protect Game

Montgomery, Ala. — State Conservation Director Earl M. McGowin made a plea here today to people in areas of Alabama where deer and turkey have been stocked recently to help protect them against game violators.

Of a total of 15 deer and six turkeys released recently in the Barbour County Management Area near Clayton, Alabama, conservation Officers know of at least one illegal deer kill and believe there may have been another.

Deer and turkeys are released in areas where there is no native stock to raise young and provide hunting. Unless these released animals are protected the stocking cannot be successful and there will be no point in further releases, McGowin said.

"Violators who kill these released animals are only hurting themselves and other hunters in their counties," McGowin stated. "Only a few deer or turkeys can be released in any one area and if these are killed right away then the area concerned loses a chance to have a permanent population of these animals and possible good annual hunting," he said.

Deer and turkey have also been released during the year in the Coosa Game Management Area in Coosa County and in Butler Game Management Area in Butler County.

Christmas of 1953 has come and gone. Many hearts were made happy, especially by the visit of Santa Claus, to each of us. Many renewals of friendship were made by the exchange of greeting cards, and many family get-to-gethers were enjoyed, also.

Mr. Sidney Hudson, a student of Bob Jones College, S. C., is spending the Christmas holidays with his parents, Mr. and Mrs. W. F. Hudson. Another son, David Earl, who is also a student at Bob Jones, has returned after a visit with his parents.

Mr. and Mrs. Joe Waller, Jackie and Joe, of Panama City were here with his mother, Mrs. Florence Waller, and other relatives during the holidays. Another son, Jerry, and his wife, Mary, from Atlanta have returned to their home, having come over a few days before Christmas. Her daughter, Virginia, was here a short while with her Christmas Day.

Mr. and Mrs. Aaron Nelson, and Patsy Ann of Montgomery are the guests of her parents, Mr. and Mrs. J. C. McGalliard, this week.

Mr. Russell Jones of Detroit, Mich., was here with his family during the holidays. They had for their guests during the holiday season: his sister and her family, Mr. and Mrs. Tom Ballenger and little Tom of Anniston; his brother, Mr. and Mrs. Hugh Jones and Milton of Birmingham; and Mr. and Mrs. Jimmy Kyser of Birmingham.

Mr. and Mrs. Fred Gandy of San Antonio, Texas, are enjoying a two week's visit with her parents, Mr. and Mrs. John Cooper, John and Jack.

Mr. Howard Gulledge is being welcomed home on a two week's leave from the Navy, stationed in California. His surprise visit was quite a Christmas gift to his parents, Mr. and Mrs. T. M. Gulledge, and his grandmother, Mrs. Mattie Dennis.

Mr. Albert Grant of Detroit, Mr. and Mrs. Brady Jones, Brenda and Sidney of Childersburg, Mr. and Mrs. Herbert Neeley and Jackie of Birmingham, have been visiting their parents, Mr. and Mrs. E. F. Grant. Their son, Leslie, was here earlier in the week with his parents but returned to Knoxville Wednesday. Leslie and Miss Martha Anderson, of Knoxville, were married Thursday evening. Leslie is a fine young man and his many friends wish him much happiness and joy.

Mr. and Mrs. Buster Pierce, who is with the Marines stationed at Jacksonville, N. C., were here with his mother, Mrs. Viola Price, during the holidays.

Mr. and Mrs. Harris Hudson and Charlie were dinner guests of Mr. and Mrs. Marion McGalliard on Christmas Eve. They enjoyed an exchange of gifts with Charlie acting as Santa Claus.

Church News—

A beautiful pageant based on the Christmas Story, under the direction of the pastor, Ronald Crossley, was beautifully given Wednesday night, at 7:30. Those taking part did a good job and it was enjoyed by all.

Ronald's grandmother, Mrs. Griffin, and a friend, Miss June Handley, of Anniston were visitors to our church Wednesday night. We welcome them back any time.

Visiting Mr. and Mrs. Harris Hudson for Christmas dinner were his sister, Mrs. J. B. Mosely, and Mr. Mosely from Montgomery and Mr. and Mrs. Marion McGalliard.

The friends of Mrs. T. H. Hudson are glad to know her sister, Mrs. Betty Jo Farmer, who has been critically ill for some time in an Army hospital in Virginia, is greatly improved and is here visiting her mother, sister, and other relatives.

Mr. and Mrs. Ralph Jackson, Rudolph, Aleck, and Wayne spent Christmas Day with his parents, Mr. and Mrs. A. A. Jackson.

Mr. and Mrs. Norman Hand and children of Cullman visited during the holidays with his father, Mr. J. W. Hand, and Ray, also with Mr. and Mrs. W. F. Hudson.

Mr. E. M. McGalliard, Clyde Ray McGalliard, and Sidney Hudson attended the Blue and Gray Football Game in Montgomery Saturday.

Charles Harris Hudson visited his cousin, David Connell, in Montgomery during the week.

Mr. and Mrs. Clyde Owens, Bobby and Wayne, of Birmingham visited her aunt and uncle, Mr. and Mrs. Marion McGalliard. Also guests of the McGalliards during the holidays were Mr. and Mrs. H. A. Norton, Don, Bill and Jane of Montgomery.

Mrs. Maud Norris, Mrs. Robert Stephens, and Bobby of Montgomery were guests of Mrs. Russell Jones during the week.

Murray Anderson of Birmingham is down this week with his uncle, Austin Anderson, and other relatives.

Mr. and Mrs. Ralph Pinson and Penny of Montgomery were calling on friends here Saturday.

The Missus Keeps Posted

Ever since our electricity was cut off last year on account of me forgetting to mail in the payment, the Missus has been sort of leery about giving me letters to mail.

At first she'd ask if I mailed them, then double-check my coat pocket at night. She stopped that, and I figured she was convinced I'd learned my lesson.

Then yesterday, I got a postcard at the office in a familiar handwriting. I turned it over and by golly it was from the Missus herself! It read: "Thanks, Joe, for mailing my letters." Well!

Looks like she figured I *still* needed some checking-up and slipped that postcard in the last batch of letters.

From where I sit, an occasional check-up is a good thing. Check-ups on just how tolerant we are of other people's preferences and tastes, for example. I like a glass of beer with supper, you may prefer milk—but if I ever try to switch you to my choice, simply "address" me with a reminder of your rights.

Folks and Things ABOUT TOWN

—By Ben

We want to "out Vulcan" Vulcan this week in heaping praise on one of Birmingham's fine citizens, one Mr. Clifford A. Hall. Mr. Hall is General Agent Passenger Department of the Frisco Railroad and let us add, just about one of the nicest gentlemen it has been our pleasure to come in contact with for many a day. Mr. Hall was responsible for the wife's accommodations on her trip to Memphis recently and he certainly went out of his way to make friends for the Frisco. Our deepest appreciation to Mr. Hall and to the Frisco Railroad on their personal attention to theiir customers.

A very fine citizen of our community asked us this week why trees hadn't been planted at the play ground at City Park for the kiddies to play under. Now why such a thing should come to mind in this kind of weather we don't know, unless it is just because the person who was interested is a very thoughtful person, be it winter or summer. Anyway, we believe the Garden Club has a project for beautifying the City Park playground and we believe some work has already been done on this project. However, some nice large trees do need to be set out down there. In the heat of summer it is too hot for the children to play there unless it is very early, or late, in the day. And after all planting large trees now, and with present-day facilities, isn't too big a project.

Sorry to learn of the death at Maplesville of J. O. (Jimmie) Mize. We say "Jimmie" Mize for that is the name we always heard our Dad, the late Mark Tucker, use in speaking of him. Dad and Jimmie grew up together in Bibb County and were friends for more than half a century. Our deepest respects to the family in their great loss.

Alright you citizens of Chilton County come on and get yourself registered to vote if you haven't done so in the past. If you were 45 years of age before Oct. 1, 1952, you do not owe any poll tax at all. All you need do is to go to the courthouse and register. If you are younger and haven't been voting then all you need do is to register and pay two years poll tax ($3.00) and you can vote. Now is the time, In a few weeks it will be too late. The deadline is Feb. 1st.

Well, as the fellow said when he left the party: "I feel a lot more like I do now than when I got here."

The State of Alabama, Chilton County
In Equity December 1953

Hurtilene Culp, Complainant, vs. James Harmon Culp, Defendant.

In this cause it is made to appear to the Register by the affidavit of J. B. Atkinson, Attorney of record for Hurtilene Culp that the Defendant is a non-resident, and that his place of residence and post office address is unknown, and that such address cannot be ascertained after reasonable effort, and, further, that, in the belief of said affiant, the Defendant is of the age of twenty-one years:

It is therefore, ordered by the Register that publication be made in the Chilton County News, a newspaper published in the County of Chilton, once a week for four consecutive weeks, requiring him, the said James Harmon Culp to plead, answer, or demur to the bill of complaint in this cause by the 1st day of February, 1954, or, in thirty days there after, a decree pro confesso may be taken against him.

The Memphis & Charleston ran east and west through the Tenn. Valley, giving the Valley direct connections with the Mississippi basin and the Atlantic seaboard. The Georgia Pacific, passing from Atlanta through Anniston and Birmingham to Columbus and Greenville, Mississippi, gave the mineral region similar connections. The St. Louis & San Francisco gave Birmingham and the north western part of the State contact with Memphis and the great Northwest.

He would appreciate hearing from his old friends. His address is Pvt. John E. Culp US 53201238 Co. D. Class 148, TAGS Ft. Benjamin Harrison, Ind.

To Honorable Oakley W. Melton, as Judge of Said Court:

We, the Grand Jury, empannelled for the January Term of the Circuit Court, after receiving your Honor's most able charge, entered upon our investigations of the matters that came before us as Grand Jurors, and herewith submit the following report:

During our investigations we have considered 16, cases, and have examined 25 witnesses, and are returning herewith 16 true bills.

We have made a personal inspection of the County Jail, and believe it to be sufficiently safe for the keeping of the prisoners, and find that the prisoners therein are being well fed and cared for with reasonable comfort.

We have examined the Fee Book of the Probate Judge, and find it neatly kept and correct insofar as we were able to ascertain. We have examined the bonds of the various County officials, and find that they are ample for the protection of the public, and in our examination of the Sheriff's account with the State for feeding prisoners, we find that it is being kept in accordance with the law. On our examination of the Office of the County Superintendent of Education, we find that his books, records, and papers are neatly kept and insofar as we ascertained were being kept fully in accordance with the law.

The Grand Jury wishes especially to commend Sheriff, J. L. Kendrick and his deputies for the able and efficient manner in which they are discharging their official duties. The Grand Jury observed that all criminal investigating agencies of our State and of the Federal Government work in complete harmony with Sheriff Kendrick which we believe could not be possible unless our Sheriff was endeavoring to intelligently and decently enforce the law. We observed with a deep pride that we were not called upon to investigate a murder. The Grand Jury feels that the people of our County should continue to give to our Sheriff and his deputies their cooperation and lend their aid in every way possible to try to make our County a better place in which to live and rear our children.

The Grand Jury also wishes to commend the efficiency of the bailiff of the Grand Jury, Mr. Plyler, in the performance of his duties, who has rendered to us valuable assistance during our investigations.

We, having complied to the best of our ability with your Honor's charge, respectfully ask that we now be dismissed until such time as your Honor may see fit and think proper to have us again convene.

This the 13th day of January, 1954.

BE SURE YOU ARE REGISTERED IN THE BEAT IN WHICH YOU LIVE

Probate Judge Dave Tingle is adding several hundred voters to the list of qualified voters of Chilton County this week. He is interested in geting every name in it's proper voting place but he cannot do it without your help.

For instance if you registered several years ago but have fallen behind in your poll tax payments, and have now reached the age of 47 years, you don't owe any poll tax but you are eligible to vote. However, and here is what is worrying the Judge, are you still living in the Beat in which you lived when you last voted? If you do, then it is all well and good. But, if you do not, then you must go to the Probate Office and get them to move your name to the Beat in which you NOW live. Simple, isn't it? Well, that's all there is to it, so get it attended to NOW!

James E. (Big Jim) Folsom

James E. Folsom Will Make Race For Governor

Bryant School, Jackson County, Alabama—James E. Folsom all but officially threw his hat into the race for governor today when he addressed the people of the Bryant community, 3 miles from the Tennessee border in the extreme northeast part of Alabama, at the Bryant School, stating that support from all sections of Alabama was good. Folsom told the people of Bryant if that support continued he would qualify for governor after the State Democratic Committee meets. Said Folsom, "I am deeply grateful for the increasing support for governor I have received over the last three years."

Folsom pointed out that his financial status is an open book. Folsom said that he filed his statement with the Probate Judge of Cullman County in February, 1951, one month after he was out of office. He stated that he would place his present financial statement on file in the Cullman County Court House when he qualifys as a public record for all to see. Said Folsom, "I did not gain one red cent from holding the office of governor. In fact, I spent some of my savings to uphold the office. During my term as governor I had a small gain in net worth, all of which was for the increase in value of my insurance company's stock and from private sale. Most of this was used to care for my wife and children while I again got re-established in private business."

Big Jim pointed out that the major issue of this campaign will be the unfinished business of his administration. First mentioned on his list was the holding of a constitutional convention to give the people "Fair Votes" in proportional presentation. Next Folsom stressed the necessity of building mail box roads, universal old age pensions, establishing jury service for women and in finding a solution to the educational segregation problem.

Pointing to his past record Folsom stated that he built more mail box roads than any other governor; put more people under old age pensions. He pointed out that under his administration the first full nine month term of school was established in Alabama. Winding up his talk, Big Jim told the people that he encouraged business and industry in the past and would do so in the future. He mentioned the new Childersburg Paper Mill and the New Chemical and Grain Industries in Mobile as industrial progress during his past administration.

Rumors Are Flying-

The Political Pot Is Beginning To Boil

RESOLUTION BY THE OFFICIALS OF CLANTON

WHEREAS, Coosa River lies along the east side of Chilton County and the citizens of this county as well as the State of Alabama are vitally interested in its development for navigation purposes; Whereas, two of the hydro-electric plants, Lay Dam and Mitchell Dam, are located along the east boundary of Chilton County and on said Coosa River and said plants have greatly benefitted not only Chilton County but our State in furnishing electric power and the development of the area adjoining said river for recreational purposes;

WHEREAS, the Alabama Power Company has proposed to build 5 additional dams on Coosa River, which, with its existing dams, will make possible the completion of the development of Coosa River for power and navigation purposes and which will add greatly to the development of this county and area as well as Alabama in general.

WHEREAS, the City Council of the City of Clanton, located some 12 miles from Coosa River, is vitally interested in its development, and is familiar with the proposal of the Alabama Power Company, and this City has enjoyed the full confidence in the proven ability of this company since the year 1912, when there was first commenced the erection of Lay Dam, and,

WHEREAS, Congressional action is necessary before said Alabama Power Company can proceed with this proposed development.

NOW THEREFORE BE IT RESOLVED, by the City Council of the City of Clanton as follows:

1. That the City Council of the City of Clanton is highly in favor of and approves the proposal of the Alabama Power Company and commends said Company for its willingness to spend large sums of money necessary to go forward with the development of the Coosa River, and it does hereby strongly urge Congress and our Senators and Representatives to take the necessary action, so that said Alabama Power Company may proceed with this great development without delay.

2. That a copy of this resolution be sent to the Senators and Representatives in Congress from Alabama and to the Alabama Power Company at Birmingham, Alabama, and a copy of this resolution be furnished to the Chilton County News and The Union-Banner, newspapers published in Chilton County.

READ, ADOPTED AND APPROVED unanimously by the City Council and the Mayor of the City of Clanton at its meeting held in the City Hall Building on the 12th day of January, 1954.

C. FENN JONES
Mayor.
Attest:
MARINE B. HARRIS
Clerk.

Selden Introduces Bill To Settle Old Boundary Dispute

A resolution designed to settle the question of the exact location of the Alabama-Florida boundary line along the Perdido River was introduced in the U. S. House of Representatives today by Alabama's Rep. Armistead Selden.

For many years the bounary line between the State of Alabama and the State of Florida along the mouth of the Perdido River has been in question due to the movement of the River. Neither the officials of the State of Alabama nor the officials of the State of Florida knew its exact location.

Last year the governors of Alabama and Florida appointed a special commission to study the problem. Recommendations for a fixed boundary line, described by longitude and latitude, were made by the commission to the two state legislatures. Both state governing bodies accepted the commission's recommendations and passed acts which defined a positive boundary line.

Congressman Selden's resolution, if adopted, will give the consent of Congress to the establishment of the bounary that has been agreed upon by the states of Alabama and Florida.

"I do not anticipate any difficulty in securing the passage of this resolution," Representative Selden said, "as I feel certain the members of both the Alabama and Florida delegations will favor it."

MR. HARRY BAILEY ROPER

Harry Bailey Roper, age 82, died at his home on Route 3, at 9 a.m. on Jan. 6th. He was the son of Joe and Rebecca Mahan Roper.

Funeral services were held at 2 p.m. on Thursday, Jan. 7, from the Clanton Methodist Church with the Revs. Marvin Vickers, Paul Oden, and Ezell, officiating, and Spigener Funeral Home directing. Burial was in Clanton Cemetery.

Surviving is the widow, Mrs. Lula Roper; three sons, C. M., of Louisville, Ky., Bert of Clanton and H. A. of Birmingham; One daughter, Mrs. L. H. Martin of Bessemer; three brothers, Willie Roper of Clanton, Milton Roper of Tuskegee and A. M. Roper of Dallas, Texas; two sisters, Mrs. J. H. Williams and Mrs. J. F. Apperson, both of Clanton.

Pallbearers were: Joe Mullins, Grady Heflin, John Mullins, M. C. Sutley, Joe Calloway, and Jim Armstrong.

Local politics are warming up and from here it looks like there will be plenty of candidates in the various races for county, as well as state, offices when election time comes around.

On the local scene there will be nine offices contested for besides the members of the Board of Education and the Members of the Democratic Executive Committee, should anyone qualify for that post. Offices to be filled in the elections this year are: Sheriff; Places 1 and 2, on the Board of Revenue and Control, Tax Collector, Tax Assessor, County Superintendent of Education, Representative, County Solicitor and Circuit Solicitor.

In the sheriffs race there has been several names mentioned. It is definite that the present Sheriff J. Luther Kendrick will be a candidate for another term and he stated Wednesday that he would qualify with the Chairman of the Democratic Executive Committee at the proper time. Ernest Davis has been mentioned as a probable candidate as has Odelle Payton and Ellis El-Elison. Davis has made the race once before and is well known in all parts of the county.

In the race of Member of the Board of Revenue and Control Lonnie Cost has declared his intentions of running against Jack Lenoir, present Member. In place No. 2, now held by Harold Smith a report is going the rounds that Quinton Cummings will be a candidate to oppose Smith.

In the Tax Collector's race it looks like the race will be between M. C. (Jack) Hayes and E. A. (Red) Fulmer.

Several have been mentioned as probable candidates for the office of Tax Assessor. N. L. (Buck) Roberts will probably be a candidate to succeed himself. Also Clint Carlisle. Bolden Robinson and Smolen Thornton have been mentioned as candidates within the past few weeks.

In the County Superintendent of Education race it looks like Howard Boockholdt will be unopposed. So far as the writer knows no opposition has lifted its head.

Jim Plott, present Representative will be a candidate to succeed himself and according to latest reports Francis Speaks will make the race to unseat him. There may be other candidates for this office to announce their intentions later.

The office of County Solicitor and Circuit Solicitor will also be contested in this year's elections. A. B. Foshee will be a candidate to succeed himself and Bud Gerald has been mentioned as a possible contestant for this office. Possible candidates for the office of Circuit Solicitor are incumbent Winston Huddleston and Gleen Curlee. Curlee made the race against Huddleston four years ago.

Names mentioned here are only possible candidates for the various offices to be contested for in the Primary and in the General Election next Fall. More probably will be added as interest grows in the different races and some of those mentioned will decide against making a political race. But no matter who qualifies or who decides against it, you can depend on this being a lively political year.

AA WILL OBSERVE FOURTH ANNIVERSARY SUNDAY

The local Alcoholics Anonymous group will observe their fourth anniversary in Clanton with a special public meeting at the City Hall this Sunday afternoon at 3:00 o'clock. A prominent attorney from Tuscaloosa will be the guest speaker, and there will also be a lady speaker from Tuscaloosa.

The public has a cordial invitation to attend this meeting with the members of the local AA.

BUSINESS PICK-UP BY APRIL

The Federal Reserve Board, in issuing its revised monthly index of industrial production in December, has come up with optimistic news. Officials say the latest index indicates the business level-off in the last half of 1953 was a deceptive one.

The Board supported the opinion of the Administrative experts who believe business in 1954 will pick up by mid-year. The Board found that the leveling-off point reached by many businesses in '53 was less severe than many have supposed, and also that the levelling-off was partly a result of inventory adjustments.

This inventory adjustment process is the same which made the 1948-49 recession appear to be more of a general economic decline than it actually was. Federal Reserve Board officials say the latest index might mean a business pick-up by April of 1954.

The Board says the peak of the 1953 boom occured in July, when the industrial production index reached 17. A decline from the July peak was also found to have been less than was previously supposed. The Board's findings coincide very closely with those of the Administration's economy experts, who assert that 1954 will be another good business year and that most Americans, and most American businesses, will enjoy profits and conditions which will be close to satisfactory levels of 1953.

THE NATION'S HEALTH IMPROVES

A major insurance company reported recently the 1953 death rate had averaged 6 per 1,000 inhabitants. This matched the rate in 1952—which was a record low rate.

For six years now the death rate in the United States has been below ten per 1,000 inhabitants. As medical treatments and advances are reported, medical science is reducing the death rate proportionately.

The greatest factor in the low death rates in 1952 and 1953 has been the reduction achieved in the mortality rate from tuberculosis. As an example of how new treatments have reduced deaths from this disease, statisticians figures show that in 1953 the mortality rate from tuberculosis was less than thirteen persons per 100,000 population! In 1949—only a few years ago—the death rate was more than twice that, or more than 26 persons per 100,000 population.

The death rate from pneumonia has been sharply whittled in recent years, as well, and there is now some promise that the death rate from polio will be reduced. New anti-coagulent drugs also hold out the hope that the deaths resulting from strokes and heart ailments might be reduced in the next few years.

Altogether then, the health record of the people of the United States is the best it has ever been and while such diseases as cancer, heart disease, mental disease and others continue to exact a heavy toll, your chances for survival today—amidst the many germs and diseases that attack the human animal—are the best in history.

ideas from other editors

From the South Pasadena Review, South Pasadena, California: In the comparatively recent past the local newspaper was about the only place where merchants could advertise their wares. Since then, other important media have come into existence—notably the radio and television. But, despite the inroads these have made on retailers' advertising budgets, the newspaper is still the dominant factor in the field by a wide margin.

The local newspaper offers the surest means of reaching the masses of the people—whether with a news story or an editorial opinion or an advertising message. And that's why merchants place it first when dividing up their advertising appropriations.

Incidentally, one wonders if there are still people who regard advertising as a waste which adds unnecessarily to the cost of goods. Actually, advertising acts as a possible factor in holding prices down by creating the widest possible demand for merchandise, thus making mass production and mass distribution possible.

• • •

From the Iron Ore and Reflector, East Lansing, Michigan: Various polls of public opinion and studies made by the American Legion, the American Bar Association, outstanding newspapers and universities show the shocking ignorance of the basic principles which have made America. For example, one poll shows that only one in four knows what the Bill of Rights is; another poll reveals only three in ten know the difference between enterprise and state socialism; another that 65 per cent of wage earners believe that more is paid by corporation to stockholders than to workers. In addition, millions believe that "5 per cent" of the people own 95 per cent of the wealth. It's plain that so long as these beliefs are current and these ignorances prevail, the American system is in danger.

From the Arvada Enterprise, Arvada, Colorado: Apparently the battle for Republican leadership between President Eisenhower and Senator Joe McCarthy has begun. If the winner of this battle is to become the Republican party's presidential candidate in 1956, I hope that Eisenhower is the winner.

As a Democrat, I believe McCarthy would be an easy candidate to beat, but as an American citizen, I'd hate to think that anybody as irresponsible as the Senator has proven himself to be, might become the head of this great nation of ours.

A NOTE OF GRATITUDE TO CITY'S FIRE DEPARTMENT

We wish to express our sincere gratitude to the Mayor and Fire Department of the City of Clanton for helping us to combat the fire that destroyed several poultry houses, more than one hundred laying hens, and a truck last week. Had we not had the services of the Fire Department, our losses would have been much heavier.

"I REMEMBER"
BY THE OLD TIMERS

From Mrs. Walter Olson, Forest Grove, Oregon: I remember as a child my folks immigrated into the southern prairies of Saskatchewan, Canada.

We children would go after the cows in the evening. Because there were no fences and an open herd law, the cows went in any direction they wished to graze. We often walked into buffalo (bison) trails and were ever alert for buffalo horns. Most of the time we were rewarded. We had any number of them, and in pairs.

My dad polished some of them for ornaments and, to my knowledge, none were saved as they were too common-place. What would I give for that sack of buffalo horns today!

From C. E. Jett, Marietta, Georgia: I remember when I was a small boy—we ate corn bread for breakfast six days a week and biscuits for breakfast on Sunday morning.

In the winter, six of us kids went nearly two miles to school. The ground was frozen and I had no shoes. I waited until the other kids who had shoes to wear were way ahead, then I would start to run and run all the way to keep my feet warm. This was in Osage county, Missouri, at the Phelps school house.

• • •

From Mrs. D. A. Newland, Fort Worth, Texas: I am 77 years old and remember when we had to go to a cold kitchen, light a wood stove, grind coffee, make biscuits with icy milk and lard, then slice bacon before breakfast.

YOUR Health

"Your Health" is presented by your physician and the health service of the Medical Association of the State of Alabama.

Drive Safely

Every person who drives a car has a deadly weapon in his hands, which, if not properly handled, may make him a killer. In many instances, mere carelessness may result in injury or death. A desire for haste to get somewhere, wanting to beat the traffic signal, or just plain nervous impatience may be the determining factor.

With new traffic tragedies being reported every day, it is important to emphasize the danger, to issue new warnings, and to remind careless drivers that they may be responsible for death, permanent injury, and lifelong unhappiness.

Even though the machinery of the automobile is in good running order, the physical condition of the driver is of great importance. Many accidents occur because the driver is not up to par physically perhaps due to illness, fatigue or hunger. These conditions can slow up the thinking state so that the mental judgment of distance is impaired and the swift action necessary to control an emergency is absent or retarded.

If you've had even one drink of an alcoholic beverage, don't drive. Let someone else do it, or wait until your mind is clear before you attempt it yourself.

Endless tragedy can result from fast driving. Head-on collisions, sideswiping and skidding into a pedestrain or another car can be avoided if speed is kept moderate, permitting control of the car.

Check the state of your health before you take the car out. If you are tired and prone to fall asleep at the wheel, don't drive. It will be better to delay your time than to arrive in an ambulance dead or injured. A short rest may be all that is needed to drive on safely.

Traffic accidents are preventable. Remember you may be next in the toll of casualties. If the law does not demand a physical examination to drive a car, take the responsibility on yourself—for your own safety and that of everyone else. Then use caution.

369 LIQUOR STILLS DESTROYED IN DECEMBER

Montgomery, Ala.—Federal-State and local law enforcement officials destroyed 369 liquor stills in Alabama last month.

Joseph T. Burton, chief of the Alabama ABC enforcement division, said that in addition to the stills put out of business, 3857 gallons of mash were destroyed.

Officers made 263 arrests during their December raids.

(By William Crowe)

THE WILL FOR THE DEED

"But the Lord said unto David, "For as much as it was in thine heart to build an house for my name, thou didst well in that it was in thine heart."—II Chronicles 6:8.

As was Alfred the Great to his native England in its struggle to attain the stature of a nation, so was the good king David to little Israel in its effort to free itself from threatening heathen enemies. The record of David's sagacious leadership and patriotic devotion commands the admiration of Bible students to this good day.

The devout king was not satisfied however, with mere material advance for his beloved people, but beyond all that he was beset with a longing that his reign might find its climax in the erection of a permanent temple to the glory of the God of Israel. But he was not permitted to see the substance of his dream realized in an imposing structure, with the accompanying adornments of gold and costly gems, the richest offerings that the mines of earth could provide. While God ordained otherwise, nevertheless he accepted the king's sacred desire as a complete substitute for the finished work. The will to build the temple was regarded as a deed built. "Thou didst well in that it was in thine heart."

God rewards a hallowed purpose and desire, even though it may not result in actual accomplishment during the earthly span of the worker's life. David Livingstone's body rests in Westminister Abbey, but his heart was buried in African soil by the hands of his ebon-skinned friends. The revered pioneer for the Kingdom of God never lived to see the fruitage of his lonely pilgrimage through the jungles of the Dark Continent, but a million intelligent native Christians today bear testimony to the fact that Livingstone did not dream in vain. As he walks on the tablelands of heaven, he, along with David of old, hears a voice saying, "Thou didst well in that it was in thine heart."

A Christian's aspiration is honored as well as the work itself. For God will see to it that his dreams come true. In the meantime the Commissioner rewards the will to do, as He honors the deed. Jowett has said, "The wish to do is good in itself. The very longing is a minister in the kingdom of our God. If therefore, we are to be judged by our aspirations, there are multitudes of apparent failures who will one day be revealed as clothed in the radiance of spiritual victory."

Within a few years after the good king died the temple was built. For six hundred years it stood in matchless splendor, symbolic of God's desire to dwell among His people. It was known as Solomon's Temple, for Solomon the Wise, the son of David the Good, was its architect and master builder. But let it be remembered that Solomon would never have built it had he not fallen heir to his father's sacred aspiration.

So, beyond the apparent frustration of a hallowed intention there comes a surprising fulfillment.

This Friday, January 15, Isabella plays Jemison here at home. On Tuesday, January 19, Isabella will play Prattville here. Join us at the games.

One of Isabella's eleventh grade students, Cathryn Jones, was injured in an automobile accident Saturday. She is in the Central Alabama Hospital in a serious condition.

Friday, January 8, marked the end of the first semester. Only one more semester to go until summer vacations.

Skits and music were presented in Chapel Friday by the ninth grade under the leadership of Mrs. Jack Tucker. Bro. J. W. Jones was a visitor. Our Principal, Mr. J. C. White urged the students to invite their pastors to visit them in Chapel on Fridays at 10:10 A. M. or at any time during school hours.

Isabella P—T. A—

The Parent—Teachers Association met in the school auditorium on Monday, January 11, with a large audience present. There were visitors from Maplesville, Clanton, Thorsby and surrounding communities.

Malcolm Lecroy, the President called the meeting to order at 7:15 P. M. The devotional was given by Rev. J. W. Jones. The minutes of the previous meeting were read by the Secretary, Mrs. J. M. Bowles. The Treasurer's report was given by Mr. J. C. White. The Glee Club gave two numbers in song. A solo was sung by Randall Veazey.

Miss Louise Foshee announced that the Chilton County P-T.A Council will meet at Chilton County High, Monday, January 18, 7:P. M.

Mr. White introduced the guest speaker of the evening. Dr. D. P. Culp made a very interesting talk using as his subject "The Neccesity of a Second Mind."

Refreshments of home-made cake and coffee were served by the refreshment committee. Mrs. Winston Culp, Mrs. W. L. Henley, Mrs. A. R. Scott, Mrs. Sam Wilson and others were on the committee.

The next P-T.A meeting will be February 8 at 7:P. M.

F. H. A. News—

R. L. Foshee of the Navy entertained the Isabella chapter of F. H. A. at a recent meeting. He showed pictures, crafts, and ceramics from Haiti, France, Spain and Italy. He told many interesting things about their standard of living and their interests.

R. L. is a former student of Isabella High. His training goes on with an idea of service to others. We will be looking forward to another visit from him when he is home again on leave.

From September 1, to December 31 the members of the Isabella Chapter of F. H. A. have been busy with a number of activities. Ophelia Conway, the president, states that the activities and accomplishments of this club during this period include participation in County Fair exhibits, chapel program, two one-act plays, FHA week, broadcast over WKLF and other activities. We have named our mission the try mission because if at first we don't succeed in completing our mission project, we will try again. "It isn't your ability or inability in the Lords work that counts, but your availability." Please let us hear each week what your Church is doing on its project. So that we may mention it in our article in each weeks paper.

Meet us at Samaria January 19 at 1:30 P. M.

Chilton Unity W. M. U. Community Mission Chairman,
Mrs. Billy Dykes

All but three of the main lines passed through the mineral belt. The three were the Mobile & Ohio, the Atlantic Coast Line, and the Western Railroad of Alabama. And the M & O, just at the end of the period, reached the Warrior and Cahaba coal fields by construction of a branch line from Artesia, Miss. via Columbus to Montgomery.

TAX COLLECTIONS TAKE TUMBLE

Montgomery, Ala.—State Revenue Commissioner Joe M. Edwards says Alabama tax collects tumbled downward in December.

Collections for 1953's final month were $10,965,015. That was down $583,737, from the $11,548,752 collected in the same month a year ago.

However, the total tax take for the first three months of this fiscal year is above that for the similar period last year. The department took in $35,068,731 during the three months, compared to $34,716,378 a year ago—$352,353 hike.

Fabulous old One-Eye Connelly, the world champion gate-crasher, cashed in his chips last week. St. Pete, you'd better keep an eye on those golden gates for the next week or so.

Mt. Pleasant News

Rev. George Hamm, pastor

John 3:16; God so loved the world that he gave his only begotten son, that whosoever believeth in him should not perish, but have everlasting life.

Rev. George Hamm brought us two fine sermons. He made a statement that is very true and should be followed by all. When we bury the hatchet we should bury the handle also, so that someone can not come along and dig it up again. We believe there should have been many Amens to this statement.

Mrs. Dorothy (Minor) Foshee has been on the sick list. We wish for her a speedy recovery.

Several members of our church attended the WMU Quarterly meeting at Thorsby Baptist Church. They all reported a fine meeting and dinner.

Mr. and Mrs. Charles Riggins had as their Sunday guests Rev. and Mrs. Hamm and family, Kathleen and Ollie Kendrick, Mrs. Lonza Oaks, and Mr. and Mrs. Russell Oaks and children.

Mrs. Jim Powell has been quite ill, but is slowly improving. Let's all pray for sick friends and neighbors.

Don't forget prayer service Thursday night. Come praying.

Mrs. Peggy (Scott) Harris has moved to Birmingham. This church especially will miss Peggy. She has been our pianist for several years.

They tell me our minister received a new telephone from two nice people, Mr. and Mrs. Clint McGee. We'll be calling you Rev. and Mrs. Hamm.

We are happy over the fact that Dewey Oates eye operation is a success. And we see a nice, happy simle on his face.

Watch this paper for our January singing date and plan to be with us.

Mt. Pleasant welcomes one and all. Come visit us. We were happy to see Marshall Wesson. We have missed him.

Hobo Party Held At First Methodist Church

On Friday night, January 8, the girls of the Junior Department of the First Methodist Church entertained the boys of the Junior Department with a "hobo" party.

The girls requested that the boys come dressed as girls. A beauty contest was conducted with Tommy Tiffin winning the beauty title of being the most beautiful present.

After knocking on the back doors of the homes of Mrs. O. H. Carter, Mrs. R. C. Williams, Mrs. Buck Tucker and Mrs. Marvin Vickers, the hobos asked for their suppers. Carrying all the food back to the basement of the church, the group ate together in hobo fashion. Games were enjoyed afterward.

The hobos present for the fun were, Tommy Tiffin, Jerry Gray, Alex Jones, Marvin Vickers, Jr., Norman Roberts, Larry Buckner, Bubba Deason, Gloria Deason, Mary Kate Tucker, Lynn Williams, Faye Dailey and Paula Campbell.

The adults assisting with the party were Mrs. Buck Tucker, Mrs. Joe Campbell, Mrs. Ervin Dailey, and Anne Dailey.

Landscape Architect Was Guest Of Garden Club

The Garden Club of Clanton held it's regular monthly meeting at 2 on January 12, at the home of Mrs. L. D. Easterling.

Mrs. Bill Eiland, president, presided over the business meeting during which time plans were discussed and made for a community cleanup campaign which the Garden Club is going to sponsor in the near future. More about the campaign can be learned from later editions of this newspaper.

Mr. Charles L. Clemons, Jr., of Montgomery who is the state landscape architect, was the guest of the club. Mr. Clemons spoke on the beautification of the city park. He said that such a project would be a large undertaking but it was possible with the help and co-operation of each and every citizen. Mr. Clemons offered his services in giving a plan of landscaping for the park.

Four honorary members of the Garden Club were present. They were Mrs. Samuel E. Johnson, Mrs. Otto Jones, Mrs. Grady Heflin, and Mrs. Omar Reynolds.

The group enjoyed delightful refreshments served by the hostess, Mrs. L. D. Easterling, Jr., and the co-hostess, Mrs. Guy McKee.

Methodist Young Folk Hold Sub-District Meet

The sub-district of the MYF met at the First Methodist Church on January 11, at 7:15 p.m.

The theme of the program was, "Youth World Missions." This was led by Miss Helen Parrish. Taking part on the program were: Michael Haywood, Gordon Robertson, and Marietta Propst. Accompanist for the meeting was Janice Young. Recreation was under the leadership of Pat Buckner. Pat Broadhead was in charge of the refreshments.

The churches that were represented and the number from each who came to the meeting were as follows: Clanton First Methodist—17; Autaugaville—11; Prattville—10; Speigner—8; Mt. Nebo—7; Pleasant Grove—6; and Verbena—2.

The pastors present were: Rev. J. C. Brown of the Clanton District; Rev. G. O. Hughen from Verbena; and Rev. M. K. Vickers of Clanton.

C. C. H. S. Parent and Teachers Held Meeting

The Chilton County High School Parents-Teachers Association met January 11 at the high school library. A lovely devotional was given by Miss Peggy Carroll of the Jr. III class at the beginning of the program.

The program was under the direction of Mrs. W. C. Golden who served as chairman of a panel discussion entitled "Opportunities for Moral and Spiritual Education." The participants of the panel discussed three phases of such opportunities: (1) Learning Values in the Home" by Mrs. Clarence Cox, (2) Learning Values in the School" by Mrs. A. B. Wilder and (3) Standards and Values in Community Life" by Mrs. Reid Mullins.

Mrs. J. L. Thornton, president, presided over the meeting.

Fates-Culp Wedding Took Place At Verbena

A wedding of much interest to this and surrounding communities was that of Miss Ethel Joyce Oates and John Evans Culp. The bride is the daughter of Mr. and Mrs. M. R. Oates of Maplesville, and the groom is the son of Mr. and Mrs. W. W. Culp of Clanton.

Rev. G. O. Hughen performed the ceremony in the parsonage at Verbena on December 30th, at 6 p.m., using the double ring ceremony. Miss Mary Ooates, sister of the bride, was maid of honor, Harry Culp served his brother as best man. The bride chose for her wedding a very soft light blue woolen suit, using light pink and navy accessories. Her corsage was of pink carnations.

The couple left immediately after the wedding for a short wedding trip.

Mr. Culp left on January 6th for Indianapolis, Ind. He is stationed at Fort Benjamin Harrison nearby. The bride expects to join him there within the next few weeks. She has resumed her studies at Alabama College, where she is a sophomore, for the rest of this semester.

Mrs. Carter, who keeps the nursery at the First Methodist Church and who is loved by young and old, received a big thrill when she went home from church and discovered the plans that had been made. Helping to celebrate the lovely occasion were Mr. and Mrs. Grady Carter, Tommy and Joe; Mr. and Mrs. Ervin Dailey, Ervin, Faye and Anne; Mr. and Mrs. Cecil Carter and Butch.

After the panic of 1884, Alabama railroad building went rapidly forward, stimulating agriculture and industry and being stimulated by them. By 1890, the mileage had been increased to 3,422, and within the next 10 years, 1,933 other miles were added, making a total of 4,226 miles. A glance at a railroad map of the State would show that most of the building was north of Montgomery where the great industrial transformation was taking place.

Fifth And Sixth Grade Teachers Held Meeting

The fifth and sixth grade teachers held their county-wide meeting Wednesday afternoon at Collins Chapel School.

Mrs. Luther Little was leader of the program. There was discussed and studied the social studies in fifth and sixth grade groups. Slides were used demonstrating the use of audio-visual aids in teaching social studies.

Mrs. Parker, Mrs. Hagen and Mrs. Nivens of Collins Chapel served as hostesses and served sandwiches, cookies and Russian tea to the teachers present at the meeting.

Mrs. Luther Little Spoke To A. A. U. W. Here

The Chilton County Branch of AAUW met on the afternoon January 7 at the high school library, the president, Mrs. Vernon presided over the business meeting. It was reported that several contributions of books had been added to the Chilton County Public Library. The members were thanked for their services rendered in keeping the library open on Saturday afternoons. Plans were presented for a luncheon on February 20 when the International Relations Committee will be in charge.

Mrs. H. G. Thompson who is chairman of the committee on Education served as program chairman and introduced Mrs. Luther Little who was the guest speaker.

Mrs. Luther Little, who is the County Supervisor of Schools, presented a very interesting summary on the "Educational Needs of the County." She explained that so much more is expected of schools today without any additional funds to provide for those expectations. With the use of charts and graphs she showed that of the total 5,990 students in Chilton County, both white and colored, 4,570 are transported daily and 3,846 are fed daily. Teachers' salaries have increased, equipment and cost of construction have risen over the years, she added. In conclusion, Mrs. Little gave a list of county needs. Some of those needs are: 130 acres of land, 30 more classrooms, at least one auditorium, three gymnasiums, plus several other large items.

Serving with Mrs. Thompson on the Education Committee was Mrs. Anice K. Merchant of Thorsby.

Around OUR HOUSE

by Kathryn Tucker Windham

Television hasn't become a part of our family yet, but all three children enjoy the radio, especially the cowboy stories and the music. The seven-year-old and the four-year-old are well acquainted with every gun-toter on the air waves, and the one-year-old turns around and around in a kind of unsteady bear dance every time she hears good music or conducts the orchestra grandly with her chubby hands.

The other night the radio had a lot of static, the growling, snorting kind.

"Mother," called the seven—year old, "come here and listen to the radio. It must have a bad cold: it sounds just like it is blowing its nose."

• • •

During this month of many sales, our neighbor down the street, the one with the big family, buys most of her family's clothing.

Every time she goes to town, she makes certain that she has in her purse a card with the children's names on it and the sizes of the garments each child wears. Then if she happens to find some unexpected bargains, she knows exactly what sizes to buy.

Even mothers with much smaller families might find the idea of keeping a note of clothing sizes practical. I know I never can remember size socks the four-year-old wears.

• • •

No mater how well paved the sidewalks are or how well sodded the yard is, every time it rains the children manage somehow to find mud to walk in. And, of course, they track it right into the house.

The next door neighbor, who knows how to solve most problems suggested nailing a stiff scrub brush upside down on the edge of the back steps to use as a foot wiper. The brush has proven to be very efficient, and it will probably result in no more muddy floors — if the children can remember to use it.

• • •

Our neighbor around the corner has been having foot—wiping trouble, too. At least she has been having door mat trouble.

She bought a new door mat, the fiber kind, and put it on her porch. Her dog thought it was a new toy for him, and he began at once to tear it up. In just a little while, the mat was in shreds. A second mat met the same fate.

Then this neighbor took drastic action: she sprinkled her new mat (the third one) with cayenne pepper. Now her dog leaves it strictly alone!

• • •

Personal note: the one-year-old and the four-year-old both have the measles now. They waited until the seven-year-old had recovered and was back in school before they popped out.

• • •

If your family likes spareribs, they're sure to like spareribs barbecued with pineapple sauce like this:

Salt three pounds of spareribs, place in a shallow pan and bake at 450 degrees for 30 minutes. Meantime, cook one-fourth cup of chopped onion, one-fourth cup chopped celery and one-fourth cup chopped green pepper in 2 tablespoons margerine for 5 minutes. Stir in 1 tablespoon cornstarch and 1 cup syrup drained from can of pineapple chunks. Cook (stir) until transparent. Add one-fourth cup wine vinegar, 1 tablespoon soy sauce and one no. 2 can pineapple chunks. Pour fat from ribs, reduce oven heat to 350 degrees, pour sauce over ribs and bake about 45 minutes or until tender, basting occasionally.

MAKE your molded desserts easy by pouring fruit-flavored gelatin into a deep layer cake pan and chill until firm. Frost with whipped cream, cake fashion and serve in wedges.

For a hearty breakfast, try French toast topped with thin slices of baked ham. Serve with apple sauce.

Corned beef can be glazed to make it look elegant when served. Stud with cloves after boiling and pour over the meat ½ to ½ cup of maple syrup. Bake in a moderate oven until glazed, about 25 minutes.

Your family will like colorful baked bananas. Peel, brush with oil and cover with cranberry sauce, then bake and serve as dessert.

Cook your pears, peeled, halved and cored in simple syrup until tender. Place on top of sponge cake and spoon over this red raspberries for a simple, nourishing dessert.

Glamourize your rice puddings by molding them and serving with sliced peaches and soft, chilled custard sauce.

Hot gingerbread tastes good on a chilly night. Top it with cream cheese which has been softened with a bit of orange juice and flavored with grated orange rind.

RECIPE OF THE WEEK
Prune Souffle
(Serves 6)

2 cups cooked prunes
⅔ cup granulated sugar
½ teaspoon baking powder
5 egg whites
½ teaspoon vanilla extract

Measure prunes and cut from pits. Put through a coarse strainer. Add sugar, baking powder and very stiffly beaten egg whites. Stir in vanilla. Pour into a buttered baking dish and place in a pan of hot water. Bake in a moderate (350°F.) oven about 30 minutes. Serve hot or cold, plain or with whipped cream. Chopped almonds or shredded coconut may be sprinkled over the top before baking.

Sunday school — 10:00
Church service — 11:00
pastor — Rev. Joe Davis
B. T. U. — 6:00
Night service — 7:00

There was a nice crowd out for Church service Sunday. There were several absent due to illness, and other causes, but we hope everyone will be out next Sunday. Our pastor, Rev. Davis has taken a position with a contracting job at Cecil, Ala. We wish him well in his new job although he comes home every week end to fill his appointments at Church.

Mrs. Matie Maness of Tuscaloosa visited Mrs. John Foshee one day last week which she enjoyed very much. She is known and loved by the community and we welcome her back any time.

Mr. Royland Shoults of the University of Alabama spent the week end with his mother, Mrs. John Foshee.

The Sunday guest of Mr. and Mrs. John Foshee were Mr. and Mrs. George Shoults.

We are glad to report that Mrs. Percy Kelley is doing fine now.

The spend the day guest through this week with Mrs. Ezra Lee Lawley were Mrs. Harvey Grover, Mrs. Sherman Motley, Mrs. John Mc Kinney, Archie and J. R.

We all know this is the month for the March of Dimes drive and the purpose of it. We know the dread of this awful disease, Polio, and the effects of it on our children if they should have it. Not only the children, but it strikes grown-ups just as well. Mrs. Davis was the chairman to raise money for the drive from the Pleasant Grove community, since she has moved and only home on the week-end she asked Mrs. Ezra Lee Lawley to fill in for her. So your reporter is asking you to help her by giving all you can for this worthy cause. If enough money is raised so that the drug gamma globulin can be given to all children may be the disease can be stopped.

Mr. and Mrs. Bill Morris and children from Gadsden were visiting Mr. and Mrs. Dan Maddox and family over the week end. There were other relatives also from Birmingham. Mrs. Maddox is still on the sick list.

Mr. and Mrs. Red Smith and baby from Mobile were visiting Mr. and Mrs. J. H. Lawrence over the week end.

Mr. Gus Wallace is making his home with his son, Roy Wallace, since his wife's death several mos. ago.

Mr. and Mrs. Hudson Smith and children from Birmingham spent the week end with their parents Mr. and Mrs. Messer Smith and Mrs. Annie Sewell.

Club News—

Christmas Day the Young Men's Social Club with their decorated cars paraded through Clanton delivering 35 baskets of food to the sick and shut-ins in and around the city. The baskets consisted of one fryer, one pound lard, one pound rice, two pounds sugar, three pounds potatoes, apples, oranges, etc. The Club appreciates all the help given by our white friends also. We raised the sum of $106.90 and have a balance in the treasury of $12.00. Hilton Lane, Jr., President; Oscar Guinn, Vice-President; Robert Hill, Secretary.

Would you trade a Penny for a Dollar?

● You can if you use Natural Chilean Nitrate of Soda for your top-dressing and side-dressing needs. It costs a little more because it's worth more. But the difference in *cost* usually can be measured in pennies per acre, while the difference in *value* often amounts to dollars per acre.

Chilean "Bulldog" Soda gives you generous extra value. The nitrogen is 100 per cent nitrate. It's 100 per cent available (quick-acting); 100 per cent dependable. The minor elements make crops stronger, healthier. The sodium—26 pounds in every 100-pound sack—is a key to maximum returns on your entire fertilizer investment. It offsets the bad effects of acid-forming fertilizers...increases the efficiency of mixed fertilizers containing them. It releases "locked-up" potash in the soil...increases the availability and efficiency of soil phosphate...reduces potash, calcium and magnesium losses by leaching...develops larger, deeper root systems.

Sodium builds up the productivity of your land—*more* each year. It's an essential element for some crops...beneficial to most and necessary for maximum yields of many.

Pennies-per-acre difference in *cost* may mean dollars-per-acre difference in *value* to you. Chilean "Bulldog" Soda is the best fertilizer your money can buy. Use it for all of your top-dressing and side-dressing needs.

"Make sure you get the MATCHED kind!"

HIGHWAY DEATHS ARE ON THE INCREASE

Montgomery, Ala.—Public Safety Director L. B. Sullivan says that 791 Alabama highway traffic fatalities already have been listed for 1953.

The State's 1952 road death list was 782. Sullivan says that last year's figure may rise even higher, if some of those injured in 1953 accidents succumb. Final reports have not yet been received from municipal authorities.

Sullivan said the brutal surge of deaths during mid-December ran up the 1953 total past the 1952 mark.

However, Sullivan said the State's 1953 fatalities probably would not pass the "normal" of 849 dead. The 'normal" is based on the number of motor vehicle miles traveled and that figure has increased sharply during the past year.

Maplesville News

A watch service full of meaning for everyone attending was held at Alabama Avenue Methodist Church in Selma by the Aldersgate MYF Sub-district. Beginning at 9 o'clock with singing and games led by Marjorie Lindsey. Delicious refreshments were served just before the business session, presided over by Vice-president Eugene Lawrence, of Maplesville, in the absence of President Bety Rose Solomon who was ill.

Achievement banner went to Ala. Ave. MYF. Maplesville invited the Sub-district to meet with them Jan. 25 for a very special meeting, when the guest speaker will be Rev. Sam Shirah of Georgianna, Alabama. All youth are invited to take advantage of his message especially for them.

The worship service at 11:30 concluded by communion on the stroke of 12 will long be remembered by thse that were present. This beautiful service was conducted by Shirley Bodeford and Rev. Carlton Preer.

Maplesville MYF'ers participating were: Bety Ruth Headley, Bety Lawrence, Laura Ann Dennis, Donald Lawrence, James and Edward Fuqua, Eugene Lawrence, Huey Headley and Mrs. Charles Baugh.

We extend our sympathy to Mr. Paul Davenport in the loss of his grandmother last week, Mrs. Susie Cates. Services were at Macedonia Wednesday morning of last week. Rev. Lewis Masters of Selma conducted the service. Grandsons were pallbearers.

Mrs. George Gillespie and Mrs. Willie Walker visited Mr. and Mrs. Andrew Loyd Dennis in Verbena Thursday of last week.

Mr. and Mrs. Joe W. Graham shopped in Birmingham last week.

Mr. Reynolds Goff of Plantersville visited Mr. and Mrs. John Goff Friday morning of last week.

A nice crowd attended the Study Course last week at the Baptist Church.

Mr. Cleve McGee of Burnsville visited friends and relatives last Saturday morning.

Mr. Charles Baugh left last Sunday for Pascagula, Miss., where he will be employed, Mrs. Baugh will go at a later date.

We extend our heart felt sympathy to Mrs. Frank Atcheson in the loss of her sister in Cullman last week end. Mrs. Atcheson went up on Wednesday. Mr. Atcheson and Rev. Hyman Atcheson went up on Sunday for the funeral.

Mr. J. O. Mize passed away sometime in the night last Sunday. His funeral was from the Baptist Church Tuesday morning at 10. His body lay in state at the church from 9 until 10. Mr. Mize is survived by his wife, Mrs. Buna Mize, of Maplesville; two daughters, Mrs. M. T. Holliman of Clanton and Mrs. Jim Lecroy of Robertsdale; one son, Oliver J. of Birmingham; several grand children. Mr. and Mrs. Mize lived here for a number of years, rearing their family here. We extend our sympathy to the loved ones. Mr. Mize had been in failing health for several years.

Mr. J. W. Gwin has been seriously ill the past week. He is in Selma under the doctor's care. We do not have any late news of him.

The new Senior Sunday School Class of Maplesville Methodist Church elected Miss Betty Williams as president and Edwrad Fuqua as secretary and treasurer.

District Superintendent Rev. Tate preached at the Methodist Church on January 10.

Supper guests of Mr. and Mrs. Charles Baugh on January 8th, were Mr. and Mrs. Luebke, son and daughter, of Knoxville, Tenn.

Mr. and Mrs. George Gillespie visited Mr. H. Boockholdt in Clanton last Sunday.

The Fellowship of Maplesville Methodist Church extend a special invitation to everyone to come and share a timely program with them, "The Christian and War," Sunday night, Jan. 17th. Persons to be on the program are Mr. Curtis Rucker, Mr. George Gillespie, Mr. Perry Thomas, Edward and James Fuqua, Eddie Higginbotham, Freddie and Johnnie Thomas, Mrs. Perry Thomas, Mrs. Cal Foshee, Mrs. Rosie Baugh and Miss Estelle Davis.

The week of study of Psalms is over at the Baptist Church. They plan to have another study course on Faith in March.

The Deacon's of the Baptist Church held their regular monthly meeting last Sunday at 2:30.

Those attending the Quarterly meeting of the WMS in Thorsby at the Baptist Church on January 6th, from Maplesville were: Rev. W. F. Rasberry, Mrs. Daisy Littlejohn, Mrs. Frankie Seales, Mrs. Oma Walker, Miss Lucy Walker, Mrs. Margaret Clapp, Mrs. Sarah Mitchell, Mrs. Evie Cochran. They enjoyed this meeting and said it was the best meeting they had attended in some time.

The Home Demonstration Club met in the Home-Ec. Building for their January program. Mrs. Louise Wells was in charge of the program. Mrs. Daisy Littlejohn gave the devotional and prayer taken from Psalms 150:1-6. Mrs. Margaret Clapp, citizenship chairman, had the group to give the Pledge to the United States Flag. Mrs. Wells had as the thought for the month: "It is never too soon to get ready to do a great task—John R. Mott." Evie Cochran gave the story of the hymn of the month, Take Time to Be Holy, by Wm. Dunn Longden, 1882, after which she led the group in singing the hymn. Members present were: Mrs. Preston McGee, Pres.; Mrs. Delene Hampton, Mrs. Daisy Littlejohn, Mrs. K. D. Sims, Mrs. Margaret Clapp, Mrs. Jennie Higginbotham, Mrs. Evie Cochran and Mrs. Lovenia Johnson. The Demonstration was handicraft rug making.

Notice—

There will be a Square and Round Dance at the Maplesville VFW Hall Saturday night, Jan. 16, at 8:00 o'clock. There will be a caller for the square dance and also a string band. Everyone is invited to attend. Admission 50 cents each or $1.00 couple. Come out and help these boys get the debt on their hall paid.

Last week I wrote that the Civitans gave baskekts to the needy and shut-ins for Christmas but this was incorrect. These were Maplesville Community Chest Baskets. However, the civitans helped contribute to these baskets as did a number of other organizations, school children, town, etc. The baskets that the Veterans Auxiliary gave were their own baskets made up of contributions from their own ladies. Glad to make this correction giving the credit where it belongs. One of the Civitan members called my attention to this for which I thank him.

Mr. Francis Johnson, son of Mrs. Ruth Hubbard, and his girl friend of South Carolina spent several days last week with Ruth and family.

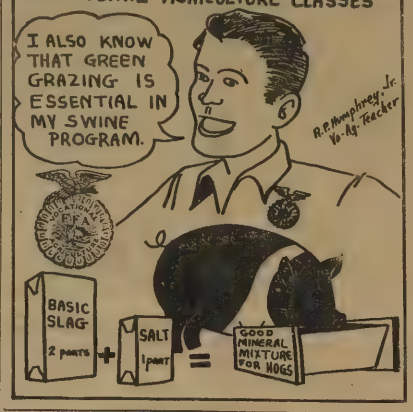
A few days ago, Dr. Nix, Mrs. Nix, Mrs. Kincaid, Mrs. Aldridge, Miss Estelle Davis and others visited Mr. and Mrs. Monroe Nix in Birmingham. They have been up there for some time. Mr. Monroe is under the care of a doctor there. At this time he is doing very well considering his condition and his age. We hope they will soon be back at home.

Mr. and Mrs. Bobby Kincaid and baby of Birmingham spent a few days last week with Dr. and Mrs. John Kincaid. Dr. and Mrs. Kincaid will start their new home on Selma Road south of town, this spring.

Farmers who are interested in planting Costal Bermuda should contact this office or Charlie Patton here in town, or Lloyd Mims of Clanton Route 4, or the old Thorsby Road. Both of these men are certified stolons that, originally from the Soil Conservation at Thorsby.

FUTURE FARMERS

ARE TAUGHT GOOD MANAGEMENT PRACTICES FOR LIVESTOCK IN THEIR VOCATIONAL AGRICULTURE CLASSES



The period from 1880 to 1900 was one of rapid railway building throughout the nation, and Alabama was no exception to the rule. Ala.'s slow recovery after the War Between the States was due in no small degree to the lack of transportation facilities. River traffic, obliterated by the war, was revived in subsequent years but it never regained its pre-war significance. During the 70's and 80's several large and handsome packet-boats such as Hard Cash, Nettie Quin and the D. L. Talley, were put into successful operation on the Ala. and Tombigbee rivers.

Things we -SEE- and Hear

by "Tuck"

I see where all the fellas are finally breaking down and wearing the loud shirts and neckties their wives gave them for Christmas. You can always tell if it's the wife because if it were anyone else they wouldn't have to break down.

* * *

Having money or being rich has gotten to be as old fashioned as the horse and buggy. I always have wanted a horse and buggy.

such is the case with Michael Hay-

* * *

Everyone has some talent and wood, but he has it over some of us. No one realized his talent until a few months back when he let it slip. This was surely inevitable because we'd give him top billing anywhere for a beautiful baritone-tenor voice. This is, of course, just one man's opinion, but anyone who appreciates good music and good talent will surely find it here.

* * *

Talk about irony. Saw a car the other day with a noticeable sized tag on the rear that read: "Member Safe Drivers League". Either this fella was driving someone else's car or he was not one to practice what he preached. Possibly he just needed a tag on his bumper, but at any rate, I've never seen much worse driving by anyone. The only safety device that he did have was his tag,which didn't help much toward showing where he was going next. Probably he is a new member but he isn't good advertising and we doubt if he'll ever become an officer without making some drastic changes.

* * *

Writers are a sorry lot. They're always putting into words exactly what you've been thinking all the time.

* * *

He probably doesn't give a hang about our opinion, but we do wish Ralph Johnston hadn't started closing his drug store so early. Now we never get a chance to go in and disrupt his magazines like we used to. Course we bought one if forced into it. We're sure, however, that on these cold winter evenings the old "stand bys", or we should say "stand arounds" on their favorite corner miss the shelter that they were once offered.

* * *

Don't know the scientific name for window breaker, but we do have reason to believe that their is one loose amongst us. A few months back something broke out the window at the plant and now the ford place's window has been ker-racked. We thought our's was a runaway rock from a passing motorist, but coincidence does have its limitations now doesn't it? Anyhow, we were all out to get the desperado but we learned that it was the wind and a passing motorist so we decided just to get rid of them, N.C.

* * *

Hear about the little boy who told his mother as she was cutting an apple for him, "Be sure and cut out the beans, Mother."

* * *

Been hearing some talk lately about a driving school being installed for our high school students over the county. If Chilton County never does anything else progressive, this is a real step forward; if they go through with it. Now for all I know they have already dropped the subject, but there shouldn't be a more needed public service in our county or anybody's. I haven't been out of school too long myself, and I'd lay odds that the number of vehicles around CCHS alone has more than doubled since that time. Understand, I'm not knocking anbody's driving, even though there are some wild ones, but there is no substantial argument against furthering safety and education as far as I can see.

* * *

With the weather we've been having lately, I'll bet even the birds are plenty FOWLed up on which way to go.

* * *

Heard an official (out of town) say the other day that the most effective method of controlling traffic these days was paint. Either the paint on our streets is the wrong color or we're not as far out in the country as people like to think, because I've noticed that a lot of "big city" cars and out of staters too don't know what a turning lane is. What I'd like to know is: when one of these "tourists" sideswipes you, who gets the bird, you or him. Every time I get in a turning lane to the left it seems like all through traffic on Highway 31 is either out to get me or cuss me out for being in the right lane. Guess that's what I get for being a hick.

Get fertilizer now for top-dressing oats or other small grains Feb. 15 to March 1; top-dress at the rate of 300 pounds of nitrate of soda per acre or equivalent nitrogen from other sources.

County Agent Glasscock Lists Desirable Corn Varieties For '54

1953 corn variety tests indicate most desirable hybrids for 1954 plantings. Based on performance of a large number of varieties and hybrids in 1953 and average performance for the past three years, the recommendations below are a definite guide for selecting seed corn for 1954 plantings.

Mosby's Prolific and **Neil's Paymaster are the best open pollinated varieties** of corn available. Mosby and Paymaster have been consistently out-yielded by the better hybrids for a number of years. Many of the **hybrids proved better than Mosby's** and **Paymaster in ability to stand up on the stalk (lodging resistance) and in weevil resistance.**

The leading hybrids are recommended alphabetically as a first or second choice selection, or if a hybrid proved very good in only one or two years test it is recommended on a trial basis.

All of the hybrids listed below have proven to be adapted to Central Alabama's weather and soil conditions. The recommendations are as follows:

First Choice—
Coker 811 (White)
Dixie 11 (White)
Dixie 18 (Yellow)
North Carolina 27 (Yellow)

Second Choice—
Dixie 17 (White)
Dixie 22 (Yellow)
Dixie 33 (White)
Georgia 101 (White)
Louisiana 521 (White)
McCurdy 1005 W-1 (White)
Pfister (PAG) 631 (White)

The only corn suggested for **trial basis** in Central Alabama areas for 1954 is Coker 911 (White).

This we have two white corns (Dixie 11 and Coker 811) and two yellow corns (North Carolina 27 and Dixie 18) as first choice selections. Also proving superior in most respects, but for valid reasons somewhat inferior to the above four white corns and one additional yellow hybrid on the recommended list for general-crop field corns.

The principle factors considered in recommending a corn are:

1. Ability to produce a high yield.
2. Lodging resistance.
3. Resistance to weevil damage.
4. Soundness of grain and ear.

The number of ears per stalk and size of ears were also recorded.

A recommended corn is one that produced a consistant high yield of quality corn resistant to weevil damage and corn that was still standing up off the ground at harvest time.

A limited number of copies of the 1953 "Corn Variety Test... is available upon request from your County Agent.

ARMY TO DISCHARGE "PROFESSIONAL PRIVATES"

The Army's recent announcement that it would discharge about 20,000 enlisted men who are classed as "incapable of absorbing military training to the extent necessary to meet military requirements" is a welcome announcement. These men include those who have failed to advance themselves, failed to contribute anything to the military service, and whose cost actually exceeds their worth to the service.

For many of these men, the Army is a refuge, providing security and a life with few responsibilities. Many of these professional privates are merely professional goldbricks, doing as little as they can and raising as much thunder as possible at every opportunity. They feel little pride in service, since they are not attempting to advance themselves and are only out to get what they can out of every hour and every day.

Curiously, some of these men, when discharged, will take up the responsibilities of normal life and make good citizens. They will no longer have that monotonous security and discipline which has influenced them to stay in the professional private rut. Others are mentally incompetent and will never advance themselves.

By discharging this lower residue of enlisted personnel, the Army will improve its intellectual average and its efficiency. We believe all fair-minded citizens will admit the valid reasoning behind this decision.

Heifers should not be bred until they have developed sufficiently, regardless of age.

Lawrence, Moore To Represent Chilton Drs. At Seminar

Dr. C. O. Lawrence and Dr. J. W. Moore have been named official delegates of the Chilton County Medical Society to attend a cancer seminar for Alabama doctors and dentists to be held in Birmingham Jan. 27-28.

All doctors and dentists from this county have been urged to attend this meeting, which will feature lectures on diagnosis and treatment of cancer by ten nationally known cancer specialists.

Sponsors of the meeting are the American Cancer Society, Alabama Division, Jefferson County Dental Association; Jefferson County Medical Society; Medical Association of Alabama; Medical College of Alabama; and the School of Dentistry, University of Alabama.

Dr. John Day Peake of Mobile, chairman of the executive committee, American Cancer Society, Alabama Division, said "we are certain that the fight to conquer cancer will be greatly advanced by the knowledge and inspiration which these outstanding speakers will impart to us at this important meeting."

Bob Owens, Former Resident, Named To Who's Who Of UAC

Bob Owens, son of Mr. and Mrs. R. E. Owens of Moulton, Ala., was recently elected to membership in Who's Who in American Universities and Colleges. Rev. Owens was formerly pastor of the First Baptist Church of Clanton, and the family has many friends in Chilton County.

Bob is a senior at Howard College, Birmingham, and majoring in economics.

Students recognized in Who's Who each year are chosen from approximately 650 universities and colleges. In the select... student's scholarship, cooperation, leadership in academic and curricular activities, citizenship, service to the school and promise of future usefulness," are considered.

Bob is president of the International Relations Club, treasurer of the Student Government Association, member of Omicron Delta Kappa, national leadership fraternity, and treasurer of Alpha Kappa Psi, national professional fraternity in commerce.

In other campus activities, Bob is a member of the Howard College band, male chorus and annual staff. He is also a candidate for a Woodrow Wilson graduate school fellowship.

ATTENTION! Especially To All Election Officials

Act. No. 201 Enacted
Regular Session, 1953

Relating to elections; to provide that the voters also shall sign the poll lists, and that no election official shall record the name of any voter for him, except where a voter is unable to write his name because of physical handicap; and to prescribe penalties for the violation of this act.

Be it Enacted by the Legislature of Alabama:

Section 1. In every election hereafter held in this State, the voter himself shall sign his name on one of the poll lists, or lists of persons who vote in the election, required by law to be maintained at each polling place; and no person shall record on this list the name of any voter for him, except where the voter, because of physical handicap, is unable to write his own name on the poll list; in which case an election official shall write the name of such voter on said list together with the cause of assistance and shall sign his own name on the poll list on the same line with the name of the voter. If the voter is unable to sign his name because of illiteracy, his name shall be written for him and the voter shall make his mark upon the poll list, in the presence of any of the election officials, and the election official witnessing the act shall record his name, as witness, on the same line with the name of the voter.

Section 2. Any person who willfully signs on the poll list the name of any person other than himself, including any signing by mark, in violation of the provisions of this act, shall, upon conviction, be sentenced to imprisonment in the penitentiary for a period of not less than one nor more than five years.

Section 3. All laws and parts of laws, and, specifically, the provisions of Sections 105 and 179, Title 17, Code of Alabama (1940), in conflict with the provisions of this act are expressly superseded by this act.

Section 4. This act shall become effective immediately upon its passage and approval by the Governor, or upon its otherwise becoming law.

Approved July 16, 1953.

Early Garden Crops Thrive In Hotbeds

Plants for early vegetable crops should be started in hotbeds.

Sand, says API Extension Horticulturist John Bagby, to give plants an early boost, be sure the hotbed soils contain plenty of organic matter. If available, use peat mixed with sand, half and half. However, well-rotted manure can be satisfactorily substituted for peat.

"About one-fourth pound of 5-10-7 fertilizer per bushel of soil will add materially to the start plants get," concludes Bagby.

ALABAMA VETERANS RECEIVED OVER 55 MILLION DOLLARS DURING 1953

Montgomery, Ala. Jan. 18—More than 55 million dollars were paid out directly to Alabama veterans, their survivors or dependents, by the Veterans Administration during the past year.

This figure of $55,495,889, Harley A. Smith, VA's Alabama Regional Office Manager, said today does not include payments made by the Regional Office to places of business or educational institutions as tuition for GI trainees.

At the end of the year, Smith said, 49,984 veterans, or dependents, were receiving compensation or pension payments, and 17,182 veterans were enrolled in training.

These figures were contained in a letter from VA manager to all Regional Office employees expressing his "personal thanks for a job well done" during the past year.

In pointing out the huge task accomplished, Smith said that 73,470 individual veterans, or their dependents, made personal contacts at the Regional Office and other VA Contact locations. A total of 27,511 veterans received medical treatment and 5,450 received dental treatment during the year.

The Regional Office received 973,084 pieces of mail during the year, and there were dispatched from the Regional Office 904,953 pieces of mail. At the close of the year, legal service was being provided to 7,071 guardianship cases. Direct loans were made to 399 veterans during the year and 1,817 loans were guaranteed or insured.

Asserting "these figures are impressive," Smith said "they mean that thousands of veterans in Alabama have looked to us for assistance and I am sure that they look upon people in the VA as their friends. Each of you can, and should be proud of your participation in bringing service to such a large number of our citizens who deserve special consideration.

"As you move along with your work, please remember that figures are not the important part of our responsibility, but that the individual veteran is our first consideration. Regardless of the job you perform in this organization it fits the picture of providing a real service to people who need it. These people have earned a right to special attention by giving to this nation in time of need more than any other group of people. Let us always keep this in mind."

Boy On Bicycle Injured When Hit By Truck

Bryant Hollan was injured when hit by a truck three miles south of Marbury at 6:30 Sunday night. He is the son of T. R. Hollan of Montgomery, but was staying with his grandfather Henry N. Gray of Marbury.

Leroy Martin, whose ambulance answered the call stated Monday morning that the boy suffered a fractured left arm and left leg.

Hollan, who was riding a bicycle was carrying another boy at the time, but it is reported that he was uninjured. The injured boy was taken to St. Margarets Hospital at Montgomery.

Highway Patrolman Hugh Champion investigated.

County Conservation Program Re-Opened Until February 5th

Eddie Owen, Chairman of the Chilton County Agricultural Stabilization and Conservation Committee, announced today that the Agricultural Conservation Program will be re-opened until Friday, Feb. 5, 1954, for the purpose of accepting requests of farmers for Federal Government cost-sharing in carrying out conservation practices on their farms during 1954.

Mr. Owen states that the basic purpose of the Agricultural Conservation Program is to aid in achieving necessary conservation of our soil and water resources. The future prosperity of this nation necessitates the protection and maintenance of our land and water resources.

He points out that conservation of these resources is urgent and it pays both the farmer and the public.

Mr. Owen added that the Agricultural Conservation Program is entirely voluntary and any farmer who believes he can do the needed conservation job on his farm without aid under the program is urged to do so

Forms on which request may be made and assistance in filing the request may be obtained at the County Office which is located at 10½½ North Seventh Street in Clanton.

JOHN SPARKMAN FAVORS ADMITTING ALASKA

Senator John Sparkman, Alabama Democrat, said recently Alaska should be admitted to the Union as a state if Hawaii is granted admission. Sparkman did not say he would oppose statehood for Hawaii but said he would press an effort to have Alaska included in the same movement for admission.

The Alabama Senator said he thought it would be a mistake to admit one of these territories without admitting the other and expressed the belief that such a move would have unmistakable political connotations (it is widely believed that Hawaii would elect two Republican Senators if it is admitted as a State).

The argument against admitting Alaska has revolved largely around the fact that over ninety per cent of the territory of Alaska is under Federal ownership and, therefore, exempt from state taxation. Sparkman says this situation could be gradually remedied since the Federal Government does not intend to maintain ownership of this land indefinitely.

There seems to be merit to Sparkman's argument. We do not believe that because the Federal Government owns a large percentage of the territory of Alaska this situation bars statehood for that strategic territory. The remedy to this situation need not come before statehood but could easily be worked out after statehood is granted. Although present indications are that statehood for Hawaii is near a reality and that Alaska may be left out, we believe there is much merit in Sparkman's suggestion that both territories be made states ... if they are to

There were several automobile wrecks in and about Chilton County but no persons were severely injured.

In an automobile accident Saturday in Dallas County however, three negroes were killed and one was hospitalized and is in critical condition. The second automobile in this accident was driven by Roland Ellison, former employee of Chilton County News and now with the Selma Times-Journal. The Ellisons are making their home in Selma now. Reports are that no one in the Ellison car was seriously injured.

In a collision north of town Monday morning a wreck occured doing great damage to property but injuring no one. The vehicles involved belonged to Willie D. Hocutt and Lee Oden.

At Maplesville Saturday two cars collided but no one was seriously injured. These cars belonged to Melvin O. Founders and Mary Burnett Dennis. The wreck occured at the intersection of highways 82 and 22.

A negro youth, Richard Lee Gill, of Clanton Route 3, killed a mule on the Kincheon Road when the mule walked directly in front of his car. The car was badly wrecked.

State Highway Patrolman Fred Steen stated Monday morning that several wrecks had occured on the detours below Verbena but none serious. However, Officer Steen stated that most all of the wrecks on the detour could have been prevented in his estimation had the drivers of the vehicles watched the road signs and taken caution.

THREE TOUGH NUTS UP EARLY IN NEW SESSION OF CONGRESS

Washington, Jan. 21—"This is the first session of Congress that ever opened with three filibusters."

So wise-cracked a newspaperman, interviewing Senate Minority Leader Lyndon Johnson of Texas about the prospective legislative program for the first few weeks of this new session of Congress.

He referred, of course, to three highly controversial matters on the slate for early votes:

1. The St. Lawrence Seaway.
2. The Bricker Amendment restricting the President's treaty-making powers.
3. Statehood for Hawaii.

Johnson grinned at the remark, as if he were not unhappy over the prospect of filibusters embarrassing the Republicans for a change, instead of the Democrats.

He said he is discussing the program with the Majority Leader, Senator William Knowland of California, and "exploring" possibilities for agreements. However the leaders could arrive at only a general agreement on the timing of legislation. They can not control individual members of their own parties who feel the urge to protect local interests on the three explosive issues.

In fact, a member of President Eisenhower's own party, Senator Butler, of Maryland, opened fire on the St. Lawrence Seaway immediately. Butler lives in Baltimore, which might lose trade to ports farther north if the seaway went thru.

On the Bricker Amendment, Knowland is still hunting a compromise satisfactory to the administration and the extreme right wing of the GOP.

In Hawaii, the GOP is fairly well united, with some exceptions, but the Democrats are holding back until Alaska can be added, and some Southerners don't want either one.

ADVENTIST CHURCH

Not one sincere prayer is lost. We pour out our heart's desire in our closets, we breathe a prayer as we walk by the way, and our thoughts reach the throne of the Monarch of the universe. They may be inaudible to any human ear, but they cannot die away into silence, nor can they be lost through the activities of business that are going on. Nothing can drown the soul's desire. It rises above the din of the street, above the confusion of the multitude, to the heavenly courts. It is to God to whom we are speaking, and our prayer is heard.

Clanton Hoopers Clip Pell City Team 50-47

By Harold Smyer

The Clanton Tigers nosed out Pell City in a basketball thriller last Friday night, 50 to 47. In the fourth quarter the score lead changed several times and was all tied up three times, Richard (Rip) Easterling and Bobby (Zip) Easterling lead the Tiger scoring attack as Rip connected for 19 points and Zip hit the cords for 14 points. Bryce Thornton played a good backboard game. Golden, with 16 points, Gray with 15, and Drummonds with 14 led the scoring for Pell City. Clanton has now won 7 games while losing only 2 games, both to Lanier. The "B" Team Tiger Cubs still remain undefeated having won 7 consecutive games. Coach Bulger is to be commended on the fine showing of both of his Tiger teams. The Tigers play Columbiana in Columbiana Wednesday night.

To Our Advertisers, Subscribers And Friends

Exactly one year ago this week we started publishing a semi-weekly newspaper here at Chilton County News.

After a years trial and much discussion with our advertisers and subscribers, we have found that preference runs to a weekly at this time instead of a semi-weekly. Therefore, after this issue you will start receiving your Chilton County News once each week (on Thursday), instead of the smaller newspaper twice each week.

With this change back to the old way of publishing the News we do not feel that we are making a backward step. We have plans for a bigger and better newspaper in every way and we still believe in boosting instead of knocking, going forward instead of backward, and doing all that is within our power to promote the advancement of Chilton County and her people.

We again ask your cooperation in giving you the kind of a weekly newspaper that you want. It will take your help and if we can depend on you, then we can have one of the best little weeklies in the state. When you have a news item of interest send it to us. If you have a pet peeve to get off your chest we will be more than glad to publish your views on any subject. In short, the more interest you take in your newspaper the better newspaper you will have.

THE LAST LYNCHING LETTER

The Tuskegee Institute recently announced that for the second straight year, there was no lynching in the United States in 1953. The Institute said it believed that lynching has now ceased to be a "barometer for measuring the status of race relations in this country.

As a result of this conclusion, the Institute announces that it will abandon the "Lynching Letter" it has published for some forty-one years. Other reports and statements will be issued but the lynching letter seems to have gone to its resting place.

Certainly, there is no finer commentary on the condition of race relations in the South than this report, which should be given widespread circulation abroad. Though the problem of race relations arenever solved in entirety and though there is, of course, progress still to be made, it is gratifying to know that mob violence as a means of solving this problem has practically come to an end.

To all those rabble-rousers, Communists, and otherwise, who would stir up anti-American sentiment abroad with exaggerated stories of race tension, the Tuskegee announcement must be a bombshell. The fact that mob lynchings are no longer occurring in the United States must be a great disappointment to Communist agitators in Asia, as well as in other countries.

Aside from this satisfaction, it is highly satisfying to know that the conscience of the people of this country has taken care of this problem as it should have been done. This latest example of progress in the field of race relations can only indicate further progress and heartening news from this field in the future.

New Kind of Bridge "Toll"

Walking past the Brown's place Saturday I saw Red Ames helping Snuffy repair the porch. "No work of your own, Red?" I asked him. "Sure," he answered, "but this is contract labor!"

That pulled me up short so I asked what he meant. "Ask my wife!" he says, "she's in the kitchen." There I found Mrs. Ames helping with the baking! "*Contract* labor again?" I asked. She nodded.

Then she explained, "We play contract bridge every Friday night. The losers have to spend an hour on Saturday working for the winners."

From where I sit, the Brown-Ames bridge club is another example of the way people help each other in our town. Speaking of friendly, helpful people, I might mention the beer retailers around here. They co-operate voluntarily with that Self-Regulation program the Brewing Industry sponsors. They keep their places clean and orderly—and win the good will of the community!

LETTERS TO THE EDITOR

Birmingham, Ala.

January 14, 1954

Editor:

Care of the aged, the blind, and the infirmed in the State of Alabama is nothing short of a hypocritical farce; there is an air of indifference to want, misery, and human suffering that should not be tolerated in a civilized Country.

While our government is showering billions of dollars upon the needy throughout the world with no questions asked and very few conditions required, our needy aged, and the blind are struggling to exist on meager aid, bound up with all kinds of means test, which was far too inadequate before the present ever increasing high cost of living.

In the midst of ministering to the needs of the rest of the world, it is unthinkable that we will continue to neglect, and overlook the poor and underprivileged here at home.

We need to think about keeping the purchasing power here in our own country, and the best way to do that is to give the needy aged, and the blind a decent monthly pension. The trouble is that the rank and file just don't get the facts; we must enlighten all of our people about the old age problem.

Special legislation is needed to alleviate the substandard living conditions now existing among the needy in this State. We can overcome this sad plight by banding together to fight a winning battle for an adequate monthly pension for our needy aged and blind.

Few today can have assurance that they will not be in need in their old age. Why not help needy Alabamians for a change.

Lester F. Lawrence.

SECRETARY OF COMMERCE STATES 1954 TO BE ONE OF BETTER ECONOMIC YEARS

Secretary of Commerce Sinclair Weeks has echoed the sentiments of other Administration officials in recent months by predicting that 1954 would be "among the better years of economic history." The Secretary made this estimate in a report reviewing the year 1953 and the record boom of last year.

Several of the points he stressed in predicting that business would be good—although possibly not at 1953 peak levels—are worth mentioning. First, he notes that the population has increased from 158,500,000 a year ago to 161,000,000 at present. His figures on personal income are also interesting, since they show that the annual rate is now $285,000,000,000 compared to $281,000,000,000 a year ago.

This increase in personal income is a significant factor which will naturally support the broad base of consumer demand in coming months. Weeks also pointed out that, in the year ending in September of 1953, American citizens added $25,000,000,000 to their liquid assets. This latter consideration is often overlooked by those who point only to the increase in the consumer, or installment-buying, debt. We have pointed out on previous occasions that this increase has gone hand-in-hand with an increase in liquid assets, personal savings, and so forth—which must be taken into the whole picture when considering future business.

The only sour note in the Weeks' report was the decrease in personal income for the farmer which occured in the year 1953. This was the second year in which the farmers' income had decreased and, no doubt this problem is one of the major economic ones facing the Republican Administration.

Taken as a whole, the Weeks' report should be encouraging to all those who have been anxious about business conditions. Since tax cuts have gone into effect and since others are being proposed which would reduce the tax load by another 1.5 billion dollars, and since the resident outlined a specific program to Congress, designed to improve the agricultural situation, 1954 prospects cannot yet be dismissed as wholly discouraging.

"I REMEMBER" BY THE OLD TIMERS

From T. J. Shaffer, Caldwell, Idaho: Allow me to add to your collection of Old Timers. I am one of them, as I was hatched at Miller Missouri, 76 years ago on June 29. Do you remember the phonograph that didn't have any horn? We would pay a nickel, put the tubes in our ears and listen to the music.

Whenever we went to picnics, those were the good old days. There were 13 of us kids in the family. Families came from miles around and spread their dinner out on the ground. Best of all, they gave away a 100-pounds of green coffee to the largest family and we always got the coffee.

In those days, they parched their own coffee and ground it. Could tell a lot more if I had the space, but will close and say "hurrah" for old Missouri. If it is like it was when I left there in 1898, I would be there.

From an Old Timer, Memphis, Tennessee: I remember when the mighty Mississippi River was truly the "king." A river pilot was a man of distinction, even of fame. If he was truly master of the surly, ever-changing Mississippi. People who lived and worked in the Southern lowlands respected the mighty water as a threat that might anytime become a swirling mass of destruction, lashing across the land to uproot and destroy the things man so laboriously built with his hands. The chains of steel and concrete that now bind this mighty giant make him a servant and we old timers wonder if he is content to be so.

YOUR Health

"Your Health" is presented by your physician as a health service of The Medical Association of the State of Alabama.

The Epileptic

The convulsions associated with epileptic attacks are possibly the prinicpal reason why the public fails to understand the person afflicted with this disease. This is an unfortunate attitude because understanding will help the epileptic person to be accepted by society rather than treated as an outcast.

Epilepsy means seizure. It is associated with a disturbance in the rhythm of the brain cells. It has not been definitely proved to be hereditary, but some persons seem to inherit a tendency to it.

The cause of epilepsy is not known. Injuries to the brain from a fall or blow on the head are apparently a factor. So are diseases like meningitis, tumor of the brain or hardening of brain arteries.

Until 1938 very little could be done for the afflicted person except minimize the seizures with sedative drugs. At that time, however, it was known that a certain group of drugs offer hope of relief to the epileptic by lessening the intensity of attacks and making them less frequent. The ketogenic diet which increases acidity is also used in treatment.

There are three kinds of seizures. In grand mal the patient loses consciousness and falls, becomes rigid and has spasmodic jerkings of the limbs. Petit mal occurs only rarely in adults. In petit mal the patient loses consciousness for from five to fifteen seconds but does not fall and does not have convulsive movements. Epileptic equivalents, so-called psychic equivalent of psychomotor attacks, the third type, are relatively rare. They consist of a loss of consciousness or cloudiness for varying periods in which the person, though rigid, may walk about and act as though conscious.

Epilepsy does not necessarily mean mental deficiency. It may appear in dull, average, or even brilliant persons. Recurring attacks may not develop for weeks, months or even years. Seizures may develop while the patient is idle or asleep. The epileptic should lead as normal a life as possible, with restrictions on the type of employment.

Treat Your Famliy With Raisin Dishes

Raisins are plentiful and economical, reports API Extension Nutritionist Mary Huisey.

And she advises homemakers to feature them in baked desserts, cookies, cakes, puddings, frozen desserts, salads, sandwich fillings, and stuffings. Try stirring a few plump seedless raisins into hot cereal to add a bit of sweetness and a pleasant chewiness.

"Your cake will take on a wonderful flavor if raisins are put thru a food chopper and added to the batter just before it's put into the pan to bake," she concludes. "And for an extra special flavor in raisin pie, add a handful of grated sharp American cheese to the filling before fitting on the top pastry."

Gleaned from somewhere: "A radio announcer is a man who talks until you have a headache, and then tries to sell you something to relieve it."

Marine Recruiter Here Twice Monthly

Marine Technical Sergeant Lee R. Pressley, from the Marine Corps Recruiting Station in Montgomery, Alabama, will visit Clanton each 2nd and 4th Thursdays of each month for the purpose of interviewing young men and women who are interested in joining the Marines.

He will set up office in the lobby of the postoffice from 10:00 a.m. until 2:00 p.m., and will process and accept prospective applicants who are qualified for enlistment.

Sgt. Pressley states that information concerning pay, leave, duty stations and educational and promotion opportunities will be available. Sgt. Pressley also said that young men who already received their pre-induction physicals but have not received their notice to report for induction, are eligible for enlistment in the U. S. Marines.

DALE CARNEGIE

★ AUTHOR OF "HOW TO STOP WORRYING AND START LIVING" ★

S. H. LAWRENCE, M. D., 158½ Screenland Drive, Burbank, California, says that after he graduated from high school he became a college addict, a chronic collegian. At the end of ten years of education he decided to make the break which must inevitably come and finally divorced himself from college.

He went to New York City and got a job with a research organization. Here he was working with some of the best scientific minds in the country, and it didn't take him long to develop a real inferiority complex.

CARNEGIE

The men there had developed the policy of asking each other to watch over their departments for occasional periods while they were away. He began to worry for fear they would ask him to do this. Then he would be asked questions that he couldn't answer and his ignorance would be brought to everyone's attention. He worked many unnecessary hours just so he wouldn't become indebted to anyone. Many nights he couldn't fall asleep because the thought kept running through his mind, "I hope no one asks me to cover for him tomorrow."

Finally he took stock of himself, and decided that if this went on he would never learn anything new and he would in addition become a chronic worrier. So he started to accept strange situations as a challenge. He volunteered to watch over the other men's work for them. He found himself in many strange situations and he was asked many questions he could not answer, but no one seemed to take that seriously. He stopped worrying and greatly to his satisfaction he found himself popular with the men. Soon he was broadening his knowledge and fields of interest surprisingly.

ACROSS the DESK

ideas from other editors

From the Claremont News, Claremont, Minnesota: Secretary of Agriculture Benson has been under fire for some time and his opponents have been crying that he is trying to sink agriculture by taking away practically all of the farm price supports.

We haven't been worried about this so far as the present law carried through 1954 and Benson publicly stated that whatever program may come, it is vital that the government be responsible for preventing agricultural distress.

Benson refused the request of the livestock men led to Washington by former Secretary Brannan, to set support on livestock. A certain Henry Wallace tried this at one time and many of us remember how hogs were slaughtered and buried in trenches. The Farm Bureau Federation has stated, "Direct price supports would unquestionably lead to government control of the cattle industry and a dangerous step toward socialization of American agriculture."

We do not think the farm problem will ever be settled by the Secretary of Agriculture. We think this question can only be settled by the Department of Commerce. The farm worker and the industrial worker must be brought closer together in working hours and hourly earnings. By adding four hours a week to industrial workers at the same rate of weekly pay would cut at least ten per cent from what the farmer has to pay for their product and open a wider export market. The seniority rule in union labor should be scrapped and the worker paid according to his ability to produce. The picket line should be made illegal to allow all those who want to work to do so.

All of these ideas are actually a part of our constitution but have been ignored by politicians more anxious to buy the vote of organized labor than to provide for the welfare of the people as a whole. Its obvious result has been the pyramiding of the national debt.

* * *

From Italy News-Herald, Italy, Texas: The Farm Bureau Acreage Retirement Plan . . . appears to us to be the most sound approach to farm production problems that has been advaneed during all the years government has taken a hand in the matter. We think it should be given a trial.

This plan is definitely a farmer development, too. Make no mistake about that. It has been evolved by farm leaders from suggestions originating at the grass roots. For too long the farmer has been planned and regulated by politically-inspired proposals that have cost the taxpayers billions of dollars, and virtually destroyed the American farmers' markets.

North Alabama Making Plans For Super-Hiway

Gadsden, Alabama, Jan. 14, 1954

Construction of a modern super highway from Birmingham to Gadsden was proposed today by the Ala. Motorists Association.

Baneroft Timmons, AMA secretary-manager, told the Gadsden Rotary Club today that the AMA will sponsor the proposed road at the next session of the Alabama Legislature.

"The road would be built on a self-paying basis," Mr. Timons said, "and the revenues would be produced in one of three ways:

1. "Tolls—paid by users of the road.
2. " Special gasoline tax revenue obligations.
3. "Commercial users' contracts.

"The last appears to be impractical, but the AMA recognizes that the American trucking industry recently offered to buy, lock, stock and barrel, the Pennsylvania turnpike for more than $300,000,000.

"When we realize that modern four-lane divided highways with semi-limited access controlled features are offering an accident reduction medium of 50 to 75 per cent, in addition to moving traffic faster and clearing up highway bottlenecks then we know these are the type of roads that we want in Alabama."

He said a road from Birmingham to Gadsden was chosen by the AMA as the first site for an experimental road project in Alabama because "there is a heavy lane of travel by automobiles and trucks there, a national year-round tourist travel lane exists, two heavy terminal areas of dense car registrations will provide income from weekend pleasure drivers."

He estimated the road could be built for $14,000,000.

"Safety will be the keynote of the proposed new road," Mr. Timmons said.

"The way this road would be built," he said, "would make it possible for the safer driver not to be the accident victim of a careless driver who passes recklessly on hills, misjudges oncoming traffic while passing, swings wide on curves, sideswipes because of inattention or excessive speed.

"It also would eliminate head-on collisions due to blow-out swerves, steering apparatus failure, human or physical failure, or drunkenness."

SOIL CONSERVATION NEWS OF CHILTON COUNTY

Burton Mullins has made plans to plant forty acres of slash pines in some old abandoned fields and improve fifty acres of woodlands by deadening the hardwood to release the young pine seedlings.

* * *

Bicolor seedlings furnished by the State Department of Conservation have been planted on the North, South and East sides of Peach Fire Tower.

* * *

Contour rows were run on Tom Strain, of Collins Chapel Community's farm last week. Tom will plant peaches on this land which is adjoining the old orchard east of the house site.

* * *

Farmers who are interested in planting bicolor seed for quail food and cover, and are willing to prepare the land and fertilize it, will be given the seed. Let us know if you are interested.

Dairymen Can Lower Breeding Failures

Auburn, Ala.—Delayed breeding and conception failure heap huge losses on dairymen each year.

Producers suffer costly reductions in the number of calves to use as replacements and in milk yields when a cow can't conceive within a reasonable time after freshening.

Faulty management methods and diseases are the causes of non-breeding. Although many breeding failures, particularly those due to misfunction, are beyond the control of the dairyman, he can prevent many such losses with good management and a few necessary health rules.

These are a few of the summaries made here this week by API Extension Assistant Dairyman Pete Turnham, who offered the following timely tips on controlling this profit enemy.

1. Keep herd health and breeding records on all cows. Record all calving, heat, and breeding dates and any calving troubles. 2. During pregnancy feed proper rations containing minerals and vitamins. 3. Allow each cow a dry period of at least six to eight weeks before calving. 4. Be sure cows freshen in a clean place, preferably a well-bedded maternity stall. 5. Use clean breeding methods.

6. Give the cow a rest period of at least 60 to 70 days after calving before rebreeding. 7. Breed dependable cows to the same bull. 8. Prevent too heavy service, especially with young bulls. 9. Dispose of consistently poor breeders that suffer from genital diseases at each calving. 10. Raise healthy, vigorous calves for replacements to avoid purchased animals that might be infected with breeding diseases.

Alabama Press Holds 83rd Convention This Week

Brewton, Alabama— Speakers of state and national reputation will be featured on the program of the 83 annual convention of the Alabama Press Association, to be held in Montgomery, January 21, 22, and 23.

Announcement of program arrangements and events of the convention was made today by APA President William E. Brooks, Jr., editor of the Brewton Standard.

Earl Tucker, well known editor of the Thomasville Times, and James Saxon Childers, editor of the Atlanta Journal, will share speaking honors with seven known candidates and prospective candidates for the office of Governor of Ala. Accepting the invitation are; James B. Allen, Elbert Boozer, James H. Faulkner, Winston Gullate, J. Bruce Henderson, C. C. "Jack" Owen and Henry W. Sweet. James E. Folsom declined the invitation due to prior commitments.

The convention program will include two luncheons, an annual banquet and dance, with a variety of special sessions to furnish Alabama editors and publishers of the daily-weekly newspapers with timely news, information and trade practices.

The convention opens with a past-presidents' dinner, meeting of APA board of directors, and informal party, January 21st.

MR. COE'S COINCIDENCE

By Denny McClung

AS HE LAY listening to the early morning sounds of the city, memory of the night before came flooding back over him.

He had pulled up at Jane's home, run up the walk and punched the bell.

"Good evening, Mrs. Lynch. Is Jane ready?"

"I'm sorry, Jim, but she left about half an hour ago with a Mr. Coe."

"Didn't she leave any message for me?"

"No, not a word."

"I see. And you don't know who this Mr. Coe is?"

"No, she didn't say. But he got here about twenty minutes after he called."

"Well, tell her I was here."

"I will. Goodnight."

He was angry. Angry and surprised. Angry because Jane had broken their date, and surprised that she had. This was the first date with him that she had ever broken and he could find no explanation.

He parked his car in an all-night lot and went to a movie.

He left the theater and stopped at a small juke-joint for pie and coffee. Ten minutes later he ambled out of the place and came to an abrupt halt. He could hardly believe his eyes when he saw Jane standing by the window of a small tobacconist next door.

"Hello, Jane," he said

"Oh—oh, Jim. Why, hello," she replied, a little too breathily

"I stopped by for you."

"You did? Well, you see, Mr. Coe called, and — well, he asked me to go to a play with him."

"I see."

"Please run along, Jim. I'll explain later. He just stepped in here to get some cigarettes. Don't start a scene."

"A scene? Don't you think I can do any better than that?"

But it was too late. Mr. Coe stepped from the shop and there was nothing for Jane to do but introduce them.

"Robert, this is James Garrity; Jim, Robert Coe."

Jim stifled his anger and they said their hello's. Then Jim said, "Well, Mr. Coe, it's been a pleasure to meet you, but I really must go."

"So soon?" asked Mr. Coe. "But we should become better acquainted."

"I'm sorry, but I have some work to do before tomorrow—business."

The silence of the room was shattered by the telephone's shrill ringing.

"Jim Garrity," he mumbled into the receiver.

"Mr. Garrity," a strange voice said, "listen carefully, this is important. It is now 7:30. I will meet you in exactly thirty minutes on Pier 8."

"Who is this?" Garrity asked.

"I can't say," the voice answered. "What if I don't come?"

"But you must, Mr. Garrity. This is very important. I'll be waiting." And the line went dead.

Twenty-nine minutes later, Garrity jumped from a taxi and sprinted toward the pier.

"What are you doing here?" a low, musical voice asked when he reached the docks.

"I might ask you the same question," he answered, as he turned to where Jane was standing. "But thirty minutes ago some guy called and told me to meet him here. Said it was important."

"What a coincidence," Jane said. "About 7:20, Mr. Coe 'phoned and asked me to come down—to see him off.

"I really should have told you last night, Jim. Mr. Coe is a buyer visiting our store from England and the boss asked me to see to it that he had a good time while he was in town."

"You don't mean . . ."

"What else?"

"But how did he . . ."

"After I saw you last night I must have been rather moody.

"He's on the boat that just cast off."

Crop last year...

The 1953 crop of new rural telephones was a big one. Southern Bell added 83,000, making a total of over 550,000 now serving rural areas in nine southeastern states.

This big crop of telephones cost us $29,000,000, including the cost of poles, lines, switching and other equipment.

Another big telephone crop is coming up this year, because we know how more and more farm folks are depending on the telephone in their daily work and living.

By 1900, the railway network of the State of Alabama had been completed in its main outlines. The Tennessee Valley and the Gulf region had at last been linked together. All sections of the State, in fact were interlocked with each other and tied up with the transportation system of the nation. The main lines connecting the different sections had been projected before the war and were under construction when hostilities broke out. But no one of that time saw where the center of the railroads of the State would be. Birmingham's place in the new industrial system of the State made it the railroad ganglion. All of the leading lines were constructed through Birmingham or had direct connection with it.

Tough Sledding For Grasshopper Turkey

Auburn, Ala. — Skinny, sharp-breasted grasshopper turkeys are on the way out. Mrs. Housewife is now demanding a bird with a broad, heavily fleshed breast, thick short legs, and a thick covering of fat under the skin.

"Growers who plan to continue producing small flocks of market turkeys should sell all their old native breeding stock this year," advises John Weeks, API Extension poultryman, "and then this spring buy good poults of modern breeding from a reliable hatcheryman.

"These turkeys, so profitably popular today, will require less feed per pound of gain and will grow faster. And farmers who keep good breeding stock from these flocks and follow a good feeding and management program should come up with quality birds for sale the following year."

Look In The Mirror When Buying A Suit

Auburn, Ala.—When buying a new suit or coat, be sure to select one with flattering lines, suggests Kathleen Thompson, API Extension clothing specialist.

If you are a little on the thin side, choose a dressmaker or soft suit. It will be more attractive than a tailored gaberdine, says the home leader. Also, avoid severely tailored figure-revealing suits, princess styles, and mannish suits and coats.

"If you are stout," continues Miss Thompson, "look for slenderizing lines. Beware of cutaway front lines. Avoid double-breasted coats because they suggest width and ignore bulky and tightly fitted suits and coats. A blouse of the same color as the suit is good for the plump figure."

Howard College A Capella Choir At First Baptist Sunday

The Howard College A Capella Choir, now on its fifth annual concert tour, will present a concert at the First Baptist Church of Clanton under the sponsorship of the Howard College Extension Department at 2:30 Sunday afternoon. The public is cordially invited to attend this program.

Under the direction of Mr. Geo. Koski, music department head, the choir has steadily gained a wider reputation in music circles.

Doing the entire program from memory, the students will sing a concert of sacred music, their selections ranging from 16th century compositions to the works of contemporary composers. Included will be works by Palestrina, Weelks, Bach, Gretchinoff, McFarlane, Clokey, and a group of spirituals and Sacred Harp songs.

To encourage composition in the field of sacred music for unaccompanied choir, the director annually performs the premiere of a work by an American composer. Last year the choir sang Charles Bryan's arrangement of "Amazing Grace." It has since been published by J. Fischer and Bros. of New York City.

This year they will perform for the first time a composition by Mr. Newton Strandburg entitled "Emitte Spirituum" (Send Forth Thy Spirit). Mr. Strandberg is a member of the Howard faculty.

One section of the program will present musically four excerpts from the life of Christ: His birth, His entry into Jerusalem, His death and His resurrection.

Registrars To Meet

The Chilton County Board of Registrars are in session today, Friday and Saturday, at the courthouse. They will also be in session all next week to enable those who have not registered yet to do so.

More than 115 were registered in one day during last week.

ALABAMA ACADEMY OF GENERAL PRACTICE PLANS MEETING

The Alabama Academy of General Practice will hold its annual meeting in conjunction with a one-day seminar at the Medical College of Alabama, Birmingham, on Tuesday, January 26. The Academy is made up of general practitioners from all over this state, and each year it holds two postgraduate seminars. To hold his membership in the Academy, the member must take a prescribed amount of postgraduate education over each three year period. These seminars are a part of this postgraduate program and are prepared so as to keep the practicing physician abreast of the latest developments.

The Medical College of Alabama will present the scientific program, and the day-long meeting will include the following topics: "Office Urology—Disorders Involving the Scrotum and Contents, Bleeding from the Bladder, Urethral Stricture, Disease of the Prostrate." Discussants on the above will be Drs. Samuel K. Cohn, William Warrick, J. P. Robertson, Bruno Barelare. "Tetanus" will be discussed by Dr. Champ Lyons. Honorable J. R. McElroy, Presiding Judge, Tenth Judicial District, will lead a discussion on Medico-Legal Problems. Mr. W. F. Weatherwax will conclude the program with a discussion of "Narcotics and Federal Drug Laws."

Officers of the Academy for the coming year will be elected at the business meeting.

A banquet will be held in the evening. At that time Honorable Frank M. Dixon, former Governor of Alabama, will speak on "Common Interests in Citizenship."

On January 27 and 28 a Cancer Seminar will be held at the Tutwiler Hotel, Birmingham. This Seminar has been approved by the Alabama Academy of General Practice for formal postgraduate credit. A large attendance is expected to both seminars.

Thorsby Plant Nursery To Continue In Operation

Rep. Armistead Selden announces that the Thorsby Plant Nursery will continue operation, as a result of an agreement recently signed by the U. S. Soil Conservation Service and the Agricultural Experiment Station of the Alabama Polytechnic Institute. The agreement transfers the nursery to the Experiment Station.

It had been reported previously that the nursery would be closed on June 30 of this year because the Soil Conservation Service would not have sufficient funds to continue its operation in the future. Since that announcement was first made several months ago, Congressman Selden has worked with the Agricultural Experiment Station and the Soil Conservation Service in an effort to effect a plan which would assure continuance of plant research at the Thorsby Nursery.

The cooperation of a number of agencies made it possible for the Experiment Station to assume the responsibility for operation of the nursery. These include the Soil Conservation Service, which leased the facilities to the Experiment Station; the Alabama Crop Improvement Association; and the Agricultural Research Service of the U. S. Department of Agriculture.

According to Congressman Selden, the nursery will be operated by the Experiment Station chiefly for the furtherance of a foundation seed stocks program, research with new and improved plant varieties, and basic irrigation research. The nursery will remain in Thorsby, and the Experiment Station will coordinate its activities there with the State and Federal conservation programs.

"We are indeed fortunate," Congressman Selden said, "that the Experiment Station at Alabama Polytechnic Institute is able to assume operation of the Thorsby Nursery so that we will not lose a vital link in our conservation program.

Maplesville Trying All Angles For March Of Dimes

The Mother's March for the 1954 March of Dimes will be led by the VFW Ladies Auxiliary on Thursday night, Jan. 21st, beginning at 7:30. It is hoped that the front lights of every home in town will be on—showing that everybody wants to have a part in this important drive to stop the dread Polio. The ladies will be on the march from the Bibb County Line on Randolph Road to the intersection of University Highway and to Potts Hill on the Clanton Highway.

The March of Dimes Committee is also planning a Coffee Day in the cafe's of Maplesville and a Good Samaritan Road Block on all the roads coming into the town. All service clubs will be contacted as well as all business houses and the three mills. The management of the local theatre has given permission for the Scouts to solicit contributions during the shows one night.

Fire Razes Barn Of County Resident

Many fires have been reported lately throughout the county and extra precaution is urged especially to those who are not located in the vicinity of the fire department.

Last Saturday night, January 16, the barn of Raymond Sewell was destroyed by fire. Mr. Sewell had just recently bought this place from it's former owner, a Mr. Deason. It is reported that no greater damage was caused.

QUIET — MAN AT WORK

It looks like Congressman Armistead I Selden has scored again. He has announced that operation of the Thorsby Nursery will continue. It had been nnounced that due to a cut-back in funds that the Nursery would close and be no more. This was to take place on June the 30th of 1954.

Congressman Selden has worked with the Soil Conservation Service and the Agricultural Experiment Station in an effort to effect a plan which would assure continuance of plant research at the Thorsby Nursery. His efforts have been successful and we are sure the citizens of Chilton County will commend their Congressman on this latest effort to guard their interests.

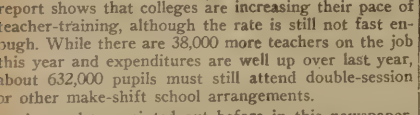
1,250,000 NEW STUDENTS

The National Education Association reported recently public school enrollment in the current school year is up approximately 1,250,000 over last year. Total public school enrollment in the United States is now approximately 29,000,000.

The NEA report says the new first-grade crop is a record one, as the result of a bumper crop of babies in 1947. Many of these babies are the children of service men who returned home in 1946.

The NEA says the rapidly enlarging number of students are in need of 150,000 more teachers and approximately $5,000,000,000 worth of new equipment. The report shows that colleges are increasing their pace of teacher-training, although the rate is still not fast enough. While there are 38,000 more teachers on the job this year and expenditures are well up over last year, about 632,000 pupils must still attend double-session or other make-shift school arrangements.

As we have pointed out before in this newspaper, the people of this community have a responsibility to provide the children of the area with the finest education obtainable. This is the best investment local citizens can make toward the future of their community. Of all investments one can make, better schools and the financing of them bring more and larger dividends than any other type.



BEGINNING with the first day of this new year, most American businesses and industries hung out an imaginative sign: Business — as Usual

And, unless most observers are wrong, the sign should literally mean — same as in 1953. There doesn't figure to be too much change For some, things will be a little bit better; for others, a slight decline, but no one expects any kind of a general recession.

Those on the "inside" say that home buying will be stimulated during the year by new housing legislation providing for less cash down and longer time to pay.

New home production for 1953 was estimated at about 1,100,000 units with a combined value of nearly $12,000,000,000. The National Association of Home Builders says the number of new housing starts in 1954 will run very close to the same level.

Overall new construction is expected to drop off slightly, although the total volume of activity should remain relatively high. There is still a tremendous backlog of demand for school buildings and a sizeable demand for various types of commercial building developments.

An increase of 22,000,000 motor vehicles in operation today as compared with the end of World War II indicates a tremendous need for additional highway construction, including demands for city streets replanning, parking facilities, and suburban and rural roadside projects.

Manufacturing companies expect sales of most products to be down, but are looking for a good year, just the same. Industry experts say only companies in danger are those whose break-even points have risen so high that even a ten to twenty per cent decline in volume of sales will put their net operations into the red.

However, offsetting these viewpoints are the optimists, who say that the volume of Christmas retail sales indicate increased activity in the months ahead in many business lines.

One of the better outlooks for 1954 prosperity is enjoyed by the aviation industry, still heavily backlogged with both military and commercial plane orders. Scheduled airlines had their best year in history in 1953, are just as confident about 1954. Reasons for their optimism: Airlines are using newer, more modern planes; world tensions are easing; personal income tax reductions coupled with American desire to travel; and improved airline safety records.

In general, economists believe that 1954 will be a good year, even as it might fall below the record prosperity year of 1953, when the gross national product (measuring the market value of all goods and services produced) totaled $367 billion—the highest on record. Commerce Secretary Sinclair Weeks, in his year-end review hit the key note when he declared: "Though 1954 may not equal the all-time record boom of 1953, known conditions and forseeable prospects offer sound reasons for continued realistic optimism that it will be among the better years of economic history."

IF YOU DRIVE—

Report from Washington

BY

ARMISTEAD SELDEN

Congressman, Sixth District

During the past two months I have received scores of resolutions from every county in the Sixth District endorsing the proposed development of the Coosa River by the Alabama Power Company. As you know, the Coosa River forms the greater part of the eastern boundary of the Sixth District. For this reason, I thought you would be interested in several facts relative to the development of this waterway.

In 1872 the federal government instituted the first improvement program on the Coosa. The plans called for development of navigation on this river from Rome, Ga., to Gadsden, Ala., by the building of 31 low-lift locks and dams. However, only Locks 1, 2, 3, and 4 were built on the upper end of the rapids below Rome; and in 1890 the government abandoned its program due to lack of funds.

Later the Alabama Power Company obtained permission from the federal government to build three dams on the Coosa River. The first of these—Lay Dam, which is located between Chilton and Coosa Counties—was authorized by an Act of Congress in 1907 but construction was not completed until 1914. In 1921 the Federal Power Commission granted a license for construction of Mitchell Dam which is also between Chilton and Coosa Counties, and two years later this dam was ready for use. The third of the dams—Jordan Dam, located north of Wetumpka in Elmore County—was licensed by the FPC in 1923 and was completed in 1926.

These three dams are the only ones on the Coosa River at the present time. They have been operated as a source of electric power by the Alabama Power Company since they were constructed.

In the Rivers and Harbors Act of 1945, Congress vested authority for the further development of the Coosa exclusively in the U. S. Corps of Engineers. As a result, the Federal Power Commission was deprived of the authority to issue licenses to build dams on the Coosa Waterway.

Although the members of the Alabama delegation in Congress have worked relentlessly in an effort to secure an appropriation so that the Corps of Engineers might begin construction on locks and dams for the Coosa, none has been forthcoming, due to the tremendous cost involved. Also, the prospects for future appropriations are not too bright.

In the meantime, the Alabama Power Company has proposed the construction of five additional dams to be financed by private capital. One of the five will be built in Shelby County near Wilsonville. In October of last year the Power Company's plans for these five dams were filed with the Mobile office of the Corps of Engineers for consideration and study. The following month the Power Company filed with the Federal Power Commission an application for a temporary permit to enable them to do extensive drilling and other preliminary work so that the exact sites of the dams might be determined. To act on this application, it will be necessary for Congress to pass a resolution giving the Power Commission authority to do so. If Congress so acts and the Federal Power Commission grants a temporary permit, the Alabama Power Company visited Washington last week and consulted with the members of the Alabama Congressional delegation and also with the Corps of Engineers. Most of the members of the delegation have stated publicly that they look with favor on the Power Company's proposal, provided the Corps of Engineers approves the plans that have been submitted. It is hoped that such approval will be forthcoming and that action by the Congress can be taken during the present session. Present prospects look encouraging.

The construction of these dams by the Alabama Power Company will answer Alabama's present need for additional electric power and at the same time will save the taxpayers approximately one hundred million dollars. It will create temporary employment for Alabamians over a period of five to seven years during construction and permanent employment after the dams are completed. By reducing the cost of the overall development of the river, the possibility of obtaining federal funds for the addition of navigational facilities will be enhanced. Industrial sites will also be created along this waterway.

After considering these and other advantages that will result from the construction of these dams, it is easy to understand why I have received resolutions from every corner of the Sixth District, as well as from all over Alabama, favoring the Power Company's proposal.

My PET PEEVE

By W. Scott Boyd

NOW, YOU take my young son. At twenty months he was quite a conversationalist, not widely versed, but capable of vocally defending his position when caught in any minor act of malfeasance. Whenever caught, in the red, or post facto, he quickly said he was sorry and, as far as he was concerned, that ended the matter completely. That's the panacea. If you've done something wrong, be sorry, and do it in a "cute" way.

A good example happened one day while we were visiting my sister, Sue. The grown-ups were in the parlor, the kids at play—when the dike broke. From beneath the closed kitchen door came a powerful stream of water, fanning across the living room into the parlor, wetting rugs, feet, everything.

When we opened the door of the kitchen, we found him, still on tiptoes, turning controls on the automatic dishwater. The machine, with top up, without dishes, sprayed ceiling, walls and intruders generously.

But the culprit was master of the situation. Nonchalantly repeating the great panacea, "Me sorry, me sorry," he walked across the room to determine if there was anything about the stove that might be investigating.

favorite story for Sue, and tells it with flourish, describher wild dash down the baset stairs in successful flight with a giggling child, pursued by a man who couldn't run well with a belt in one hand and the other busy hold up his trousers. Major punishment in the whole affair was inflicted on U-know-who, tripped by a trouser cuff on the bottom step.

12-Man Theme

Alabama's twelfth man theme is not entirely new. Records have been found to show that in a game between the Naval Academy and Great Lakes Training Station, in 1918, a player came off the bench to tackle a touchdown-bound runner. Navy, ahead 6-0, fumbled on its own three and a Great Lakes player started the 97 yard gametying run with the recovered football. A substitute Navy tackle, William B. Saunders, jumped from the bench and tackled him, but the runner got up, went on to score before the referee blew his whistle. The extra point try provided the winning margin . . . Alabama fullback Tommy Lewis, who came off the bench to tackle Rice's Dick Moegle in the midst of a 95-yard touchdown run, received words of encouragement from California center Roy Riegels' who ran 65 yards the wrong way in the 1929 Rose Bowl game. Riegels' advice: "Laugh with them. That's all you've got to do." Riegels went on to captain his team next season and become All-American. Lewis is a pastor.

TOP ATHLETE . . . Tennis champion Maureen Connolly, 19, was voted female athlete of 1953 by nation's sports editors. She also won title in 1951 and 1952.

Viet Nam, one of Indo-china's three Associated States, holds all but five million of the region's estimated 27 million population.

DALE CARNEGIE

SOME TIME ago Tobias J. Davis, 118 Orange Street, Rochester, New York, received a request from a client, a local psychiatrist, to sit in consultation on one of his cases. He was faced with a most unique type of problem. A patient he had had under observation for about six weeks was in a constant state of fear and was sick with worry. Because of his unhappy condition the fellow had been compelled to take leave of absence from his job as foreman in a large industrial plant. In addition he complained of having been unable to sleep for three weeks. It was obvious that the man had a mental disturbance of a most unpleasant sort.

CARNEGIE

Reviewing his case history, it was found that this man, aged 38, had a wife and three children whom he was supporting on his earnings of five hundred dollars a month, and in addition taking care of his father and mother, who were 74 and 71 years old, respectively. Upon questioning the patient it was discovered that he was worrying about the prospect of "living too long" and becoming a burden, as in the case of his parents who were dependent upon him.

As a solution to his difficulties, it was proposed that he purchase a life annuity which would pay him an income as long as he lived. The virtue of such a plan had a ready appeal to him, and he immediately agreed to purchase it. It was wonderful to see the almost miraculous change in this man's personality. There seemed to be a look of real happiness in his face. The look of worry and anguish disappeared completely and his step seemed youthful and confident and he seemed to exude a spirit of well-being

A recent check on this man's present status found him happily at work and with no recurrence of his former condition.

SHOULTS NEWS

(By MRS. EZRA LEE LAWLEY)

The week end guest of Mr. and Mrs. M. C. Moore was their daughter, Miss Edna Mae Moore from Montgomery. She is employed with the Bell Telephone Company. Also home for the week end was their son, Billy, of Birmingham. He is employed by the TCI.

Mr. Ben Lawley from Mobile was visiting in the community this week. He spent Tuesday with Mr. and Mrs. Robert McAfee and Tuesday night with Mr. and Mrs. Walter Lawley. He went back home Wednesday. He is the uncle of Mrs. McAfee and Mr. Walter Lawley.

Mr. John Foshee had the misfortune of getting a piece of steel in his eye while working on his job at the sand and gravel company at Plantersville. He was treated at the Vaughn Hospital and then dismissed. His wife is confined to the Vaughn Hospital for a few days. We hope for her a speedy recovery.

Mr. and Mrs. George Shoults entertained the young people with a party last Thursday night. It is so nice that the adults of this community take time to provide entertainment for the young people, so they won't have to go out and hunt their fun. Those enjoying this party at Mrs. Shoult's house were as follows: Maudine, Mary Ann and Helen Maddox; Joyce, Marjorie and Bob McAfee; Jo Ann Lawley; Norma Jean and Otis Smith; Mrs. Sewell, Barbara Ann and C. R.; Sherwood Grover; Hugh and Leonard Stewart; Ceofron and Earl Oden; Mrs. Bill Hathcock, Carolyn, Jean and James; Freddie and Jimmie Shoults; Leon Mitchell; Alton Lawrence; Carl Hayes; Johnnie Motley; Joe Harold Motley; Burt Nichols, Marshmellows and soft drinks were served. Everyone reported a wonderful time.

Mrs. Walter Lawley hears from her son Willard often. He says he is doing fine and hopes to be home by June. He has been overseas for over a year. He said he celebrated Christmas by helping with the Korean children and by giving them a Christmas party. We hope all the boys will soon be back home.

Miss Sanders Lawley was under the care of Dr. Allison this week. She was sick with tonsilitos and bronchitos. She is doing better at this writing.

The WMU January meeting was held at the church Wednesday afternoon at 2:00 o'clock. The parts that each member read were in the Royal Service book. Those present were Mrs. Robert McAfee, Mrs. Calhoun Garner, Mrs. Messer Smith and Mrs. Annie Sewell. The meeting was closed with prayer until the February meeting.

The regular monthly meeting of the Shoults Community House Demonstration Club met at the home of Mrs. Willie Hathcock last Thursday afternoon. President, Mrs. Juanita Smith, presided at the meeting. Mrs. Willie Hathcock led in devotional. Members present were Mrs. Rena McAfee, Mrs. Juanita Smith, Mrs. Annie Sewell, Mrs. Messer Smith, Mrs. George Shoults, Mrs. Ida Latham, Mrs. Sam Shoults, Mrs. Bessie Garner and Mrs. Gladys Latham. The hostess served home made divinity fudge and lemonade after the demonstration on Handicraft by Mrs. Lane, County Agent.

Mrs. Willie Hathcock and Mrs. Sam Shoults spent Friday and Saturday at the Druid City Hospital in Tuscaloosa with their sister, Mrs. Carson Snead, who is critically ill and has pneumonia. Doctors say there is no chance of recovery. The family asks an interest in the prayers of friends.

Mrs. John Foshee is back at home now from the hospital and doing better at this writing.

Mr. Roy Wallace is home this week on vacation. He works in Bessemer.

We had a nice crowd out for church Sunday morning. There is 70 on roll and 50 were at church. We appreciate the ones that will come out on Sunday although it is cold. We still have several on the sick list and hope that everyone will soon be well and up again. Mrs. Hudson Smith and three children, June, Annie Ruth and Bubba, were visitors at church Sunday. They are from Birmingham.

Rev. and Mrs. Joe Davis shopped in Clanton Saturday morning. Their reports are that they enjoy their new home in Cecil, Ala., very much.

Mr. Bill Hathcock from Linden, Ala., was home over the week end with his family.

A-3c Bob McKinney and wife from Montgomery was home over the week end. They visited Mrs. John McKinney and Mr. and Mrs. Charlie Sullivan.

The monthly meeting of the Sunbeams was held at the home of Miss Marjorie McAfee's on Saturday afternoon. Here are a few that were present: Harley, Gary and Brenda Harrison; Annie Ruth, June and Bubba Smith. There were others that the names were not given.

This is the month for the March of Dimes drive. Let's all give and give generously. The life you save may be your own.

Mr. and Mrs. H. L. Mims from Clanton moved into one of Rev. Rube Bearden's houses. We are always glad to welcome new comers into the community.

We are glad to report that Mrs. Dan Maddox is doing some better. She is not well but is able to be up and walking around.

Sunday guests of Mr. and Mrs. John Foshee were Tommie Shoults and his girl friend, Vona Bell Faulk and Richard Morgan of Selma.

Mr. and Mrs. Charlie Smith of Stanton visited their son, Mr. and Mrs. Coleman Smith, and Mr. and Mrs. Gin Nichols Sunday. They reported that Mrs. Nichols was able to be out and walking around. We are happy to hear this.

We are sorry to hear that Mrs. Robert Latham is confined to a Selma hospital.

Mr. and Mrs. Grady Harrison of Lawley spent Sunday with his brother, Mr. and Mrs. Rother Harrison, of Stanton.

Chestnut Creek Baptist Church—

Rev. Hyman Atcheson, pastor.
Sunday School—10:00 a.m.
Morning Worship—11 a.m.
Training Union—6 p.m.
Evening Worship—7 p.m.

Both of our services were well attended Sunday. Bro. Atchison brought two very good messages. We had a number of visitors and invite them back to worship with us.

We have organized another extension class and it will be in the home of Mr. and Mrs. Rob Lewis. This class will be taught by Mrs. Hugh Taylor.

The other class met at the home of Mr. and Mrs. R. P. McKinney with Bro. John Sorrell doing the teaching.

Let us take this opportunity, to urge each member to atend the study course on the nights of Jan. 25, 26, and 27, at the church. We will study, "The True Functions of the Sunday School." This will be taught by Archie McTaylor and this is something that will be helpful to us all.

The Brotherhood met at the church last Thursday night for their regular meeting. A good meeting was reported.

This week is WMU Focus Week and we are really proud of the Chestnut Creek WMU. Circle II will meet in the home of Mrs. Crayton Taylor Friday night, Jan. 22. This will be a business meeting and all the members are urged to attend.

Those who attended the luncheon and WMU program at the Auhama Baptist Church Monday were: Mrs. Hymon Atcheson, Mrs. Lee J. Grant, Mrs. Hugh Taylor, Mrs. Henry Driver and Mrs. Crayton Taylor and Carylon.

Sunday dinner guests of Mr. and Mrs. Calvin Grant were Mr. and Mrs. A. W. Martin.

Mr. and Mrs. M. D. Broadhead and M. D., Jr., of Independence, Ala., spent last Sunday with Mr. and Mrs. Harley Calloway and Charles.

Several in the community went to Isabella School last Monday night to hear Mr. Delos Culp speak.

Miss Dean Dooley spent several days in Birmingham last week with friends and relatives.

Sunday guests of Mrs. Nina Jones were his son and his wife, Mr. and Mrs. Buddy Jones (Ima Jean Wilkins) and her parents, Mr. and Mrs. George Wilkins of Montgomery.

Mr. and Mrs. Luke Calloway, of Prattville, were the Sunday dinner guests of Mr. and Mrs. Tom Courtney and Mr. Calloway's mother, Mrs. Essie Calloway.

Mr. and Mrs. Eugene Rutland of Birmingham were the week end guests of Mr. and Mrs. Hugh Taylor.

Mrs. Delene Grant, Mrs. A. W. Martin and Mrs. C. C. Moore spent Sunday afternoon with Mrs. Willie Glenn.

Friday night supper guests of Mr. and Mrs. Archie Mc Taylor were Rev. and Mrs. C. W. McKay and Judy of Eclectic, Mr. and Mrs. Billy McKay of Pennsylvania, and Chalice DeVaughn.

Mr. and Mrs. Homer Clyde Jones of Selma have been visiting his parents, Mr. and Mrs. Calvin Jones.

Rev. Hymon Atcheson and Archie Mc Taylor went to Montgomery Saturday on business.

Mr. and Mrs. Archie Taylor visited in Birmingham Sunday evening.

We are glad to report that Mr. N. J. Robinson is still improving.

Little Mike Moore had as his Sunday dinner guest, Sammy Robinson and Donny Bryant.

SAMARIA NEWS

Rev. E. C. Hand, pastor.
Visitors always welcome.
Sunday School—10:00 o'clock.
Preaching—11:00 o'clock.
Training Union—6 o'clock.
Preaching—7 o'clock.

Attendance was good Sunday morning but was off a good bit Sunday night.

We were sorry that several of our teachers were absent Sunday. We hope they can all be present next Sunday.

We still have a lot of sickness in our community. If you are sick we wish for you a very speedy recovery and hope that you will be back at church very soon.

We hope each of you ladies have kept in mind the important meeting which was held at Samaria this past Tuesday afternoon.

We have a pretty comfortable church each Sunday morning even when the weather is a little cold on the outside. Let's come with warm hearts to church each Sunday and maybe the church won't be too cold.

We were glad to see Jim Murr and his daughter back at church Sunday.

If you haven't been attending church regularly, why not start now and be present every time possible.

We were also glad to see Bobby Headley back Sunday after a few Sundays absence.

County P-TA Council Met

The Chilton County P. T. A. Council held it's last meeting, Monday night, January 18, in the library of the Chilton County High School.

The Council is composed of the elective officers; committee chairmen; school principals; Supt. of Education; members of the board of education; the P. T. A. Pres. from the 17 local organizations plus three other representatives. There are three meetings held each year; in October, January, and April.

The meeting was called to order by the President, Mrs. R. C. Williams and a short business sesion followed. Commitee reports were heard also a report of the Fifth District meeting in Talladega, which was attended by the President and three other officers. Mrs. Luther Little made a report of the daily radio program during National Education Week.

"Juvenile Delinquency" is the program theme for this year, selected by the program committee, Mrs. Luther Little and Miss Louise Foshee.

The first meeting, held at Thorsby; Rev. Don Esty, spoke on "Juvenile Delinquency and the part the Church Plays." The second meeting Prof. Patterson Hicks, spoke on Juvenile Delinquency and the part the Home Plays"; and the third meeting Dr. Delos Culp will speak on "Juvenile Delinquency and the part the School Plays";

Miss Elizabeth Barton gave an inspiring devotional and displayed papers of the Senir Class as they have just completed a study an juvenile delinquency.

The group was then favored by two vocal solos by Michael Haywood, and a piano solo by Betty Kemp; both are outstanding members of the senior class.

Prof. Hicks was introduced and he gave a very enlightening talk.

Members of the Chilton County High P. T. A. with Mrs. Joel Thornton, President; and Mrs. Tom Kemp and Mrs. W. D. Hocutt, serving on the hospitality commitee, invited the group into a class room where a table spread with a lace cloth, had trays of cookies and party dainties served with coffee.

The meeting then adjourned. The next meeting to be held April 19 at Concord school.

Business Women's Circle Met Tuesday

The business Women's Circle of the First Baptist W. M. U. held its regular meeting on January 19 at 7:30 P. M. at the home of Mrs. W. A. Wilis. Seventeen members and two visitors were present for the meeting.

Mrs. Luther Litle, Chairman, presided over the short business session, Mrs. Molly Minor gave a devotional. The program was taken from Royal Service. Those taking part on the program were Mrs. Luther Litle, Mrs. Clara M. LeCroy and Mrs. Clara B. Alason.

Delicious refreshments were served by the hostess, Mrs. Willis and Co-hostess, Miss' Lois Black.

Study Club Hears Dr. Quale Speak

On Friday, January 8th, Mrs. L. C. Warr was hostess to the Study Club. Mrs. Joe Earle Gowan opened the meeting. The members sang "Alabama." The club collect was given by Mrs. J. Renfro Mullins. Mrs. M. D. Tingle, a new member, was extended a cordial welcome.

The resignation of Mrs. J. P. Hayes, a charter member, was received with deep regret, Mrs. Hayes was elected an associate member.

The club will give $5.00 to the March of Dimes.

A number of guests came for the program. Dr. Margaret Quale, professor of psychology at the University was guest speaker. Dr. Quale received her doctor's degree in Clinical Psychology at Columbia University. She teaches undergraduate classes at the Univeristy, and is in charge of the graduate program in clinical psychology. Also Dr. Quale is in charge of the Psychological Clinic at the University, and does psychotherapy and counseling with adults, children and university students.

The subject, "Mental Health for Alabama," was discussed by Dr. Quale is the responsibility of an understanding citizenry cooperating with the efficient clinical facilities now available for detecting and curing mental disorders. Dr. Quale is a dynamic speaker of unusual charm and she presented a highly technical subject in a fascinating manner. She is pleading for Mental Hygiene classes and psychological clinics to be established all over the state. In this way the mental health of all can be safeguarded.

On Tuesday, December 29, 1953, Mrs. O. D. Williams, formerly Bette Sue Owen, arrived in Guantanamo Bay, Cuba, where she joined her husband, S-Sgt. Otis Delmer Williams, who is stationed with the United States Marine Corps there.

Sgt. and Mrs. Williams will be in Cuba for two years and report that they like it very much.

Mrs. Williams is the daughter of Mr. and Mrs. W. E. Owen, formerly of Clanton, now living in De Funiak Springs, Fla. Sgt. Williams is the son of Mr. and Mrs. J. E. Williams, Sr., of Route 1, Thorsby.

Mrs. Bert Snead Presented Recital

Mrs. Bert Snead presented her pupils in a piano recital, Saturday afternoon, at the home of Mrs. Reese G. Mullins.

The reception rooms were artistically decorated with Magnolia leaves and red berries and the piano held two silver candleabra, each with three tall red tapers.

The pupils presented were: Tommy and Sandra Mims; Ray Mims; Bobby Powers; Clay Moates; Robert and Carol Arnold; Harold Foshee; Dian Moates; Burnette Williamson; Kay Williamson; Patsy Garrett; Susan Elsevier; Mary Kate Tucker; Lynn Williams; Paula Campbell; Linda Nell Downing; Ann Thompson; Katie Don Thompson; and Clarice Mullins.

The mothers of the children and several other guests enjoyed this delightful courtesy.

Around OUR HOUSE

by Kathryn Tucker Windham

When the four-year-old kneels to say his prayers at night, we never know what he is going to discuss with God. His relationship with his Heavenly Father is friendly and easy, and his prayers are as simple and informal as though he were talking with someone he knows well and feels close to.

The other night after a particularly happy day, he knelt and prayed.

"God, you're mighty good to me. You're so sweet. You're sweet as my Grandmother."

God, who understands little boys and grandmothers, must have been pleased.

* * *

Our neighbor down the street, the one with the big family, was commenting the other day about how fast bath towels wear out around her house.

"I don't suppose we'll ever have enough towels around our house, she said, "but at least I've learned to put our worn ones to good use." If the towels aren't too badly worn, this neighbor cuts off the worst part, sews the remaining material to long strips of narrow cloth and makes herself aprons to wear in the kitchen. In common with many cooks, she likes an apron principally to wipe her hands on, and aprons made of old toweling are perfect for this purpose.

* * *

From other pieces of old towels, this neighbor makes bath mits for her children to use.

"Giving the children mits to slip on their hands when they take a bath makes bathing much more fun," she says, "and the mits are very easy to make. A little snipping with the scissors cuts the toweling in the shape of mittens, and a little stitching on the machine sews them together.

* *

Bibs for her youngest children are made from old towels, too. She cuts generous squares of material from the worn towels, binds the squares with bright tape and uses big safety pins attached to pieces of matching tape to hold the bibs around the necks of the young eaters.

"The towel bibs absorb a lot of drip," she says, "and they are so easy to wash. You never have to iron them, either."

* * *

Even the worst parts of the old towels can be folded together and used as filling for pot holders and hot dish mats, this neighbor says. Old towels aren't wasted around her house!

* * *

Our next door neighbor, when she heard of the uses our neighbor down the street makes of old towels, added one of her own.

"During this cold weather," she said, "I always keep one or two squares cut from old towels in the glove compartment of my car to use to wipe the steam from the windshield."

* * *

After you've made yourself a towel apron, you might like to try a casserole of baked pork chops like this:

Mix 2 tablespoons sugar with 2 tablespoons cornstarch, slowly add 1-2 cup water and 2 cups apple juice, add 1-2 cup raisins and cook over low heat, stirring, until thick. Brown 6 pork chops in 2 tablespoons fat. Place chops in casserole, put an apple ring on top of each chop, pour on the sauce, cover and bake at 350 degrees for an hour.

MAPLESVILLE NEWS

(MRS. KATHRYN GOFF)

Mr. and Mrs. Robert Reed, and Mrs. George Gillespie attended the Eastern Star meeting in Jones Wednesday night of last week. Mr. and Mrs. Reed served the lodge, congealed salad, cheese crackers, and hot coffee. Mr. and Mrs. J. W. Thomas were missed at this meeting, they are on a trip to Havana, Cuba.

Mr. Johnnie Gwin returned home from Selma the first part of last week, but returned to the hospital Thursday with an attack of asthma and was quite ill. Mrs. Gwin and Mrs. Hattie Cawthon went with him to Selma.

DR. D. P. CULP TO BE A CANDIDATE FOR STATE SUPERINTENDENT OF EDUCATION

Dr. Delos P. Culp

Auburn, Ala., Jan. 20—Dr. D. P. Culp, professor of education at Alabama Polytechnic Institute since 1951, announced here today that he plans to resign his position with the college and qualify as a candidate for the office of State Superintendent of Education.

Dr. Culp began his teaching career in a one-teacher school. He served as teacher and principal in schools in Chilton and Butler counties and was superintendent of education in Chilton County from 1942 to 1946. From 1946 to 1951 he was a member of the professional staff of the Alabama State Department of Education.

In announcing his intentions to qualify for the state superintendency Dr. Culp said, "I believe that efficient, effective progress in education in Alabama can be made only through cooperative efforts of professional and lay people in facing problems of school finance, better school facilities, and improved instruction. I will seek to promote such efforts in order to improve our state's educational system, if elected to the office of State Superintendent of Education."

He continued by saying, "I firmly believe that since the public schools belong to and are supported by all the people, school leadership should be responsive to the total citizenry of the state. My candidacy is not being sponsored by any individual, institution, or group, but I have been encouraged to qualify for the office of State Superintendent by many people throughout the state."

A native of Chilton County, Dr. Culp is well known in educational circles and has served on numerous state, regional, and national committees working on problems concerning public education.

He holds a Doctor's degree in school administration. He is married and has two children.

Tough Sledding For Grasshopper Turkey

Auburn, Ala. — Skinny, sharp-breasted grasshopper turkeys are on the way out. Mrs. Housewife is now demanding a bird with a broad, heavily fleshed breast, thick short legs, and a thick covering of fat under the skin.

"Growers who plan to continue producing small flocks of market turkeys should sell all their old native breeding stock this year," advises John Weeks, APJ Extension poultryman, "and then this spring buy good poults of modern breeding from a reliable hatcheryman.

"These turkeys, so profitably popular today, will require less feed per pound of gain and will grow faster. And farmers who keep good breeding stock from these flocks and follow a good feeding and management program should come up with quality birds for sale the following year."

HENRY W. SWEET TO RUN IN GUBERNATORIAL RACE

Henry W. Sweet

I shall qualify as a candidate for Governor of Alabama. I will also present an up-to-date platform that can be accomplished for the progress of all our people.

My claim for consideration is based on the fact, that I have had broad training and vast experience in the administration of both state and county government.

A review of my public record will prove that I am able to give my State honest, efficient and constructive leadership. I feel that I possess the required maturity for sound judgement, that is necessary for making vital decisions, during this crucial period in our State's history. I expect to co-operate with an honorable Legislature from whom I will request legislation to establish a code of ethics for all public officials.

I have stood the test of great pressure from men who attempted to act contrary to the best interest of the public. In meeting such tests, at my own sacrifice, I gained the confidence and respect of all who know me personally. This is a reward of which my family and I are justly proud. In handling over a hundred million dollars during my career, I have never violated a public trust.

I welcome the opportunity of leading this successful campaign against every evil element, that is seeking to feather their own nest at our State's expense. We must not permit waste and disgrace to again mar the good name of Alabama. We must not let the false claims and reckless promises of demagogues divide the unity of our people.

It is also a sad fact that certain powerful groups have tied up certain candidates in order to gain special privileges. I am very proud that I am free to represent each citizen as he shold be represented I expect, therefore, to complete my career as an honorable Governor.

With faith and confidence, I earnestly solicit the enthusiastic backing of every man and woman who wants no more than an honest and progressive administration. The good and unselfish people are still in the majority. I am their man, if they want this kind of campaign and this kind of Governor.

MR. THOMAS R. WATKINS

Mr. Thomas R. Watkins, age 81, of Selma, Alabama died at Peeks Clinic in Marbury, Ala., Jan. 4 at 3:30 P. M.

He was born in Narlena, North Carolina, Dec. 4, 1872. He moved from Gadsden to Selma, Ala. 7 years ago.

Surviving relatives are: 1 son, W. A. Watkins, Greenville, Ala., 3 daughters survive; Mrs. J. E. Bercher of Tulsa, Ark., Mrs. Ann W. Brooks of Selma, Ala., and Mrs. G. L. Burton of Henderson, North Carolina. One sister survives, Mrs. Olivia Stallings of Norlena, N. C.

Funeral services will be held Sunday at 2:00 P. M. in the Immortal Baptist Church. Burial will be at Hillcrest, Fort Smith, Arkansas.

ISABELLA NEWS

Mulberry Church—

Services at Mulberry were about as usual last Sunday. The pastor, Rev. J. W. Jones, preached two inspiring sermons. Sunday morning his sermon was on "The Son Who Stayed at Home," and was very good. Sunday night his message on, "The Ugliest Word," was just as good. When we miss one of these messages we have missed a blessing.

At teachers' meeting on Wednesday night plans were made to take a Sunday School Census starting right way. Also plans were made to begin studying the Book of Psalms on Wednesday at Mid-Week services at the church.

Rev. J. W. Jones is teaching a study course at Liberty Hill every night this week.

Library News—

We have the new book, "The Southern Baptist Convention 1845-1953," in our library. Also, "Stewardship Enriches Life," and many others. Be sure to read them.

Visitors—

Sunday morning visitors were Mr. and Mrs. Whit Mahan of Clanton and Mr. and Mrs. J. J.-Wells and children of Montgomery.

Isabella Church News—

There was a good attendance at Sunday School Sunday morning. The Deshazos were missed on account of the illness of Mr. Deshazo.

The YWA of Mulberry sponsored a social in the church basement last Thursday night. Games were played and cookies and hot chocolate were served to 13 boys and girls and the YWA Counselor, Mrs. J. H. Wells, and GA Counselor, Miss Faye Bonds.

Isabella School News—

Isabella ball teams will play Billingsley here at home on Friday, Jan. 22, and Verbena there on Tuesday, Jan. 26.

Do you read Isabella's school paper, the "Mustang Messenger?" It is intreesting. If you have the opportunity, read it. It is printed every two weeks.

Almost every class in school extended to Miss Catherine Jones their sympathy and wished her a speedy recovery through the school paper last week. Catherine is editor of the paper. She was in a serious automobile accident on Saturday, Jan. 9. She is improving in the Central Alabama Hospital.

Our school extends congratulations to Shirley Kendrick who was married to Mr. Less Hill of Birmingham on Saturday night, Jan. 16, at the National Guard Armory in Birmingham. They had a Hill Billy wedding. They will be at home in Birmingham. Shirley was a senior in high school. We miss her very much. We wish her much happiness in her married life.

The junior glee club is organizing a band. They hope everyone that can will join.

The third grade won room count at P-TA last Monday night.

The juniors are expecting their class rings soon.

* * *

Mr. and Mrs. Vernon Hamrick Jr., and family of Saginaw were Monday guests of the Robert Lathams. Also Garland and Betty Smith of New Jersey were the Lathams' guests.

Mr. and Mrs. George Deshazo of Clanton and Mr. Lee Jones were Sunday guests of Mr. and Mrs. Walter Deshazo.

Mr. and Mrs. Joe James Wells and three children of Montgomery were week end guests of theformer's parents, Mr. and Mrs. J. H. Wells

Andrey and Bobbie Nell Latham and Dorothy Abbot were Saturday guests of Mary Pearl Edwards.

Mr. and Mrs. L. S. Calfee and Mr. and Mrs. E. C. Lecroy visited Mr. and Mrs. Homer Lecroy and children in Marion Sunday afternoon.

Mr. and Mrs. Cleckler of Verbena have moved into the Klinner's house on the Walker's place.

MRS. M. COLUMBIA HIGGINS

Mrs. Columbia Higgins, age 61, of Clanton Route 2, died at her home on January 15 at 6 p.m.

She was born in Jefferson County Jan. 28, 1892. She was the former Martha Columbia Glover, daughter of George Glover.

The surviving relatives are: two sons, Milton of San Rose, Calif., and Jack of Clanton.

Four daughters also survive: Mrs. Horace Massey of Selma, Mrs. Dalton Cleckler of Clanton, and Mrs. Arnold Trapp of Anniston, and Mrs. George Hayes, Jr.; one brother, Dewey Glover of Wylam, Ala.

Four sisters survive: Mrs. Dinna Price of Searles, Ala., Mrs. Mattie Howton of Jasper, Ala., Mrs. Frances Vines of Bessemer, and Mrs. Sarah Higgins of Ensley.

Funeral services were held at Hoak Town Cemetery near Birmingham with the Revs. H. T. Cook and Joe Woodson officiating.

Pallbearers were Henry Nelson, Harold and Jimmie Glover, Wilson Higgins and Almous Huey.

Spigener Funeral Home was in charge.

Annual Brotherhood Meeting—

The Annual District Brotherhood Meeting will be held at Hunter St. Baptist Church, Birmingham, Monday, Feb. 1st, at 7:30 p.m. An excellent program has been planned. Some of the featured speakers will be Mr. James M. Sapp, Memphis, Tenn.; Dr. John E. Huss, Spartanburg, S. C.; who has the largest prayer meeting attendance from week to week of any church in the United States; and Dr. A. Hamilton Reid, our State Executive Secretary. Let's get at least two car loads of our men for this meeting—we would like to have more. It will be a great blessing and will help to strengthen our Brotherhood.

If you have not received your new offering envelopes, please inquire about them.

Mrs. Pearl B. Mims, Mrs. H. S. Petersen, Miss Helen C. Jenkins, and Mrs. Sarah E. Jenkins called on friends at Collins Chapel Sunday afternoon. Among them were Mr. and Mrs. Carmon Mims and family who are living in their new home which Carmon himself, designed and built on large, attractive grounds.

The first music recital of the school year will be presented by the pupils of Mrs. H. S. Petersen Friday, January 22, beginning at 7:30. There will be no admission charge and everyone is invited.

LIBRARY: We have two new books sponsored by the Doubleday Young People's Division of the Literary Guild. They are both very fine books.

The first one is a biography of Albert Schweitzer, "The Greatest Man on Earth," who was given the Nobel Prize for Peace in 1953.

The author, Joseph Gollomb, was born in Russia and educated in this country. Joseph Sizoo, President of New Brunswick Theological Seminary says of the book, "It is magnificent. When once you begin you cannot lay it aside."

The second book is a sports story (basket ball) by John R. Tunis. "A City for Lincoln," is the title.

"I REMEMBER"

BY THE OLD TIMERS

From M. D. Murry, Hudson, Wisconsin: I have been much interested in the bits "I remember" as I find them in different papers and they bring back memories of my childhood and of homestead life in Montana.

I am eighty-five years young and was born in a log cabin in Western Wisconsin where life was rugged and money scarce. We, too, made our own soap.

When I was six I started school in the small log building a mile from our house. The furniture was hewed from logs, two small windows furnished the light, and a pot-bellied stove supplied the heat. The stove was fed by grubs from the trees cut down in clearing the school site.

The books were furnished by the eight pupils who had brought them from other schools. Some of them had one or two, while my proud possession was a Sandels Primer that Pa had traded eggs for at the local store.

When I entered school my troubles really began. Big Bill was then twelve and he kept all of us in an uproar. He told us that when sausage broke open in the frying pan, it had been made of dog. Ma had made our sausage and when I refused to eat a broken one, she had to take me to the stove and show what heat would do in cooking.

We always shed our shoes at the first warm spell in spring and did not find them again until it froze up. The skin on our feet became as tough as leather, though occasionally we got bruises which required that we "baby" our feet for a long time.

County ASC Committee Will Accept Applications For Cotton Allotments

An owner or operator of a farm for which cotton acreage allotment has been established for 1954 may file an application for such a cotton allotment under certain conditions, Eddie Owen, Chairman of the County Agricultural Stabilization and Conservation Committee, said today.

All such applications will receive careful consideration, the Chairman explained, but to be eligible for the allotment, the owner or operator in such a case must meet the following conditions: He must depend upon his farm operations for a livelihood, he must not have any other farm which already has a cotton allotment, and he must not have on file in the County ASC Office a similar application for a cotton allotment on any other farm in the county which he owns or operates.

Applications for such new cotton acreage allotments must be filed in the County ASC Office not later than February 15, Mr. Owen said.

Under the 1954 cotton marketing quota program, approved by growers in a national referendum last December, all cotton farmers are subject to the quotas, which operate through acreage allotments. Farmers who comply with their cotton allotments may market free all the cotton they grow. Cotton grown by farmers who do not comply with their allotments will be subject to a penalty on each pound of the 'excess' cotton.

Offices Will Remain Open

Since February 1st is the last day to pay Poll Tax the offices of Tax Collector and Probate Judge will remain open until 7 p.m. the night of February 1st.

What's All The Excitement?

Just in case you wonder what all the excitement in Chilton County is about, ask any W. M. U. lady.

We are having a wonderful time in our community mission work. After this year we pray that our county will be a much better place to live. A great improvement will be made if we let our Lord lead us in each task we undertake.

Beginning this week we will have a series of articles in our county paper. We will try to give you some help on your associational project. We shall begin with group one—which has soul winning.

The purpose of this project is to win souls for Christ. We have many in Chilton County who are lost. Here are just a few things you may do to win the lost:

1. Hold prayer meetings and pray for the lost.

2. Organize an Intercessory prayer league.

3. Teach and help unchurched groups.

4. Hold services in hospital, jail and other institutions.

5. Distribution of Bibles and other religious literature.

6. Place tracts and posters in public places on soul winning.

We trust this will be of some help to each of you.

Please send me a note as you work on your project and let me know how you are progressing in the service of the Lord.

Don't forget to read next week's paper. We may be writing about you.

Chilton County Unity W. M. U. Community Mission Chairman, Mrs. Billy Dykes, Clanton, Ala.

ATTENDS CIVIL DEFENSE MEETING

Judge Dave Tingle attended the Civil Defense meeting at Birmingham last week in which representatives of 10 or 12 counties participated.

The meeting was presided over by Mayor James Morgan of Birmingham and the object of the meeting was for cooperation of the central Alabama counties in helping to take care of the population of Jefferson County in case of atomic bomb attack.

Demo. Executive Committee To Meet

The Chilton County Democratic Executive Committee will meet at the courthouse next Saturday afternoon at 2 o'clock. Purpose of this meeting will be to set qualifications and fees for qualifying for the various races in the Democratic primaries in May and June. All members are urged to be present.

Lenoir and Smith Will Make Race For Re-Election

V. O. (Jack) Lenoir and Harold Smith will run for re-election to membership on the Board of Revenenue and Control in the Democratic Primary to be held in May it was reported this week.

Lenoir is serving now from District 1, and Smith is serving as a member from District 2. Both stated that they would qualify with the Democratic Executive Committee within the next few days.

Ellis Ellison Will Be In Race For Sheriff

Ellis Ellison, who has served as a deputy and police officer for the past 16 years has announced his intentions of entering the race for the office of Sheriff in the Democratic Primary in May.

Ellison is now serving as Police Chief for the Town of Thorsby and has recently served in the same office at Maplesville. He is well known throughout the county. He says he will qualify and announce at the proper time.

Clanton Elementary P-TA To Meet

The Clanton Elementary School Parent Teachers Association will meet at the school next Tuesday night, Feb. 2nd., commemorating "Founders Night." All members are requested to be present and visitors are welcome.

County Putting A Tremendous Effort Into Fight Against Polio

Churches Of County Participating In March Of Dimes Sunday, Jan. 31st

The only epidemic disease in America which is still on the increase is Polio. Last year alone it afflicted 35000 of our children and adults. The National Foundation of Infantile Paralysis has asked that we designate Jan. 31st as Infantile Paralysis Sunday. May no Christian let the sun go down without asking God to aid those who seek to conquer this scourage of our people.

The pastors are asked to send a check from the collection received to the March of Dimes, Box 808, Clanton. Let us make this Sunday's love gift a blessing to every crippled child. —Rev. Donald R. Esty, County Director.

Jemison FFA Plays Clanton FFA In March of Dimes Tilt

The Clanton F. F. A. basketball team played the Jemison F. F. A. team in the Jemison High School gymnasium Friday.

They made $40.50 for the "March of Dimes".

The game was closely contested in the early part but Jemison finally started pulling away and their reserve strength began to show. Ed Riggins of Jemison started to "show off" because he just couldn't seem to miss the goal in the last period. He was high point man for Jemison with 14 points. High point man for Clanton was Donald Wyatt with 11 points. The final score was, Jemison 50 and Clanton 23.

Most Important March Now On

People everywhere are going all-out for the 1954 March of Dimes this year, because of the magnitude of the whole program. Not only has the National Foundation for Infantile Paralysis furnished gamma globulin to heavily stricken areas; but they are now ready to test the vaccine which their grantees have developed, in the hope it will prove to be the answer to this crippling disease.

Volunteers in Chilton County are doing their part to help put over this all-important drive. When you consider that in 1952 alone, 33 Alabama chapters emptied their treasuries in assisting patients and received an additional $142,700 in emergency funds from the national office; and when you consider that in the past 16 years Alabama has sent to the national office $1,304,448 and received in return this amount plus an additional $1,750,478, you can see that Alabama has not contributed her fair share toward patient aid.

You can help raise Alabama from the next-to-the-last spot on the list of contributors, nationwide. Contact your County Campaign Director, and volunteer your services. You will be proud to have a part in stamping out polio.

Maplesville P-TA Meeting Date Changed

The meeting date of the Maplesville Parent Teachers Association has been changed to Thursday, Feb. 11 at 7:30 p.m. Mrs. Frank Cowan and Mr. Carlos Owen will have charge of the program.

A movie will be shown, followed by a panel discussion.

All patrons and friends of the school are invited.

THE MIRACLE OF AMERICA

It has long been the fashion in the foreign press to carricature the U. S. not as Uncle Sam, but as Uncle Shylock. We ourselves often revel in our riches. We like to think of ourselves as "hard-headed business men," "super-salesmen."

In our current folklore, the fabulous frontiersman, idol of our pioneering youth, has been displaced by the oil tycoon, the giant of finance, the merchant prince.

Why this absorption with the materialistic in our make-up? Are we ashamed of the equally compulsive drive within us which has made the March of Dimes one of the wonders of the modern world?

Friday night the people of America will witness a human spectacle observable nowhere else in the universe. At a given signal, a million and a half American mothers will stack the dinner dishes in the kitchen sink and call on the neighbors in their block to collect money—dimes and dollars—not to enrich their family coffers, but to fight polio and, incidentally to enrich their immortal souls.

And the neighbors upon whom they call will need no sales-talk, no wheedling, no tear-perking appeal. They will already have indicated their eagerness to give by turning on their porch lights.

What have they to gain?

Only the satisfaction of knowing that they are helping banish a dangerous menace to the health of children yet unborn. Only the inner glow that follows voluntary personal sacrifice.

The miracle is that these gains are all they ask. This is the miracle of America.

"I am sure, that the heroic fight that is being waged against polio has a special appeal to every mother in the county. And especially is that true this year when the scientific research discoveries of 1952 and 1953 hold out the promise of eventually winning the battle to rid our country of the scourage of infantile paralysis.

"Only by making adequate funds available for continuing this vital scientific research can we hope to achieve our goal—to remove the dread fear of polio from the minds of every man, woman and child in our nation.

"Until the fight is finished and the victory won, we must provide the funds for the care and treatment of tens of thousands of polio patients. The March of Dimes is the answer to both of these vital aims.

"Every mother in the county will want to have her share in this epic undertaking. And there is no more effective way than by volunteering her services for the Mothers' March."

Every chairman in every community of Chilton County please have your love gift tabulated accurately when you report in Clanton Friday night for the full results of our work. I am confident that the Mothers' March will receive the generous support of every man, woman and child in our county. This will be our part of the great Miracle in America. We can depend on you I know. Good luck.

Nabbed By A Tire Tread--

Vandal Wrecks Bargain Store; Second Entrance

A negro youth about 19 years of age broke into the Bargain Store, owned by Burt Allison, Sunday night and took approximately $40 worth of merchandise. However, great damage was done the store and stock. Hats were taken from their boxes and piled in the floor and then walked upon. Shirts were taken from their boxes and paste poured over them. Shoes were taken from boxes and thrown all over the store. The place was in a mess when the owner walked in Monday morning. Hundreds of dollars worth of damage was done it was reported by the owner.

Marshall Williams, local police officer was given credit for the capture of the culprit. Williams found bicycle tracks behind the store Monday morning and noticed the different tread of the front and rear tire. He then got into his police car and drove to West End and inspected bicycle tires until he found the tread he was looking for. After arresting the negro youth who was Jessie Herron and taking him to jail Sheriff J. Luther Kendrick got the negro to admit the theft and tell him where the stolen property was, it is reported.

Herron is charged with burglary and grand larceny.

T-J Lions Club Meets At Jemison Today

The T-J Lions Club will hold its regular meeting next Thursday night at Shaws Cafe, 7:00 p.m. All members and directors are urged to be present. Several vital proposals are to be discussed.

Unity Association Executive Committee Will Meet January 31

The Executive Committee of the Unity Association will meet at the Billingsley Baptist Church on Jan. 31. The meeting will be held at 2 o'clock in the afternoon. All members of the committee are requested to be present.

RESOLUTION

WHEREAS, the Coosa River forms the Eastern boundary of Chilton County, and the citizens of this county as well as the State of Alabama are vitally interested in the further development of this river for naviation purposes, hydro-electric production and recreational purposes;

WHEREAS, the Alabama Power Company has proposed to build five additional dams on the Coosa River, which with its existing dams will make possible the completion of the development of the Coosa River for power and navigation purposes and which will add greatly to the development of this county and area as well as Alabama in general.

WHEREAS, the Lions Club of Clanton, located some 12 miles from the Coosa River is interested in civic improvement and community betterment, and vitally interested in this development, and is familiar with the proposal of the Alabama Power Company, and

WHEREAS, congressional action is necessary before said Alabama Power Company can proceed with this proposed development.

NOW THEREFORE BE IT RESOLVED, AS FOLLOWS:

1. That the Lions Club of Clanton is highly in favor of and approves the proposal of the Alabama Power Company and commends said Company for its willingness and ability to go forward with the development of the Coosa River; and it does hereby strongly urge Congress and particularly the Senators and Representatives from Alabama, to take the necessary action so that the Alabama Power Company may proceed with this great development without delay.

2. That a copy of this resolution be sent to the Senators and Representatives in Congress from Alabama, and to the Heads of Governmental Agencies concerned.

3. That a copy of this resolution be furnished to each newspaper published in Clanton and a copy be filed in the records of the Clanton Lions Club.

READ, ADOPTED AND APPROVED, by the Clanton Lions Club at its regular meeting on the 22nd day of January, 1954.

CLANTON LIONS CLUB,

Thorsby-Jemison Lions Club Sponsors Basketball Game

On Friday night, February 5th, the T-J Lions Club will sponsor a basket ball game between the Clanton (Colored) Junior High School and the Jemison (Colored) Junior High School at the Jemison High School gymnasium. Two games will be played, with the preliminary beginning at 7:00 p.m. and the feature game at 8:00 p.m.

A great deal of friendly rivalry exists between these two schools and they really put on a show. The two teams have met in several games previously, and appear to be que, and each thoroughly delights in evenly matched in skill and techaiwinning over the other.

From this kind of a situation the spectators can be assured of a dandy good game, and an evening of fun and enjoyment.

Folks, you really want to see this one. Its gonna be a spine-tingler. Comfortable seating arrangements will be made for all our colored and white friends. A reasonable admission will be charged, all funds going to our T-J Lions Club, and will be used principally for sight conservation. The LIONS number one project. Come on out and help this most worthy cause. Watch for further announcements in next weeks issue of the News.

The Rocket, first successful steam locomotive, built in 1829, still is preserved in a London museum. Small by today's standards, it weighs only eight tons, once astounded spectators by attaining a hitherto unheard-of speed of thirty miles an hour, running between Manchester and Liverpool.

"We Build"

What Kiwanis Is Doing

Starting this week Clanton Kiwanis Club will bring a short article on it's aims and interest, it's projects and its accomplishments, to readers of Chilton County News.

The Kiwanis Motto is "We Build," and the thought this week is along this line. If Mr. Average Citizen would boost more and knock less, we would all accomplishe more.

In the future boost your city, county and state officials and encourage them in their work. We will have better officials if we cooperate with them. No man can do a good job, whether it be in private or public life, if he is under pressure all of the time through criticism. Most of our men in public life are fine Christian men and are trying to do their best in the position they fill. They deserve your help and are entitled to it.

In boosting our elected and appointed officials we boost our city, our county and our state. Join the Kiwanians in boosting, and remember their motto: "We Build."

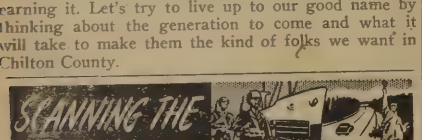
YOU BE THE JUDGE

We wonder sometimes, what it will take to convince the people and officials of Chilton County of the importance of some recreational facilities for the children and teen-agers of our communities. There have been suggestions, true, but not sufficient action to promote any such establishments necessary for every community, and ours is no exception.

If young people do not have the right kind of entertainment then they resort to the wrong kind. There have been many reports and actual cases of vandalism in and around Clanton the past few months. Recently a dry goods store was entered and apparently instead of stealing anything the intruders wanted more to mess up things than anything else. This is not a good sign of sufficient recreational places for our young folks. Since kids do have to be busy all the time, then it stands to reason that if they aren't helped out in finding the right kind of fun by the grown folks they have to find their own and either aren't raised in the right direction or are mean enough to find fun in destroying other people's property. Both, we think, should be under the same category.

We do not question the judgement of officials or parents on the matter of a new auditorium or other means of activity, but when it comes to vandalism, then it is time someone's integrity or at least judgement is questioned.

We have chosen as our motto, and it is a good one, Clanton, "A good place to visit, A better place to live." We cannot deserve this worthwhile name without first earning it. Let's try to live up to our good name by thinking about the generation to come and what it will take to make them the kind of folks we want in Chilton County.



LIKE the "chicken or the egg" controversy, there's the ever-continuing U.S. highway development program and the question of what and which is a federal or local problem.

Some weeks ago, a bloc of organizations and legislators recommended Congress keep the present gas tax and expand the program of federal aid to accelerate road building.

Direct opposition came from those who would repeal the present tax, scrap federal road aid, and leave highway development to the states. Back in November, some state governors adopted a resolution calling for the federal government to withdraw from the gasoline taxation field and leave it to the states.

Active in the fight to keep federal aid to highways is the American Road Builders' Association, supported by the National Farmers Union, National Grange, the Chamber of Commerce of the U.S. and other groups.

The pro-federal-aid groups argue that federal aid is a Constitutional obligation of the government—due to the importance of highways to national defense, mail delivery, interstate commerce and the national welfare.

They claim that, although America has some of the world's best highways, about two-thirds of the 664,000 mile system are deficient.

Supporters of the opposite faction say federal aid is just the opening wedge to unlimited expansion by the government in this field.

That's why the present session of Congress is being watched so closely by both groups. The Commission on Intergovernmental Relations is due to report on a study of highway construction on March 1. Congress convened with the knowledge that it must move before April 1 or allow the federal gasoline tax to drop from the 2-cent level to 1½ cents as scheduled. The end of the current fiscal year, July 30, will also require Congressional action on a new appropriation for the Department of Commerce, a bill usually carrying millions for federal-aid highways.

● Since President Eisenhower delivered his state-of-the-Union message, Republican leaders have been attempting to "shake down" the long list of subjects to see how much of it can be placed on the "must" list for legislative action. They feel it necessary to settle for a shorter list and then drive hard to complete action on those issues.

This being an election year, Congress hopes to wind up its schedule around July 1, but will still have difficulty, even if the proposed program is whittled down considerably. Most of the issues are too controversial.

The defense budget is expected to keep the house busy until April 1 and the House appears reluctant to take action on too many controversial bills—such as Taft-Hartley—until the Senate has acted. They don't want to see bills bogging down in the Senate.

Observers say one thing is certain: there is strong feeling in Congress that taxes must be held down and that scheduled tax cuts must be carried out.

Gave an old thin, beat-up dollar bill to Bill Minor the other evening and remarked something about it seeing better days. "Oh, It'll go a long way yet," he said. There's just one small catch, Bill; it doesn't go a long enough way with the same fella. The longest it stayed with me was about 79c. I don't know if he did any better with the old dollar, but if I'm any example I'll wager it didn't stay with him much longer.

Confidentially though Bill, I rather doubt that a new one would have lasted a bit longer.

These new automobiles are quite the stuff, but they are gettin' a little confusin'. Saw a fella the other day open the door and the car started off. This could prove interesting because you'll have to be pretty darn agile to get into driving position by the time she's going good. This was an older model car so this feature is possibly obsolete by now. I'll tell ya', Gurthie Easterling has a pretty good feature on his old car. He was leaving for work the other morning and we heard a somewhat loud, muffled explosion. I think he'll claim it isn't jet propulsion or a new experiment... only a cold ford whose pistons aren't working to good at times. Or maybe (if you'll pardon the implication) it was his wife; there re humdingers at driving you know.

But, boy can they cook.

They have a photograph in the window down at the Power Company that bears looking at. They claim it's a message from Reddy Kilowatt and I'd bet it isn't a picture of the board members. It's more like a members of the BOAR than anything else. You'll have to see the picture to get the photograph, or something like that.

Marshall Williams deserves unquestionable credit for the job he has undertaken and is handling so well as one of the guardians of the law in our fair city, and since he is a good acquaintance of ours we hope he won't mind a little recognition. Had a fire around town a few days back and Marshall went to it; at least he started to it. All the firetrucks came through town and turned west over the bridge. Marshall came kaflyin' up the highway at a right smart clip and either didn't see them turn or was taking a short cut (which could be very probable because we haven't ask him). At any rate they went West and he went North and I don't remember where the fire was because I never knew so he was probably right all the time. It just seemed right amusing at the time, him going to a fire the wrong way, and in such a hurry. The guys down at the filling station seemed to get such a big kick out of it so we thought it was puettry good, too.

Heard a fella say the other day that he had a solution for paying bills. Not how to keep from paying them, but how to choose who to pay this month. He just wrote down all his creditors names and drew one from a hat. You know, if a creditor were a lucky fella he might just get his whole amount back in a few short months. Hate to think of the unlucky one, though. We have to pay ours different from this fella. We always pay the one that demands a remittance. I hope this doesn't give any of mine any ideas 'cause I'm trying fellas, honest.

Mr. Arthur Taylor was in to see us the other day and to pick up a job and commented that if people saw what it took to turn out job printing they wouldn't gripe so much about the price. Now, mind you, we didn't say that, he did. Don't know so much about the price, Mr. Taylor, but I'll bet it would help out a lot or me, "wanting the minute they order" routine. We're not saying that any other business isn't the very same, but we don't know any other business. Mr. Taylor also learned that a "set" wasn't a "book", too, after we had already thrown his job in. Had to dig it out of the metal box. "Hell box" is the printing term, but we were afraid you wouldn't understand what we meant. That's where the term "printer's devil" came from, in case you are interested.

Good Road Ahead For Beef Growers

Auburn, Ala.—Beef cattle are coming into the market limelight again to put cattlemen in a much more favorable position.

Recent market prices have painted a brighter future for growers caught in the costly price slump of the past two years, says AP! Extension Marketing Specialist A. W. Jones. In Montgomery early this month choice 550-600 pound creep-fed steers sold for $23 per 100 pounds. Two months ago choice calves were going for $16 and in early January, 1953, they brought $22.95.

The present price jump is partly due to fewer quality cattle coming to market because of the huge number of drought and feeder cattle slaughtered last summer. It is hoped higher prices now will encourage more cattle feeders to buy stockers next summer.

Some seasonal decline in prices can be expected during the heavy marketing season next fall, adds Jones. But present developments indicate that producers may be over the worst hump of falling cattle prices.

Jesus and Nicodemus: John 3: 1-16
Golden Text: John 3: 16

Nicodemus is known as the man who came to Jesus by night, and many have believed he was afraid to come by day. But later he cooperated with Joseph of Arimathaea in laying the body of Jesus away.

Though one of the teachers of Israel, he was greatly in need of being taught. And he was humble enough to come to Jesus for instruction. He could not understand how a man could be born again. And there are many to the present time who have never learned the way and the how of the new birth. A great preacher in London, hearing the celebrated young Summerfield preach, afterward asked the young man where he had been born. "In Dublin and in Liverpool." was the answer. "How can that be?" the great preacher asked. Summerfield replied with a question, in the words of Jesus in speaking to Nicodemus, "Art thou a master in Israel and knowest not these things?"

By faith in Christ, men may be born again and enter into new life for the soul. Reader, do you trust in Jesus as the savior of your soul? John Wesley was long without the assurance that he was the re deemed child of God, a new-born man. But in his memorable experience in the Aldersgate Street Church in London, as one was reading the Scripture, he felt his heart strangely warmed, and was given the assurance that God for Christ's sake had forgiven his sins and made him an heir of everlasting life. Let us find such an assurance through our faith in Jesus Christ, the Son of men.

ACROSS the DESK

ideas from other editors

From the Dearborn Independent, Dearborn, Michigan: Have you ever heard it argued that the way to meet the cost of government is to soak the corporations harder and let them pay the bill?

If so you should be interested in this fact: If all the profits, after taxes, earned by all the corporations in the country in 1952 had been confiscated in toto, the resulting revenue would have met government expenditures for only 72 days —a little more than two months!

* * *

From The Brookfield Courier, Brookfield, New York: During the last fiscal year, the states collected $10,500,000,000 from their citizens—which works out to $68 for every man, woman and child in the country.

This comes to a total of $478.04 per capita, or close to $2,000 a year for a family of four—and it doesn't include local taxes, for which figures are not available.

The point is that taxes, direct and indirect, are the biggest single expense borne by a great number of our businesses. There is an endless amount of grumbling over the high cost of living. There should be an equal amount over the high cost of government.

* * *

From the Newark Courier-Gazette, Newark, New York: The Administration did a good job cutting about $6,000,000,000 from the Truman budget for the year. The country accepted the view that huge programs authorized by the outgoing regime made it impossible to balance Federal expenditures and revenue.

But it was disturbing to hear Treasury Secretary Humphrey—a strong advocate of economy—say recently that "the habit of extravagance" is ingrained so deeply in government that the deficit for 1955 may be nearly $9,000,000,000.

Mr. Humphrey was correct in saying our government is steeped, in the habit of extravagance. That's one reason why the people voted for a change in 1952.

If the Eisenhower Administration cannot curb the demands of the entrenched Federal bureaucracy and deal courageously with pressure groups asking handouts, its failure will be its own. Future deficits cannot be blamed on past Administrations.

* * *

From the South Pasadena Review, South Pasadena, California: Ten years ago (1942) total taxes were only one-fourth of what they were in 1952. And as to spending, it is estimated that the federal government spent twice as much last year as in 1942, despite the fact that we were in a shooting war a decade ago. Gad! Think of the expense if we ever got to a genuine peace.

CONGRESSIONAL Quiz

Q—Do territorial delegates to the U. S. Congress have the same rights and privileges as Congressmen?

A—Yes, except that they may not vote. The Delegates from Alaska and Hawaii, and the Resident Commissioner from Puerto Rico, may introduce bills, be assigned to committees, speak on the floor, and participate in all actions of the House except voting, either on the floor or in committee.

Q—How many of the members of President Eisenhower's cabinet have served in Congress?

A—Two, and both served in the Senate by appointment. Secretary of State John Foster Dulles (R N. Y.) served in 1949 and Secretary of Commerce Sinclair Weeks (R Mass.) in 1944. Of the remaining eight Cabinet members, two had prior service in elective offices. Attorney General Herbert Brownell, Jr. (R N. Y.) served in the state legislature, and Secretary of the Interior Douglas McKay (R Ore.) has been state legislator, mayor and governor.

Q—As finally signed into law, does the special immigration act provide for the admission of non-refugees?

A—Yes, although most of the visas will be issued to refugees, escapees, and expellees. The Senate bowed to the House in allowing for some non-refugees who have close relatives in the U. S. Refugees, escapees, and expellees are defined broadly to include such categories as victims of the Holland floods, former residents of the old Italian colonies, and persons uprooted by the Greek civil war.

Q—How much money did Congress save by changing the free mail system Aug. 1?

A—The bill does not cut expenditures. Through revised bookkeeping, it relieves the Post Office Department from charging the costs of franked mail against its appropriations. Instead, Members of Congress and government agencies sending out free mail will charge the costs against their own appropriations, trimming the Post Office deficit.

SHOULTS NEWS

(By MRS. EZRA LEE LAWLEY)

Wednesday of this week, Mrs. Ina McKinney, Mrs. Walter Lawley, Mrs. Ezra Lee Lawley and Sandra made a trip to Selma. Mrs. Walter Lawley was under the care of a doctor. She has improved very much. While in Selma they visited Mrs. Jack Kynard (Vara McKinney). Mrs. Kynard's two children were very ill with strep throat and the measles.

Mr. and Mrs. Fred Oden and Mr. and Mrs. W. M. Oden from Montgomery spent Wednesday with Mr. and Mrs. Crit Oden. Everyone is always glad to see Granny and Grand Dad Oden as they are known around here. Grand Dad Oden is 91 years of age.

Mr. and Mrs. I. D. Wilson and children, Linda, Dale and Kenneth, from Pensacola, Fla., spent the week end with Mr. and Mrs. Walter Lawley and family.

Mr. and Mrs. A. H. Seeley (Lettie Walker) and Mrs. Howard Boie (Allie Walker) of West Palm Beach, Fla., spent a couple of days here with their sister, Mrs. Willie Hathcock and Mrs. Sam Shoults also visited relatives in Maplesville and Prattville. They were in Alabama to attend the funeral services of their sister, Mrs. Lena Snead, of Centreville.

Mrs. Snead passed away Monday, Jan. 18th, at the Druid City Hospital, Tuscaloosa, after a long illness. The funeral services were held at the Mt. Zion Baptist Church with burial in the adjoining cemetery, in Bibb County five miles south of Centreville. She was 61 years of age, born and reared in Shoults Community, married to Mr. Carson Snead in 1915. She was the mother of four children; one son, killed in action during World War II, Seymore Snead, a Navy pilot shot down near Japan by the Japs. Mrs. Snead is survived by her husband, Mr. Carson Snead, of Centreville; one son, Bert Snead of Clanton; two daughters, Mrs. Mary Lou Yarchin of San Antonio, Tex., and Mrs. Edna Earl Young of Aberdeen, Miss., two brothers, Wheeler Walker of Maplesville, and Horton Walker of Prattville; five sisters, Mrs. Willie Hathcock, Mrs. Ida Shoults of Lawley, Miss Lucy Walker of Maplesville, Mrs. Lettie Seeley and Mrs. Clara Allie Boie of West Palm Beach, Fla.; nine grand children and a host of other relatives and friends. We extend to the family our deepest heart felt sympathy.

Mr. and Mrs. George Shoults and Mrs. Willie Hathcock made a business trip to Clanton last Saturday.

Saturday afternoon Mr. and Mrs. Ray Young and four children of Aberdeen, Miss., and Mr. Carson Snead visited relatives in this community enroute to Clanton to visit their son and brother, Bert Snead.

Mr. and Mrs. Harvey Grover and Sherwood of Maplesville spent Sunday with Mr. and Mrs. Walter Lawley.

The GA's had their meeting Saturday night at Mr. Dan Maddox's home. The leaders of this group are Mrs. Robert McAfee and Mrs. Joe Davis. The members that were present were as follows: Maudine, Mary Ann and Helen Maddox, Joyce, Marjorie and Mrs. Robert McAfee, Shirley Davis, Rev. and Mrs. Joe Davis, Jo Ann Lawley. The other visitors in the home Saturday night were Mr. and Mrs. Cleve Latham, Mr. and Mrs. Cal Lawrence, Mr. and Mrs. Ed Lawrence.

The Sunday visitors of Mr. and Mrs. Dan Maddox were Mrs. Ruby Gentry, Mrs. Annie Lou Bentley and son, Hugh Wesley, Mrs. Harvey Grover, Mrs. Fannie Lawley and Jo Ann.

Mr. and Mrs. Sherman Motley Mable and Harold, and Miss Mabeline Sealy visited the YWCA and Wheeler Business College in Birmingham Monday of last week, where Mable and Mabeline plan to enter in June.

Mr. Roy Wallace's children of Birmingham visited him over the week end, Mr. and Mrs. Glenn Wallace.

The week end guests of Mr. and Mrs. Messer Smith and Mrs. Annie Sewell were Mr. and Mrs. Hudson Smith and children of Birmingham.

The Sunday guests of Mr. and Mrs. Ezra Lee Lawley were Mrs. John McKinney, Archie and J. R. of Stanton, Ala. Bob McKinney and wife of Montgomery and Mrs. Sherman Motley and Mable of Maplesville.

Mr. and Mrs. Grady Harrison and children visited his parents, Mr. and Mrs. Wyle Harrison, of Stanton.

Mr. and Mrs. Rother Harrison spent the week end in Selma with their children, Mr. and Mrs. Ben Mitchell and Mr. and Mrs. Billy Harrison.

Your reporter wishes to thank each and every one that gave to the March of Dimes.

Mr. and Mrs. John Foshee made a trip to Selma last Friday. We are glad to report that Mrs. Foshee is well again.

Sunday guests of Mr. and Mrs. John Foshee were her mother, Mrs. Rebe Mott, Mr. and Mrs. Jack Shoults and son, Mike, Mr. and Mrs. Felton Shoults and daughter, Linda of Selma. We are glad to report that Mrs. Rebe Mott is improving now.

Mr. and Mrs. John Foshee shopped in Clanton Saturday of last week.

ALABAMA HIGHLIGHTS

WHERE OUR STATE GOT ITS NAME

The etymology of the word or name Alabama has evoked much discussion among American philological students. It was the name of a noted Southern Indian tribe, whose habitat, when first known to Europeans, was in Central Alabama. The greatest river in the State received its name from this tribe, and from the river, in turn, the name of the State was derived.

* * *

The tribal name Alabama is spelled in various ways by the early chroniclers, Spanish, French and English, some of which forms are here given: Alabama, Albama, Alebamon, Alibama, Alibamon, Albamon, Alabamu, Allibamou. The name first occurs in three of the chronicles of DeSoto's expedition of 1540, written Alibamo by LaVega, Alibamu by the Knight of Elvas, and Limamu by Ranjel In the last form the initial vowel is dropped, and in both are last two the first "m" is used for "b," an interchange of these two consonants being common in Indian languages. The name, as recorded by these chroniclers, in this case, was the name of a subdivision of the Chickasaws, not the historic Alabamas of later times.

* * *

The popular belief, which is engrated in a number of current histories and geographies, is that Alabama signifies "Here we rest." This very pleasing etymology, during the fifties of the last century, obtained a wide currency through the writings of Judge A. B. Meek. But the very first account of the origin of the name as far as is known, is contained in an issue of the Jacksonville Republican, Jacksonville, Ala., July 27, 1842. Whether Judge Meek himself was author of this etymology, traced back to this source, is a question as yet unanswered.

* * *

As to the Muscogee origin of the name, thorough experts in that dialect have confessed their inability to find it in any word or phrase similar to Alabama and meaning, "Here we rest. However, according to the recent investigations of Indianologists, the tribal nime, Alabama, must be sought in the Choctaw tongue, as it was not uncommon for tribes to accept, as a national or tribal name, an appellation bestowed upon them by some contiguous tribe. The late Rev. Allen Wright, a highly educated Choctaw, translates the name as "Thicket-clearers," compounded of "Alba" a thick or mass of vegetation, and "amo' to clear, to collect, to gather up.

IS YOUR NET FARM INCOME GETTING THE SQUEEZE?

The prices of most farm products ARE DOWN. The cost of what farmers have to buy HAS NOT declined. The margin of profit is LESS. These are facts faced by many farmers—

A PRICE - COST SQUEEZE!

Because of these very conditions, farmers may need MORE CREDIT — LONG-TERM CREDIT — the kind that is available in a LAND BANK LOAN. These loans are made for terms of 5 years up to 40 years, at 4 PER CENT interest—the LOWEST rate in the history of farm mortgage lending.

LAND BANK LOANS carry other special benefits, in addition to the low interest and long time in which to repay. A LAND BANK LOAN may be REPAID IN FULL at any time WITHOUT CHARGE for that privilege. You only have to pay the principal, and interest earned to date of payment.

LAND BANK LOANS are made through and serviced by your local NATIONAL FARM LOAN ASSOCIATION, which is managed by your own neighbors and friends.

If you NEED MORE OPERATING CAPITAL—if you have an accumulation of SCATTERED DEBTS—

Alabama's 1953 Fire Prevention Record Becomes Tops In History Of State

Montgomery, Ala., Jan. 28—Alabama's 1953 forest fire prevention record was the best in State History despite extreme drouth conditions during the fall which led to severe increases in forest burn.

According to figures released here today by the State Department of Conservation only 1.59 per cent of the 18,111,598 acres of forest under protection in Alabama burned during 1953. This compared with 3.28 per cent in 1952 and 2.36 per cent burn in 1951, both considered good annual protection records.

Earl M. McGowin, Director of the Department of Conservation, said the record in 1953 was only a fraction of one per cent above the 1.4 per cent considered as basic fire protection and set as the ultimate goal of State firefighting forces.

"We are extremely grateful for the excellent cooperation exhibited by almost everyone concerned during the period of extreme fire conditions when all the help and care possible were needed to limit the extent of burn," McGowin said.

"It was necessary to utilize every firefighting reserve available. Closing of the hunting seasons in 26 north Alabama counties during the crucial period helped to bring the large numbers of fires under control. The sportsmen and numerous volunteer firefighters cooperated splendidly," McGowin stated.

Through the month of October 1953 only .89 of one per cent of the State's protected area had burned. It looked as though the basic protection figure would be attained, but drouth conditions in November led to increased burn which skyrocketed the percentage up past the goal.

Of a total of 288,700 acres of forest that burned in Alabama during 1953, 37.3 per cent or 107,621 acres burned during a period of 14 days, Nov. 6-19 inclusive. Of a total of 7,654 fires during the year, 1,043 of them occurred during this crucial period.

"The extraordinary loss during this short period points up again the necessity of maintaining some mobile firefighting units for concentration in any part of the State during periods of emergency. We hope to do this next year if the additional conditional appropriation by the legislature is available," McGowin said.

The best previous annual forest fire record in Alabama was 1.66 per cent burn in 1943 when only 9,602,919 acres were under protection in the State.

Nitrogen Top Dressing Will Increase Oat Yields

Auburn, Ala.—Oat Yields can be raised as much as 40 bushels per acre by top-dressing the grain with 48 pounds of nitrogen per acre.

API Extension Agronomist D. R. Harbor advises farmers to top-dress their oats March 1. Either 300 pounds of soda or 150 pounds of ammonium nitrate will supply the recommended 48 pounds of nitrogen. More than this amount causes serious lodging.

"And when you top-dress your oats," says the farm leader, "remove all cattle to allow the crop to make fast growth and maximum grain."

Harbor cites these research findings as evidence that economical oat production depends on an early spring top-dressing:

In a six-year test at one Alabama substation oats planted about Oct. 15 and fertilized at planting with 300 pounds of 4-10-7 made an average yield of 21.6 bushels per acre with no top-dressing. Those acres top-dressed with 300 pounds of nitrate of soda averaged 64.5 bushels per acre.

In a demonstration conducted by county agents during 1948-49, one of Alabama's worst oat years because of heavy insect and disease attacks, 33 farmers in various soil regions averaged 39.6 bushels per acre on oats top-dressed with 48 pounds of nitrogen. They made only 15 bushels on acres receiving no nitrogen.

"These and many other case histories point out the value of using nitrogen on oats," concludes Harbor. "Farmers with an eye on profits will get set now to apply a nitrogen top-dressing the first of March. And remember, the same results in increased yields can be obtained on oats for hay as on oats harvested for grain."

Thumbsucking

A parent who attempts to break his child of thumbsucking by scolding or even coaxing is not using good judgement. Either practice can be harmful because it denotes a lack of everyday common sense in rearing a child.

A child's first automatic sense of comfort is through sucking. Whether breast or bottle fed, sucking satisfies his hunger; and it isn't long before he discovers that the thumb is a handy gadget for his mouth, and thus is established the thumbsucking habit. Very often the habit suggests that the baby is not getting enough sucking. Perhaps he has been taken away too soon from the breast or the bottle, or maybe he has been put on a nursing schedule that allows too few nursing periods. In any event, the child derives comfort from his sucking, an important factor in why he does it.

As the child grows older, he usually resorts to sucking his thumb to fill an emotional need. Feeling unwanted and alone may be responsible; so he seeks to satisfy himself. Unhappines, fear and insecurity are emotional problems that loom high on a child's horizon.

It is generally conceded that up to the first few years, thumbsucking may be considered normal with the habit acting as a sort of pacifier or comforter. A child's curiosity is an ever present wonder. The more he explores the new things about him, the more his mind is taken away from himself. Usually by the time he reaches the wonders of his five - to - six - years - of - age world, the thumbsucking habit is forgotten.

If the practice continues beyond this age, however, definite steps for correction should be undertaken by consulting with your physician. Wise parents will understand that thumbsucking is a normal practice for the very young and that the child will stop it unconsciously as he grows older. They will understand too that, in addition to food and clothing, a good share of affection and love are essential to meet the youngster's emotional needs.

Notice when your child sucks his thumb; don't call attention to it, but try to understand the circumstances surrounding the action. Then try to attract his interest by creating new and happy situations and satisfactions.

A POET'S PICTURE OF A MAN

"And he shall be like a tree planted by the rivers of water." Psalm 1:3.

How on earth can a man resemble a tree? If he looked like one he would be considered a monstrocity. Some light may be shed on this queer figure of speech if you will read the rest of the sentence quoted here:—"his leaf also shall not wither, and whatsoever he doeth shall prosper.' Similarity in physical appearance was far from the poet's mind. The inspired artist is presenting us with the picture of a man who by the sway of a clean character, and the dedication of his God-given talents, may hope to merit the commendation of his Master, "Well done, thou good and faithful servant." If you would catch the meaning of it yourself, read the two verses preceding this quotation; and while you are at it, read the whole psalm, for you will never spend a more profitable two minutes in your entire life.

Before proceeding further, please pause for another glance at the word "planted." Competent Hebrew scholars tell us that it should have been translated "transplanted." The figure is that of a sapling dug out of the wild underbrush and reset beside the still waters of a garden in a fertile valley, to be recipient of all the nourishment and care needed for its development into a towering tree, handsome and robust. Such is the way of the Creator with a responsive soul.

Without trees this globe that we think of as a beautiful world would be a limitless Sahara—no limpid streams, no harvests, no resources that would make human habitation possible. The first glimpse of it offered to man and woman, the ultimate of creative achievement, was in a park more beautiful than the Vale of Cashmere, the Bible name of which was the Garden of Eden.

The dismal story however, is that the descendents of that first pair, reckless of the assets given to them in an untarnished world, have been unsparing in their efforts to rob the earth of its natural glory. The towering giants of the limitless forests have gone down under the ruthless onslaughts of an unthinking race.

"He shall be like a tree." As with trees, so with human creatures; sin has played havoc with the race. But is there a chance for a restoration of the uncorrupted glories of the first creation? Here is the answer. Any man who is willing to walk according to the requirements, separated from the debasing crowd that would drag him down—that man will be like a lofty tree, exhibiting the purpose and power of Him who has taught lisping lips to say, "Man's chief end is to glorify God, and to enjoy Him for ever."

SOUTHERN BELL ASKS RATE INCREASE

Montgomery, Ala.—The Southern Bell Telephone Company has petitioned the Alabama Public Service Commission for permission to put in a rate increase averaging two cents a day per home telephone.

The petition says this will amount to about $4,790,000 a year, but taxes would reduce the annual net to about $2,174,610.

The utility cited "inflated costs" that have resulted in a sharp decline in earnings as responsible for the rate hike request. The heavy drain on the company's profits is "unfairly penalizing the telephone investors," the petition said.

Harry E. Lackey, telephone state manager, said the cost per telephone of providing service has risen 91 per cent in Alabama since 1939, while telephone rates have risen only 43 per cent during the same period.

Put chicks in brooder houses immediately; this is the last call for early-hatched chicks that will come into production in July and turn out eggs during months of highest egg prices.

Check Brood Sows At Farrowing Time

Farrowing time offers livestock owners the best chance to check up on the efficiency of their brood sows.

"Size of litter, economy of growth and gains, good type, and mothering ability are inherited," says G. B. Phillips, API Extension animal industry specialist. "If a sow doesn't produce satisfactorily, fatten her for market and replace her with a sow from a dam that has a good record."

Strong tea diluted with a little water makes an excellent antique-like stain for pine wood; when dry, cover with two thin coats of fresh white shellac and then wax.

"What's he like? Well, he's tall, handsome, rich...and is wearing a Sanitone dry cleaned suit."

Anywhere you go—people "go for" good grooming. And good grooming starts with Sanitone Dry Cleaning. Spots disappear like magic—there's no tell-tale cleaning odor and that better, longer-lasting press restores the like-new look to your clothes. Be at your best always—call or come in today!

Safe Driving Is Urged For Your Protection Alone

Let's take a "new look" at traffic safety.

In previous years winter safe-driving programs have warned motorists, "You can't stop on a wet or icy dime"—have tried to promote operating skill with rules-of-thumb and suggested techniques—have told motorists and pedestrians the "what" facts on accidents and the "how" facts of living to see summer.

These are important factors in any winter safety program, and they should not be overlooked this year. But the "new look"—the approach we might all benefit by considering—is the "why" of traffic safety observances.

"Why" should you know traffic laws and obey them? "Why" should you learn safe driving techniques publicized by the Alabama and National Safety Councils? Why should you be alert in adverse traffic?

One obvious answer is in the January slogan of the Alabama Safety Council: "Stay Alert—Stay Alive in Winter Weather. By surviving winter's traffic without accident, you may very well be saving your own life.

Just as important a reason, though, is the phrase: "Its your responsibility." That moral and Christian responsibility is two-edged. You are responsible for your own safety in traffic, you are also responsible for others—motorists and pedestrians who may be in the wrong but who you can save from their own folly if you are alert and careful.

Expert drivers have their cars under control at all times. Expert walkers never take chances in traffic. Don't blame the weather or the "other guy" if you have a winter traffic accident.

Accident prevention is your responsibility!

METHODIST CHURCH NEWS

The First Methodist Church of Clanton will have Miss Patricia Huddleston and Miss Penny Leka as guest soloists on Sunday morning. Miss Leka will give a violin solo—Adoration—by Felix Barowski; Miss Huddleston will present, My Redeemer and My Lord by Dudley Buck. Patricia is the daughter of Mr. and Mrs. W E Huddleston, and is majoring in voice at the University of Alabama. Penny is her house guest. Penny is a sophomore at the University of Alabama majoring in violin and studying under Professor Ottaker Cadek. She is from Springfield, Illinois, and is the daughter of Mr. and Mrs. Lloyd E. Leka.

Penny has attended the National Music Camp at Interlochen, Michigan, where she met Professor Cadek, who persuaded her to come to the University of Alabama on a scholarship.

In Illinois, she won national honor in the Federation Music Club Contest, and was concert Mistress of the Illinois all-State Symphony. Penny was presented in concert in her junior year of high school by the Springfield Music Club. This was quite an honor as the usual age for presentation is much older.

SECOND WIND

By Ada McElfresh

IT WAS Spring again and Joe was restless.

And miserable. Tormented with the bitter truth that he—"The Great Lefty Cramer," they had called him last Fall in what had amounted to an obituary for the part of him that was baseball—was, in his own words, "the great has-been."

To Joe's way of thinking, he was through. And since he was through, he was no good for Julie. He seemed to have forgotten that their wedding vows had included "in sickness and in health . . . till death do us part . . ." Julie bit her lip. Joe mustn't see her tears.

She looked up, smiling, but he walked past her, toward the bedroom closet where he kept his treasures, his mitt and mask that he wore when he did double-duty behind the plate, the ball with which he had topped Andrus out as the big slugger galloped toward home plate.

"Darling—". Impulsively, Julie went to stand beside him. "You've had to slow down. All right. Lots of men do. But you'll get your second wind. You can do things, we can do things together, like we always have."

"What, for instance?" he demanded bitterly, without looking at her. "Collect stamps? Or knit? For God's sake, Julie, can't you let me alone?"

He slammed out of the house, catcher's mitt and mask clutched in one hand, the precious game-winning ball in the other.

But Joe didn't come. He still hadn't come by mid-afternoon. But Joe wouldn't do anything, he's too sensible, Julie told herself. He's just walking off his huff . . . But walking — fast — Suddenly frantic, Julie jumped up from her chair by the window. Dear God—please!

He wasn't down by the river, where he usually walked. He wasn't at the cigar store on the corner, where he often swapped tales with oldtimers. Julie hurried on in the warm-for-April late afternoon sun, her mind shut against the unreasoning fear that rose again and again. Joe's heart, his gallant stubborn heart . . .

She paused, of necessity, to catch her breath, aware of the loud shouts of small boys without knowing—or caring—what they were shouting about.

"Eye on the ball now—watch it!" Crr-ack!

That voice—! That dear, familiar yet almost forgotten, happy voice!

He didn't see her at first. Joe didn't, but he was happy. She could tell from the way he stood, feet apart, hands on hips, watching the kid with the bat. It had been a lousy swat but what did that matter?

Julie stood, transfixed, as Freckle-face threw to Towhead who missed and the ball rolled toward her. Joe was looking at her now, not grinning, just looking. Julie caught her breath. What if he weren't . . . what if she were the one who was wrong—wrong for Joe . . .

Quickly, she scooped up the ball which had rolled to her feet and stopped, invitingly. As surely, she hefted the ball to get the feel of it—it had been so long, she realized suddenly—and, drawing her arm back, let it fly like a homing pigeon straight for the plate.

Joe's grin was slow. He held out his arms and she ran into them.

"I'm getting that second wind you've been harping on, honey," he said long kisses later. "I can take that job at the cigar store and still have time to coach the kids, that towhead looks like another Slugger Andrus."

"He does, d-doesn't he?" Lousy swat and all, she thought. But if Joe said so— "Let's make him better still. The second Lefty Cramer—" she giggled—"even if he is a righthander."

For answer, the first Lefty Cramer planted a hearty, approving kiss on her lips.

ALEXANDER S. AYRES

A. S. Ayres, former Kaufman county resident, passed away in Dallas, Texas Thursday afternoon. Funeral services will be held in the Chapel of Anderson-Clayton Bros. in Terrell at 11:00 a.m. Saturday with the Rev. Milton Robins officiating. Interment will be in the College Mound cemetery.

Alexander Stephen Ayres was born in Kaufman county on April 14, 1883. He had spent the greater part of his life farming in this section. Several years ago when his health became such that he was unable to work, he moved to Dallas to make his home.

He was a member of the Methodist church.

He was married to Miss Anna Clara Thomas on July 4, 1914 and to this marriage six children were born. His wife preceded him in death and he is survived by: three sons, Anderson M. Ayres of Fort Lavaca, Texas, Charles W. Ayres of the Air Force stationed in Fort Worth Texas, Terrell Eugene Ayres of Arlington, Texas; three daughters, Mrs. Emily Dickerson of Dallas, Mrs. Betty Robbins of Jacksonville, Texas, Mrs. Vesta Byler of Clanton, Ala., eight grandchildren; two brothers, Tom S. Ayres of Terrell, Will Ayres of Myrtle Springs; two sisters, Miss Alice Ayres of Terrell, Mrs. Lola Graham of Myrtle Springs; a number of nieces and nephews and other relatives.

A bumper crop of castor beans assures plenty of castor oil for 1954. Youngsters needn't get excited, tho, as industry will need most of the oil as a lubricant and as a paint-drying agent.

Good Lambs Due To Bring High Prices

Auburn, Ala.—Most Alabama shepherds now have a big part of their early lamb crop on the ground.

And API Extension Livestockman W. H. Gregory has these suggestions for sending fat, profit-making lambs to market this spring.

"Dock and castrate young lambs early because they suffer less shock than older ones," he explains. "And make sure these fast-growing animals have plenty of good food.

"While lambs are nursing, give ewes an abundance of feed to guarantee lots of nutritious milk. Winter grass and clover are best, but since clover is late this year, many shepherds will have to supplement the ration with good hay and a little grain and cottonseed meal. Give the ewes all they'll eat, and be sure they get plenty of exercise."

"Even if grazing is limited," concludes Gregory, "try to feed ewes a little green stuff every day or two to supply vitamin A and to keep their systems toned up."

For that necessary vigor feed bulls some grain every day during February.

Treat lice-infested animals with DDT or methoxychlor; only one treatment is required.

Be on guard against colds and ir sac disease in your poultry flock

Set your goal at 30 bushels of corn per acre in 1954.

Bituminous coal represented 98 per cent of all the energy produced from mineral fuels and water power in Virginia last year and 95 per cent in West Virginia.

Chilton Not One Of Safest Counties

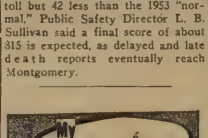
Montgomery—Choctaw County apparently was Alabama's safest county, traffic-wise, during 1953, according to reasonably complete accident figures of the Alabama Department of Public Safety.

With one highway death reported during the year, Choctaw's population death rate was 5.2 persons killed per 100,000 population. During 1952, three deaths in Choctaw ranked the county 12th with a death rate of 15.6.

Coosa, Alabama's thinnest-populated county, shows the highest population death rate of 1953 recorded to date—85.0 persons per 100,600, with 10 killed. Coosa ranked 57th in 1952 with 42.4.

Cleburne County thus far ranks 66th with 75.6, and Dale County 65th with 72.0. Second best in the state, after Choctaw, was Morgan County with 9.4, and next fell Covington, 9.9. Both of these counties rank among the top third of the state in population.

The state's 1953 death toll this week (Jan. 22) had climbed to 807, twenty-five higher than the 1952 toll but 42 less than the 1953 "normal." Public Safety Director L. B. Sullivan said a final score of about 815 is expected, as delayed and late death reports eventually reach Montgomery.



IF IT WASN'T for the fact that most of us forget ourselves once in a while and act like human beings, this old world would be a mighty dull place in which to pass an average day.

Take my sister Sue, for example. Sue's husband owns one of the nicer department stores in town. This is fine for Sue, for she can go down to the store after closing hours, browse around and take her pick of the merchandise.

I have a sort of a different problem with my wife. She starts out to buy a loaf of bread and a pound of butter and comes back with enough supplies to stock a Yukon cabin for the whole winter season—"a few things" she remembered she "might" need.

The little woman actually has pinning ways, tho. She wins every time. Recently, we had the kitchen rather disarranged due to the fact that plumbers and carpenters had been working about the house. She calls, "Dear, can you leave the office long enough to come home and move a couple of things for me?" If was one of my busiest days, but I didn't have the heart (or the courage) to argue.

After two hours of moving furniture thither and yon, accumulating blisters, I start to leave and she breaks my heart.

"Thanks, dear, now I can sweep and dust. Conscience wouldn't have let me make the bridge club tonight with the house in such a mess."

I just know we have more fun than monkeys do, don't you?

Notice To Federal Income Tax Payers

SOIL CONSERVATION NEWS

Burton Mullins, Dr. J. E. Edgar, and Lewis "Pig" Headley have planted 50,000 slash pine seedlings, or enough for fifty acres. In the last three years Dr. Edgar has set all his open land to pine seedlings—approximately forty acres—which is located on the Lay Dam Road and just north of town.

Sie Foshee has really gone to work on his new farm. Three acres of swamp have been cleared and will be planted to pasture this year.

Lonnie Cleckler of the Collins Chapel community is interested in establishing necessary meadow tulets this spring, and after the crops are harvested this fall terrace lines will be run and constructed.

Eleven acres of water disposal and steep land was laid out on Dr. J. E. Gowan's farm that he has just bought north of Highland Church. Some general farming will be done with the majority of the land being established to sod crops.

Contour lines were run on ten acres of Mr. Roy Roper's farm last week. The terrace water will drain into a Bahia meadow outlet.

Mr. J. Lonnie Messer of Verbena has prepared seven acres of land for establishing Sericea in March.

Lloyd F. Mims of the Mountain Creek community has an excellent stand of Fescue and White Clover that he seeded back in the fall.

A visit last week with Mr. Lorenza Williams of the Enterprise community found him applying nitrate of soda on oats to help him on some grazing. Mr. Williams is planning on planting Bahia grass on the oats in March. Mr. Williams has a nice stand of crimson clover and Rescue in a headow outlet.

A NOTE OF THANKS

To all the wonderful friends I have in Clanton and other places, who have been so thoughtful with their cards, flowers, gifts and kind words of condolence, let me in this small measure express to them my gratefulness.

No one's life would be worth living without such friends. Words cannot express the meaning of these thoughts when one is far from home sick and lonely.

May God bless each and every one of you and I pray He will help me gain my strength fast so that I can be with all of you again.

Sincerely
Mrs. Ben Tucker.

Around OUR HOUSE

by Ladies Home Journal

One thing we've never needed around our house is an alarm clock. The one- year-old, the four-year-old and the seven-year-old are wide awake every morning before any proper alarm clock would sound its alarm to arouse the household.

The other morning when I heard the four-year-old stirring in his bed very early, I started getting up, thinking of the many household tasks that needed doing that day and trying to decide which of them to start first.

"Don't get up, mother," called the four-year-old softly. "Just lie still and listen to the morning."

Lie still and listen to the morning! There was a rooster crowing off in the distance, the putt—putt of the newspaper boy's motor bike, a dog barking, an airplane droning overhead, sleepy birds chirping a welcome to the dawn. So much to hear if you take time to "listen to the morning."

* * *

Among the tasks to be done that day was to clean the smeared fingerprints from the panes of glass in the French doors.

At the suggestion of the next door neighbor, I went down to the corner filling station and begged several of the treated paper towels the attendants there use to clean automobile windshields.

With the help of those towels, the fingerprints disappeared like magic, and the windows and doors really shone.

* * *

The filling station attendant taught me a windshield cleaning trick, too, when he gave me the paper towels.

"The handiest thing to use for wiping the steam from the inside of your windshield is an ordinary blackboard eraser," he said. "Keep an eraser in the glove compartment of your car to use on cold days, and you'll see how fine it works."

* * *

During these bad Winter days when they couldn't go outside to play, the children have been entertaining themselves with water colors. Even the one-year-old enjoys smearing colors on paper — and on herself!

Our neighbor down the street, the one with the big family, always saves the brushes from empty bottles of nail polish for her children to use when they water color. She always has plenty of brushes, even when her youngsters are joined by groups of neighborhood artists.

* * *

This neighbor says her children always enjoy playing with balloons when bad weather keeps them inside. Her only objection to this entertainment was that her jaws ached and she panted for breath after puffing and puffing to get enough balloons blown up for them. Then one afternoon when the head of her house was at home, he showed her how to blow the balloons the easy way. He put the small funnel attachment on their vacuum cleaner and blew up the balloons with it.

For lunch or supper try tuna-cheese buns like this: mix together one -fourth pound cubed cheese, 3 chopped, hard boiled eggs, 2 tablespoons minced onion, 3 tablespoons chopped stuffed olives, 2 tablespoons relish, one-half cup mayonnaise and 1 cup chunk-style tuna. Spread between buttered hamburger buns, wrap each bun in aluminum foil and bake in slow oven for 15 minutes. This quantity fills 6 buns generously.

RECIPE OF THE WEEK
Oyster Gumbo
(Serves 4-6)

1 tablespoon fat or oil
1 tablespoon flour
1 tablespoon chopped onion
1 tablespoon chopped parsley
1 pint oyster liquor
1 teaspoon salt
¼ teaspoon pepper
¼ teaspoon thyme
2 bay leaves
2 to 4 dozen oysters

Place oil or fat in saucepan; stir in flour, stirring constantly until slightly brown. Add onion, parsley, oyster liquor and seasonings. Cover and simmer for 30 minutes. Add oysters and allow to heat thoroughly. Serve at once, over boiled rice, in soup plates.

Mothers Are Marching For The 1954 March Of Dimes

Is your neighbor's name listed here? If so, she has given up her place in the home, for the evening, and has joined the millions of other mothers who are marching, Friday night. Marching into your homes and into your hearts, as an unselfish and loyal citizen, who has shown willingness to help. When she rings your door bell, contribute as generously as you can. Your contribution shows that you want to share with scientists the satisfaction of conquering infantile paralysis for all time, that soon no child nor parent need know the tragedy of this crippling disease. Mrs. R. C. Williams, City Chairman for the Mother's March of Dimes and Mrs. James Wade, Co-Chairman, have these mothers, who have volunteered their help: Mrs. W. E. Hays, Mrs. Honrie Little, Mrs. W. D. Hocutt, Mrs. James Nevins, Mrs Herbert Pool. Mrs. Claud Craig, Mrs. J. I. Spiller, Mrs. Hollis Jackson, Mrs. Referee Lineberry, Mrs. M. D. Tingle, Mrs. W. B. Crowe Jr., Mrs. Royal Coggins, Jr., Mrs. R. E. Wilkins, Mrs. R. B. Hill, Jr., Mrs. M. E. Lord, Mrs. M. K. Vickers, Mrs. Omar Reynolds, Mrs. Geore Tucker, Mrs. Winifred LeCroy, Mrs. Herman LeCroy, Mrs. W. C. Golden, Mrs. Ed Mullins, Mrs. Sara Palmer, Mrs. H. C. Arnold, Mrs. Buck Headley. (West side of town) Mrs. Joe Moore, Mrs. Chas. Patterson, Mrs. Clifford Traywick, Mrs. Ford Hardy, Mrs. Marcus Polk, Jr., Mrs. Roscoe Williams, Mrs. James Dennis, Mrs. Russell Sutley, Mrs. W. C. Dickerson, Mrs. Willie Bean, Mrs. W. C. Maddox, Mrs. Reid Mullins, Mrs. Luke Blanton, Mrs. Clifford Jones, Mrs. W. C. Davidson, Mrs. Francis Speaks. (East side of town). If you will have your porch lihts turned on for these mothers, it will be really appreciated.

The light furnished by a firefly doesn't measure up to what science has produced in artificial illumination. Recent tests indicate that it would take between 1000 to 2000 fireflies, flashing simultaneously, to illuminate a room as brightly as the light from a single candle. The brightest firefly tested produced about nine one-thousandths of a lumen. A 60-watt electric incandescent lamp will produce 835 lumens.

Turn on Your Porch Light For Mothers' March on Polio

The climax to the month-long March of Dimes comes this week when some 3,000,000 women across the country hold their Mothers' March on Polio. Whether on foot, on snowshoes, on horseback or in automobiles, neither rain nor sleet nor snow will stop these indomitable women from visiting every house where a light signals that a contribution for the fight against polio awaits them.

About 50,000 communities from New York to San Francisco are making the Mothers' March their grand finale to the March of Dimes. Mothers realize that it is a vital march this year because it comes as hundreds of thousands of children are about to participate in a vaccine test that could spell the end of polio.

Program to Cost $26,500,000

These tests, together with the expanded use of the temporary protection, gamma globulin, will cost the National Foundation for Infantile Paralysis $26,500,000 this year. For this reason, contributions to the Mothers' March must be greatly increased.

In addition, medical care for 66,000 polio patients stricken in previous years who still require aid must be continued. And the vast programs of professional education and scientific research must go on to aid them.

Actress Helen Hayes, the National Foundation's chairman of women's activities, whose daughter died of polio, has appealed for more volunteers in a bigger Mothers' March than ever was held before. She said: "It is for our children you will do this . . . that we may know for sure that no girl or boy will ever be taken from us again or rendered helpless through infantile paralysis. Help finish the job."

Used Boats and Skis

The roster of unsung heroines in previous Mothers' Marches is a long one. These gallant women in past years have used rowboats in flood areas, skis and snowshoes in blizzards and braved torrential downpours to collect vital contributions. Husbands and sons often have gone along to help reach every house showing a light within the allotted time on one evening.

"Light the way to Victory" is the slogan that many mothers' groups are using this year. Victory against polio cannot be won unless everyone digs deep in his or her pocketbook. For the March of Dimes must raise $75,000,000 this year to take the big steps toward victory by moving forward on all four fronts.

The Mothers' March on Polio does not take the place of other ways of giving to the fight against polio. You can give through coin collectors, special events, March of Dimes Cards and in many other ways. The Mothers' March is the finale of a full month of giving. It is one way to insure that every one has had a chance to deliver personal blow against polio.

Highway Patrol Announces Transfers

Montgomery, Ala., Jan. 28—The Alabama Department of Public Safety this week announced two recruitments and seven transfers in its enforcement division, the Alabama Highway Patrol. All actions were described as routine.

The new officers are undergoing basic training at the Public Safety Academy in Montgomery, and will be assigned January 25 as follows: Bob Roger Milner, 27, of Langdale (Chambers County), to Pell City, (St. Clair); Bruce G. Adkins, 23, Prichard to Birmingham.

Transferred were: John W. Carroll, from Prattville to Phenix City; A. P. Fulton, Birmingham to Mobile; Jesse E. Ward, Bay Minette to Wedowee; Gordon L. McGriff, Mobile to Reform; George E. Eddy, Huntsville to Arab; Roy E. McLellan, Pell City to Birmingham; Gilbert C. Boutwell, Phenix City to Prattville.

The purchasing value of the dollar for October, 1953 was 55.0c, as compared with the purchasing dollar of 1939, which was worth 100c.

So. Bell Asks Rate Rise To Offset Higher Costs

Citing the continuing heavy drain of inflated costs on the Company's earnings, Southern Bell Telephone and Telegraph Company today applied to the Alabama Public Service Commission for relief through an increase in rates.

State Manager Harry B. Lackey said the increase is necessary to enable the Company to improve its earnings so that it can secure the investment capital required to meet the public's service demands.

"In fact," Mr. Lackey declared, "under existing rates, our property is being confiscated—not only thru inadequate earnings, but also thru the inadequacy of the provisions for the recovery of the value of property currently being used in rendering service.

"The increase requested is modest and will amount to less than two cents a day per residence customer," Mr. Lackey said. "While the total amount of added revenue requested is about $4,790,000 a year, taxes will reduce this amount to a net increase to the Company of only $2,174,610."

The Company pointed out that it continues to be hard hit by inflation. "Every telephone we add today increases our costs and our income is simply not keeping pace," Lackey declared.

"Our overall per telephone costs of providing service in Alabama have increased 91% since 1939, while telephone rates during this same period have increased on the average only 43%. As a result, we have been unable to recover the added costs caused by inflation, and have therefore suffered a severe decline in earnings, unfairly penalizing the telephone investor."

Citing specific increases in costs, Mr. Lackey explained that since the last telephone rate increase, two substantial increases in wages of Alabama employees are costing the Company over $2,200,000 a year.

"Since 1939," Mr. Lackey said, "the price of telephone poles has gone up 134%; cable, 88%; crossarms, 173%; and copper wire, 145 percent. Increases in other materials have been correspondingly large.

"The average investment cost per telephone gained in Alabama, meanwhile, has increased from $186 in 1946 to $564, an increase of more than 200 per cent.

"While our costs of doing business have been rising higher and higher, the value of the service to the user has been increasing. Meanwhile, the income for the average family in Alabama has increased 287 percent since 1939, and the same proportion of family income required to pay for service has decreased over the same period. In 1939, it took over 2½% of the average family income to pay for residence telephone service, compared to only 1 percent today.

"We telephone people recognize the responsibility we have for contributing our fair share to Alabama's progress. Since the war, Southern Bell has more than doubled the number of telephones serving the state, and service in general has been greatly improved.

"Alabama is experiencing record prosperity and growth, and telephone progress has also reached record proportions. To continue to provide good service and to expand to meet Alabama's demands for even more telephones, Southern Bell must earn a fair profit on its Alabama operations."

LAFF OF THE WEEK

"No rest for the wicked . . . Another hour and I gotta turn that darn light on again."

Report from Washington

BY

ARMISTEAD SELDEN

Congressman, Sixth District

President Eisenhower's budget for the fiscal year 1955, which was sent to Congress last week, contains an estimate that the United States will spend 65.6 billion dollars in the new fiscal year that begins July 1, 1954. The President estimated next year's revenues at 62.7 billion dollars, which will leave the government with a deficit of 2.9 billion dollars at the end of the 1955 fiscal year.

As compared to estimates for the current fiscal year, these figures show a decline of 5.3 billion dollars in spending and a reduction of 4.9 billion dollars in revenues. However, we must remember that these figures are only estimates and will undoubtedly be revised a number of times.

The President says revenue losses in fiscal 1955 will be due to these items—the end of the excess profits tax, the 10 percent cut in personal income taxes (both of these took effect January 1 of this year), and the effect of 25 tax law revisions which he has recommended to Congress.

According to the new budget, 37.6 billion dollars will be spent for the armed forces alone. This is four billion dollars less than the amount expected to have been spent on the armed services by the end of the 1954 fiscal year. At the same time, the President's budget calls for a reduction in military personnel from the current average of about 3,400,000 to 3,200,000.

Cost of interest on the public debt will consume about 10 percent or 6.9 billion dollars of the new budget, compared to an estimated 6.6 billion dollars for the current fiscal year. The next largest single item in the budget is 4.2 billion dollars for veterans' programs, which is the same amount allowed for the current year.

Funds for Warrior Dam—

The President's budget contains an item of particular interest to residents of the Sixth District—an appropriation of two million dollars to be used to begin construction on the vitally needed Warrior Lock and Dam. This structure, to be located between Hale and Greene Counties near Lock 7, will eliminate Locks 8 and 9. These present locks and dams, built at the turn of the century, are not only obsolete, but worn in some instances to the point of being dangerous.

The U. S. Corps of Engineers has stated that, "in order to maintain navigation for 10 years over the Warrior River from the Demopolis pool to the Tuscaloosa Lock and Dam, it will be necessary to either build the Warrior Lock and Dam or to replace Lock and Dam 9 with a new structure and rehabilitate Lock and Dam 8 with a four months closure of the waterway."

Since my election to Congress, I have worked diligently to obtain funds for the construction of the Warrior Lock and Dam. I have done so not only because I favor the further development and modernization of the Warrior-Tombigbee Waterway, but because I am convinced that, from a long range point of view, it will be more economical to build this new structure than to incur the tremendous expense of repairing and rebuilding the two antiquated locks and dams.

Last October I arranged a hearing before the Bureau of the Budget and appeared personally at this hearing in Washington with the president and executive vice-president of the Warrior-Tombigbee Development Association. We discussed with officials of the Budget Bureau the urgency for funds to begin construction on the Warrior Lock and Dam and made a plea that the 1955 budget contain such an appropriation. The inclusion of this item in the 1955 budget is therefore particularly gratifying to those of us who attended this hearing.

Getting this item into the budget is the first in a number of important hurdles that must be cleared before an appropriation is authorized for this work. It must be recommended next by the Appropriations Committee of the House and then voted on by the House members. Should it be approved by both the House Appropriations Committee and a vote of the members of the House, the same procedure will be necessary in the Senate.

In any event, the recommendation in the President's budget for funds for the new lock and dam is a significant step forward, and will, I am sure, be welcomed by those who envision the great possibilities of further developing the Warrior-Tombigbee Waterway.

Legislative Notes—

By a voice vote, the House last Thursday adopted the House-Senate Conference report on cotton quota legislation. In doing so, it agreed with the Senate that the 1954 cotton acreage permissable under price support law should be increased from 17,810,488 acres now allowed to 21,379,342 acres. This compromise legislation also gives the counties more discretion in appropriating acreage.

Earlier the same day, the House voted overwhelmingly for the establishment of a seperate Air Force Academy. Under the terms of this historic legislation, an appropriation of 26 million dollars is authorized for the air "West Point" and the Secretary of the Air Force is allowed to select the permanent site.

Christianity is Christ-i-anity. Paul said, "Christ liveth in me." Gal. 2:20. Just as there are people who are "possessed with the devil" so there are those who are "possessed with Christ." Before Christ comes in the devil must go out. There is no such thing as being "possessed with the devil" and "possessed with Christ" at the same time. Jesus does not fellowship with the devil. If we choose to follow the devil—we belong to the devil. If we choose to follow Christ—we belong to Christ.

Would you trade a Penny for a Dollar?

● You can if you use Natural Chilean Nitrate of Soda for your top-dressing and side-dressing needs. It costs a little more because it's worth more. But the difference in *cost* usually can be measured in pennies per acre, while the difference in *value* often amounts to dollars per acre.

Chilean "Bulldog" Soda gives you generous extra value. The nitrogen is 100 per cent nitrate. It's 100 per cent available (quick-acting); 100 per cent dependable. The minor elements make crops stronger, healthier. The sodium—26 pounds in every 100-pound sack—is a key to maximum returns on your entire fertilizer investment. It offsets the bad effects of acid-forming fertilizers...increases the efficiency of mixed fertilizers containing them. It releases "locked-up" potash in the soil...increases the availability and efficiency of soil phosphate...reduces potash, calcium and magnesium losses by leaching...develops larger, deeper root systems.

Sodium builds up the productivity of your land—*more* each year. It's an essential element for some crops...beneficial to most and necessary for maximum yields of many.

Pennies-per-acre difference in *cost* may mean dollars-per-acre difference in *value* to you. Chilean "Bulldog" Soda is the best fertilizer your money can buy. Use it for all of your top-dressing and side-dressing needs.

The service next Sunday afternoon will be conducted by Rev. Dermon A. Sox of Birmingham. You are cordially invited to come out and hear him, and you are sure to enjoy his sermon.

The women of the church met on Wednesday afternoon, Jan. 20th, at the home of Mrs. Marie Reagan. This was their annual business meeting, at which time election of officers took place. The following officers were re-elected for another year: Naemi Turnquist, president; Esther Rogers; vice-president; Annie Petersen, secretary and Nell Werness, treasurer. Reports showed that this society closed one of its most successful years of its history, and it is one of the oldest organizations in Thorsby. It was their desire to make Thorsby was more outstanding and organized Lutheran Church, of which it is a part, was inactive for 25 years, this organization never ceased to function [illegible] lately on month. It has at present 19 members.

Members of the Concordia Circle held their business meeting with Mrs. Selma last Sunday. The purpose of the meeting was to elect two new Committees to take the place of Leonard Bowers and Mrs. Halstead whose terms expired this year. Mr. Thomas Rogers and Mr. Carl Turnquist were elected to fill those places.

Mrs. Mims, Mary Alice Collins, and Betty Joyce Beasley visited with Mr. and Mrs. Carmon Mims in Collins Chapel Sunday afternoon.

Mrs. Mims' son, Edwin and family from Paduka, Ky., came by to see her Sunday night. They plan to be at Mrs. Mims' home near Lay Dam for a while.

Many in Thorsby who know Robert (Bobby) Owens, especially his school mates, will be interested to know that he was recently elected to membership in "Who's Who in American Universities and Colleges. Robert is a senior at Howard College and is majoring in economics. Students recognized in Who's Who each year are chosen from approximately 650 universities and colleges. In the selection, "the student's scholarship, cooperation and leadership in academic and extra curricular activities, citizenship and service to the school and promise of future usefulness" are considered. Bob is president of the International Relations Club, treasurer of the Student Government Association, member of Omicorn Delta Kappa Psi, national professional fraternity in commerce. He is also a member of the Howard College Band, male chorus and annual staff. He is a candidate for a Woodrow Wilson graduate School fellowship. Robert is a TI graduate of the Class of 1950.

LIBRARY: What do you think of the art in the comic pictures? If a child has 99 per cent of other contacts with art and artists, it is not so deplorable. Does a child know "Arthur Rackham? Can he tell a Reginald Birch picture when he sees it? Is he familiar with Dorothy Lanthrope's animals, or Margaret Kirmse's? Other pictures a person should be able to recognize are those of George Varian's Dore's, N. C. Wyeth's. This art course ought not to be limited to children. How many of these can you name? Mrs. Harding has a table exhibit of these artists in the Library and will be glad to have them for a beginnig course in appreciation of good illustrations.

P-TA Meeting—

Attention! That means you if you are a parent or a friend of the Thorsby Junior High School. The school needs a good, active, wide-awake P-TA; needs interested hard-working parents and firends. The children need all of these, parents who will take an active part in P-TA work, a P-TA that will work hard for the school, and a school with efficient teachers such as we have in Thorsby. So, won't you come to the regular monthly meeting of the P-TA on next Monday evening, Feb. 1, at 7:00 o'clock. Important business comes up which you can help to attend to.

Chrysler To Hold Advertising Meet

The entire Chrysler Division field force will meet in Detroit on February 3 and 4 for an advance preview of the Division's spring, summer and fall 1954 model sales merchandising plans, reports E. M. Braden, general sales manager, Chrysler Division, Chrysler Corporation.

"This meeting is one of a regular series inaugurated last year designed to keep our field men, and through them 3,400 Chrysler dealers completely informed as to our sales, advertising and merchandising programs," Braden said. "This is in line with our policy of geting dealers better acquainted with factory programs to our mutual advantage."

Braden said that Chrysler sales for 1953 were 35 per cent ahead of 1952 and attributed a large part of the record sales volume to a well-planned advertising and merchandising campaign which was designed to assist dealers in an increasingly competitive market.

"Last year's campaigns cost Chrysler 47 per cent more than the 1952 campaign but the results proved it to be money well-spent," Braden said, "Chrysler will continue to increase expenditures in these lines in order to secure a greater share of the market."

Braden said that because of Chrysler's confidence in the future of the automobile business the total field force is being increased so that by the end of this year it will be 60 per cent larger than last year. He said that in addition, the factory sales staff group is being increased by 26 per cent.

Ike's New Budget To Cost Chilton $4,809,792

Montgomery, Ala., Jan. 28—The Alabama State Chamber of Commerce estimated yesterday that Alabama taxpayers will be required to pay out approximately $616,640,000 in Federal taxes as their share of the cost of the spending budget proposed by President Eisenhower for the fiscal year 1954-55.

"This $616,640,000," Thomas D. Russell, State Chamber president said, "is more than four times the total revenue collected by the State of Alabama during the fiscal year which ended Sept. 30, 1953." Total revenue collected by the State in 1953, from all sources, reached an all time high of $138,392,513.81.

Chilton County's share of this proposed Federal spending budget is $4,809,792. Figures for individual counties in Alabama were worked out on a formula giving equal weight to population and spendable money income.

Russell said calculations show Alabamians presently bear .94 per cent of the total Federal tax burden. Since Federal expenditures are met wholly by taxation, Alabama's share for the fiscal year 1954-55 will be .94 per cent of $65.6 billion, or $616,640,000, the State Chamber president added.

The State Chamber said that while the burden of Federal spending on Alabama taxpayers remains great, encouragement is given in this Eisenhower budget by the $5.3 billion reduction below the current year spending estimate of $70.9 billion. This $5.3 billion reduction will mean tax savings of $49,820,000 to Alabama taxpayers.

While applauding the administration's efforts toward elimination of inequities in taxation as indicated by the numberous proposed revisions of the Internal Revenue Code in the budget, the State Chamber also expressed disappointment about the president's recommendation that excise and corporation tax rate reductions, scheduled for April 1, 1954, be deferred. The State Chamber urged that every effort be made by the administration and Congress to effect sufficient additional spending reductions to warrant these scheduled tax cuts.

Mr. Dunlap offered the following preamble and resolution for adoption; which were duly seconded by Mr. Motley:

WHEREAS, the establishment, opening and construction of the public road hereinafter described would be beneficial to the general public,

NOW THEREFORE BE IT RESOLVED AND ORDERED: That the following described road be and the same is hereby declared a public road.

BE IT FURTHER RESOLVED AND ORDERED: That the county engineer of Chilton County, Alabama proceed to open and construct said roadway as follows; a public road, 40 feet in width, from the intersection of the east line of the old concrete road (formerly U. S. Highway No. 31) and south line of NW-SW 23-22-14 and running east along said line to the SE corner of said 40; thence east to the SE corner of the NE-SW 23-22-14 at public road (Yellow Leaf Road), situated in Chilton County, Alabama.

The above state preamble and resolution were adopted by a unanimous vote of all the members present.

Mr. Dunlap offered the following preamble and resolution for adoption; which were duly seconded by Mr. Motley:

WHEREAS, Jerry M. Studdard has been awarded a Dental Scholarship and Gerald W. Everett has been awarded a Medical Scholarship by the Board of Revenue and Control of Chilton County, Alabama.

NOW THEREFORE BE IT RESOLVED AND ORDERED: That said Jerry M. Studdard and Gerald W. Everett each enter into an agreement to be signed by them and filed with the Board of Revenue and Control, to practice their respective professions in Chilton County upon graduation for a period of one year.

The above stated preamble and resolution were adopted by a unanimous vote of all the members present.

Mr. Motley offered the following resolution for adoption; which was duly seconded by Mr. Smith:

BE IT RESOLVED AND ORDERED: There being no further business to come before the meeting, that said Board adjourn.

The above stated resolution was adopted by a unanimous vote of all the members present.

I, Harold H. Smyer, Clerk of The Board of Revenue and Control of Chilton County, Alabama, hereby certify that the foregoing minutes of the proceedings of said Board meeting held on January 11, 1954 were entered and recorded in this minute book, reproduced and a sufficient number of copies of same were filed in the office of the Probate Judge, a copy of same furnished to the Chilton County News, a newspaper published in Chilton County, for publication, and a copy of the same was posted in a conspicuous place in the courthouse on the 20th day of January, 1954.

A Message about Telephone Rates...

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

To Our Customers In Alabama:

We want you to know why we have asked the Alabama Public Service Commission to approve an increase in telephone rates. But first, let me say that the additional income requested by the Company will amount to only a small increase for each customer. For instance, it will average less than 2 cents a day for residential telephone subscribers.

Since 1939, when inflation began, our costs per telephone of providing service in Alabama have gone up 91%. During this period, telephone rates on the average have risen only 43%. As a result, there has been a severe drop in telephone earnings.

The cost of telephone equipment and materials has increased a great deal since 1939. Poles have gone up 134%, cable 88%, cross-arms 173%, and copper wire 145%.

In addition, since February, 1952, the date of the last telephone rate increase, there have been two increases in the wages of our Alabama employees, to bring their pay in line with prevailing wage levels in their communities. These wage increases amounted to over $2,200,000 a year.

Despite the fact that we have more than doubled the number of telephones in service in the State since 1946, there is a big telephone job still to be done in Alabama. Also, 37,000 party-line customers are asking for telephones. Twenty thousand people are asking for higher grades of service.

We must earn a fair profit, however, if we are to attract the additional investment money required to continue the improvement and expansion of service the public in Alabama is demanding. So we are simply asking for rates that will enable us to do the job Alabama wants us to do.

Sincerely yours,

Harry B. Lackey
Alabama Manager

Compared with other prices, telephone rates are low. Since 1939, consumer prices in general have climbed 91%, while telephone rates in the overall have increased only 43% in Alabama. At the same time the per capita income has increased 318%.

Residential telephone service took 2.6% of average family income in 1939. Today it takes only 1%. With the rate increase that is needed, it still will take only 1.3% -- just one-half the share of family income it took in 1939.

Fifth Grade Pupil Writes On Eclipse Of The Moon

On January 18, 1954, I hurried home from school to tell Mother that our teacher, Mrs. Haywood, had told us in the science class that there would be an eclipse of the moon at five o'clock. Mother told me to get Doddy's dark glasses so that I could see the eclipse better.

At five o'clock, mother was burning trash in the yard. I went out with her and looked at the moon. After a little while I could tell that the eclipse had begun. My twin sister, Joyce and I watched until mother called us to supper. After supper we started to do our homework. While we were working, a neighbor came over and called to our brother. Floyd to look at the moon. Joyce and I rushed out. The eclipse was plainer.

There were many different colors on and about the moon during the eclipse. At first the moon was white. It turned blue. There was a ring. As the moon was in shadow it turned dark red. The moon got smaller and smaller and finally it disappeared. The shadows on the moon passed and we could see the moon again.

We learned in our science class that the eclipse of the moon is caused by the moon's entering the shadow of the earth.

January the 18, was my twins and my birthday. We were eleven years old. The eclipse of the moon made this a birthday we will always remember.

Folks and Things ABOUT TOWN

—By Ben

From the way "Rowdy," Jack Hays' seeing-eye dog, looked at Red Fulmer Saturday afternoon at the Chilton County Democratic Executive meeting at the courthouse, it looks like he knows who his master's opponent in the coming election is. You know Red is running against Jack for the office of Tax Collector. From the looks of "Rowdy" we're not so sure he approves his master having opposition.

Funny thing: A columnist thinks of his best paragraphs after he goes to bed at night or just before he gets up in the morning. By the time he gets to his typewriter the paragraph is gone. But don't get excited—you don't miss a thing.

Here is another one from J. E. Easterling: he says the other day Ed Edwards was telling a man how to get to his house. "Now you just go down this road" says Ed, "until you come to where it looks like a school is having recess. That's where I live."

Welcome the M. T. Hollimans to Glendale. They have moved into the home formerly occupied by the R. B. Tabers. The Tabers you know have moved to Covington, Ga. As bad as we hate to lose the Tabers we're mighty glad to welcome the Hollimans. Mr. Holliman, you know, is manager of the local Yellow Front Store.

We always get a kick out of Harold Strickland coming into the office. This week Harold is selling "Spuds" to "home-sick GI's" at a special price. Harold operates the H & J Grocery at Thorsby. Harold was telling us about the old darky who worked for his father for so many years. One day the two of them went out to work with the bees. His father told the old negro if he wouldn't fight at them the bees wouldn't harm him. Well after a short time Harold's father looked around and the old negro man was thrashing about with his old hat right and left. Mr. Strickland called to him: "Ples, I told you not to fight at the bees and they wouldn't sting you." "Boss" old Ples replied, "I ain't fighting at 'em. I'm just trying to keep 'em out of my face."

The J. D. Broadhead Grocery and Market that has operated across the street from the News for so many years has moved to West End. We believe Durwood Broadhead, the owner, was dissatisfied with the parking problems etc., across the street. Too, we predict that before many years there will be no parking on either side of Seventh Street. Then you will hear some real howling from the merchants along the thoroughfare. But if traffic continues to increase there will be no alternative.

We learn that G. C. Walker is ill at his home. We are sorry to know he is "under the weather" for awhile and hope he will be back at his law practice before too many days pass.

"By the way you treat me," said the young bride, "anyone would think I was only the cook around here." "Not after the first meal, they wouldn't," the husband answered.

'Today's last thought:'
If a hitch-hiker hikes
Much more than he hitches,
He'll wear out his shoes
Instead of his britches.

JEMISON FFA MEMBERS HELD SPEAKING CONTEST

The annual FFA Speaking Contest was held in the Jemison High School auditorium Friday, January 29. James Davenport was first place winner. He spoke on, "Ways in which we can improve our soil." Norman Porter placed second, Charles Martin third and Bobby Black fourth. These students were finalists in their local chapter which this year has 80 members. Sixty-two of the eighty members are enrolled in Agriculture this year and each of the sixty-two entered the speaking contest.

The class eliminations were held first; then the semi-final chapter contest in which the four named above were selected. Davenport will represent the Jemison FFA Chapter in the County Contest to be held in Clanton the last of February.

L. C. Shields, Advisor of the local chapter, states that this was one of the best chapter speaking contests that he has sponsored, and he was high in his praise of all the boys who participated.

Auditors' Report Reveals Chilton In Excellent Financial Shape

On January 14, 1954, the State Auditors filed a report on the examination of the Board of Revenue and Control of Chilton County covering the period October 1, 1951, through September 30, 1953 on the financial

According to the Auditors' report on the financial affairs of Chilton County from October 1, 1951 through September 30, 1952 and as reflected by the exhibits attached to the report, the County's assets increased over the previous year by 84 per cent.

In the report covering the period October 1 1952 through September 30 1953 the Auditor pointed out the following.

"The amount of outstanding warrants as of September 30, 1949 was $103,000.00; September 30 1950 $63,000.00, September 30 1951 $30,000.00; September 30, 1952, $14,000.00 and on September 30, 1953 0"

The report further states that the financial affairs of the County have been handled in a most excellent manner

The report shows that on September 30, 1952, the County had an unencumbered cash balance of $150,398.10, and on September 30, 1953, had an unencumbered cash balance of $173,929.06.

The Auditors further reported that the County's financial condition is excellent; that there are no outstanding interest bearing warrants nor bonds of any kind, and they further pointed out that the minutes of the Board of Revenue and Control were well written and kept and appeared to reflect all transactions and functions of the Board, and that the minute books were fully indexed, and that no temporary loans were made during the period of the audit. In other words, from these Auditor's reports, it appears that Chilton County is being operated strictly in accordance with the Uniform Budget System and no disbursements are going made that are not strictly in accordance with the budget and the law. The report points out that an adequate budget was adopted and points out that from an examination of the budget by the Auditors, the budget indicates that considerable care was exercised in the making up of estimates of revenues as well as expenses.

It seems from these reports that the financial affairs of Chilton County are being handled in a businesslike manner, which ecrues to the benefit of every citizen of Chilton County

Democratic Exec. Committee Passes Resolution Urging All Demos To Work And Pull Together

A spirited meeting of the Chilton County Democratic Executive Committee at the courthouse last Saturday afternoon brought forth a resolution urging all Democrats to get behind their choice of candidates in the Democratic Spring Primary and "get out the vote."

Roy Roper spoke to the group asking that bolters in the last general election be allowed to run on the Democratic ticket this year but when brought to a vote was unanimously voted down by the Committee.

The afternoon was mostly devoted to the regular business at hand and qualifications for the prospective candidates were set. Entrance fees or assessments were made against candidates for the respective offices.

In the county this year the offices to be contested for are: County Solicitor, Sheriff, Tax Assessor, Tax Collector, County Superintendent of Education, Member of the Board of Revenue and Control from Districts 1 and 2, Member of the County Board of Education and Coroner.

Democratic Executive Committeemen from the various Beats in the county will also be elected.

At noon Wednesday several candidates had qualified for the various county offices to be contested for this year.

Two had qualified in the race for Tax Collector. M. C. (Jack) Hayes had qualified for reelection and E. A. (Red) Fulmer had also met the necessary qualifications for the race.

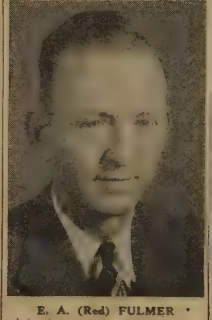
J. Luther Kendrick, present sheriff and R. Odell Payton had both qualified for the race for Sheriff.

Quinton Cummings was the only candidate to date to qualify for membership on the Board of Revenue and Control. He qualified to make the race from District 2.

The present County Solicitor A. B. Foshee drew opposition in his race for reelection when Lawrence F. Gerald, Jr. qualified to make the race for that office.

At press-time Wednesday seven had qualified but indications are that plenty of contestants will be found in every race before the March 1st, deadline for qualifying comes.

E. A. (Red) Fulmer Announces For Tax Collector



E. A. (Red) FULMER

E. A. (Red) Fulmer this week announces for the office of Tax Collector of Chilton County.

Fulmer is a native Chilton Countian having been born and reared in Chilton County and with the exception of his World War II service has been a resident ever since. He is 35 years old and a member of the Baptist Church, Masonic Lodge, and other local civic organizations.

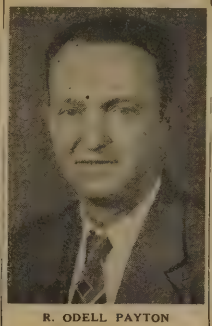
He attended Chilton County High School and later was employed in several business establishments in Clanton. He entered service May, 1944 and was sent overseas in Dec., 1944. On the following January 25th, 1945 he was severely wounded in the Battle of the Bulge and was hospitalized until his discharge in October of that year. He is a life member and past State Commander of the Disabled American Veterans. He served with the 26th Div., 328 Inf. Regt. Heavy Machine Gun Company in Belgium.

Upon returning to civilian life he organized the first City Bus Service in Clanton, and later has been interested in several enterprises. Most of his time has been spent in the automobile business.

Fulmer is married to the former Mary Francis Popwell, daughter of the late Jim Popwell. Three sons have been born to this union.

In stating his announcement Fulmer asked the support of all his friends and promised the people of Chilton County an honest, efficient, administration of the office if he is elected.

R. Odell Payton Enters Sheriff's Race



R. ODELL PAYTON

R. Odell Payton, a native of Chilton County, and for the past four years a notary public and Justice of the Peace in Beat 16. will be in the race for the office of Sheriff of Chilton County this year. He says that should he be elected he will employ no kin, either blood or through marriage, to work in the sheriff's office.

Payton, who is 41 years old, is married and has two sons, one attends school at Concord and the elder son attends Chilton County High School where he plays first string guard on the football team. Young Payton is also a member of the Air National Guard.

Mrs. Payton is the former Leither Powell.

Payton has been associated with several business establishments in Clanton and for the past several years operated the Payton Grocery on the Higgins Ferry Road. During the war Payton served in vital defense work at Childersburg Ordinance Plant.

He is a member of the Providence Baptist Church.

Mrs. Charles Wade Involved In Wreck

Last week, as Mrs. Chas. Wade was returning from Selma with a load of sand, the, truck she was driving, had a blow-out and ran off the highway into a ditch near Maplesville.

The truck was bodly damaged, but luckily, Mrs. Wade was thrown free and suffered only from severe bruises and shock.

Mrs. Wade was confined to her bed at home for several days but has recovered from the shock.

Two From Chilton Receive Degrees At University

Two hundred and forty-six students were candidates for degrees from the University of Alabama at the mid-winter commencement in Foster Auditorium at 4 p.m. last Saturday, Jan. 30.

As of today, February 2, 1954, over $4,000.00 has been received from all over the county for the March of Dimes, and money is still coming in from various sections and communities who have not reported as yet. Last Friday night as scores of mothers marched from door to door the public responded in the great American way of giving cheerfully and generously to this great cause to stamp out Polio. On that night alone, over $10,000.00 was received.

A simple THANKS is certainly inadequate to express my appreciation and gratitude for the loyal co-operation and help from every citizen of Chilton County. Those who personally gave of their time and efforts in the MARCH OF DIMES are truly Angels of Mercy and have their reward in the days ahead for fulfilling the great command of our Lord to love your neighbor and to heal the sick.

T.-J. Lions Sponsors Basketball Game

Tomorrow night (Feb. 5—Friday) the Thorsby-Jemison Lions Club will sponsor two basketball games between the colored Jr. High team of Jemison and the colored Jr. High team from Clanton. There is a game pending between the Chilton County Training School, Clanton, (colored) and another out of county team yet to be selected.

These games are sponsored in the interest of the Lions broad program of Sight Conservation, so come on out folks, and give your moral support to this most worth-while cause. You can have the assurance that these colored youngsters will supply you with a couple of hours of unparallelel fun. They're gonna' battle each other high up to the hilt, and you'll laugh and enjoy watching them do it.

First game will be at 7:00 o'clock, the second game at 8:00 p.m., so you'd better get there early, in order to get a choice seat where you can rear back and watch 'em tangle.

Regular admission will be charged.

THE EXODUS FROM THE ARMED FORCES

A committee named by Defense Secretary Charles E. Wilson this spring recently reported that the alarming rate of resignations from the armed services was due to curtailment of benefits which were formerly part of the career military service. The committee urged a pay increase, approval of distinctions in rank and living patterns and a restoration of fringe benefits.

This last recommendation is perhaps the most important of all. Fringe benefits for servicemen include such things as cheaper prices at the post exchanges, which enable servicemen to buy cheaper than those who are not in the military service.

The group found that "pressure groups of business interests have emasculated many of these benefits," in speaking of fringe benefits, such as low prices at post exchanges.

The armed services, it seems to us, can best check the exodus from the armed forces these days by providing its personnel decent housing, a good opportunity for the education of children of service personnel, medical and dental care for dependents at reasonable cost, and a system of lower prices in post exchanges.

Contrary to other corrective measures, such as a pay-raise, these benefits will cost very little and yet will mean much to the individual affected. Since they will serve the interests of national defense, there seems to be no valid reason why action in this direction should not be taken at the next session of Congress.

THE PROSPECT FOR SOCIAL SECURITY

Recent statements by Presidnt Dwight D. Eisenhower and key Republican leaders in Congress indicate chances are heavily in favor of an extension of Social Security coverage in the impending session of Congress. It is proposed that doctors, lawyers, farmers and many others, not now included in the Social Security program, be included hereafter.

Other changes are also being proposed, such as an increase in the 025 minimum monthly benefit and liberalization of the restriction which limits those between 65 and 75 years of age from receiving payments if they make as much as $75 monthly, or more, in employment covered by the system.

There is a good prospect that the controversy over the automatic increase in Social Security taxes will be hotly disputed in Congress. The rate jumps automatically from one and a half to two per cent on wages up to $3600 annually January 1st. Some have suggested that this increase be deferred, and those in favor of this include the President. Strong opposition to this proposal has come from Republican leaders on Capitol Hill, including Chairman Daniel A. Reed (R-N. Y.) of the House Ways and Means Committee.

Those who would defer the increase point out that in its sixteen years of operations, the Government has collected almost $25,000,000,000. Interest earned on bonds has added more than $2,000,000,000 to the Government fund. The Government has paid out so far in benefits only about $8,000,000,000—or about a third of the money collected.

Whatever the outcome of the coming discussions, it seems obvious that Social Security coverage will be extended and payments increased by legislators of the last session of the Eighty-Third Congress. There is no doubt that the vast majority of American workers favor the Social Security program. If the present administration can therefore expand and improve the system, it will be a major step in President Eisenhower's effort to give the country a progressive Republican government.

ACTIVITY IN THE HOTHOUSE

Report from Washington

BY

ARMISTEAD SELDEN

Congressman, Sixth District

The chances are good that a number of the inequities in our present tax laws will be corrected during the current session of Congress.

In his budget message, President Eisensower recommended a number of tax law changes. He sent 25 specific suggestions for tax revisions to Congress and said he expected to recommend additional changes later. If approved by Congress, these recommended revisions are estimated to cost about $1.25 billion.

Even before the President's budget message, the House Ways and Means Committee had been at work on legislation to revise our Internal Revenue Code. Since receiving the President's recommendations, this committee has made public a number of specific proposals. Among these is one of particular interest to me as it is somewhat similar to a tax relief bill I introduced last March. My bill, which provided for deductions of all medical and dental expenses up to the present $1240 limitation for single persons and $5000 for families, was intrdoced in an effort to bring a small measure of relief to all taxpayers and especially to those whose incomes are small. Under the law now in force, a person cannot begin to deduct medical and dental expenses for income tax purposes until they amount to 5 per cent of his annual income. This means that many citizens with modest incomes who spend from $50 to $200 each year for medical expenses are not allowed to deduct that amount in computing the tax they pay. Under my bill this 5 per cent limitation would be completely removed and the taxpayer would be allowed to deduct all medical and dental expenses up to the present limit.

The measure recently recommended by the Ways and Means Committee is in accord with President Eisenhower's proposal and provides that medical expenses which exceed 3 per cent of total incomes may be deducted. It raises the limit, however, to $2500 for a single person and $10,000 for families.

Although this recommendation does not grant as much actual tax relief as the legislation I introduced last year, it does improve the situation. At the same time, it shows that the powerful tax-writing committee of the House has taken cognizance of this inequity in our tax laws and has proposed a revision. I feel certain both Houses of Congress will approve this or similar legislation during the present session.

Vet Commanders Speak

The Committee on Veterans Affairs, of which I am a member, heard statements last week from the commanders of three veterans groups who outlined the 1954 legislative program of their organization.

National Commander Arthur J. Connell represented the American Legion; National Commander Howard W. Watts spoke in behalf of and the AMVETS were represented by their national commander, the Disable Amerocan Veterans; Henry J. Mahady.

Legislative Notes

Among bills passed by the House last week was an emergency measure providing for cancellation of $741,548,788 in Commodity Credit Corporation notes issued to the Treasury. Passage of the bill would result in making up for losses suffered by the CCC under the farm price support program during the fiscal year which ended June 30, 1953.

Along the same line, the Senate Agriculture Committee has approved a bill calling for an increase of $1,750,000,000 in the CCC's lending authority. This would raise the CCC's total for farm price support loans through the 1954 crop years to $8.5 billion. Its present $6 billion authority is almpst exhausted.

Introduces Bill

Last Friday I introduced in the House a bill to provide for the issuance of a special postage stamp in commemoration of the 35th anniversary of the founding of the American Legion.

Because of the Legion's outstanding accomplishments over the past 35 years, I feel it is most appropriate that the Post Office Department be authorized and directed by Congress to issue a special postage stamp in commemoration of the founding of the world's largest patriotic organization.

LESS FEDERAL INCOME TAX SAYS HILL

Alabamians will pay less Federal Income Tax if proposals sponsored by Senator Lister Hill become law.

"When the tax revision bill comes to the Senate I plan to offer a series of amendments designated to provide substantial tax relief, particularly for persons in the middle and lower income brackets," Senator Hill said in a statement.

Hill explained that his amendments would accomplish these major objectives:

Provide a $1,500 annual exemption on the retirement income of teachers and other retired persons;

Increase the deduction allowable for medical and dental expenses;

Permit mothers who have to work to support their families to deduct, as a legitimate business expense, the amount they have to pay for the care of their children during working hours;

Permit parents to claim as dependents their college-enrolled children who help to pay their way through school by part-time and vacation work;

Increase the personal exemption of all tax payers from $600 to $800.

SCANNING THE NEWS

THE familiar old slogan "Equal Rights for Women" has taken on a different look this year. It happened on January 11 when Sen. Lester C. Hunt (D. Wyo.), offered a resolution which would declare that wherever the terms "person, persons and people and any personal pronoun" appear in the Constitution, they "shall be taken to include both sexes."

This "new look" came out as a possible once-and-for-all solution to wash away controversy over the Hayden rider to the 1953 equal rights resolution introduced by Sen. John M. Butler (R. Md.) and 23 co-sponsors, which won Senate approval by a 73-1 vote last July, was awaiting still House consideration at the time of the Hunt resolution.

The rider focuses attention on one of the major disputes in the equal-rights-for-women issue. Supporters of the Constitutional amendment contend it would eliminate discrimination based on sex in such fields as property rights and employment. Discrimination, they claim, far outweighs protection in these fields.

Opponents of an equal rights amendment say that it will only bring about confusion and might invalidate protective laws for women now in existence. If women get themselves declared equal to men in the eyes of the law, they reason, how can women justify a need for special protection under the law?

But the ladies, with the same determination that won them the right to vote, are seeking to put an end to the 30-year struggle for a Constitutional amendment declaring women's equality of rights under law.

Typical of the women's groups pushing hard for action, the Business and Professional Women's Clubs, Inc., conducted what they called "Operation Buttonhole"—an attempt to present the arguments for an equal rights amendment, with no restricting qualifications, before every Congressman.

● The Bricker amendment is a "great debate" of conflicting government and international relations, and one of the most controversial cross-fires of learned legal arguments seen on Capitol Hill for a long time.

Trimmed down, it centers around two broad questions:

Is a Constitutional amendment needed to prevent violation of Constitutional principles and as a protection against abuses?

Could American foreign relations operate effectively with the proposed amendment in force?

Some of the heavy ammunition fired by proponents of the amendment comes from a speech made by John Foster Dulles in April, 1952, before he became Secretary of State. At that time, Dulles warned that "Treaty-making power is . . . liable to abuse . . . treaty law can override the Constitution . . . and . . . can cut across rights given to the people by their Constitutional Rights Bill of Rights."

But, in testifying against the amendment, Secretary Dulles declared the "evil" had been corrected by bringing it to the nation's attention and offered assurance that the Eisenhower Administration would not abuse the treaty-making power.

JUDITH ANN WILLIAMS

We are proud of Judith Ann Williams, daughter of Supt. and Mrs. Russell A. Williams of the Selma District. Judy has recently taken top honors in the Freshman Class at Montevallo College. She was elected President of the 1957 class where a field of twenty candidates were in the running.

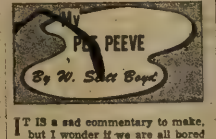
But then, receiving the office of President of her class is not the beginning of Judy's experience as a leader. In Clanton where she attended high school, she was a member of the FHA, FTA, Beta Club, Science Club and Glee Club in all of which she took an active part. She served as editor of the school annual, the "Silver Shield" and Valedictorian of her graduating class.

Since her entry into Montevallo, where she is planning to become an English teacher, Judy has become a member of the English Club, a staff member of the school publication, the "Alabamian," and sings with the College Chorale.

Then too, we might mention that in checking the records, Miss Williams has never received anything lower than an "A" in her high school career and since entering Montevallo she has carried on and maintained her "A" average all the way.

Yes, we are proud of you Judy for what you have accomplished and more so for the career that you have chosen.—Liberty National Life Insurance Co. "The Torch."

PRETZEL DANCE . . . Maribeth Hold, who hails from U. S. A., practiced six years learning this acrobatic feat as part of her dance act in Paris, France nightclubs.



IT IS a sad commentary to make, but I wonder if we are all bored with the general routine of living in this modern, advanced age. Our town is an average, friendly community where most everyone is known by family tree, and one seldom meets anyone who is not at least a "speaking acquaintance." I think tho, we sometimes get into a rut of complacency without realizing it.

And, if you don't think most people everywhere get bored with themselves, just watch the general reaction when there's any kind of a change brought about in the community. It offers something to talk about, gives a ready excuse for conversation (as if any were needed) and even the town "grouch" seems a friendly old gentleman.

Take our first "real" snowfall. As usual, I walked the same route to the office, passing the same people I meet every day, offering the same "good morning;" then finding myself almost bowled over with spontaneous conversation about the big snow and how suprisingly it had fallen overnight. I found myself verbally remembering the "last" big snow with everyone encountered along the way, so many of them that I was late for work and even bold enough to look the boss in the eye and smile about it, receiving a friendly comment about the weather and none about my tardiness.

Being objective about it, tho, maybe it isn't so much that we get bored with ourselves, as perhaps we get forgetful about being friendly and welcome an opportunity to get out of the rut when presented with a reason for saying more than a mere "good morning."

An Open Letter To Chilton County Farmers

We are beginning our fifth season of producing top-quality fertilizer in Chilton County, for Chilton county, and want to take this opportunity to express our sincere appreciation to all of you who have given us your patronage and cooperation in making our venture successful.

In trading with us you have justified our faith in your ability to see and take advantage of good business practices, and to give you an idea of just how much your trading with us has helped you and your neighbor here in the county, we want to give you a few figures based on our operations last season.

TAXES PAID IN 1953 (Approximately) $3,850.00
Salaries paid in Chilton County (Approximately 28,500.00).
Spent for services and materials in Chilton County (Approximately 4,000.00).

Of the above, at least $30,000.00 remained in Chilton County, helping all of us through increased business, employment, better roads, schools, and a more healthy economy. In addition to these indirect advantages, each farmer buying fertilizer in Chilton county, whether from us or other companies, has been able to get his fertilizer for $3 to $5 per ton less than would have been the case if the plant had not been established here. Prices for fertilizer have dropped from $3 to $5 per ton in this area since establishment of the plant here, due entirely to the increased competition. Prices for other brands of fertilizer are in line with our prices, now, but most of you will remember prices of a few years ago. We are proud of the fact that we have been able to save the farmers of this area $25,000 - $30,000 per year by reduced prices.

We are proud of our product, our employes, of our customers, of our business, and especially of having a part in the very promising future of this county---

But we are not satisfied.

We are satisfied with our product--it is the equal of any fertilizer of comparable analysis. We are satisfied with our employees---they are experienced, competent and loyal. We are satisfied with the customers we have--they are warm, friendly, sensible, and good businessmen. We are proud of the volume of business we did last year, but WE ARE NOT SATISFIED. We sold only 1-2 of the fertilizer used in Chilton County last year, and we don't like to see all that money going out of the county (and in most cases out of the state, as most of the fertilizer chains in this area are operated on Northern capital) when it could remain here if we had been able to sell the other half of the fertilizer used in the county. We are satisfied with our location in Chilton County--this county is going to grow and we are going to grow with it.

Before buying your fertilizer for the coming year, won't you consider trading at home with us---either directly or through one of our dealers.

We Promise:

(1) High quality, guaranteed analysis fertilizer
(2) Special service such as
(a) We mix trace minerals in fertilizer at no extra cost other than cost of trace minerals.
(b) We'll trade fertilizer with you if any of our fertilizer sets up on you, regardless of cause of setting up.
(3) Bulk spreader service for $1.50 per ton above retail price in paper bags.
(4) We will make every effort to supply all the amonium nitrate, nitrate of soda, sulphate of ammonia, and other nitrogen compounds at a minimum mark-up.

We want, need, and appreciate your patronage. We need more volume in our business to reduce our overhead costs per ton. If you will help us increase our volume, we'll help you fight the "Squeeze" all farmers are being put into,

We'll make fertilizer cheaper.

Remember we are a home owned, staffed and operated business. Money spent with us stays in Chilton County. We want everyone to visit us, go through our plant and see how we make your fertilizer.

Sincerely,
H. D. BALLARD,
Secretary-Treasurer
C. W. BALLARD,
President.

My PET PEEVE

By W. Scott Boyd

I'VE grown to wish that I had been born with the silver spoon of plenty wedged where my molars showed up, which doesn't, I guess, make me too different from a lot of other folks.

I haven't always felt this way, being more or less satisfied with my lot in life as a minor magician —capable of taking one small piece of paper to the bank each payday and splitting it dozens of times to spread joy in the lives of butchers, bakers, and grocery men. I took joy in their evident appreciation and the fact they always say "thank you" and wrote nice cards and letters asking me to stop by and see them more often.

I wish, tho, that I could do more I'd like to be one of those philanthropists. I don't care to be the kind standing ready with an endowment when Alma Mater conquers Slippery Stone in the annual checkers bowl game, either. I just want to give away TV sets.

I'd give one to Aunt Easter, since she is on our party line. Next would come the neighbor with nocturnal habits, who comes in every midnight, singing and banging doors. Then, I'd give one to the Volunteer Fire Department, so they wouldn't have to run from the hardware store across the street every time the alarm rings

Somewhat on the selfish side, I'd keep two myself. One for the home, so we could successfully compete with our friends in hiring baby sitters. The second would be portable, to take along when visiting my wife's distant relatives. They always talk about people and things out of the realm of my knowledge.

WAVING WIFE

By Bob E. Mack

"JOE! Joe Adams—you old horse thief. How are yuh, boy?"

A reminiscent chill went through Joe at sound of the familiar voice. He turned reluctantly to greet a smiling collar ad in wine corduroy jacket and beige slacks, Phil Newton, the college roommate who had borrowed his sox, ties and girls with equal finesse.

"Well, well!" Joe exclaimed, trying to sound jovial. "If it isn't the boy artist from Arlington Falls. What brings you to the big city?"

Phil grinned around his pipe stem. "I'm living here. Just moved into this streamlined Taj Mahal today." He gestured toward the towering graystone apartments. "Don't tell me we're neighbors?"

"Afraid so," Joe admitted. "I'm married now. Lived here two years. My entrance is around the corner —east wing. You go in here?" They halted at the flagstone path surrounded by luxurious green hedges.

Phil nodded. "Say, look—" his dark eyes took on a conspiratorial gleam. "You don't happen to know a gorgeous redhead ever in your section who lives on the 6th floor?"

"She just waved to me from her window. I'm right across the court from her, down two floors. Can't see her face very well, so I borrowed these binoculars to get a better view." He held up the leather case, grinning broadly. "If her face is as beautiful as that long, red hair, I aim to get acquainted, pronto! She's wearing some kind of a bright blue housecoat—shiny stuff. Bet she's a nifty dresser, too."

Joe shook his head, laughing. "You'll never grow up," he said. "Same old college wolf. Well, I've got to run. Good luck, Casanova." He strode off as Phil gave a cocky salute and entered the apartment house.

With a sigh that traveled the full length of his six feet, two inches, Joe fitted his key to the lock of 818. He closed the door quietly behind him, not making a sound. The bedroom radio was playing a lively polka, and the pleasant aroma of roast beef wafted in from the kitchen. Tossing brief case on the sofa, Joe ca a glimpse of movement in long mirror over the fireplace looked again. What he saw re ed there, hit him in the Ad Apple.

Sherry was seated at the room window, wearing the satin robe he'd given her Christmas, and waving her gr ful hand with obvious enthusi No doubt Phil had returned to own window, and was making use of the binoculars.

Joe stood rooted to the liv room rug, his unbelieving glued to the mirror. What sh do? Make like an outraged band? Turn her over his k Laugh it off? No, by Jupiter! play it smart—give 'em en rope and they'd hang themsel With clenched fists and determi jaw, he tip-toed back to the d opened and closed it again though he were just coming in

BROIL GRAPEFRUIT FOR SPECIAL TREAT

AUBURN, Ala.—For a surprisingly mellow flavor, try broiling grapefruit, advises Mary Hulsey, API Extension nutritionist.

Sprinkle half a grapefruit with sugar and a dash of spice—mace, nutmeg, or cinnamon. Then dot the fruit with bits of table fat. Set it on a rack placed three to four inches below the heat, and broil 10 to 15 minutes. When the grapefruit is just slightly browned and heated through, it's ready to serve.

Miss Hulsey also reminds homemakers that honey adds a different and delicious touch to grapefruit. Cut out the white center, and fill the hole with strained honey. Set the sweetened fruit in the refrigerator for a few hours so the honey can penetrate all through it.

"Grapefruit, like other citrus fruits, is rich in vitamin C," concludes the home leader. "And citrus fruits supply more of this vitamin when the pulp is eaten, as well as the juice."

Everybody in town is simply amazed when they see how Sanitone Dry Cleaning gets out *all* the dirt then puts back the original fabric oils to make clothes really *feel* new, as well as *look* new again. Spotless, even perspiration gone. Better press lasts longer. No odor. Try us!

Don't Lose Cattle Due To Parasites

AUBURN, Ala.—Parasites cause more cattle losses during February and March than at any other time of the year.

Particularly dangerous, says API Extension Entomologist W. A. Ruffin, are stomach worms and lice and grubs. Stomach worms attack calves under two years; lice and grubs go after animals of all ages.

"To control stomach worms," continues the specialist, "use 20 grams of phenothiazine per 100 pounds of live weight. Sixty grams or about two ounces is the maximum dose for one animal. Phenothiazine can be successfully given as a drench or in powdered form.

"Spray lice and grubs with rote one—seven and one-half pounds five percent rotenone in 100 gallo of water. For grub control app spray along the back of the anim at 400 pounds pressure. A du that contains at least one and on half per cent rotenone will als kill both of these pests. Apply dus to all parts of the body and ru it well into the hair

"Animals infested with lice onl should be treated with DDT or met noxychlor, either as a dust or as spray. Only one treatment is re quired."

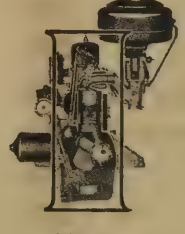
With many "custom-built" choices

One of the biggest advantages of the more expensive cars can now be yours for Ford prices. That is *choice*. For instance, Ford makes available an option of three great drives: Fordomatic Drive, Ford Overdrive, and Conventional transmission. Ford also makes available *all* the optional power features you'd expect to find only in the costliest cars. And Ford offers you a choice of 28 models . . . there's one to fit *your* exact driving needs . . . *plus* a wide choice of new body, color and upholstery combinations . . . the finest in any low-priced car.

With a new 130-h.p. Y-block V-8

It's a brand new Overhead-Valve engine offering 18% more power . . . better economy. Deep-block design, plus a new 5-bearing crankshaft mean greater rigidity for smoother, quieter operation. Low-friction design means longer engine life!



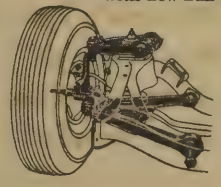
With a new 115-h.p. I-block

Like the new V-8, it has deep-block build for greater rigidity, longer engine life. Also, like the V-8 it has low-friction design plus high-turbulence combustion chambers and Free-Turning Overhead Valves for high-compression "Go" from regular gas.

With five optional power assists you'd expect to find only in America's costliest cars

These fine-car power options are available in Ford at extra cost. You can have Master-Guide power steering, Swift Sure Power Brakes, a 4-Way Power Front Seat, Fordomatic Drive (or Overdrive) and Power-Lift Windows!

With new Ball-Joint Front Suspension



This revolutionary new suspension is a Ford exclusive in the low-price field. It's far simpler and more compact than conventional suspensions. It allows greater up and down wheel travel for a smoother ride . . . helps keep front wheels in line longer for consistently easy handling.

You are cordially invited to come in and see the car that's setting the trend in style and performance. Test Drive it and you'll want to drive it home!

WHO JESUS LOVES

But seek ye first the kingdom of God, and His righteousness; and all these things shall be added unto you. Mat. 6-33.

The Kingdom of God is the government of God; and His righteousness is His commandments that govern his kingdom, and all His commandments are righteousness Psalms 119-172.

Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven, but he that doeth the will of my father which is in heaven. Mat. 7-21.

What is the Father's will? It is the same as Jesus' will.

Jesus said, if you love me keep my commandments. John 14-15

Jesus said he would love the one that loved Him, and I quote:

"He that hath my commandments and keepeth them, he it is that loveth me; and he that loveth me shall be loved by my Father, and I will love him, and will manifest myself to him. John 14-21.

If we walk in His precepts, statutes, and judgments, keep His testimony and commandments, then He gives us an unction from the Holy one god we know all things. 1 J. 2-20.

This unction is the Holy spirit. 1st it makes intercessions for you. Rom 8-26-27.

2nd It reveals all things to us, even the mind, faith, and the power of Jesus Christ and all the deep things of the eternal. 1 Cor. 2-10.

3rd It teaches you of all things, and ye need not that any man teach you, and is the truth, and is no lie, and even as it hath taught you, ye shall abide in Him. 11. 2-27

It is all this simple, you repent, obey God, and through His begettle power, He gives you a new heart. (1 J. 5-18 last part) makes you His begotten son, gives you the Holy spirit. Acts 5-32.

You are not born again and cannot be till Jesus comes as king of Kings, and Lord of Lords, Luke 14-14.

Too many people think they have the first part of 1 J. 5-18. when they only have been begotten of God, and can sin, if they fail to keep themselves unspotted from the world. James 1-27.

When we are born again we cannot sin as we are then God like Jesus is God. Psalms 82-6; John 10-34-35.

Fifteen From Clanton Attend District Brotherhood Meet

Fifteen men from the First Baptist Church attended the district Brotherhood meeting which was held at the Hunter Street Baptist Church in Birmingham on the night of February 1.

Much interest is shared in the Hunter Street Church due to the fact that two men, formerly of Clanton and active in the First Baptist Church here, now hold positions in that particular church. Marvin Prude is superintendent of the Sunday School there while Frank Murphy is serving as district president of the Brotherhood.

The main speaker on the program was Dr. John E. Hussof Spartanburg, S. C. Others on the program were Dr. A. Hamilton Reid who is the executive secretary for the Baptist State Convention of Alabama, Mr. F. R. Sawyer, who is the Alabama Secretary for Brotherhood, and Mr. James M. Sapp.

The ones from Clanton who attended the meeting were the local Brotherhood president, Dick Arnold, Ed Mullins, Horsley White, A. H. Meacham, Hoover Moates, Russell Williams, R. L. Duffy, Ben Sessions, J. W. Roberts. Leo Spivey, Woodrow Rockett, G. A. Arnold, M. C. Hayes, J. H. Still and Dr. J. G. Hutchinson.

WILLING WORKERS SS CLASS MET MONDAY

The Willing Worker's Sunday School class of the First Baptist Church, met Monday evening in the home of Mrs. J. G. Blair for the Feb. business and social meeting.

The meeting was opened with the Lord's Prayer by the group. During the business session reports were given on the class visits made and good deeds done. Blue bird names were drawn for whom secret friendly deeds will be done during the month. The motto, aim, and scripture of the class were read. Mrs. Roberta Wyatt played the class song.

A lovely devotional taken from Psalms 103 was given by Mrs. Annie Lane. She also gave an interesting talk about the Psalms—what they are and what they mean. She closed her talk with two inspiring poems.

Games were enjoyed following the program. Delightful salad plate with coffee were served to the 11 members present. They were Laura Little, teacher, Birtie Baker, Mamie Higgins, Maudie Hines, Alma Dickinson, Roberta Wyatt, Lessie Lowery, Essie White, Elizabeth Barton, Annie Lane, and hostess, Fredie Blair.

Mrs. Ross Driver and Mrs. Flem Higgins Honored

Mrs. Ross Driver and Mrs. Flem Higgins were honored on their birthdays, January 28, when their neighbors entertained them with a delightful covered dish luncheon at Mrs. Higgins's home. Following the neighborhood custom, lovely gifts were brought and given to the two honorees.

The thirteen people who enjoyed the fellowship were: Mrs. Lizzie Driver and Lillie, Mrs. Ross Ellison, Mrs. Alice Shaw, Mrs. Evelyn Carter, Mrs. O. M. Carter, Mrs. Hattie Aired, Miss Virginia Buckner, Mrs. T. G. Cox and Mrs. G. C. Walker. According to custom, Martha Moore, helped in the dining room and kitchen.

Book Review

MY COUSIN RACHEL
By Daphne du Maurier

Rachel, daughter of Alexander Coryn from Cornwall, England, a philanderer who married an Italian, was "an enigmatic woman who might be devil or angel, but who will remain in your memory forever." Her subtle deception and alluring charm drew everyone to her.

Her second husband, Ambrose Ashley, fell victim of her heartless schemes. The mystery of his death aroused Philip's, Ambrose's brother, to doubt her. In the heart of Philip there arose a terrible conflict of love and hate. Under her spell he wills her the estate. Why he suddenly doubts her and how he lets her come to sudden death are woven into an exciting narrative.

Did Rachel murder her husband, and was her death accidental? Why did the author let Philip Ashley, tell the story? The desire to answer these questions may arouse your interest in this book.

This book is recommended to adults and students of senior high school. It is being donated to the Chilton County Library of the A. A. U. W. this week by one of its members.

INSTALLATION OF HOME DEMONSTRATION OFFICERS

The first Home Demonstration County Council meeting of 1954 was a luncheon at the Dixie Cafe Thursday January 21 at 11:30 a.m. After the luncheon the following officers, who were recently elected to serve for two years, were installed: Mrs. Stanly Cost, Jemison, Secretary; Mrs. Lewis McGee, Isabella, Parliamentarian; Mrs. Clifton Parrish, Baker, Youth Chairman; Mrs. Walter McNeil, Jemison, Farm Bureau Chairman; and Mrs. Raymond Cox, Thomas Jr., Defense Chairman. Mrs. Beulah Williams, Fairview, Jr. Vice-President was not present.

The Council decided to take as its project for the year Health Improvement. Each Club is to take some phase of health improvement as an individual project. Some of the suggested projects mentioned were having water supplies examined, distributing containers for hook worm specimens, holding clinics for typhoid shots or others, and holding pre-school clinics. These projects will be carried on in cooperation with the County Health Department.

Other business included the discussion of Home Demonstration Club members of the County making a trip to Bellingrath Gardens. Plans for this trip are being made.

The next Council meeting will be held in May during National Home Demonstration Week.

The Clubs represented at the Council meeting were Alabama Mills, Baker, Bethsalem, Cedar Grove, Friendship, Isabella, Jemison, Macedonia, Minooka, Poplar Springs, Thomas Jr., Thorsby and Verbena.

GARDEN CLUB OF CLANTON INVITES PUBLIC TO SHOWING

The Garden Club of Clanton cordially invites the public to the showing of a film on Famous Gardens of Europe on Tuesday, Feb. 9th 2:00 p.m. in the auditorium of the First Baptist Church (down stairs).

The film is a 16 millimeter movie, filmed in natural color, with background music and narration by Mr. Norvell Gillespie, a well-known garden authority on the west coast.

This film is a thrilling parade of scenes of such gardens as at Windsor Castle, world-known Kew Garden, the Pope's private garden in Rome and even tiny private gardens to give you a completely fascinating and educational trip.

This beautiful full-color movie has a running time of about 20 minutes. It takes you for an eye-catching visit through the following famous foreign gardens: Hyde Park, London, Kew Garden, outside London; Windsor Castle; Royal Horticultural Society's Trail Gardens at Wisley, England,; Rose Trial Gardens at Bagatelle, Paris; Garden at Versalles; Empress Josephine's "Garden of Old-Fashioned Roses" at Malmaison outside Paris; Pope's Private Garden in the Vatican City; and the Rose Trial Gardens at Geneva, Switzerland. The film also shows scenes from the world's largest flower show in Southport, England.

The film is scheduled through the courtesy of the California Spray-Chemical Corp. of Troy, Alabama.

Around OUR HOUSE
by Ladonya Tinker Moulton

The questions children ask: After having been bombarded with an assortment of queries for a number of years, I thought myself familiar with most of the things children inquire about, but the four-year-old shocked me out of my complacency the other day when he asked:

"Mother, what kind of underwear do angels wear?"

"I don't know," I admitted, being unable to think of any reasonable reply.

"Well," he said helpfully, "I know where you can learn all about it. It's all in a book."

Now I really was puzzled. "What are you talking about?" I asked him.

"Well," he replied, "when I was listening to Roy Rogers on the radio the other night I heard that Dale Evans has written a book called 'Angels' Underwear.' Let's buy that book."

It was some time before I could control my laughter enough to explain that the book is called "Angel Unaware" and has nothing to do with the undergarments of the heavenly hosts.

Our good cook neighbor invites friends in often for waffle suppers during the winter, and we were among the lucky guests the other night.

This neighbor has two sets of large waffle irons so that all the guests are well supplied during the meal. She makes a variety of waffles, too, cheese, bacon, pecan, whole wheat and plain, all so good it's hard to choose a favorite.

She knows that waffles should be crisp, so she never opens the irons to take a peep while steam is rising. The steaming stops when the waffles are ready, she says.

For making extra crisp waffles, she taught me a new trick: She substitutes cold water for milk in the batter. It sounds like an economy trick the next door neighbor might have thought of.

• • •

If this neighbor has any waffle batter left over, which she seldom has, she puts it in the refrigerator to use later. She dips slices of eggplant, green tomatoes, squash and such in the leftover batter and fries the slices. The batter gives a new, interesting flavor to old favorites, an dit helps the budget, too!

• • •

Our neighbor around the corner says her children like sandwiches toasted in her waffle irons because of the bumpy texture the irons give the bread. And French toast cooked in the waffle irons is one of their favorite breakfast treats.

• • •

The seven-year-old likes waffles best when all the "ditches" are filled with melted butter.

• • •

Here's how to make pecan waffles with orange sauce: Sift together 2 cups flour, 3 teaspoons baking powder and 1 teaspoon salt. Beat 2 egg yolks and add 1 1-4 cups milk and 1-3 cup melted fat. Add egg whites and 3-4 cup pecans. Bake to dry ingredients. Fold in 2 beaten as directed. Serve with sauce made by boiling together for 15 minutes 1 cup sugar, 1-2 cup orange juice, 2 tablespoons white corn syrup and 1 teaspoon grated orange peel.

JIM DANDY DAY

By F. L. Rowley

MONDAY again. Curly Ellis detested Mondays. On the first business day of each week Hillcrest's Main Street looked like the setting for a ghost-town movie. Today, as usual, nothing stirred. Curly, chin in hand, stared dreamily through the big shoe-fringed window of Ben's Boot Shop where he worked. This Monday was going to run true to form it seemed; Curly would make his customary fifteen per cent of nothing.

Then a strange sight met Curly's eyes: Mr. & Mrs. Williams strode through the marble-framed doorway of the Hillcrest Hotel followed by seventeen freshly scrubbed children—all theirs. Curly smiled. The Williams family was known throughout the county as being an enterprising group. He wondered what they were up to now.

Five minutes later he knew; they had come to town to buy shoes Curly had to rub his eyes when the noisy group filed into the little shoe store, filled all twelve of the red leather chairs, and overflowed into the stockroom.

"Now," said Curly beaming and rubbing his hands as he had seen Ben do, "who wants a pair of shoes?"

"Everybody!" bellowed Burt Williams sr. "Giv 'em all shoes. Only be sure they're JIM DANDY SHOES. That's our brand Curly—JIM DANDIES or nothing."

Curly was delighted to discover that Ben had stocked up on JIM DANDIES. He wasn't concerned with sizes; the Williams clan just passed shoes around until some member claimed a pair. Curly busied himself with writing the sales and making notes, according to his figures fifteen per cent commission would net him eighteen dollars or more.

"So you're all shoe are you?" a loud voice boomed through the open door. Curly turned to see a big red-faced man.

"Who are you?"

"Me?" screamed the big fellow apparently offended by Curly's ignorance, "Didn't Mr. Williams here tell you about me? I'm paying for this party, my boy. These good people have agreed to swear by JIM DANDY shoes in return for free samples of our merchandise. Their picture will appear in every paper and magazine."

"Free samples?" cried Curly in a shrill voice.

"Tut! Tut!" the big man purred reassuringly. "I'll make a check out for the full amount. What is the bill?—wholesale price, that is."

"Wholesale?" groaned Curly. His visions of commission went out the window. With a heavy heart he made out the bill, took the check from the big man, and watched his customers cross the street to the Hillcrest Hotel.

As Curly was tucking the check into the cash box a few minutes later he glanced at the signature: John Smith. A feeling of uneasiness crept over him. Had he been taken in? Curly dashed for the telephone.

Forty-five minutes later Sheriff Giles, Mr. Williams, and the man who called himself John Smith entered Ben's Boot Shop.

"Glad you called me, Curly," said the sheriff. "This bounder had almost talked Mr. Williams into parting with another fifty dollars for pictures. He is wanted in four states on confidence charges. How did you know he was a phoney?"

"I didn't," said Curly, scowling at the big man, "but when he beat me out of my rightful commission I was mad so I padded the bill—and he didn't know the difference. I'm glad those men would know. Well, Monday's always my bad day. I wonder what Ben will say?"

"He'll say like me that you're a good shoe salesman, Curly," said Mr. Williams extending his hand, "and since we're already wearing these shoes I'll buy them all—only, please don't pad the bill."

"On the contrary," said Curly grinning, "I'm going to knock off ten per cent. This has been a JIM DANDY day."

HOME FURNISHING LEADERS ATTEND LEADERSHIP SCHOOL

Home Furnishings leaders from 14 of the 21 Home Demonstration Clubs in Chilton County attended the Leadership School in Clanton at the City Hall, Tuesday, January 19. The demonstration "Interior Wall Finishes" was given by Miss Alice Peavy, Home Furnishings Specialist of the Extension Service in Auburn. The leaders will give the demonstration in each of their Clubs at the February meeting.

The demonstration included information on color selection and use in one room and the entire house; types of paints, varnishes, and stains; use of each type of paint; how to paint; use and care of brushes; and finishes for wall board and paneled walls. Illustrative material included different types of paints, brushes, samples of wall boards and paneled walls with different finishes, and color charts. This information will be helpful to Club members who have walls that need refinishing as well as those who have new walls to finish.

Twenty-three leaders from the following Clubs were present at the Leadership School: Friendship, Baker, Maplesville, Minooka, Jemison, Mt. Carmel, Cane Creek, Macedonia, Fairview, Cooper, Isabella, Bethsalem, Thorsby, and Poplar Springs.

According to some of the boys, Ralph Mims was T. I.'s outstanding player for the afternoon. The boys also played Cooper's team Friday January 29 and won. The final score was 47 to 24.

Library (By Mrs. Harding):
library is a place where delightful things can happen. For instance, I read in Churchill's last book that the bombing at Hiroshima and Nagasaki, three days of warning, July 27, July 31 and August 5, were given by leaflets dropped from the air. The Superfortress claimed to have dropped over a million and a half every day and three million copies of the ultimatum. The bombs were dropped, I think, July 28th, August 1 and August 6 (the atomic bombs). I am so very glad we gave warning. I cannot bear to think we sneaked up on them.

Another interesting thing I found in a librarby was that my home town had changed its name! This information was found in a Geographical dictionary. I had never heard of a geographical dictionary before. It is fascinating. Any kind friend who will, may buy us one. I imagine it costs $25, if not more.

I am still hunting a quotation I read in the Birmingham library, "I Am a Spirit, I Have a Body." I came to me like a flash of light, a truth I had been too stupid to see before.

Does anyone know where Mount Ford is? I wrote and asked at the Ford Company but they could not help. I think it would be a good thing to ask the National Geographic.

Lutheran Church—

Next Sunday afternoon the services will be conducted by Rev. Russell Boggus of Montgomery, Ala. You are cordially invited to attend. The services starts at 3 p.m.

The services were well attended last Sunday, and was conducted by Rev. D. A. Sox, of Birmingham. We were very happy to have a good many visitors to attend, from out of town. Mr. and Mrs. L. E. Diefenderfer and Mrs. Stanford of Clanton, Mrs. McCoy and friend of Calera, Ala., Mrs. C. R. Foss and Mrs. Payne of Birmingham.

Mr. and Mrs. Fred Larkins of Selma, Ala., and Cincinnati, Ohio, visited at the Leonard Bosworth home on Sunday afternoon.

Mrs. Chas. Howard is visiting with her daughter and family the Owen Carters, in St. Louis for a couple of weeks.

It has been a real joy to have Mr. Blickensswerfer in our midst again. He has been the recipient of several courtesies while in Thorsby and says that he has really enjoyed being back again. To hear him talk though, we believe that he is a real Floridian by this time.

A Letter To You From Your Chamber of Commerce

Dear Member:

How many times have you asked the question—"What is the Chamber of Commerce doing? Why don't "they" do something? Why don't I know what is going on?"

Well, before you decide to read this or throw it away, let me explain why this letter is written to you. If you are now, or have been in the past, a member of the Chamber of Commerce you should keep it for information and study.

I think most of us are alike—we have never had an opportunity to learn what a Chamber of Commerce is and how it works. Until recently I had only a slight knowledge of the workings of the Chamber and what it was expected to do. Now, to do a good job, everyone knows that you must know your work. That is the first basis for selecting a good worker or employe. So the object of this letter is to pass on to you the information I have been able to gather on Chamber of Commerce work.

Some of you, I am sure, will be familiar with the things discussed in your close association with this or other Chamber work, but if you will bear with us, maybe we can begin to explain Chamber of Commerce to all of our members.

About this time, some of you may begin to wonder, "Why does this concern me? I am not an officer or official of the Chamber—why do I need to read information?" Well, for two reasons. First—Anyone can get more from an organization which he understands, and second—You may be called on to render service in any one of the jobs the Chamber has to do. To be a worthwhile organization all members should be interested in its work and be willing to render their help or support when it is needed.

NOW—So much for the reason, let's get to the information:

1. What is a Chamber of Commerce?

The Chamber of Commerce is a vehicle that brings business people together and keeps them together, to work for community betterment Yes, it is an organization. It may, or may not, be incorporated. It operates under a set of by-laws; but, its sole object is to work for the betterment of the community.

2. Why Do You Want a Chamber of Commerce in Chilton County?

There may be many reasons but they boil down to two things:

(a) You want a better community in which to live and work.

(b) You want a favorable atmosphere in which to do business.

3. What Do You Expect it to Accomplish?

You want it to accomplish all things which work toward a better community, a better business atmosphere, and all ideas for which it is credited; but, specifically, these are the programs for which your Chamber of Commerce should work:

(a) Gain Acceptance of the American Way for Meeting Human Needs:

Everyone knows that our country was founded on many principles, but of these, the best known is the "Free Enterprise System." This is the system on which our business depends. Without this system, America would not have accomplished today what has been done in so short a time. By gaining acceptance we mean, the selling of our free enterprise system and selling the democratic method of government by the people.

(b) Promote Programs for Growth and Stability of Business:

Under this heading comes our entire program of industrial development for our community. For our business to grow, we must have industrial development along with an agricultural development. This is a large part of the Chamber's program, and the one most of us are interested in; but we must not forget that you cannot have this program carried out effectively unless the other programs of community development are going on and keeping pace.

(c) Achieve Better Government:

Have more freedom for business—through work with our elected officials—from the City Council thru the county, state, and federal legislative and administrative bodies. This does not mean that the Chamber should be active in politics from a partisan standpoint, but should work with the officials in office to see that our views and thinking are known to these law makers in advance of legislative action. In this manner we can collectively let our thoughts be known to the men who govern us.

(d) Mobilize Men and Money Behind the Local Chamber of Commerce Effort:

Why is this necessary to accomplish something? First of all, any program which is to accomplish something, must first have a group of people behind it who believe in its goals enough to give not only their money but their time to accomplish these goals.

As you know, you cannot have a business which is to handle a great volume with only an investment of capital and one employe. The business would accomplish only what the one employe was capable of doing himself. The more employes he has (up to a certain limit) the more work he is able to do. If he has a big job to do, he must first determine how many men are needed to do the job efficiently and with the least cost. The maximum amount of work can be done in this way, and in the end, he will be an efficient business man. So it is with the Chamber of Commerce. Instead of a few men trying to carry the program of financial help and the manpower requirements, we must have as many members as possible who will contribute their money and time toward the goals they want to see accomplished. Therefore, for the members to get the most for their investment in the Chamber they should be as active as possible. Many times you may have heard the term used "check book membership." Most of us are guilty of this kind of membership in many clubs and organizations. You can see for any chamber to be effective there must be a minimum and not a maximum of "checkbook members." Its like everything else; a great deal of what you are to get out of this Chamber of Commerce depends on what you are willing to put into this work.

In the final analysis the accomplishments of our Chamber of Commerce are directly dependent on the members activity. No more can be gotten out of anything than is put into it.

Now this has only covered the highpoints of the program. I realize that the organization has been such that little member participation was asked and very little given in our work. In the near future, each of you will be given a chance to express through a questionnaire your feelings about the Chamber of Commerce and what you think our program should be. We will appreciate all suggestions you may have to offer about our work.

We Will Plan Our Program of Work on the Budget that is Now Available:

We ask that you give us your help, support, and influence, in building a greater community, in which to live. This can be accomplished through the combined efforts of all business people. We maintain an office five days a week at the Mims Realty Company Office. Minnie Brown is our active secretary and will be glad to give any help in this line.

A cordial invitation is extended to all businessmen of the county, to come and join us.

If you have any suggestions write Harold L. Foshee, Pres., Clanton, Ala., P. O. Box 66.

Yours for a better community.

LAST RITES HELR FOR MRS. CARSON SNEAD WEDNESDAY, JANUARY 20

Funeral services for Mrs. Thomas Carson Snead were held from the Mt. Zion Baptist Church on Wednesday afternoon at 2:00 o'clock, January 20, 1954 with her pastor, The Rev. Wilkins Winn, pastor of the Brent Baptist Church, and the Rev. Forest Hicks, pastor of the Centreville Baptist Church, officiating.

She planned her funeral last August as one would plan a pleasant trip and every request was carried out. Mrs. Wilkins Winn sang "Give of Your Best To Your Master," "Does Jesus Care" was sung by Roy Martin and "Beyond The Sunset" was sung by the Rev. Forest Hicks. Mrs. Virgis Ashworth was pianist. The Rev. Hicks read II Thes. 4th Chap. 13th through 18th verses.

The large crowd attending and the magnificent floral arrangement were evidence of the esteem in which she was held.

Mrs. Snead passed away in the Druid City Hospital on Monday night where she had been more than a week. She had been in failing health several years during which time she underwent surgery two or three times and all that loving and skilled hands could do was done for her comfort but she went peacefully away.

Born in Chilton County, near Lawley, she was the daughter of Mr. and Mrs. C. T. Walker. She was Miss Lena Eliza Walker when she married Mr. T. C. Snead on March 26, 1916.

She worked hand in hand with her godly husband in rearing their children whose home imparted simplicity, integrity, refinement, reverence and high purpose. Her influence will live on in the lives of her family whose influence lifts those around to a higher level.

Mrs. Snead was a member of Mt. Zion Baptist Church until the family moved to Columbus, Miss., where she moved her letter. After nine years there they moved to Brent where she united with the Brent Church. She was a faithful and active member in every phase of the work as long as her health permitted. Her faith and courage have imparted a heavenly benediction of strength and peace.

The pall bearers were Messrs. R. F. Thompson, Jr., Charles Snead, Quint Mitchell, Harold Walker, Fred McGee, W. B. Crowe, Jr., A. M. Thornton and W. E. Belcher, Jr.

Honorary Pallbearsr were Messrs. Herbert Walker and Marvin Holmes.

Collins Funeral Directors of West Blocton were in charge of interment in the Church cemetery where the Friendship Chapter O. E. S. 131 stood honor guard at the graveside where Dr. J. Gilbert Hutchinson, officiated.

Surviving besides the husband are three children, one son, Mr. Bert Snead of Clanton and two daughters, Mrs. Sam Yarchin, San Antonio, Texas and Mrs. B. R. Young, Aberdeen, Miss.; nine grandchildren, two brothers, Mr. Thomas Horton Walker, Prattville; Mr. Wheeler Walker, Maplesville; Sisters: Mesdames Allen H. Today's good telephone service will be even better tomorrow thanks to the transistor, a tiny electronic marvel that would fit in a nutshell.

The transistor — invented by Bell System scientists — can do the work of a vacuum tube used in telephone, radio and television equipment and many other things a vacuum tube *can not* do. It is so small and light, yet so strong and reliable, that it has been called the "mighty midget".

A miracle, yes — but only one of many Bell System advances along the road toward more and better telephone service. To bring these new advances and to keep service good and growing requires a fair profit on the money invested in telephone equipment.

Year's Resolution—

e second month of the year has
n. It is still time to make new
resolutions. Try one or more

ize not at all
will make two new friends and

Fertilize Your Ponds Early To Get Much Better Fishing

AUBURN, Ala.—Early pond fertilization means better fishing, says Earl Kennamer, API Extension fish and wildlife specialist.

And he advises pond owners not troubled by flood waters flowing through their ponds to begin fertilizing around Feb. 1. Fertilizer materials stimulate early production of fish food in the water so bluegills will be able to spawn heavily. They, in turn, supply food for young bass born in March, April, and, May.

"The first three fertilizer applications should be made at two-week intervals," says the specialist. "And any additional application should be made only when the water begins to clear below the surface or when your hand can be seen beneath the surface at elbow depth. Each application should consist of 100 pounds of 6-8-4 and five pounds of ammonium nitrate or 10 pounds of nitrate of soda.

"There are two satisfactory ways to apply fertilizer. Throw the fertilizer into the water from the bank or distribute it from a motorboat. Or use the wooden platform method.

"Provide one platform for a pond under five acres in size, two for a 20-30 acre pond. Space the platforms well apart around the shoreline, and set them 12 to 15 inches below the surface. Place fertilizer sacks on the platform flat side down, and tear the paper covering from the tops and part of the sides. Wave action will distribute the fertilizer over the pond."

If your pond has large amounts of uncontrolled water coursing through it, concludes Kennamer, don't fertilizer now. Wait until the water drops to its normal flow over the spillway or stops altogether.

YOUR Health

"Your Health" is presented by your physician as a health service of The Medical Association of the State of Alabama.

WHAT'S YOUR REMEDY?

Of all the conditions affecting the human being, the common cold is undoubtedly the one evoking the greatest number of remedies which vary from commonsense to nonsense in nature. Yet, despite these various claims, the most accepted method of caring for the common cold is bedrest.

Just why some persons are more susceptible to the common cold is not known. In fact it was only in recent years that the cause of the common cold, namely a filterable virus, was suspected. The condition takes its name from the fact that no one seems to be immune from it. On the average, a person is estimated to have at least two colds a year. Since the average duration of a cold is about five days, one can estimate the economic factors in loss of time at work, reduced efficiency and accompanying debility.

Until the specific virus is determined, a specific cure or preventive cannot be established. While some of the newer antibiotic and antihistaminic drugs have alleviated or abated the symptoms of the common cold, they are not completely effective. Once the mediaction is withdrawn, the cold sometimes reappears.

Because the common cold manifests itself differently, researchers are inclined to suspect there are many types of colds, all of which attack the respiratory tract with similar symptoms but in varying degrees of intensity.

Strangely enough the common cold is not a seasonal affair, although the condition is more rampant during the winter months. Severe colds do occur in the spring, summer and fall. As yet there is no positieve evidnce to point to the exposure to drafts as a source of colds, although many persons can trace the beginning of a cold to such an occurrence. Just why some persons develop a cold when exposed to chilling or dampness and others do not is not known.

If a cold develops, the best treatment is bedrest. Because the condition is so communicable, it is wise to isolate oneself to obviate its spread. Then too bedrest enables one to keep warm, which is essential in the care of the common cold, and forestalls the development of complications such as pneumonia and pleurisy. The diet should include plenty of fluids and fruit juices.

Medications are available to alleviate the symptoms. These produce temporary relief only and should be left to the discretion of the physician.

Rabbits eat more at night than during the day.

(Too Late For Last Week)

The Sunbeams met Wednesday afternoon in the home of Mrs. June Grant. The following members were present, Wayne Glenn, Bob Taylor, Sammy and Faye Robinson, Carol and Clara Thomas, Linda Sorrell, Donny Bryant, Charles Calloway, Sue Edwards, Mike Moore, Chris and Jon Davis. We are sorry that Larry Davis is sick and was unable to attend. Everyone missed him. The group made finger puppets, then listened to a story, "A Visit with Grandmother." A bible verse was said by each member and the meeting adjourned. Delicious refreshments were served by Mrs. Grant. They hope to have some new members at their meeting next Wednesday.

Rev. Hymon Atcheson, Rev. John Sorrell and Mrs. Lee J. Grant have been in Birmingham this week attending the Evangelistic Conference and Archie Mc Taylor attended Wednesday.

Circle II of the WMU had a business meeting Friday night at the home of Mrs. Crayton Taylor. The meeting was very well attended and some very good plans were made. Delicious refreshments were served by the hostess, Mrs. Taylor.

Last week was WMU Focus Week, and both circles met at the church Wednesday for the purpose of visiting the women of the community who are not members of the WMU. Then Thursday Mrs. Russell Williams met with us and taught the book, "Let's Listen." Everyone brought a covered dish and we spread dinner at the church. We really enjoyed having Mrs. Williams with us.

The GA's and RA's met with their counselors, Mr. and Mrs. Crayton Taylor, at the church last Wednesday. Both meetings were well attended. The programs were taken from their magazines, "Tell," and "Royal Ambassadors."

Mrs. L. M. Eiland and boys of Montgomery visited Mr. and Mrs. Joe Berry Jones Sunday.

Sunday dinner guests of Mr. and Mrs. Alvin Driver were, Mr. and Mrs. Woodrow Thomas and Wayne, Mr. and Mrs. Leon Cantrell and Miss Effie Driver all of Birmingham.

Mrs. Bessie Driver spent the week end with her sister, Mrs. Flora Dennis.

Mr. and Mrs. H. J. Taylor and Mr. and Mrs. Crayton Taylor attended the Howard College A Cappella Choir Concert at the First Baptist Church Sunday afternoon.

Mrs. Lula Cooper, of Montgomery spent last Wednesday with Mr. and Mrs. Jim Cooper.

Mr. and Mrs. Alton Cox of Birmingham spent last Saturday night with Mr. Cox's parents, Mr. and Mrs. W. B. Cox.

Mrs. E. J. Higgins and Mrs. Virginia Glenn of Montgomery spent last Wednesday with Mrs. Crayton Taylor.

We are sorry to hear that Mrs. Ellen Jones has been sick and we are glad to hear that she is improving.

The YWA girls met at Mrs. Hyman Atcheson's last Thursday night and made candy.

Mr. and Mrs. Ben F. Abbott and children of Beltstown, Mass., are spending a few days with Mr. and Mr. W. B. Cox. Mr. Abbott has to return for duty overseas and Mrs. Abbott and children will be at home on Third Avenue in Clanton.

Mr. and Mrs. Edsel Wilkins and Gary of Birmingham spent last Thursday night with Rev. and Mrs. Hyman Atcheson.

Mrs. Alvin Driver spent last Thursday in Montgomery with her sister, Mrs. J. R. Sellers.

Saturday guests of Mr. and Mrs. W. B. Cox were Mr. and Mrs. Raymond Cox, Kenneth and Carolyn of Clanton.

We wish to extend our sympathy to the Grant family in the death of Mrs. Ida Grant. She died Tuesday at the home of her daughter, Mrs. John Driver. Interment was at Chestnut Creek.

NEED A DUST CLOTH? THEN MAKE YOUR OWN

Stella Mitchell, API Extension home management specialist, offers these suggestions on making a dust cloth that will pick up and hold dust satisfactorily.

"First, get one-half square yard of hemmed cheesecloth, medium grade," says the specialist. "Then to one quart of boiling water, add one tablespoon each of linseed oil, kerosene, and turpentine. Keep this mixture in a closed container.

"After it cools, soak the cloth thoroughly in the solution, wring it, and hang it up to dry. Wash when necessary and repeat treatment."

Make full use of fertilizers, lime, and manure as part of a good soil management program.

Lime may be applied any time during the year with a commercial spreader, a special home-made wagon-box spreader, or a truck spreader.

"Back To God" Radio And TV Program Slated

Dwight D. Eisenhower, President of the United State, will again lead The American Legion's annual "Back to God" services on Sunday afternoon, February 7. The program will be carried on the CBS Network and by major radio networks from 1:30 to 2:00 p.m., CST. The President will appear "live" from the White House, with other features being produced in New York.

Bishop Fulton J. Sheen, Dr. Norman Vincent Peale and Rabbi Norman Salit will participate in the religious ceremony. With the program under the direction of National Commander Arthur J. Connell and National Chaplain Dr. Tom B. Clark, the President and the three outstanding clergymen will be supported by perhaps the greatest group of voices in the country—the U. S. Military Academy Chapel Choir and the U. S. Naval Academy Chapel Choir. The Preamble to the Constitution of The American Legion will be sung by the famed tenor, Morton Downey.

Rev. Charles S. Trimmier, state Legion Chaplain, is urging all Legion Posts in Alabama, in connection with the Legion's "Back to God" movement, to hold special meetings on February 7, with local religious leaders participating.

Legion officials are expecting the greatest radio-TV hook-up in the history of the organization, to carry the Legion's message of the "Back to God" program, and to bring home to all Americans the desperate need of this nation to return to the fundamental religious principles in which this nation was conceived and has flourished.

KIWANIS

What They Are Doing

"We Build"

Clanton Kiwanians are starting the new year right by painting and replacing the Kiwanis signs on the highways leading into Clanton. Sam Powers, Chairman of this committee, says that work has already begun on the project and within the next week or two the signs will be as good as new.

* * *

At the regular meeting held last Thursday night Projects for 1954 were announced and discussed. Among the most important and to "hit only the high spots we will list a few:

The Music Committee will form a quartet of club members and will try to present a Young Peoples program during the year.

The Church Committee has as their main project church attendance. They are endeavoring to get folders to distribute for the purpose of creating more integest in church attendance.

* * *

The Vocational Guidance Committee will make their aim to encourage youth to stay in school. Assist in finding permanent jobs for youth and help to furnish vocational reference material for students in the Chilton County High School.

The objectives of the Inter-Club Relations Committee is to make at least 12 Inter-Club Meetings for the Club during 1954 in the Alabama District.

Arrange to be host to each Club in this Division for 1954 for interclub meetings. Place special emphasis on cordiality and friendship to visiting Kiwanians by the entire membership.

The above is only a few of the projects that will be undertaken by the Clanton Kiwanis Club during the year. Each week in this column a report on what the Club is doing will appear. The membership is striving at all times to build a bigger and better Clanton Kiwanis Club and with full cooperation from an interested membership will continue to live by the motto: "We Build."

CHILTON COUNTY NEWS

VOLUME XXXII | CLANTON, ALABAMA | THURSDAY, FEBRUARY 11, 1954 | NUMBER 10

Things we -SEE- and Hear

by "Tuck"

Folks are always complaining about their salary, but I'll tell you now, the time you'll appreciate that pay check no matter what the sum, is the week you don't draw it. Then it'll seem a lot bigger and better than usual.

* * *

Seems like the groundhog's just a little turned around this year doesn't it folks? I believe he came up backwards.

* * *

We saw a sign in the window of a vacant building the other day that read: "Moved over yonder" and then had an arrow pointing in a rather general direction. We're not sure exactly where over yonder was, but from the directions given it couldn't have been very far off.

* * *

I always have thought that running for a political office was kinda sticking your neck out and asking for it. Not only do people in general take cracks at you, but it breaks down into too narrow a margin who your friends are and who they ain't. Now some folks are probably more sure of themselves than that but not me. I'd rather be ignorant to the fact of who my friends ain't.

* * *

See where there is going to be a free movie given by the American Cancer Society at the Wadesonian Theatre Thursday, Feb. 11 through the kindness of Mr. Wade. Mr. Charlie is donating the use of his theatre and machinery for the showing of this important film. You are urged to come and bring your neighbor and learn more about this age old enemy and what you can do to help conquer it.

* * *

Mrs. Knight said she had intended to paint one of her houses the other day, but some signboard boys came along and did a rather unauthorized job of plastering for her. Needless to say Mrs. Knight is no longer friendly toward these fellas and they aren't welcome around there any more.

* * *

Always try never to compare your good traits with the liabilities of others; you'll always wind up with your foot in your mouth.

* * *

By the way, to those few who are interested, you didn't overlook ole "TUCK" last week. We were besieged and attacked by a bunch of virus, at least that's what the "doc" said. Others said it was the plain old flu, but whatever it was it was the first time and I sure hope it's the last.

* * *

Say, I'm beginning to have a pet peeve that I'm even guilty of myself sometimes. As efficient as officials are trying to make our traffic in town it seems that folks aren't to interested in efficency. I think most of them are asleep at the wheel. Why are we always driving up to a red light and just sitting there until it changes when we knew all the time that we were going to turn right. A big sign right under the street light displays the fact openly that you may turn right on a red light. They even have signs on the highway crossings now, and under a big red "STOP" they have added "turn right on red." It's your money that's putting those signs up taxpayers, the least we can do is take advantage of it.

DOC LEVINE RECEIVES AWARD FOR SERVICE WITH CRIPPLED CHILDREN

I. S. (Doc) Levine of Clanton was awarded a Certificate of Distinguished Service by the Alabama Society for Crippled Children and Adults at the Annual Meeting of the organization in Birmingham last Friday. Mrs. Franklin A. McCarthy of Anniston, a Director of the organization, in making the award reviewed the many years of service Mr. Levine has rendered the crippled and handicapped of Chilton County. Others receiving awards included Mrs. Sam Wiesel, Tuscaloosa; Mrs. John Lakeman, Haleyville; Mrs. Frank Jordan, Huntsville; and J. J. Collins, Geneva.

Julian Skinner, Jr., Birmingham attorney, was elected President of the Society. Other officers elected included J. J. Benford, Albertville, and Garland S. Smith, Cullman, Vice Presidents; Mrs. Julian Frazer, LaFayette, Secretary; Sidney Gassenheimer, Montgomery, Treasurer. In addition to these officers, those attending the convention nominated and elected the following to serve as Directors of the organization: Dr. Elbert Norton, Florence; Dr. Paul Irvine, Auburn; Mrs. Warren McPhillips, Selma; Miss Kayron Campbell, Evergreen; Mrs. R. E. L. Cope, Jr., Union Springs; Mrs. V. E. Whitehead, Blountsville; George Proctor, Andalusia.

Elected to psition of Honorary Vice Presidents were George Barnes Andalusia; Carl A. Morring, Jr., Huntsville; Eugene B. Bowman, Mobile; Sam J. Israel, Sheffield; Mrs. Earl McGowin, Chapman.

Nearly 300 people attended the convention and heard experts in the field of Crippled Children and Rehabilitation discuss various problems pertaining to the handicapped. Those participating on the program included E. B. Whitten, Executive Secretary, National Rehabiliattion Association, Washington, D. C., and Dr. Ben S. Myers, Birmingham.

Mayor R. B. Searcy, Dr. H. D. Nelson and Mrs. Archie Hill, Jr., all of Huntsville, participated in the presentation of a deed to the Alabama Society for property in Huntsville on which there is to be developed by the Grace Club Auxiliary a modern treatment center for crippled children.

FARMERS TO GET INCREASE IN ACREAGE ALLOTMENTS

Passage of the new cotton acreage law substantially increasing Alabama's allotment and providing for more equitable adjustments in the future followed an intensive campaign by cotton-belt farmers backed by the Alabama and American Farm Bureau Federations, Mr. Kincaid, President of the Chilton County Farm Bureau, said this week.

While not all of the Farm Bureau's recommendations were adopted by Congress, the new legislation will give this state more than 207,000 additional acres than would have been the case under the old law. With an average yield of 300 pounds per acre, it is estimated that this increase will mean an additional $20,000,000 to Alabama's cotton income this year, Mr. Kincaid said.

He explained that the drive for a more orderly adjustment of the cotton production program began early last year when Secretary of Agriculture Benson announced that under the law existing at that time, the nation's total acreage must be reduced from the 25,284,600 raised in 1953 to 17,910,000 this year. Walter L. Randolph, President of the Alabama Farm Bureau Federation, was chairman of four belt-wide conferences at which efforts were made to iron out differences among the various producing states.

As a result of these conferences, near-unanimous agreement was reached, and cotton states congressmen and senators threw their support behind a Farm Bureau recommendation to raise the 1954 acreage to 21,379,342. Even this amount will necessitate considerable reduction in plantings of many farmers and a revamping of many individual farm programs. However, the Farm Bureau official explained, many hardship cases will be relieved and an orderly adjustment in line with supply and prospective demand brought about, the Farm Bureau advocated continuance of the 90 per cent of parity price support on cotton for 1954.

Concerters To Present Lettvin

THEODORE LETTVIN

The youthful career of the brilliant pianist Theodore Lettvin, who will appear on Thursday evening at 8 o'clock, Feb. 18, at Courthouse auditorium, shows fulfillment of a prediction made by the late Frederick Stockk when Lettvin made his orchestral bow at the age of twelve with the Chicago Symphony under that Maestro's baton, that he would have a great future on the concert stage.

At the age of fifteen he won a scholarship to the Curtis Institute of music in Philadelphia where he studied for the following seven years with the world-renowned artist, Rudolph Serkin. His career was interrupted for service with the United States Navy during World War II.

The young Chicagoan has since been recipient of many national awards, among them the Michaels Memorial and the Naumberf Awards. In the summer of 1952, called on very short notice from an extensive tour of Europe and North Africa, he entered the Queen Elizabeth of Belgium International Music Competition, the world's foremost piano contest. There he gained international honor as a laureate (leading prizewinner) with an attendant command performance before a spell-bound Queen.

During the season 1953-54, with is a crowded one for Lettvin, with a four months tour of the United States and Canada, the artist will be heard as soloist with the Cleveland, Cincinnati and Bufallo orchestras.

His leading solo and orchestral appearances throughout the nation in past seasons include: New York Town Hall, National Art Galleries in Washington, D. C. The Philadelphia, Chicago, Pittsburg and Grant Part Symphony Orchestras, and the Ravinia Festival. Lettvin has also acted as apprentice conductor to William Steinberg with the Buffalo Philharmonic.

Mayor Jones Writes About Jan. Gas Bills

Editor the Chilton County News.

Several of our natural gas users, including myself, were displeased with the amount of the gas bill for January. Many people believe the amount of the monthly bills presented are for the gas and water used from the first day of the month to the last day. I wish to explain that the meters are read between the 15th and 20th of each month in order to allow time for the clerks to prepare the bills for mailing and payment on the first of the month.

Therefore it should be understood the January bill was for the period between the 15th and 20th of December to approximately the same date in January. People as a rule have company during Christmas and naturally consume more of every thing. Much of the time this January-December bill covers, the weather was damp and cold and we burned more gas. Then too it is so easy to get the heat from gas, and have a comfortable home, we just allow the temperature in the home to go higher than necessary, but if we would pay attention and regulate the heater, much gas could be saved. A thermometer in the home placed so it will not be affected by the cold air when the door is opened, or too near the heater or kitchen, then regulate the heater so it will not produce a greater temperature than 72 or 73 degrees, the home will be comfortable and no gas wasted.

We have made a careful inspection of our gas system to be sure the unusually large bill for December-January was no fault of the meter reader or the City officials in any way, but due entirely to weather conditions and very likely no effort on our part to regulate the heat. To have further evidence and assurance that our system is not defective. I have information from Montevallo, Sylacauga, Talladega and Birmingham that their gas bill was unusually high for the time due to weather conditions.

Unless there is a defect in the gas appliances in our homes, I predict the gas bill for February will be much less than the one we have just paid, because the weather up to now has been more pleasant, and very likely we are economizing in the use of gas.

I suggest that we all work together for the improvement of our gas and water system, and the City as a whole, and not be so prone to make ugly accusation against the meter readers and the employes of the city, without first definitely clearing ourselves of any responsibility for the high gas and water bill.

Respectfully,
C. FENN JONES, Mayor.

JOHN SAMUEL GRENN

John Samuel Grenn, age 78, of Thorsby died at the residence on Feb. 2 ,1954. He was a native of Sweden.

Surviving is one daughter Ena Olson of Orlando, Fla., and three grand children. Two sisters, Mrs. Anna Carlson and Marie Graves, both of Thorsby, and a brother Andrew Grenn of Mt. Veroon, Wash., also survive.

Funeral services were held from the Lutheran Church at Thorsby and burial was in Concordia cemetery. Martin Funeral Home was in charge.

KIWANIS

What They Are Doing

"We Build"

The Clanton Kiwanis Club met at their regular meeting place last Thursday evening with the program presented by the Public and Business Affairs Committee in charge.

An interesting program was presented featuring a demonstration by Mr. J. E. Davis, Public Relations officer for the Southern Bell Telephone Company.

The program made a deep impression on the members of the club and opened the eyes and put them to thinkking about some of the equipment and expense of our communication system.

It also emphasized the progress and advancement since Dr. Alexander Graham Bell first invented the telephone. The intricate workings of the system is amazing and we wouldn't be so prone to "cuss 'em out" when things went wrong and whenever an interruption came on some of our TV programs.

Other guests along with Mr. Davis were Mr. Hinds, Mgr. of the Montgomery District for Southern Bell and Mr. Mittchell, Group Manager of the Montgomery District in which our local Exchange operates.

The program this week will be presented by the Boys and Girls Committee of which Gabby Tiffin is chairman.

With some people it is better to remain silent, since they will do ninety per cent of the talking anyhow.

LET'S BE OPTIMISTS

Don't suppose we get around so very much but from that we can see and hear locally the attitude of our businessmen is that 1954 will be a good year.

We aren't able to find any "criers of doom" hereabout and the ones we have talked to are anything but pessimists. All in all, people have more than ever before, business is looking up, and if we keep our eye on the fundamental principles upon which our country is founded we have nothing to worry about.

A JOB WELL DONE

We believe that Armistead Selden, Congressman from the Sixth Congressional District has done a good job for us in Washington.

A young man of energy, action and the courage of his convictions, he has accomplished a lot for the Sixth District the short time he has been in Washington. He has made many friends in Chilton County during the short term of his office and is extremely popular here. Whether or not he will have opposition this year remains to be seen but if he should have an opponent in the Democratic Primry it will have to be an outstanding leader to overcome Selden's popularity.

CONGRATULATIONS IN ORDER

No finer report of the county's affairs has come out of the courthouse than the recent audit of the State examiners of the accounts of Chilton County.

Our Probate Judge Dave Tingle, the four Members of the Board of Revenue and Control and the very efficient Clerk Harold Smyer, should all receive congratulations from the citizens of our county for the fine way they are taking care of the County's business.

While you are going around looking for public officials to "knock" why not stop long enough to give credit to all of our local officials who are doing such a wonderful work.

CONGRESSIONAL Quiz

Q—Are the Republicans planning to publish something similar to the Democratic Digest?

A—No, but the Republican National Committee is beginning publication in January of a monthly four-page newspaper, to be distributed free to about 150,000 GOP political workers. The Democratic Digest, a pocket-sized magazine, runs 112 pages a month and sells for $3 a year or 25 cents an issue on news stands. The Digest, first published in July, 1953, has a circulation of about 100,000 a month.

Q—If two or more states want to get together and try to develop or control a river common to their boundaries, why must a bill allowing them to do that be approved by Congress?

A—There is a Constitutional provision against any state "without the consent of Congress . . . enter(ing) into any agreement or compact with another state" (Art. 1, Sec. 10). For example, Public Law 52 of the 83rd Congress allows the states of Connecticut, Massachusetts, New Hampshire and Vermont to enter a four-state compact for flood control on the Connecticut River. The bill (S 261) was introduced by the eight Senators from those states.

Q—Since the number of Congressmen sent to Washington by a state depends on the State's population, why hasn't the number of Representatives kept pace with the increase in U. S. population?

A—Total House membership has been fixed at 435 ever since 1930. Prior to that time, Congress was reapportioned every 10 years or so (they didn't reapportion in 1920) simply by increasing the representation of those states that had a population gain. But population growth was so rapid that lawmakers felt the House would be too unwieldy a body unless membership was stabilized.

Report from Washington

BY

ARMISTEAD SELDEN

Congressman, Sixth District

I had the privilege last week of attending the second annual prayer breakfast of the International Council for Christian Leadership which was held at the Mayflower Hotel in Washington. Again this year we were the guests of Conrad Hilton, owner of many of the world's largest hotels.

After a breakfast of grapefruit, eggs, ham, sausage and coffee, the guests were welcomed by Sen. Frank Carlson of Kansas, President of the International Council for Christian Leadership. Sen. Carlson then introduced our host, Mr. Hilton, who spoke briefly on the importance of prayer, emphasizing prayer as a means of direct communication with God.

Following Conrad Hilton's talk, Sen. Alexander Wiley read the First Psalm from the Bible. Vice-President Nixon then read the first 12 verses from the 15th Chapter of St. John.

President Eisensower received a standing ovation as he was introduced by Sen. Carlson who reminded the guests that the President had spoken at a similar meeting last year and would not be asked to speak on this occasion as there were so many demands on his time.

The principal speaker was Chief Justice of the Supreme Court, Earl Warren. Describing the religious background of American history, the Chief Justice observed that "although in this land of liberty we have had complete separation of church and state for 165 years, our governmental affairs have always been guided by men and women of religious faith." Warren called the religious convictions of Abraham Lincoln and other great Americans the "kind of simple faith that can move mountains." He added, "Before these perplexing, troublesome days pass it may be necessary to move mountains. It is good that we keep the faith together."

To attend a breakfast such as this, where one finds the President, the Vice President, and the Chief Justice of the United States, in addition to many Senators and Members of the House, certainly reassures one that the affairs of our government continue to be guided by men and women of religious faith.

Farmers Can Apply For Loans

Good news for farmers in the Sixth District who need credit to finance their 1954 operations came last week when the Secretary of Agriculture designated our eight counties as elegible for production and economic disaster loans this year. The counties were included in a group of 41 over the State which Secretary Benson felt warranted aid as a result of last summer's lengthy drought.

The emergency loans will be made at three per cent interest through the various local offices of the Farmers Home Administration. In order to be eligible to apply, farmers must first have tried and failed to secure finances from private lending sources. Loans can be obtained for fertilizer, seed or any other item needed to carry on farm operations.

This program is completely separate from the emergency feed program conducted by the Department of Agriculture, through which a number of Alabama counties have been declared by the President to be eligible for drought relief. Under this latter program, relief is provided in the form of low-cost feed for cattle.

Lock Rules Relaxed

The public will again be allowed to visit the lock reservations on the Black Warrior, Warrior and Tombigbee Rivers at any time of the day or night, according to a letter I received recently from Maj. Gen. B. L. Robinson, Deputy Chief of the Corps of Engineers. Genera Robinson said notices to that effect will be posted at the several lock reservations in the near future.

At the beginning of the Korean emergency, one of the security measures put into effect at these installations was the restriction of visitors to the reservations except during daytime hours. This restriction was still in force until last week when Gen. Robinson granted my request that the rules be relaxed so as to permit visitors at the locks at any time. This should be of special interest to those who enjoy fishing at the lock reservations.

From the Duncannon Record, Duncannon, Pennsylvania: One fine antidote for depression is optimism And today more people are in a better than heretofore position to have an optimistic view Government in the past two decades has become alert to the importance of economic problems and the change in administration is Washington has not removed this alertness Cushions in the form of Unemployment Compensation, insured savings in banks, and government bonds are available to most. Government and the common man were both burned in 1929 and disliked the experience So both have taken precautions. The Hoover better times around the corner was largely verbal. The man in the White House today has more concrete things to back him up So don't let gloom bring about realization of things feared. Face today bravely and give tomorrow a better chance to take care of itself.

From the Lincoln Times, Lincolnton, North Carolina: Know anything on Arthur Godfrey? If you do, fire away Everybody in general seems to think he is fair game and that it's open season—especially since he fired little Julius . . . Personally, we long for the time when we can turn off our television and not hear any more about Godfrey until his next program We would like to go back to the time when our families thought Godfrey such a gentleman because he always knew exactly what to say

But if you want to get into the national spotlight, try to find Godfrey going in the wrong direction on a one-way street. As for us, we're resigned to the fact that we'll always have Godfrey on toast with our morning breakfast and newspaper

From the Aztec Independent—Review, Geo. B. Brown column: We call this a modern age. Why? Well, few stop to think what the word modern means. Facts are, Adam lived in a modern age just as much as we live in a modern age, but we would have a tough time living as Adam did and he would have a tough time living as we do.

The only thing Adam had that we have was a woman and despite his experience with her we didn't learn anything. Eve, however, was modern as the girls on the bathing beach now-a-days.

So don't get to feeling superior by thinking you are modern. Things we have today are modern, things we discard or cease to use are old-fashioned and no longer modern.

So, down through the pages of history every generation has lived a modern life. And that proves that modern things are here to stay as long as men live on earth.

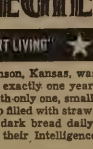
DALE CARNEGIE

★ AUTHOR OF "HOW TO STOP WORRYING AND START LIVING" ★

EVERETT SNOWBARGER, 1400 North Ford, Hutchinson, Kansas, was a prisoner of the Germans during the last war for exactly one year. He was in solitary confinement in a small 6 x 15 room with only one, small, high window for ventilation and light, sleeping on burlap filled with straw; no heat; living on one bowl of soup and one slice of dark bread daily. This went on for fifteen days, because he would tell their Intelligence nothing but his name, rank and serial number.

After this they put him along with other American airmen, on a box car, and after several days and nights he was at Sagan, Germany, which became his permanent quarters.

Now he lived on a small daily rations of potatoes, bread, "eye-ball" soup, and a little Red Cross parcel of food. They called it "eye-ball" soup because every time they took a bite, it seemed as though all kinds of eyes and insects were staring him in the face.



CARNEGIE

He worried about his health, about maybe never seeing his wife again, and whether she would recognize him if he did. He imagined that his hair was turning completely grey from worry; he worried about his job, if and when he got home.

Safely back in this country with his wife and two boys, after having survived the torture of solitary confinement, hunger, worry, forced marches, "eye-ball" soup, and "goon" bread, he declares that he is glad, in a way, that he went through the experience, because whenever something comes along that he is inclined to fear, or to worry about, he stops, thinks, and says to himself, "It can't be as bad as I have been through in a Prison Camp. I've been through the worst that could happen and survived. This makes all my daily problems seem easy by comparison!"

SCANNING THE NEWS

THE Republican National Committee received about $400,000 more in contributions than its counterpart, the Democratic National Committee, during 1953, according to the annual reports each filed with the Clerk of the House of Representatives.

The Republican group reported receipts of $1,339,538 during the year, of which $470,934 was received during the last three months. Expenditures totaled $1,312,818.

The Democratic Committee reported total receipts in 1953 were $843,947, nearly half of which, $446,424—was received during the last quarter.

● Former President Harry S. Truman said it wasn't so. The Republican National Committee released a chronological list of nine quotations attributed to Truman in which he used or permitted the use of the term "red herring" in connection with Congressional committee investigations. He said it wasn't so, that he never used the phrase and that it was a reporter who first used it.

The Associated Press said that an official transcript of the Aug. 5, 1948 news conference, from which the term first appeared, showed that Harold Stacy, a reporter for the Columbus (Ohio) Dispatch, first used the words in a question, and Truman later said, "Yes, you can quote me . . . they are using this as a red herring to keep from doing what they ought to do."

The Republican National Committee says Mr. Truman, anyhow, allowed use of the term nine times.

The first budget prepared entirely by the Eisenhower Administration was sent to Congress Jan. 21. It called for cuts in spending, taxes and appropriations, and increased emphasis on airpower and atomic energy in fiscal year 1955.

In his first budget message to Capitol Hill, President Eisenhower said the fiscal year 1955 budget reflected "a course leading toward the twin goals of a balanced budget and tax reductions," and "Assumes fairly stable conditions, internally and externally, during the period it covers." Joseph E. Dodge, director of the Bureau of the Budget, also called it a "stabilizing budget."

Including new tax proposals, here is the budget dollar for Fiscal Year 1955 estimated, in relation to where it comes from and where it goes:

Intake: Individual income taxes, 43 cents; Corporation income taxes, 31 cents; Excise taxes, 16 cents; Customs and other taxes 6 cents; and Borrowing, 4 cents.

Output: Major national security (military, mutual military program, atomic energy, stockpiling), 68 cents; Charges fixed by law (interest, veterans, grants to states), 22 cents; other 10 cents.

Just as a note of interest, among the 25 proposed tax revisions listed by the President, is the changing of the filing date for individual income tax returns to April 15, rather than March 15.

Cost Announces For Board Of Revenue

Once again I am asking the good people of Chilton County to let me serve one term on the Board of Revenue and Control of the first District. I am a life long citizen of Chilton County, am married and have six children. My father and mother are also life long citizens of Chilton County. My mother was Mrs. Mahalie Sammons Cost, and my father is Rev. John Robert Cost He has been a Baptist minister, here in Chilton County, for a period of thirty five years.

I am forty-one years of age and have never been connected with the county affairs any way what-so-ever except a member of the Democratic Executive Committee.

I am a life long Democrat and have served as a School Trustee for several years. I am in favor of more paved roads here in Chilton County and more improvements on our rural and country roads and also for schools throughout Chilton county.

Yours for a better Chilton County.

HYBRID CORN OFFERED FOR SALE IN ALABAMA

The Alabama Seed Law pertaining to the shipment and registration of hybrid corn into and/or within the State of Alabama requires all seed offered for sale meet certain requirements. All seed found to be not registered with the State Seed Laboratory will be suspended from sale. Page 10 of the Alabam Seed Law Bulletin reads as follows.

"It shall be the duty of any person who sells, offers for sale, exposes for sale or distributes seed of hybrid corn to register with the Alabama Department of Agriculture and Industries giving the designation by which it s to be sold, the designations of the parental inbred lines, and to forward the State Seed Laboratory a pound sample representative of the lot."

This request states a sample from from every lot. The only change that has been made recently is that a two pound sample is requested instead of the original one-pound sample. This seed sample is planted on the agricultural experiment stations over the state. By making such a requirement farmers have the benefit of an unbiased competitive test of all corns.

A Letter From M. C. (Jack) Hayes

I would like to announce my candidacy for re-election to the office of Tax Collector. It has been my privilege to serve the citizens of this county for the past several years. I have endeavored to fulfill the duties and obligations of my office with efficiency and honesty and fairness to all without regard to party affiliation. Your Tax Collector's office will continue to be conducted on a high plane of efficiency, honesty and courtesy. It has been my policy in the past and will be so in the future, if you honor me with this office, to cooperate with other officials but attend to the business of this office and let each other official conduct the affairs of his office in his own way.

I was born in Chilton County and my parents, Dr. and Mrs. J. P. Hayes, have been life long citizens of Chilton County.

I have your interest at heart and you will always find me ready and willing to contribute my time, effort and money in anything that tends to the uplift of the material, moral and spiritual welfare of our county.

I am seeking re-election strictly on my record. "A good record is better than campaign promises."

I ask for your vote and influence, and will appreciate any assistance given my candidacy for the office which I seek in the coming Democratic Primary.

Sincerely,
M. C. (Jack) HAYES.

Francis W. Speaks Announces For Representative

Francis W. Speaks this week announced that he was seeking the position of Representative of Chilton County to the State Legislature.

Francis is a graduate of the university of Alabama, having secured degrees in both Business Administration and Law. He is a veteran of World War II, having spent 40 months in the U. S. Marine Corp, 30 of which were spent in the South Pacific.

Francis is married to the former Sallie Gowan and is the father of a daughter and son. Since finishing school in 1950, he has been in the general practice of law in Chilton County and has in addition taught a Veterans General Continuation School.

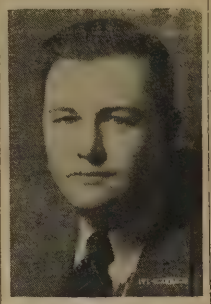
Armistead Selden Announces For Re-Nomination



Rep. Armistead Selden, who represents the 6th Alabama District in Congress announced today that he will be a candidate for re-nomination in the Democratic primary May 4.

In making this announcement, Congressman Selden stated that he intends to stand on the record he has made thus far in the 83rd Congress and on the principles which brought his victory in 1952.

As a first-term member of Congress, Rep. Selden has compiled one of the highest averages in Congress for attending sessions and answering roll and quorum calls. During the first session of the 83rd Congress, he had an average of 99.2 percent on these calls, and to date during the second session he has a 100 per cent average.

As a member of the important Veterans Affairs Committee, Rep. Selden shares the responsibility for handling all veterans legislation, inasmuch as this committee has no "twin" committee in the Senate. He was appointed by the chairman of the Veterans Affairs Committee to serve on two subcommittees, Administration and Finance in the Veterans Administration and Insurance.

Rep. Selden has been commended in recent newspaper editorials for his successful efforts to keep in close touch with his constituents. While Congress was recessed for a short Easter vacation last year, he returned to Alabama, gave several radio reports dealing with his Congressional activities, and visited all eight counties of the Sixth District. During the Congressional recess from August throuh December, Rep. Selden kept his office in Tuscaloosa open six days a week but still managed to travel more than 16,000 miles throughout the District.

Rep. Selden has written a regular weekly newspaper column durin Congressional sessions. In this column he tells of his activities as the District's representative and of significant developments in the U. S. Congress. He has also stated how and why he has voted on many of the important issues that have confronted members of the House.

In announcing his candidacy for re-election, Rep. Selden said, "I am very grateful for the privilege of representing the people of the eight counties of the Sixth District. If chosen to serve a second term, I pledge a continuation of all my efforts in behalf of these fine people and this great District."

MRS. SARAH ARANTT GEORGE

Mrs. Sarah Agantt George, age 80, died instantly at the home in Sylauga, Route 2, Wednesday, Jan. 27th, about 12:15 p.m.

Surviving is a husband, James E. George; Three daughters, Mrs. Birda Mae Gray of Mountain Creek, Mrs. A. J. Jackson and Mrs. Wash Scott both of Sylacauga, Rt. 2; four brothers, J. T. and J. M. Arantt both of Clanton, A. A. Arantt of Wadsworth and John Arantt of Texas.

Also surviving are: two sisters, Mrs. G. T. Grier of Deatsville and Lou Rushing of Tallassee; eleven grandchildren and thirteen great grandchildren.

Funeral services were held Friday at 2:30 p.m. at New Hope Church in Elmroe County with the Rev. George Watson officiating. Interment was in the church cemetery. Griffin Funeral Home of Prattville directed.

Grandsons and nephews were pall bearers and grand daughters were flower girls.

Mrs. George was a former resident of Chilton County for 33 years.

Contrary to some opinion, the Mason-Dixon line was established to settle disputes over private land grants and not as a dividing line between the North and South.

Local Farmers Are Invited To Attend Meeting

Farmers of Chilton County are invited and urged to attend a meeting scheduled to be held at City Hall in Clanton, Ala., on Monday February 15th at 2:00 p.m., at which time a thrilling story of twentieth century pioneering will be revealed.

This will not be the first time the story has been told, nor will it be the last. The story concerns the development of the nation's first farmer owned sythetic nitrogen plant. To some who will hear the story, it will be received with a sense of pride, because they were among the earlier investors. To others who will be hearing it for the first time it will be accepted as a challenge.

The Mississippi Chemical Corporation began production two and one half years ago and since that time has produced 96,233 tons of anhydrous ammonia and 143,799 tons of ammonium nitrate for use by farmer-stockholders. This was made possible because some 2,000 Alabama farmers together with 7,000 other Southern farmers realized the possibilities and potentialities of a farmer owned company from which they would receive fertilizer in proportion to their investment and which would provide an assured source of nitrogn.

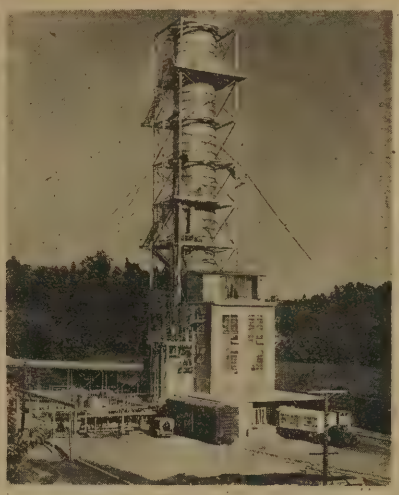
In connection with the story, ar opportunity will be offered to farmers in this locality to become a part of a successful business enterprise through the purchase of stock in MCC. Stock ownership entitles a stockholder to his pro rata share of the production of the plant and provides an assured source of nitrogen. The company is entering the final phase of an expansion program to substantially double the capacity of the nitrogen producing facilities. Sale of this stock will provide funds for the financing of this expansion program.

When the entire program is completed, the plant will have a daily production of approximately 250 tons of anhydrous ammonia, 315 tons of nitric acid, and 400 tons of ammonium nitrate. The farmer-stockholders of the plant will have invested approximately $10,000,000 of their funds in the plant, the value of which will be approximately $17,500,000.

It is anticipated that the debt at the date of completion will be about $2,500,000, or one-seventh of the value of the plant.

Make your plans to attend the meeting on Monday, February 15, ask questions, and receive answers which will testify to the fact that MCC is not merely a successful business enterprise or an assured source of nitrate, but also is a monument to the faith and courage of many, many farmers who dared to pioneer in the face of many obstacles and difficulties.

The above picture shows a view of the Mississippi Chemical Corporation, Yazoo City, Mississippi, the nation's first and only operating farmer-owned nitrogen plant..



The ammonium nitrate manufacturing facilities of the Mississippi Chemical Corporation, Yazoo City, Mississippi are shown in the above picture. This portion of the plant, which was designed to produce at the rate of 140 tons per day, is now averaging approximately 180 tons per day of the solid nitrogen fertilizer.

GENE AUTRY COMING TO MONTGOMERY

A show for the entire family—mom, dad, and most certainly, the kids—that's Gene Autry's all-new, all-star "Hit Show of 1954" which is coming to Montgomery on Friday, Feb. 26, for one day only. There's to be two shows on that day, at 4:30 p.m. and 8:00 p.m. at the Coliseum.

Gene, who has been one of the most popular cowboy entertainers in America for the past 15 years, prides himself in the fact that in none of his shows, motion pictures, television pictures or radio shows has there ever been anything but clean and wholesome entertainment for the entire family.

And it is Entertainment with a capital E because Gene has assembled together what he considers to be the finest group of talent he has ever presented in his more than seven years of touring America on one-night stands.

In addition to himself and his two famous horses, Champion and Little Champ, there's Pat Buttram, the Cass County Boys, Carl Cotner, Barbara Bardo, the Jemez Indians, and Gene's entire Melody Ranch gang from radio and television, and as a special attraction Gene is bringing Rufe Davis, celebrated comedian of stage, screen, nite clubs, radio and television, along with the troupe.

Baptist WMS Circles Met This Week

Circle I—

Circle I of the First Baptist Woman's Missionary Society held a spend-the-day meeting on Monday at the home of Mrs. F. N. Scott for a mission study program.

Mrs. W. J. Dukes gave the devotional for the day and offered special prayer. The mission book, "In Evangeline's Country," was most interestingly reviewed by Mrs. John Mullins, Mrs. J. I. Spiller and Mrs. Scott.

At the noon hour a Dutch luncheon was enjoyed by eight members of the circle.

Following the luncheon, a short business session was presided over by the chairman, Mrs. J. I. Spiller.

Circle II—

The February meeting of Circle II was held on Monday afternoon at the lovely new home of Mrs. Gerald Weed. Mrs. John McKee, circle chairman, presided over the meeting.

The scripture was read responsively by the group and was taken from Psalms. Mrs. McKee gave an inspirational devotion and prayer. The article, "Need for Home Missions,' was reviewed by Mrs. K. A. Hardy. This article was written by a college student who told the importance of the 'Margaret Fund—a fund which gives educational aid to sons and daughters of missionaries. It included testimonies of college students who have recently received such aid and the blessings received from it.

Mrs. Reedie Taylor and Mrs. J. E. Gowan made talks in connection with the Home Missions theme.

During the business meeting which followed the program, plans were announced for a spend-the-day meeting with Mrs. G. C. Walker on February 22 for the purpose of studying the new mission study book, "In Evangeline's Country." It was decided to send valentines with scripture verses to shut-ins.

The hostess, Mrs. Weed, and daughter, Rita, served delicious refreshments in the valentine motif to the twelve members present.

The meeting was dismissed with mizpah.

Circle III—

Circle III of the Baptist WMS had a spend-the-day with Mrs. J. R. Mullins Monday.

The program was opened at ten o'clock by the circle chairman, Mrs. Leo Thompson.

Mrs. Cleo Cox, misson study chairman, gave the introduction of the book, 'In Evangeline's Country."

Mesdames Joe Moore, J. L. Teel and L. F. Gerald very ably reviewed the book until the noon hour. The program was closed with prayer by Mrs. Leo Thompson. Mrs. Billingsley gave thanks for a delightful lunch which was enjoyed by all.

The program was resumed after the lunch hour and Mrs. Reid Mullins gave the last chapter and Mrs. Cleo Cox gave the conclusion.

A brief business session was held. Mrs. Reid Mullins gave the devotional, reading verses 12-21 Psalms, 33rd chapter. Mrs. Joe Moore sang, "I Love to Tell the Story," and "America the Beautiful," accompanied by Mrs. Reid Mullins.

Community Missions for February is to send religious valentines to sick and shut-ins.

The meeting closed with mizpah.

Fifteen members, one visitor and the hostess were present.

Circle IV—

Mrs. Marion Wood was hostess to Circle IV on Monday afternoon.

Mrs. Buddy Hill was in charge of the program. A timely devotional was given by Mrs. Lester Jones. Mrs. Dick Arnold gave a talk on "What Missionaries Mean to Us."

Mrs. Ralph Morrison, chairman, presided over the business session.

Delightful refreshments were served to eleven members.

Community Recreation Discussed At Recent Study Club Meeting

The Study Club was entertained by Mrs. Robert Powers Friday when members and a number of guests enjoyed a delightful program which carried the year's study topic of active citizenship for women in the field of recreation.

The Superintendent of the Parks and Recreational System of Montgomery, Mr. T. A. Belser, who has a splendid philosophy concerning recreation and citizenship, was the guest speaker. Mr. Belser, a native Montgomerian, a graduate of the U of A and API, taught for a number of years in Sidney Lanier High School. During these years he was most active in providing fine recreaton for young people as a hobby.

The City of Montgomery, when establishing a Park and Recreation System in 1948, prevailed upon Mr. Belser to become its superintendent, under his able direction for people all ages from pre-school to the golden age is provided for.

Mr. Belser believes in recreation for the sheer joy that it brings to people. He believes that Clanton has a fine start toward a recreational center for its people. He complimented the city park and the equipment there. He recomended a full time director who could set up a program of year round recreation for all ages.

Mrs. Harold Lawrence, program leader, introduced Mr. R. L. Scott of Clanton who in turn introduced Mr. Belser.

Preceding the program, a short business meeting was held with Mrs. Joe Moore, vice-president, presiding. Mrs. Omar Reynolds, civic chairman, told of the Garden Club's plan for the beautification of the city park and of a clean-up campaign which it is sponsoring throughout the city. Members of the Study Club will support such a project.

Around OUR HOUSE

by Kathryn Tucker Windham

Like most families, we have a favorite Bible chapter, and around our house the favorite is the Twenty-third Psalm. Even the one-year old, though she doesn't understand the meaning, likes to hear the rhythmical beauty of the words.

But I'm not sure I can keep my composure the next time the minister reads this passage from the Bible in church. It happened like this:

The seven-year-old began repeating the Psalm the other night when the four-year-old interrupted her with,

"I can say that all by myself. Let me." The seven-year-old stopped her recitation, and, and the four-year old took over.

He did fine until he came out with "He annoys my head with oil."

Our neighbor around the corner has been fighting the battle of rising coffee prices. The situation around her house has been especially difficult because various members of the family have different work schedules, making it necessary for her to serve two breakfasts each morning. They don't like the instant powdered coffee, and they hate the taste of warmed-over brew.

This neighbor realized she was wasting coffee (and money) when she made a fresh pot, but she didn't know what else to do until she hit upon the idea of making a big pot of coffee for the first breakfast eaters and pouring some of the piping hot bevarage into a thermos bottle. At the later breakfast, the coffee from the thermos is as hot and fresh as though it had just been made.

Sounds like a good idea for a lot of housewives who enjoy a cup of coffee in the middle of the morning.

It was this same resourceful neighbor who taught me an easier way to broil steaks, one that does away with the big task of scrubbing the broiler afterwards. She puts her steaks in shallow pans and places the pans in the broiler.

Not only does this method of cooking steaks save washing the broiler, it also makes the steaks juicier.

I was surprised the other day in the grocery store to hear the next door neighbor asking the clerk for the biggest onion he could find. The next door neighbor doesn't like onions, and I couldn't imaine what prompted her request. So, of course, I asked.

"We're driving north on a little trip," she explained, "and I've read that if you rub the windshield of your car with a cut-onion, snow won't stick to it. I want to try it."

A post card from her yesterday said this unusual vegetable anti-freeze actually worked!

Our neighbor down the street, the one with the big family, always has a lot of ironing to do, and she doesn't like ironing a bit.

She always tries to get the ironing done while her favorite radio programs are on so she can be entertained while she works. Lately she has been sprinkling her ironing board with her sweetest cologne. She says this gives the clothes a pleasant fragrance and makes the task less boring. But her boys complain!

We have in our library six volumes of Metropolitan Museum of Art Miniatures. They will be loaned to adults for a period of one week. It is a fact that many cultured persons, well informed in every other direction—literature, music, world affairs—have only a smattering of information about the great art of the world. This is understandable: the world's great masterpieces repose in museums thruout Europe and America, unseen by all but the few who have the time and the means to seek them out. This lack of information about matters of art should be of particular concern to parents of growing boys and girls. For, incontestably, it is from their parents primarily that young people must gain those broad cultural interests which are so important if they are to grow up to be well-rounded men and women.

Some years ago the Metropolitan Museum of Art in New York conceived the revolutionary idea of bringing the art treasures of the world directly into the homes of interested people everywhere, so that they—and their children—might experience the pleasure and the lift of spirit which come with seeing and understanding beautiful works of art.

Who are these? (1) In a fit of madness one Christmas Eve he hacked off part of his ear. (2) He was fifty-four in this portrait, one of the many he made of himself from boyhood until his death at sixty-three. His preoccupation with shadow was a notable characteristic of his work. (3) First a sailor, then a stockbroker, he abandoned his family to paint and live for many years in the South Sea Islands. His life served as a model for one of Somerset Maugham's finest novels. (4) This famous artist, was also an outstanding sculptor, architect, musician, engineer, mathematician and scientist."

MACEDONIA

Our pastor continues to bring heart-touching sermons of truth and guidance. Both messages were on the importance of serving God with our whole heart, to the extent of becoming magnificent Christians. First, begin right by receiving Christ as your Savior and surrender your all to Him. Second, constantly confess Christ before men, because our actions speak louder than words. Third, study God's word with a mind that is humble and eager to receive the Holy Spirit and thorough understanding. Fourth Pray without ceasing, lest we be robbed of wisdom and peace of knowing Him as He is. Fifth, Go to work for Christ, for the field is now white unto harvest. Sixth, give largely for if we sew abundantly, thus shall we reap. Seventh, keep pushing on for heaven is just ahead.

MILK PRODUCERS ASK FAIR RETURNS ON OPERATIONS

MONTGOMERY. — Alabama's milk producers asked a "fair and reasonable return" on their operations and presented detailed figures on costs and income at a series of hearings just completed by the state Milk Control Board.

The producers were represented at the hearings by individual dairymen in the various milk sheds, and counsel employed through the Alabama Farm Bureau Dairy Committee headed by A. F. Randall, Seale.

A uniform price to producers in all sheds was recommended by the producers. The control board also heard the dairymen stress the necessity for uniform health regulations in every county to do away with trade barriers and other unnecessary difficulties. Such regulations would be fixed by the State Health Department.

STANTON NEWS

(By RUTH HICKS)

A number of Stanton school children have been ill with the chicken pox. We are glad to report that most of them have recovered and are back in school.

Mr. and Mrs. W. C. Beagle of Fulton, Ala., visited their mother, Mrs. Alma Schurter and other relatives here recently.

Mr. and Mrs. Ira Huff (Lois Sanders) of Norfolk, Va., have been on a visit with relatives here and adjoining communities.

Many friends and relatives were made sad in this section when the news of the death of Mrs. Thomas Carson Snead of Centreville, Ala., reach us. Mrs Snead, the former Lena Eliza Walker, daughter of the late Mr. and Mrs. Charlie Walker of Lawley, Ala., died January 18, 1954 in the Druid City Hospital Tuscaloosa, Ala Mrs. Snead had been sick for several years and had undergone surgery several times Mrs Snead was a member of the Brent Baptist Church. Funeral services were conducted from the Mt. Zion Baptist Church on Wednesday afternoon at 2p.m. The Rev. Wilkins Winn, pastor of the Brent Baptist Church and the Rev. Forest Hicks, pastor of the Centreville Baptist Church officiating. Mrs. Snead planned her own funeral last August and every request was carried out. The large crowd attending and the magnificent floral arrangement were evidence of the esteem in which she was held

Pallbearers were: R. F Thompson, Jr., Charles Snead, Quinton Mitchell, Harold Walker, Fred McGee, W. B. Crowe, Jr., A. M. Thornton and W. E. Belcher, Jr. Collins Funeral Directors of West Blocton were in charge of interment in the Church cemetery where the Friendship Chapter Order of The Eastern Star No. 131 stood honor guard at the graveside where Dr. J. Gilbert Hutchinson officiated. Surviving are the husband, 1 son, Bert Snead of Clanton, Ala.; 2 daughters, Mrs Sam Yarchin, San Antonio, Texas, and Mrs. B. R. Young, Aberdeen, Miss; 9 grandchildren. Two Brothers, Horton Walker of Prattville, Ala., and Wheeler Walker of Maplesville. Five sisters, Miss Lucy Walker, Maplesville, Ala., Mrs. Sam Shoults, Lawley, Mrs. Cland Hathcock, Maplesville, and Mrs. Allen H. Seeley and Mrs. Howard Bowie both of West Palm Beach, Florida.

Sympathy is extended the loved ones.

Mrs. R. M. Rush has returned to her home in Plantersville after a week spent n Selma where she attended the wedding of her grand daughter, Miss Janis Rush ano Cecil Blanton. Mrs. Rush was the guest of her daughter, Mrs. R. B. Curry and family.

At a quiet mid-morning ceremony solemnized in the presence of family members and close friends, Miss Janis Rae Rush became the bride of Raiph Cecil Blanton on Friday, Feb. 5, 1954. Dr. Fred B. Pearson officiated at the double ring ceremony which was performed at 10 o'clock in his study in the First Baptist Church. Mr. and Mrs. Lester Averyt were the couple's only attendants, serving as best man and matron of honor. After a brief wedding trip the couple will be at home in the Shruptrine Apartments on the Orrville Road.

The bride, who is the daughter of Mr. and Mrs. R. B. Curry of Potters, will continue her studies as a senior student at Albert G. Parrish High.

The bridegroom, son of Barco Blanton, was graduated from Parrish High in '45 and served with the U. S. Navy. For the past two years he has been employed in the Selma postoffice.

Sue Mitchell and Peggy Seales spent the week end recently with Mr. and Mrs. Ben Mitchell.

Mrs. Polly Mitchell spent Friday with her parents Mr. and Mrs. Rotha Harrison.

Dr. and Mrs. Everett Gerald (Evelyn Gregg) has announced the birth of a daughter Rebecca Gwenn, Wednesday Jan., 13, 1954 at the Jefferson-Hillman hospital. Both mother and daughter are doing fine.

The Worthy Grand Officers of the Order of The Eastern Star State of Alabama were in Clanton last Thursday night as guests of the Clanton and Thorsby Chapters. A School of Instruction was held and several adjoining chapters were invited guests. The Plantersville Chapter had several attend from their chapter. This was a very enjoyable and instructive evening.

A birthday celebration, celebrating the birthday of Mr. Charlie J. Mitchell, at the home of Mr. and Mrs. Charlie J. Mitchell, Sunday, January 10. A birthday dinner with all the trimmings were served at the noon hour. Enjoying the day together were: Mr. and Mrs. Joe Giles and David of Mobile, Ala.; Mr. and Mrs. H. G. McLean, H. G. and Janice of Selma, Ala.; Mr. and Mrs. Ben Mitchell, Linda and Sandra of Selma, Ala.; Mr. and Mrs. J. W. Mitchell, Dianne and Bettye of Stanton, Ala.; Mr. and Mrs. D. R. Meredith and Marie of Birmingham, Ala., Mr. and Mrs. B. F. Cobb, June and Larry of Jemison, Mrs. Pearl Haigler, Jemison, Mr. and Mrs. Ulmon Tant, Mrs. J. W. Tant of Tuscaloosa, Ala.

Everyone hated to see the afternoon pass as they knew too soon they would have to depart for their respective homes. Everyone left wishing "Mr. Charlie" many, many more happy birthdays.

Mr. Alva E. Latham, 72, of Plantersville, Ala., died at 7:15 p.m. Monday, Jan. 11, 1954 at his home after a lingering illness.

Surviving are his wife, Mrs. Alice Latham, 1 daughter, Mrs. Emily Branch and two sons, Spencer and A. E. Latham, Jr., all of Birmingham, Ala. A stepson A. D. McCullough and two sisters, Mrs. Denne Keener and Mrs. Shelby Barnes all of Plantersville. Funeral services were held from Alpine Baptist Church on Wednesday with burial in the adjoining cemetery. Arrangements were by Breslin-Service. Sympathy is extended the loved ones.

There will be a Donkey Baseball game at the Stanton Jr. High school Monday night, February 22. Make your plans now to attend. Admission 50c for adults and 25c for children.

A very enjoyable meeting of the PTA at the school house last Monday night. Mrs. Marna Benton is the president and is doing an excellent job. Mr. Winfred Lecroy was guest speaker bringing a message of "Safety." Mr. McKee, bus mechanic of Clanton, came with Mr. Lecroy.

Mrs. E. B. Huff and Laura Ann visited a relative, Mrs. R. E. Fitts in the Selma Baptist hospital Sunday afternoon. Mrs. Fitts is a sister to Mrs. Alma Schurter.

Undergoing appendix operations in the Selma Baptist Hospital last week were W. C. Hayes and Esther Mae Harris. Both are doing nicely.

Mr. and Mrs. Howard Duncan (Venice Chism) and LaDon of Nevada came Friday afternoon to be at the bedside of their mother and grandmother, Mrs. Annie Orin Chism who has been very ill recently. We are glad to state that Mrs Chism is much better at this writing.

Miss Ruth Chism of Birmingham, Ala., spent the week end with her mother, Mrs. Annie O. Chism and other relatives.

Mr. and Mrs. Laney and children of Birmingham, Ala., spent the week end with Mrs. Hicks Harrison and family.

Mr. Vernon Dyer of Bessemer, Ala., came last Wednesday to attend the funeral of Mrs. Mary Gregory Walker in Selma, Ala. Enroute to the funeral Mr. Dyer visited with his aunt, Mrs. Alma Schurter and other relatives.

Misses Laura Ann Huff and Emmett Huff have had chicken pox, but are doing fine at this writing.

"Laura Ann" is back in school.

Mr. Bud Burnett and Mrs. D. O. Burnett spent last Wednesday in Anniston. Mrs. Bud Burnett and Bud III returned home with them. They called to see and visited for a short time with Mr. and Mrs. Dyer Schurter.

Dr. A. D. Wallace's will left $500 to the Alabama Baptist Children's Home. It seems that no better cause could be included in one's will than that of taking care of needy children. Dr. Wallace lived for a number of years in Plantersville and a native of Autauga county.

Many of us have known Lewis Marvin Bayne of Selma, Ala. for a long time and it was with sadness we learned of his death. Funeral services for Mr. Bayne, age 47, were held from the Breslin Chapel at 10 a.m. Tuesday February 2, 1954. Rev. N. J. Warren officiating. Burial in Live Oak cemetery. Mr. Bayne, a life-long resident of Selma who had been connected with musical circles since his youth, died unexpectedly at his home on the Birmingham Highway Sunday afternoon.

Jimmy Cox who returned recently after service in Korea during which he was assigned to a helicopter in special service, is the guest of his grand father, H. G. Mills and other relatives in Plantersville. He has been assigned to Maxwell Field.

Mrs. Mary Gregory Walker, 81, widow of S. T. Walker and a resident of Selma for some 32 years, died in a Selma hospital several hours after being admitted for an acute heart ailment. Death came at 11 p.m. Monday, February 1, 1954. Funeral services took place from Church Street Methodist Church of which she was a member Wednesday at 2 p.m. Interment in the Methodist cemetery in Plantersville.

Mrs. Walker was born Feb. 12, 1873 in Jones, Ala. Her parents were George Reed and Fannie Burns Reed. She was educated in the Autauga county schools and moved with the family, as a young girl to Riderville, Ala. An early marriage was to John F. Gregory, a native of St. Stephens, New Brunswick, Canada. Mr. Gregory was engaged in the lumber business with the old Gregory-Coe Lumber Co., at Statnon, Ala. From this marriage three children survive: Clifford Gregory of Brewton, Ala., J. F. Gregory of Selma, Ala., and Miss Edith Gregory of Wilton, Ala. Two sisters Mrs. Edward Parnell of Stanton, Ala., Mrs. Isia Mahone of Newnan, Ga., and one brother, D. T. Reed of Selma, Ala., and a number of nieces and nephews.

Pallbearers for Mrs. Walker were: Bailey K. Green, Clarence DeBray, Russell Burson, Louie Crisman, John Cody and Harold Oliver.

Mrs. Walker was a frequent visitor with her friends and relatives in this section. We offer our sympathy to the loved ones.

I have promised several of my readers that I would give a complete write-up of the death of beloved Reverend John Thomas Martin of Centreville, Ala. This write-up will appear in my column next week.

May I take this opportunity to thank each and every one of you for your consideration in every way, the kindness shown, the messages received, your telephone calls, your visits and especially for the prayers during these past few months while my mother, Mrs. Mary Hicks has undergone surgery three different times. These moments have been anxious ones. It is with grateful heart and thanks to friends like you when I tell you that my mother is much improved and at this time seems to be enjoying excellent health.

"I REMEMBER"

BY THE OLD TIMERS

From Mrs. H. J. Loewen, Hitchcock, Oklahoma: Having read many of your (I Remember) articles has made me remember the time when I was a little girl in Russia. Food was scarce and about once a week we would get butter to use on our bread and that only for mother and father.

We children would carry baskets of straw to the house which was used in the furnace-like oven that would run between two rooms with a door in the wall for the oven.

The house and barn and chicken barn was all in the same building with thick iron bars across the only large door, which was locked every night and a vicious dog chained on a wire running across the yard to keep the thieves away.

Then we heard rumors of a wonderful country in America, called the United States. It sounded like heaven to us children and a place to dream about. Yes, father and mother agreed, and we moved to this land and, oh, what a great experience it was. We ate our first oranges, our first pie, and said this was a grand place to be and especially now. We can see that God had a hand in it, plucking us out of an awful place and bringing us to this land of freedom.

We came here a few years before World War I, had to learn how to talk English. We loved it and will always be thankful that we can be here in this good old U.S.A.

Newsprint Company Starts Nursery

Coosa Pines, Ala—The newest and most modern tree nursery in the South, located two miles from Childersburg on State Highway 76, has been established by the Coosa River Newsprint Company.- Following an extensive survey of soil conditions in the Childersburg area, the company began construction of nursery buildings and preparation of the 240 acre site in the winter months of 1952-1953. According to Nursery Supervisor Walter Chapman, the company previously had purchased its tree seedlings from the State Deaprtment of Conservation.

"Our first crop of pine trees was planted at the nursery last April," Chapman said, "and the seedlings have now been transplanted to company owned woodlands. From now on we should be able to supply annually up to five milliions seedlings for planting on company lands, plus a million or more to be given away each winter to 4-H Club and FFA boys and girls."

During the past six years the planting program on company lands has averaged one million trees annually. In addition, the company has made free distribution of over one million pine seedlings to boys and girls of school age. With a modern tree seedling nursery now in production, the company plans to vastly increase its planting program and also to improve the quality of seed. Through nursery research and planting, seed will be collected from superior trees with a view to the production of better planting stock and eventually timber stands of higher quality.

The Operations Building at the Nursery provides a large enclosed working space chiefly used for sorting, grading, and packing seedlings for shipment to the planting areas. It includes a completely equipped laboratory for seed testing and other scientific research, plus a refrigeration unit for seed storage. It also provides storage space for fertilizers, packing materials and small tools, as well as an office for the Nursery Supervisor. A wing of the Operations Building provides shelter for cultivating, seeding and spraying equipment. Other buildings include a pump house, a pipe storage shed, an oil house, and a fire equipment house.

Seedbeds are irrigated with water from a deep well on the property. An underground water system is installed to service twenty acres of seedbed. A portable overhead sprinkler system is used to water approximately half of this area and is moved from year to year in order to allow crop rotation as a means of soil enrichment.

The Tree Nursery operations are carried on by the Supervisor, a foreman, and three other permanent employees. Additional employees are hired on a temporary basis at various times throughout the year to assist in the weeding, lifting, grading, and packing processes.

"Another major purpose of the Tree Nursery," said Mr. Chapman, "is to carry on various research and experimental projects. For example, one of our current projects is to discover the best method of planting trees to insure the highest degree of survival. This work is being done in our Experimental Forest located on another part of the 240 acre nursery tract. Additional plots are planted and being studied to determine the best techniques of managing planted stands of pine at various stages of their growth. As this work is completed, results are passed on to Company Foresters for the benefit of private wood lot owners and farmers in nearby counties.

"One of our most important projects is improving the quality of pine seedlings produced at the nursery. Selecting cones from superior trees is the first step. These cones are dried to open them, releasing the winged seed, which are then dewinged, cleaned and processed for planting."

Weather is an important factor in the growth and development of nursery stock. It is particularly important in the research and scientific investigation activities carried on at the nursery. Coosa River's Tree Nursery operates a fully equipped weather station to record the weather conditions on a continuous basis. The weather station is also used to measure the daily "Fire Danger Rating" which is relayed to all the company's forest fire fighters.

Visits to the nursery can be arranged for organized groups such as schools, civic clubs, and other organiaztions. These trips can be arranged by contacting Mr. K. S. Rolston, Coosa River Newsprint Company's forester in this county

SHOULTS NEWS

(By MRS. EZRA LEE LAWLEY)

There was a nice crowd out for church Sunday morning. The attendance seems to be growing every Sunday. We invite everyone out to worship service and to see the new Sunday School rooms. The rooms are real nice and they are such a great help. The visitors at church Sunday were Mr. Dolly Chatman, Mr. and Mrs. Hudson Smith and children, Howard Fox and baby Ray Hamrick.

Miss Ruby Latham visited her parents Mr. and Mrs. Cleave Latham Sunday, also Mrs. Nolvice Evans and daughter motored up from Montgomery with Miss Latham.

Mrs. Evans visited her parents, Mr. and Mrs Calhoun Gatuer

Mr. and Mrs. Joe Shoults and son Eddie, of Birmingham visited Mr and Mrs. George Shoults over the week end

The week end guests of Mr. M C. Moore was Mr. and Mrs. Ralph Moore and baby from Birmingham, Mr. and Mrs. Alan Heifner of Plantersville, Ala.

The dinner guests of Mr. and Mrs Percy Kelley Saturday were Mr and Mrs. Ed McRay, and son Jimmie, Mrs. Stella Sand, and they enjoyed an oyster dinner and all the trimmings and afterwards enjoyed the television program.

Guests of Mr. and Mrs. Lonza Kelley Saturday of last week were Mr. Gean Chapman, Luther Chapman and brother of Birmingham They enjoyed a nice day together

Mr. and Mrs. John Foshee motored to Selma Sunday to see her mother, Mrs. Rebe Mott and report she is improving some, Royland Shoults is spending a few days with his grandmother, Mrs. Mott as he has a few spring holidays and will return back to school at the University of Ala.

The Beta Club at Maplesville High School held its regular meeting last Wednesday, Jan. 27, and elected seven new members to be invited into the club. Those who received invitations were Joyce McAfee, Bobby Latham, Bolly Chandler, Mable Motley, Donald Lawrence, Patty Lovelady, Horace Lee Payton. To be eligible for membership into this club, a student has to maintain at least a "B" average and show character, leadership, and achievement.

A birthday party was held at Mr. and Mrs. Dub Latham's home last Monday night honoring their son Henry and Freddie Shoults. This was indeed a happy occasion for everyone there. Soft drinks and cake was served. Those enjoying this party were as follows Helen Maudin and Mary Ann Maddox, Jo Ann Lackey, Joyce McAfee, Norma Jean and Otis Smith Cobran and Earl Oden, Carolyn, Jean and James Hathcock, Leonard Stewart, Bryant Green, Lealand Lawrence, Billy Burnett, Leon Mitchell, Freddie and Jimmy Shoults, Henry Latham, Truet Bearden, John Motley, Huey Headley, Johnny Seals, Joe Sough, C .R. Sewell, Acil Ratliff, Helen Davis, Gene Weldins, Otha Lee Wright, Howard Fox, Jessie Lee Wallace

We all remember the late Dr. A. D. Wallace, who lived at Plantersville, Ala., until his death a few months back. He was a great doctor and always ready to do his duty, and every one loved him and had great respect for him. His love for children was passed on to us thru the "Alabama Baptist." He willed five hundred dollars to the Orphan children at Troy, Ala.

Mr. Johnnie Hicks spent the week here with his uncle Mr. John Hicks, before he returned to the University for the second semester.

Mr. and Mrs. M. G. Smith and children of Bimringham spent the week end with his parents, Mr. and Mrs. Messer Smith.

The total contributions for the March of Dimes from the Shoults community came to $22.42. Although this is a small community and every one gave as he was able to give, hoping that this small part will go to helping save some child's life. We wish to thank Mr. Woodie Latham for cooperatin with us as he did. Thanks to every one. This doubled the amount that was taken up last year

SHOULTS NEWS

(By MRS. EZRA LEE LAWLEY)

Mrs. W. W. Kelley visited her brother Mr. Silas Oden and family in Mobile last week end and attended the wedding of Miss Joyce Oden at the First Baptist Church in Prichard Saturday night at 7:30 o'clock, to Mr. Billy Cassidy of Pritchard. Joyce is a Chilton county girl the daughter of Mr. and Mrs. H. R. Oden who lived in this and Isabella community for a number of years.

Mr. Raymond Oden, who we all know and are interested in, are glad to hear that he is moving to Birmingham in the very near future. He and his family lived in this community all their lives until a few years ago, he accepted a position in Louisville, Ky., and lived there several years working as an insurance man. He made very good and received a promotion which he got a transfer to Birmingham, Ala.

Mr. R. C. Latham, son of Mr. and Mrs. Robert Latham, of Birmingham, Ala., is moving to California where two of his brothers already live.

We extend our heartfelt sympathy to Mr. Claud Hathcock in the death of his sister, Mrs. Williams.

Mr. and Mrs. Grady Harrison visited his parents, Mr. and Mrs. Wyle Harrison of Stanton, Sunday.

Mrs. Grace Smith, Mrs. John McKinney, Mrs. Allene Lawley and Sandra spent Thursday with Mrs. Sherman Motley.

We are sorry to hear that Mrs. Annie Chism is on the sick list again. We wish for her a speedy recovery. Mrs. Chism has many friends and relatives in this and adjoining communities.

The guests of Mr. and Mrs. Claude Hathcock Sunday were Mr. and Mrs. John Foshee, Mr. and Mrs. Sam Shoults.

Mr. and Mrs. John Foshee made a trip to Selma Friday.

Mr. and Mrs. Bill Hathcock, Jean, James, Carolyn and Barbara Sefell, visited Clanton radio station Sunday afternoon. They are to sing over it in the very near future.

Mr. Harold Motley and others from the Stanton Baptist Church accompanied by Rev. Boyd, motored to Billingsley to attend a church meeting Sunday afternoon.

Mr. and Mrs. Dan Maddox and girls Mary Ann, Helen and Maudine spent Sunday in Selma with her daughter, Ruby. We are glad to report Mrs. Maddox is feeling better at this writing.

Mr. Ira Hamrick and daughter, Linda was visiting in the community this week end. They are from Georgia.

Mr. and Mrs. Louis Mitchell's children stayed a few days with Mrs. Robert McAfee while Mrs. Mitchell was in Birmingham. She returned home Sunday afternoon.

Folks and Things ABOUT TOWN

—By Ben

N. G. (Gresham) Smith has announced and qualified for the office of Representative from Chilton County in the next Legislature. Smith works at TCI in Birmingham but lives on the Maplesville Highway West of Clanton. Mrs. Smith is a teacher at Isabella High School and has served in the county schools for many years. Smith says he will make an intensive campaign within the next few weeks.

Just bringing you up to date, that makes three who have qualified for Representative. Francis Speaks was first then Mrs. Myrtle Pitts on the Republican ticket and then N. G. Smith. Jim Plott informs us that he will qualify within the next few days.

The Sheriff's race will be a live affair. There are already four candidates and it looks like there will be more. Luther Kendrick is a candidate for reelection. R. Odell Payton, Ellis Ellison and Truman Thrash have also qualified. Who and when will the others qualify? Your guess is as good as ours.

Look's like the race for Tax Collector will be a three-man race only. Three have already qualified and we expect it to stop right there. M. C. (Jack) Hayes is seeking reelection. E. A. (Red) Fulmer and George D. Smith are the two who are trying to oust Jack and each other. That race won't be too dull either.

Slow is the word for the way the race for a new, or old, Tax Assessor, should be described. As this is written N. L. (Buck) Roberts hasn't qualified for reelection. However there is one who has asked for his place and that is Sam (the Hotdog Man) Taub.

Late word has it that Buck Roberts will qualify today for reelection.

Winston Huddleston wants to serve as Circuit Solicitor again. He has served this circuit for more than a quarter of a century. It looks like he will have opposition again, however. Glen Curlee of Wetumpka announced this week.

Both of our Members of the Board of Revenue and Control have opposition. Harold Smith has Quinton R. Cummings and Jack Lenoir has Lonnie Cost.

A. B. (Buster) Foshee and Lawrence F. (Bud) Gerald will fight it out for the office of county Solicitod. Buster has served several terms in the office but looks like Bud is out after his scalp this time.

Don't be surprised if Congressman Armistead I. Selden draws a running mate for his office before the deadline for qualifying expires. We learn upon good authority that this is going to happen. Oh, well, we suppose anything worth having is worth working for.

William R. Moran pastor of the Trinity Lutheran Church at Anniston and formerly of Thorsby asks us to run this notice for him. We quote his notice:

In the current issueof LOOK magazine, now available on the newsstands, there is an article entitled, "What Is a Lutheran?" It is a very excellent article and I commend it not only to Lutherans, but also to anyone who might like to know what the Lutheran Church stands for.

And one last word. We want to congratulate John Schmith on his perfect scholarship record at CCHS. John has nothing but "A's" on his report card for his entire high school career. He has also been named valedictorian of the senior class for 1954. This honor usually goes to the student with the highest average in his studies and with John and he "straight 'A's" they just couldn't go wrong.

CARD OF THANKS

We wish to express our deep gratitude to all the many friends, for their help, prayers, and sympathy shown us during the late illness and death of our wife and mother, Mrs. Lula Arant, who passed away Feb. 10th, 1954.

James T. Arant and children.

1570 Register To Vote Last Ten Days

During the last ten days of registration by the Board of Registrars 1570 citizens registered for the privilege of voting in the elections this year.

Of this number there were 218 colored registrants and 1352 white. Eight hundred and forty-eight white women registered during the ten day period and 504 white men. While of the Nero registrants the men were in the majority showing 115 negro men and 103 negro women.

On Monday of this week 82 additional registrants qualified as voters that were not included in the above figures.

Draft Of Mayor's Proclamation

I commend the observance of Brotherhood Week, February 21-28 to all our citizens. It is well, at a time when principles upon which our democracy is founded are gravely threatened, that we should reassert them, firmly and rededicate ourselves to their daily practice. Brotherhood Week provides an opportunity to affirm our acceptance of the obligations implicit in the brotherhood of man under the Fatherhood of God. May we strive to live up to the Brotherhood 1954 Slogan—Let's Get Together for Peace and Freedom! Believe it! Live it! Support it!

FFA OFFICERS TO BE GUESTS OF BIRMINGHAM C of C

The Alabama FFA State Officers and 66 County FFA Presidents will be the guests of the agriculture committee of the Birmingham Chamber of Commerce for two days February 25 and 26.

Ellis Burgess from the Jemison Chapter will represent Chilton County in Birmingham during the two day's festivities. L. C. Shields is his local FFA Adviser.

Upon arrival the boys will register at the FFA booth in the lobby of the Redmont Hotel according to J. A. Beaty, Manager, Agricultural Department, Birmingham Chamber of Commerce. They will visit Vulcan Park, and tour points of interest during the first afternoon.

At 6:30 p.m. the FFA delegates will be guests of the Alabama State Fair Authority for a banquet in the Emerald Room at the Redmont Hotel. Also, that night they will be treated to a picture show party at the Alabama Theatre by Norris Hadaway, manager of the theatre.

Next morning the Future Farmers will make an educational tour of the Progressive Farmer Magazine Company and the new Chamber of Commerce building. At noon the group will be guests of the Birmingham Agricultural Club for a luncheon in the Emerald Room of the Redmont Hotel. After this, the boys will return to their homes throughout the state.

Friends Of Delos P. Culp To Hold "Kick-Off" Banquet

The Chilton County friends of Delos Culp will hold a gick-off banquet in his honor at the Chilton County High School gymnasium on March 9th.

A committee has been appointed and tickets will be sold to the Culp supporters. Dr. Culp will be there in person to address the crowd and tell them of his plans for the campaign and also his plans for the State Department of Education should he be eletced State Superintendent in the Spring Primaries.

Dr. Culp is well known in Chilton County having been born and reared here. He served three years as County Superintendent of Education resigning to accept a position with the State Department of Education at Montgomery. After serving as State Supervisor of Transportation for several years he asked for a leave of absence and attended Columbia University where he received his Dr. Degree in Education. Upon returning to the State Department at Montgomery he acted as Assistant Director of Finance Administration until he resigned to accept a position at API.

Luther Little Chairman of the County Committee invites all of Dr. Culp's friends to attend the banquet. The tickets will sell for $1.25 each and the banquet will start at 7o'clock.

Maplesville Asks Additional Gas Allocation

Washington, D. C., Feb. 15—Rep Armistead Selden appeared today before the Federal Power Commission in Washington to urge approval of Maplesville's request for an additional gas allocation.

A petition was filed with the F PC by the City of Maplesville after it was determined that its present allocation of natural gas to be furnished by the Transcontinental Gas Company would not be sufficient to serve all those who had subscribed for the service.

In his testimony before the FPC, Rep. Selden discussed briefly the history of Maplesville's efforts to secure a gas system, pointing out that the residents and city officials had worked diligently to secure natural gas for their community.

"I understand they now have a contract for the building of the gas system, a contract for the sale of their bonds, and a service agreement with Transcontinental Gas Company," he said.

"Maplesville now finds that it must have a little more gas than it had been allocated in order to make its gas system a reality. Its representatives are here today to request the Commission's help in making this final hurdle. A portion of the additional gas will serve the three small unincorporated communities of Jones, Plantersville, and Stanton.

Concluding his testimony, Congressman Selden said, "In behalf of the people of Maplesville and Stanton, whom I have the privilege of representing, I respectfully urge the Commission to grant them the small additional quantities of natural gas they now seek. I feel confident the Commission can grant this request without any real damage to other applicants in this proceeding."

Series Of Burglaries Bedeviling Officers

Three Birmingham youths were arrested the past week for burglaries committed in Chilton County it was stated Monday by Sheriff J. Luther Kendrick.

Kendrick stated that the boys entered Judson Messer's Service Station and Grocery at Verbena last Thursday night sometime between 10 o'clock and midnight.

Gulledge Brothers was entered the same night but little if nothing was missing it was reported.

The Messer burglary was reported by Ben Scott who called local authorities who worked all Thursday night and into Friday when the boys were picked up by Birmingham officers. The boys apprehended were: Harris Wilson Pitchford, Carl Frank Hand and Edward Payton all of Birmingham.

Bill Minor Curb Market was broken into Sunday night late but according to Bill Minor the owners very little if anything was taken. The place was entered by breaking a window on the south side of the building.

BEGIN WITH PRODUCTION TO MAINTAIN QUALITY SAYS AGENT GLASSCOCK

Turning out the kind of quality that sells best begins with production, County Agent M. R. Glasscock said here this week.

The farm leader said the variety of crop or type of animal is important in getting the desired quality. So are correct fertilization, control of diseases and insect pests, and other cultural practices necessary for the production of high yields of quality field crops, fruit, and vegetables.

Careful harvesting and handling help maintain quality on the way to market. Sorting for size and uniformity is needed for potatoes, eggs, and many other products. The best methods of processing, such as those used in ginning cotton and in seed certification, are followed carefully by those who want to market such products for highest profits. In a similar manner, best methods of feeding and finishing market hogs, calves, broilers, and other livestock products will assist growers in getting top returns.

More and more farmers find that it pays to know and use U. S. grades and standards in marketing cotton, sweet potatoes, and many other products.

Farm practices that make for higher market quality vary by crops and livestock. The important job of every farmer as a good business man is to find out and follow these good quality practices for each product he grows for sale.

HOW ABOUT ALABAMA?

It has been estimated by authorities that American tourists spend more than one billion each year in Europe while vacationing. And we suppose that is fine except the first question that comes to mind is "What is wrong with seeing America first?"

Or still better, "What is wrong with seeing Alabama first?"

From the beautiful mountains in North Alabama to the white sands of the Gulf of Mexico there is no finer place to spend your vacation. Especially do we recommend the wonderful fishing to be found in Chilton County. More and more each year the inhabitants of our own state are finding right hree in Chilton County a quiet and peaceful place with all the beauty and activities necessary for a thrilling vacation. Along the banks of the Coosa river and the back waters of Lay Dam and Mitchell Dam are hundreds of river camps devoted to bringing pleasures to visiting fishermen.

We still have a long way to go but we are coming to find that "there's gold in them thar tourists." In the years to come we will realize even more the need to show more concern over the development of our natural "vacation land."

So take a tip from us and don't spend thousands of dollars this year on your vacation. Don't even spend hundreds of dollars when you can come to the best fishing grounds in the south for so little and enjoy it so much.

ON COMIC BOOKS AND EDUCATION

From England comes word that Dr. Michael Lewis, director of Nottingham University's Institute of Education, has defined comics as an aid in teaching children to read and enlarging their vocabularies. Dr. Lewis told a teacher's conference group children who read comics are often encouraged to read others books by the adventurous strips.

Dr. Lewis said twenty per cent of the words in comic strips are new words to children and therefore, the strips are conductive to enlarged vocabularies. He said only six per cent of the words were slang or misspelled. Dr. Lewis also found modern children more intelligent than their predecessors and claimed that radio and television were encouraging children to read more about things they saw or heard through these media.

No doubt the country's children will be delighted by this report, although it must be noted that the sensational and degrading comic books, so often seen on the U. S. newsstands, are not as prevalent in Great Britain. Nevertheless, the words of the University professor are a defense of comics, which are firmly entrenched in American life, anyhow, and are encouraging to those who have felt that the effects of comics on children are detrimental.

ARMISTEAD SELDEN

Congressman, Sixth District

Many property owners who sold lands along the Warrior and Tombigbee Rivers to the federal government in connection with the construction of the Demopolis Lock and Dam were not allowed to retain the mineral rights to these lands. If Congress passes the special legislation I introduced last Friday in the House, these former owners will be allowed to repurchase their mineral rights if they so desire.

When the Demopolis Lock and Dam is completed, many thousand acres of land—most of it in the Sixth District—will be covered with water. For this reason, the Corps of Engineers has for more than a year been purchasing outright or acquiring easements on certain property along the Warrior & Tombigbee Rivers.

The original policy of the Corps of Engineers was to block out the property to be acquired whereby a large acreage, other than that actually flooded, would be purchased outright by the federal government. This policy was modified last year and as a result, less land was bought in fee simple and flowage easements were obtained on the remainder.

According to the latest figures released by the Corps of Engineers, 17,95 acres have been or will be purchased by the federal government in fee simple. Flowage easements will be obtained on approximately 70,000 acres.

When the Corps of Engineers first began buying the lands, they did not allow the property owners to reserve mineral rights. About 15,349 acres were purchased while such policy was in effect. In October 1953 this policy was also modified and the owners of the remaining 2614 acres were permitted to retain their mineral rights.

This created an unfair situation Naturally, most of the property owners had wanted to reserve their mineral rights, but only a few had been allowed to do so. When asked if these mineral rights could be repurchased by the former owners, the Corps of Engineers found they were not allowed to sell without authorization. This authorization requires the special legislation which I have introduced in the House.

My bill will correct this inequity by allowing the repurchase of these mineral rights within a three year period. It will be necessary for the owners to pay a purchase price equal to the fair market value of the mineral interests as determined by the Secretary of the Interior. The bill stipulates that uranium, thorium and other fissionable materials considered vital to national defense cannot be resold to the former owners of the land.

Data on Members

During my travels throughout the Sixth District, I have been asked on numerous occasions whether or not I am the youngest member of Congress. Although I have given a negative answer to this question, I have been unable to tell those who inquired just ho wmany are younger—inquired just how many are young—opportunity to see some statistics on the ages of members of Congress which I thought might interest you.

There are nine members of Congress who are younger than I, all of them members of the House of Representatives. The youngest of these is Rep. William C. Wampler of Virginia who is just 27. The ages of the other eight range from 29 to 32.

The two oldest members of the House are Rep. Robert Crosser (D-Ohio), who has served since 1913 (except for a period of four years), and Rep. Brent Spence (D-Ky.) who was elected to Congress in 1931. Both are 79 years old. There are four other Representatives who are 78.

Rep. Sam Rayburn is the member of the 83rd Congress who has the distinction of serving the longest consecutive period of time. He was elected in 1913 at the age of 31 and has served since without interruption. This Texas Democrat also has the distinction of serving longer as speaker of the House than any other member in our country's history. With the election of a Republican House in November 1952, it was necessary for Rep. Rayburn to temporarily relinquish his gavel.

In the Senate, the youngest member is 35-year-old Russell Long of Louisiana who was elected when he was 30, the minimum age for a U. S. Senator. The oldest member of the Senate is Theodore Green (D-R. I.) who is still very active at 86 years of age. A former governor, Sen. Green started his service however, that the ranking Democrat in the Senate is not Green but in 1937. It should be pointed out, 76-year-old Walter George, a Democrat, from Georgia who was first elected in 1922.

Another question often asked me is, "What did most of the Congressmen do before their service in the House or Senate?" A majority of the members are lawyers. The next largest group include those previously engaged in civil service, banking or business. There are a number of former teachers and several from the fields of agriculture and journalism. Five members of the medical profession are serving in Congress, as well as 10 engineers and two dentists.

American farmers spend about 500 million dollars each year for insecticides—about one per cent of the gross farm income.

Things we -SEE- and Hear by "Tuck"

Pulled a good one last week; some one finally woke us up to the fact that Uncle Riley Robinson has been with us for nigh on to 103 years I believe it is and didn't even get so much as a mention. All I got to say Uncle Riley is that if I ever reach 103 or anywhere near that and some young whippersnapper doesn't bring it to public attention I'll go whip the daylights outta them. Providin' they're older than I am of course.

Someone remarked the other day that it looked like the whole county was running for the Sheriff's office this term. Some loyal friend of the present Sheriff says, and I quote, "Yeah, they're all tired running from him." He assured us however, that this held no reflection on the candidates that were running. He said he was exaggerating just like the first fella.

Speaking of candidates, I sure hope there are some good losers among those running this term because from the number that have qualified there are going to be more losing than winning. I know that's a nasty thought, but facts is facts and figures are figures and offices are limited.

After all that's said and done and all these years Clanton finally swung the deal and is getting a new hospital, for sure this time. I believe a good bit of the credit goes to Dave Tingle and we don't know who all else, but we do know that nothing better could have happened around Chilton County unless it's two hospitals.

Those are indeed hypocrits who try to control other's religion, yet can't control their own.

By the way, there are quite a few new businesses going up in and around Clanton and we'd like to take an opportunity to give them our best wishes and sincere hope that their's will be a successful one. You know what they're saying about '54 being a good year.

From all the different arguments and definitions, I never have been quite able to tell what rest on Sunday meant. There are so many different ways to rest even after you put your Church first that it seems impossible to know how to do the right thing. It's confusin'.

There have been numerous discussions I'm sure on the subject of young people in Clanton and Chilton County and I was just wondering if you ever heard some of the discussions made by the young folks themselves on this topic. I have, and they aren't commendable sometimes. You'll find very few graduates fresh out of high school that are satisfied to stay around Clanton, where they have been all their lives. It isn't just a whim to go somewhere either, it's a sincere desire to get out of the place. Do you think this is the attitude we want our younger generation to come up with. Well, to them it's a "dead town," not so far as business and enterprise is concerned, it's very much alive in that respect, but as far as anything doing for the young folks there's little or nothing and you can't keep them busy with that. Talk about what our generation to come will be like is fruitless because there won't be one around here unless we make them want to stay with us.

Mrs. Chester Gaines Presented Recital

Mrs. Chester Gaines presented her pupils at a piano recital on the afternoon of Feb. 10, at the home of Mrs. T. H. Hubert.

The pupils presented were: Marietta Propst, Kenneth Devaughn, Norma Tew, Emily Klinner, Charlotte Blackmon, Ann Liles, Betty Liles, Carolyn Tucker, Julie Wade, Kathy Wade, Linda Wade, Miriam Golden, Billy Wyatt, Priscilla Hubert, Sharon Hubert and Jean Raley.

The hostess served very graciously delightful refreshments, buffet style, to the group present.

Mrs. Leo Headley, Jr. Honored With A Bridal Shower

Mrs. Leo M. Headley, Jr., (nee Betty Hilyer) was honored with a bridal shower on the afternoon of Feb. 10, at 2o'clock p.m., given by Mrs. R. V. Yeargan.

The guests were met at the door by the bride and Mrs. R. V. Yeargan.

The living room was decorated with beautiful floral arrangements of pink camellias.

The dining room table featured a centerpiece of crocheted medallions and a floral arrangement.

After the games of interest to everyone were played the guests were served hot coffee and dainty party sandwiches and then were seated in the living room where the bride opened and displayed the many love and useful gifts she had received.

Those present were Mesdames Hilyer, mother of the bride, Francis Gore, L. M. Headley, J. J. Headley, Ira Yeargan, L. M. Yeargan, William Wilkins, Frank Rich, Dalton Cleckler, Velma Duren, J. B. Yeargan, John Yeargan, Leonard Moore, C. L. Williams, Mary Vance, Louella Yeargan, Dora Pottridge, Nell Tucker, Earnest Edwards, Billy Billingsley, G. W. Smith, Lloyd Foshee, Billy Yeargan and Miss Nina Sue Headley.

The bride is now residing at the home of her husband's parents, Mr. and Mrs. L. M. Headley while Mr. Headley is attending API at Auburn.

Friendly Sunday School Class Met With Mrs. Lecroy

The Friendly Sunday School class of the First Baptist Church met on February 15 at the home of Mrs. Herman Lecroy.

A lovely devotional taken from Acts 2:42-47 was presented by Mrs. Melba Spiller. She gave an interesting talk, the theme of which was "A Million More In '54." The program was closed with prayer.

Mrs. Alycia Adams, class president, presided over the short business which followed. Then was a brief discussion on class prospects.

Delicious refreshments were served by the hostess to the following members: Mesdames Pearlyne Robinson, Vurell Moatts, Alycia Adams, Ruth Crew, Margaret Melton, Bertha Henderson, Lenora Jones, Melba Spiller, Inez Spivey, and the teacher, Mrs. Blanche Mullins.

Mrs. Ralph Johnston Was Hostess To Sunday School Class

The Adult I Class of the First Baptist Sunday School, which is Mrs. Nell Mullins' class, met Monday evening at the lovely new home of Mrs. Ralph Johnston.

Mrs. Mildredth Lord gave a very timely devotional. Presiding over the business session was Mrs. Fred Blackmon, president of the class. Plans were discussed and made toward gaining new members to the class.

Twelve members were present for the program and social hour which followed. The hostess, Mrs. Johnston, served delicious cake and coffee to the following: Mesdames Ed Mullins, Mildredth Lord, Fred Blackmon, Bing Lecroy, Carlos Wyatt, Maurice Wyatt, Jarrell Burdette, A. J. Coppinger, Kay Powell, Bulger and Miss Irma Durbin.

Miss Louise Golden Represents CCHS At DAR Reception

Miss Louise Golden, representing Chilton County High School, attended the week end reception at Huntingdon College given by the Daughters of the American Revolution for the Good Citizenship Girls of Alabama. While there she was the room guest of Miss Ann Fiquette, a student at Huntingdon and a former student of the Chilton County High School.

Mr. Don Esty is visiting his mother in Miami this week.

Mr. Claude Rigers of Autaugaville filled the pulpit at the Clanton Presbyterian Church Sunday in the absence of the pastor, Mr. Esty. Mr. Rogers is known as the patriach of eastern Alabama. He delivered enjoyable sermons at both morning and evening worship services.

Little Duke Heflin spent the week end in Verbena visiting his grandmother, Mrs. Erby Deramus, and his aunt, Mrs. William C. Yeargan.

The friends of Mrs. Dent Ballard will be happy to know that she returned from St. Margaret's Hospital in Montgomery, Saturday, and is now recuperating at her home.

Mr. Don Dorminey who teaches math and physics at the Darlington School for Boys at Rome, Ga., was home this past week end.

Mr. and Mrs. A. D. Martin spent Sunday in Birmingham visiting friends and relatives.

The friends of Mr. and Mrs. A. C. Setliff and son, Eddie Mack, are regretful to see them move away from Clanton. They will leave for Austin, Texas, this week where the work of Mr. Setliff has been transfered to.

Mrs. Winfred Lecroy, Mrs. Luther Mims and daughter, Frances, and Mrs. Herman Lecroy visited Mr. and Mrs. James N. Smith and little daughter in Montgomery on Saturday.

Mr. and Mrs. Dent Williams, Charles Dent, Jr., and Nancy visited the capitol and the beautiful park in Montgomery Sunday afternoon.

Mr. and Mrs. Gerald Weed and family had as their guests over the week end, Mrs. Weed's mother and father, Mr. and Mrs. Henry Green, of Troy and a neice, Linda Green, of Montgomery.

Mrs. Ed Propst and children, Marietta and Jamey, visited her mother, Mrs. S. L. Loftin, in Nick Jesville, Ala., over the week end. Mrs. Loftin returned home with them for a visit.

Mrs. N. S. Johnson left Sunday by plane to visit her new granddaughter in New York City. Kathleen Stewart is the name of the new arrival. She is the daughter of Mr. and Mrs. Gordon Kane. Mrs Kane is the former Ina Saxon Bearden.

Mrs. J. A. Sasser and children Jane and Jesse, have returned to their home in Abbeville, Ala.

Mrs. T. C. McSwain entered the East End Memorial Hospital in Birmingham last week. Her friends will be happy to know that she is doing nicely since her operation.

Mrs. Sally Davis is spending this week with her son and his wife, Mr. and Mrs. E. H. Davis.

Mr. and Mrs. Duke Kemp from Bessemer spent Tuesday with Mrs. Redge Bearden. Mrs. Bearden and son, Toni, returned with their grandparents to Bessemer for a short visit.

Mr. and Mrs. Larkin Williams and son, Thomas, and Mrs. Robert Tucker, attended the funeral of Mr. William's sister, Mrs. Thomas Adams, in Birmingham Tuesday.

Mrs. Raymond Cox and children, Christy and Sherry, Mrs. Spurgeon Calloway and Mrs. O. W. Miller were in Montgomery Tuesday.

Mr. and Mrs. John Studdard, Sr., of Centre, Ala., returned home this week after an extended visit here with his two sons, Mr. John and Ben Studdard and their families.

Adult Sunday School Class Held Meeting

The Ladies Adult Sunday School Class of the First Baptist Church, Isobel Morrison, teacher, met at the home of Mrs. Luther Kendrick Monday night, Feb. 15th.

The meeting was called to order by the president, Miriam Gerald. Prayer was offered by Lois Black. After a short business discussion, the devotional was brought by Isobel Morrison.

For entertainment Mrs. Morrison brought her movie projector and showed many beautiful color pictures of her trip to Bellingrath Gardens and also many others.

Several games of Bingo were played.

Mrs. Kendrick was assisted in serving a delicious refreshment by her little daughter, Glenda, to the following members: Isobel Morrison, Miriam Gerald, Dorothy Gray, Ruby Abbott, Lois Black, Virginia Polk, Beulah Brown and Lillian Lawson.

Women Of Clanton Presbyterian Church Met

The women of the Clanton Presbterian Church held their regular circle meeting on Monday, February 15, at the church.

Mrs. Mary Oglesby was in charge of the program, the theme of which was, "The Heritage of Our World Christian Community," and which proved most interesting. Her devotional was taken from Matthew 10:5-8 and 2 Corinthians 11:24-33.

One guest, Mrs. C. E. Guthery, was welcomed to the group.

Methodist Circle V Met With Mrs. George Tucker

Circle V of the Methodist Woman's Society of Christian Service met Monday at 7:30 p.m. at the home of Mrs. George H. Tucker.

The program was a continuation of the study of the biblical prophet, Jeremiah. Mrs. Walter F. Haywood was in charge of the program.

Twelve members enjoyed the fellowship and social period.

Delicious refreshments were served by the hostess and her daughter, Mary Kate.

Around OUR HOUSE

by Ladies Home Journal

Sometimes a little boy's politeness takes strange forms. Our neighbor around the corner has been chuckling over an incident that happened when the four-year-old was visiting alone at her house the other morning.

The four-year-old had a slight cold, and he kept sniffing and sniffing, the way little boys will do. His hostess, thinking he'd be more comfortable if he blew instead of sniffed, asked,

"Would you like to have a piece of Kleenex?"

"No, thank you," the four-year-old replied with solemn politeness. "I already have some at home under my pillow." And he sniffed again.

Speaking of Kleenex, our next door neighbor always puts the paper tissues into a plastic sandwich bag before she puts them into her purse. She says the bag keeps them fresh and clean until she needs them. She gives her handkerchiefs and her extra pair of white gloves the same protective treatment.

This practical person made several bags to hold her handkerchiefs and gloves out of an old, torn plastic raincoat that most people would have discarded as being completely useless.

And the bags weren't all she made. She turned the sleeves of the raincoat into shoe covers to protect clothing when shoes are packed in a suitcase for traveling, she made an apron out of the back of the raincoat, she converted the shoulder section into a cosmetic cape to use when applying make-up, and she had enough scraps left over to make bibs for three babies in the neighborhood.

Back to the subject of handkerchiefs, our neighbor down the street, the one with the big family, always has a lot of handkerchiefs to wash each week.

She used to have trouble with the handkerchiefs tangling and tearing in her washing machine, but now she makes them behave properly by putting them into a small cotton mesh bag and tying the top of the bag securely before dropping them into her washer.

This same neighbor has a bulletin board in her laundry room, right above her washing machine. On this bulletin board she thumb tacks the washing instructions that come with the clothing she buys for her family.

"With all the new fabrics being used in clothing now, I know I'd never remember how to wash things correctly if I didn't have the manufacturer's instructions right at hand," she says.

The next door neighbor puts her old plastic table cloths to work during the winter months, getting as much good from them as she does from old plastic raincoats though in a different way.

She refuses to have an electric blanket, yet on cold nights she dislikes being weighted down with layers of blankets and quilts. To keep herself warm without the weight of heavy covers, she puts an old plastic table cloth between her blankets. The table cloth gives her perfect insulation with no added weight.

For a quick supper some night, try mixing together a can of tuna and two cans of cream of mushroom soup, heating thoroughly and serving on a bed of fluffy rice.

Dr. Spieth And Miss Hoover To Tell Of Tour

Dr. Alda Mae Spieth and Miss Elizabeth Hoover of State Teacher's College in Livingston will tell of their European tour last summer on Saturday, February 20, at one o'clock when the Chilton County Branch of the AAUW and friends will gather at the Dixie Cafe for a luncheon program.

This delightful occasion is being arranged by the International Relations Committee. Reservations may be made by calling Mrs. Joe Mullins, Miss Loyce Baker or Mrs. Winfred Lecroy no later than Thursday night.

Mrs. Raymond Cox Is Hostess To Sunday School Class

Mrs. Raymond Cox was hostess to Mrs. Mable Tingle's Sunday School class of the First Baptist Church on Monday evening when they met at her lovely new home.

The theme of the program was "Love." A lovely devotional was given by Mrs. Lorain Vines. Mrs. Sally Gaines told an interesting story "They were all Honors." A biblical quiz was enjoyed by all.

The hostess served delicious refreshments to the seven following members: Mesdames Mabel Tingle, the teacher, Sally Gaines, Lois Maddox, Julia Crowe, Juanita Weed and Lorain Vines.

Miss Jeralyne Studdard Honored With Shower

Miss Jeralyne Studdard, bride-elect, was honored with a surprise kitchen shower on February 10 at 7:00 p.m. when a group of her friends gathered at her home.

Receiving the guests at the door were the hostess, Mrs. Joyce Eiland, the bride-elect's mother, Mrs. J. R. Studdard and sister, Miss Shelby Studdard.

Spring floral arrangements adorned the room of the home. Games were enjoyed. Each guest wished much happiness to the bride-to-be as she opened each lovely and useful gift.

Delicious cake and coffee were served to the following guests: Mesdames Margaret Owens, Annette Shaw, Janie Bates, Nell Tucker, Evelyn Klie, Misses Nell Hayes, Hazel Messer, Rochelle Marcus, Frances Wood, Joyce Hardy, and Peggy Carroll.

Miss Studdard is the bride-elect of Barney Owens. The wedding will be sometime in the early Spring.

MAPLESVILLE MARCH OF DIMES HUGE SUCCESS

The annual March of Dimes drive is over, and Maplesville is to be commended on its response to the call this year. The total amount collected was $366.65. There were quite a number of people in our community who gave of their time in putting on the drive. The members of the Ladies Auxiliary to VFW Post 6331 led the Mother's March. Those taking part were: Mrs. Newt Aldridge, Mrs. Bill Bolding, Mrs. Ed Clapp, Mrs. Billy Dennis, Mrs. Geo. Gillespie, Mrs. Joe Graham, Mrs. Jack Hampton, Mrs. W. L. Hampton, Mrs. Gene Hathcock, Mrs. Harry Higginbotham, Mrs. Quinton Mitchell, Mrs. W. J. Pearce, Miss Frances Reynolds, Mrs. Curtis Rucker, Mrs. Hershal Shanks, Miss Jane Shanks, Mrs. Evelyn Smitherman, Mrs. Perry Thomas, and Mrs. Thereon Watson. We should be proud of our Boy Scouts who worked all day on the road block and then put on a special drive during the two shows at the Wadesonian Theatre that night. They are: Eugene Lawrence, James and Edward Fuqua, Harold Motley, Roy McGee, Gary Bearden, Dale Green, Joe Hicks, Don Green, Billy Hugh Copeland, Butch Higginbotham, Kenneth Burnett, Donald Lawrence, Freddie Thomas and their leader, Mr. Billy Dennis. We appreciate the generosity of Mr. Wade in running the special trailer about the March of Dimes and giving the Scouts the opportunity of soliciting in the show. And we want to thank Mr. Bates for taking care of the arrangements at the theatre. All three of the cafes in town, The Alabamian, Davenport's, and the Greenroof, participated n the Coffee Day Drvie. Mrs. Paul Compton, Mrs. John Durham, Mrs. Willard Hicks, Mrs. R. W. Stremming, Mr. Geo. Gillespie and Mr. Gene Hathcock as well as some who have already been mentioned worked on other phases of the drive, which included the three mills, Graham Lumber Co., Reynolds Lumber Co., and Stremming Veneer Co., the Civic clubs, and soliciting in the business district. All of the business houses kept the test tubes prominetly displayed and all of the churches supported the efforts by keeping the community informed about the plans for the drive in town. Again, we say thanks to those who worked, and to those who gave.

SHOULTS NEWS

Mr. and Mrs. E. L. Gandy and Mrs. Matt Milford stopped by for a while Tuesday on their way home to Pensacola, Florida. Mr. and Mrs. Gandy had been visiting their mother, Mrs. Milford in Birmingham for a few days. Mrs. Milford returned home with them to spend a few weeks. Mr. Milford still remains in the Veterans hospital in Tuscaloosa where he has been for over fifteen years.

Mrs. Mae Smart honored the 9th grade of Maplesville with a party at the VFW hall Tuesday night. They reported a nice time and enjoyed the refreshments.

Mrs. Ezra Lee Lawley and Mrs. John McKinney spent Thursday in Selma with Mrs. Jack Kynard to help care for the children. Both children have been in the Selma Baptist Hospital but they returned home Thursday. Sandra Lawley stayed Thursday with Mrs. Sherman Motley.

Mr. Harold Motley was one to participate in the panel discussion at the PTA meeting Thursday night at Maplesville. This was enjoyed by a great number of people.

Mrs. Lloyd Garner has moved to the town of Lawley. She has been living with her husband's parents, Mr. and Mrs. Albert Garner. Sgt. Lloyd Garner is in Iceland. Her father, Mr. Smitherman and uncle are living with her.

Mr. and Mrs. Donald Carter of Montgomery are visiting their parents, Mr. and Mrs. Bill Hathcock and Mr. and Mrs. Carter over the week end.

Many from this community who have been out of work for many months are beginning to go back to their old jobs, due to the shut down of one of the mills at the veneer mill at Maplesville. We hope that soon all the men will be back at work again.

Mr. and Mrs. Ira Hamrick and family have moved back into our community. They have been living in Georgia for several months, they moved back into one of Mr. Cleve Latham's homes. We are truly glad to have them back with us.

Mr. and Mrs. Lonnie Evans was visiting in the community over the week end.

Mr. and Mrs. Malcolm Gilliland and boys from Birmingham were visiting Mr. and Mrs. Grady Harrison over the week end.

The Senior III class of Maplesville High School will present the play, "Nearly Beloved" Saturday night, February 20. This will be a comedy in three acts. The cast is as follows: Janet Maxwell, mother of four children in her early forties, very attractive, Elizabeth Dennis; John Maxwell, father, in his early forties, Thomas Chapman; Connie Maxwell, daughter, seventeen, very pretty, Mabel Motley; Betty Lou Maxwell, daughter, fifteen, she's cute, poised, and has an incessant smile, except when her brother Wilbur is around, Marjorie McAfee; Wilber, son, fourteen, Sherwood Grover; Hercules, Wilbur's bosom pal, Billy Stough; Bernadine, Betty Lou's chum, fifteen and cute. Like Betty Lou, she has a fantastic imagination, Barbara Sewell; Marvin, Connie's boy friend. He's eighteen, timid, almost bashful. He's very sincere and straightforward, Bobby Latham; Aunt Mary, Mrs. Maxwell's aunt. She is a tiny woman of about sixty, Mabeline Sealey; Miss Murray, Betty Lou's teacher, Frances Walker; J. C. Mallory, Mr. Maxwell's boss, Hugh Stewart; Molly, about twenty. The "moll" type. She chews gum incessantly, Mary Charles Rush; Miss Lewis, Mr. Mallory's secretary, about 20, pretty and likeable, Mattie Ruth Rush. The director of this play is Mrs. Frances Camp. The time is 8:00 p.m. at the Maplesville High School auditorium and the admission is 25c for children; 50c for adults; and 75c for all reserved seats. Anyone who would like to have a reserved seat will be able to get one up until 2:30 Friday afternoon. Tickets may be purchased from members of the Senior class.

We had a large number out for church Sunday morning. The visitors were Mr. and Mrs. Malcolm Gilliland and children of Birmingham, Mrs. Lloyd Garner of Lawley and Mrs. Artie Hicks of Lawley. We invite everyone out to worship service every Sunday.

Many from this community attended the Valentine party held at Maplesville school Saturday night. There were plenty of refreshments and games to play. Every one enjoyed it very much at the end the "king and queen" were crowned.

A 2-c Bob McKinney and wife from Montgomery, were visiting their parents over the week end.

Sgt. Charles Shoults, wife and children were visiting his parents, Mr. and Mrs. Sam Shoults a few days this week. They arrived from Michigan Wednesday. Sgt. Shoults left for Indiana Saturday where he is to go to school for six weeks. Mrs. Shoults is staying with her parents, Mr. and Mrs. Guthrie of Plantersville, where her little girl will be in school there until they return home.

Mr. and Mrs. John Foshee visited his two sisters Saturday, Mrs. Lula Lenoir and Mrs. Tom Johnson. Mr. and Mrs. Tom Johnson of Birmingham spent the week end on their farm near Maplesville. Sunday guests of Mr. and Mrs. John Foshee was Rev. Joe Davis.

Poultry Predictions And A Few Marketing Facts

EGG PRODUCTION—Increased demand from breakers and storers will help to keep spring egg prices up. Storage of shell eggs are extremely low. The demand for egg solids is expected to be high this spring.

Egg prices during the spring are likely to be very near last spring's high prices. Production during the first six months of 1954 probably will be above the first half of last year.

Acreage controls on corn, cotton, peanuts, and wheat may cause many diversified farmers to increase the size of their laying flocks. The main increases in laying hens are expected to be on the West Coast and in the South.

The seasonal rise in egg prices which usually comes about the middle of the year probably won't be as sharp as usual this year. The reason—more chicks were started early this year than ever before.

FEED SITUATION—Ample supplies of grain and by-products feed are on hand—about 15 per cent more than last year. But high protein feed supplies are shorter than a year ago.

BROILERS—There probably will be less competition from pork during the spring months. Pork prices are expected to be near record levels this spring.

Pork will be short and live hog prices are expected to hit 30 cents a pound by summer. This will help to relieve the pressure of heavy broiler production.

TURKEYS—Growers are being urged by industry leaders to go slow on expansion for 1954. The number of breeder hens tested from July through November showed an increase of 7 per cent from a year earlier.

Industry officials say the number of breeders tested could produce eggs for a crop of heavy birds 15 per cent above 1953. The light breed turkey crop could be as much as 45 to 50 per cent above the 1953 crop.

Check List For Feb. Poultry Needs

We suggest that you keep this list handy and that you check the work you need to do this month against it.

1. If you haven't already started brooding, order your replacement pullet chicks. It's later than you think.
2. Be sure to check the brooder house and brooding equipment and make all needed repairs.
3. Order new equipment needed.
4. Set up and test brooding equipment before the chicks arrive.
5. Select a feed and feeding program and stick to it from the time the chicks arrive until the pullets are housed.
6. Plan your pasture program for the coming season. Will your pullets have green available all summer?
7. Repair your range shelters. Have them ready before you need them. Do you need a new one?
8. Don't neglect the layers. They must pay their own feed bill and help pay for those pullet chicks you are starting.
9. Produce clean eggs; gather them several times a day; keep plenty of clean nesting material in the nests; and prevent the litter from getting wet.
10. Learn more about poultry production. Read up on the latest developments. You can't afford to get behind.

Try Costal Bermuda In Your Grazing Plan

Auburn, Ala.—Costal bermuda grass may be the answer on your farm.

In making this statement here this week API Extension Agronomist J. C. Lowery said this crop is one of the state's most promising grasses to fit into grazing programs. If managed right, coastal bermuda will turn out big yields of both summer grazing and hay for cold months and dry periods.

"A hybrid plant which must be started from sprigs, costal bermuda will thrive well where common bermuda succeeds," added Lowery. "Set the sprigs, or stolons, on well-drained, reasonably fertile soil in late February or March after danger of severe freezes is over and before soil dries out.

"After establishing costal bermuda in the spring, overseed it in the fall with crimson clover and white clover. How big growth and save it for hay or graze it off before seeding a legume. This gives the clovers a chance to grow.

"Stack the hay in the field if you lack sufficient storage space. The hay will help carry your livestock through the winter and will be a valuable feed during the bloat season."

Liberty National Has Banner Year!

Frank P. Samford, President of Liberty National Life Insurance Company, in reporting to the stockholders of the company at their annual meeting commented at length on the continued growth of the company. He pointed out that the total resources as of December 31, 1953 amounted to over $143,000,000 making the company one of the largest of its kind in the entire Southeast. The resources at the end of 1953 were about $17,500 000 greater than at the end of the previous year.

He also reported with pride the continued confidence being expressed in the company by the insuring public. He stated the insurance in force at the end of 1953 had increased during the year by $57,000,000 to approximately $880,000,000 at the end of the year.

In his report to the stockholders, President Samford emphasized the strong financial position of the company as represented by its capital and surplus of over $14,000,000 which amount represents a cushion of safety over and above the legal reserves as required by law.

Attention was called to the detailed financial statement of the company, a copy of which will be found in this paper. The stockholders were advised that the publication of this financial statement was being dedicated this year to the field men of Liberty National Life Insurance Company who are, in great measure, responsible for the outstanding record being made by the company. Mr. Samford stated he was extremely proud of the field representatives who are trained to carefully survey the needs of their insurance clients and are in a position to make available to all the many forms of protection offered by the company.

Liberty National Life Insurance Company conducts a life insurance and mortgage loan business in 14 states and has policyholders residing in every state of the nation and in several foreign countries. The annual meeting was held in the auditorium of the home office building in Birmingham, Alabama on Tuesday, February 16, 1954, at 3:00 p.m. at which time the officers and directors for the ensuing year were elected. It was confidently predicted that 1954 would be an even better year than 1953.

$260,000 Quota Of Series E & H Bonds For Chilton This Year

J. Archie Ogburn Chairman of the Chilton County Savings Bonds Committee, has announced that the Secretary of the Treasury has assigned a quota of $260,000.00 in Series E and H Bonds to our county for 1954.

Mr. Ogburn also announced that the county invested $17,244.75 in these Bonds during the first month this year.

The total quota assigned to the State of Alabama is $48 800,000.00.

Mr. Ogburn said, "We have a choice of two fine investments: the Series E Bond with interest accumulating, and the Series H current income bond paying interest semi-annually by U. S. Treasury check. These are companion bonds and pay interest at the rate of 3 per cent compounded semi-annually if held to maturity.

"While the Savings Bonds program is not new, it is even more vital to our economy today than when it was originated. As has been indicated many times by Secretary Humphrey, the establishment and maintenance of sound money requires a wider distribution of the public debt. This means more Savings Bonds in the hands of our citizens.

"We should all renew our desires to become shareholders of the Government by investing in U. S. Savings Bonds," the chairman said, in his appeal to the citizens of our county to take a greater hand in securing a sound dollar. "This is the foundation of economic strength in our great land."

Would you trade a Penny for a Dollar?

● You can if you use Natural Chilean Nitrate of Soda for your top-dressing and side-dressing needs. It costs a little more because it's worth more. But the difference in *cost* usually can be measured in pennies per acre, while the difference in *value* often amounts to dollars per acre.

Chilean "Bulldog" Soda gives you generous extra value. The nitrogen is 100 per cent nitrate. It's 100 per cent available (quick-acting); 100 per cent dependable. The minor elements make crops stronger, healthier. The sodium—26 pounds in every 100-pound sack—is a key to maximum returns on your entire fertilizer investment. It offsets the bad effects of acid-forming fertilizers...increases the efficiency of mixed fertilizers containing them. It releases "locked-up" potash in the soil...increases the availability and efficiency of soil phosphate...reduces potash, calcium and magnesium losses by leaching...develops larger, deeper root systems.

Sodium builds up the productivity of your land—*more* each year. It's an essential element for some crops...beneficial to most and necessary for maximum yields of many.

Pennies-per-acre difference in *cost* may mean dollars-per-acre difference in *value* to you. Chilean "Bulldog" Soda is the best fertilizer your money can buy. Use it for all of your top-dressing and side-dressing needs.

"Warm-Hearted Whitey"

No matter how cold it's been this winter, Whitey Fisher's cows have had ice-free drinking water, thanks to Whitey's latest "gadget."

"If it's *really* cold outside," Whitey said, "I turn on all three of these." He showed me a multiple switch by the barn door. Then he pointed to a series of six 100-watt light bulbs in the water trough.

"Each switch turns on a set of two bulbs. I can burn two, four, or six of them, depending on how cold it is. Pretty handy."

From where I sit, Whitey has shown again why he's one of our most successful farmers—how a little imagination and effort can go a long way in making a business pay off. Andy, out at Green Gardens, works that way, too. He voluntarily co-operates with the Self-Regulation program of the Brewing Industry. He keeps his place always neat and orderly—a *warm* friendly place to enjoy a cold glass of beer.

Don't forget the Donkey Base Ball game at the Stanton Jr. High School Monday night, Feb. 22. Admission 50c for adults and 25c for children.

Mrs. R. H. McFarland of York, Ala., died Feb. 9 in the York Hospital after an illness of some two months. The oldest daughter of Mrs. C. E. Levens and the late Mr. Levens of Plantersville, Mrs. McFarland had made her home in York for the past 25 years. Other survivors besides her mother and her husband are two daughters, Mrs. Earle Long and Mrs. C.V. Waldrop, both of York, two grandsons, and the following brothers and sisters: Barney and Boris Levens, Plantersville; Mrs. Lucy Fulford, Gulfport, Miss. Mrs. Eugene Connor and Mrs. John R. Perkins, Birmingham, Mrs. J. L. Young of Wetumpka and Mrs. Martin Jones of Selma. A number of nieces and nephews also survive. Funeral services were held from the Baptist Church in York at 2:30 Wednesday with burial following in the York cemetary. Sympathies extended the loved ones. (Mrs. Charlie Levens has given up her husband, Mr. Charlie Levens, her daughter, Mrs. McFarland and a sister, Mrs. Crowell Williams of Prattville, Ala. since the 1 of December 1953.)

Mrs. Crowell Williams (Netie Hathcock) once a resident of Stanton and a sister of Mrs. Charlie Levens of Plantersville, Ala. was seriously burned at her home in Prattville, Ala. Monday, Feb. 1st. Mrs. Williams died during the day Tuesday in a Prattville hospital. Funeral services were held in Prattville Wednesday. Mrs. Williams is survived by her husband and one son and one daughter. (both children live in Washington, D. C.)

Mr. Frank Reynolds is confined to the Vaughan Memorial Hospital in Selma. We wish him a speedy recovery.

The Rev. John Thomas Martin, born March 15, 1872 at Jemison, Ala. the son of Susan Cobb Martin and William Chapton Martin, died at his home at Four Points, Centerville, Alabama Sunday, January 3, 1954. Rev. Martin died of a heart attack about 9 P. M. He had been in failing health, but remained active until the last. Rev. Martin was educated in the public schools of Chilton County, Six Mile Academy, Thorsby Institute and Wheeler Business College in Birmingham. On December 28, 1897 Rev. Martin married Miss Olive Mitchell of Plantersville, Ala. Rev. and Mrs. Martin lived at Riderville, Randolph Gordo, Brierfield and Brent before moving to his present home. Rev. John T. Martin is listed in the 1927 edition of "Who's Who in the South", a business, professional, and social record of men and women of achievement. He taught in the public schools for thirteen years, after which he entered the lumber manufacturing business. He was Vice-President of the Superior Lumber Co., of Brent. He was a member of F & A M Friendship Lodge No. 83; Kamran Grotto, K of P, and WOW. His hobby was building up weak churches. The Rev. Martin was a charter member of Brent Baptist Church. After being active in church work for many years, he was licensed to preach in 1912 and he was ordained as a full time preacher on March 30, 1913, at the Brent Baptist Church, where he was already pastor. Rev. Martin was for many years Moderator of the Bibb County Baptist Association and was a pioneer organizer of Baptist Sunday Schools in Bibb County. He devoted time, interest and energies to Christian work through the Association. In the Annual Association meeting of 1952 a resolution was adopted stating, in part, that Rev. John T. Martin has been a beloved and devoted servant of the Lord for over forty years and expressing appreciation for his efforts. Rev. Martin was in great demand as a speaker at homecomings and as a preacher and speaker at churches in a number of counties. He conducted the memorial service at his home church, Providence, in Chilton County for thirty years.

The Rev. pastored churches at Brent, Bethel, Mt. Zion, Cedar Grove, Randolph, Carleton Hill, Eoline, Haysop, Six Mile, Mt. Carmel, Mt. Gilead and Shady Grove in Bibb County. Evergreen and Big Springs in Autauga County. Pisgah, Bethlehem, Ephesus and Pine Grove in Perry County. Providence in Chilton County.

The Rev. John T. Martin was widely known, numbering large numbers of people as his friends. He had a spirit that was buoyant and was a constant blessing to those who were in sorrow and distress. His work among the churches was always in a spirit of missionary helpfulness seeking to awaken the churches. Rev. Martin was loved by people in all walks of life, ever pleasant and understanding and sweet to all who came in contact with him. He was indeed one of our pioneer rural ministers in Alabama. The Rev. Martin's home was a place you were always welcome; large crowds gathered there, and it was a home of love, cheerfulness and comfort. The Martin's were a family that attended church, loved the Lord's work, and were ever ready to help anyone in need.

Funeral services were conducted for Rev. Martin at the Brent Baptist Church at 2 P. M. January 5. The Rev. Wilkins Winn, Forrest Hicks, Percy Bamberg and Bennie Hubbard officiating. Interment in the Centreville Cemetery.

Surviving are his wife, Mrs. Olive Mitchell Martin; two daughters, Miss Thelma Martin of Centreville, Mrs. Joe L. Johnson of Panama City, Fla.; one son, Herbert Martin of Anderson, S. C.; two sisters, Mrs. Jim Cobb of West Palm Beach, Fla., and Mrs. Cora Ellison of Birmingham; one brother, Mr. A. W. Martin of Calera; and four grandchildren.

Pallbearers were: Guy Ward, Ralph Ward, John Howard James, Joe Partridge, Virgis Ashworth, Grady Chism, Jim Oakley and Fred Davis.

Honorary pallbearers were: John Thompson, George Partridge, Senator Howard Cooper, Vance Cleveland, Robert Thrasher, J. C. Merchant, Robert Jamison, Dr. A. C. Pratt, Jr., Nelson Fuller, the Deacons of the Brent Baptist Church, and the members of Friendship Lodge No. 83 F&AM and all officers of the Bibb County Executive Board.

A number of relatives live in this and adjoining communities. We offer our sympathy.

Mrs. H. D. Hudson, Mission Study Chairman of Unity Association will teach the Mission Study Book Wednesday at the Baptist Church.

Mrs. Ruby Mae Biscoe will teach "Studies in Psalms" at the Baptist Church Tuesday, Thursday and Friday of this week. Attend. Mrs. Biscoe is a very capable teacher and a good christian woman.

Mrs. Arthur Sims, Mrs. W. J. Fluker and Mrs. L. D. Weaver visited Mr. L. D. Weaver in Montgomery, Ala., last Sunday. Mr. Weaver is confined to the Veterans Hospital.

Saturday afternoon, February 20, 7:30 there will be a ball game at Stanton Junior High School between the RA's of Highland Baptist Church, Montgomery, and the RA's of Stanton Baptist Church. Attend this game and root for your home team.

A good crowd was present at both services at the Baptist Church last Sunday.

Hear the Rev. George Jeffcoat at the Baptist Church Sunday morning, Feb. 21, 11 a.m. The Rev. George Jeffcoat is a former major-league baseball pitcher whose theme song is "Pitching for Christ." Rev. Jeffcoat pitched for the Brooklyn Dodgers and the Boston Braves. Below is a short sketch of the Rev. Jeffcoat's conversion. A first year student at the New Orleans Seminary, the converted former athlete feels for the first time that his life counts for something. In surrendering to God and preaching the Gospel of Jesus Christ he has satisfied the feeling in his soul, a feeling that baseball and the business world failed to give. "Since the first moment that I accepted Christ there has been nothing but the peace and joy in my heart that all mankind can look forward to, that can be found only in Him," is the testimony of the one-time big-league pitcher. Jeffcoat was converted in the Spring of 1948 after having ended 14 years of pitching. The Rev. Jeffcoat will speak at the following places, hear him: Big Springs Baptist Church Saturday night, Feb. 20, at 7:30 and New Cedron Baptist Church Sunday night at 7:30.

Miss Walter Frances Reynolds of Plantersville entered the Selma Baptist Hospital Monday afternoon.

Mrs. Alice Reynolds of Plantersville reports that her mother, Mrs. Mary Arnold is not doing well at the home of her daughter, Mrs. Clarence Ellis in Birmingham. Mrs. Arnold is in her nineties and has led a useful, fine christian life. Much concern is felt at this time over Mrs. Arnold's condition.

Thorsby Institute News—

Mrs. Pearl B. Mims visited her mother, Mrs. Ada Bates, Sunday afternoon. She also visited at her own home in Lay Dam where her youngest son, Edwin, and his wife and five children are staying at present. They may make it their permanent home.

Mary Alice Collins had as her guest at her home in Collins Chapel for the week end, Betty Joyce Beasley of Homewood. Betty Joyce just recently left the dormitory because she was needed at home. She called at the dormitory and all enjoyed seeing her again.

Mrs. Carrie Matthews has been on the sick list but is much better at this time.

Thanks are due Mrs. James Kincaid for eggs given to the Institute Saturday. Food is much appreciated as well as other gifts. One or two boarders can be accomodated by Thorsby Institute at present.

Miss Helen Jenkins and her mother called on Mrs. J. O. Johnson Sunday afternoon and found her sitting up and very cheerful. They also enjoyed seeing some former students and friends of the school while there—Esther Johnson Garrett and her husband, Mr. Hansen, and his nephew, and Harry Reynolds. Mrs. Garrett and Harry Reynolds are graduates of the school. Mr. Hansen's nephew is a former student but not a graduate.

Examinations will begin Thursday of next week, Feb. 25, and will continue through Friday, Feb. 26. The fifth term will begin Tuesday, March 2. The students will have their annual Spring Holiday Monday, March 1.

LIBRARY (By Mrs. Harding): THE LONG ROAD, by John Oxenham, a book in the Institute library carries the accession under number 10600. I saw a picture in the last Oberlin College Alumni Magazine of Librarian Fowler holding the 500,000th book of the Oberlin library. I plan to be there to see the accessioning of the 555,000th book. The reason? I was there when the accessionist passed book number 222,000, 333,000 and 444,000.

Some people have a prejudice against Pocket Books. It depends. If you choose with judgement you can buy for fifty cents or less, very worthy books. I consider these books a boon to librarians who have microscopic funds for purchasing books. What would you think of George Gamow's "Birth and Death of the Sun?" Or his "1, 2, 3,—Infinity?" If you can explain a page of this to me, please drop around some afternoon. And there isn't any better reading than John Buchan's "Mountain Meadow." I won't attempt to name all of them for we have at least a hundred, both fiction and classed.

We also have a fairly complete list of Omnibooks. These are condensed and classed books that are best sellers.

The Jr. G. A.'s met with Audrey Ann Latham on Monday, Feb. 8, with eleven members present. A missionary program was presented after a short business meeting. Those taking part on the program were, Mary Elizabeth Sexton, Sally McCraw, Audrey Latham, Judy Jackson, and Nora Jean Veasey. Coca Colas and cookies were served.

Isabella School—

Courtesy week was observed at Isabella school last week. It opened with a talk on "Why we need courtesy in our everyday lives." by Ophelia Conway, President, FHA. Betty Hayes President Beta Club and Billy Smith, President of FFA. responded pledging their cooperation in the program. A play "Granny Comes to Stay" was presented. The play demonstrated very fine family relationship of courtesy and kindness.

Each morning the past week the home rooms throughout the school were visited by FHA, Beta Club and FFA members. They gave short skits and demonstrations of courtesy to the students.

We all appreciate the fine spirit in which these students presented these programs and the way they were received by the other students.

A Spring Fashion Show was beautifully presented by the Isabella Chapter of FHA in Chapel recently. This show was made possible by the courtesy of Avondale Mills of Birmingham and Mr. Reedie Taylor of Chicago Sales of Clanton. We wish to thank each one for this courtesy. We also thank Mr. Infinger, Mr. Marcus, Mrs. Adams and Miss Truman Stucky for so graciously assisting Mrs. Heida and the girls with this program.

On Monday night, Feb. 8 the Isabella PTA met in the auditorium with a large group present. The devotional was given by Rev. J. W. Jones. After the regular business session. A panel discussion was held concerning the band to be organized. This discussion was among the parents, teachers and students. Mr. Roberts from Birmingham, director of Maplesville school, was present. Also a representative from Forbes Piano Co., was present. The Association voted to buy two water coolers for the school The students will be asked to donate 50c each to help pay for them. Refreshments were served by the committee. They were Mrs. Julius McCraw, Mrs. Lina Mae McCraw and Mrs. Lum Calfee.

Sarah Jane Campbell, a former student of Isabella is going to school in Chicago, Ill. She expects to get her diploma this time.

George D. Smith Announces For Tax Collector

George D. Smith

I wish to announce my candidacy for the office of Tax Collector of Chilton County.

I am 32 years old and a native of Chilton County, having been born in the Jackson Chapel community at the place where Bud Jones now lives and having been reared in the Collins Chapel Community at the place where A. D. Headley now lives. Since being released by the Navy 7 years ago I have resided at my home on the Airport Road in Clanton.

I am the son of Walter Smith and Eula Traywick Smith and the son-in-law of J. I. Crew and Queenie DeVaughn Crew.

Clara and I are the proud parents of three small children. Randall, Karen and Keith.

I am a graduate of Collins Chapel Jr. High School, Jemison High School and Alabama Polytechnic Institute.

Before enlisting in the U. S. Navy as an Aviation Cadet in Ocr. 1942, I studied agriculture education at Auburn for two years. After serving approximately 4 years in the U. S. Navy, during which time I was designated a naval aviator and attained the rank of Lt. (Junior Grade), I was employed as a teacher on the Veteran Farm Program in this county for 4 and one-half years.

In June 1951 I resigned my position with the Veterans Farm Program and reentered Auburn under the G. I. Bill of Rights and finished the requirements for my Bachelor's Degree in Agriculture Education in Dec., 1952.

Last year it was my privilege to serve as manager of the Chilton County Fruit & Truck Growers Association at Thorsby.

I am, like my father before me, and his father before him, a Democrat.

Yet, I am the first in the history of my family to ask the Democratic party and voters of this county for any office or for any special favor.

During my campaign, I refuse to take sides in any political dispute. I am asking for, and will gladly accept, support from anyone.

I intend to conduct my own campaign, and I intend to conduct it in such a manner that when the voting is over, win or lose, I hope to still have the respect and good will of my opponents as well as the voters of this county.

Your vote and influence will be greatly appreciated by me.

GEORGE D. SMITH.

Glen Curlee Announces For Circuit Solicitor

Glen Curlee

Glen Curlee, prominent attorney of Wetumpka, qualified last week as a candidate for Circuit Solicitor of the 19th Judicial Circuit, which is composed of Autauga, Chilton and Elmore Counties.

Glen as he is known by his countless friends throughout the three Counties, is from an old pioneer family of Elmore County being the son of the late A. W. Curlee and Mary Turner Curlee. Many remember him while a student at Holtville High School as having been on the debating team that won the State championship and represented Alabama in the National Debating Tournament in Ohio. While a student at the University he represented the South in a National Public Speaking Contest and placed third in the Nation. His last year at the University he was elected President of the Senior Law Class. During WW II he served as a machine gun corporal in an Infantry Division in the Pacific and later was made a Special Agent in the Counter Intelligence Corps. In this latter capacity he was engaged in apprehending and prosecuting persons guilty of espionage, sabotage, sedition, etc. After the war he was employed by the U. S. Veterans Administration as an Adjudicator. Four years ago he opened his law office in Wetumpka and has since actively engaged in the general practice of law.

Since Glen came to Wetumpka he has been active not only in the practice of law but has also been prominent in the civic and religious activities of the town. He has been one of the teachers of the Methodist Men's Class for the past three and a half years and has been a lay speaker in over a dozen Churches throughout Elmore County. At present he is President of the newly organized Kiwanis Club of Wetumpka; Chairman of the Elmore County Defense Bond Committee, Chaplain in the local VFW Post; Past Grand in the Independent Order of Odd Fellows; Member of the Wetumpka Chamber of Commerce; and member of the American Legion. He is married to the former Betty Jean Poston, a descendent of the Wadsworth Family of Autauga County. They have two children, Bob, two and a half years of age, and Mary, five months old.

Four years ago Glen made the race for Circuit Solicitor and proved to be a formidable candidate. He has promised one of the most active campaigns ever waged in this circuit.

Quinton Cummings Writes To Voters

Quinton R. Cummings

In announcing my candidacy for the Board of Revenue of the County from the 2nd District I think I should give the voters some information regarding myself.

I am thirty-one years of age and am one of a family of seventeen children. I was born and reared on a farm and for the past 25 years have lived in the Isabella Community.

I am married and have a family. We are members of the Mulberry Baptpist Church.

I attended the Isabella School and graduated from the Isabella High School.

After finishing school I have been (1) Assistant Supervisor with the Farmers Home Administration in Chilton and Walker Counties (2) I was a Veteran Agriculture Teacher in the county five years (3) I have been on the Loan Committee with the Farmers Home Administration the last two years.

My brother and I now jointly own and operate a farm and a dairy near Isabella.

I realize the great responsibilities attached to the office I am seeking. I also realize the demands made upon a public official. My experiences with the public in life will aid me in solving those many responsibilities and demands.

Beng reared on a far mand in a family of seventeen children I had to know the value of a dollar and the importance of economy. I believe the County's funds should be wisely and carefully spent.

I believe the official actions and decisions of the Board of Revenue of this County should be in accordannce with the wishes and desires of the people of the County. This will certainly be my policy if elected a Member of the Board of Revenue.

During the course of the campaign I will give you an honest and complete statement of my views on the issues confronting the people of this county.

I invite your consideration of my candidacy and will appreciate your vote.

Respectfully,
QUINTON R. CUMMINGS.

Lonnie Cost Writes To Chilton Voters

I am asking the good people of Chilton County to elect me to serve on the Board of Revenue and Control from the First District. If elected I will serve the people to the very best of my ability and remember at all times that I am a servant of the people of this county. I will work for the peoples' interest at all times. I also believe that every person living in Chilton County should have a good road to his home regardless of his personal beliefs or financial conditions.

I was born and reared in Chilton County and my entire allegiance is to the citizens of this county. I served as a school trustee for many years and my primary interest is to see our county advance until it is the leading county in Alabama in education and scientific achievement. To me it is already a leader in just good people.

For the last 10 years I have been doing farming and carpenter work. I feel that thfough my experience I know the problems of the farmer and the working man in this county. If elected as a member of the Board of Revenue and Control of Chilton County, I promise that I shall make every attempt to serve them and everyone else on a fair and impartial basis.

I married the former Maude Ellison of this county and we have raised a family of six children. My father, Rev. John Robert Cost, and my mother, Mrs. Mahalie Sammons Cost, are also natives of this county and have been respected citizens here for their entire life. My father has been a Baptist minister in this county for over 30 years.

I hope that each of you will study well my qualifications and will give me the opportunity to serve you as Member of the Chilton County Board of Revenue and Control from the First District of Chilton County.

I hope to see each and every one of you and talk to you personally before May 4th. Lonnie L. Cost.

A Letter From J. Luther Kendrick

J. Luther Kendrick

To the Citizens of Chilton County:

After having served you people, as Sheriff of this county, for one term, I am again seeking the Democratic Nomination for another term.

During the present term, I have fulfilled all of my former campaign pledges, which included a training school here for law enforcement officers. That training school was held here in Clanton shortly after I took office in 1951. I also pledged that I would keep the Sheriff's office open during business hours, as you remember this had never been done before. I have done this at my own expense, without any cost to the taxpayers whatever. I also promised that I would put the Sheriff's office on a business basis, which has been done by setting up a filing record system that we are proud of and we have been highly complimented for many times by members of the various Grand Juries as well as other citizens of the County and Law enforcement agencies, and we hereby extend a very cordial invitation to every citizen of this county to come into the Sheriff's office and let us show you the system that we have set up of keeping our records and information.

During the former campaign I pledged fair and impartial law enforcement. The records show that this has been done throughout this term.

Throughout this term we have endeavored to bring law enforcement to a higher level in this county, and we intend to continue our efforts along this line.

We have installed two way radio communication in both of the Sheriff's cars as well as two Handy Talkies that we use when on foot. This has been used to a great advantage in law enforcement as well as a service to numerous citizens in case of a sickness and death. This service is available to every citizen in the county in cases of emergency.

For the best results in law enforcement, our theory and practice has been to strike at the root or source of the evil, in other words we don't believe that we or anyone else could ever hurt a bootlegger by catching his customers, however the customer is easier to catch than have accomplished greater results the bootlegger, but we feel that we by getting to the root of the trouble, this will still be our policy if reelected.

I intend to solicit every one of you personally, that is possible, and still do the job that you so graciously gave me, however, I feel that I owe it to you citizens to not neglect my duties as Sheriff and if I should fail to see you and ask you for your vote and support I hope you will take this into consideration for I sincerely want your vote and support.

Thanking you for any consideration, I am

Respectfully yours,
J. L. KENDRICK.

Letter To The Editor—
EVANGELIST ALLEN WALKER'S REPLY

This is a friendly reply to a sermon on "The Lord's Day and the Jewish Sabbath—as if there is a distinction. How good it is that we live in a land of freedom where everyone can express his religious convictions in print or over the radio. Such discussions are helpful, if conducted in the spirit of Jesus, as it leads people to study the Scriptures for the truth.

This writer does not believe the Bible anywhere speaks of "the Jewish Sabbath." The commandment calls it by the sacred title, "the Sabbath of the Lord thy God." E. 20:8. The seventh-day Sabbath stems out of creation (Gen. 2:1-3) and not out of the Jewish nation which never existed until some two thousand years after Jesus said "The Sabbath was made for man." Mark 2:27.

Why do men call it "the Jewish Sabbath?" It is for the same reason that the Jews accused Jesus of being "born of fornication." Jno. 8:41. To turn people against him. The sermonizer knew that such an unscriptural title would have a physchological reaction that was unfavorable toward the Creator's rest day and that is why it was so called. That is what is known in the "cold war" as "psychological warfare." Only in this case it is against truth. Such suggestiveness has the desired effect upon certain types of minds, but not upon truth seekers. Jesus was a Jew. Jno. 4:9. And Jesus said, "For salvation is of the Jews." Jno. 4:22. Paul said, "What advantage then hath the Jew? Much in every way: chiefly, because unto them were committed the oracles of God." Rom. 3:1. And Stephen said, "in the mount Sinai, they received the oracles of God to deliver unto us." Acts 7:38. This has reference to the Ten Commandments, including the 7th-day Sabbath "for us."

Let us kindly say that the Sabbath day is the Lord's day. The Lord's day must be the day of which Christ is Lord and in Mark 2:27 He said, "The Son of man is Lord, even of the Sabbath day." So according to His own words the "Lord's day" is "the Sabbath day" and not the first day of the week. In Isa. 58:13 the Lord is speaking and says, "the Sabbath MY HOLY DAY." This should convince any Bible believer. Suppose we could read somewhere, "The first day of the week, MY HOLY DAY?" Wouldn't that settle it? But there is no such text in the Bible.

The sermon says: "Jesus changed the day of worship when he rose from the dead on the first day of the week." But no text is given to support that claim. Let us prove that EVERY NEW COVENANT DUTY was laid down BEFORE the Testator died—and at the resurrection would have been three days TOO LATE to get sun-day in the New Testament.

Get your Bible and read these texts. In Heb. 8:16-17 we read, "for where a testament is, there must also of NECESSITY be the DEATH of the TESTATOR. For a TESTAMENT is of FORCE after men are dead: otherwise it is of no STRENGTH AT ALL while the testator liveth." This shows that Jesus did not add anything to the New Testament AFTER HIS DEATH. That is WHY he put the Lord's supper in the New Testament "the same night in which he was betrayed" so that it could be ratified as a New Testament duty by "the death of the Testator." So we read: "And as they were eating, Jesus took bread and blessed it, and brake it, and gave it to the disciples and said, Take eat; this is my body. And he took the cup and gave thanks, and gave it unto them saying, Drink ye all of it; for this is my blood OF THE NEW TESTAMENT, which is shed for many for the remission of sins." Mat. 26:26-28.

Jesus had to put the Lord's supper in "the new testament" before, He, "the testator" died. This HAD TO BE because Paul says: "Though it be but a man's covenant, YET IF IT BE CONFIRMED, no man disanulleth or ADDETH THERETO." Gal. 3:15. This helps us to understand how very unscriptural it is to say: "Jesus changed the day of worship WHEN HE ROSE FROM THE DEAD." That was THREE DAYS too late. Because that was "the third day" AFTER the "death of the TESTATOR" and when a "testament" is "confirmed" by death, "no man addeth thereto." Gal. 3:15. This explains why Jesus laid down baptism, (Mat. 3:16) the Lord's supper, (Mat. 26:26) all the Ten Commandments, (Luke 16:17) the observance of the 7th-day Sabbath, (Mat. 24:20) and every other "new testament" duty BEFORE His "death" ratified, sealed, and closed the "new testament." Let us repeat, for truth's sake, that this makes the claim that "Jesus changed the Sabbath at His resurrection," THREE DAYS TOO LATE TO GET IN THE NEW TESTAMENT. Dear reader: Do you want the TRUTH?

Jesus foresaw that it would be taught that He changed one of the commandments so He said, "Whosoever shall break one of the least of these commandments and teach men so - shall be called least in the kingdom of heaven" Mat. 5:19. "Remember the Sabbath day to keep it holy" is "one" of "these commandments". And long should human lips keep silent as well as human conduct, before "breaking one of these commandments" and "teaching men so".

In the sermon, Acts 13:44 is quoted. It says, "And the next Sabbath day came almost the whole city together to hear the word of God" Then the sermonizer said: "This preaching was in the synagog to Jews and Gentiles." If the reader will read Acts 21:28 it will be found that Gentiles were not allowed in the synagog. And to prove that this Sabbath service was NOT IN A SYNAGOG get your Bibles and read: "And when the Jews were gone out of the synagog THE GENTILES BESOUGHT THAT THESE WORDS MIGHT BE PREACHED TO THEM THE NEXT SABBATH". This proves the Gentiles had not heard "these words". At the close of the synagog service they, standing on the outside accosted Paul and requested that "these words" might be preached to THEM the next Sabbath. The request was granted and "the NEXT SABBATH DAY came almost the whole city together to hear the word of God". Please open your Bibles and read Acts 13:42-44 and you will see these "Gentiles" were "in the grace of God" and that the meeting DID NOT TAKE PLACE IN THE SYNAGOG - because Gentiles were not allowed in the synagog. Neither did Paul tell them to come to service the NEXT DAY which was "the first day of the week". It is passed over in silence and "the next Sabbath day" a week later, these Gentile Christians came to hear Paul preach on "the Sabbath day". In view of these BIBLE FACTS what becomes of the statement that, "There is not one verse in the New Testament that indicates Christians ever worshipped on the Sabbath". Read again Acts 13:42-44 and see how very wrong is this statement.

The sermon says: "Jesus rose from the dead on the first day of the week". True, but that was "the third day" after His "testament" was "confirmed" and "no man addeth thereto". But before His death he gave baptism to set forth His resurrection. Rom. 6:4. The Catholics teach we should keep good Friday because Jesus died on that day. But Paul said, "as oft as ye eat this bread ye do show forth the Lord's death". The Lord's baptism shows forth His resurrection and the Lord's Supper shows forth His death. Both were instituted BEFORE the "death of the testator".

Jesus charged His disciples to go out and "teach WHATSOEVER I have COMMANDED YOU". Jesus never did "command" or even mention the first day of the week, so they COULD NOT TEACH anything about it. But He did teach "the Sabbath was made for man" for man "to keep it holy" and they taught this. Rom. 3:31, Heb. 4:4. Please get your bibles and read these verses.

The sermon quotes Acts 20:7, "Upon the first day of the week when the disciples came together to break bread Paul preached unto them" and THERE the rest of it is LEFT OFF because it would have proved this meeting was incidental and not a weekly practice. The rest of it goes on to say, "and continued his speech until midnight". And there were many lights in the upper chamber where they were gathered together. At "midnight" the Lord's supper was not yet observed. The meeting was interrupted by a young man "falling from the third loft". After going down and restoring him to life and "When he therefore was come up again and had broken bread and talked a long while, even TILL BREAK OF DAY, so he departed". It isn't fair to read just enough of this to make people think it was a regular Sunday morning meeting. The remainder of this chapter shows it was a farewell service and "they would see his face no more" and the breaking of the bread occured between "midnight" and "break of day" - which proves to anyone it was not following some weekly practice.

While Luke, and others were working hard taking the ship around to Assos, Paul stayed all night and Luke says, "so had he (Paul) appointed" and "when he met with us at Assos we took him in". But Luke and the others never left until the Sabbath closed and the first day of the week started. Read v. 6. This proves the Acts observed the Sabbath and worked on "the first day of the week". In Acts 18:1-4 we read where Paul would not work on the Sabbath, but he did work on sun-day. Why not read these texts for yourself?

The sermon quotes 1 Cor. 16:2, "Upon the first day of the week let everyone of you lay by him in store" but the next words were left off, "as God hath prospered him". This would make it necesstry to go over all the business transactions as soon as "the first day of the week" arrived to see how much God "had prospered him". The business week closed sunset Friday and the Sabbath would not be the proper day to cast up business accounts. But as soon as "the first day of the week" arrived they were to so do and them "lay by him in store" at home something each week so that when Paul arrived it could be taken "to Jerusalem". Read v. 3. This shows it was not for the local church ,nor was it a local church gathering where a collection was taken up. The words "lay by him" cannot by any stretch of the imagination mean "put in the collection plate". What we are after is to encourage you to get your Bibles and read the TRUTH and not just to show that some human is wrong.

This is a matter that involves the "sin" question and that is WHY it is IMPORTANT. In 1Jno. 3:4 we read that "sin is the transgression the law". Paul says, "I would not have known lust except the law had said thou shalt not covet". Rom. 7:7. And the same law which says, Thou shalt not covet, says, "Remember the Sabbath day to keep it holy". Any practice that involves a person in the practice of sin should kindly be called to his attention.

So far as Ignatus and Barnabas and the other "early fathers" are concerned - they were the builders of the Roman Catholic Church. They taught prayers for the dead, the mass, and other Roman Catholic errors. See any Baptist church history on this. They engineered the "falling away" which Paul said, "doth already work" even in his day and that is how "early" the seeds of Romanism were planted. Don't fail to read 2 Thes. 2:1-7 to prove this.

Speaking of the origin of sun-day keeping, Edward T. Hiscox, author of the Standard Manual of Baptist Churches, and one of the greatest scholars the Baptist church ever produced said, "Of course I quite well know that Sunday did come into use in early Christian history as we learn from the early fathers and other sources. But what a pity it comes branded with the mark of paganism (Eze. 8:16) christened by Dr. Edward Riscox who is the author of "Standard Manual of Baptist Churches" agrees with this when he says, "Of course I quite well know that Sunday did come into use in early Christian history as a religious day, as we learn from the Christian Father: (Ignatus and Barnabas) and other sources. But what a pity that it comes branded with the mark of paganism (Eze. 8:16) and christened with the name of the sungod ("sunday") when adopted and sanctioned by the papal apostasy, and bequeathed as a sacred legacy to Protestantism." Source Book p.514. This is The Truth as stated by one of the best Bible students the Baptist church ever produced. He says sun-day came from sun worshippers to the "papal apostasy" and from that sources to Protestantism. I doesn't come from the Bible at all and for that reason Dr. Hiscox says, Earnestly desiring information on this subject, which I have studied for many years. I ask, where is the record of such a transaction (of first-day observance) found? Not in the New Testament, absolutely not. There is no Scriptural evidence of the change of the Sabbath institution from the seventh day of the week." S. B. p. 513. The writer might add, that because this is the truth, there are many thousands of Seventh-day Baptists with denominational headquarters in Plainfield, N. J.

In closing let us say if this Sabbath question did not involve the matter of practicing in it might not be so important. But the New Testament plainly says, "Whosoever committeth sin trangresseth also law; for sin is the transgression of the law" 1 John 3:4. Paul says, "I would not have known sin, but by the law. For I had not known coveting except the law had said, Thou shalt not covet." Rom. 7:7. And the same law which says, "Thou shalt not covet" also says, "The seventh day is the Sabbath of the Lord thy God" and to transgress that commandment, or any other of the Ten, is sin. For James says "For whosoever shall keep the whole law and yet offend in One Point he is guilty of all." James 2:10.— Allen Walker, pastor.

YOUR Health

"Your Health," is presented by your physician as a health service of The Medical Association of the State of Alabama.

HOW DO YOU CHOOSE A DOCTOR?

Choosing a physician is a matter that should be carefully considered by every person, not after sickness comes but while you are healthy and while there is time for calm thought. Because the personal relationship between the doctor and his patient is something that must not be disturbed, select carefully the person who is it is important for every person to on calls to help in times of sickness and distress.

Every adult should have a physician. Every parent should have a physician to call in the event of a child's illness.

Preparedness then is the first step. But how should one go about locating a physician?

The Medical Association of the State of Alabama has some 1,900 members. There are several steps necessary to achieve that membership. The physician must first have a license to practice medicine and and surgery in the state of Alabama. To obtain this, he must pass an examination set up by the State Board of Medical Examiners.

Armed with his license to practice, the physician chooses a location for practice. He then applies for membership in his county medical society. In Alabama there are sixty-seven county medical societies, one in each of the sixty-seven counties. Membership in the county society shows that the physician is received by the men who know him best, his fellow practioners. It also opens the way to membership in the Medical Association of the State of Alabama.

The person seeking a physician, then, is doing so on a local basis, so he should consult the local county medical society. A physician who holds membership in his county medical society is proud of his organization, and the fact that he is a member indicates his interest in its activities which are designed to serve its own membership and the public. Once you have the names of several physicians, choose the one best suited to your needs.

Pastures still offer Alabama farmers more opportunity for development than any other crop in the state.

JEMISON NEWS

(MRS. GEORGE NAISH)

Mrs. Dezzie Littlejohn, accompanied by Mr. and Mrs. Marvin Headley and Nina Flo Headley, spent the week end in Chamblee, Ga., with Mr. and Mrs. Charles Littlejohn and family. Also present were Dr. and Mrs. James Littlejohn and small daughter of Charlotte, N. C.

Mrs. Jeff Hand Hostess to Circle—

The Mabel Woodward Circle of WMU met with Mrs. Jeff Hand, just north of Jemison, Monday, February 8. The program dealt with topic in preparation for the week of prayer in March.

Miss Miriam Harvey was in charge of the program. She read the scripture psalm 33:12-21. Miss Harvey also gave the part "What If I Had Said "No.".

Miss Mary Clements gave an interesting article written by a student telling how he had benefitted from the "Margaret Fund."

Mrs. A. A. Beaman gave the part, "Great Things for God." This part gave the great work churches in California are doing and can go forward in a mighty way by all contributing to the Annie Armstrong offering for Home Missions. Mrs. George Naish told a story of boys sharing their possessions. Closing prayer by Miss Mary Clements.

Numbers are now reading the book, "Sue Evangeline's Country," this book will be reviewed in connection with the week of prayer for Home Missions. The hostess served chicken salad sandwiches, pecan rolls and coffee. Nine members were present.

Meeting of Junior GA's—

Thursday afternoon at 3 o'clock the Junior GA's met at the home of their counselor, Mrs. Tom Cost. The meeting was called to order by the president, Wfllie Lee Blackmon. The watchword, star ideals and the GA pledge was given. The group sang their song, "We've a Story to Tell to the Nations." Doris Marie Cofer led the opening prayer.

The title of the program Mission in Three-D. "Do" "Divide" and "Declare." The counselor made a poster of three hearts, one large, one smaller one and a very small one. These hearts bore the words "Do," "Divide," and "Declare."

These scriptures were read by the members, telling what Christ wants each Christian to do. Mat. 28:19-20; Matt. 23: 1-10; Matt 5:43-44; Matt. 6:56.

Why does Jesus tell us to give to Missions were answered by these verses of scripture. Matt. 28:19-20, Matt. 6:19-21; Matt. 7:7-12; Matt. 6-1-4.

Why should we tell others about Jesus was answered by these verses of scripture. Matt. 28: 19-20; Matt. 5:19; Mark 16:15.

Mrs. Cost closed the program with prayer.

Punch and chocolate bars were served the group. Valentines were favors. Twelve members were present and the co-counselor, Mrs. Bonnie Willis.

Carol Brasher, Willie Lee Blackmon, Patsy Shaw, Betty Watson, Doris Cofer, Martha Joe Willis, Norma Jean Collins, Jackie Morgan, Rena Mae Blackmon, Della Cost and Ann Wooley. As a community mission project the group remembered a sick man with fruit juices.

Mrs. Collum Honored On Birthday—

Sunday, February 14th, was a lovely day for Mrs. Catherine Collum, when she was a Valentine for her children as all of them were present to help her celebrate her 84th birthday.

Mrs. Collum has lived in and near Jemison her life time and has many friends in the community who wish her many more happy returns of the day.

From Birmingham present, Mr. and Mrs. Albert Romaine and son, Danny, Mr. and Mrs. George F. Collum, Mrs. J. W. Don't Take Any Chances, Use Only Certified Seed

Auburn, Ala.—Seed play a vital part in determining farm income.

"There are three major differences in seed that are often responsible for success or failure with crops," says Ralph Jones, API Extension seed crops specialist.

First, there's a difference in varieties within the same species. Some varieties excel others in ability to yield high, resist insects and diseases, stand drouth, and produce crops with desirable qualities. Jones suggests that farmers consult their county agents for varieties adapted to their particular area.

Quality as measured by purity, germination, and weed seed content, is the second important difference in seed. "Our state law requires that this information be shown on the seed analysis tag for the farmer's protection," emphasizes the farm lleader. "Yet too many growers choose to ignore this valuable farming aid. And they frequently come up with poor stands, inferior products, reduced crop yields, and fields infested with weeds."

A third difference is genetic purity—the bloodline of the seed. More and more farmers are realizing the value of genetically pure seed in the economical production of quality crops, believes Jones. Certified seed are genetically pure seed of a superior variety, were produced under a carefully supervised program, and possess qualities that give top performances. Growers who buy certified seed get the best!

"Don't let poor seed stand between you and high yields of quality products," concludes Jones. "It's true that good seed cost more, but their guarantee of greater yields and higher quality makes them cheaper in the long run."

USE SOME ELBOW GREASE FOR THAT SPRING LITTER

Don't forget these important spring baths, warns API Extension Animal Industry Specialist G. B. Phillips.

Scrub the farrowing house with scalding lye water and then wash the sow's sides, underline, feet, and legs with strong soapsuds two days before baby pigs come. This will destroy millions of worm eggs that would begin to infest the little porkers with their first meal.

Remember, those spring litters mean good profits this year.

Meeting of 4-H Club—

The 4-H Club of Jemison High School met Monday, February 8th. The president, Mildred Northcutt, called the meeting to order. The song leaders, June Wilson, Betty Ruth Hilyer and Ann Noah led the group in several songs. Evelyn Murphy, vice president, gave the devotional, also led the pledge. The club elected a new secretary, Shirley Watson. The demonstration was "Making a Circular Hem."

OFFICIAL PREMEASUREMENT SERVICE OFFERED ON ALLOTMENT CROPS

Chilton County cotton and peanut growers can arrange for official measurement of their 1954 farm cotton and plant acreage allotments prior to planting time, the County Agricultural Stabilization and Conservation Committee announced this week. To get the premeasurement service, which is being provided on a cost basis, a farmer must file a written request with the County ASC office prior to March 15, 195 says Mr. Owen, committee chairman. The rate to be charged for the service in Chilton County has been established at $5.00 for each farm, plus 50 cents per acre for each acre or a fraction thereof in excess of 5.0 acres, and payment based on this rate must be made at the time the request for premeasurement is filed.

"The premeasurement is purely optional," says Mr. Owen, "and is offered a sa service to growers who prefer to have an official measurement to use as a planting guide."

The chairman explains that all cotton and peanut acreage in the county will be measured as soon as possible after the crop is established to determine compliance with the acreage allotment-marketing quota program. When compliance is checked, the farm will be considered to be within the far macreage allotment if the crop is planted within the premeasured area.

Fifth Graders Go On Trip To Clanton Water Plant

A Trip To The Water Plant

Friday, January 29, 1954, Mrs. Haywood's fifth grade room went to the water plant. Our class arrived at the plant at 12:20 o'clock and left at 15 till two.

I saw many beautiful red berries and bushes of white and red flowers and a beautiful Iris which are in bloom at this season.

Since it is quite a distance from school to the water plant we decided to take a short cut. This led us down a steep hill and across the railroad.

The building where the purifying of the water takes place was a very beautiful white building. More pipes occupied the building than anything else. Of course our water has to be piped in by pipes of a five mile pipe which carries water from Yellow Leaf Creek to our water station.

The keeper of the plant showed us some aluman which kills all insects and harmful germs.

After all the interesting things we saw at the Plant, we had our pictures taken at the top of the water tank.

We had fudge candy at the water plant. We went to Driver's Bar-B-Q. We had drinks, cookies and watched television. That ended the pleasant trip to the Water Plant.

Our Trip To The Water Plant

On Friday, January 29, 1954, Mrs. Haywood's fifth grade room took a trip to the water plant. A man came and took us through. We started downstairs. He showed us some pipes and explained how the water went through them. Then he showed us a pump and explained how it worked. Then we went upstairs. He showed us some water holes. There was a big hole and two little holes. He explained how the water went through the pipes some little machines that would dump lime into the water. Next to them was a little machine that the other got their water from. There was also a little glass thing that would get all the germs out of the water but it would not get the dirt out. There were two more holes next to them that had chlorine in them and one of them had a big pipe in the bottom. He showed us the switches that operated some of the things there. He showed us how one of them worked. He mashed a button and there was a little needle and it showed you how deep the water was in the tank. After we got out he took two more groups through. After they got out we played awhile and then Mrs. Haywood took our picture on the tank. After that we went down to Driver's Barbecue and got us some refreshments. After we got through we went back to the water plant again and played some more and then we walked back to school and Mrs. Haywood read to us a while and then the bell rung and we went home.

Our Trip To The Water Plant

On Friday, January 29, 1954, Mrs. Haywood's fifth grade room went to the Clanton Water Plant. First we learned that water comes from a creek about five miles away. We went upstairs with a man who showed us a mixed chamber which held mud. The man showed us many things. He showed us pools with water in them and explained what they were for. He also showed us a machine that gets germs out of water but not the dirt. The man showed us some pipes that water comes through.

We played at the water plant and then our teacher, Mrs. Haywood, took our picture. We went to Driver's Barbecue store to buy some refreshments. Then we came back and played some more. We came back to school and Mrs. Haywood read us a book called, "The Black Stallion Revolts." The bell rang and we went home. We all had a good time.

Agent Glasscock Reminds That The Quality Sets Price

Chilton County farmers were reminded this week that the quality of every product they sell has much to do with the prices they get.

County Agent M. R. Glasscock said a good example of the importance of quality is found in the difference in the value of cotton of different grades. He pointed out that the 1953 government loan rate for middling grade cotton of the staple length that most Chilton County farmers grow was $24 per bale higher than for low middling grade.

"During the last year we have seen beef cattle prices decline sharply," he said. "The drop has been much greater on lower grades of cattle than on the higher grades.

"Good quality in any product a farmer has to sell is highly important. It is even more so in 1954, when the supply of many products is greater than during the war years. When supplies are scarce, products of poor quality can be sold profitably. Now with more to choose from, buyers tend to sort out and take the best."

The agent said good quality may not only mean the difference in a profit or a loss—it may even mean the difference in a sale or no sale in some cases.

So one of the things we should plan most carefully now is how we can put into each product we sell the kind of quality that will sell best.

Alabama School System Celebrates 100th Year

Today marks the one hundredth birthday of Alabama's public school system. On February 15, 1854, Governor J. A. Winston signed the first statewide tax-supported sysmeasure which gave Alabama its term of schools. Despite its wobbly financial basis and its weak superstructure, it was a notable beginning.

The men mostly responsible for the public school act of 1854 were Senator Robert M. Patton of Lauderdale, and House members Alexander B. Meek of Mobile, and J. L. M. Curry of Talladega. The principal object of the bill was to find funds for maintaining the schools. The Act authorized, but did not command, school taxes. It did appropriate some hundred thousand dollars which was derived from taxes. In this way local financial help was encouraged. The Act also provided for a state superintendent of education; three school commissioners from each county, one of whom was the judge of probate; and three trustees in each district. There was no county superntendent, the general supervisor of schools beng assigned to the three commissioners. These officers had control of all money and provided housing facilities and libraries. Counties were authorized to levy a special tax not to exceed ten cents on each one hundred dollar evaluation.

Actually, public education at the local level had its beginning in Mobile in 1826 when the Legislature authorized that county to set up and regulate schools. Under this Act Barton Academy was established in 1836, being Alabama's first public school. The experiment, however, was only partially effective since at times it was necessary to operate the Academy as a private school to keep it going. In such difficulties did the Mobile trustees find themselves that one time it was proposed to sell Barton Academy at auction. This proposal was vigorously voted down.

The first superintendent of education was William F. Perry, who was selected by the legislature. His report for the year 1854-55 showed 145,588 pupils enrolled between the ages of 5 and 18 years. This represented about 52 per cent of the total school population. Approximately $1.33 was available for each pupil. Students were roughly classified into four classes, the highest class including such subjects as English, grammar, composition, history, the natural science, bookkeeping, physiology, and the constitution.

Goldrush sweetpotatoes outyield the Porto Rico variety, especially under dry weather conditions; they are also more resistant to stem rot and scurf and do not crack as badly as Porto Ricos.

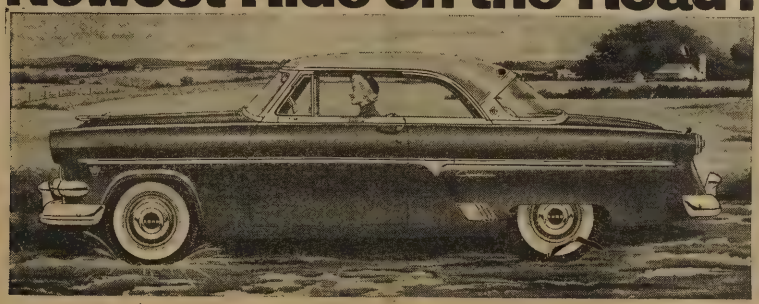
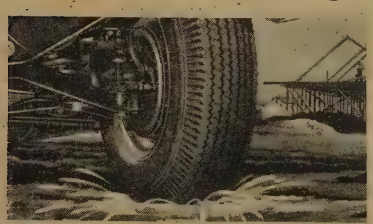
Ford's New Ball-Joint Suspension gives you the

Newest Ride on the Road!



This revolutionary new Ford front suspension soaks up road shock before it reaches you! Makes all riding and handling easier!



Seals out dirt. You can forget road splash because dirt and water can't get into the ball joints in Ford's new front suspension. Each of the four joints is effectively sealed by a unique rubber-and-metal shield. This means that contact surfaces of each ball and socket remain clean—wear is kept to a minimum.

Keeps that new-car feel. You'll enjoy Ford's new-car feel much longer because ball joints are spring-loaded to compensate automatically for any wear. Front wheels hold alignment far longer than with conventional systems. Ball joints can't stick or bind. Steering remains consistently easy.

THE "OLD" ROADS won't seem the same with Ford's new Ball-Joint Suspension "paving" the way for you. You'll enjoy a softer, more level ride because Ford's new system allows greater shock absorbing movement of the front wheels. Handling is far better, too. That's because conventional kingpins have been replaced by simple, sealed ball joints that won't stick or bind. No other car in Ford's field can equal Ford's ride—because no other has Ball-Joint Suspension.

Agile new performance, too, is yours in a '54 Ford . . . whether you choose Ford's new 130-h.p. Y-block V-8 or 115-h.p. I-block Six. And no matter which of Ford's 28 new models you choose you enjoy recognized style leadership—with clean, modern lines . . . sparkling new colors . . . and harmonizing upholstery fabrics and trim.

Eliminates 12 wear points. Ford's Ball-Joint Front Suspension eliminates 12 of 16 points of wear found in conventional systems. Rubber-bushed supports at inner ends of suspension control arms reduce the number of wear points and insulate chassis from road noises.

We cordially invite you to Test Drive a

(MRS. J. H. WELLS)

Sardis Church

Last Sunday was regular preaching day at Sardis church. Rev. Hull of Bessemer brought an inspiring message to our extra large congregation. The Sunday School Superintendent invites everyone of this community to attend Sunday School here.

Vermont School

On Friday, Feb. 12, Vermont basket ball teams played Concord there. The score for the girls was 19 to 6 in favor of Vermont. The score for the boys was won by Concord.

Vermont teams will play Stanton here this Friday 12:30 p.m.

Vermont girls will play Enterprise girls in the tournament in Clanton.

We welcome the Short children in our school. They came to us from Birmingham. Willie Grace is in the seventh grade, J. D. in the 5th and Bobby in the 3rd.

Mrs. Maggie Bice the first and second grade teacher was absent from school on Tuesday on account of her niece being in the hospital in Selma.

Miss Jane Shanks of Maplesville taught in her place.

Mrs. Maggie Bice the first and second grade teacher was absent from school on Tuesday on account of her niece being in the hospital in Selma.

Miss Jane Shanks of Maplesville taught in her place.

Vermont 4-H Club met at the school on Wednesday Feb. 10. The girls met in Mrs. Robinson's room. The meeting was called to order by the president, Shelby Jean Chandler. Devotional was given by Barbara Price. Annie Joyce Sansom took the minutes in place of Betty Harrison, the secretary, who was absent from school. The song, "Church in the Wildwood" was sung. Mrs. Louise Wells, Home Demonstration, gave the demonstration on making clothes. Mrs. Wells announced that the club rally will be held at the city park in Clanton on 23rd day of April. A game, electric jewelry was played.

The boys met in Mr. Robinson's room. The devotional was given by Kenneth Smith. The group sang, "Shorten Bread." The secretary, Paul Keener read the minutes of the last meeting. Mr. Mims told the boys how to plant a family garden, irish potatoes, etc.

Bridal Shower—

On Thursday night, Feb. 11, Mrs. Lester Hill (nee Shirley Jean Kendrick) was honoree at a bridal shower at the home of her parents, Mr. and Mrs. Raymond Kendrick. The gifts were received by the hostesses Mrs. Jim Moates and Mrs. Raymond Kendrick. The gifts were displayed on the bed in the bedroom. The group present were entertained with music by Mr. Jim Moatts, Mr. Lester Hill and Mr. Robert Kellem. The honoree received many nice useful gifts such as pillow cases, sheets, kitchen utensils, a bed room lamp, fruit dishes, bath towels and cloths., etc.

Refreshments of home made cakes, sandwiches and cookies.

Folks and Things ABOUT TOWN

—By Ben

The other morning a group of tourists came in the local cafe for breakfast. While awaiting their order one of them asked how far it was to Mobile. The waitress gave them the information they asked and turned to leave. "What is the next town we come to," one of the party inquired. She was told it was Selma, Alabama. "Why, my goodness," gasped the tourist, "we just left Selma."

Charles Patterson has entered the race for Tax Assessor. Charlie is popular here about and will give someone a hard race. Carlos Owen has come out for Superintendent of Education as has Howard Boockhoudt. Boockholdt is asking reelection having served 2 terms in that office. Another candidate for the office of Sheriff has entered the race. He is Buster Sanders. Buster worked the Tip-Top Bread route here for some four years and has a wide acquaintance in the county.

Alex Hayes has opened his office Supply store in the Exchange Hotel building. We wish him all the best in his new venture and hope that the people of Chilton County and surrounding territory will cooperate with him in maintaining this modern office supply store. They will sell office suppues, office equipment, stationery, etc.

Mrs. Russell Williams is always one to do the best job possible in any undertaking. Next Tuesday morning when the Red Cross drive starts at 8:30 Mrs. Williams, who is Clanton Residential Chairman, wants her group to complete their quota within two hours. It has been done elsewhere in three hours but Mrs. Williams has faith enough in her home community to believe it can be done here in much less time and wants her co-workers to prove that she is right. Now should the quota be met within two hours Clanton and Chilton County will be given national recognition by the American Red Cross and pictures of the workers who accomplished the fete will be published along with a detailed report as to how the job was done. Now we believe it is a challenge to all the workers in this years drive to see if they can bring this honor to their home county and their local Chapter of the American Red Cross.

Here's a nice letter from an old friend of Chilton County News that we received today: "Editor Chilton County News, Sir: I over looked the fact that my subscription was several weeks past.

"Attached is renewal fee and I appreciate very much your kindness of sending my paper right on. I was born at Cooper and raised about six miles back of the depot. Went to school at Pleasant Grove church for five days in my sister's place, account of she was sick and I plowed and picked cotton the rest of the time.

"Therefore I like to hear from my kin and childhood friends through your nice newsy paper. Thanks again, David L. Thomas, Chattanooga, Tenn.

The story goes that Texas has more rivers and less water than any state in the Union and perhaps this conversation will prove it:

Cattle Buyer: "Got any more stock on the range you want to sell?"

Rancher: "Not 'til next fall, Hank."

Buyer: "Well, then, what's that cloud of dust coming down that canyon?"

Rancher: "That's nothing but a school of fish coming upstream."

Jemison Defeats Selma, 45-43

The Jemison High School basketeers banged away at Parrish High from Selma last Tuesday night and came up with a 45-43 victory. It was a well-played game with numerous outbursts of lively action. Jemison held a 9 point lead with five minutes to go in the final quarter, and suddenly became careless with bald-handing and Selma turned loose a volley of pressure that whittled this margin to 2 points before the final bell.

This win gave Jemison a season record of 10 wins against 9 losses. Their final game this season will be against Chilton County high at Clanton tomorrow night (Friday) Feb. 26.

Clanton gave Jemison a 65 to 44 trimming on Jan. 26, so the JHS boys still remember it.

Jemison goes to the District Tourney at Selma next week, where they meet Catholic High (Montgomery) in their first game.

Five From Chilton Attend Rally Of Young Democrats

By VERNON P. PAYNE

Speaking before a crowd of 1,000 Democrats at the Tutwiler Hotel in Birmingham last Saturday night Alben Barkley, former vice-president of the United States, blasted the Republican regime for its mistreatment of the farmers.

The 76 year old "Mr. Democrat" spoke on the history of the Democratic Party and its ideals before turning to the shortcomings of the present GOP administration. He specifically pointed out that he was proud to be a Democrat not because of the name of the party, but for the high ideals and principles that the party uses as a standard.

In his attack on the present administration Barkley cited the instability of the country's economic system today, brought on by an attempt to disrupt the forward-thinking policies set up for the good of the people during the past twenty years of progressive Democratic government.

Among the many shortcomings of Republican rule pointed out by Barkley was the fact that after promising American farmers that he would raise their standards, Agriculture Secretary Ezra Taft Benson has lowered them to a perilous degree. Also he cited the lack of qualifications of our present Justice of the Supreme Court, Earl Warren, appointed by President Eisenhower. Charles Wilson, Secretary of Defense, was blasted on his partiality towards his own private responsibilities instead of those he has towards the people of this nation.

Before Mr. Barkley was introduced Mr. James J. Mayfield, prominent Tuscaloosa attorney, introduced the guests at the dinner as well as the numerous candidates for the offices of Governor and Senator.

All of the gubernatorial candidates were present with the exception of Jimmie Faulkner, who, earlier in the week had expressed his opinion that the fund-raising dinner was being put on for the benefit of one candidate.

Mr. Frank Long, State Chairman of the League of Young Democrats, requested of Faulkner that he either produce proof of this accusation of make public apology to the League and drop out of the Governor's race.

Large ovations were given upon the entrance of former Governor and Mrs. James E. Folsom as well as Lt. Gv. and Mrs. James B. Allen.

Attending the dinner from Chilton County were E. A. Fulmer, Lewis Headley, Guy McKee, Francis Speaks and Vernon Payne.

AIR CONDITIONED AUTOMOBILES

The air-conditioned automobile, the newest comfort advance in the auto industry will be on display at Chrysler Corporation's "New World's in Motion" exhibit. The show opens February 27 in the Agriculture Building, Alabama State Fair Grounds, Bessemer Road Birmingham.

A Chrysler Imperial equipped with an Airtemp air-conditioning unit will be displayed along with a cutaway exhibit showing how air-conditioning in an automobile operates.

Air-conditioning in an automobile is a result of thirteen years of research. The system on display at "New Worlds in Motion" gives the fastest cool-down time of any air-conditioning unit yet developed for automobile use.

For example, a car equipped with Chrysler air-conditioning parked outside with the temperature in the sun over 100 degrees, has an inside temperature of 115 degrees after ten minutes with the windows closed. After moving one block, the temperature was reduced to less than 100 degrees; in two blocks, it was 82 degrees; and after four blocks, a comfortable 75 degrees.

The unit provides not only cool and dehumidified air inside the car, but also draws 25 per cent fresh air from outside into the cooling system preventing staleness. The high capacity system has a cooling ability equivalent to melting up to three tons of ice per day. This is far greater than the capacity of window-type air-conditioning used in homes.

The air-conditioned automobile is one of the more than 100 displays in Chrysler Corporation's "New Worlds in Motion" show.

Joe Campbell Named Among Top Salesmen

Joe S. Campbell, of Clanton, was the seventh leading producer of accident and sickness insurance among the more than 3,200 field representatives of The Mutual Life Insurance Company of New York throughout the country for the entire year of 1953, it was announced today by Fred Hardy, manager of the Montgomery agency.

PORK CUTS MUST BE COOKED THOROUGHLY

Auburn Ala. — This week homemakers got some tips on cooking pork from Mary Hulsey, API Extension nutrionist.

"Insert a meat thermometer at the center of fresh pork and cook until the temperature reaches 185 degrees F. If you do not have a thermometer, make small trial cuts next to the bone. When adequately cooked, fresh pork loses its pink color and turns grayish white.

"Broiling is safe for cured, smoked cuts such as bacon, ham and Canadian bacon. It is not advised for fresh pork, except in the case of thin slices that are carefully exposed to heat long enough for thorough cooking.

"Ready-to-eat sausages are safe to eat without cooking if marked with the round purple U. S. inspection stamp.

Red Cross Kick-Off To Be Held Tuesday

The Chilton County Chapter of the American Red Cross will hold their Kick-off meeting next Tuesday morning at the Dixie Cafe. Judge M. D. Tingle, chairman, urges all chairmen, sub-chairmen and workers to be on hand to receive their instructions and the necessary material to work with.

At the last meeting held Tuesday of this week Dr. F. M. Cook, president of Snead Junior College at Boaz, and Vice Chairman Fund Drive of the National Chapter of the American Red Cross spoke to a group of County Residential Chairmen.

On Tuesday night of this week County Chairman M. D. Tingle, Mrs. E. N. Esco, Executive Secretary of the local Chapter and Mrs. Chester Mims, Co-Chairman, attended a meeting of the Colored Division at the Chilton County Training School. Even though it rained steadily throughout the night a lively meeting is reported and a goodly crowd was there.

On next Tuesday at 8:30 a.m. when the drive officially starts the local chairmen are urging the workers to complete their appointed territories in the shortest possible time. At this meeting Rev. L. D. Brookshire, pastor of the Liberty Hill Baptist Church will be the principal speaker.

Concerters Present Final Program Of Season

The Chilton County Community Concert Association brought to a brilliant close its concert series of the 1953-54 season with the presentation of the versatile pianist, Theodore Lettvin. From the start his generous program was enthusiastically received.

Mr. Lettvin is undoubtedly one of the most unique personalities before the musical public today. He is an exponent of piano technique. His individual and commanding style seem to possess the rare quality of complete self-absorption, with music alone existing.

His fine balance of extraordinary range of expression, the fluent singing tones, and his mastery of the keyboard were well displayed in his rendition of Chopin's "Polonaise in A major" running the gamut of every possible piano-forte effect of the vast major chords of the Polonaise.

A splendid audience filled the high school auditorium and manifested a deep appreciation of the program rendered by this young American pianist.

Mt. Lettvin gratified his listeners with generous brilliant encore response. He was brought back again with resounding applause.

The Community Concert patrons and the general public as well are highly pleased with the outstanding artists presented this season. The most critical would have paid tributes of esteem and regard to them. Hundreds of music lovers have attended concerts where artists of real stature were presented.

Catholic Young People Present Bible Program

On the opening Sunday of Bible week, Septuagesima Sunday, after Mass the young people of the chapel of the Resurrection, Clanton, gave the following program:

Address of welcome, Susan Scott.

Bible week, sponsored by the Confraternity of Christian Doctrine, Indulgences granted for reading the Bible, C. C. Craig.

The Bible and the Marian Year, the Psalms link the two Testaments, Carol Ann Scott.

The Inspired word of God, Barbara Jeanne Scott.

Who was authorized to assemble the books of the Bible, and why? Susan Scott.

Number of Books in the whole Bible? Cecelia Craig.

Whose testimony bespeaks the truth of the Old Testament? Michael McKee.

Who guarded these books of the Old Testament? Charles Craig.

The Chosen people of God; our debt to them. Edward Morris.

The Old Testament leads up to Christ's coming as Savior. Books of the New Testament, Joseph Morris.

Books of the old Testament. The Psalms; prayers of the Boy Jesus, taught by His Blessed Mother. Carol Ann Scott.

Quotations from the Psalms; prayers of the youthful Christ. Entire Class.

The program was dedicated to Harold Gene Parr, former president of the class. Mr. Parr is now in the service of his country. He was one chosen from a class of forty to attend Leadership School.

On a former visit to Clanton he addressed the class on Christian leadership, stressing these two points: our privilege to worship God, our responsibility to serve Him.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. A. F. Hughes of Sea Cliff, New York announce the engagement of their daughter, Sally Ann, to Mr. Robert E. Lee, son of Mr. and Mrs. H. W. Lee of Verbena, Alabama.

Miss Hughes is a graduate of Sea Cliff High School and is now a student at St. Luke's Hospital School of nursing in New York City. Mr. Lee is a graduate of Verbena High School and is now serving with the United States Air Force at Donaldson Air Force Base, Greenville, South Carolina.

Clanton Tigers Beat Selma, 56-52

Selma was victim number sixteen to be defeated by the Clanton Tiger five last Friday night in Selma. The Tigers came from behind to win this thriller after trailing at the end of the first quarter by the score of 20 to 4. Clanton shifted into a combination zone and man-to-man defense the second half. Bobby Easterling and Bryce Thornton controlled the backboards the second half.

The Tiger Cubs beat the Selma "B" team in an overtime period, 50 to 45. The score was tied at the end of the game, 45-45. Jimmy Oaks was the star of the Cubs as he played his best game of the year and made 20 points. Obra Wilson also played as outstanding game for the winners. Friday, with 20 points, was high scorer for Selma.

Richard Easterling and Bryce Thornton led the scoring for the Tiger varsity team with 14 points each, followed by Edmund Littlejohn with 11. Larry Minor played his best game of the year scored 9 points. Hudson, lanky Selma center, was high point man of the game with 16 points.

Clanton plays Jemison here at Clanton Friday night in the last game of the season before the district tournament. Clanton plays Isabella Thursday at 3:30, March 4th, in Selma in the third district tournament. Clanton was seeded number three in the tournament.

Fox Hunters To Meet March 7th

The Board of Directors of the Chilton County Fox Hunters Association will hold a meeting to discuss some important business on March 7, 1954, at 3:00 o'clock p.m. The meeting will be held at the Willingham Hotel, Gresham Smith Sec. Treas.

World Day Of Prayer To Be Observed

The World Day of Prayer will be observed Friday March 5, at the Clanton Presbyterian Church at 2 o'clock.

Sarah Chakko of India has been invited by the National World Day of Prayer Committee to write the 1954 service. In the service, Christians as individuals witness to their belief that prayer is a world power for good; as a group, they unite to strengthen this power for good in the world.

The offering which is used for interdenominational Christian missions at home and abroad is divided. Under the division of home missions, the fields to benefit will be the American Indians, low income farming communities and migrants.

For foreign missions, Christian literature and literacy material will be sent women and children in India, Burma, Japan, Egypt and Latin America. Service will be given to approximately 30,000 foreign students in the United States by the Committee on Friendly Relations among Foreign Students. Education will be given Christian Leaders in interdenominational Christian Colleges in the Orient.

World Day of Prayer was observed in 1953 in more than 19,000 communities in the United States and in 18 other countries around the world. Services begin on Tonga Islands where day first dawns and where Queen Salote will lead her devout subjects in prayer.

City Law Report

A total of nine arrests were made this week by the City Police Officers. Two were for driving without a license; 1 for reckless driving; 3 for highway drunkeness; 2 public drunkeness and one for driving while intoxicated.

THE concentrated labor lobbying on Capitol Hill points up the fact that labor leaders are going all out to achieve the three broad goals they have established to keep unions strong. These goals: Continuation of an expanding economy; election of labor's "friends" to Congress; and building a more unified labor movement. Specifically, unionists say they are fighting "hard money" and other "controlled recession" policies; fighting to keep the Taft-Hartley measure from being more restrictive on labor; seeking to obtain an increase in the minimum wage; and working to promote eventual CIO-AFL merger. These were the goals they announced before Congress convened for the present term. Observers of the Washington scene can see the progress that is being made.

What has been done in the CIO and apparently to a somewhat lesser extent in AFL, is the improvement of the "communications line" between individual membership and national headquarters, with the resultant placement of greater responsibility for lobbying and political action in the hands of local members.

The CIO trimmed down its regional offices from 50 to 13, an indication of the end-result of this streamlining process. CIO executive vice president John Riffe is urging local unions, as well as city and state councils, to take the initiative in spotting key legislative issues and following through with lobbying campaigns. The CIO also revamped its lobby unit, now headed by Robert Oliver, former head of the Office of Labor Advertisers for the Mutual Security Administration, aided by Hyman H. Bookbinder, formerly assistant director of research for Amalgamated Clothing Workers, and ex-Rep. Thomas H. Burke (Ohio, 1949-50)—who should not be confused with Sen Thomas A. Burke (D-Ohio).

Burke's job is to coordinate the lobbying activities of the various activities of the various international unions of the CIO. Most of the larger ones are represented on CIO'S national legislative committee. Bookbinder, as chief of Congressional research, is developing master files on every Congressman and district.

The streamlining includes installation of teletype machines in each regional office, for more rapid communication. According to Oliver the CIO is out "to catch each issue more rapidly and fight it out before it leaves committee."

The AFL hopes to achieve more effective coordination [illegible] islation and political [illegible] ties by increasing the [illegible] of local meetings at which leaders are urged to take more initiative in drumming up local support on vital issues.

AFL's national legislative committee consists of W. C. Hushing, an ex-pattern maker. George D. Riley, long-time AFL official Walter J. Mason and ex-Rep. Andrew J. Biemiller (D-Wis.) who joined AFL last year.

Jaycees Submit Proposal To City Council

At the regular meeting of the City Council last Tuesday night, Feb. 23, the Clanton Jaycees submitted their plan for the establishing of a local Park and Recreation Board.

Harold Foshee, chairman of the Junior Chamber of Commerce Committee on Recreation, briefly spoke to the Council on the advantages offered to the City by the organizing of such a board. Mr. Foshee also submitted a file containing the proposed outline as well as the resolutions of several other civic clubs in favor of the program.

The proposed Board would be composed of five citizens especially interested in recreation and would be responsible to the City Council for the supervision of recreation at the local park.

The council has offered to meet again with the Jaycee Recreation Committee after it has had the opportunity to study the proposal. This meeting will be for the purpose of further discussion of the program.

Singing At Mt. Pleasant

There will be a singing at Mt. Pleasant Church on Friday night, Feb. 26 at 7 o'clock. Chairman J. Minor urges all who can to come and enjoy themselves.

SOIL CONSERVATION NEWS

To boost soil and water soil conservation, by discouraging uncontrolled forest fires, the Clanton Drive-In Theatre has been running a short trailer film to encourage people to take advantage of their natural resources.

Jim Oliver of Birmingham, Ala., is very enthusiastic aout getting his recently purchased farm sodded down. This year a study of the land the crops wanted will be the main job; however, a nursery patch of Coastal Bermuda will be planted to expand from later on.

Charlie Cox has started turning forty acres of land to be seeded this spring to Pensacola Bahia Grass and overseeded this fall with Reseeding Crimson Clover.

Earl O'Neal is in the process of draining fifteen or more acres of flat land for grazing and small grain production.

Take advantage of the dry weather to prepare land for Sericea, Kudzu, Bahia Bermuda and Bicolor Lespedeza.

Every farmer in Chilton County interested in growing a winter legume that can be turned early and followed with early truck crops, should see the "Chilton White Lupine" which is new at the Experiment Station in the Collins Chapel Community.

This week Joe Jackson and Mrs. Myrtle Wilson are planting sixty-odd acres to slash pines.

KIWANIS

What They Are Doing

"We Build"

Gabby Tiffin led a discussion this week relating to the Little League Baseball team of Clanton. Much enthusiasm was shown at the last meeting to be held by the Little League sponsors last Fall and the largest group of Clanton business men ever to gather in their behalf met at the City Hall and made plans for the team this year.

Another important discussion at this open meeting at the Kiwanis Club was in regards to the Junior Chamber of Commerce plan to get the City Council to name a Park and Recreation Board. The Club adopted a resolution in favor of the movement.

In regards to the Park & Recreation Board movement the Club pledged themselves to provide lighting facilities for the tennis courts to aid in the improvement program.

In keeping with the Club motto 'We Build' the membership is ready and willing, as always to help in any worthwhile undertaking. The improvements discussed by the Club membership were no exception and all are ready to get behind the movement to promote adequate playgrounds and playground supervision for the children of Clanton.

MIRACLE ON MAIN STREET

I walk through the streets of my home city, and see a miracle. And my home city is like other cities in America. Church spires of many denominations are etched against the sky. I pass Presbyterian, Methodist, Christian Science, Quaker, Catholic, Lutheran, Episcopalian, Unitarian, Mormon, Baptist, Assembly of God tabernacles and Jewish synagogues. All these and many more religious groups are represented within the confines of one small urban area; their members live and worship side by side as friends should.

At Washington, where our government functions, the great National Cathedral begun by Episcopalians forty-five years ago and not yet finished, has become a shrine for all Americans. It's magnificent sacrificial window was dedicated in September of this year as a war memorial. Within its close a great president, Woodrow Wilson, lies buried. Many denominations contribute to its building fund.

Not far away stands the recently completed Mohammedan Mosque, where faithful followers of Allah answer the daily call to prayer. Our Washington monument, our Capitol Dome, protect these worshippers. They are symbols which testify to our beliefs that all people have a right to adore the God of their choice, in whatever way they wish.

Is this not a miracle, my friends? For it proves that full religious freedom is possible in time for all men.

Medieval imagination simply could not comprehend the bounds of understanding which we have achieved, of worship to others. You are privileged to live in a country where churches with different views stand in the same city block. Their pastors and members work together in scores of civic and world causes. This fact alone is worth all of the worldly wealth we possess. It's a fact we can take pride in this Brotherhood Week.

SUMMERFIELD AND COLORED STAMPS

Postmaster General ArtKur A. Summerfield thinks that U. S. stamps may be behind the time. The idea is, according to the Postmaster General, to get more color into the stamps, in an effort to make them more attractive and colorful.

Blocking progress in this direction has been the fact that the Bureau of Printing and Engraving produces stamps by the hand-engraving process. This limits the number of colors which can be used. This method has been in use by the Bureau since 1847.

Summerfield notes that many European countries are using a photoengraving process to produce their stamps and that these stamps are highly colorful. He has asked the Bureau to look into the possibility of using this method.

We are not sure why stamps should be more colorful, or whether any benefit would derive from such a change. However, if it is found that photograving will produce more colorful stamps, and this system is put into operation, we suggest the same change in the coloring of paper money.

Report from Washington

ARMISTEAD SELDEN

Congressman, Sixth District

Although the only legislation passed by the House last week was the Treasury and Post Office Departments Appropriation bill, the week itself was a very busy one.

Monday included two appearances before the Federal Power Commission in behalf of a number of Sixth District communities, as well as a dinner meeting with representatives of the Alabama Farm Bureau Federation. My appearances before the F. P. C. were made to protect a gas company's request for increased rates and to urge approval of Mapiesville's application for a larger allocation of natural gas.

On Tuesday morning I attended a meeting of the Veterans Affairs Committee where the Committee members heard Wayne E. Richards, National Commander of the Veterans of Foreign Wars, present his organization's legislative program. The House met most of Tuesday afternoon, and that evening I went with other members of the Alabama Delegation to the Annual VFW Dinner for Members of Congress. On this occasion General Mark Clark was presented with the VFW's Annual Omar Bradley Gold Medal Award for distinguished service in the field of national security.

Another Committee meeting started my day on Wednesday. Following it, I joined other Alabama Congressmen at the Pentagon to discuss with Secretary of the Army Stevens the possibility of future uses for Camp Rucker which is scheduled to close in June. A session of the House occupied the remainder of the day.

At noon Thursday I had the pleasure of meeting with a group of Business and Professional Women's Club members who were in Washington to attend the White House Conference of Highway Safety. Our District was ably represented by Mrs. Ann Lovelady of Tuscaloosa. That afternoon the House met and passed the appropriation bill for the Treasury and Post Office Departments for fiscal 1955. The House-approved measure includes funds in the amount of $3,333,241,000 to finance these two departments.

Friday morning I appeared before the Civil Functions Subcommittee of the House Appropriations Committee to urge an appropriation of $2 million for construction of the Warrior Lock and Dam. Immediately following this appearance, I met with a number of Alabama School Administrators to discuss with them the Alabama Education Association's legislative program. The Sixth District was represented in this group by Dr. Kermit Johnson, Superintendent of the Tuscaloosa County Schools.

In addition to committee meetings, House sessions, and meeting with representatives of various organizations, it is always necessary to devote a part of each day (or night) to studying a variety of proposed legislation and to answering mail.

Pentagon Larger Than Empire State

While I was at the Pentagon last week, I made some inquiries about this famous structure. The information I obtained was so interesting, I thought I would include some of it in this week's column. As you know, the Pentagon is the nerve center of our defense operations. At its peak during World War II, it housed nearly 33,000 workers—the average working population of a city of 100,000.

I was particularly impressed to learn that the Pentagon is three times the size of the Empire State Building and 1 1-2 times the size of Chicago's enormous Merchandise Mart. Overlooking the Potomac River, the gigantic building covers 34 acres. It is comprised of five floors, two basements, five concentric rings and 17 1-2 miles of corridors. The structure contains ten spoke-like main corridors and five pie-shaped sections. I think perhaps the best way to emphasize its enormous size is to point out that the National Capitol would fit into any one of the building's five pie-shaped sections.

In the Pentagon one finds a variety of facilities that give the building the appearance of a regular city. There are round-the-clock feeding facilities, complete banking service, medical and dental clinics, post office, credit union office, barber shop, newsstand, drug store, flower shop, department store, uniform and tailoring shop, shoe repair shop, jewelry store, dry cleaning and laundry shop, book store, railway and airline ticket service, and pastry shop. In fact, the Pentagon has everything in the way of "downtown" facilities except for a theatre and grocery store.

There are a number of dining rooms, cafeterias and snack bars in the Pentagon which serve an average of 18,000 meals and 32,000 short orders daily. This is believed to be the largest single food serving operation in the entire world. Pentagon workers consume an average of 30,000 cups of coffee per day, in addition to over 7500 pints of milk and more than 4000 soft drinks. The food operations are self-supporting, and there is no food cost borne by the government. There are two other almost unbelievable facts about the Pentagon which should be mentioned. It contains more than 28,600 miles of telephone wires, and 10 tons of baled waste paper are collected every 24 hours in the building. This scrap paper is sold for about $75,000 yearly.

After visiting the Pentagon, one immediately wonders about the cost of such a structure. It was interesting to learn that its cost was only slightly more than half the cost of a first class battleship.

EXERCISE CARE WHEN WASHING GLASSWARE

When washing glassware, be sure to warm cold glasses gradually before plunging them into hot water, warns Stela Mitchell, API Extension home management specialist.

Rinse the mquickly in cool water and then in warm water. Then put them on a rubber mat or turkish glasses in clear hot water, and drain them o na rubber mat or turkish towel to avoid chipped rims.

Remember, concludes Miss Mitchell, a rubber mat or a cloth in the bottom of the sink or dishpan protects glasses against chips and cracks.

If two glass tumblers stick together, set the bottom one in warm water and pour cold water into the top one.

Things we -SEE- and Hear

What with all the James' and Jimmys', running in the race for Governor this term no matter who your boy might be, you stand a good chance of coming out on top if you vote for a Jim.

It's always difficult to admit that your job isn't any harder than the next fellas isn't it? 'Specially when he's talking about how hard his job is.

Seems like the delegation of Young Democrats from Clanton had a pretty good time of it at their meeting in Birmingham last week. They all had some tales to tell us when they returned and from what I gathered it was a pretty successful night. Only one thing puzzles me; after paying so much for a meal you'd thing at least one of them would have mentioned what they ate. They either had a mighty good floor show or some mighty good speakers one.

You heard the fella say that if you were a pedestrian these days, the most you could hope for was for them to hit yo ueasy. This guy could have gone a little further and included Sunday drivers also. Drivers are even getting so they don't just bawl out each other they seem to have developed a resentment for safety signs. Can't go on a trip nowadays without seeing two or three sign posts knocked down. You'd thing they were aiming at them.

Haven't heard from the other fellas yet, but we do know what "Big Jim's" slogan seems to be around here. It's "Ya'll Come" and it seems to be spreading like wildfire throughout the state. We're pretty sure that the "Ya'll" means everybody and the "Come" means hear him speak and then come to the polls.

We haven't yet had a chance to congratulate John Schmith on the honor he received as valedictorian of his class at CCHS this year. John's outstanding record in high schoo., we believe, made him winner unchallenged. John will agree that it was hard work what done it and not horsin' around. I know, because I used to play with John a long time ago and while he was working hard-I'm afraid I was horsin' around. Anyhow, he came through six tough years with nothing but "A's" and that's pretty hard to top. Most of us do well just to come through six tough years, period. Congratulations again, John, we horses think you deserve it; and so do the other folks.

The policemen in this town hate me. I was just the other day bragging on their efficient ways of handling traffic on the streets and darned if they didn't come along and take some of the signs down. In case you folks got any idea from this column that you could turn right on a red light on the highway and that you didn't pay any attention to signs some time, well it must have been some other tom tool writer because I don't know nothin', can't drive a car and I'm color blind besides.

Heard of rabbits multiplying fast, but here's the fastest one I ever came across. This fella was making a trip of about 60 miles and decided to take one of his rabbits to his new location. He put the varmint in the trunk of his car and when they got there they had six more non-paying passengers. This was no ordinary trunk, boy.

We've gotten wind through the many sails that Larry Minor has received some sort of schooling scholarship in the Navy. Our unofficial informer said that Larry was picked out of a good number of others because of outstanding qualities. Like I said this is unofficial and when we find anything definite we'll be sure and correct ourselves if we're wrong.

ACROSS the DESK

ideas from other editors

From the Webster Times, Webster, Massachusetts: Federal and state authorities appear to have manufactured a problem for themselves. Their proposals favoring voting privileges for 18-year-olds, have been both cited and condemned. The consensus of opinion seems that, while 18-year-olds are mature enough to fight our wars, they are deficient in the necessary information to judge the good and bad of political issues.

There may be sufficient reason to label the proposed legislation as being too progressive. But what of the 18-year-old, what are his qualifications to vote? In Webster, at least, he (or she) is a recent high school graduate, has a better than average IQ, and has successfully passed Civics and U S History courses, mandatory by law.

Throughout his Junior and Senior High School years, he has been familiarized with the mechanics of government by such functions as the Junior and Senior Student Councils, and choice class of officers. He has actively participated in the election of class or club officers and has profited from the many kinds of help which are continually proferred to secondary school students.

On the opposite side of the ledger are many sound reasons for maintaining the current age minimum of 21. Proponents of the proposed legislation cite advanced teaching methods as providing youngsters with the basic requirements for good citizenship. Opponents, who concede the advantages of education, are quick to point out the necessity of maturing judgement, a requisite in the selection of office holders.

From observation it appears as though the 18-year-olds are only mildly interested in the political sphere. With, of course, some exceptions. There are commendable points to be considered for both arguments. Eighteen-year-olds, although ineligible to cast their ballot, should foster an interest in politics, preparing themselves for the time when voting and its responsibilities are conferred upon them.

From The Banner Press, David City, Nebraska: Have you heard about the newspaper editor who retired with $600,000 in the bank? Word of the bankroll got around and he was invited to speak before a high school journalism group where he explained his wealth this way. "I worked six days a week, from 12 to 14 hours a day, for over 30 years and saved every cent I earned. Then my uncle died and left me $499,500."

MAPLESVILLE NEWS

(MRS. KATHRYN GOFF)

Mr. and Mrs. Ed Clapp, Mr. and Mrs. Eugene Hathcock and Mr. and Mrs. George Gillespie attended the Recognition Ceremonies Honoring Volunteer Workers of the Veterans Administration Hospital last Wednesday night at 8:00 o' clock at the Veterans Hospital in Montgomery. Maplesville V. F. W. Ladies Auxiliary Post no. 6331 won a special award for putting on one of the most outstanding entertainments for the patients during the year 1953. The Volunteer Service Award Ceremony was very impressive followed with a reception. From a patient in ward C-1; "Because of you Volunteers, our lives as patients are made brighter. The value of many contributions to our welfare cannot be over estimated. This is no stilted "thank you", but a hearty message of appreciation from your many friends." These volunteer workers and entertainments that the various organizations over the state carry to the Veterans Hospital brings a little sunshine and a few things of the world outside to our boys who are the patients.

The Sr. III Class play was beautifully presented last Saturday with a nice crowd attending. The three act comedy "Nearly Beloved" was quite a hit under the leadership of the class sponsor, Mrs. Frances H. Camp. The students that played the various parts were Elizabeth Dennis, Thomas Chapman, Mabel Motley, Marjorie McAfee, Sherwood Grover, Billy Stough, Barbara Sewell, Bobby Latham, Mc Elaine Sealey, Frances Walker, Hugh Stewart, Mary Charles Rush, Hattie Ruth Rush.

Mrs. J J. Mathis entertained with birthday supper at her home last Friday night honoring her husband Mr. Mathis on his 62nd birthday. Those enjoying this bountiful meal and the wonderful singing after the supper were: Mr. and Mrs. Claud Averett of Centreville, Mr. Vanley Pridy of Selma, Mrs. Hershel Graham of Stanton, Mrs. Howard Atcheson, Mr. and Mrs. George Gillespie, Buddy Goff, Mr. and Mrs. Joe D. McGee and Sheida, Mrs. J. W. Gwin, Charles Graham, Dorothy Mathis, grandchildren: Joyce, Bobbie, Kyle, Jerry and Linda. Everyone left wishing Mr. Mathis many more Happy Birthdays.

Mayor V. B. McCain returned home from his Washington trip last week where he and Congressman Armistead Seldon appeared before the Federal Power Commission to urge an approval for the gas for Maplesville town. We have but so far nothing definite. The Congressman really went to bat for Maplesville and the other communities along what will be our gas line.

As I stated last week that Mrs. McCain went with Mr. McCain, this was a mistake, she spent that time in Montgomery with her son, Mr. V. B. McCain, Jr. and family.

Sorry to report that Mrs. A. T. Dawson is confined to the Baptist Hospital in Selma with Phlebitis. Hope she will soon be well and back home.

Miss Frances Reynolds spent a few days in a Selma hospital last week, but at this time she is at home and back on her job with Graham Lumber Company.

Rev. W. F. Rasberry spent a few days this week in a Selma hospital for a check up on his general health. We hope he will be much improved after his treatments

Mrs. Fred Burgess of Vredenburgh spent a few days last week with Mr. and Mrs. E. N. Shanks.

Mr. Lowell Grey of Birmingham spent last week end with his parents Mr. and Mrs. W. C. Grey.

Mr. and Mrs. Charles Baugh of Moss Point, Mississippi spent last week end with Mr. and Mrs. Geo. Gillespie.

Mrs. Joe W. Graham made several trips to Selma last week visiting the sick and shopping.

Mrs. Hyman Atcheson of Coopers visited relatives in town Monday of last week.

Mrs. Annie L. Potts went to Birmingham last Thursday and returned home Saturday. The doctor took the cast off of her arm this trip. We hope it will soon be as good as new.

Mrs. George Gillespie, Mrs. Evie Cochran and Mrs. Maude Clements attended the funeral of Mr. D. L. Waldrop at Macedonia last Wednesday afternoon. We extend our sympathy to the loved ones.

Mr. J. P. Rainwater of the Independence community suffered an accident here last week when the paper wood loader that he was standing on rared up into the air he was thrown off on his head. At this writing, I understand that he remains unconscious in a Selma Hospital. The ambulance was called immediately after Dr. Kincaid gave immediate aid. Mr. Robert Gay of Plantersville accompanied him to Selma.

Mr and Mrs. Ed Goss of Birmingham spent Wednesday of last week with Mrs. Annie L. Potts.

Mr. and Mrs. Agee Harrison of Montgomery spent a few days last week with Mr. and Mrs. C.C. Bates.

Mrs. Necie Ratliff of Thorsby visited old friends in town Tuesday of last week.

Rev. Jack B. Cooper of Louisville, Ky. and Rev. J. F. Andrews of Kalamazoo, Mich. spent last Monday night with Mrs. Evie Cochran and Mrs. Maude Clements. They had supper with Mr. and Mrs. George Gillespie. They were en route to Florida. They visited with Mr. and Mrs. J. W. Gwin for a while Tuesday morning before leaving.

Mr. George Brown of Birmingham and Mr. Rash Brown of Montgomery spent last week end with Mr. and Mrs. F. H. Brown.

Mrs. Odie Smitherman and Pat, Mrs. George Gillespie visited Mr. Odie Smitherman in the Veterans Hospital in Montgomery Monday of this week, at this time he is not doing so well.

Mr. and Mrs. Henry B. Smitherman announces the arrival of a new son, Jack, born Feb. 12, 1954 in a Bessemer hospital. We wish to congratulate them. Mrs. Smitherman has been quite sick but at this time we are glad to hear that she has improved some.

COOL CAR IN SHOW

This artist's rendition outlines the Chrysler Airtemp automobile air-conditioning unit mounted in a four-door sedan. Principal assemblies in the system are (1) two heat-dissipating condensers mounted in the front of the car; (2) four cylinder, V-type belt-driven compressor mounted on the right of the engine under the hood; (3) Freon receiving tank; (4) evaporator located in the trunk under the rear shelf. Actual cooling of the car is performed in the evaporator. The evaporator assembly also contains the blower which circulates cool air into the passenger compartment from an outlet in the deck behind the rear seat. The operation of the Chrysler Airtemp car cooler is similar to the household refrigerator. The air conditioned automobile will be on display at Chrysler Corporation's "New Worlds in Motion" show. The show opens February 27 in the Agriculture Building, Alabama State Fair Grounds, Bessemer Road, Birmingham, and will be open daily through March 7.

JAMES ROBERT FRYER

NAMED MISS FHA

Paula Gore

Paula has been active in the following extra curricula activities of Chilton County High School.

She has been a member of FHA three years, including this year. She will receive her State Degree of Future Homemakers of America in June. She was very active in the local Clanton Chapter.

Paula is an outstanding glee club member. Also a runner up in Miss CCHS. She had an important role in the 1953 Jr. play. This school year she was voted the most versatile Sr. girl in Who's Who in the school annual.

For Good Cotton Stand Prepare Seed Bed Early

Auburn, Ala.—Farmers over the state are busy breaking land to get ready for this year's cotton crop.

In urging growers to prepare land early, O. N. Andrews, API Extension cotton specialist reminds them that highest possible yields of quality cotton are essential in 1954 if they are to successfully offset acreage reductions.

"Remember," says Andrews, "it's much easier to get a stand on land prepared early enough for the soil to settle before planting time. A firm seedbed also allows farmers to plant on time. This results in higher yields at no extra cost.

"The soil should be turned six to nine inches deep to completely bury cut stalks, cover crops, and other plant residue. Then it should be disked and smoothed by harrowing or dragging. If rain does not settle the soil, it should be firmed by disking and cultipacking just ahead of planting."

Would you trade a Penny for a Dollar?

● You can if you use Natural Chilean Nitrate of Soda for your top-dressing and side-dressing needs. It costs a little more because it's worth more. But the difference in *cost* usually can be measured in pennies per acre, while the difference in *value* often amounts to dollars per acre.

Chilean "Bulldog" Soda gives you generous extra value. The nitrogen is 100 per cent nitrate. It's 100 per cent available (quick-acting); 100 per cent dependable. The minor elements make crops stronger, healthier. The sodium—26 pounds in every 100-pound sack—is a key to maximum returns on your entire fertilizer investment. It offsets the bad effects of acid-forming fertilizers!...increases the efficiency of mixed fertilizers containing them. It releases "locked-up" potash in the soil...increases the availability and efficiency of soil phosphate...reduces potash, calcium and magnesium losses by leaching...develops larger, deeper root systems.

Sodium builds up the productivity of your land—*more* each year. It's an essential element for some crops...beneficial to most and necessary for maximum yields of many.

Pennies-per-acre difference in *cost* may mean dollars-per-acre difference in *value* to you. Chilean "Bulldog" Soda is the best fertilizer your money can buy. Use it for all of your top-dressing and side-dressing needs.

The new 1954 Chevrolet Bel Air 4-door sedan. With three great series Chevrolet offers the most beautiful choice of models in its field.

New style...New power...New economy...and yet

lowest-priced line in its field!

That's why people are calling the new 1954 Chevrolet the outstanding motor car value of this new year!

Men and women everywhere are deciding that Chevrolet for 1954 gives more for the money than *any* other car in its price range.

Here are the reasons why...

New style—more beauty of line, contour and color—with stunning new Bodies by Fisher and luxurious new modern-mode interiors.

New power—more pickup, more passing ability, more smoothness and quietness of operation with either of Chevrolet's two advanced 1954 engines—the thoroughly proved "Blue-Flame 125" engine teamed with Powerglide (available on all models at extra cost) or the thoroughly proved "Blue-Flame 115" engine!

New economy—yes, even stronger gasoline savings—because both of these great high-compression engines are designed, engineered and built to wring more power from every charge of fuel.

Moreover, these new Chevrolets remain the *lowest-priced line in their field*, again this year.

Come in . . . see and drive the new 1954 Chevrolet . . . and place your order now!

National FFA Week Is Now Being Observed

This week, February 20-27, belongs to a group of farm youths throughout the United States, Hawaii and Pureto Rico. It is "National FFA Week" and will be celebrated by members of the Future Farmers of America across the nation.

Here in Alabama 252 active FFA chapters in local high schools in 66 of the 67 counties will take part in the festivities. Their celebrations will take different forms in the various communities. Some chapters will put on special radio programs, chapel programs, hold banquets and other socials, and many newspapers are cooperating by putting out special editions or special pages saluting the organiaztion.

Born to fill a specific need, FFA has grown from an organization of 30,000 farm boys in 1929 to over 363,000 today. It is recognized as the world's largest farm boy organization.

Though many "agricultural clubs" had been formed since vocational agriculture was first taught in 1917, FFA had its birth in 1928. It was patterned closely after the Future Farmers of Virginia because of their high ideals and purposes.

Taking a closer look at the founding of FFA, we find that the late Henry C. Groseclose left his farm home and spent a miserable freshman year at Washington and Lee University. As an upper classman, he noticed that other students from rural areas had the same trouble getting adjusted with much lack of self-confidence. He began to dream of some way of correcting this situation.

While convalescing from a long illness, he found time on his hospital bed to plan a program for rural youth that would in some way compensate for the guidance and diversified experiences of city boys. Sometimes called the "Father of FFA" he is credited with having named the organization, written the constitution, by-laws, and ritual which was first used by the Future Farmers of Virginia and now by the National organization.

The FFA is an intra-curricular activity having its origin and root in a definite part of the school curriculum - vocational agriculture. Among other things, members learn through active participation, how to conduct and take part in a public meeting; to speak in public; to buy and sell cooperatively; to solve their own problems; finance themselves; and to assume civic responsibility. The foundation upon which the Future Farmers of America organization is built, includes leadership and character development, sportsmanship, cooperation, service, thrift, scholarship, improved agriculture, organized recreation, citizenship and patriotism.

The Future Farmers of America Foundation came into existence in 1944 with the primary purpose of developing a better understanding between students of vocational agriculture and business and industry. One of its eleven original trustees was R. E. Cammack, now director of vocational education in Alabama.

FFA is an integral part of the program of vocational education in agriculture in the public school system. Improved agriculture, better local communities, a more satisfying farm home life, and more efficient farmer-citizens are developing as a result of the boy's experiences in FFA.

AAUW Members Hold "Convention On The Tennessee"

Decatur, Ala. — "Convention on the Tennessee" will be the theme of the Alabama Division of American Association of University Women's 1954 state meeting in Decatur March 19-20.

The delegates to the two-day convention will focus their attention on world affairs, Miss Frances Nungester, state president, from Decatur, said. Mrs. Ralph B. Alspaugh former national vice president of the Northeast Central Region of AAUW from Cincinnati Ohio, will be keynote speaker. Mrs. Alspaugh was the AAUW's official observer to the NATO conference in Copenhagen, Denmark, in September, and then was the guest of the West German government while she studied the German school system for a month. Mrs. Alspaugh will speak on "Our Relationship to Other People in World Affairs" at the Friday night banquet at the Lyons Hotel.

A panel on "World Affairs Are Your Affairs" will be presented Saturday morning with Mrs. William Van Gelder, state first vice president from Birmingham as panel moderator. Mady Weisgerber, of Luxembourg, who holds an international AAUW study grant to do graduate study in international relations at Newcomb College in New Orleans, La., will speak at the Saturday luncheon.

The general session Saturday will include a talk by Miss Henrietta N. Thompson, national vice president, of the Southeast Central Region from Tuscaloosa, and discussions of the AAUW national program.

The meeting will open with registration and an informal tea at the Decatur High School library Friday afternoon. A general session at 4 p.m. will be followed by a board meeting open to all AAU members.

The Saturday morning sessions will also be held at the high school.

A bus tour of Decatur will be conducted after the Saturday luncheon. Delegates remaining in Decatur Saturday night will see the Barter Players present "Two Gentlemen from Verona" at the Decatur High School.

The Decatur Branch of AAUW will be official convention hostess. Mrs. George Slecher is president.

Representatives of Alabama's 23 branches of AAUW will attend.

HERE ARE SOME HINTS FOR MACHINERY BUYERS

Supply and prices look more favorable in 1954 for machinery buyers, says J. T. Gillard, API Extension farm mchanization specialist.

He points out that many companies had new, improved models on the 1953 markets and that dealer stocks are high. Demand is a little lower due to reduced farm incomes and the rapid mechanization of the past few years.

"Make sure new machines will fit the size of your farming operations," Gaillard advises farmers. "And check the price of reconditioned equipment and 1953 models still in stock."

Peanut growers should go all out to produce 1500 pounds or more per acre in 1954; the average yield for the past two years has been about 1000 pounds per acre.

...bing ...blem...

Here's a real problem in climbing. Actually, telephone poles must still be the same height, but today you can buy only about two-fifths of an average size pole for the price of one 15 years ago. So every time we replace an old pole or add a new one we have to spend more than twice as much as in 1939.

This is just one example of what climbing costs have done to the telephone business. The cost of furnishing telephone service has increased more than the price we get for it. And prices of almost all other commodities have gone up much more.

Southern Bell wants telephone service to be as good and as low priced as possible. At the same time we hope you will understand what inflation has done to us. We believe you are willing for us to earn a fair profit.

Plott Offers Record As Platform For Campaign

J. E. (JIM) PLOTT

J. E. (Jim) Plott offered the record he has made in the legislature as his campaign for reelection to that body in the May 4 Democrat Primary. Plott pointed with pride to the conditions now existing in Chilton County as to roads, financial conditions, etc. and again assured the people that if he was returned to the State Legislature as a Representative from Chilton county his first duty would be to the tax payers and not to any special group.

During the past four years Plott stated that Chilton County had increased its unincumbered balance from $99,584.96 to $225,940.54.

Paved roads either constructed or under construction during his term of office are: Montevallo Short Cut, Jemison-Mars Hill, Thorsby Projects, Isabella, Maplesville to Bibb County line, Sardis Church Road, Clanton to Enterprise, Clanton-Kincheon, Clanton-Airport and 28 miles that is programmed for paving and is being paved.

Plott also stated that if reelected he would not change the present form of County government because that under the guidance of the Board of Revenue & Control for the past few years Chilton County had shown more advancement and better government with less waste than had ever been known in the history of the county.

Among the projects that he stands for, and will work for, if given another term Plott says are: An armory with auditorium for Chilton County; a bridge over the Coosa River, a paved road to Columbiana, more help for teachers, schools, and education in Chilton County and Alabama and will remain as always a friend to the Old-Age Pensioners of Alabama and help in every way to make their burdens lighter.

Gresham Smith For Representative

I wish to announce my candidacy for the office of Representative to the lower House, from Chilton County.

I was born in Chilton County. I have lived here most of my life. I now live within one-half mile where my father was born and reared, Mr. J. M. Smith.

I married the former Pearl Grant, daughter of Mr. T. L. Grant, Clanton, Alabama. My wife teaches at Isabella.

We have two daughters, Marjorie, a graduate of Chilton County High school now attending Alabama College. The youngest daughter, Ina Ruth is a student at Chilton County High School

I have owned various businesses. I have studied different courses and subjects. I am a life-time student of economic and distribution of commerce.

My sole ambition is to make Chilton County a better place for the people to live. I will promote unity among all the people, and I believe this can best be accomplished through education.

I will have my platform in the next issues of the papers.

Your vote, support and influence will be greatly appreciated.

My regular signature is N. G. Smith.

Signed: GRESHAM SMITH.

Sam Taub In Race For Tax Assessor

SAM (The Hot-Dog Man) TAUB

I most humbly submit my candidacy in the contest for the office of Tax Assessor. I was born, reared and educated in New York City. Volunteered for service in the Army on April 7, 1917, the day war was declared. Sailed with Gen. John "Black Jack" Pershing's American Expeditionary Force. Spent six months of uninterrupted service in the following battles: Metz, Verdun, North West Verdun, Argonne Forest and Meuse River Sectors. Received Battalion and Regimental Citations. Discharged, honorable, Jan. 22, 1919.

From 1919 to 1924, I was a trader on the New York Curb Exchange, trading through George Leshe & Company.

Became a partner in the famous Gain Stores of New York in 1925. Liquidated my interest in 1934 and become associated with the R. K. O. Theatres in the East.

In 1932 I was married to a lovely native Chilton County girl, Ethel C. Vance, daughter of G. C. and the deceased Pearl Roper Vance. Ethel and I have one child, Richard, 17, who will graduate from Isabella High School this May. Richard looks forward to entering Auburn this Fall. Richard has played four years of football as one of the Isabella "Mustangs."

While with RKO, my family and myself visited Chilton County many times, and in 1947 we decided to build our home on the farm adjoining the place where my wife was born. I am enjoying some of the best years of my life in my present and permanent home, which is in the Fairview Community, one mile West of the Billingsley Highway.

In 1948 and 1949 I made a number of trips to New York, and on the last trip wound up all my affairs that could not be transacted by mail or phone.

In June of 1949, I took over a small cafe in Clanton that had been changing hands periodically. I have been and still am operating "Sam's Place" where I have made many, many friends with the commandment around which I have tried to pattern my philosophy of life, "Do unto othere as you would have others do unto you."

I am a member of the Veterans of Foreign Wars and the American Legion.

I am privileged to be a stockholder in the Chilton County Fruit and Truck Growers Association, and will, in the future, as in the past, continue to support our Co-op.

I have no factions or political "Cliques" behind or back me, so, if, and when elected, will owe allegiance to only you, the individual voter and not to any politians, as such.

I promise nothing but sane, sober, honest and efficient administration.

I will employ only people with ability and humility and will serve you with courtesy, regardless of party affiliations.

I do not favor any wholesale revisions of assessments, and will do all in my power to bring to the attention of the Equalization Board any unjustifiable inequities in your assessments.

I will co-operate to the fullest degree with your Board of Equalization. That is the substance of my promises to all.

I will make an effort to see each and everyone in the County sometime during this campaign. Should I miss any of you, please don't be offended as I still have to take care of my hot-dog, hamburger and coffee customers in Clanton.

As a voter, I favor old-age pensions, higher pay for teachers, price supports for farmers and will encourage and support any group or movement that tends to bring industry to our County.

One thing you can be assured of: If you honor me with the Office of Tax Assessor, my hats will still fit my head, and, you won't have to beat around the bushes to find me.

I trust nothing in the above will be construed as offensive by any of my opponents. I hold them in high regard and wish them the best of luck, short of beating me in this race for Office of Tax Assessor.

SAM (The Hot Dog Man) TAUB of Sam's Place, Clanton, Alabama.

J. S. (Buster) SANDERS

For SUPERINTENDENT Of EDUCATION

Howard Boockholdt

To The Voters Of Chilton County:

In presenting myself to you for re-election to the office of Superintendent of Education, I ask you to consider the following qualifications:

COLLEGE TRAINING:
2 years of elementary education
2 years of secondary education
1 year of graduate study in school administration
5 years total, leading to B. S. & M. S. degrees

EXPERIENCE: 21 years in school work as: bus driver, teacher, principal, transportation supervisor and superintendent. All of this except 2 years has been in Chilton County.

Education in Alabama is facing a very serious situation today. Although I do not promise perfect solutions, I believe my experience can be very helpful in meeting the problems confronting us.

I will make no promise to any individual or group. I will not obligate my self in any way to anyone except to the boys and girls of Chilton County and to do everything for the schools of the county that finances will permit. I will grant absolutely no special favors in order to get votes.

I will conduct my campaign in a manner befitting an educational leader and Christian. I will not indulge in slander, false reports or twisting of facts.

This is a very busy time in our school work. I do not plan to neglect my responsibilities as superintendent. Therefore, I will be unable to canvass the county thoroughly. I want to see as many of you as I can. If I do not get to see you, please understand why and be assured that your vote and influence will be deeply appreciated.

Sincerely,

Howard Boockholdt

Mrs. Chick Moore Martin of Plantersville, Ala., and Mrs. Chick Moore Scarsbrook of Auburn, Ala., recently gave the Eastern Star Chapter of Plantersville, Ala., a musical instrument. Mrs. Martin and Mrs. Scarsbrook are twin daughters of the late Mrs. Eva Moore, Mrs. Moore being a very faithful member of the Planters ville Eastern Star Chapter.

The Eastern Star Chapter in Plantersville, Ala., have been unfor tunate due to the fact that they had to building of their own; the old Masonic Hall having been condemn ed by its owner Dr. T. M. Martin. His chapter had held their meet ings just any place they could with the consent of Grand Chapter until the first part of last year when they began construction of their own building. A lot was purchas ed from Mr. and Mrs. Joe Heth cox; this lot being just across the street from Dr. A. D. Wallace— next door to the home now owned by Mr. Coy Morrow; known by many as the Edd Terry home. Also next door to the Joe Hethcox resi dence. This building is block con structed, 30 x 60 and is an addition to the little town of Plantersville, Ala. During Mrs. Moore's lifetime she had said that she would pre sent the Eastern Star Chapter with their instrument when the dreams of the Chapter of a new building come true. Mrs. Moore passed on May 24, 1954 and the building was started in late February or the early part of March, 1953. The chapter is fortunate at the time in having their new building nearly com pleted. The stoops over the en trance doors and the chapter meets there each 1st and 3rd Tuesday nights is the remaining job to be done. Mrs. Martin and Mrs. Scarsbrook knowing of their moth er's love for the Order of The East ern Star, its members and her plans to give the musical instrument made this presentation to the Chapter. Mrs. Moore was greatly loved and respected by all who knew her; ever faithful to her church and ac tive in all community affairs. She is greatly missed.

The Mission Study Chairman of Unity Association, Mrs. T. H. Hud son taught the book "In Evangeline's Country" to the WMS on Wednesday, February 17. Keep Your Planters In The Best Of Condition

It's almost time to roll out the planting equipment again. And J. T. Gaillard, API Extension farm mechanization specialist, has their maintenance advice for farmers.

Always remove any protective grease before taking the planter into the field. Check operation with seed in the hopper. If the planter is ground driven, jack-up the drive wheel and turn it by hand. If it's driven from the rear wheel of a tractor, jack-up the tractor drive wheel and check the planter.

When not in use, planters should be stored carefully and all bright or land polished surfaces coated with greases or rust preventative.

CATCH MORE FLIES WITH SUGAR, ADVISES RUFFIN

AUBURN, Ala.—Kill flies with sugar and organic phosphate insecticides, advises API Extension Entomologist W. A. Ruffin.

Shaken like salt onto the floors of livestock buildings, mixtures of sugar and either malathin, diazinon, or a dialkyl phosphate material are effective in controlling flies resistant to DDT.

"In U. S. Department of Agriculture tests these three chemicals reduced fly populations in dairy barns and poultry houses by 90 per cent or more within four hours after application," says Ruffin. "And they have relatively low toxicity to livestock and humans.

"Apply the bait at the rate of about three and one-half ounces in each building, using a pint jar fitted with a perforated lid and filled with the sugar-insecticide mixture. Treatments five times a week for three weeks are needed to reduce flis to a minimum in locations where the pests can breed readily."

Our Sunday School is increasing each Sunday but we are still push ing for our goal of two hundred fifty. Won't you be one to help us reach that?

The C. A.'s (Christ Ambassadors) are in a contest for a few weeks. The class is divided into two groups with Mrs. L. C. Ray (Mary Alice) as captain of Group No. 1, and Mrs. Thomas Mims (Bettye Jean) as captain of Group No. 2.

Group No. 1 entertained with a chili supper on Monday night at the home of Mr. and Mrs. William Mims. Group No. 2 will enjoy a hot dog supper on Friday night, Feb. 26 at the home of Mrs. Effie Mae Mims. Please attend these gatherings, share the fun and fellowship and support your group.

The Brotherhood and WMC's, also the young WMC's meet every other Thursday night at 7:00 p.m. at the church. Next meeting, tonight Feb. 25th.

Each of these classes and organizations work toward the upbuilding of our church, both spiritually and financially. Remember, only you can fill your place and do your part.

The pastor and wife, Rev. and Mrs. Troy B. Helms are encouraging the young people to partake in the church services by appointing a young couple to be in charge of prayer service each Tuesday night Your presence means much to the one in charge of the services, so we'll be looking for you each Tuesday night.

There are Sunday School classes for all ages, with some very good material as teachers, so bring the entire family, and help us to reach our goal.

New babies arriving in our community recently are: A girl for Mr. and Mrs. Acie Mims; twins, a boy and girl, for Mr. and Mrs. James Payton. Congratulations and the very best of everything to these new comers and their parents.

Mr. and Mrs. Jim Wilson and small son have returned from a visit with Mr. Wilson's family in West Virginia. His mother came home with them for a short visit, returning to West Virginia on Monday night.

MACEDONIA

The Sunday guests of Mr. Joe and Mr. and Mrs. Jimmie Ward were Rev. and Mrs. Finley and Stevie and twenty-six other guests.

Thorsby Institute News—

Sunday Mrs. Pearl Mims went with her son, Carmon and family to Lay Dam to visit another son, Edwin and family, and had a bountiful dinner. They also visited Mrs. Mims' mother, Mrs. Oda Bates of Lay Dam.

Miss Jean Mims of Mobile called at the dormitory Saturday to see Mrs. Mims and others at the Institute. She was visiting her grandmother in Clanton.

William Edwin Petty of Lay Dam and Barbara Greene, also of Lay Dam, were married Saturday, February 20. This news will be of interest to those who knew Edwin when he was in school at T. I.

The Thorsby Institute basket ball team played the Collins Chapel team in a game at the Collins Chapel school last Friday night, February 19. Collins Chapel won by a score of 51 to 50. That was close. Better luck next time.

We neglected to mention two other games that were played in the last two weeks which T. I. boys won. They played Enterprise February 10 and won by a score of 43 to 38. The T. I. team won over the Thorsby Jr. High School by a score of 24 to 16 on February 17. We think the boys have done a fine job of coaching themselves and winning a good proportion of the games they have played. They are improving fast and we hope they will keep up the good work.

The members of the Helen Keller Literary Society have elected the following new officers to serve for the second semester: President Shirley Petersen; Vice-President, Phillip Robinson; Secretary, Rex Robinson.

School will be closed Monday, March 1 for the annual school spring holiday.

Pfc. Walter W. Culp, husband of Joe Ann Glass Culp arrived in the states last Tuesday Feb. 16, serving 13 months in Germany. He received his discharge Saturday at Ft. Jackson, S. C.

P-TA News—

Aren't you interested in improvement? We are sure all should be and are, especially when this improvement concerns our school children. This improvement at this times comes in our lunch room. Some new equipment has been bought and installed, and a new paint job is underway. It is hoped that all this work will have been completed before the next meeting of our P-TA.

All parents and friends of our Thorsby P-TA are urged to attend this next meeting on next Monday evening, March 1, at 7:00 o'clock. If the plans underway at present work out, the meeting will be held in the lunch room and refreshments will be served. So come on o and see what is being done to improve your school.

REMEMBER, Monday evening, March 1, 7 o'clock, p.m.

The following article taken from a Mobile paper, will be of great interest to the many friends here of Mr. and Mrs. Arnold Soberg and we quote:

"The Daughters of The American Revolution Thursday selected Anna Bess Soberg, 17 year old Murphy High School senior as Mobile County's good citizenship girl for 1953.

She was selected from nominees of five public high schools in the County. The nominations were based on dependability, service, leadership and patriotism. Miss Soberg is the daughter of Mr. and Mrs. Arnold Soberg of Spring Hill, Alabama. She is the editor of the Murphy High School Times, President of Quill and Scroll Society, Secretary of the National Honor Society, President of Troop 15 of Mariner Girl Scouts and a member of Gate City Service organization, Four Arts Dramatic Club and the Junior Speaker's Bureau of the Community Chest. She was a Mobile-Keeosha exchange student and one of four representatives at the 1953 Girl Scout All-State encampment. She expects to attend Alabama Polytechnic Institute at Auburn to prepare for a career as a teacher or a professional Girl Scout leader."

Lutheran Church—

The service next Sunday will be conducted by the Rev. Russell Boggs of Montgomery, Ala. We cordially invite you to attend this service which is held at 3 p.m.

ON THE FRONT PORCH

By F. L. Rowley

"IT LOOKS bad, Johnny."

"What looks bad, Pat? I think we have our parts down pretty well."

The girl on the porch swing looked at her lanky friend through troubled eyes: "I'm not speaking of the parts, you nitwit; it's the tickets I'm worrying about. They're not selling. The show will be a sensational flop unless we peddle some tickets—it's only a week off you know."

"A lot can happen in a week," Johnny said as he brushed a whisp of reddish hair out of his eyes. "Say Pat, how about running through our lines for act two? That one stumps me sometimes."

"All right," said Pat; "I really think you enjoy that scene—you Romeo you!"

Johnny blushed. He was glad the porch was in shadows.

"Are we to stand accused because of some parental sin? 'Twere better to be interred anon than waste by inches—for should we part like this the moon could veer off into space; and I'd not notice it."

'Nor I my love. Yet part we must, for what I've learned this day bodes ill for dreams we've dreamed, precluding even hope. Once more my queen the vibrant benediction of your lips, and then—eternal night."

At this point in the play—and on the porch—Johnny took Pat into his arms. Their embrace was a long one. Mrs. Peters, strolling up the walk, thought it was a dandy. She had to see more; young lovers are so cute. Mrs. Peters found the pine trees in front of the porch just right. Her eyes opened wide as she saw Pat place both hands on Johnny's husky chest and push him away from her as she said:

"My patience pales. If loving craven creatures be my lot then gird me with thy cast-off armor for the fray. I'll hold it high until such time as thou canst raise thy muddled head."

"To fight for me? And knowing full well that my father—is a murderer?"

Mrs. Peters gasped. She'd always thought there was something fishy about John Hodges sr.—but a murderer! The youngsters on the porch were speaking again:

"Does one inherit infamy? I think not!"—Pat had raised her voice now—"My own father has stolen until he knows not which is his or his enemy's. Does this not place me on a plane with thee?"

Mrs. Peters almost choked. Mr Gavin too! And him sitting high and mighty behind his desk at the bank. And stealing from his friends! No wonder these children talked so funny—their parents must have twisted minds. Poor kids! Mrs. Peters scurried away to do her duty.

Johnny and Mr. Gavin were having a heated football discussion some twenty minutes later when they saw three persons coming up the walk: Mrs. Peters, Sheriff Giles, and a thoroughly aroused Mr. Hodges.

"Hi Dad—what's new?" said Johnny.

"What's new?" screamed the usually unruffled Hodges sr. "I'm a murderer, that's what's new!"

"A what?"

"And you're a crook!" said Hodges, looking directly at Mr. Gavin.

"Now see here! Nobody can call Tom Gavin—"

"Take it easy!" Sheriff Giles interrupted. "It seems that Mrs. Peters here overheard your kids talking. They were saying some pretty nasty things—things that can be explained, I hope!"

When the curtain came down to the applause of a full house a week later everyone in the theatre was beaming—everyone, that is, except Mrs. Peters. When Mr. Gavin asked her how she liked it her answer made him grin.

"It was better," she said, "on the front porch."

HELP YOUR CHILD FACE SURGERY

Let us suppose your child has been carefully examined and it has been found that an operation is necessary. Have you given thought to the need for preparing him mentally? Some parents forget; and while the operation is a success from a physical standpoint, inadequate preparation of the youngster may result in some emotional distress.

These emotional scars ot a greater or lesser degree may remain for different lengths of time. They may be indicated by various sorts of disturbances, fears or anxieties, which may last for weeks, months or even throughout childhood into adult life.

It is natural for all of us to be anxious about an operation, but we adults have many reassurances—confidence in the surgeon, familiarity with technical skills and safeguards, and acquaintances with many persons who have undergone similar operations.

A young child has little reassurance. An operation presents a great threat to him. He doesn't have the knowledge of the adult. He dreads the operation as a new and painful experience, done in a strange place by strange people with mysterious instruments. He has secret fears which may result in a lasting fear of doctors, dentists, nurses, darkness, strangers or unfamiliar places. That is why it is important for parents and physicians as well, to recognize the possibility that these emotional reactions may occur and to do everything to avoid them by properly preparing the child for the procedure.

How to accomplish this? Start by dealing with your child kindly, fairly and honestly. Tell him he is going to have an operation. The wise parent knows there are many fears and doubts to be relieved. This can be done by offering the child simple explanations, not once but several times, to help him understand and be reassured. Don't alarm the child by your own worries, fears or doubts; don't air your concern in his hearing. Do be honest with him. Remember that a child who has been guided successfully through an operation by good medical and psychologic preparation will gain an experience that will be of great value to him throughout his life.

County Cattlemen Hold First Meeting Of 1954

1954 Program Plans Of Local Cattlemen

Chilton County Cattlemen plan an interesting program designed to help producers gain more "Know-How" in production, and to promote interest in beef production.

Association plans call for four county-wide meetings in 1954. They are:

1. County annual re-organization dinner and pasture tour (held February 3rd).

2. An experiment station tour to Black Belt and Camden Experiment Stations (to be held in May).

3. A county-wide meeting of study summer pasture management and forage storage. (To be held in mid-summer).

4. A County Beef Cattle show in connection with the County Fair. (Scheduled to be held first week in September).

In addition to the four quarterly meetings listed above, Cattlemen are sponsoring a movement to construct a livestock show barn at the Clanton Airport. This is to be completed prior to the County Show September 6-11.

All beef cattle producers are encouraged to attend your County Association events and to join those that are now active in making Chilton County's cattle industry more extensive and more profitable.

Approximately forty cattlemen met in Clanton Wednesday, February 3rd for the three-fold purpose of studying county beef development, electing county officers for 1954, and planning Association program for the remaining months of 1954.

The initial 1954 meeting was presided over by Ralph Mims, retiring President of the Chilton County Cattlemen's Association. The program consisted of a review of beef cattle progress in Chilton County; an interesting talk by Luther Fuller, General Farm Products Agent, Tennessee Coal & Iron Company; officer election; Cattlemen's dinner; and a cattle and pasture tour.

The progress review indicated that we now have over 3000 brood cows in commercial herds with one or more commercial beef units in every Chilton County Community. Also, the report of progress indicated that 32 purebred cattle producers are established in the county. The purebred breeders are widely distributed over Chilton County and are producing three different breeds of cattle. Fifteen purebred producers are managing Hereford herds, thirteen breeders manage Aberdeen Angus cattle and four herds of purebred Red Poll cattle are being developed. Beef cattle production is the principal source of farm income on approximately 120 Chilton County farms today.

Officers elected to serve the Chilton County Association for 1954 are as follows: Charles L. Patterson, President; S. A. Jones, Vice-President; C. C. Fiquette, Secretary-treasurer. Directors elected are; Dr. H. M. Nix, Maplesville, Ala.; Earl O'Neal, Stanton, Ala.; Hoyt Freeman, Maplesville, Ala., Rt. 1; Ralph Mims, Clanton, Ala.; Jack Roberts, Northwest Chilton; Lonnie Messer, Verbena, Ala.; and Hershel Smith, Thorsby, Ala. County Association Director on Alabama Cattlemen's Association Board of Directors—Dr. W. L. Parrish.

Luther Fuller, long-time leader in Alabama livestock development, delivered a most interesting address relative to trends of beef cattle development throughout the state. Alabama is rapidly becoming known as a pasture and beef cattle area. Since the eradication of the Texas-fever-carrying-cattle tick in early 1900, and particularly in recent years, the industry has grown. Today we have in Alabama 27,000 farmers with beef cattle as a source of income. These farmers own 880,000 brood cows. The industry is further supported by 99 stockyards and an adequate distribution of slaughtering and processing plants. The above facts were only a few brought out by Mr. Fuller. He further asserted that the development of more efficient methods of producing feed and cattle indicates that progress in the near future is going to be more phenomenal than it has been in past years.

Following Mr. Fuller's address, all cattlemen and visitors enjoyed a liberal sample of the subject they had spent the morning discussing "quality beef."

Following the Cattlemen's dinner a cattle and pasture tour was held. Pasture crops and feeding programs—principally grazing—was observed and studied in the Thorsby, Collins Chapel, Bell Lane and Verbena areas.

Hogs Sell Here At $16.50 Top

Monday, February 8th, the Central Alabama Livestock Sale grossed over $7,300.00. Ninety hogs and 72 cattle moved from producers to users and constituted the major items of sale. Miscellaneous items including goats, work animals, and farm tools completed the sale. Top hogs sold in Clanton for $26.00 to $26.50 per hundred pounds. Cattle sold slightly higher than previous week with stocker cattle bringing from $14.34 per hundred to $15.71 per hundred.

Fifty-six buyers made purchases from a total of sixty-five consignors.

Chilton County's hog market Monday, February 8 received consignments from Dallas and Autauga counties as well as Chilton. The $16.50 top price was above Montgomery price, and within a half-dollar of Nashville, Tennessee market for the same date.

Certified seed production in Alabama has grown very rapidly in the last eight years—from 510 acres in 1946 to more than 63,000 in 1953.

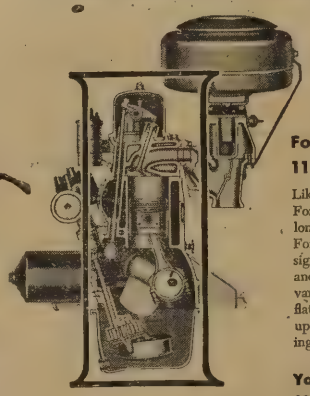
Ford's new 130-h.p. Y-block V-8

This brand new Overhead-Valve V-8 has an extra-deep block which resembles a "Y" in cross-section. This new deep-block design means greater rigidity for smoother, quieter performance . . . longer engine life. Other features which make this engine a long-lived, smooth, savingful performer are: new low-friction (short-stroke) design, Free-Turning Overhead Valves, new 5-bearing crankshaft, and new high-turbulence combustion chambers.



Ford's new 115-h.p. I-block SIX

Like the new Y-block V-8, this engine has Ford's deep-block design for greater rigidity, longer engine life. Also, like the V-8, you get Ford's modern manifolding, low-friction design, high-turbulence combustion chambers, and Ford's Automatic Power Pilot. One advantage of *both* new engines is an amazingly flat "torque curve" which gives you top pick-up power through the *whole range* of driving speeds.

Here's Advice On Chemical Weed Control

AUBURN, Ala.—Chemical weed control is profitable for cotton farmers who do not have an adequate supply of the labor to control grass in young cotton.

However, chemical weed control is a precision job not advised unless recommended rates and procedures are carefully followed, emphasizes O. N. Andrews, API Extension cotton specialist. In explanning the pre-emergence treatment, the farm leader has this to say:

"Its best to apply chemicals at planting time. The pre-emergence treatment should control grass in treated bands from three to six weeks. Use either dinitro or C.IPC at the rate of one to one and one-half pounds per acre on light sandy soil and two to two and one-half pounds on heavy soil.

"Research and farmer experience show that under certain temperature and moisture conditions chemicals can badly damage or even kill cotton. High temperatures — 85 degrees or more — combined with excess moisture will cause dinitro to give off fumes that injure or kill young plants.

"Remember these points when using the pre-emergence treatment. Chemicals should be handled according to the manufacturer's directions. Treat only a small acreage not over 20 per cent the first time. Too heavy rates will damage or kill cotton."

In conclusion Andrews says, "During the past two years a number of Alabama farmers have been satisfied with the results they got from using pre-emergence chemicals. Successful weed control depends on careful application and advantageous weather conditions. So consult your county agent for details and help in your weed control program."

IS YOUR NET FARM INCOME GETTING THE SQUEEZE?

The prices of most farm products ARE DOWN. The cost of what farmers have to buy HAS NOT declined. The margin of profit is LESS. These are facts faced by many farmers—

A PRICE - COST SQUEEZE!

Because of these very conditions, farmers may need MORE CREDIT — LONG-TERM CREDIT — the kind that is available in a LAND BANK LOAN. These loans are made for terms of 5 years up to 40 years, at 4 PER CENT interest—the LOWEST rate in the history of farm mortgage lending.

LAND BANK LOANS carry other special benefits, in addition to the low interest and long time in which to repay. A LAND BANK LOAN may be REPAID IN FULL at any time WITHOUT CHARGE for that privilege. You only have to pay the principal, and interest earned to date of payment.

Annual Dinner For B. W. C.

The Business Womans' Circle of the First Baptist Church met at the home of Miss Euna Powell the evening of March 16, at 6:30 for the annual "Brunswick Stew Dinner." The fun and fellowship of the meeting and the delicious food were enjoyed by twenty circle members and three visitors.

The beautiful cut spring flowers and lovely potted plants made the home of Miss Powell's very attractive. Various tables had been arranged and the guests were invited into the dining room. The invocation was given by Mrs. M. D. Tingle. After dinner the group reassembled for the formal part of the missionary program.

Mrs. Luther Little, circle chairman, called the meeting to order. Record cards were passed out for each member to check. Then the Mission Study chairman, Miss Lois Black, presented Mrs. Harold Lawrence, president of the WMS, to the group. Mrs. Lawrence very capably and interestingly gave a review of the book, "In Evangeline's Country," by John Caylor. Mrs. Lawrence displayed a map of Louisiana with various dates and names of missionaries who have labored earnestly in the French Territory. It was very interesting to the group when Mrs. Tingle read a portion of a personal letter which she had received from one of the present day missionaries who is now working in Louisiana. The missionary was a friend of Mrs. Tingle's while the two were in college training for missionary work.

A short business meeting followed. A few points of business were dispersed. The next meeting of the BWC will be at 7:00 p.m., Mar. 16, at the home of Mrs. Herman Lecroy. The meeting was dismissed with sentence prayers.

Those enjoying the Brunswick Stew Dinner were:

Dorothy Yeager, Lois Black, Lillian Miller, Gertrude Nivens, Eunice Hagan, Leila Belle Moore Mae Foshee, Helen Patterson, Clara Lecroy, Ruth Waters, Frances Hubert, Elsie Sexton, Mable Tingle, Mayme Willis, Deanie Lawrence, Thomasine Lecroy, Laura Little, Nan Taylor, Elizabeth Norris and three visitors: Mrs. Hughey Carroll, Mrs. A. W. Powell, Mrs. T. A. Powell, and the hostess, Miss Euna Powell.

Methodist WSCS Conducts Mission Study

In March the Woman's Society of Christian Service of the First Methodist Church will conduct a mission study on "Our Spanish Speaking Neighbors in the Southwest."

The committee on missionary education met with Mrs. Joe Campbell, chairman Monday afternoon when plans were formulated for the committee. Those present were Mrs. Marvin Vickers, president, Mrs. Omar Reynolds, Mrs. S. A. Jones, Mrs. Joe Mullins, Mrs. Hoyt L. Taylor, Mrs. James Nivens. Mrs. George Tucker, Mrs. Ervin Dailey and Mrs. Ruth Emfinger.

The study will be introduced on Monday afternoon, March 1, with Mrs. George Tucker as leader. The other sessions will be on evenings of March 8, 15, 22, and 29.

The following committee were set up: (1) Room separation and welcome, (2) Worship center (3) Posters and exhibits, (4) Games (5) Progra mand music.

On the final evening there will be a Spanish Festive arranged by Mrs. Vickers. Some of the young people will be presented in a playlet. Spanish games and songs will be executed. A simple supper of Spanish foods will be served.

Woman's Circle Of West End Baptist Met Monday

Mrs. Jesse Jones was hostess to the Business Women's Circle of the West End Baptist WMS on Monday evening at 6:30 p.m.

A lovely devotional was given by Mrs. Jones. For the program a mission book "Meeting the Needs of the Migrant" was studied. Those taking part on the program were Mrs. Winifred Fulford, Miss Truman Stucky, Mrs. C. Delle Cobb Mrs. Margie Messer, and Miss Zema West.

Mrs. Stuckey dismissed the meeting with prayer.

The hostess served delicious refreshments to the members present.

Around OUR HOUSE

by Kathryn Tucker Windham

The seven-year-old is in love with words, both printed and spoken, and long words have her special devotion. When she hears a new word, she repeats it again and again, rolling it around in her mouth as though she were savoring the delicious sweetness of some rare confection.

And, even though she usually doesn't have a very clear understanding of a long word's meaning and often no understanding at all, she uses her new words in her conversation at once. Sometimes it's rather hard to decide just what she is talking about, as happened the other night when she asked:

"Mother, what is the congregation to February?"

At first I thought she was asking about some religious denomination completely unknown to me, but when I peeped over her shoulder I discovered that she was printing a letter and wanted to know the contraction of February.

* * *

Our next door neighbor always buys the "giant economy size" of all products available in over-size containers. It's one of her pet money-saving maneuvers.

The other morning when we dropped by to see her, she was transferring some detergent from a giant economy package to a pint jar with some holes punched in the top.

"I can sprinkle the detergent from the jar into the sink without wasting any," she explained. "I always waste some when I try to pour it from the big box."

Giant economy size packages have never saved any money around our house. Having a big container of soap flakes or toothpaste or hand lotion or shampoo makes me use the product lavishly. On the other hand, I'm sparing in the use of anything in a small container.

* * *

Our neighbor down the street, the one with the big family, finds so many uses for Scotch tape she says it would be hard for her to keep house without it.

Several of her children like to color, but their crayons frequently broke under the slightest pressure. Now when she buys a new box of crayons, she wraps each one with a protective covering of Scotch tape to keep it from breaking easily.

* * *

It was the neighbor around the corner who taught us another use for cellophane tape: she uses it to hold picture frames, especially the inexpensive ones, securely together. Putting strips of the tape around each of the corners keeps the frames from becoming loose.

* * *

Recipes given over the radio sound so tempting I want to try them all, but it seems that some interruption always comes along to make me miss one or two basic indegredients.

Our next door neighbor gets her radio recipes right by writing the key words (flour, milk, sugar, etc.) before the program begins and then jotting down the correct amount of each as it is given by the announce..

* * *

Have you tried mince meat upside down cake? Spread 1-4 cup melted butter over the bottom of a cake pan. Sprinkle 1-2 cup brown sugar even over the butter. Combine 1 1-3 cups mincemeat with 1-2 cup crushed pineapple and spread over sugar-butter mixture. Pour white or yellow cake batter and spread over sugar-butter mixture. Pour white or yellow cake batter over concoction and bake in moderate oven about 55 minues.

RECIPE OF THE WEEK

Date Oatmeal Bread
(Makes 1 loaf)

1 cup quick-cooking rolled oats
1 cup chopped dates
1¼ cups scalded milk
2 cups sifted, all-purpose flour
4 teaspoons baking powder
1 teaspoon salt
1 egg
¾ cup light corn syrup

Add rolled oats and dates to milk. Let stand for 10 minutes. Add slightly beaten egg and corn syrup. Mix and sift dry ingredients. Add milk mixture, stirring enough to blend well. Bake in a greased loaf pan in a moderate (350°F.) oven for one hour.

ISABELLA NEWS

Mrs. J. H. Wells — Phone 653-R2

On account of the illness of our pastor, Rev. J. W. Jones' sister-in-law, there were not any preaching services at Mulberry Sunday. We had our regular Sunday School and BTU services with a good congregation at both.

The YWA's have a short program on the work of the YWA's after BTU Sunday night.

Don't forget the spring revival will begin the first Sunday in April at Mulberry. Rev. L. G. Brookshire of Liberty Hill will do the preaching.

Your librarian is always happy to check books from the church library to any one who wants to read them.

The Mabel Woodward Circle met with Mrs. L. S. Calfee on Wednesday, Feb. 17 with eight members present. After a short business meeting a missionary program was given.

THE THUNDERBIRD, a new kind of car combining high performance with the comfort, convenience and safety of a conventional model, has been added to the Ford line. The Thunderbird has a powerful 160 h.p. Y-block V-8 engine and its low, graceful body is of all-steel construction. Equipped with a convertible cloth top which folds completely out of sight behind the rear seat, the Thunderbird can be purchased with a special composition hardtop, making it a complete all-weather car. Its overall height is 51.5 inches—nearly a foot lower than the 1954 Ford sedan—yet it has only slightly less road clearance. Most of its major parts are interchangeable with Ford's regular line of cars. The Thunderbird is scheduled for production by Ford Division next fall.

ADVENTIST CHURCH

"Juvenile Delinquency—Its Causes and Prevention" will be the sermon topic Sabbath 11 a.m.

It will be noticed that the sermon topic will not be "It's Causes and Cure." There is no "cure" for the alarming situation.

There is a sure "prevention" if started in time. But neither is that going to take place. This preacher is absolutely pessimistic as to any improvement of the situation. Instead of improving, its going to get worse and worse. Our sermon will be based on a recent Town Hall discussion of the subject from which numerous quotations will be given.

Jemison Panthers Trips Billingsley 74-30—

The Jemison High School basket ball team won over the Billingsley Bears last Friday night by the one-sided score of 74 to 30. The visiting team lacking in experience, found the JHS boys pass work too much to cope with. Pete Gothard (20), Chas. Martin (14) and Delano Lucas (12), led the victors in scoring.

This win gives JHS a 50 per cent record. 8 wins against 8 losses. The JHS baby Panthers upset the Billingsley Bees in the preliminary 56 to 20.

T-J Lions Club Basket Ball Game Great Success—

On Friday night, Feb. 5, the T-J Lions Club sponsored two colored basket ball games that resulted in a most successful effort and entertainment.

The first game was between the Clanton Jr. High and Jemison Jr. High, with the former winning by two points 40 to 38. It was a rousing good game, full of thrills and laughter for the large group of spectators who were present. Both teams played hard and no one could forecast just who would win it. It was close throughout the game.

The second game was a real thriller right down to the line. This was Chilton County Training School (Clanton) playing against Montevallo High, with Clanton edging by 38 to 34. With only 3 minutes left to play the score was 34-33, Clanton by one point. At this point the cheering was really a riproarer. The T-J Club takes this opportubnity to express their appreciation to these four schools for their excellent display of sportsmanship and fine conduct. It supports the fact that the leaders and teachers of these schools are doing an excellent job in discipline, fair play, and citizenship.

If you get an opportunity to see these two colored teams play each other, don't fail to see them.

AMERICAN LEGION ELECTS OFFICERS

Clanton Post No. 6 of the American Leion met last Thursday evening and elected the following officers; Robert L. (Bob) Fullen, Rt. 3, Clanton, Commander; Vice Commander, John W. Pitts, Clanton, Adjutant and finance officer, W. L. Smith, Clanton; C. J. Turner, Chaplain and James C. Parr Sergeant-at-Arms. The following officers were appointed; Jean Wyatt, Clanton, Historian and Robert L. (Bob) Windham, Clanton in charge of entertainment and refreshments.

The first Monday night of each month was selected as meeting night and the meetings will be held, for the time being, at the City Hall. The next meeting will be March 1 8 p.m. and all members are urged to be present for this all important meeting. It was pointed out that unless you have paid your 1954 dues that you should contact Mr. Smith at the Peoples Savings Bank and get your current card so that you will be eligible to take part in the important matters that will be coming up at this and the future meetings.

Commander Fullen stated that with the cooperation of the members and officers that we would be found doing something toward carrying out an aggressive program. He stressed attendance and membership by asking every member present to be at the next meeting and bring in a new or old member.

It appeared that all the members present were interested in taking some forward step toward building a veteran's home or club so it appears that this matter will be on the agenda for the next meeting.

GENE AUTRY TO BE IN MONTGOMERY

Friday is the big day in Montgomery for Gene Autry fans. That is the day when Gene, one of America's favorite cowboys, will bring his "All Hit Show of 1954" to the State Colesium for two performances at 4:30 p.m. and 8:00 p.m.

One of Autry's most popular attractions will be his horses Champion and Little Champ performing many of their tricks.

Autry himself will act as master of ceremonies as well as sing all of his old and new song hits.

Autry has always had nothing but clean, wholesome entertainment for the whole family in his shows. This season he is touring with 44 entertainers, who include such well known personalities as Pat Buttram, the side kick of Autry's movies, radio and TV programs and Rube Davis, the zany barnyard comic.

Others appearing in the big show will be Herbert Cattle, former tight-rope artist for Ringling Brothers Circus; Case County Boys, vocal trio from Autry's and Bing Crosby's TV and radio shows; Chief Tony White Cloud and his tribe of Jamez Indians; Professor Joe Gole and his Melody Ranch Girls; Barbara Bardo, world's female champion trick rope artist; Patricia Dunn, 18-year-old TV singing star; and Elaine Browning, 17-year-old miramba player, discovered by Autry on the Ed Sullivan Toast of the Town show.

Tickets are priced at $1.30, $1.90, and $2.50. Children will be admitted for half price to any seat.

M. C. STALLWORTH JR., Vinegar Bend, was elected president of the Alabama Cattlemen's Association at the 11th annual meeting in Montgomery Feb. 12 and 13. Stallworth, who has served as first vice president during the past year, succeeds Preston C. Clayton, Clayton, as the leader of the Cattlemen. The Montgomery meeting attracted large crowds to hear outstanding authorities on cattle problems from six states. Stallworth is one of the State's outstanding cattle raisers and also has extensive lumbering, naval stores and other business interests.

Hog production fits in well on small and medium-sized farms.

If possible, keep shelled corn before beef calves at all times.

COOPER NEWS

Chestnut Creek Baptist ... Hymon Atcheson, pastor
Sunday School 10:00
Morning worship 11:0
Training Union 6:30 p.m.
Evening worship 7:30

Sunday morning we organized a new class in our Sunday School. We are happy to have her of this class, Mr. Orbin Davis, who has been a faithful member church and we hope and pray that this class will grow. We had 180 present for Sunday School and 8 visitors, Sunday. We appreciate all of the work being done and the interest being shown by the ers and teachers of our church. We know that without the prayers of each member we could not realize the progress and the b e have seen in the past year and a half.

The church voted to ... ing to rework our balcony in order to add three new Sunday School rooms. We appreciate the spirit in which the church ... project, and we hope that this is only one of the many ... church will make in the near future in order to provide more and better space for our pe the Bible.

We are happy for the success of our extension department. We had twenty people present in the extension class Sunday morning.

Brother Atcheson brought two wonderful messages.

Brotherhood Meeting—

The Brotherhood of the Chestnut Creek Baptist Church met Monday night February 22nd at the church. Devotional was given by Archie Mac Taylor. The program was "Todays Debt—Now Tomorrow." Those on program were, Rev. Hymon Atcheson, Mr. Archie J. Taylor, Mr. Elbert Glenn and Bro. J. T. Sorrell.

The Brotherhood appointed a committee to estimate and purchase material to enclose the balcony and make new Sunday School rooms. They will meet Saturday morning to remove the trees from the cemetery. Our Brotherhood will be at Floyd Church March 5, to help them organize a brotherhood. We appreciate the invitation extended to us by Floyd. We hope to meet every man of the church Friday night.

WMU Meeting—

The Business Women's Circle of the Chestnut Creek Baptist church met with Mrs. Willie Nell Moore on Friday night, February 19. Devotional was given by Mrs. N. J. Robinson. Others taking part on the program were Mrs. Archie Mc ... taylor, program chairman, Mrs. Elbert Glenn, Mrs. Hymon Atcheson, M... John Robinson, Mrs. Mary Gilliland and Mrs. Flem Thomas.

... was a business meeting and completed plans for the week of prayer for Home Missions and the Annie Armstrong offering. Brother Atcheson will teach the 1954 Mission Study Book "In Evangeline's Country" at the church Wednesday Feb. 24th.

After the meeting adjourned delicious refreshments were served.

The GA's and RA's met at the church last Wednesday with their counselors Mr. and Mrs. Crayton Taylor.

Mrs. Hymon Atcheson will teach the 1954 mission study book for the YWA's Thursday night, February 25, at 6:30. The name of the book is "The Orleans Story."

The YWA girls are urged to keep this in mind and attend if possible. Mrs. Atcheson has this book well prepared and I'm sure you'll enjoy it.

Sunday guests of Rev. and Mrs. Hymon Atcheson were Mr. and Mrs. M. L. Argo and children of Maplesville.

Mr. and Mrs. Charles Cagle are at home from Georgia where he has been stationed. Mrs. Cagle (Bobbie Cleckler) will be at home with her parents, Mr. and Mrs Leonard Cleckler of the Refuge community and also at Mr. and Mrs. J. D. Cagle of Cooper. Charles will leave March 13th for duty in Korea. We wish both of them lots of luck.

Mr. and Mrs. Archie Taylor visited Mr. and Mrs. W. I. Smith in Birmingham Sunday evening.

Mr. and Mrs. Barney Nelson of Montgomery visited with Mr. and Mrs. Elbert Glenn and Wayne a while last Friday night.

MT. PISGAH NEWS

We were proud to see as many out Sunday for Sunday School as were. We had a real interesting lesson.

Although several were absent Sunday night we had a nice program. We would like to see more out on Sunday night. Be sure to come next Sunday morning and night and bring someone with you.

Sunday is preaching day. Bro. J. C. Brown will bring the messages both morning and evening.

We are sorry that we still have sickness in our community. There have been several cases of measles.

We hope that everyone will soon be well and back at church.

Mr. and Mrs. Jim Cleckley and girls were the Sunday dinner guests of Mr. and Mrs. Reuben DeVaughn and family.

Miss Eunice Logan and mother had Sunday dinner with Mr. and Mrs. Luther Yeargan.

Mr. Ronald and Donald Yeargan, Mr. and Mrs. Melvin Yeargan and children visited Mr. and Mrs. Earl Yeargan of Talladega Sunday.

Miss Helen Edwards visited Miss Alma Faye Chadwick Sunday.

Mr. and Mrs. Richard Duren and Jeanette visited relatives in Sylacauga Sunday.

Several from our church attended the supper at First Street Methodist Church in Selma Friday night, in behalf of the 100th Anniversary of Huntingdon College.

WSCS—

Our WSCS will meet Monday afternoon at 2:00 at the home of Mrs. George Smith. Everyone please come. We are studying three chapters of the book entitled, "Heritage and Destiny," by Gerald Kennedy. We will finish the book at our meeting in March.

Our WSCS Annual District Meeting will be held at the Methodist Church in Camden, Ala., on Feb 23 at 10:00 a.m. We want as many of our ladies to attend as possible.

One thing you can always say about politics that's good. It brings out the good nature in a man and further proves that a man can be good natured and likeable all the time if he just sets his mind to it. Any man.

A fella told me the other day that he didn't believe the state would carry a certain candidate for the governor's office. I don't either friend, he's too heavy.

One of my (closer friends?) asked the other day if I wore a hat all the time because I was lightheaded. Yeh, but it's not dead.

Noticed how Chilton's main crop has begun to blossom out lately? Sure looks good to see so many fine peach orchards already showing signs of waking up. With hard work and the right kind of living, Chilton County's peaches will be tops again this year.

See where one of our local merchants is already looking to the hot humid weather of summer and installed, either a new awning or just installed an awning, period in the front of his business. Looks mighty good, too.

Have you ever sat down and just weighed the diffrence in your character and personality to determine what kind of a fellow you really are. You oughtta try it some time, chances are you'll turn out a darn nice guy; in your estimation anyhow.

Learned a lesson on thinking for myself while I was in high school that I won't be likely to forget for some time to come. Went out for football this certain spring training season and the coach put me on defense at the left half position. Well, I followed directions given by the coach and when this big fella came at me at full speed the coach says, "tackle him." So I stands there in front of this oncoming locomotive and he, being very considerate, didn't attempt to go around me I rather believe he decided to go over me. Well, the locomotive went down and while I too was laying there under him decided that in the case of an emergency it is much better to think for yourself than to depend on someone else. I had a bunged up arm to remind me of this valuable lesson for quite a few weeks.

CARD OF THANKS

LEGION TO JOIN D. A. V. IN BUILDING HOME

Clanton Post No. 6, American Legion voted unanimously to join the DAV in completing their home which has already been started. The home will be located about one-half mile from the heart of town on the new Mount Enterprise highway.

The plans which were drawn by Harold Foshee, local architect, call for a modern, streamlined building which consists of a large auditorium, rest rooms, coat rooms, kitchen and storage room. The location which was donated to the DAV by Red Fulmer, is so situated that ample parking facilities will be available and also planned is landscaped grounds for picnics. There is included in the plans a large natural fireplace and the lighting will be indirect.

At the meeting Monday night a committee was appointed to contact the proper officials in an effort to get a war memorial erected and dedicated to Chilton County's war heros who did not return to their loved ones.

The next meeting which is being held to experiate the starting and completion of the veterans home will be held at the City Grill next Monday night 7:00 p.m., March 8, and all members and prospective members are urged to be present. Commander Fullen stated that if every member would cooperate and do his share that it would not be too hard on any individual member. Many members have offered to contribute work and several local business men have already pledged financial and other help in getting the home built and furnished.

RECOMMENDATIONS OF THE WHITE CROSS AND BENEVOLENCE CHAIRMAN

Recently a lady said to me, "I shall always love you because of two things you did for me." I thought, and could not recall even one thing I had ever done for this lady who stays busy doing nice things for her friends, neighbors, and community. I said, "What have I ever done for you?" She replied, "Don't you remember that valentine you sent me last year? Don't you remember coming to see me the next day after my son was called away to military service? I remembered. It was nothing. I just ran across a valentine that just fitted Mrs. X so I mailed it to her—I knew after all the excitement of her son's departure had quieted down, she was probably lonely, so I merely dropped in for a few minutes chat.

Three simple things I recommend that you do, yet how many may be the blessings that come from them.

1. Continue to send all coupons possible to the Baptist Children's Home at Troy. If you have not done this before, start now. All money raised by these coupons now is being used to correct physical defects of the children. There has never before been any provision for this, and I know every christian mother would like to have a part in such a project as this.

2. Each society remember in some way the aged ministers, minister's widows, or other shut-ins in your own community at valentine. You are most familiar with those of your own community and can most intelligently administer to their needs.

3. All young people's organizations send your old Christmas cards to Formosa. There is a need for these in the Sunday School work there. Wrap securely and mail to:

Peter Tang
Taiwan Baptist Seminary, Box 427
Taipeh, Taiwan.

(This recommendation is made in agreement with Mrs. J. W. Johnson, the young people's director.)

TO SPEAK AT FIRST BAPTIST CHURCH

J. W. JONES

A meeting is being called at the First Baptist Church, Clanton, Monday night March 8th at 7:30 p.m. for the purpose of hearing Rev. J. R. Swedenburg, Secretary Alabama Temperance Alliance. We are continually fighting Polio, T. B., Cancer and many other deadly diseases However we are likely to neglect the most destructive enemy we have and that is the liquor traffic. We are looking for you to come and hear this man of God and an outstanding speaker. He has the information we need at this time and you will be held by his delivery from the start. This is the time to choose our officials and we need to be on our guard and elect men who will keep our county dry and help to end the liquor business in our fair state.

AUNT JEMIMA TO SERVE PANCAKES AT JITNEY-JUNGLE

Bring the whole family to breakfast Friday and Saturday, March 5 and 6 at the Jitney-Jungle

Aunt Jemima of radio and television fame will be serving pancakes and coffee to everyone all day long.

Also you'll have the opportunity to try and win yourself a new range.

Past presidents of the Pilot Club were honored at a dinner when the Pilot Club of Clanton met on Tuesday night, February 23, at the Dixie Cafe.

Mrs. Laura Little was in charge of the program. She presented Mrs. Madge Mullins who gave some highlights of the club since its organization in 1931 She also read a letter fro mthe first club president, Mrs. Lillie Stapp of Greenville. The past presidents were then introduced and each one told briefly what the club had meant to her. Also featured on the program were two musical selections by Miss Betty Kemp.

The past presidents present were: Mrs. Gertrude Calloway, 1932-34; Mrs. Mamie C. Smith, 1934-35 x, 1937-48; Mrs. Zora Guy Smith, 1936-37; Mrs. Olive Fiquette, 1838-39; Mrs. Ruth Waters, 1939-40, 1942-43; Mrs. Laura Little, 1940-41, 1950-51; Mrs. Bo Searcy, 1943-44; Mrs. Lillian Lawson, 1945-46; Miss Faye Nooley, 1948-49; Mrs. Isabelle Morrison, 1949-50; Miss Marguerite Perry, 1952-53.

Other guests present were Mrs. A. R. Scott, Mrs. Dollie Belle Mitchell, Mrs. Tom Kemp, Miss Betty Kemp, Mrs. Molly McKee, Mrs. J. D. Bell, Mrs. Eunice Hagan, and Mrs. Harold Smyer.

TOMATO GROWERS TO MEET FRIDAY

A meeting of the cucumber and tomato growers of the Chilton County Fruit and Truck Growers Association will be held at the Thorsby Junior High School Friday night.

All members are urged to be present at this meeting stated president of the association, Jim Williams, as important business will be discussed.

Chilton County friends of Delos Culp are throwing a "real party" for their favorite son candidate for State Superintendent of Education. A booster banquet will be held at the Chilton County High School on next Tuesday night, March 9, at 7:00. Tickets are $1.25 each and are being sold by school principals and others over the county.

Dr. Culp is well known and admired in his home county of Chilton. He completed his public school work here and went to Jacksonville State Teachers' College where he completed 2 years of his training. He later completed work for B. S. and M. S. degrees at Alabama Polytechnic Institute, Auburn, and his doctor's degree in school administration at Columbia University.

Chilton County is proud of Dr. Culp's accomplishments. His educational experience ranges from teacher in a one-teacher school in Chilton to one of the top jobs in the State Department of Education in Montgomery. During this period he served as county superintendent of education here in his home county. It was in this capacity that the people of the county first began to realize Delos' ability.

Delos comes from one of Chilton's best families. He is the son of J. D. Culp of the Fairview and Mt. Nebo communities.

All of Delos' friends are urged to attend this banquet given in his honor. Tickets are being sold at $1.25, the actual cost of the plate. School principals are heading up the ticket sales. Be sure to contact the nearest school principal to obtain a ticket for this affair. Chilton is proud of its entry into the state political races. This is a good opportunity to help put him before the people of the state. Everybody is urged to get behind the movement. Culp himself will be the principal speaker.

The time is short. See about getting your ticket right away.

ASH WEDNESDAY MARCH 3

Ash Wednesday marks the opening of the holy season of Lent. The ashes are made from the palms blessed on Palm Sunday from the preceding year. The Church for the humiliation of of our pride, places these ashes on the foreheads of the faithful saying: "Remember, man, that thou are dust, and into dust thou shalt return."

Lent is an ideal time to vitalize in our lives all that the sign of the cross signifies. It is this sign with which Catholics begin and end all of their prayers: signed with the love of Christ, who redeemed us by His sufferings and death.

Each Friday evening at 7:30 at the Chapel of the Resurrection, the Catholics of Chilton County will commemorate the Passion of Christ, with the Way of the Cross services and a sermon. The Reverend Walter Mikoss, C. R., of Montgomery, pastor will conduct the services.

KIWANIS

What They Are Doing

"We Build"

Clanton Kiwanians were hosts last week to the annual county oratorical contest of the Future Farmers of America. Schools entering contestants were Jemison, Maplesville and Chilton County High. The Chilton High contestant, Curtis Baker, won first place. Second place was won by James Davenport of Jemison while Curtis Smith of Maplesville took third.

All three contestants did wonderful jobs with their subjects. In addition to the oratorical feature, the Chilton High FFA presented a quartet that rendered several good numbers. Members of the quartet were: Billy Wyatt, Lamar Headley, Donald Wyatt and G. C. Belton, with Curtis Wyatt at the piano.

Sponsoring this contest is one of the annual projects of the Clanton Kiwanis Club. This is a part of the interest Kiwanis shows in the youth of the community. This program was sponsored by the Key Club, Winfred Lecroy chairman.

The Clanton club was 4th in the 2nd and 1st in the division in attendance for the month of January.

DRIVERS FAIL TO OUTWIT RADAR

Officials in Rocheter, New York, recently reported that their radar speed detection system had been in operation for more than a year and, in the entire period, no motorist has yet been able to outwit the radar speed-clock meter.

Officials report various drivers have used tin foil, shields between the grill and radiator, in an effort to dismarbles and even dragged steel chains and used lead rupt the radar detection. Despite all these gadgets and experiments the radar still clocks the speed of motorists accurately.

In Rochester no one has yet been arrested for speeding because of information furnished by the radar device. However, over 2,000 motorists have received summon based on the result of the detector.

We pass this information on to those who are fighting a losing battle against radar speed indicators, with the advice that it is a game, which the driver is sure to lose.

MEN LOSE THEIR TEETH

The American Dental Association repoprted recently men are more likely to lose their teeth than women, mainly because they fail to go to the dentist as regularly as do members of the fairer sex. A survey showed that one out of ten men loses all of his teeth, while only one woman in fifteen finally loses her's.

The survey showed that perfect dental health is found in about one out of twelve patients. Another interesting finding of the survey is hat tooth decay is apparently the main reason for loss of teeth among males up to the age of 34, but that after that, gum ailments and other diseases exact the heaviest toll. Tooth decay is the principal reason for the loss of teeth among females up to the age of 39.

About the only alibi the males have in this situation is that most dentists are men. Perhaps the women are more inclined to visit dentists of the opposite sex than men are to visit male dentists. A test of this theory might prove interesting to the men.

SUBSIDIES, PARITIES, TAXES
. . . dark theaters as government storehouses

Down in Washington the other day, either Joseph or Stewart Alsop, the dual-byllned syndicated columnists, had an interview with "the embattled Mr. Benson," the latter being, of course, Secretary of Agriculture Ezra Taft Benson.

The result appeared in the Alsop "Matter of Fact" column yesterday in the New York Herald Tribune, and, to quote the pillar itself, "The talk was interesting in a number of ways."

As you might expect, the subject was the Benson farm policy with attention as well to parties and price supports and what they have brought to the Government: "Such mountains of stuff (agricultural products) owned or on loan that there is already, in many areas in this huge country, no longer any place to put the stuff."

Then followed this:

"This is not for want of trying. Benson has arranged for the demothballing of 125 World War II tankers for storage, and he is dickering for a number of disused Air Force hangars. He is even considering renting some of the empty motion picture theaters forced out of business by television competition."

Well, how do you like that?

Remembering, as you must,, that it was not television competition so much as it was the 20 per cent Federal admissions tax which forced the thousands of theaters to shutter in recent years.

Can You Think of a situation more bitterly ironic than this: First, discriminatory taxation destroys, then the Government proposes to utilize them as storage places for excess agricultural products, the fruit of subsidies, which it has purchased with tax dollars.

You might bear that in mind when next you discuss the industry's tax plight with your Senators and Congressmen.—The Film Daily.

Report from Washington

BY

ARMISTEAD SELDEN

Congressman, Sixth District

Shortly after we reconvened, the House Ways and Means Committee recommended that municipal housing authority bonds and state and local industrial development bonds be taxed by the Federal Government. This action, taken by the Ways and Means Committee in executive or closed session, brought a storm of protest from municipal, county, and state officials from all over the country. The Alabama League of Municipalities, for example, immediately announced their unalterable opposition to the Committee's action. The League, through its able Executive Director, Ed Reid, made the following revealing observations:

(1) The interest of state and local government bonds and other securities has always been exempted from Federal income tax. The recommendation of the Ways and Means Committee to tax industrial and housing bonds could very well be the first step towards the taxation of all state and local bond issues.

(2) The proposed tax on the interest from housing and industrial bonds would unquestionably raise the interest rates on such issues at least one-third, thereby working a terrific financial hardship on the municipal governments and through them upon the people who populate the local communities.

(3) The tax on industrial bonds is an attempt by Eastern interests to curb the industrial progress and future growth of Alabama and other states.

Committee Reconsiders Action

These and other objections that came in from all over the United States soon reached the members of the Ways and Means Committee. Shortly thereafter, the Committee reconsidered its previous action and abandoned entirely its plan to tax the interest of local housing bonds.

The committee also threw out its plan to tax the interest on certain types of state and local industrial development bonds, but submitted another proposal. Under the Committee's new plan, municipalities can still issue tax exempt bonds. But, the business firms benefitting from them cannot deduct rent and lease payments as a business expense, which they are permitted to do under existing law.

Danger in New Proposal

Although in different form this new proposal still constitutes an effort by Eastern interests to slow, if not stop, the movement of industry to Alabama and the South. Industries are unlikely to occupy buildings for which they pay rent, if they are not allowed to deduct the rent from their income tax. Therefore, if this particular recommendation of the House Ways and Means Committee is enacted into law, the efforts of many of our Alabama towns and cities to secure new industry will be greatly hampered if not entirely blocked.

Under the rules of the House, amendments to tax bills are not allowed. For this reason, it will be impossible for the members of the House to eliminate this particular recommendation if it is included as part of the General Tax Revision Bill. However, it can be removed by Senate amendment, and I am sure every effort will be made by Alabama's two Senators, as well as by all of our Southern Senators, to see that this is done.

Cherry Blossom Princess

Miss Maxine Vincent has been selected by the Alabama State Society as Alabamas' Cherry Blossom Princess. As such, she will participate in the Capital City's annual Cherry Blossom Festival to be held early in April.

Miss Vincent is a native of Montevallo and a graduate of Montevallo High School. She attended the University of Alabama and Washington's Mt. Vernon Junior College. Since her graduation in 1953 from the latter institution, she has been employed in Washington, D. C. We are very pleased that a native of the Sixth District is to be Alabama's 1954 Cherry Blossom Princess.

"Your Health" is presented by your physician as a health service of The Medical Association of the State of Alabama.

GROWING OLD

"Living to a ripe old age" is an expression commonly heard by the younger generation who, unfortunately, give litle thought to its meaning. Living to a ripe old age is the goal of everyone, yet there is seldom any successful goal achieved without training and ample preparation.

Because our average life expectancy has increased steadily until it has reached 71 for women and 68 for men, very few of us can afford not to get ready for that period when we will no longer be young and active. While heredity plays a factor in long-living families, a greater percentage of those persons coming from families with shorter life spans can be helped into the older age group by keeping the body in a healthy state. None of us is exempt from the aging process.

Naturally if the body is kept in good repair, it will respond better to the aging processes. This is not limited only to the physical repair, but also applies to the mental adjustment of growing old. A healthy viewpoint is not always possible for the immature who, foolishly, refuse to face the future with reality. As we grow older, we must not think of the wisdom and ability to understand the value of experience. It is the seasoning brought on by experience that adds zest and understanding and gives off the flavoring of true maturity.

In growing up, one should prepare wisely for the health as well as the economic future. Rules of good hygiene and nutrition established in younger years will pay dividends as one grows older. Early childhood training, among other factors, contributes greatly to the necessary adjustment of aging.

Be sensible. Aim to grow old, but arrive at your goal by striving for a maximum of good health.

LETTERS TO THE EDITOR

To all the Parents of Children Away from Home:

Have you heard the old song? "You're a Million Miles from Nowhere When You're One Little Mile from Home." This applies to your boys in service, your girls who are far from home.

Last week I received a gift from a dear friend of mine in Nezraska and it was wrapped in a newspaper. It was the Lincoln Star, being from my old home town I read it through and through, I practically devoured its items, even the classified ads were wonderful to see. And then I glanced at the date and it was Oct. 18, 1950. But it didn't matter, it was news from home. So why don't you folks send that boy in service a newspaper? Let him get the news from home while away from home. You'll receive many a letter discussing the items of news.

Sincerely
Mrs. C. Riggins.

CONFUSED

Not so long ago I attended a party with a group of women, the convention turned to the Yankees. Well being one myself (a Yankee I mean) I listened to all sorts of mean, nasty things said of them, and I became very angry, but I held my fire and would have gone home only I espied a lovely cake and decided refreshments were to be served. And to myself I said: How ignorant can peopple get. Several weeks went by and lo, and behold! who should come to visit me, but my Yankee friends from Yankee land. They had been several places in the South and started in to bemean the Rebels. And having lived here for eight years I knew things they didn't know. And I got very, very angry. But held my fire, due to the fact they were my guests. And found myself trying to uphold the Rebel. I said to myself, how ignorant can they get. A sleepless night; I tried to analyze myself; Am I really Yankee or am I Rebel. After thinking the matter over I've decided maybe it's this. I just do not like to hear disparaging remarks about my fellowman, Rebel or Yanks. But am I confused? Shall I sign this from The Rebel or Yankee Doodle, or just plain off my noodle.

—A Reader.

STANTON NEWS

(By RUTH HICKS)

Invitations have been sent by Mr. and Mrs. John L. Sherrer of Plantersville, Ala., to the marriage of their daughter, Norma Jean to Cherry B. Nichols on Friday, March 19th 1954.

Mr. and Mrs. W. J. Graham (Catherine Schurter) and daughter, Judy, of Birmingham, Ala. visited with Mrs. Alma Schurter and family last Sunday afternoon.

The Red Cross Drive is on. Their slogan this year is "Answer the Call—Join and Serve". The Stanton quota is $50.00. I'm sure all of us want this drive to go over and it is up to us as individuals. Won't you help. "Join?"

During the week end one of the oldest colored folks in this community, Razz Rasberry, better known as "Wop" has been hunted. Up to this writing no trace of "Wop." It is feared that he has been lost; possibly dead. Many white and colored folks have looked for him "Wop and Mealy" Rasberry have been residents of this section for many years; Mealy having passed on some months ago. They have helped in many ways with both races and it is hoped that "Wop" will be found, safe and alright. "Wop" is near the same age of my father, and had my father, I. U. W. Hicks, (Bud) lived until April 22 he would have been 87 years of age. Papa and Wop played together as children and grew up not too many miles apart and have lived throughout their lives as neighbors. Wop was the son of Sallie Rasberry who lived in the Pleasant Grove Community near Lawley, Ala. "Aunt Sallie" as she was known by her white friends was respected. She raised her family that way too.

Mr. and Mrs. Joe Dennis and daughter spent Sunday in Jackson, Ala., with Mr. and Mrs. Billy Gibbs and son.

Mr. and Mrs. Ben Atchison reports that their daughter, "Helen" that lives in Ohio isn't doing well at all. Much concern is felt over Helen's condition. "Irene" has been with her sister now for several weeks.

On the 28th of February Mr. and Mrs. Ben Atchison celebrated their 38th wedding anniversary at their home. Enjoying together this celebration were: Mr. and Mrs. W. W. Spivey, mother and fahter of Mrs. Ben Atchison, Paul Atchison, Ann Hicks and Roy Hicks of Birmingham, Ala., Mr. and Mrs. L. C. Hubbard, Mr. and Mrs. Jeffrey Hubbard of Burnsville, Ala., Rev. and Mrs. J. R. Robinson and family of Plantersville, Ala., Mr. and Mrs. Dewey Harrison and family, Mr. and Mrs. Crit Atchison of Plantersville, Ala., Mr. and Mrs. Clifton Atchison and Miss Vera Atchison of Selma, Ala., and James Atchison who is stationed in Georgia at this time. Garland Parnell of Stanton and Herbert Wilson of Cox, Ala.

Mrs. Nell Melton, (nee Nell Atchison) writes from Germany that they have been blessed with a 7 lb. son. "Nell" writes that they are getting along fine.

I'm sure that my readers read every account available regarding the five Congressmen being shot down by Puerto Rican gunners in the House Chambers in Washington, D. C., last Monday. Rep. Kenneth Roberts underwent surgery that lasted 2 1-2 hours on his left leg and certainly let the world know where his thoughts and heart were when he returned from the operating room, still affected by the sodium penathol anneslhetic when his first words were "The Jonquils are blooming in Alabama." How true and how beautiful yet how bad a thing of this kind has to happen to any one. Rep. Kenneth Roberts is well known in this section and always pays his visit to his friends here each chance he gets.

The news of the death of Perry McCormack in Birmingham, Ala., last week end came as a shock to friends here. Mr. McCormack was connected for many years with the McCormack Bros. Motor Co., in Birmingham, Ala. and was at the time of his death owner and manager of Birmingham Motors. Mr. McCormack was buried last Sunday afternoon in Elmwood. Funeral services were conducted at Mt. Pinson, where Mr. McCormack lived.

Temple Church News

Mr. and Mrs. William Mims were in charge of last Tuesday night's prayer service. They presented the Coggins sisters who sang a beautiful duet. The speakers, David Byler and Cecil Murrah, spoke on outstanding men of the Bible.

Thursday night the Men's Fellowship elected new officers as follows: Pres., Acie Mims; vice president, Jack Friday; sec., Amon Jones; treas., Alvin Bridges. After the election of officers Rev. Paul Thompson spoke to the group.

The young WMS's are preparing a nursery in the church. After the services Thursday a group of CA's served refreshments to everyone in the CA room.

Last Friday, Rev. and Mrs. Helms and Mr. Vanis Mims made a trip to Hattiesburg, Miss. They were highly entertained by the Rasberry family. They enjoyed visitlng the church where Rev. Helms was former pastor.

Saturday morning Mr. Earl Rasberry of the Roseberry Piano House of Hattiesburg, Miss, accompanied by his nephew, Jerry West, arrived with a new Wurtlilzer Electric organ for the church.

Sunday School was very good in spite of bad weather, with 121 present. The new organ was played by Miss Betty Troy Helms and the Steinway Piano played by Mrs. Helms, and was enjoyed by all. Betty Troy sang a solo, "I Want to Live There," accompanied by Mrs. Helms at the organ.

The young folks the CA's, brought to a close Sunday night a real challenging contest and between the two sides they raised approximately one hundred fifty dollars.

There was a fifteen minute organ concert by Miss Betty Troy Helms before the regular service Sunday night. A special offeratory number was presented with Mrs. Helms at the piano, Betty Troy at the organ, James Noel Helms with his accordion and Mr. Daniel Byler with his electric guitar.

Special numbers were rendered by the Coggins sisters and a quartet from the CA group.

Our pastor is attending a Southeastern Jubilee at Jackson, Miss., this week.

All are invited to service next Sunday, our new organ will be dedicated.

Visitors at Church Sunday were Mr. and Mrs. Arthur Moss and daughter of Kentucky.

MY PET PEEVE

By W. Scott Boyd

IT AIN'T been so long ago that the word "ain't" was having quite a bit of trouble holding up a bloody but unbowed head whenever it managed to slip in (or out) at one of our centers of knowledge and culture. But "ain't" just ain't had it so good as it has since one fabled wit made the much publicized remark that: "A lot of folks, who ain't saying "ain't," ain't eating."

Personally, I've never been too concerned about this particular word, because it ain't ever bothered me as much as another I've heard bantered about in almost every section of the country I've visited—which is the most of them. It's almost what you could call a word of opposite usage. By this I mean: when a person starts off by saying he "ain't this" or he "ain't that," you know he ain't about to start bragging. He's going to say something negative. But, when he uses this other word

Well, he's about to say something he ain't going to be able to prove if he actually has to.

The word, case you ain't guessed, is "use-ta." I really think something drastic should be done about it. Take the gal next door. She says she "use-ta" date a college All-American, now a famed Pro—but she married a musician. A salesman I know says he "use-ta" sell more accounts than any other salesman in the county, but I know him well enough to know he has as tough a time as I do meeting monthly bills. I know another fellow who "use-ta" know just about any famous person you care to mention, and "use-ta" call them all by their first name

Like I say, it's terrible I used to think something might be done about it, but I am not so sure any more There ain't much hope!

SHOULTS NEWS

(By MRS. EZRA LEE LAWLEY)

The WMU ladies and a few of the men from the community had a cleaning up day at the church Wednesday. They cleaned the church grounds and the yard and set out shrubbery to help beautify the church. There will be another day in the very near future set aside for cleaning the grounds.

Mrs. Harvey Grover spent Wednesday with Mrs. Ezra Lee Lawley.

Mrs. John McKinney and A-2c Bob McKinney and wife spent Wednesday with Mrs. Sherman Motley.

Little Diane Acker, daughter of Mrs. Tommie Joe Acker, spent Thursday with Mrs. Sherman Motley.

There was a large crowd out for church services Sunday morning. Rev. Joe Davis brought a very inspiring message.

Mr. and Mrs. Bill Morris and children from Gadsden, Ala. spent the week end with her parents, Mr. and Mrs. Dan Maddox.

The Maplesville basket ball team has had a victorious year this time I understand they have only lost one game. They will enter the tournament Thursday afternoon. We hope for them the best of luck.

The Sunday afternoon guests of Mr. and Mrs. Ezra Lee Lawley were Mr. and Mrs. Clarence Smith and daughter, Carol, Mrs. Sherman Motley and daughter Mabel, Mrs. John McKinney, Archie and J. R.

Mr. and Mrs. Hudson Smith and children June, Bubba, and Annie Ruth of Birmingham, Ala., visited their parents, Mr. and Mrs. Messer Smith and Mrs. Annie Sewell over the week end.

Mr. Billy Moore of Birmingham, Ala., was visiting his parents Mr. and Mrs. M. C. Moore over the week end.

Miss Norma Jean Smith spent Saturday night with Miss Jo Ann Lawley.

Little Mary Lee Lawley was absent from school Monday due to a bad cold. This fast changing weather is giving colds to lots of people. We hope for her a speedy recovery.

Around OUR HOUSE

How fast the children do grow up! We don't have a four-year-old any more, he is now a grown-up five and very proud of his added year.

"Five years old is old enough to do anything," he said importantly as he struggled to pull on his new cowboy boots.

But five-year-olds still coin expressions all their own, descriptive phrases that fit perfectly. Just this morning the five-year-old came in from play to ask,

Will you find me some thread winders? I need four of them."

Thread winders? I thought fast but I couldn't decide what he meant until he added,

"Maybe I can find some in your sewing box." And he did. He found all the spools he needed.

* * *

Speaking of sewing, our neighbor around the corner had an informal shower for a bride recently and let the guests make dish towels for entertainment.

The idea isn't new, but she gave it a new twist by having the guests embroider original designs on the towels. She gave each guest a plain hemmed towel and saw that lots of colored embroidery thread was in each reach.

They had a hilarious time when the honoree displayed the finished products and they tried to guess what some of the designs were. But, as the bride graciously pointed out, even the towel with the lop-sided elephant on it will dry dishes perfectly!

Our next door neighbor does beautiful embroidery (it was not she who put the elephant on the towel)' and she uses her handiwork to dress up all kinds of things.

The other day I was about to throw away two old felt hats which even the seven-year-old and the five-year-old considered too battered to play with when the next door neighbor stopped by and salvaged them.

When I asked, I learned that she cut the old hats up and sewed the pieces together with colored yarn to make soft, comfortable house slippers. She decorates the slippers with embroidery, making them quite attractive.

* * *

This neighor keeps her embroidery thread neatly wound on empty "thread winders" so that it never snarls and tangles. She saves her spools for this purpose.

* * *

O yes, the next door neighbor says she uses old felt hats also to make hot dish mats and pot holders. She scallops the edges of the hot dish mats, adds an embroidered design and sometimes even puts on a monogram. She often gives sets of three of these hot dish mats in matching designs as gifts.

Our good cook neighbor gave us this recipe for banana nut bread, and it's a real favorite around our house:

Cream 1-2 cup butter with 1 cup sugar. Mash 3 ripe bananas thoroughly and add to mixture. Dissolve 1 teaspoon soda in 4 tablespoons buttermilk and add with 1 beaten egg. Slowly add 2 cups sifted flour and 1-4 teaspoon salt. Fold in 3-4 cup pecans broken into pieces. Pour batter into greased and floured loaf pan and bake in moderate oven (350 degrees) about 50 minutes. Allow to cool well before slicing.

Elementary Class Visits Local Water Works

MY TRIP TO THE WATER PLANT

In Health, while we were studying about purifying water, Mrs. Thomas suggested that we visit the water plant and see how our water is purified. On Tuesday, Feb. 23, the Better Speech Club left for the water plant in squads.

When we reach the plant, Marlon Deason introduced the class to Mr. Blalock, the daytime keeper of the plant.

We first saw a plaque which stated the date, 1939, the plant was erected.

Second, we saw a raw water intake that brings in water from Yellow Leaf Creek at the rate of four hundred gallons a minute.

Third, he told us that ulum, lime, and chlorine are the chemicals put into the water to purify it.

Fourth, we learned that Clanton's water is different from other water in Alabama in that its sediment goes to the top instead of to the bottom.

Fifth, we were informed that after the mixing chamber has gotten out all of the bacteria it can, it is sent to some filters where the rest of the bacteria is gotten out.

On our way back we stopped at Miller's Service Station and had refreshments of candy, bottle drinks, cookies, cakes, and potato chips.

I had a lot of fun and learned a lot about Clanton's water and how it is made ready for us.

—Emily Klinner.

MY TRIP TO THE WATER PLANT

While we were studying water in health, Mrs. Thomas suggested that we visit the water plant to see how our water is purified. On Tuesday the Better Speech Club left in squads for the water plant.

When we arrived, Marion Deason introduced us to Mr. Blalock, the day-time keeper of the water plant who guided us through.

First, we saw the plaque which indicated the date the plant was erected and who constructed it. J. W. Goodwin Engineering Company built it in 1939.

Second we saw a raw water intake which takes in water from Yellow Leaf Creek at four hundred gallons per minute.

He told us that Clanton's water is different from any other water in Alabama. When the water is pumped in from the creek its sediment goes to the top instead of the bottom. This may be caused by gases.

Besides the minerals, lime, alum, and chlorine which have been used for many years to make our water suitable for use, the plant now is adding calgon to help control rust in the pipes. Specimens are sent regularly to Montgomery to be tested for bacteria content.

We found the plant well kept, orderly, and neat, all of which added to our enjoyment of the visit. We were told that the present plant is to be enlarged soon to double our present supply of water. Clanton's rapid growth in population makes such steps a necessity.

After we had been taken through the plant, we bought refreshments at Miller's Service Station.

—Paula Campbell.

WHAT THINGS NATURE HAS MADE

The sun shines so away up high
The clouds are floating through the sky,
The water tanks sway, bright and gay.
And indicate they've something to say.
We look at all that nature has made
The beautiful sun, the restful shade.
A squirrel jumps from limb to limb.
Of living long his chance is slim.
Then back to nature my thoughts turn
And puzzling questions in me burn.
What makes the tree beside me grow?
What makes the waters gently flow?
'Tis certainly the powers of God.
Who made the trees, the sky, the sod.

—Lynn Lineberry.

THE WATER PLANT

The sun was shining way up high,
The water tanks standing against the sky.
The clouds so beautiful and so white,
Seemed to whisper of great delight.

Wind was blowing, oh, so strong,
As if 'twere tryin to sing a song.
And children sitting in the sun,
Weren't quarelling, then, with anyone.

Acorns and rocks were all over the ground.
The wells' raw waters an inspiring sound.
And Mr. Blalock who guided us through,
Gave us facts, we found to be new.

The trip, I must say, was an enjoyable one,
And each boy and girl had lots of fun.

—Kathie Wade.

Sunday School 10 o'clock

John 11:25. I am the resurrection and the life; he that believeth in me, though he were dead, yet shall he live.

Mt. Pleasant welcomes one and all.

Rev. G. Hamm delivered two nice sermons Sunday.

Rev. Geo. Hamm and family spent Sunday with Mrs. Leona Johnson and family.

Mr. and Mrs. C. W. Riggins spent Saturday evening with Mr. and Mrs. L. Oakes.

Our church will hold its BTU class next Sunday night at the Mineral Springs Baptist.

Chas Riggins was on the sick list over the week end.

Prayer services every Wednesday night.

Sorry to hear of Allen Hamm's accident while in the Navy and happy to know he is all right now.

We had our singing Friday night. It was well attended. Opening prayer was by Bro. Lawton Wilson, opening songs by Chairman J. E. Minor. Pianists were: Mrs. Doc Harris, Mrs. James Harris, Mr. L. Boswell, Lloyd Boswell and Stanley Boswell.

Directors were: Miss Lorene Cofer, Lloyd Boswell, Stanley Boswell, Mr. Dock Harris Mr. and Mrs. Dykes of Calera, Bro. Miller, Mr. Henry Driver, Mrs. Bean, Mrs. Blankenship, Mr. Marion Cofer, Mr. L. Boswell, Miss Brown. Closing prayer and song Rev. G. Hamm.

We regret Mrs. Whitehead could not be with us due to illness. We missed her.

Faces missed, T. L. Kendrick and children, Raymond Oates and family, and Chas. Riggins and wife.

We hope they'll all be able to come next Sunday and be with us.

POULTRY INDUSTRY GROWING RAPIDLY

Auburn, Ala. — Alaama's broiler and commercial egg production is growing by leaps and bounds, reports API Extension Marketing Specialist A. W. Jones.

"Last month commercial hatcheries in the state turned out 3,231,000 chicks," he explains. This was an increase of 3 per cent over the same month last year and 167 per cent above the 1948-1952 January average. At the same time the national January figure totaled 140 million chicks, 20 per cent more than in 1953 and only 60 per cent above the 1948-1952 average.

"Although this rapid growth is encouraging," continues Jones, "even greater expansion is possible in most areas of the state. In spite of this year's impressive increase Alabama hatcheries are still unable to meet all the demands of Alabama poultrymen. In addition many of the eggs going into Alabama incubators are still being imported from other areas."

Tomatoes Make Top Returns

Auburn, Ala. — Tomatoes will produce more food over a longer period of time than any other vegetable crop in the home garden.

This was proved in 1953 tests at the Virginia Truck Experiment Station in Norfolk, Va., says API Extension Horticulturist John Bagby. Researchers produced an average of 66 pounds of tomatoes per plant on 25 plants. Ripe tomatoes were available from July until Nov.

Here's how Alabama home gardeners can come up with comparable yields; explains the farm leader

"First, prepare a bed six feet wide and dig peat moss or some form of animal manure into the soil. If nematodes are present, treat the soil with enthylene dibromide to control this serious pest. Apply two pounds of 5-10-5 fertilizer per 100 square feet before setting plants, and space plants four feet apart in the row.

"Next, enclose each plant in a cylinder made of concrete reinforcing wire five feet high and two feet in diameter. Ordinary stock fencing will be satisfactory if supported by stakes. The plants will grow out of the top of the cylinder and down the outside, making a total growth of from about eight to 12 feet.

"After setting, mulch the tomato plants with straw. Then later [illegible] they grow in size, extend the [illegible] over the entire bed.

Quality Begins With Production Says Glasscock

Turning out the kind of quality that sells best begins with production, County Agent M. R. Glasscock said here this week.

The farm leader said the variety of crop or type of animal is important in getting the desired quality. So are correct fertilization control of diseases and insect pests, and other cultural practices necessary for the production of high yields of quality field crops, fruit, and vegetables.

Careful harvesting and handling help maintain quality on the way to market. Sorting for size and uniformity is needed for potatoes, eggs and many other products. The best methods of processing, such as those used in ginning cotton and in seed certification, are followed carefully by those who want to market such products for highest profits. In a similar manner, best methods of feeding and finishing market hogs, calves, broilers, and other livestock products will assist growers in getting top returns.

More and more farmers find that it pays to know and use U. S. grades and standards in marketing cotton, sweet potatoes, and many other products.

Farm practices that make for higher market quality vary by crops and livestock. The important job of [illegible] is a good business [illegible] quality [illegible]

USE THREE RULES TO CARE FOR RUGS

Alice Peavy, API Extension home furnishins specialist, offers these 3 rules for keeping rugs in good condition.

Each day go over the rug with a carpet sweeper, or give the rug a light vacuuming — three passes over each area. Vacuum carefully once or twice a week, depending on the traffic. Then once a year send your rugs to a professional cleaner.

MAKE HIGH PEANUT YIELDS THIS YEAR

This year peanut growers should aim at producing 1500 pounds or more per acre, says API Extension Agronomist D. R. Harbor.

He suggests these practices to reach that goal: prepare land well; use certified Dixie runner seed; shell carefully; treat seed; plant in close rows, using plenty of seed; fertilize and cultivate properly, and control insects and diseases.

W.S.C.S. STUDIES MEXICAN PROBLEMS

The WSCS met Monday afternoon, March 1, at 3:00 o'clock in the MYF room. The meeting was opened by a hymn, "Help Somebody Today."

Mrs. George Tucker, program leader, brought the introduction to the new mission study, the name of which was, "Our Spanish Speaking Neighbors In the Southwest."

The worship center was most attractive with Mexican pitchers, plates, and articles from Mexico. Two unusual and lovely rugs were displayed. The rugs were made at the Christian Mission in Mexico One was the Mexican version of our biblical picture, "Flight into Egypt," and the other was, "The Three Marys." Various pieces of handiwork were used by Mrs. Tucker for her introductory message.

The devotional was taken from the 12th chapter of Romans. A panel discussion of the problems and conditions that confront these Spanish speaking people and what the church is doing to meet these needs was led by Mrs. Tucker, and assisted by Mrs. Ed Waldrup, Mrs V. S. Apperson and Mrs. R. C Williams. The program was closed with prayer

Mrs. M K. Vickers, WSCS president, presided over the business meeting. Mrs. R. C. Williams gave an interesting report on the district conference in Camden.

Those attending were: Mesdames M. K. Vickers, Joe Campbell, R C. Williams, C. Reese Mullins, L. E. Diefenderfer, J. E. Edgar and Mrs. McCain from Maplesville.

The WSCS will join in the World Day of Prayer to be observed Friday, March 5, at 3:00 o'clock at the Presbyterian Church.

The following circle meetings were announced for Monday, March 8: Circle I with Mrs. Tol Kunkel; Circle III with Mrs. Otto Jones; Circle IV with Mrs. Burton Mullins; Circle VI with Mrs. E. W. Walker.

The meeting was closed with Mizpah.

MISSION STUDY TO BE HELD AT METHODIST CHURCH

Each Monday night in March the WSCS of the First Methodist Church of Clanton will conduct a study on "Our Spanish Speaking Neighbors In The Southwest." The meetings will be held at 7:30 p. m. in the MYF room. Every member is urged to be present.

Monday night, March 8, Circles I and II will be in charge. Music will be under the direction of Mrs. Gordon Robertson and Mrs. W. E. Huddleston. Leaders will be Mrs. S. A. Jones, Mrs. Omar Reynolds, Mrs. Joe Mullins, and Mrs. Joe Campbell. Mrs. J. C. Wright will conduct the worship service.

LINDA SPIVEY HONORED ON BIRTHDAY

On Wednesday afternoon, February 24, Mrs. Leo Spivey entertained with a birthday party at her home honoring her daughter, Linda, who was nine years old.

The living room was brightened with camellias and buttercups. Games and contests were enjoyed during the afternoon. The guests were then blindfolded and pinned a key on a lock leading to the dining room which was "candy land."

The dining table was centered with a candy land castle, gum drop tree, pop corn lane, and lolly pop fence, and also a large green tinted birthday cake with nine pink candles. Linda blew out the candles as the guests sang, "Happy Birthday."

Cake and ice cream were served to the following guests: Susan Elsewere, Linda Burdette, Bobby Miller, Tommy Cargile, Mary Dean Williams, Rebecca Chambers, Patsy Williams, Sharron Crowe, Jan Sexton, Willie Melton, Wayne Melton, Emory Davis, little Amelia Joshee, Debra Cargile, and the honoree.

Linda then enjoyed opening her gifts and giving out favors.

Assisting the hostess with the games and refreshments was Miss Doris Bishop, sister of the hostess.

YOUNG PEOPLE OF BTU WERE ENTERTAINED

On Thursday niht, February 25, group number 1 of the Young People's Baptist Training Union enjoyed a party at the First Baptist Church.

The room was gayly decorated in red and white. Games were enjoyed under the leadership of Miss Ann Spicer.

For refreshments Coca-Colas, pop corn, and candy were served. Assisting in the serving were Mrs. C. O. Cox, superintendent; Mrs. Luther Mims, assistant superintendent; and teachers, Mrs. Reese Mullins and Miss Marguerite Perry.

Members of the class who were present were Russell Lewis, Martha Bell, Larry Minor, Ann Spicer, Louise Golden, Betty Kemp, Ann Hocutt, Billy Powell, Jimmy Meacham, Charlotte Wilder, Mary Jo Wagner and Ruby Price.

Week end visitors of Mr. and Mrs. F. E. Wray and son were Mrs. Wray's mother, Mrs. Sallie Evans, sister Miss Irma Evans and nephey, Quinten Evans of Montgomery.

Miss Juanelle Dobbs and Miss Evelyn Burnette attended the Mardi Gras in Mobile over the week end.

Pvt. Harold Gene Parr is being transferred from Ft. Lee, Virginia, to Camp Chasse, Arkansas, where he will receive a reassignment. His parents, Mr. and Mrs. J. C. Parr, are leaving Friday morning to visit him and to take him to Camp Chasse. During the trip Mr. and Mrs. Parr will visit relatives in Oklahoma and Missouri.

The Music Appreciation Club held its February meeting at the home of Mrs. Erle Ellis with Mrs. T. G. Rogers and Mrs. Percy Pitts as cohostesses. The Ellis home was beautiful with many artistic arrangements of specimen camellias and other spring flowers.

The President, Mrs. W. A. Willis, presided over the business session. It was announced that the convention of the Alabama Federation of Music Club would be held in Montgomery, March 17-20, 1954. Mrs. Erle Ellis will sing for this group at the banquet March 18, 1954.

The program chairman, Mrs. Dyer Sheckelford introduced Mrs. Curry Thomas who presented a chorus of eighteen children selected from the three sixth grades of the Clanton Elementary School. The chorus had been directed by Mrs. Raymond Mims. The chorus sang the following two part and three part numbers.

"Dear Lord and Father of Mankind."

"Stars of a Summer Night."

"Aloha Oe"

"Tramp Away."

"Brahm's Lullaby."

Following the delightful program, refreshments were served to twenty one members and nineteen guests.

PRESBYTERIAN WOMEN MET MONDAY

The program was begun by Mrs. M. E. Lord who gave a devotional An article, "The Baby Hunt in Oklahoma City," was discussed by Mrs. Horsley White.

During the business session which followed, Mrs. Lecroy brought out the points of good visitation. There were reports on the work being done. New literature was distributed.

The next meeting will be held at the church.

Those present were Mesdames John Higgins, K. A. Hardy, Ruby Abbott, Raymond Price, M. E. Lord, Horsley White, Ralph Johnston, Herman Lecroy and J. B. Atkinson.

FAYE WILLIAMS CELEBRATES 7TH BIRTHDAY

Faye Williams, daughter of Mr. and Mrs. R. C. Williams, celebrated her seventh birthday, February 22, at her home on Selma Road.

Faye invited ten of her little girl friends to come home with her, from school. Several games were played, with the prize going to Judy Webb. Records and television were enjoyed and a highlight of the afternoon was when Faye received a gift record, personalized with her name and age sung in the record.

In the middle of the afternoon, the children were invited into the dining room for sandwiches, cold drinks, ice cream and cake. The table was decorated with red, white and blue streamers, from the mirror plaque, holding the tiered birthday cake which was embossed with red and was decorated with red cherries and was holding seven white candles. On top of the cake, was a miniature figurine of George and Martha Washington. Each place was marked with little red candy cups with a little paper hatchet. Faye blew out the candles, after the group sang "Happy Birthday."

Later in the afternoon, the children went outside to fish from an improvised pond. Each one caught a plastic fish and was given a favor for her efforts.

Those enjoying this delightful courtesy were: Sherry and Christie Cox, Judy Bean, Darlo Meacham, Mary Clyde Chism, Janice Traywick, Nancy Walker, Judy Webb, Glenda Daniel and the honoree's sister, Lynn Williams. Sandy Pool and Josephine Moore, were unable to come on account of illness.

Folks and Things ABOUT TOWN

—By Ben

We were just wondering why more people didn't think of other people when Sunday School and Church time came around. We believe that more people would attend church if they had a way, or means to get to church. And while you are on your way to church or Sunday School why not pick up a neighbor or a neighbor's kids, and take them along with you. It might mean lot to some to be asked to ride to church once in a while. Give it a try.

And while we're about it. Do you know there are hundreds of people who have no where to go or nothing to do that would like to go for a ride with you some Sunday afternoon. You probably have never given it a thought because you are on the go all the time but not everyone is on the go all the time and a short ride on a pretty Sunday afternoon in God's great outdoors would mean a world to them. If you don't believe us—ask them

Julius E. Smith has annunced for the office of Tax Assessor. There are two others in the race. Buck Roberts and Charles Patterson. Julius made the race six years ago and was defeated by Mr. Roberts. Sam Taub who was a candidate has withdrawn from the race. He explains in a letter in this issue of the News. You'll be hearing more about Julius and his campaign in our next issue.

Herman Crew was another late qualified. He will make the race for Sheriff. There are five other candidates for that office. Herman Lecroy is a candidate for membership on the County Board of Education, place No. 5. The other candidate for that office is James Duke Heflin.

Congratulations to cute little Paula Gore who was recently named "Miss FHA" at Chilton County High School. Yep, she's the daughter of J. E. Gore but darn if you could tell it. Honest, now could you? Gene's as ugly as we are.

The Residential Chairman and Ladies of the American Red Cross, Chilton County Chapter, who devoted their time and efforts Tuesday morning to the Fund Drive are to be highly commended. "Dependable" is the word for them according to the chairman, Mrs. Russell Williams, and dependable they are. With a goal of $500 within two hours they had collected $450, only $50 short of their goal. According to the workers it took longer to get the remaining fifty than it did the $450. But whether or not the local group get national recognition for their efforts we, at home, should take our hats off to them. They are the backbone of our community and certainly a credit to the town and county in which they live. They cannot be too highly praised for their public spirit.

Old Buck Roberts called and wanted to know why we hadn't started his political announcement. Guess we hadn't been notified to do so. Also guess we shouldn't call Buck Roberts "Old Buck Roberts," since he ain't as old as we are. But his announcement is in this issue as is the whole "kit and kidoodle" of 'em. "They're off," and may the best man win.

Isn't the price on that antique rather high", asked the lady to the dealer. "Well, yes," he answered, but you know how the cost of material and labor has gone up.

A LETTER FROM QUINTON CUMMINGS

Quinton Cummings

To the People and Voters of the County:

I announced as a candidate for a Member of the Board of Revenue and Control for District 2 several days ago. This is the governing body of your county. Its actions and decisions vitally affect the people all over the county. This body levys many of the Taxes which you pay upon your property. It is in charge of the building, construction, and maintenance of the county roads and county bridges. It has the right to acquire property and to build public buildings for the county and to do various other public improvements.

As stated in my former letter I am a resident of Isabella Community. I lived there 24 years. I was raised on a farm in a family of 17. I know what thrift, hard work and honesty mean. I now own and operate with my brother a farm in Isabella and also a Grade A Dairy.

I am calling on the people all over the county as fast as I humanly can. I have talked to hundreds of people already. I greatly appreciate the interest shown in my campaign. The encouragement given me has been most wonderful.

People all over the county and in all sections are asking me daily how I am on building a New Court House for the county.

If the Board of Revenue and Control of your county has not already obligated that body to the building of a Court House and placing the county in debt for the building, I promise the people if I am nominated that I will immediately use every effort and means to give the people the right to vote at the polls on whether they want to build a New Court House. I feel that they should also be given the right to say whether the Court House should be moved from its present location. So my position is this: I am against the putting of Chilton County in debt to build a new Court House until the voters have been given an opportunity to vote on that important question.

It is being rumored over the county that I am against the county road system. I want to get the people straight, an dthe record straight and the rumors straight that I am for the county road system as set up in Chilton County. I am also for the paving of as many roads in the county as the finances of the county will permit. I also believe that the road system can be improved upon. The Board Member in his district with the cooperation of the other Board Members, and the road set up, can give better services, and answer more of the demands of the people, and give more consideration to the requests of the people in their districts than are at present being given.

I want to assure the people of Chilton County if elected to the Board of Revenue that I will at all times in my official acts try to abide by the wishes of the people of the county.

WMU Meeting—

The Circle of the WMU met at the church at 1:00 o'clock. Brother Atcheson taught the 1954 Mission book, "In Evangeline's Country." Every one enjoyed the book and Bro. Atcheson had it well prepared. We had several visitors from Corinth and invite them back. Closing prayer was by Mrs. H. J. Taylor.

Circle I and the Brotherhood of the Chestnut Creek Baptist Church are looking forward to meeting the men and women of Floyd Church, Friday night, March 5th, to help them organize a WMU and a Brotherhood. We wish to thank them again for the invitation and hope to meet all the men and women of that community this Friday night.

The Brotherhood did a wonderful job of cleaning the cemetery. They worked all day Saturday cutting trees and dragging them from the cemetery. We're sure everyone will think it looks better.

Those who attended the Brotherhood Convention in Decatur, Ala., last Thursday and Friday were, Rev. Hymon Atcheson, Bro. J. I. Sorrell and Mr. Crayton Taylor. They reported a wonderful meeting.

Mr. and Mrs. Charles Tucker (Martha Lewis) of Montgomery, have been visiting the latter's mother, Mrs. Jettie Lewis.

We are sorry to hear that Mrs. Frank Lewis of Clanton, is in the Central Alabama Hospital.

Mr. Alvin Driver visited his father, Mr. Tom Driver, who is in the hospital at Montgomery.

Weekend guests of Rev. and Mrs. Atcheson were Mr. and Mrs. Edsel Wilkins and Gary of Birmingham.

Sunday guests of Mr. and Mrs. George Patterson were Mr. and Mrs. J. R. Porch, Jackie and Jill.

TURKISH CHIEF . . . First Turkish chief ever to visit U. S., Fres. Celal Bayar, '77, is making tour of our country.

We are glad to know that Mr. Patterson is up and doing fine after her accident.

Sunday evening visitors of Mr. and Mrs. Archie Taylor and Danny Crew also Mr. and Mrs. Arthur Taylor all of Clanton.

Mr and Mrs. Rovie Glenn and Mr. and Mrs. W. E. Glenn and family are visiting S-Sgt. and Mrs. Robert J. Scott of Tampa, Fla.

Monday night visitors of Mr. and Mrs. George Patterson were, Mrs Hymon Atcheson, Mrs. Vera Mae Glenn, Mrs. Archie McTaylor, Mr. and Mrs. J. Thomas Moore of Mobile. Mrs. Mamie Patterson and Lamerle of Montgomery.

Sunday guests of Mr. and Mrs. J. B. Jones were their daughter, Miss Nina Frances Jones of Jacksonville, Ala., Mr. and Mrs. Elzic Jones, Mr. and Mrs. Billie Walker, of Sylacauga, Mr. Curtis Lambert of Birmingham, fiand Miss Shirley Jones of Sylacauga.

Mary J. Morgan was home for the week end from Alabama College.

Mr. and Mrs. Clyde Lewis and children of Montgomery have been visiting their relatives Mr. and M Alphus Dobbs and Mrs. Jettie Lewis and Alston.

FATALITY CROSSES NOW BEING ERECTED

Motorists in Alaama will soon be seeing the grim reminders of reckless death in the form of small white Fatality Crosses now being erected by local Posts of Veterans of Foreign Wars throughout the state, Telfair J. Mashburn of Bay Minette, state VFW Commander, has announced.

Cooperating with the State Highway Department, the overseas veterans organization is observing its 55th anniversary by sponsoring the safety project in a statewide effort to curtail the growing list of fatal highway accidents which jumpepd from 498 during 1952 to 635 in 1953.

The new VFW Fatality Cross, bearing the legend in night reflector paint identifying the number killed, will be placed at all points where fatal accidents have occurred since January 1, 1953.

LETTER FROM CARLOS L. OWEN

CARLOS L. OWEN

It gives me pleasure to greet my old friends, and a happy opportunity to make new ones, as I present myself to the good people of my native county as a candidate for County Superintendent of Education.

Many of you are familiar with me and the details of my life, since my entire 34 years have been spent in your midst, with the exception of my service with the armed forces during World War II. During my four and one-half years of teaching vocational agriculture in Maplesville, some 250 of your boys have been in my classes, and I have considered it a privilege to contribute to their future success as farmers by instructing them to the best of my ability in proven methods of farming practices. Too, an average of 30 adults have been under my supervision each year in connection with the vocational program in agriculture.

Because you are entitled to full information about your candidate, please let me give you a brief personal history. I was born in the Vermont Community 34 years ago, the son of W. E. (Hannan) and Ddie Traywick Owen, and was reared in Poole's Crossroads, 10 miles southwest of Clanton. I attended Popwell School through the sixth grade, entered Isaella in the seventh and was graduated from Isabella High School in 1939. In 1941, I entered the army for a period of service lasting four years, three months and 21 days. Thirty-three months of my service time was spent in the Middle East theater of operations, where it was my privilege to be chosen as a member of a small group of handpicked men for special work.

Upon my discharge from service, I entered school at Auburn, and was graduated in 1949.

For a brief time following my graduation, I worked with the Veterans' Farm Program in Chilton County before assuming my duties as vocational agriculture instructor at Maplesville. During 1951-52, I was president of Chilton County Teachers' Association.

My wife is the former Miss Annie Haggard, of Maplesville, who has also been active in educational and we have three fine children, Carol 7, Nina Jo 6, and Jimmie 17 months.

I am a deacon in the Maplesville Baptist Church, and it is my privilege to serve as Sunday School superintendent.

As for political affiliations, I have one save that of a staunch and loyal member of the Democratic party.

My full interest lies in improvement of educational facilities, and in adequate and proper training of our nation's greatest asset: our youth.

Changes in administration must be made at intervals in the interest of utilizing the talents and abilities of all those who are willing and eager to serve. If you agree with me that a change is in order in the County Superintendent's office, your votes and influence in my behalf will be gratefully received.

CARLOS L. OWEN

SAM TAUB WITHDRAWS!

To The Voters Of Chilton County,

Placing the happiness, welfare, and well being of my family above and beyond any political office, I regretfully withdraw my candidacy for the office of tax assessor.

My very limited political experience has convinced me that tradition will have its say, and, traditionally, Chilton County would not elect to office a candidate of a faith remote to its own.

Of my heritage, I am proud, as you, are proud of yours. Human dignity dictates it so.

Having spent most of my life in cosmopolite New York, I have acquired a philosophy that would permit me, not only to vote for, but to invite into my home with tolerance and joy, any son of God, as borne out by excerpts from a letter written by Rev. E. L. Hardin, whm a great many know, and have had the honor and pleasure to meet.

Letter In Part—

Mr. and Mrs. Sam Taub
Rt. 3
Clanton, Alabama

Dear Friends:

You will never know how much I appreciate your generosity in inviting my mother and father to eat with us in your home. It was more than kind of you. This gave us an opportunity to be together and make new friends.

May God's richest blessings be upon your home.

Sincerely yours,
(signed) E. L. Hardin

Further verification can be obtained from Rev. Hughen, who preaches alternately at Mt. Nebo, Jemison, and Verbena, and who has, with Mrs. Hughen, visited at our home many times. We have, and always will be, honored to be hosts to such fine people.

The foregoing is not written for political furtherance, and would not have been made public, had I not decided to withdraw to the status of a voter.

May we have heavenly guidance in electing a group of officials that will be a credit to Chilton County.

To my many friends, my most humble apologies for any embarrassment I may have caused you.

Many thanks to Ben Tucker of the Chilton County News for the fair and impartial treatment accorded me.

Sincerely,
Sam Taub (Voter)

J. LUTHER KENDRICK

Letter To The Editor—
LET THE PEOPLE WAKE UP AND THE CANDIDATES BEWARE

I have been living in the Collins Chapel Community of your good county fifty-three years. I am a tax payer and have been for thirty of those years. Without bragging, I believe the people know that Collins Chapel Community has been the most wide awake, most progressive, and the best farming community in the county for more than fifty years.

I would think the community has paid more taxes per person in that time than any other community in the county. The community is proud of its good school, its good churches and its modern homes and beautiful farms. We are proud of everything except the fact we haven't been given one mile of paved roads yet. We have been promised paved roads for twelve years and those promises usually come just before every election. That is not getting us any paved roads and I fear it won't get the politicians many votes in our community. The present members of the Board of Revenue, Mr. Jack Lenoir and Mr. Harold Smith, have built wonderful paved roads all over their districts. We understand they have failed to pave our roads because we don't vote right. When this election is over they will have every reason to know and believe that we have voted wrong again.

I believe the people in my community and the people in the county are entitled to know from the candidates and especially the present Members of the Board of Revenue an dControl who are running for reelection what they are going to do about building the Five Hundred Thousand Dollar Court House and Jail. I understand they have already hired architects and have spent over Nineteen Thousand Dollars of the tax payers good money and the architects have the plans drawn to build the new Court House and jail. Is it true that Mr. Lenore and Mr. Smith have pigeon holed these plans thinking the people are going to reelect them to build the new Court House. I am afraid they will be fooled.

The time has come for the tax payers and voters to express their wishes on this important matter. The people of the county have voted down the prposal of building a new annex to the Court House and that has not been warning enough. When will the present Board Members decide to abide the wishes of the people.

I wish more people over the county would express themselves in the newspapers and to the politicians as they come around how they feel on the matter of putting Chilton County in debt for a new Court House and Jail over the wishes of the people.

Yours for the people always

BIG PIG LITTERS MEAN BIG PROFITS

Auburn, Ala. — A dead pig at farrowing time means a loss of five dollars. And a pig lost at weaning time cuts off about $10.

So play it smart, advises G. B. Phillips, API Extension animal industry specialist. Follow these steps to save baby pigs and to send more good top hogs to an early high market:

Use sme kind of farrowing house don't let sows shift for themselves at this important time. Scald the house and scrub the sow two days before she goes into the farrowing house. Feed the sow lightly just before and after farrowing. Take a week or more to bring her to full feed. Use farrowing jackets with homemade pig brooders if electricity is available. If it isn't, use guard rails and don't overbed the house. Be on hand at farrowing. Use homemade brooders to protect baby pigs from cold weather.

Success or failure with the pig crop is usually determined before weaning at eight weeks. So as soon as they'll eat, usually at about three weeks of age, creep feed the litter on a pig starter fortified with proteins, antibiotics, vitamins, and minerals.

4-H Girls Prepare For Dress Review

4-H Club girls are now busy making a skirt or dress for the Contest which will be held at their next 4-H meeting. Girls in the Junior Clubs, elementary grades, will make a skirt and members of the Senior Clubs, junior high school, will make a dress. The Dress Revue will be divided into two groups: Junior Revue for girls twelve and thirteen and Senior Revue for girls fourteen and older.

At the February 4-H Club meetings announcements were made about the Contest and suggestions were given to the girls concerning the making of their garment. The demonstration was on "Hemming a circular skirt."

The only requirement for the Contest is that the garment be made from cotton material. Each contestant may select her pattern and make the dress or skirt any way she likes. Not only girls with sewing projects, but all 4-H Club girls may make a skirt or dress and enter the contest.

At each Club meeting in March three girls in each group will be selected to represent their Club in the County Skirt and Dress Revue which will be held in Clanton. The time and place will be announced later.

The schedule for March 4-H Club meetings is: Monday, March 8, Clanton Elementary School and Jemison; Wednesday, March 10, Collins Chapel, Thorsby, Stanton, and Vermont; Friday, March 12, Mineral Springs; Monday, March 15, Verbena; Tuesday, March 16, Thomas Jr., Mt. Pleasant, and Isabella; Wednesday, March 17, Cooper, and Enterprise; and Thurs. March 18, Mapiesville, Concord, and Pinedale.

JEMISON NEWS

(MRS. GEORGE NAISH)

Baptist News—

A study of Psalms is held each Wednesday night at the prayer meeting hour with the pastor, Rev. Louis Brasher, leading. The attendance is good and we who attend are receiving benefits from the course.

Plans are almost complete for Youth Day April 4th.

Work has begun on a small nursery and offerings have been received. An extension department has been considered and workers contacted.

The Sunday School attendance reaches way over the hundred mark and church attendance is splendid.

The Theme for March in Training Union is "Nourished up in the words of Faith." Scripture: 1 Timothy 4:6. The aim: Cultivation of Our Faith. Song: Break Thou the Bread of Life.

The Training Union Study course will begin March 15th and run through the 19th. Teachers have been secured for all groups. The adults will study "Living in the Faith; the Young People will have "The Faith we Hold;" the Intermediates will read "The Faith They Kept," and for the Juniors "Heroes of the Faith."

Joint Meeting of WMU Circles—

The Mabel Woodward and Esther Noyce Circles of the WMU met at the church, Monday afternoon, Feb. 22 at 3:00 o'clock. The theme of the year: "A Sinful World—a Sufficient Savior." "Meeting of the need of the Migrant—Strangers Everywhere," was the topic of study for February.

Mrs. Seymore Reynolds was in charge of the program and she read the Scripture, Luke 10:30-37. This was the instance of the Good Samaritan. Mrs. Marvin Dawson gave a modern version of this story, using the migrant as the one who mistreated the Southern Baptists as people who aid them. Prayer by Mrs. Reynolds.

Mrs. George Naish told who the imigrants are. Mrs. J. A. Peterson gave the missionaries who serve these people and pointed out on a map of Southern Baptist territory where they serve. Mrs. Cost spoke on agricultural migrants and Mrs. Doris Lenoir gave the conditions under which these people live. Others taking part were Miss Mary Clements, Mrs. Louise Brasher and Mrs. Jurel Peterson. Mrs. George Naish gave a short report of the meeting at Concord church for counselor of auxiliaries and led the closing prayer.

Meeting of WMU—

Tuesday night, February 23, members of the WMU met at the home of Mrs. Flora Mae Reynolds for a book review.

Mrs. B. C. Lenoir, president, presented Miss Mary Clements, who reviewed the book "In Exangeline's Country."

At the beginning of the program all repeated John 3:16; then sang "Into My Heart." Prayer by Miss Clements. Miss Clements used a map of Louisiana, a picture of Miss Annie Armstrong and a placard "How can they Hear Without a Preacher" to bring out points in the book.

The meeting closed by repeating the Great Commission and singing "Rescue the Perishing." Prayer by Mrs. Louis Brasher. Those present. Mds. Bonnie Willis, B. C. Lenoir, V. O. Lenoir, Lois Woodley, Louis Brasher, Tom Cost, Russell Peterson George Naish, Mettie Burnette, Misses Ola Rogers, Mary Clements and the hostess. The WMU presented Miss Clements a "Love Gift". Refreshments were enjoyed during the social hour.

Junior GA's Hold Meeting—

The Junior GA's held their regular meeting at the church Thursday, February 25th.

The meeting was called to order by the president, Willie Lee Blackmon. Then the group quoted the watheword, star ideals and allegiance. This was followed by the singing of the Auxiliary Hymn, We've A Story To Tell. Mrs. Tom Cost, counselor, led in prayer.

The topic discussed was "Migrants". Each one taking part discussed paragraphs to correspond with letters in the word, "Migrant".

Those attending were: Willie Lee Blackmon, Dianne Lewis, Sarah Ellison, Rosa Emma Cofer, Jackie Morgan, Della Cost, Ann Woodley, Carol Brasher, Martha Jo Willis the counselor, Mrs. Tom Cost and co-counselor, Mrs. Bonnie Willis. Closing prayer by Martha Jo Willis.

Annie Sue Cofer hostess—

The Intermediate G. A's met with Annie Sue Cofer Friday afternoon, Feb. 26 at 3 p. m. The president, Elaine Davenport was in charge of the meeting. She read the Scripture, John 3:16-17, and Hebrews 12: 12-14. Ann Guy led the opening prayer. All repeated the watchword, star ideals and allegiance in unison. The auxiliary paid for a lunch for a young boy as community missions for February.

The group presented a program with their topic, "Migrants". Present, Elaine Davenport, Annie Sue Cofer, Kay Ellison, Joyce Wells, Jo Ann Lewis, Shirley Watson, Ann Guy, Sandra Peterson Peggy Blackmon, Mrs. Louis Brasher and a visitor, Judy Reeves. The group enjoyed refreshments of sandwiches and drinks during the social hour.

Peggy Blackmon dismissed the meeting with prayer.

Mr. and Mrs. Wilton Cox and children of Mobile spent the week end visiting her parents, Mr. and Mrs. S. L. McNeill of Jemison and his parents, Mr. and Mrs. Harvey Cox of Clanton, Ala.

Dan Walton, student at Birmingham Southern College was chosen by the student body to serve as Master of Ceremonies at the annual stunt night of the college which was held Friday night. Dan is the son of Mr. and Mrs. C. L. Walton.

From where I sit... *by* Joe Marsh

Operation "Busy B"

Heard about the government "seeding" certain mountain areas with beavers? They've been dropping them by parachute—in cages that open automatically once they touch the ground.

"Native" beavers were trapped out of those woods in the past few years. And without beaver dams to hold back the water run-off, they've been having flash floods in the lowlands.

So now they're putting the busy beavers back to work to build dams and protecting them with stricter game laws. Guess that comes under the heading of "learning from experience."

From where I sit, an ounce of prevention is always better than a pound of cure. Ever notice, for instance, how the beer retailers in town take special precautions? They co-operate voluntarily with the Self-Regulation program sponsored by the Brewing Industry. They always keep their places neat and orderly. They win respect of the whole community by being "eager beavers"!

ANOTHER MESSAGE FROM YOUR FRIENDLY FORESTER

TWO MILLION IS A LOT OF TREES!

During the past two months my company planted over two million pine tree seedlings which were raised last year in our nursery. These trees have been planted in abandoned fields and poorly stocked woods to help Keep Alabama Green.

If they are protected from fire, these two million trees will grow new wood each year, providing "Trees for Tomorrow" and future income to the people of Alabama.

Pine seedlings will grow almost anywhere on nearly any kind of land. More seedlings are becoming available to the public from State and private nurseries every year.

Plant Trees!

Take care of them today!

They will take care of you tomorrow!

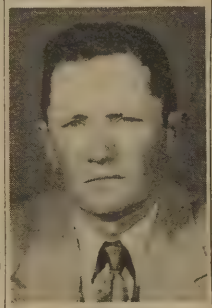
LONNIE COST WRITES VOTERS



LONNIE COST

I am asking the good people of Chilton County to elect me to serve in the Board of Revenue and Control from the First District. If elected I will serve the people to the very best of my ability and remember at all times that I am a servant of the people of this county. I will work for the people's interest at all times. I also believe that every person living in Chilton County should have a good road to his home regardless of his personal beliefs or financial conditions.

I was born and reared in Chilton County and my entire allegiance is the citizens of this county. I served as a school trustee for many years and my primary interest is to see our county advance until it is the leading county in Alabama in education and scientific achievement. To me it is already a leader in just good people.

For the last 10 years I have been doing farming and carpenter work. I feel that through my experience I know the problems of the farmer and the working man in this county. If elected as a member of the Board of Revenue and Control of Chilton County, I promise that I shall make every attempt to serve them and everyone else on a fair and impartial basis.

I married the former Maude Ellison of this county and we have raised a family of six children. My father, Rev. John Robert Cost, and my mother, Mrs. Mahalie Sammons Cost are also natives of this county and have been respected citizens here for their entire life. My father has been a Baptist minister in this county for over 30 years.

I hope that each of you will study well my qualifications and will give me the opportunity to serve as Member of the Chilton County Board of Revenue and Control from the First District of Chilton County.

I hope to see each and everyone of you and talk to you personally before May 4th.—Lonnie L. Cost.

(Pd pol. adv. by Lonnie Cost, Clanton, Ala.)

PATTERSON ENTERS RACE FOR TAX ASSESSOR

I am a candidate for the office of Tax Assessor of Chilton County.

I was born and reared on a farm, one, of a family of eleven children.

I attended Troy State Teachers College and the University of Alabama, working at various campus jobs to pay my expenses.

After leaving college I was a high school football coach and a high school principal for a period of nine and one half years, terminatin this position in February of 1941 to go on active duty with my National Guard unit as a First Lieutenant of Artillery. I remained on active duty for a little more than five years and was discharged as a Lieutenant Colonel.

After seperation from the service I was employed as a Training Specialist with the Veterans Administration for a little over six years. This employment dealt entirely with the program of rehabilitation of disabled veterans. For the past one and one half years I have been connected with the Alabama Farm Bureau Insurance Company.

My wife, Helen Moore, is the daughter of Mr. and Mrs. J. Watts Moore of Clanton, Alabama, and we have one son, "Little Charlie," who is eight years of age.

I am a member of the First Baptist Church of Clanton and just recently completed a regular four year term as a member of the Board of Deacons. Also I am a member of the choir, Brotherhood, and a teacher in the Sunday School Department.

I am a member of the American Legion, Chilton County Chamber of Commerce, Chilton County and Alabama Cattleman's Association. I belong to the Clanton Masonic Lodge, and am a 32nd Degree Mason and a Shriner.

I am conducting my own campaign and have no affiliations with any other political group or organization. My campaign will be conducted in a clean and honorable manner and I hope to personally contact as many voters of this county as is humanly possible. I feel that I am well qualified for the position for which I am seeking and if elected promise to diligently perform the duties of the office to the best of my ability.

Your vote and influence will be greatly appreciated.

Charles L. Patterson.

Courthouse Question To Be Voted On

FRUIT AND VEGETABLE GROWERS TO MEET HERE TONIGHT

Chilton County fruit and vegetable growers are to meet at the Court House Clanton, Thursday, March 11 at 7:00 p.m. to study proposal for improvement of the Birmingham produce market.

Following a detailed study of market needs of the Birmingham area, a proposal to expand and improve the facility is under consideration. Information on the findings of the study group and on the new proposal has been made available to all Chilton County members of the Jefferson County Truck Growers Ass'n. However, only twenty-four Chilton County growers are active members of the Association. Over one thousand Chilton County produce growers use the Jefferson County market. All users are interested in, and affected by the Birmingham market. The Chilton County meeting is called primarily to give all produce growers an opportunity to become familiar with the new market plans.

All fruit and vegetable growers are encouraged to attend this important meeting at the Court House Clanton, Thursday, March 11th at 7:00 p.m.

Culp Gets Big Send-Off From Home Folk

DELOS P. CULP

A large number of enthusiastic Chilton County friends of Delos Culp crowded into the lunchroom of the Chilton County High School Tuesday night to give their favorite son a big send-off in his candidacy for State Superintendent of Education. Many more were turned back because of lack of space.

In addition to Chilton County friends were a number of educational leaders from neighboring counties. These guests were introduced by County Superintendent, Howard Boockholdt.

The Master of Ceremonies for the affair was Dr. W. L. Parrish, former Probate Judge. Assisting him was Patterson Hicks, former principal of Chilton County high school. background of Dr. Culp and gave These men outlined the family some of the highlights of his career. Dr. Culp gave a brief summary of his educational ideals and his plans for our state educational system.

Appropriate music for the occasion was lead by Mrs. Arah Stanley, accompanied by Miss Nelma Jo Boockholdt. Much enthusiasm was shown. Dr. Culp was assured that Chilton would be behind him in a big way. Also introduced to the group were Mrs. Delos Culp and Mr. J. D. Culp, father of Delos.

A campaign finance committee was appointed, consisting of Mr. Leo Thompson, Mr. Jimmy Bell, and Mrs. Laura Little. Friends wishing to assist Delos financially may do so through this committee. A considerable amount of money will be required to do the things for Dr. Culp that his friends in the county want to do for him. Contributions are needed and welcome. Deposits may be made at the Peoples Savings Bank.

FFA PUBLIC SPEAKING CONTEST HELD

The Chilton County public speaking contest was held Thursday night February 25 at the Chilton County High School lunch room. The Kiwanis Club was host.

The speakers were: Curtis Smith of the Maplesville Chapter. His subject was "FFA Spells Success." Curtis Baker of the Clanton Chapter was second speaker and his subject was "Why I Want to be a Farmer." The last speaker was James Davenport of the Jemison Chapter. His subject was "Why we should conserve our natural resources."

All speakers did a wonderful job, however, Curtis Baker was given first place after being questioned by the judges.

The judges for the contest were: Glenn Carlee of Wetumpka, Arthur Wallace Headley and John Sellers of Clanton.

Construction On New Hospital Scheduled To Begin May 1st

Latest Report On Seed Supply And Demand

Auburn, Ala.—Here's a report about the latest supply and demand situation on seed from Ralph Jones, API Extension seed crops marketing specialist.

Cotton: an adequate supply to meet normal demands. Seed quality is excellent this year. **Corn:** more demand than supply of good seed of the best adapted hybrids for the South. **Soybeans:** adequate supply of most varieties. **Cowpeas and velvet beans:** supply short. **Ladino and white clover:** big crop last year, plus a carry over, adds up to a large supply. **Lespedeza:** short supply but possibly enough to meet the 1954 demands.

"Regardless of the supply situation on any given crop," says Jones, "purchase seed before the last-minute rush which usually occurs at planting time. The early buyer always gets the pick of the supply."

SOIL CONSERVATION AWARDS ANNOUNCED

Akron, O.—Three Alabama men have been selected to be the judges who will determine the state's winners in an annual national soil conservation award program, it was announced here today by Goodyear Tire and Rubber Co., sponsor of the program, currently in its seventh year.

The Alabama judges will be: J. C. Cannon, state supervisor of vocational agriculture, state department of education, Montgomery; D. L. Yarbrough, farmer member, state soil conservation committee, Prattville, and S. R. Doughty, specialist in soil conservation, U. S. Extension Service Auburn.

The outstanding farmer from the Alabama district selected as best in the competition and one member of the first place district governing body will be rewarded with a vacation trip to Arizona in December, as guests of the sponsor. they will also receive, at the regional meeting of the National Association of Soil Conservation Districts this year, bronze plaques as a permanent symbol of their achievements in conservation.

Competition in the current program ends on April 30 and names of winners selected by the judges will be announced from Akron in July. A new annual program is scheduled to begin on May 1. Scoresheets for consideration in the current program should be submitted to Chairman Cannon, of the state judging committee and must be filed not later than May 15.

Per capita consumption of most livestock products is increasing.

BIDS TO BE OPENED HERE ON APRIL 6

In a matter of weeks now, the people of Chilton County will be able to drive out on the Lay Dam Highway about one mile from the Court House and see under actual construction one of the most modern hospitals ever to be built in this area. Plans and Specifications for this facility are now in the hands of a number of contractors who are preparing their bids to be opened on April 6th here in Clanton. Upon the opening of the bids, some will be submitted to the State Board of Health and the U. S. Public Health Service for final approval, then the formal award of the contract will be made. Under this procedure, construction should actually begin about May 1st.

As previously reported, this Hospital will cost an estimated $600,000.00, completely equipped, the latest in modern designs and equipment being used. The structure will be one story masonry construction, concrete floors and roof. Provisions for forty patient beds, plus nurseries. There will be a major, minor, and emergency operating rooms; also two delivery rooms, pre-labor rooms, sterile supply, and other necessary rooms in the operating-delivery suite wing.

A nurses station will be located in the central area, as well as the main waiting rooms, offices, public rest rooms, etc. The X ray, laboratory, pharmacy, and treatment and examination rooms will be located in the front left section of the building. The right section will house the service area and the maternity wing. The service area consists of main kitchen, refrigeration storage, staff dining room, pantrys, clean and soiled linen storage, supply storage, boiler rooms, locker rooms, etc.

Patient bed rooms will consist of rooms. Equipment will be provided private, semi-private and 4 bed ward for each room and area and will be the most modern available. The cost of this hospital is being financed under the popularly known Hill-Burton bill by which the Federal Government appropriates $400,600.00, or two-thirds the total cost, $60,000.00 from the State of Alabama, the balance from proceeds of a local 4 mill tax.

HOME SEWAGE SYSTEM

There is an ever increasing demand for modern plumbing, and the conveniences that go with it, in rural homes or areas where there is no municipal sewage system. Increased knowledge has increased this demand, since it is now known that the careless disposal of home sewage is responsible for many diseases. The improper disposal of ace to the health of a family or sewage is possibly the greatest menacommunity.

A properly constructed septic tank and disposal field is the most satistactory and sanitary method of sewage disposal, where a community sewage system is not available. An improperly constructed septic tank not only fails in its purpose of protecting from diseases, but also becomes a constant worry. A sewage system improperly instal ed, actually increases the hazards since it gives one a false sense of security.

The Health Laws of Alabama, designed for your protection, set forth the type sewage system that may be used. The County Health Department is prepared to assist you in installing the proper system whether you build the septic tank yourself, or hire it done. All installations must be inspected and approved. If you will insist upon this when you hire the work done you will be assured of a system that will function properly.

RECENT SOLICITOR WAS NOT REPRESENTING DAV

According to D. H. Askins, Commander DAV Chapter No. 33, the individual who worked the business area of Clanton some few days ago offering what he called "a patriotic emblem" (a small red, white and blue ribbon attached to a pin) was in no way soliciting for the organization nor any part thereof.

Askins stated that his National Headquarters has advised him that this begging or solicitation is prevalent all over the country and that in most instances the individuals have strongly inferred that they represent our organization. He also added that the DAVs made but one fund drive each year for the purpose of raising funds for the rehabilitation program of disabled veterans and that the drive was usually preceded by publicity in the location where it was being carried on. Official solicitors of the DAV usually wear an arm band or other identifying marks distinguishing them from the impostor beggar who would seek to discredit the good name of the DAV.

The beggar who came through Clanton was brazen enough to try to buy lapel membership buttons from local members.

Askins stated that he knew that the people in this county are very war hearted and wanted to help the Disabled Veterans in any way possible but he cautioned that you must be on the alert for just such imposters as the one who came through recently.

Use scissors to mince parsley, to trim pastry and crusts, and to cut marshmellows, celery, and rhubarb.

Board Of Revenue & Control Unanimously Asks Public Poll

At the regular meeting of the Board of Revenue and Control on Monday of this week, Board Member Mr. Jim Dunlap made a statement before the Board that he felt that before the County Governing Body should obligate the County for an indebtedness in the amount necessary to build a new court house, that it should be submitted to a vote of the people. Mr. Dunlap further stated that he considers that the Board Member are merely the servants of the people of Chilton County and should abide by the wishes of the people when the law will allow them to do so. In discussing the matter, the entire membership of the Board and the Probate Judge considers that there is a definite need for a new court house in the County, and that the estimated cost of same is approximately $490,000.00. However, the Board felt that before obligating the people for such indebtedness over a period of years for the construction of the proposed new court house, that the same should be submitted to a vote of the people in the regular election in November, and they unanimously agreed to abide by the wishes of the people in this election.

Subsequently Board Member Dunlap offered a resolution which, in effect, is as follows:

"Shall Chilton County build a new court house at an approximate cost of $490,000.000, and with the understanding that same shall be built without levying any additional taxes than are now being levied?"

This would be the essential wording that would be carried on the ballot sheets in the general election this coming November.

Upon submitting the above resolution by Board Member Dunlap, the same was seconded by Board Member Sherman Motley. When submitted to the vote, all members of the Board, who are Jack Lenour, Mr. Jim Dunlap, Mr. Harold Smith, and Mr. Shefman Motley, voted in favor of the resolution. The Chairman of the Board, the Probate Judge, M. D. Tingle, expressed himself as being definitely in favor of this action as passed by the Board.

This information is released to the citizens of Chilton County due to the widespread interest that has been expressed on this issue, and it is hoped that this will be helpful in clarifying the minds of many people as to the position of your Board of Revenue and Control and the Probate Judge.

BLOODMOBILE WILL VISIT CLANTON NEXT TUESDAY

The American Red Cross bloodmobile unit from Birmingham Blood Center will visit Chilton County again for the purpose of collecting blood on March 16th. The local Blood Center will be open from 12:00 noon until 6:00 p.m., at the First Methodist Church basement in Clanton.

FORMER RESIDENT COMMENDED BY COMMANDING OFFICER

Mr. and Mrs. Marvin Martin
Box 461
Dothan Alabama.
Dear Mr. and Mrs. Martin:

As Commander of the 3502D Personnel Processing Squadron (AC-OC) I take great pleasure in informing you that your son has successfully passed the air crew test battery and has been found fully qualified for aviation Cadet Training. You should be heartened by this news for, the screening of applicants is very thorough, resulting in the qualification of only those who possess the exacting attributes so necessary to success in the Aviation Cadet training program.

The ambition of your son, as indicated by his application for this training, is reassuring indeed. A constant requirement exists within the United States Air Force for young men with initiative and great aspiration.

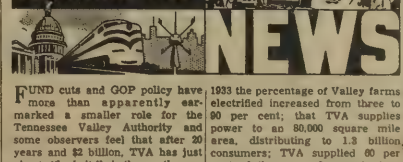
You, as the parents, have every right to be extremely proud of your son, for he reflects the splendid training and supervision so carefully given by you.

If I may be of any assistance to you at any time, please feel free to contact me.

Sincerely,

Benjamin G. Nelson, Major USAF
Commander

The above is a copy of a letter just received. As many of you know Kendall is a graduate of Jemison High School and a life long resident of Union Grove Community, a grand son of P. M. Martin of Union Grove and J. P. Bean of Mineral Springs. Out of a class of 600 Kendall was one of 14 that passed.



FUND cuts and GOP policy have more than apparently earmarked a smaller role for the Tennessee Valley Authority and some observers feel that after 20 years and $2 billion, TVA has just about "had it," both on the regional and national scene.

TVA directly affects the seven states it touches, which are Tennessee, Alabama, Kentucky, Georgia, Virginia, North Carolina and Mississippi. It also supplies power to the Atomic Energy Commission, munitions materials for defense, and fertilizers for farm-education programs in 36 states. TVA activities include the generation, transmission and sale of power, resource development, navigation, flood control, fertilizer and munitions programs.

President Eisenhower has cited TVA as an example of "creeping socialism" and has hinted broadly that the entire valley has its hand out. While maintaining that he has no desire to damage TVA, the president has shown marked impatience with the fact that too many people too often try to get the Federal Government to expand the power facilities of TVA. He feels that cities in the valley lean too heavily in this direction instead of growing industrially on their own strength. Memphis, for example, has been plugging for a steam plant, to be located on the Mississippi River above the city. The president's suggestion that they should be able to build their own is a good indicator of what's in store for TVA in the days ahead.

TVA backers point out that since 1933 the percentage of Valley farms electrified increased from three to 90 per cent; that TVA supplies power to an 80,000 square mile area, distributing to 1.3 billion consumers; TVA supplied 60 per cent of the pure elemental phosphorous used by the Armed Forces in World War II; and that in no other region of the country is so great a proportion of total power supply being devoted to national defense — primarily to atomic plants.

Those who feel TVA should be cut down, point out that it started in 1933 with 45 employees and had 22,406 workers on its payroll at the end of fiscal year 1953. In the 20-year period, $2,680,427,000 was made available to TVA through appropriations, and revenues from such TVA operations as sale of power. From this, TVA made gross expenditures of $2,253,853,000 and had total assets of $1,149,539,000. Another $210 million was being invested in construction and at the start of its 21st year, TVA's 20th dam and seventh steam plant were under construction.

TVA supporters, like Sen. James O. Eastland (D-Miss) say TVA is on a "starvation diet." The facts are that sharp cuts were made in TVA resource development appropriations for fiscal 1954, which ends this June 30, which could affect TVA effectiveness as a regional agency; that the president made comparatively few new money requests for TVA in 1955—$141.8 million; that the fiscal 1955 budget included no money for TVA construction of new generating units.

DRUMS OF DEATH TO BE PRESENTED BY SENIOR III CCHS

"Drums of Death" by Howard Reed is the play soon to be presented by the Senior Three Class of Chilton County High School. It is a tense drama involving the midnight meeting of a group of oddly contrasting people summoned by a telegram which they soon discover is false . . . but the discovery comes too late for them to escape from a place where weird forces and a series of plots threaten their very lives. "Drums of Death" combines the disappearance of an eccentric old gentleman, a cabinet which is death to open, ghosts and a monster that creep from every shadow, and a mysterious but deadly African stone, into a mystery so gaffling it will keep you on the edge of your seat.

The cast includes, Janet Leibold as Celeste, the octoroon servant who has weird trances; Rubye Price as the housekeeper who nearly breaks under the hidden terror of the place; Jean Thompson and Jo Ann Royal as Paula and Amelia, young modern girls of contrasting types; Joan Smith as the gushing Eugenia; Rochelle Marcus as Mrs. Gillette who intends to put up with no nonsense; Jimmy Jones as Jules, the Haitian nero servant; Patsy Buckner as Dr. Cameron, a prosperous woman medical specialist; Curtis Harris as Hartley, the lawyer who is in charge of the Bailey estate; and Jimmy Gillespie as the sheriff who, unintentionally, provides the play with plenty of laughs.

BREATHES THERE A MAN

In "kicking off" his campaign at the Chilton County High School this week, Dr. Delos P. Culp, announced to one and all his desire and his qualifications to serve as State Superintendent of Education of Alabama for the next four years.

The Chilton County News fully believes there is no abler man in the State to serve in this office than Dr. Culp. Maybe we are a little prejudiced but we have known Dr. Culp for the past 15 years and personally know him to be a man of truth, ability, courage, and determination to do what is right.

Breathe there a man in Chilton County who can fail to spread the word over the entire state of the fitness of our own Dr. Delos P. Culp for the office he seeks in the May, and June 1, Democratic Primaries.

In Dr. Culp the State of Alabama will have a strong and efficient Superintendent of Education. He has worked in most of the phases of education and knows the needs of the Department. It is one of these rare cases where "the man and the moment have met." Let's tell the voters of Alabama about our candidate for the office of State Suprintendent of Education. Let's elect Dr. Delos P. Culp on May 4.

MAKE COURTESY YOUR CODE OF THE ROAD

The popularity of books on etiquette indicates that by and large, Alabamians are interested in manners. And a little observation of our friends and acquaintances will prove that most of them act courteously in the greater part of their dealings with their fellow man.

But there's one whole phase of courtesy that's sadly neglected. That phase is "motor manners."

When an individual opens the door of his car and slips behind the wheel, he too often changes from an apparently courteous, law-abiding citizen into an "auto-intoxicated" boor (i.e. a motorist drunk with the power at his command.)

This lightning-like change has been the subject of some very funny jokes, cartoons and stories. But there's nothing funny about its effect on traffic safety. The driver suffering from "auto-intoxication" is a menace on the road.

As long as there are individuals who act this way, Alabama will be plagued by senseless traffic accidents and deaths. Indeed, 196,000 accidents and 871 deaths during 1954, the Alabama Safety Council predicts. Accidents and deaths that could be avoided if the people involved would look at things from the other fellow's point of view.

Courteous conduct on the highway is far more important than courteous conduct in the living room. It can mean the difference between life and death.

During this month, every newspaper and radio station, automobile and dealer and civic group, and the Alabama Safety Council are making an intensive effort to bring this fact home to the people of this state. We urge that you support the "Code of the Road" program. It will be a success if everyone will take to heart the slogan "Make Courtesy Your Code of the Road."

ANOTHER CONQUEST OF MT. EVEREST

Report from Washington

BY

ARMISTEAD SELDEN

Congressman, Sixth District

Although I was present throughout the entire incident, the attack by four Puerto Rican revolutionists on the members of the House of Representatives last week still seems almost unbelievable.

After eating lunch with Reps. Kenneth Roberts, Albert Rains and Bob Jones, I returned to the House chamber to hear the remainder of the debate on a bill to continue the use of Mexican farm labor in this country. Seated to my immediate left were Rep. Lester Johnson of Wisconsin and Rep. Billy Matthews of Florida. Shortly after I had returned to the House floor, Congressman Roberts came in and seated himself directly in front of me. To his left was Rep. Percy Priest of Tennessee.

Kenneth Roberts had been in his seat only a short time when Rep. Harold Cooley of North Carolina asked for a vote on the rule at issue. Speaker Joe Martin called for the "ayes" and both Kenneth and I stood to cast our votes in the affirmative. Speaker Martin finished counting the vote, and we had hardly settled back in our chairs when I heard a series of reports. At first I thought someone had set off a package of firecrackers. This reaction was only momentary, however as I glimpse gunfire in the gallery to my right almost instantly. I immediately dropped to the floor and yelled, "Hit the the floor!" Congressman Johnson and Matthews both followed suit.

Sees Gunman Reload

During a short pau e in the shooting, I raised up or my knees and looked over the back of the seat. At that time the Pureto Ricans fired another volley and I dropped back to the floor. After the second round of firing had ceased, I stood up and saw one of the Pureto Ricans attempting to reload his pistol. Finally, as I stood watching, and in a moment that seems like hours, someone in the gallery rushed over, grabbed one of the fanatic gunmen's wrists and shoved him into the hallway outside the gallery. Two more of the would-be assassins were then apprehended and the fourth, believed to have escaped during the commotion, was picked up later in a bus station.

Since there were scores of Congressmen who had dropped to the floor during the siege of gunfire, it was almost impossible to tell at first which ones had been hit. Within a few minutes I noticed that Kenneth Roberts had gone to the other end of the aisle and was still lying on the floor. I hurried over to find that Kenneth had a bullet hole through his left leg, slightly above his knee. Rep. Priest had removed his necktie and was using it as a tourniquet to stop the flow of blood from Kenneth's wound. I rushed to the Democratic cloakroom and got a pillow to put under Kenneth's head. A stretcher was brought in a few minutes later, and I helped to place him on it. We carried him out the front door, down the steps on the House side of the Capitol, and placed him in the first ambulance. Congressman Lester Johnson and I accompanied Kenneth in an ambulance to Casualty Hospital and remained with him until his leg had been dressed, and we had been assured that his wound was not critical.

I then returned to the Capitol with Rep. Johnson. We went into the House chamber and found that a bullet had travelled through the seat directly in front of Kenneth and into his leg. This bullet had fallen dead and was picked up only inches from the spot where I had been lying.

In the immediate area where we had been sitting, Congressman George Fallon of Maryland had also been struck by a bullet; and a number of others had been lodged in the seats and the walls. The FBI estimated that a total of about 25 or 30 shots were fired.

The fact that only five members were struck is no less than a miracle.

I can certainly look back on Monday, March 1, 1954 as a day of good fortune for me. In addition to escaping injury in the shooting affray, I learned at midnight that I would be unopposed for re-election to Congress in the forthcoming Democratic primary.

I am most grateful to the citizens of the Sixth District who are allowing me to return to Congress for a second term without opposition. It is with real pride that I serve as a member of this great body, and I can assure you that I shall continue to make every effort to do a creditable job for the fine people I have the privilege of represent-

Ike's Popularity Is Up Again

Princeton, New Jersey—President Eisenhower is more popular today with rank and file American voters than he was a year ago.

The latest United States Poll popularity check shows that more than seven out of every ten of the nation's voters (72 per cent approve of the way the President is handling his job in the White House.

This is an increase of 3 points since mid-January when his popularity index stood at 69 per cent.

A year ago, the United States Poll Eisenhower popularity barometer registered an approval vote of 65 per cent. By April it climbed to 74 per cent. In July it registered 71 per cent; in October, 73 per cent, and last November, it dropped to 64 per cent.

When United States Poll staff reporters asked a representative crossection of the nation's voters: "Do you approve or disapprove of the way Eisenhower is handling his job as President?"

These were the results:

Eisenhower Popularity, Nationwide

Approve	72 per cent
Disapprove	22 per cent
No opinion	6 per cent

In mid-January, 69 per cent approved; 24 per cent disapproved; 7 per cent expressed no opinion.

Highlight of today's survey findings is that the President's popularity has risen a total of 5 points among independent voters across the nation since the previous survey.

At the present time, more than seven out of every ten Independent voters (72 per cent) approve of the way Mr. Eisenhower is handling his job.

Independent Voters, Nationwide

Approve	73 3per cent
Disapprove	23 per cent
No opinion	4 per cent

Seven weeks ago, Independents across the antion voted as follows: Approve 68 per cent; disapprove 27 per cent; no opinion 5 per cent.

Among Democratic voters, Eisenhower's popularity has jumped points since the previous survey.

Today a majority (55 per cent) nation approve of the way the President is handling his job.

Democratic Party Members, Nationwide

Approve	55 per cent
Disapprove	37 per cent
No opinion	8 per cent

The January survey showed the Democratic vote as follows: Approve 51 per cent; disapprove 39 per cent; no opinion 10 per cent.

And among GOP voters across the country, nine out of every ten (90 per cent) give the President a definite nod of confidence—a 2 point jump since mid-January.

GOP Members Only, Nationwide

Approve	90 per cent
Disapprove	6 per cent
No Opinion	4 per cent

In January, the United States Poll showed GOP sentiment as follows: Approve 88 per cent; disapprove 7 per cent; no opinion 5 per cent.

Todays results do not necessarily mean that 72 per cent of the nation's citizens would vote for President Eisenhower if an election were held today. (He received 55.1 per cent of the total vote in the Eisenhower-Stevenson election in November, 1952.)

It does, however, mean that the rank and file of voters across the country presently approve of the man elected to the natin's highest office on Election Day, November 4, 1952.

Things we -SEE- and Hear

by "Tuck"

They aren't likely to resent being left out of it, on the contrary, they might have appreciated it, but the fact still remains that I left some of the late comers in the political races out of the "Soup" last week and I apologize. It's O. K. fellas, you might have a better chance to win, now.

Like the old miser once said, "That piece of money you lost may have been the very one to start you on the road to fortune." Makes you stop and wonder doesn't it?

Noticed a fishy look around town lately? Yeh, all the fellas are emphasizing fishing tackle and odds and ends now and the real fishing season is just around the corner. Nice to think about it even if you don't have time to go.

You've heard the old saying, "You scratch my back, I'll scratch yours." I wish some of my creditors would accept that as payment on my bills. Can't seem to find anyone who needs their back scratched.

You wouldn't be human at all if you didn't complain about someone else's complainin'.

All work and no play makes "jack."

I guess most of you are familiar with old Jim Plott. Heard a fella ask him the other day how Big Jim Folsom was doing and he answered 'em something like this, "Big Jim's doing fine and can take care of himself, what I want to know is how Little Jim's doing." Jim's not gonna like calling him "Old Jim."

Most of you good citizens noted, I'm sure, in last week's paper the opening of a new and complete record bar in Clanton. Carter Brothers have the latest things in the record line. They tell me they have quite a complete stock and more to come. Why not drop in on them and see if they can't satisfy your wants and wishes. Everything from hillbilly to classics.

Seems to me, if folks would spend more time boosting their candidate rather than knock someone else's they'd get their's a lot further along. You're fooling yourself if you think throwing someone else's name in the mud will help in any cause, political or otherwise.

Clean the bottom of an iron when it is slightly warm; wax paper will remove scorch.

Chilton Active In 4-H Work

Above are pictured members of the Chilton County 4-H Council.

The 4-H County Council is composed of officers of each of the forty (40) boys and girls Clubs throughout the County. These Clubs meet in sixteen schools in the county. The Council meets six times yearly and with the aid of the County Extension workers plans the 4-H activities of the year.

Some of the activities that the Council has planned for 1954 are: have County 4-H Rally April 23rd; observe National 4-H Week March 6th-11th; observe National 4-H Sunday May 23; organize older 4-H groups; have training meetings for 4-H Neighboraide Leaders in May; hold Neighboraide summer meetings; send delegates to State 4-H Camp; participate in District Shows and Contests; have the following Contests for girls, Dairy Maid, Baking, Dress and Shirt Revue, Dairy Foods; continue to sponsor mail box improvement; hold summer recreational meetings; and find and use 4-H talent.

At the December Council meeting the following officers were elected to serve in 1954: President, Patsy Young, Cane Creek; First Vice-President, Jimmy Kincaid, Thorsby; Second Vice-President, Carolyn Cox, Thomas Jr.; Third Vice-President, Tommy Smith, Thomas Jr.; Secretary-Treasurer, Patsy Boles, Isabella; Reporter, Geraldine Miller, Thomas Jr.; Song Leaders, Lucille Blalock, Thomas Jr., Ann Logan, Mt. Pleasant, Willie Scott, Jemison and Herman Kendrick, Mt. Pleasant.

Sixty-four 4-H Council members representing twenty-six clubs were present at the December meeting when the picture was made. In addition to the officers the 4H'ers present were: Evelyn Porter, Linda Joyce Ellis, Carolyn Ann Mims, Dianne Webb, Bonnie Sue Knight, Tommy Tiffin, Lou Jetta Maddox, Margaret Gilmore, Doris Robinson, Myra Rutherford, Frances Kimbrell, Barbara Bolton, Diane McGentry, Helen Rushing, Juanita Popwell, Sue Culp, Ainta Lockhart, John Wayne Veazey, Harold Gilliland, Linda Messer, June Penton, Martha Sue Miller, Helen Dooley, Linda Driver, Lucille Edwards, Joan Smitherman, Tommy Warren, Thomas Minor, Carl Ray, Ralph Minor, Jo Ann Perry, Jimmy Zines, Zed Williams, Charles Brooks, Patricia Ann Messer, Peggy Brown, Jeannette Dunn, Helen Edwards, Dot Billingsley, Mae Frances Jones, Jimmy Dennis, Charles Burgess, Sharon Brooks Hubert, Jimmy Northcutt, Jackie Porch, Angie Frucci, Owin Frucci, Gene Ellison, Ernest Hapes, Evie Jo Harrison, Billy Smith, and Bobby Hayes.

Chilton County 4-H Club Boys Departing for Summer Camp

Recreation is a vital part in any well-rounded 4-H Club Plan of Work. Each summer a three-day camp is conducted and every bona fide 4-H Club member in the county is invited to participate. The official date for the 1954 4-H camp will be announced soon. Mr. Sellers has suggested that you begin making plans now to attend camp.

Another thrilling event for the Chilton County 4-H Club boys and girls is the big Annual 4-H Club Rally. Many community and teacher-leaders join in the celebration and work hard for a successful event. Various athletic events and amusing talent numbers highlight the day.

Summer recreational meetings on the river, where supervised swimming, handicraft, and games are conducted, are another enjoyable phase o fthe 4-H Club program.

Vermont School—

On Tuesday night, March 2, Vermont P-TA met in the lunchroom. There was a large group of men, women and children present. The president, Mrs. Vera Hayes, called the meeting to order at 7 p.m. The meeting was begun by the group singing, "The Little Church in the Vale." A Founder's Day program was presented with Mrs. Flossie Wills, program chairman, in charge. The devotional was given by Mrs. Mary Grooms of Isabella. Others taking part in the program were Mrs. Vera Hayes and Mrs. Mattie Robinson. A pageant was presented by Mr. and Mrs. Leslie Robinson, Mrs. Maggie Bice and Willie Grace and Evelyn Short, Era Maude May, Betty Rose Hayes and Sandra Kendrick. The song, "America," was sung, followed by prayer by Mr. W. E. Robinson. The president presided over the business meeting. A chicken supper was planned to be held in the lunchroom on Thursday night, March 18, proceeds to go to the P-TA treasury. The association voted to by covering for the counter in the lunchroom. All present enjoyed a light meal together and the social after the meeting.

Last Friday Vermont basket ball teams played in the tournament in Clanton. The boys played Thomas Junior High. The girls played Enterprise Junior High. They all enjoyed the day in Clanton.

Gurney Brasher of the second grade is absent from school this week on account of having the measles.

Jesus Faces the Cross.
Lesson for March 14: John 12: 20-32.

Golden Text: John 12: 25.

Jesus had been anointed at Bethany by Mary and he had entered the city of his fathers as the King, with a multitude that hailed him with glad acclaim.

There soon followed an incident that only John records, an incident that showed that Jesus was becoming a man of interest to the Greeks. For some of them stood in the temple gate and asked to see Jesus. The request was referred to Andrew, who, it seems, had become known as a man who had the happy faculty of being able to introduce men to Jesus. As Jesus faced the cross, this inquiry from gentiles must have given him strength and courage.

The Lord made it plain that as he was to suffer to be glorified, so his followers must share in his sufferings if they would be saved through him. The great paradox of losing one's life and saving it is worthy of all consideration. "Giving is life," a poet writes, "withholding is death."

As the shadow of the cross fell darkly across the pathway of Jesus, he prayed that God might save him from the dread hour, but then in heroic acceptance said, "But for this cause came I unto this hour." Then as he prayed that God's name might be glorified, there came a voice from heaven saying that God's name had been glorified and would be glorified again. When some said it thundered and others said an angel spoke to Jesus, he told them the voice had come from heaven for their sake. Then he declared that the judgment of the world had come, but that he would be lifted up to draw all men to himself.

Will Appreciate Your

VOTE and CONFIDENCE

In His Bid For Re-Election To

THE BOARD OF REVENUE AND CONTROL

The voters and taxpayers of Chilton County are no doubt familar with the sound financial condition of our county and with my efforts as a member of the county governing body to cooperate honestly and fairly with the other members of our Board in promoting economy, efficiency and progress in the affairs of our County. As a member of the Board of Revenue and Control since 1948 I have at all times recognized that our County government belonged to the people and that I was one of five of your fellow citizens elected by you to administer the affairs of our County. In this capacity I have tried to serve honestly and faithfully every taxpayer and every worth-while interest of our County which has been presented to our Board. On the basis of my record of service as one of your representatives on the Board of Revenue and Control I earnestly solicit and will appreciate your confidence in my bid for re-election in the coming primary election.

At the time I became a member of the Board in 1948 the County had a cash balance of $53,329.64 and owed accounts payable of $4,220.56. The County owed interest bearing indebtedness at that time of $85,971.06, so by simple deduction the County actually owed $46,131.10 more than the amount of money then on hand.

As of March 1st, 1954 the County had a cash balance of $211,940.62 and owed accounts payable of $13,702.51, no interest bearing indebtedness, no bonds, no warrants and no other kind of obligation, thus leaving a cash balance of $198,238.11 as of that date. Few Counties of our State can boast of a better record of its affairs.

I do not claim sole credit for our County's sound financial status, but I am proud that the members of the Board through co-operation and in keeping faith with the taxpayers have managed the affairs of our County in such a way as to pay off all past indebtedness and as of March 1, 1954 show a cash balance of $198,238.11. In addition to the above new and more modern road building and paving equipment has been bought and paid for by the County and during recent years the following road and paving construction program was started and completed by the Board of Revenue and Control:

1. Billingsley road to Autauga County line.
2. Montevallo Cut-off.
3. Lay Dam Road.
4. Hubbard road south to the intersection of Highway No. 22.
5. Verbena paving project.
6. Paving project at Coopers.
7. From Highway No. 22 to Stanton School.
8. Clanton to Enterprise School.
9. Jemison to Mars Hill Church.
10. Clanton to County Training School.
11. Highway No. 22 to Sardis Church.
12. Maplesville to Bibb County line.
13. Paving project at Thorsby.

The above facts are a part of the record of your Board of Revenue and Control during recent years. This record has been made through the co-operation of the members composing this body and through the co-operation and support of the taxpayers throughout the County. As a member of this Board I am proud to report this record of progress of our County's affairs and regret that we were not able to do more. There is a vast difference in looking at your County's affairs from the outside than viewing its affairs from the inside. It takes time, planning, effort and determination to become a good Commissioner. My experiences as a member of your Board places me in position to better serve you in the future, and I hope on the basis of my record and with a keen desire to be of further service to you that you will see fit to re-elect me for another term in the coming election.

The voters and taxpayers have a right to know what you may expect of me in the future and how I stand on issues which may now be before the Board or which may come up during this campaign. If honored by you by being re-elected I promise to give the best that is within me towards serving you and the best interests of our County's affairs.

You, as citizens of this county, are the highest authority in our County. You will choose the kind of government you want and as your representative I will administer it to the best of my ability. During the present State administration, through a local law, the old system of our government was changed to the present system. The record of achievement and the sound financial status of our County bespeak the value of this new system in dollars and cents to the taxpayers, and I would be less than honest with you and fair to myself if I did not say that we are getting fine results through its operation. But regardless of the system of government you choose I will, as a member of the Board, serve you as honestly and fairly as I know how.

On the question of the New Courthouse for our County I would like to state emphatically that I personally hope that our County will keep pace with progress and the other counties of the State in the matter of our public buildings and institutions. As a member of the Board I will vote to give the people an opportunity to vote on and express their wishes through a referendum election. That's all that any taxpayer can fairly expect of a member of the Board. I will abide by the majority verdict of such a referendum.

On the question of the By-pass of Clanton by Highway No. 31 I frankly state that I have not and so far as I know the Board has not taken any position for or against the By-pass question. I believe this matter is primarily to be settled by the citizens of the City of Clanton, and I will not take any position open or secret on the issue. I will abide by whatever the people of Clanton want in this matter.

I wish I could see and discuss our county's affairs personally with each and every voter and taxpayer of the County during this campaign, but since I will not be able to do that I invite your consideration of my experiences and qualifications as one of your representatives on the Board of Revenue and Control. For your vote of confidence I will be ever grateful to you and will do my best to serve you well.

Sincerely,
V. O. (Jack) Lenoir.

Keep Them Laying In Warm Weather

Auburn, Ala.—For maximum profits and minimum production costs keep those hens laying at a high rate this spring and summer.

According to API Extension Poultryman John Weeks, these are sure-fire ways to make your flock pay for its feed bill and the cost of growing pullets:

1. Provide adequate feed at all times. Don't throw birds out of production by cutting or skimping on mash and expecting them to supply feed needs by picking up waste grain, bugs, and worms.

2. Stimulate feed intake as hot weather approaches. It often helps to feed some wet mash at noon or a limited amount of pellets—about what the birds will clean up in 15 to 20 minutes.

3. Give birds plenty of cool, clean water. Keep water from becoming too hot by protecting pipes from the sun.

4. Be sure houses are dry and well ventilated. Put waterers on racks, and prevent wet spots from developing around them. Put in good litter at least eight inches deep, and feed some of the grain in it so hens will keep the litter worked and stirred well.

5. Check your management methods. Provide plenty of nests, feeders, roots etc.—also a special hopper of oyster shell and grit.

6. Cull the quiters. Be on the lookout for yellow legs, yellow beaks, and shriveled combs—all signs of loafing.

7. Wage war on parasites—lice, mites, and worms that sap the birds' strength and also your profits. See your county agent for control methods on these pests.

RE-ELECT

N. L. "Buck" Roberts

TAX ASSESSOR

"Here Is Where I Stand-"

To The Voters and Taxpayers:

All office holders seeking re-election must, of course, run on their past record as a Public Official. It is gratifying to me that no criticism has come my way regarding the way I have carried out the official duties of this office. I am proud to present my record to you, the taxpayers and voters.

The nature of my work in the tax office makes me feel that I have been in partnership with the taxpayers, working out their problems, and they in turn have assisted me greatly in my work. Keeping all the property in Chilton County listed and posted, on the tax records, is a mammoth undertaking. This work, of course, becomes more tedious and complicated each year. The title to your home or your farm actually may become in danger if these records are not properly kept and looked after. Our close association and cooperation to a common end leads me to the statement that the taxpayers themselves will determine as to whether or not my record is good or bad.

Many of the taxpayers today, bought their property, their home or their farm and began to pay taxes since I have been your Tax Assessor. Many of these young home owners and new taxpayers had their first experience in listing their property for taxation during my term as your Tax Assessor. You know that this was during the war or following the war when values of real estate were soaring and the cost of these homes and farms to these young people was much higher than what we older people had to pay for our homes and farms that we bought prior to the war and higher prices. It would have been easy indeed to have placed high tax values on the property of these new home and farm owners, but I felt throughout the years and still feel that it would have been morally wrong and bad faith on my part to let high tax values go on their property. I felt that they were entitled to this protection and that it was my duty in so far as I could to prevent tax values being placed on their property above that of the older property owners, who had property of equal or similar value.

I believe that the records in my office will prove the above statements to be substantially true. Too, I believe the records in my office will show that there is very little inflated value on property in Chilton County. Please do not misunderstand me, the power to place these values rest solely with the Board of Equalization and not with your Tax Assessor, however, your Tax Assessor, if he is on the job, can certainly prevent unjust and unfair values in most instances being placed on the books.

I wish to make the statement here that the Boards of Equalization during my term, each and every member of the board, have been most fair and cooperative in carrying out the work they were assigned to do. Their job is bad at its best and if you knew the conditions under which they had to work, their obligations to the taxpayers and the county and state always before them you would agree that they had done a praiseworthy job. Your county government is dependent upon the revenue, to a great extent, received from property tax. Your Board of Equalization is always conscious of this fact.

Now, two years ago we stopped requiring taxpayers to sign an annual return except those who had personal property on which tax had to be paid. Several good reasons led us to adopt this new system. The one big reason that brought me to adopt the new system, and the adoption of this system was optional on my part, was that it would eliminate practically all penalties on real estate for non assessment. Prior to the adoption of this new system thousands and thousands of dollars in penalty assessments had to be added on to the tax bills. The law required this. Under our new system, not requiring annual signatures on assessments, these penalties have been completely eliminated. Most penalties in the past have been on those taxpayers mostly who could least afford it. My feeling is much better that these people are not having to pay penalties on their property any more. We have not yet completed this change over, and lots remains to be done, but we are on our way and we feel that the system affords you greater protection and in the end you will be highly pleased with its success.

A man running on his record, but lacking in integrity, ability and a sense of public welfare—plus a feeling for people and their problems would not make a good public official. I think my integrity and ability has been proven and I do have a sense of public welfare. My feeling for people and their problems has been part of my make up and should be in the make up of every man seeking public office. This leads me, and I think justifies me to express my opinion regarding certain issues confronting the taxpayers of Chilton County. Too, the impression is rather wide spread over the county that all of the office holders in the courthouse are of one mind on certain issues, I wish to correct this wrong impression. I can only speak for myself. The creating of a huge debt for the purpose of building a new courthouse is going to be a great issue in this campaign. Some will say that I am running for Tax Assessor and that this is none of my concern. As a taxpayer and as Tax Assessor dealing with all the taxpayers in Chilton County and with their welfare and well being in my make up, I feel that I am completely justified in letting the taxpayers know where I stand with reference to this issue. I am opposed to placing this County in a huge debt until the people have first approved of the debt in an election. I think the people should approve this debt before it is created. There are several reasons why I take this stand. The people are going to have to pay this debt and I think they should have a say as to whether or not they want it. Another reason is that if the people vote a bond issue the interest on the money would not be as high as it would be otherwise. I deal with the taxpayers and I see the hardships and heartaches it is for some of our people at times to pay their taxes and there is no guarantee that if a huge debt is created that these people's taxes won't be raised. I seriously doubt that a new courthouse could be built without an increase in taxation. I simply do not believe that it can be done within our present revenues. If we attempt to do it out of our present revenues it is my opinion that some other essential services now being rendered will have to be curtailed or maybe completely eliminated. This is a serious question and should receive our best and most careful thinking.

I stated in both the county papers two years ago that I was opposed to placing this county in debt without the approval of a majority of the people. I have not changed my mind. I refer to this statement two years ago because I want it clear that this is not a new and political thought of mine.

As most of you know I was born in Chilton County and have lived my entire life time here. Many times each year I have had occasion to visit in different communities in the county, studying the conditions and gaining knowledge of the people, their families and their background. This has aided me greatly in my work and I think this experience would be a great help to any one serving you as Tax Assessor. It has been part of my job to know Chilton County and its people.

I promise you if re-elected I will do my very best.

Sincerely,
N. L. "Buck" Roberts

Psalm Twenty-Three—

In the 23rd Psalm there are 7 Divine Freedoms:

Freedom from want: "The Lord is my shepherd I shall not want."

Freedom from Hunger: "He maketh me to lie down in green pastures."

Freedom from Thirst: "He leadeth me beside the still waters."

Freedom from Sin: "He restoreth my soul; he leadeth me in the path of righteousness for His name's sake."

Freedom from Fear: "Yea, tho I walk through the valley of the shadow of death, I will fear no evil; for thou art with me; thy rod and thy staff they comfort me."

Freedom from enemies: "Thou preparest a table before me in the presence of mine enemies."

Freedom to live abundantly: "Thou annointeth my head with oil my cup runneth over. Surely goodness and mercy shall follow me all the days of my life."

—John Summerfield Wimblish

Christian Giving—

To your enemy—Forgiveness
To your opponent—Tolerance
To your friend—Helpfulness
To your child—a Godly example
To your mother—Christian conduct
To your father—Honor
To yourself—respect

Jr. GA'S Observe Season of Prayer—

On Friday afternoon March 5, the Junior GA's met at the church to observe the season of prayer for Home Missions and the Annie Armstrong offering.

A large map of the United States was at the front of the room. A U. S. flag and a Christian flag was at either side of the map. An open Bible was on a table. The theme of the program, "Freedoms Holy Light." Lois Aan Woodley gave the introduction, mentioning the freedom which one can enjoy here, how the face fathers fought that all might have freedom.

The group discussed the hymn "America" then sung it.

Rose Emma Cofer gave the part, "Indian Americans." And Lois Ann Woodley prayer for this people.

Others taking parts, Dian Lewis, discussing Europeans, Carol Brasher, telling about the Russians; Martha Jo Willis giving a part about the Spanish speaking people; Mrs. Tom Cost led in prayer for the group. Della Cost presented a part on the Japanese and Norma Jean Collins on the Chinese, with Doris Cofer leading in prayer for the group of people. Silent prayer was given for others who need the gospel.

The group pledged allegiance to both flags. As America was sung each one placed their offering on the table before the map and by the Bible.

The last verse of America was sung as a prayer.

WMU Meeting—

Members of the WMU met at the church Monday night, March 1st to observe the season of prayer for Home Missions. Mrs. Nell Jones was program leader.

The theme for the program "Freedom's Holy Light" for European Americans, for Ooiental Americans, for Indian Americans, Safe Guards to Freedom and Travers of Freedom and light were topics discussed by members.

One verse of these songs were sung. How Firm a Foundation. Come Thou Almighty, King, Make Me a Channel of Blessings, and Faith of Our Fathers.

Mrs. Jones gave a short sketch of the life of Miss Annie Armstrong, for whom the Home Mission program is named. Others taking parts and leading in prayer, Mrs. Edna Reynolds, Mrs. George Naish, Mrs. Tom Cost, Mrs. Jural Peterson, Mrs. B. C. Lenoir, a free will offering was made.

Mrs. I. H. McNeil, Sr. Entertained Club—

The March meeting of the Home Demonstration Club was held at the home of Mrs. I. M. McNeill, Sr., Tuesday March 2nd. Members enjoyed a covered dish luncheon at 12:30 o'clock. The meal consisted of baked pork chops, slaw, candied sweet potatoes, rolls, pine apple, up-side down cake and coffee.

The president, Mrs. Elena Cost, called the meeting to order and gave the thought for the month. "Difficulties? What are difficulties?," Just things to overcome."

The devotional was given by Mrs. McNeill, who read Matt. 16:20-24 and led in prayer.

Mrs. Tom Cost read the story of the hymn, "My Hope is Built on Nothing Less," then she led the group in singing this hymn.

Mrs. Johnnie Lane gave a demonstration on Flower and Vegetable gardening.

Mrs. Lester Fate gave a report on rural youth. Plans were completed on a trip to Bellingrath Gardens on March 11th. Other clubs will go on that date.

Mrs. Cost reminded the members of the dress revue to be held in April, also of the pennies for friendship.

Members responded to roll call by naming a favorite magazine. The club collect was read in unison, then adjournment. Present, Mrs. Lester Pate, and small daughter Velera Nell, Mrs. Edna McNeill, Mrs. Myrtle Jackson, Mrs. Lois Woodley, Mrs. George Naish, Mrs. Tom Cost, Mrs. Edna Cost and the hostess.

Della Cost Celebrated Birthday—

Friday night was a very lucky one for Della Cost, for her mother Mrs. Elena Cost entertained a group of friends on her 10th birthday.

The party began at 6:00 o'clock with a delicious supper, as the menu indicates, Swiss steak, gravy, creamed potatoes, string beans, lettuce and tomato salad, stuffed eggs, relishes, rolls, cake, ice cream and iced tea.

Following this meal, the honoree opened her gift wrapped packages brought by the guests. The birthday cake was in lavender and white, favors were small pick-a-ninny dolls and miniature salt boxes.

These young girls enjoyed the show at the drive-in. Lois Ann Woodley, Teria Sue Dawson, Sandra Lee Reger, Sarah Ellison and Joan Northcutt and the honoree. A slumber party followed the show.

Would you trade a Penny for a Dollar?

● You can if you use Natural Chilean Nitrate of Soda for your top-dressing and side-dressing needs. It costs a little more because it's worth more. But the difference in *cost* usually can be measured in pennies per acre, while the difference in *value* often amounts to dollars per acre.

Chilean "Bulldog" Soda gives you generous extra value. The nitrogen is 100 per cent nitrate. It's 100 per cent available (quick-acting); 100 per cent dependable. The minor elements make crops stronger, healthier. The sodium—26 pounds in every 100-pound sack—is a key to maximum returns on your entire fertilizer investment. It offsets the bad effects of acid-forming fertilizers...increases the efficiency of mixed fertilizers containing them. It releases "locked-up" potash in the soil...increases the availability and efficiency of soil phosphate...reduces potash, calcium and magnesium losses by leaching...develops larger, deeper root systems.

Sodium builds up the productivity of your land—*more* each year. It's an essential element for some crops...beneficial to most and necessary for maximum yields of many.

Pennies-per-acre difference in *cost* may mean dollars-per-acre difference in *value* to you. Chilean "Bulldog" Soda is the best fertilizer your money can buy. Use it for all of your top-dressing and side-dressing needs.

GOSPEL MEETING

CLANTON

Church of Christ

March 14-20 ☆ 7:30 p.m.

JAMES E. CANNON, Minister

We cordially invite you to attend a series of gospel sermons by Brother James E. Cannon, of Owensboro, Kentucky, at the Clanton Church of Christ, beginning Sunday morning, March 14, and continuing each evening at 7:30 through Friday, March 20.

We, members of the Church of Christ in Clanton, are frequently confronted with questions from non-members of the church which indicate that we have failed to properly inform the people of this area of the purpose, principles, doctrine, and history of the Church of Christ.

Briefly, we want to tell you something of the Church of Christ: The Church of Christ had its beginning in the city of Jerusalem about the year A. D. 33. (Luke 24:49; Acts 2:47). Due to the persecution of the Church in Jerusalem, the disciples were scattered abroad and went everywhere preaching the word. (Acts 8:1). As a result of the preaching of the apostles and early evangelists, Churches of Christ were quickly established throughout the Roman Empire. Because of severe persecutions these congregations were forced to go into hiding and flee to the wilderness. (Revelation 12:6). This period of hiding is known as the Dark Ages in secular history.

Following the Dark Ages came the Renaissance and the Reformation, which were attempts to correct errors and abuses in the then existing religious organizations.

Early in the 19th century there began a movement in the United States to remove all human creeds and doctrines of men from religion and to revert to the Bible as the sole and complete source of authority in religion. Leaders in this movement were Walter Scott, Barton W. Stone, John T. Johnson, Samuel Rogers, John Smith, and Alexander Campbell. These men were not the founders of the Church of Christ but were merely restorers. Christ was the founder and is the head of the body, the Church. (Colossians 1:18). "In the beginning was the word, and the word was with God and the word was God." (John 1:1). This word is the seed of the kingdom, which is the Church, and when this word is preached in its purity and entirety without human doctrines and opinions of men, it produces Christians which make up the body of Christ, or the Church of Christ. (Matthew 15:9).

We regard the Old and New Testaments as being inspired of God. (II Timothy 3:16). Under the Christian dispensation, the New Testament is the sole authority for Christian living, the old Law of Moses being nailed to the cross of Christ. (Colossians 2:14). As members of the Church of Christ, we strive to continue steadfastly in fellowship, in breaking of bread and in prayers. (Acts 2:42).

In the New Testament worship we are commanded to sing (Colossians 3:16); teach the word of God (Matthew 28:19-20); contribute of our means (1 Corinthians 16:1-2; and to pray (Acts 1:42) and partake of the Lord's supper (Acts 20:7). Instrumental music is not used because it is not taught as an item of worship in the New Testament.

Each congregation of the Church of Christ is self-governing, being presided over by elders and served by deacons from its own congregation. The Elders and Deacons are guided solely by the Bible. We can find no Biblical authority for conferences, associations, popes, presiding elders, or any central form of government; therefore, we have none.

Again we urge you to come out and be with us in this series of meetings, March 14-20, each evening at 7:30, and also in our regular services on Sunday morning, Sunday evening, and Wednesday evening.

Receives 15 Year Plaque

Above is shown G. R. (Dick) Borcherding, Sanitone engineer, presenting to F. Leo Thompson, operator of the Clanton Laundry & Cleaning Company, an award for excellence in his trade. (By MRS. EZRA LEE LAWLEY)

Mr. and Mrs. Horton Walker, two children, Carolyn and Joel of Prattville, Ala., visited Mr. Walker's sisters Mrs. Sam Shoults and Mrs. Willie Hathcock here Sunday.

Mr. and Mrs. Quinton Mitchell of Maplesville, visited relatives in this community Sunday.

Mr. and Mrs. Sam Shoults expects their son T-Sgt. Charles Shoults this week to return here from Indiana where he has been for the past four weeks attending F-86 Jet bomber school. His wife, Mrs. Betty Shoults and two children, Vicky and Randy have spent four weeks with her parents, Mr. and Mrs. Rube Guthrie at Plantersville, Ala. After a few days, they will return to Selfridge Air Force Base, Michigan. Where Sgt. Shoults has been stationed since returning from Korea.

Mrs. R. C. Latham and two children of Birmingham are spending a few days here with her father and mother-in-law, Mr. and Mrs. Robert Latham.

Mr. and Mrs. Frank Golden of Marion, Ala., spent one day last week here with Mr. and Mrs. Claud Hathcock.

Shoults Home Demonstration club will holdtheir March meeting at the home of Mrs. Sam Shoults.

Mr. and Mrs. George Shoults and sons Jimmy and Freddie spent last week end in Birmingham, Ala., with their son, Mr. and Mrs. Joe Shoults and son Eddie.

Saturday night of last week Mr. and Mrs. Coleman Smith spent the night with his parents, Mr. and Mrs. Charlie Smith of Stanton.

We wish to express our heartfelt sympathy to the friends and loved ones of the Sims family due to the death of the wife and mother, Mrs. Sims.

Many from this community attended the Happy Hal Burns talent show at the Maplesville High School Tuesday night. Every one enjoyed it very much. It seems that Maplesville has great talent and under the supervision of Mr. DeRoberts the band is able to play most anything they want to. The Rush singers from Stanton won first prize and Mr. Jim Moates won third prize.

Mr. J. H. Lawrence had an operation on his eye last week. At this writing he is doing fine. We hope he has a complete recovery with his eye.

A-2c Bob McKinney and wife and Harold Motley attended the basket ball tournament in Selma, Ala., Thursday afternoon.

Mrs. Messer Smith, Mrs. Robert McAfee and Mrs. Coleman Smith made a business trip to Clanton Thursday morning.

Mr. W. M. Oden is very ill at this writing. He is with his son Fred, in Montgomery. The doctor has little hopes for him, but he has been very sick before and we hope that he will recover this time. Mr. and Mrs. Crit Oden spent the week end in Montgomery with his father.

Mr. and Mrs. Messer Smith and Mrs. Annie Sewell spent the week end in Birmingham with Mr. and Mrs. Hudson Smith and family. Their son Curtis Smith who is in the Air Force in Alaska made a telephone call to them from Alaska. They are hoping it won't be too long before he will be home again.

Rev. Joe Davis wishes to tell his friends and neighbors that there will be a John Deere demonstartion at his home Saturday morning, at 8:00 o'clock. Those wishing to learn more about tractors will enjoy seeing it demonstrated.

The Senior play which was held at Maplesville two weeks ago was such a hit that the PTA of Stanton has asked them to bring it there and stage it. So they will appear at Stanton school Thursday March 11, and those who missed it will have a chance to see it there.

There was a nice crowd out for church Sunday morning. Athough the weather was very cool. We ask everyone to come out every Sunday morning to worship services. You are sure to receive a blessing from it.

Miss Mary Lee and Sandra Lawley spent Sunday with Joyce McAfee.

Mr. Johnnie Hicks of the University of Alabama, spent the week end with his uncle Mr. John Hicks.

Mrs. Lloyd Garner of Lawley attended church services Sunday and spent the day with her in-laws Mr. and Mrs. Albert Garner.

Mrs. Bessie Motley and Miss Claudie Mae Coleman spent Thursday with Mrs. Sherman Motley.

Mr. and Mrs. Joe Shoults and son, Eddie, from Birmingham, visited his parents Mr. and Mrs. George Shoults Saturday.

The day of prayer will be held at the church in the very near future. All the organizations will meet that day, the RA's, GA's WMU and everyone is invited to come. The date will be set later.

Mr. W. M. Oden died in Montgomery at the home of his son, Mr. Fred Oden Sunday afternoon, Mar. 7, at 1:00 o'clock. The funeral was held at the Mulberry Church at Isabella. The burial was in the Methodist cemetery. Spigener Funeral Home was in charge. Surviving are the wife, several children and grand children and great grand children. We wish to extend our sympathy to the loved ones.

The Maplesville Chapter of the Beta Club had its initiation March 2. Those initiated were Joyce McAfee, Mable Motley, Horace Payton, Patsy Lovelady, Bobby Latham and Dolly Chandler.

Mable Motley has been on the sick list. She was absent from school two days last week due to a very bad cold which she has. We hope she will soon recover.

Mr. and Mrs. J. D. Wilson and children, Dale, Linda and Kenneth, of Pensacola, Fla., visited her parents, Mr. Walter Lawley a few days of this week. They came up due to the death of Mrs. Wilson's grand father, Mr. W. M. Oden.

Linda Miller Celebrates Birthday With Party

Mrs. Ray Miller honored her daughter, Linda, on her fourteenth birthday with a party at her home on Lay Dam Road Wednesday night, March 3.

Floral arrangements of hyacinths, snapdragons, and jonquils were placed throughout the house and added much brightness to the occasion.

The center of attraction was the magnificent snow white, two tiered, birthday cake embossed in pink and green and centered with a cluster of fourteen pink candles. The lace covered table was further decorated with tall burning tapers. The color scheme was carried out in the mints, nuts, candies and punch.

Games were enjoyed throughout the evening. Of special interest was a "scavenger hunt" which brought many thrills to everyone.

The big event of the evening came when Linda blew out the fourteen candles on her cake and the group sang "Happy Birthday to her.

After the guests were served they gathered around and enjoyed seeing Linda open her many lovely gifts.

The guests were as follows: Thomas Swanner, Dwight Studdard, James Studdard, Charles Baker, Edwin Mullins, Edsel Robinson, Kenneth Messer, Kenneth Roy, Carole Popwell, Dean Dennis, Zane Hogue, Elaine Hogue, Judy Miller, Priscilla Hardy, Marietta Propst, Betty Patterson, Pat Traywick, Caroline Dickinson, Elizabeth Mims.

Around OUR HOUSE

by Kathryn Tucker Windham

At supper the other night the seven year old member of the First Grade was giving a full report on all the things she had learned at school, quite an array of facts.

The five-year-old listened for a while, and then it became obvious that he to wanted to share in the parade of knowledge. At the first pause, he blurted out, "I don't even go to school, but I bet I can spell fourteen words." The seven-year-old doubted his boast, so, with the head of the house keeping score, he began spelling.

The going got harder and harder and by the time the five-year-old had spelled thirteen words, it looked as if he were stuck. He thought and thought, looking more and more troubled. Then his face spread in a broad grin, and he yelled, "YMCA and that's fourteen words!"

* * *

Our neighbor around the corner, who likes to get things done in a hurry, was taking the clothes down from the line when we stopped by her back yard the other afternoon. She had pinned all four corners of a sheet to the clothes line and was putting the other clothes into the bag the sheet made.

"All I have to do is take the sheet down from the line, and all my clothes are in one bundle ready to be taken inside. It's the quickest and easiest way I've found to get the clothes line cleared," she said

* * *

We were telling the neighbor down the street, the one with the big family, about this quick method of bringing in clothes, thinking she might like it, but she frowned on such a system. "I take three baskets out to the clothes line when I am ready to bring in the clothes she said. "In one basket I put all the towels, wash cloths, sheets, pillow cases and bedspreads. In the second basket go the pieces to be sprinkled and ironed, and in the last basket go the socks, underwear and pieces to be dry ironed. Sorting the clothes before I take them inside is much less trouble than taking them into the house and having them stacked on the bed or spread all over chairs waiting to be sorted and ironed."

* * *

This neighbor uses something of the same system of sorting her family's dirty clothes, too. In her laundry room she has several sturdy cartons near her washing machine. Every day she sorts the clothes into the cartons in the order in which they will go into the washing machine. When she is ready to wash, all she has to do is dump the contents of the cartons into the washer.

* * *

When we stopped by to see her the other morning she was painting the last designs on four bushel baskets she had decorated to hold clothes in her laundry room She had stenciled a simple design on each panel of the baskets and she painted them red, white and blue [illegible] wrapped the wire [illegible] with pieces of clothes line, giving the baskets a nice finish.

Her project turned out so well she is planning to decorate more of the baskets to use for holding the and as waste baskets children's toys, as magazine racks

MINUTES OF THE BOARD OF REVENUE AND CONTROL OF CHILTON COUNTY, ALABAMA OF FEBRUARY 22, 1954

Board Meeting
February 22, 1954

The board of Revenue and Control of Chilton County, Alabama met in regular session at the county courthouse at Clanton, Alabama on February 22, 1954, at 9:00 o'clock, a. m. The following were present: M. D. Tingle, Judge of Probate and Chairman of said board, and the following Associate Members of said board: V. O. Lenoir, A. H. Smith, Sherman Motley and J. M. Dunlap. Judge Tingle presided as Chairman of the meeting and, a quorum being present, declared the meeting open for the transaction of business.

WHEREUPON, the Clerk of the Board read the minutes of the meeting of the Board held on February 8, 1954, whereupon the Chairman of the Board asked for corrections or additions to said minutes, there being no corrections or additions to said minutes and the same being correct, Mr. Motley made a motion that said minutes stand adopted as read, whereupon Mr. Lenoir seconded said motion, which motion was unanimously carried, and all the members of said board affixed their signatures to said minutes in the presence of the Board and the Clerk.

Mr. Dunlap offered the following resolution for adoption; which was duly seconded by Mr. Motley

BE IT RESOLVED AND ORDERED: There is hereby established a public road leading in a northeasterly direction off the old Higgins Ferry Road from a point where the present road leading from the present Higins Ferry Road to the present gravel pit in a northeasterly direction following the ridge approximately 1,000 feet, more or less, to the present road commonly known as the Johnnie J. Johnson road. Said roadway being and lying in Sec. 27 and 28, Township 22 North, Rangel6 East and crossing property belonging to the Alabama Power Company.

BE IT FURTHER RESOLVED AND ORDERED: That the County Engineer forthwith proceed to open and grade said road.

AND BE IT FURTHER RESOLVED AND ORDERED: That said road be and is hereby declared and established as a public road to be used by the citizens of Chilton County and the public at large.

AND BE IT FURTHER RESOLVED AND ORDERED: That the Chairman of the Board forthwith record in the office of the Judge of Probate of Chilton County, Alabama a right-of-way deed to said roadway.

The above stated resolution was adopted by a unanimous vote of all the members present and the Chairman declared the resolution duly adopted.

Mr. Dunlap offered the following preamble and resolution for adoption; which were duly seconded by Mr. Smith:

WHEREAS, the Board of Revenue and Control of Chilton County, Alabama, is desirous of constructing or improving, by force account, by contract or both under the provisions of the "Farm to Market Road Act of 1943", a section of road included in the Chilton County Road System, approved by the Alabama Highway Director under date of ——— 19—, and described as follows:

Beginning at pavement in Verbena, Alabama, running west along FAS Route 690 and connecting to FAS Route 689, approximately .75 of a mile east of Enterprise. A distance of approximately 6.5 miles.

WHEREAS, the County agrees to conform to all the provisions of the said "Farm to Market Road Act of 1943", and to section 14 of said Act in particular, which provides that "the county shall make provision for the maintenance of such road thereafter in accordance with standards established by the Bureau of County Aid, and enter into contract with the State therefor," with the full understanding that failure on the part of the County to satisfactorily maintain any section of road that may be constructed in this County under the provisions of said Act, shall be sufficient cause for the suspension of any further benefits to this County from the operation of such act until such roads or section thereon, shall be again placed in a state of maintenance satisfactory to the State Highway Department.

NOW, THEREFORE, BE IT RESOLVED, that application be made to the Bureau of County Aid, of the Alabama State Highway Department, to investigate the proposed improvement, and if it be found to conform to the eligibility requirements of the "Farm to Market Road Act of 1943" that the provisions of said Act be in voked to accomplish the said improvements at the earliest practicable date.

The above stated preamble and resolution were adopted by a unanimous vote of all the members present and the Chairman declared the resolution duly adopted.

Mr. Smith offered the following preamble and resolution for adoption; which were duly seconded by Mr. Dunlap:

WHEREAS, on February 17, 1954, J. D. Bullington, County Engineer, filed Requisition No. 1625 with Harold H. Smyer, Purchasing Agent of Chilton County, Alabama, requisitioning paving equipment to be used in the maintenance and construction of the public roads in Chilton County, and

WHEREAS, Invitations for bids were posted on the bulletin board in the courthouse and sent to three prospective suppliers at least five calender days before the final date for submiting said bids, and

WHEREAS, said Board obtained three written, sealed, competitive bids for said equipment, and

WHEREAS, said Board requested information from the Division of Purchases and Stores of the Department of Finance of the State of Alabama concerning their price to the state for such equipment and

WHEREAS, said State Purchasing Agent failed to furnish any information in regard to said purchase, and

WHEREAS, said bids were opened publicly at the time and place stated in said invitation, and

WHEREAS, J. D. Pittman Tractor Company bid $7,500.00; Robert P. Stapp, Inc., bid $8,546,00 and Reynolds and Shaw bid $7.000.00 for said paving equipment , and

WHEREAS, the bid of Reynolds and Shaw, Clo, Alabama, was the lowest and best responsible bidder,

NOW THEREFORE BE IT RESOLVED AND ORDERED: That the bid of said Reynolds and Shaw be and the same is hereby accepted by the Board and the purchasing Agent is hereby directed to issue a purchase order for the same in the amount of $7,000.00.

The above stated preamble and resolution were adopted by a unanimous vote of all members present and the Chairman declared the resolution duly adopted.

WHEREUPON, the Clerk of the Board presented to the Board a list of claims and accounts filed with him against the County. Whereupon the Board proceeded to audit all such claims, and it appearing to the Board that each of the following claims are itemized and sworn to, as provided by law, with evidence of delivery of each item to the County, as provided by law, that the materials, machinery, equipment, supplies and services purchaesd by the County for use on public roads, bridges and ferries were inspected and approved by the County Engineer, as provided by law. And it further appearing to the Board that all said claims are just, due, correct and unpaid and that no part thereof has been previously paid. Large, Heavy Oranges Give More Juice

Looking for juicy oranges? Then follow these buying tips from Dorothy Overby, API Extension consumer education specialist.

"Larger fruit usually gives more juice than smaller oranges selling for a little less per dozen," explains the home leader. "Large oranges contain about six cups of juice per dozen, smaller ones about four cups.

"Weigh oranges in your hand and select those that are heavy for their size. Be sure to choose fruit with a smooth skin free of cuts and bruises. And remember, color is no particular guide since it does not affect interior quality."

What You Don't See

from the top of this Radio Relay Tower

You see a familiar scene — a peaceful, prosperous Southern countryside.

What you *don't see* is the miracle of microwaves. Yet the miracle is there.

By means of microwaves, radio relay speeds Long Distance telephone calls and television programs through space without wires. It can carry hundreds of calls at one time.

Advances like radio relay are the work of telephone scientists and engineers, who are always seeking and finding better ways for us to serve *you*. But it takes more than this. To get investors to supply the money to continue expanding and improving telephone service requires a fair profit on the money invested in telephone property.
